Thomas University Mission

Vision Statement

Thomas University will be a national leader in innovative teaching and interactive technology that engages students in creative problem-solving for the Information Age.

Mission Statement

Thomas University is the school of choice for students in undergraduate and graduate programs to prepare for successful careers and responsible leadership in a rapidly changing and complex world. The faculty and staff value students' individual strengths, capabilities, and will to succeed, providing the means by which they will achieve personal and professional transformation.

Values

Thomas University values

- ...dynamic learning environments that engage students in their intellectual and personal development;
- ...rigorous intellectual studies that require creativity, discipline and personal responsibility;
- ...diversity and its use as a learning tool to teach that the world is a better place when respect for the individual is central to our relationship with others;
- ...community involvement, including cultural and artistic experiences, that enriches the lives of our students, as well as their fellow citizens;
- ...individual attention to all students;
- ...a lifetime connection with our students.

Role and Scope Statement

As a private, not-for-profit, non-sectarian, coeducational institution, Thomas University is committed to providing quality educational opportunities to both traditional and non-traditional, U.S. and international students. The University offers associates, bachelors, and master's degrees. The academic mission focuses primarily on providing students with professional preparation with a strong liberal arts and sciences foundation. Students develop the capability to think critically, discover information, foster community, and communicate effectively, enabling them to adapt to changing demands over time.

Nondiscrimination Policy

Thomas University is an Equal Opportunity University open to any qualified individual without regard to race, religion, sex, age, color, national or ethnic origin, or disability. Pursuant to all applicable federal anti-discrimination laws and regulations, Thomas University does not discriminate against any of the protected categories of individuals in the administration of its policies, programs or activities. This non-discriminatory policy includes admission policies, scholarship and loan programs, employment practices, and athletic and other school-administered programs.

Diversity Statement

At Thomas University, we believe that an environment that fosters respect for the diversity among our faculty, students, and staff strengthens the institution, stimulates creativity, promotes the open exchange of new ideas, and enriches campus and community life. Actions that serve to intimidate others or discriminate against individuals or groups are in conflict with Thomas University's educational mission to maintain and enhance an intellectual, social, and work environment free from intolerance and discrimination. In addition to and including all applicable state and federal laws prohibiting discrimination, Thomas University is committed to creating an educational environment that promotes academic excellence where diversity is valued and individuals are treated with respect, regardless of race, gender, age, sexual orientation, religion, ethnicity, or disability.

Confidentiality of Student Records

Thomas University complies with the Family Educational Rights and Privacy Act of 1974 ("Buckley Amendment," 20 U.S.C. 1230, 1232 g) to better guarantee the rights of privacy and access to student records.

Students with Disabilities

Students with disabilities are responsible for making sure that the Thomas University Office of Disability Support Services is made aware of his/her disability requiring accommodation in his/her educational process. Any student requiring assistance beyond the regular classroom needs is urged to speak with the instructor about the nature of the disability at the

beginning of the term. Not all disabilities are obvious and may require documentation, as is the case with learning disabilities. Students with disabilities should contact Pauline Patrick, Director of Disability Support Services, in Smith-Bonvillian Hall for classroom accommodations. Students are responsible for requesting accommodations in a timely manner so that instructors, professors, and coordinators may plan for those accommodations, for more details see [Academic Accommodations for Students with Disabilities](#) on page 33.

Accreditation & Authorization

Thomas University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate, baccalaureate, and master's degrees. Contact the Southern Association of Colleges and Schools Commission on Colleges 1866 Southern Lane, Decatur, GA 30033 or call 404-679-4500 for questions about the accreditation of Thomas University.

The Thomas University Bachelor of Science in Business Administration program and Master of Business Administration program are fully accredited by the International Assembly of Collegiate Business Education (IACBE).

International Assembly of Collegiate Business Education
P.O. Box 3960
Olathe, KS 66063

The Master of Science in Clinical Rehabilitation and Mental Health Counseling degree is accredited by the Council on Rehabilitation Education (CORE) and in candidacy for accreditation by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Thomas University is authorized by the Professional Standards Commission of Georgia (GaPSC) to offer teacher certification programs for Early Childhood Education, Middle Grades Education, and Secondary Education. All advanced preparation programs offered by Thomas University as a GaPSC-approved university are accepted by the GaPSC for the purposes of certificate level upgrades.

The Thomas University Bachelor of Science in Medical Laboratory Science Program is fully accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

National Accrediting Agency for Clinical Laboratory Sciences

University Facilities

A Tobacco-Free University

Smoking and any other use of tobacco or “tobacco-like” products is prohibited on university property. “Smoking” is defined as the burning of a cigar, a cigarette, pipe or other device containing tobacco or any “tobacco-like” substance. “Other use” includes snorting, chewing or spitting of smokeless tobacco, snuff and similar substances. “University property” includes all real estate owned, leased or controlled by the university, including the grounds, playing fields, walkways, roadways, parking lots and areas in and around the perimeter of any building. This policy also applies to privately owned vehicles on university property.

Campus

Thomas University, founded in 1950, is located on the site of the former Birdwood Plantation. Birdwood was initially developed in 1932 as a winter home for the Right Honorable William Cameron Forbes, former Governor General of the Philippine Islands and Ambassador to Japan. The original buildings are a historical feature of today’s campus. The manor house, which is on the National Historic Register, has been renovated and now serves as the Forbes Administration Building. The original dining room, kitchen, and guest rooms serve as the faculty annex and are connected to the manor house by a colonnade. The annex provides space for administration and faculty offices. The original carriage house has been remodeled for use as the business office. Since 1950, several buildings have been moved onto the campus, including the Birdwood Chapel, which was originally the Mount Carmel Primitive Baptist Church, and several classroom buildings. The campus facilities include sports and recreation areas, and are currently undergoing many expansion projects.

In 2009-10 the campus grounds were extensively upgraded and beautified. New entries, parking lots, sidewalks, lighting, and abundant landscaping contribute to the traditional pastoral campus design. A highlight of this campus design is the John and Beth Wright University Park, complete with a lake.

Campus Facilities

Within about a 2 mile radius, TU has 74 acres. They include the Forbes campus; the Magnolia Campus; the Trails; the Pinetree Residence Hall; and two ball fields.

Buildings located on the **Forbes campus** include:

Academic Complex. The Academic Complex, built in 1985, is comprised of the library; an ARC computer lab; classrooms; and biology, chemistry, and physical science laboratories. In addition to print and electronic research materials, the library houses two computer labs, a computer classroom, a Mac Lab, and the Career Center. The library also houses the offices of the Director of Library and Information Services, university librarians and staff, and the Academic Technology Specialist.

Balfour Chapel. The chapel, which formerly served as Mount Carmel Baptist Church, was moved to the campus of, then, Birdwood Junior College in 1952. It has now been moved from its original setting, and once renovated and returned to its original purpose, the chapel is part of the Ben Grace Historic Quad, named for the longtime supporter and Trustee Emeritus of the university.

Birdwood Annex. The Birdwood Annex was constructed in 1932 as a guesthouse on the Forbes Estate. It is connected to the Forbes Administration Building by a two-story colonnade. The Birdwood Annex houses, the Vice President for Advancement, the publications office and public relations office and Alumni Affairs.

Business Services. The building in which the university’s Business Service is located was originally the carriage house for Ambassador Forbes, an avid polo player. This building is one of the last of the original buildings of Birdwood Plantation and is located on the east side of the campus. It has been remodeled to house the offices of accounts receivable, accounts payable, purchasing, and information technology.

Campus Center. Constructed in 1996 and renovated in 2009, this building is located near the Forbes campus entrance. It houses the Hawk’s Nest (food service), offices for the Registrar and Staff, and the Campus

Connection Center (Spirit Shop, e-bookstore and Student Information Center). The Campus Center Classroom is also housed here.

Education Building. This building houses the Division of Education and was renovated in 2000 and again in 2009. Included in this building are two classrooms, one of which is a computer lab, and faculty offices.

Forbes Hall. Forbes Hall, located near the west entrance, was built in 1932 and was the original summer residence of U.S. Ambassador Cameron Forbes. This building houses the offices of the President, Executive Vice President and Provost for Academic Affairs, Senior Vice President of Finance and Administration, Associate Vice President of Academic Affairs, Director of Academic Operations, and Director of Human Resources.

Ireland-Poe Building. The Ireland-Poe Building was renovated in 2007 and again in 2009. It currently houses the Division of Science.

Kathryn S. Read Recreational Complex. The Read Recreational Complex, located near the soccer field at the Millpond Road entrance, includes a tennis court and a volleyball court.

Magnolia Building. The Magnolia Building was constructed in 2003, and was renovated in 2010 and again in 2013. It contains 2,688 square feet. This building houses the Academic Resource Center (ARC) and the Geospatial Analysis for Planning and Preservation Center (GAPP), and faculty offices.

Maintenance Building. The maintenance building was constructed in 1993, and is located adjacent to the Smitha Fine Arts Building. The functions of plant operations, maintenance, renovations, and security are the mission of the Director of Physical Plant, maintenance staff, and custodians whose office is in this building.

Outdoor Playhouse. The outdoor playhouse was constructed in 1995 and has been renovated in 2010, to provide an outdoor stage and presentation area. This facility is used for campus plays and other performances.

Philip G. Rust Science Complex. The Philip G. Rust Science Complex was constructed in 1998, and is connected via a breezeway to the Academic Complex. This building includes five classrooms, two laboratories, and a lab preparation room.

Rehberg Soccer Field House. The Rehberg Soccer facility was constructed in 1999. It houses a concession area, public bathrooms, team dressing areas, storage, and showers.

Smith-Bonvillian Hall. This building was constructed in 2013. It is a two-story 19,000 square-foot building creating the western perimeter of the campus's Academic Quadrangle. It includes the Flowers Executive Classroom, a tiered auditorium with 124 seats and state-of-the-art presentation technology for conferences and events, three additional classrooms and three conference rooms. Offices for the Division of Counseling and Psychology, the Division of Criminal Justice, the Division of Nursing, and the Division of Social Work are also housed in Smith-Bonvillian Hall. Connected to the main building by a covered breezeway is the Davis Annex which houses offices for the Division of Business and the Division of Humanities. The total facility provides 34 faculty offices.

Student Affairs. In 1976, the current Student Affairs building was attached to the Carriage House and the combined facility served as the library for ten years. It now houses the offices of the Associate Vice President of Enrollment Management, the Director of Admissions, Director of Financial Aid, and financial aid counselors.

The **Magnolia campus** was purchased in January 2011. It holds:

Gymnasium. The Gymnasium has 1,360 person capacity and includes a basketball court, locker rooms, and a concession area.

Residence Halls. Thomas University has three residence halls. In addition to the Pinetree Residence Hall, located about two miles from the Forbes campus and housing approximately 65 students, two new residence halls opened on TU's Magnolia Campus in the fall of 2016, housing an additional 80 students in apartment suite style units.

Student Life Building. The Student Life building houses Athletics and Student Life offices, a fitness center and training room, the Humanities complex and classrooms, and Pre-College TRiO programs.

The Trails is eight acres located within one mile of the Forbes campus. It currently is used as a walking trail available to students and the public to explore nature.

It has been used in classes to identify various native plant life.

The baseball and softball fields are located approximately 1.5 miles away from the Forbes campus. Currently these fields are owned by the city of Thomasville and maintained by Thomas University. Long term plans are to have the playing fields relocated to the Magnolia campus facility.

Admission & Financial Aid

Classification of Students

Students are classified upon entrance as freshmen, transfer, graduate, non-degree seeking, special standing, dual enrolled or audit.

First Time Freshman: student has completed high school and is entering college. Previously dual enrolled students and those applying for early admission are included in this category.

Transfer Student: one who has terminated enrollment in an academic program at another college or university and who enrolls at Thomas University.

Graduate Student: one who has obtained a bachelor's degree from a regionally-accredited U.S. college or university or an approved foreign university and has been admitted to a specific graduate program at Thomas University.

Transient Student: one who plans to graduate from another institution and is enrolled in a specific course, or courses, at Thomas University with permission of their parent institution. Transient students must present letters of transient permission in lieu of previous educational records. A student who expects to graduate from Thomas University may be granted transient permission by the Thomas University registrar and his/her program division chair to attend another institution.

Special Standing Non-Degree Seeking: student enrolled in classes not leading toward a degree program. Credit is awarded for successful completion of coursework. This category includes: high school dual enrolled students, graduate special standing or bridge program students and those pursuing a certificate program.

Audit: student enrolled in classes not leading toward a degree. No credit is earned.

Undergraduate Admissions

Admission Procedures for First Time Freshmen

1. Submit an application for admission with required non-refundable fee. (\$35)
2. Provide an official copy of the high school transcript or GED certificate. A minimum high school GPA of 2.0 is required.

Once admitted, students may submit official SAT and/or ACT scores OR take Thomas University's placement exam for English, Reading/Writing, and Math for proper placement and course advisement.

Students who submit an SAT score of at least 440 in Evidence-Based Reading and Writing and 410 in Math or an ACT score of at least 18 English, and 17 Math are exempted from taking the corresponding portions of the placement test.

Thomas University welcomes applications from non-traditional students, those entering college for the first time and those with some previous college coursework and have not recently graduated from high school. An applicant with less than 14 hours of college credit is classified as a first-time, first-year student.

Non-degree seeking undergraduate students must complete steps one and two.

Admission and financial aid files **must be complete** before financial aid is processed. Incomplete files will result in loss of any financial aid awards.

Thomas University is authorized under federal law to enroll non-immigrant alien students. These students normally must complete steps one and two, and submit:

- Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
- China English Test (CET) minimum of level 4; OR
- International English Language Testing System (IELTS) minimum 5.

Admission Procedures for Home-schooled Students

1. An application for admission with required non-refundable fee (\$35)
2. Transcripts of home school course work or GED Certificate
3. Copy of the Declaration of Intent to Home School as filed online with the Georgia Department of Education.
4. Take the university placement test administered by the admissions office.*

NOTE: If studies are completed through a formal home school program, this record should be an official transcript of the program. If the program is crafted by parents or others, a detailed account of subjects studied, texts used, and other required reading should accompany an evaluation of the student's performance in specific areas. High school credits must include the following:

English	4
Math	3
Natural Science	3
Social Sciences	3

***If the home school transcript does not meet the above requirements, a student may be admitted with a minimum SAT score of 440 in Evidence-Based Reading and Writing and 410 in Math or an ACT score of 17 in Math and 18 in English or the student may take Thomas University's placement test and meet the minimum requirements for college level placement in English and Math.**

Placement Exam

Thomas University administers Placement Tests for Math, Reading, and English. The tests are given by appointment on campus at Thomas University or may be set up at remote testing centers near the student. The first exam is free. Re-tests are \$35 each. The first re-test may be taken no sooner than 24 hours after the first exam. For each additional re-test, the student must wait 30 days from the date of the last exam. Transfer students who have taken the appropriate placement tests within the past five years at a prior institution may use those scores. For assistance in making an appointment, students must contact the Office of Admission at 229-226-1621 or 229-227-6925.

Developmental Studies Courses

Students scoring below the required level for entrance into college level academic courses are required to register for Developmental Studies courses. Successful completion of appropriate Developmental Studies classes is required before a student is admitted into degree programs. However, students are not restricted to taking only Developmental Studies courses. Certain college-level courses may be taken while completing the Developmental Studies courses.

Students who place into Developmental Studies courses through the Thomas University placement exam should be aware of the following requirements:

- All students who take two or more Developmental Studies courses at Thomas University must take UNV 102 Student Success Seminar.
- All courses listed with a number less than 101 are taken for institutional credit only.

Transfer Admissions

Thomas University welcomes applications from transfer students.

Admission Procedures for Undergraduate Transfer Students

1. Submit an application with a required non-refundable fee (\$35). Provide official academic transcripts from all colleges and/or universities previously attended.

To be admitted to Thomas University, transfer students must have a cumulative grade point average of 2.0 or greater, calculated on all prior coursework. A cumulative GPA lower than 2.0 will be considered for provisional admission by the Thomas University Admission Committee.

If transferring 14 semester credits or less, transfer students must meet all requirements for entering freshmen and submit an official high school transcript or copy of the GED certificate.

Transfer Policy for Students with an Associate's Degree

Thomas University will accept an Associate of Arts degree (AA) issued by a regionally accredited post-secondary institution to entirely satisfy the core requirements at Thomas University.

1. Transfer students with an AA degree must take and pass the Critical Writing, Reading, and Thinking Exam (CWRTE).
2. Students transferring with an Associate of Science (AS) or Associate of Applied Technology (AAT) will be required to take additional courses to strengthen areas in the Core.
3. Students with any degree are responsible for meeting prerequisites in their major program.
4. Students with an associate's degree must declare a major at the time of transfer.
5. Students will not have to retake a course that has been transferred from a community/junior college.

6. Up to nine credit hours approved by the Division Chair and Associate Vice President of Academic Affairs can be used to satisfy upper division program requirements. Students may not apply credit hours as part of the AA degree and a part of the major degree requirements.

Students who have been enrolled at another institution must report previous college attendance. The applicant must have been honorably released by the last institution attended. Failure to report previous attendance or less than honorable withdrawal may be cause for dismissal. A transfer student must request an official transcript from each college or university previously attended. All previous work done by a student at other institutions will be evaluated by the registrar of Thomas University. Completed transfer of credit evaluations is final.

Advanced standing for a student will be allowed for work successfully completed at other accredited institutions.

To earn an **associate's degree** from Thomas University, a student must complete a minimum of 15 semester hours at Thomas University.

To receive a **bachelor's degree**, students must earn 30 hours of major program upper division course credit at Thomas University. Twenty-four (24) hours of the last 30 hours of upper division courses within the major must be taken at Thomas University. In addition, 25% of the total hours required for the degree must have been taken at Thomas University. Departmental Credit by Exam and upper division Open Elective credits do not count toward the required 30 major program hours.

Transfer Credit

The registrar will determine the transfer courses which are acceptable toward the student's declared major. Transfer credit may be given for those courses taken at regionally accredited institutions provided that the courses are at the college level or contained in an articulation agreement that fall within the scope of Thomas University's curriculum. Acceptability of equivalent courses that fall within the scope of Thomas University's curriculum is subject to the approval of the appropriate division chairperson and Associate Vice President of Academic Affairs.

Transfer credit will be awarded only for courses with grades of "C" or higher.

Students who fail a course at Thomas University (defined as a grade below that needed for credit for the course at Thomas University) then successfully complete the same course at another institution cannot transfer that course back to Thomas University without validating competence in that specific course. Competency will be determined by the appropriate division chair.

Students suspended or excluded for academic or disciplinary reasons from another institution of higher education shall not be admitted to Thomas University until such suspension or exclusion is cleared.

Readmitted Students

Students, who have interrupted their studies at Thomas University and have not been enrolled for three consecutive semesters (one full academic year) or longer and wish to return, must apply for readmission.

To be readmitted to Thomas University, students must have a cumulative grade point average of 2.0 or greater calculated on all prior coursework.

1. A cumulative GPA lower than 2.0 will be considered for provisional admission by the Admission Committee.
2. Students denied admission may submit a letter of appeal to be reviewed by the Admission Review Committee.
3. Students who are readmitted must comply with all requirements of the current catalog, must update demographic information and be counseled on current programs, policies, and requirements.

Provisionally Accepted Students

Transfer students or students applying for readmittance to Thomas University who have a cumulative GPA lower than 2.0 will be considered for provisional admission by the Admission Review Committee.

1. Students provisionally admitted to Thomas University are required to take the placement exam to facilitate accurate placement in English, College Algebra and College Reading, even if the student had previously received transfer credit for ENG 101 and/or MTH 140.
2. If the student places into developmental English, Math or Reading, he or she must pass the appropriate developmental course sequence

before being granted permission to take college level English, Math or any courses for which these are prerequisites.

3. Students denied admission may submit a letter of appeal to be reviewed by the Admission Review Committee.
4. Provisionally admitted students will enter on Academic Probation. They must earn at least a 2.0 GPA during their first semester or they will be placed on Academic Exclusion.

Undergraduate Special Standing Non-degree Seeking Students

Non-degree Seeking Special Standing Student: is a classification assigned to an undergraduate non-degree-seeking student for registration privileges within a specified non-degree or certificate program. Admission as a special student is subject to approval.

- Special students may enroll for up to a total of 15 undergraduate credit hours under the special student designation.
- All credit hours earned as a special student will be reflected on the student's permanent academic transcript.
- A special student who wishes to take classes in excess of 15 credit hours, or who subsequently decides to pursue a degree at Thomas University may be reclassified as a regular student upon meeting regular admission requirements.
- Enrollment as a special student does not guarantee admission to the University or any academic program.
- In order to ensure adequate preparation for the academic rigor involved in University coursework, it is preferred that special students have at least a minimum of an associate degree including English Composition, but transcripts will be evaluated on an individual basis to consider applicants' readiness for college credit courses.
- Up to three credits of prior college coursework may be approved to be applied toward the completion of a certificate program.
- To apply for special student status, a completed Thomas University application must be accompanied by a \$35 nonrefundable application fee and official transcripts from all institutions previously attended.
- Special students waive rights to all federal financial aid.
- All registration by special students is on a space-available basis and, in some cases, may require departmental approval.

Early Admission Students

Early Admission Student: is one who has completed requirements for high school early, been awarded a high school diploma or GED and wishes to enroll in college early. Students may be accepted for early admission if they have:

1. earned a minimum grade point average of 3.0;
2. submitted SAT scores of at least 440 in Evidence-Based Reading and Writing and 410 in Math **or** ACT scores of at least 18 in English and 17 in Math **or** college-level placement test scores; **and**
3. submitted a written recommendation for early admission by the high school principal or counselor.

Early admission students are advised to verify the transferability of early admission credit to another educational institution.

Dual Enrollment Students

Georgia high school students are eligible to participate in the Move on When Ready program, which provides scholarship funds for students attending public or private postsecondary institutions as a dual enrollment student.

Move On When Ready

The Move On When Ready (MOWR) program provides dual enrollment opportunities for students who are enrolled at participating eligible public, private, or home school programs in Georgia. Participating students take postsecondary coursework for credit towards both high school graduation and postsecondary requirements. Move On When Ready applicants should complete the Thomas University admission application **and** the MOWR application found online at www.gatracs.org. Applicants should speak with their high school guidance counselor for classification as a MOWR student and additional program information.

Thomas University MOWR Admission Requirements

1. Thomas University application for admission.
2. High School transcript
counselor recommendation required with high school gpa less than 2.0
3. SAT score of 440 in Evidence-Based Reading and Writing and 410 in Math, **or** an ACT score of 18 in English and 17 in Math, **or** college level scores in Thomas University's placement test. Remedial and developmental courses are not available for MOWR.

Tuition, textbooks, and fees are covered by MOWR funding. Students are responsible for their own transportation and any food costs.

MOWR hours do not count against hourly caps for HOPE scholarships or grants.

The local high school may also set specific academic requirements for students who wish to participate.

For further information on state requirements, please visit the Gatracs a www.gatracs.org

Associate of Arts in Liberal Studies Program

The Associate of Arts in Liberal Studies Program (AA LiSt) is a rigorous program which allows students who meet the requirement for the program to earn an associate's degree through Thomas University while meeting high school graduation requirements. Students earn credit towards their associate's degree with a combination of Advanced Placement courses taken at the high school and courses taken through Thomas University. Students begin this program in their sophomore year of high school and must be recommended by the high school counselor.

AA LiSt Admission Requirements

- Two letters of recommendation from teachers who can attest to the student's academic performance and level of maturity needed to be successful in the program.
- High School transcript. High school grade average of 3.2 in all ninth grade classes. (Students must check with their high school for additional specific academic requirements.)
- A brief written statement in which the student explains his or her educational and career goals.
- As a high school sophomore, the applicant should submit PSAT scores OR scores on Thomas University's placement test. Scores must be college-level. As a high school junior, the student should submit SAT scores of 440 Critical Reading and 410 on Math OR an ACT score of 18 English and 17 Math. Students must check with their high school for additional specific academic requirements.
- Completion of the Thomas University application process.
- Students are admitted conditionally during the first year and then fully after official SAT scores are on file.
Students must meet with their high school counselor to apply to this program.

- The program is limited to no more than 15 students per academic year. Each cohort must have a minimum of 8 students.
Students must maintain a 3.0 cumulative GPA to remain in the program.
- Tuition for specific courses is funded through the MOWR program; other courses necessary for the degree will be offered at the MOWR tuition rate. Students are responsible for fees and books only for the courses that are not state approved.

Audit Students

The university welcomes, on a space-available basis, individuals who wish to audit undergraduate courses for nonacademic credit. Students are not required to submit transcripts to audit courses. All prerequisites must be met before auditing any course. Division chairs may determine additional restrictions and/or exceptions on a case by case basis. Graduate courses may not be audited. Audit fees will be for tuition and technology fees and the student is responsible for books and special fees. Any person over the age of 65 may audit a class at no charge. A student who elects to change from audit to credit while taking the course will be required to pay all applicable fees and will be required to meet the admissions criteria for the appropriate student type. Students will not be permitted to change from audit to credit or vice versa after the last date of the drop/add period. Students may not take a course for credit that they have already completed as an audit.

Procedures for Students with Disabilities

1. Students must file official documentation of their disability with the Director of Disabilities Services (ppatrick@thomasu.edu) including, if applicable, additional documentation of modifications followed by their high school. This should include a medical diagnosis, and a copy of the 504 Plan or the IEP used by the student's high school. The Office of Disability Services is located in Smith-Bonvillian, C201.
2. Students with disabilities are responsible for notifying each of their professors each semester regarding the specific modifications needed.
3. Professors may check with the Director of Disabilities Services to verify the disability and the need for modifications.

Undergraduate International Admission

Thomas University will admit international students who meet admission requirements and provide all necessary documentation to enter the United States under an F-1 status student visa. Application for admission should be made at least two months prior to the term in which a student plans to enroll.

Students must complete the following steps and submit all documents to the Office of Admission before an I-20 form may be issued.

To apply to Thomas University as a **first time undergraduate**, please send the following materials:

- A completed Undergraduate Application for Admission.
- A US \$125 nonrefundable application fee (made payable to Thomas University).
- Official secondary school transcript including notice of graduation and diploma. The transcript and diploma must be translated into English; translation must be certified for accuracy and accompanied by a professional evaluation (see Foreign Transcript section).
- For non-native speakers of English:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
 - China English Test (CET) minimum of level 4; OR
 - International English Language Testing System (IELTS) minimum 5.
- A signed confidential statement of finances with evidence of sponsorship and support.
- A stamped and signed statement from student's bank certifying finances.

To apply to Thomas University as a **transfer undergraduate (from an institution outside of the United States)**, please send the following materials:

- A completed Undergraduate Application for Admission
- A US \$125 nonrefundable application fee (made payable to Thomas University)
- Official transcripts from all institutions attended. Any transcript from an institution outside of the United States must be translated into English; translation must be certified for accuracy and accompanied by a professional evaluation (see Foreign Transcript section).
- For non-native speakers of English:

- Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
- China English Test (CET) minimum of level 4; OR
- International English Language Testing System (IELTS) minimum 5.
- A signed confidential statement of finances with evidence of sponsorship and support.
- A stamped and signed statement from student's bank certifying finances.

To apply to Thomas University as a **transfer undergraduate (from another United States institution)**, please send the following materials:

- A completed Undergraduate Application for Admission
- A US \$125 nonrefundable application fee (made payable to Thomas University)
- For non-native speakers of English:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
 - China English Test (CET) minimum of level 4; OR
 - International English Language Testing System (IELTS) minimum 5.
- Official transcripts from all institutions attended.
- A signed confidential statement of finances with evidence of sponsorship and support.
- A stamped and signed statement from student's bank certifying finances.

Admission decisions will not be made until the application file is complete.

Extra-Institutional Learning Credit

Thomas University gives credit for formal training according to the principles established in the ACE National Guide and/or Guide to Evaluation of Educational Experiences.

CLEP or DSST/DANTES Subject Examinations

Information on CLEP and DSST/DANTES examinations, such as courses for which CLEP or DSST/DANTES examinations are accepted, and scores required are available from the registrar.

Advanced Placement and International Baccalaureate Programs

Advanced Placement courses are offered to high school students by some high schools. Students interested in receiving such credit should contact their

high school guidance counselor or the university registrar. A score of 3 or above on the AP exam is required to earn college credit.

Graduate Admission

Each of the following must be submitted to the registrar:

1. A completed Graduate Application for Admission.
2. A \$50 non-refundable application fee, made payable to Thomas University.
3. A detailed resume.
4. A personal statement of career and educational objectives (maximum two pages).
5. Official transcripts from all undergraduate and graduate schools attended, to be forwarded directly to the Office of Admission from the schools attended.
6. Three academic or professional letters of reference.
7. Candidates for graduate admission must report a minimum GPA of 3.0 on a 4.0 scale in the last 60 hours of their bachelor's degree and relevant graduate coursework or conferred master's degree. (* For Nursing, only the ADN coursework will be considered for RN-MSN applicants and the RN-BSN coursework will be considered for MSN applicants who completed a RN-BSN program;) The GPA will be considered in context of the cumulative GPA for that bachelor's degree, work experience, relevant credentials, other undergraduate and graduate course work, the strength of the student's personal and professional goal statements, reference letters, and academic history. Applicants with a GPA lower than 3.0 may be considered for provisional admission by the prospective graduate division and the Graduate Council. Any student provisionally admitted is a Special Standing student and must successfully complete the one credit Scholarly Writing course during the semester before taking any Master-level courses; other requirements may be required by the Division and/or Graduate Council.
 - The 60 credit cumulative GPA will include relevant graduate coursework or final graduate degree GPA in a relevant program.
8. International students seeking admission into a graduate program must submit:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
 - China English Test (CET) minimum of level 4; OR

- International English Language Testing System (IELTS) minimum 5.
9. Students enrolling in a master's degree program may transfer in from another institution no more than 25% of the program hours required for the graduate degree. Graduate program directors must approve any credit for transfer.
 10. Any program specific admissions requirements.

NOTE: Completion of admissions file does not guarantee admission to a graduate program.

Graduate Transfer Credit

Students in a master's degree program may transfer in no more than 25% of the total degree hours required to earn the degree at Thomas University, from another institution. Graduate program directors must approve any credit for transfer that fall within the scope of Thomas University's curriculum.

Graduate International Admission

Thomas University will admit international students who enter the United States under an F-1 status student visa. Application for admission should be made at least two months prior to the term in which a student plans to enroll.

Students must complete the following steps and submit all documents to the Office of Admission before an I-20 form can be issued. To apply to Thomas University as a graduate student, please send the following materials:

- A completed Graduate Application for Admission.
- A completed Supplemental Program Application (if applicable).
- A US \$125 nonrefundable application fee (made payable to Thomas University).
- For non-native speakers of English:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
 - China English Test (CET) minimum of level 4; OR
 - International English Language Testing System (IELTS) minimum 5.
- Official transcripts from all institutions attended. Any transcript from an institution outside of the United States must be translated into English; translation must be certified for accuracy and accompanied by a professional evaluation (see Foreign Transcript section).
- A signed confidential statement of finances with evidence of sponsorship and support.

- A stamped and signed statement from student's bank certifying finances.

Admission decisions will not be made until the application file is complete.

Foreign Transcript Credit

All foreign transcripts must be accompanied by a professional evaluation and an official transcript, including an English translation if it is not in English, and course descriptions or syllabi. It is the student's responsibility to procure this evaluation, and to assume financial responsibility for it.

***Recommended for Nursing Program Applicants**

The evaluation should include an explanation that the institution is recognized by the ministry of education in the home country and is generally considered to offer at least the equivalent of U.S. higher education credit. In addition, it should include an explanation of the credits, the grading system, and course levels, as well as a course-by-course evaluation.

The expertise and reliability of a professional evaluation report is recognized worldwide and is likely to be accepted by other academic institutions, employers, and state licensing boards. However, the report is not binding to Thomas University and will be considered a recommendation for independent decision of the credit to be given.

Information and applications are available on the web from the services. If you need further information, please contact the Office of Admissions.

Student Financial Aid Assistance

The purpose of the student financial aid assistance program is to assist in making higher education a reality for persons who would be otherwise unable to attend college. To be eligible for financial aid, students must be accepted for enrollment at Thomas University, maintain satisfactory academic progress, and receive a passing grade in at least 67% of the academic course work attempted each semester to remain eligible for federal and state financial aid. Required financial aid information must be completed and on file before aid is awarded. All students who receive aid must complete the Free Application for

Federal Student Aid (FAFSA). The priority deadline to apply for financial aid is May 1.

Types of Financial Aid Assistance

Grants, loans, scholarships and the Federal Work-Study Program are available through the financial aid office to help defray educational expenses for eligible students. Grants and scholarships do not have to be repaid. Loans must be repaid. Students must be enrolled at least half-time (six hours) to receive the Federal Direct Loan or Federal Direct Parent PLUS Loan. Students must be enrolled full-time (12 or more hours) to receive the Georgia Tuition Equalization Grant (GTEG) and most scholarships offered by Thomas University. Other Federal assistance programs, such as the Federal Supplemental Educational Opportunity Grant and Federal Work Study, are also available for both part-time and full-time students.

Federal Grants

Federal Pell Grant

The Federal Pell Grant is a need-based grant with no repayment required and is designated for undergraduate students working toward a first bachelor's degree. The amount of the grant for eligible students is determined by the cost of attendance, the expected family contribution (EFC) shown on the Student Aid Report, and the enrollment status. The Free Application for Federal Student Aid (FAFSA) is required. The Federal Pell Grant is intended to be the first and basic component of an undergraduate student's financial aid package. Students are encouraged to apply online at www.fafsa.gov. Thomas University School Code: 001555

Federal Supplemental Educational Opportunity Grant

The Federal Supplemental Educational Opportunity Grant (FSEOG) is a need-based grant with no repayment required and is designated for undergraduate students working toward a first bachelor's degree. Students must be Pell eligible to receive FSEOG. The FAFSA is required. FSEOG is a limited fund and priority will be given to those with the highest financial need.

State Grants

Georgia Tuition Equalization Grant

The Georgia Tuition Equalization Grant (GTEG) is a non-need-based grant that provides funding for eligible Georgia residents attending qualified private colleges in Georgia. Students must be enrolled full-time (twelve or more credit hours) and can receive

GTEG up to 127 paid hours. The current award amount is \$450 per semester. Students can receive GTEG during any semester if they meet the eligibility requirements.

HOPE Scholarship & Zell Miller Scholarship

Georgia residents who graduate from an eligible high school and meet certain criteria may qualify for either the HOPE Scholarship or the Zell Miller Scholarship.

General Requirements

- Be enrolled as a degree-seeking student.
- Meet Georgia residency requirements.
- Meet U.S. citizenship or eligible non-citizen requirements.
- Be in compliance with Selective Service registration requirements.
- Be in compliance with the Georgia Drug-Free Postsecondary Education Act of 1990.
- Not be in default or owe a refund on a student financial aid program.
- Maintain satisfactory academic progress (SAP) as defined by the University.

Criteria for the HOPE Scholarship

- Cumulative GPA (core coursework)—graduate as a high school HOPE Scholar.

OR

- Cumulative GPA (degree coursework)—gain eligibility at 30, 60, or 90 attempted-hour checkpoints.

Details for the HOPE Scholarship

- Must maintain 3.0 cumulative GPA to continue eligibility.
- Award: \$1,968 per semester for full-time (12 hours) enrollment or \$984 per semester for part-time (6-11 hours) enrollment.

Criteria for the Zell Miller Scholarship

- Must have first entered college in 2007 or later.
- GPA of 3.3.
- 1200 SAT (math/reading portions on single test)
OR 26 ACT.

OR

- Valedictorian or Salutatorian of high school class (must meet minimum HOPE standards).

Details for the Zell Miller Scholarship

- Must maintain 3.3 cumulative GPA to continue eligibility.
- Student may receive HOPE Scholarship instead if cumulative GPA drops below 3.3 but is at least 3.0

- Award: \$2,174 per semester for full-time (12 hours) enrollment or \$1,087 per semester for part-time (6-11 hours) enrollment.

More information regarding eligibility is available at www.GAcollge411.org.

Remedial Hours

Starting fall 2011, neither the HOPE Scholarship nor the Zell Miller Scholarship will pay for remedial hours (developmental courses). Example 1: If you are enrolled in six hours with three of those hours being remedial, you will not qualify for the part-time HOPE award (\$984) since it requires at least six degree-level hours during the semester. Example 2: If you are enrolled in 12 hours with three hours being remedial, you will not qualify for the full-time award (\$1,968). Instead, you will only qualify for \$984.

Award Limits

A degree-seeking student is ineligible for the HOPE Scholarship or the Zell Miller Scholarship if the student has:

- Received payment from combination of HOPE Scholarship, Zell Miller Scholarship, HOPE Grant, and Accel Program funds (through spring 2011) totaling 127 semester hours of credit.

OR

- Attempted 127 hours of college degree credit regardless of whether or not HOPE funds were received for those hours.

OR

- Earned a bachelor's degree.

OR

- Reached the 7-Year Time Limit for eligibility.

Starting fall 2011, students will be limited to 127 hours even during the last term of eligibility. The award amount will be based on a per hour rate provided by the Georgia Student Finance Commission (GSFC). Example: a student has 120 attempted hours, so there are only seven hours left before reaching the maximum hours. The student's semester award will be calculated by multiplying the remaining hours (seven) by the per hour rate from GSFC.

7-Year Time Limit

Eligible students are able to receive the HOPE Scholarship or the Zell Miller Scholarship until seven years from the date of the student's high school graduation, home study completion, or successful GED test. The expiration of eligibility date will be June 30th of the seventh year. However, students who serve on active duty in the U.S. Military after high school graduation, home study completion, or successful GED

test and before the expiration of eligibility date may request an extension of eligibility based on the active duty service time. The application for this request is available online at www.GAcollge411.org under HOPE Scholarship Information.

Gaining & Maintaining Eligibility

Students who were not eligible for the HOPE Scholarship (excludes Zell Miller Scholarship) upon graduating from high school because of the minimum GPA requirement may be able to gain eligibility at a later time as long as they have not reached the 7-year expiration date. After attempting 30, 60, or 90 semester hours, students may request their academic records be reviewed to check eligibility. A cumulative 3.0 GPA is required. Contact the Office of Financial Aid for more information (finaid@thomasu.edu).

Both the HOPE Scholarship and the Zell Miller Scholarship are renewable based upon a review of the student's academic record at 30, 60, and 90 attempted hours. Should a student fall below the required cumulative GPA at the end of each review period, he/she may continue to attend college; however, he/she will not be eligible for that award.

A student who loses either scholarship will be given an opportunity to have it renewed if he/she has not passed the last GPA checkpoint at 90 attempted hours. **However, students can only lose and regain eligibility for each program one time.**

All students attending Thomas University who receive the HOPE Scholarship or the Zell Miller Scholarship must apply for the FAFSA. These scholarships may be applied only to tuition and mandatory fees.

HERO Scholarship

The HERO scholarship is designed to provide educational scholarship assistance to members of the Georgia National Guard and U.S. Military Reservists who served in combat zones, and the children and the spouses of such members of the Georgia National Guard and U.S. Military Reserves.

Eligible students may receive up to \$2000 per academic year. Award amounts are prorated for school terms in which recipients are enrolled for less than full-time (12 hours). More information regarding award amounts and eligibility is available at www.thomasu.edu, financial aid, state grants as well at www.GAcollge411.org.

Federal Work-Study Program

Eligibility for Federal College Work-Study is based on established financial need, which is determined from the FAFSA. Jobs are located on campus and in the community (nonprofit charitable organizations). Work schedules are planned around class schedules. Applications are available on the [Thomas University website under Financial Aid Forms.](#)

Federal Loans

Federal Direct Loan

The Federal Direct Loan is a low-interest loan made available to help cover educational expenses such as tuition, fees, books, housing, meals, etc. Students are encouraged to borrow conservatively as loans must be repaid.

Half-time (6-11 hours) enrollment is required.

Students must complete the FAFSA every year. Also students must electronically accept a new award letter each year as well as during the award year whenever an additional loan amount is desired. The signed award letter must be on file or accepted via HawkLink before the loan can be processed. Award notifications are typically sent via email letting students know their awards are available to accept or decline via HawkLink.

For subsidized loans, the Federal Government pays the interest on the loan while the student is enrolled at least half-time, during the six-month grace period after half-time enrollment ends, and during approved deferment periods. Subsidized loan eligibility is based on established financial need and is only available to undergraduate students. The current fixed interest rate for the subsidized loan is 3.76%.

For unsubsidized loans, the student is responsible for all interest that accrues on the loan. Interest begins to accrue after the loan disburses. The borrower can choose to pay all or some of the interest while still enrolled in school in order to lower future payments, but it is not a requirement. There is no penalty for early repayment on the interest or the principal. The current fixed interest rate for the unsubsidized loan is 3.76% for undergraduate students and 5.31% for graduate students. See the loan disclosure statement from the lender for more information regarding the interest rate.

Loan repayment for most loans begins six months after the student leaves school or drops below half-time student status. If the student falls below half-time enrollment, the grace period begins. It is the student's

responsibility to notify the lender or guaranty agency when he/she leaves school. The amount of the monthly payment will be determined by the lender and is based upon the cumulative loan amount and Federal regulations.

Federal Direct Parent PLUS Loan

Parent PLUS loans can help provide additional funds for educational expenses of dependent undergraduate students. One of the student's parents must apply with the Direct Loan Program to determine eligibility. Unlike the Direct loan, a PLUS loan requires a credit check for the parent borrower. If the parent is denied for a PLUS loan, the student is then eligible for an additional unsubsidized loan.

The dollar amount of the PLUS loan eligibility is based on the cost of attendance minus any other aid the student may receive. The current interest rate is 6.31%, fixed.

The Federal PLUS repayment begins sixty days after the funds are disbursed. However, the parent may have the option of deferring payments or making interest-only payments while the student is enrolled at least half-time.

Graduate PLUS Loan

Graduate PLUS Loans may be available to students enrolled in a master's degree or professional program. Similar to the PLUS Loan for parents, this loan is based on the borrower's credit. In this case, the borrower is the student. Repayment begins after the last disbursement unless the borrower is approved for a deferment while enrolled at least half-time.

Important Information for Direct Loan Borrowers

First-time borrowers must receive loan counseling prior to receiving their first disbursement on any federal loan. Entrance counseling is available online at www.studentloans.gov along with the Master Promissory Note (MPN).

Students who receive federal loans are required by law to complete the loan exit interview upon leaving Thomas University (graduation, transferring, or dropping out). The exit counseling link is available on the Thomas University website or directly at www.studentloans.gov. The FSA ID, (fsaid.ed.gov) is required to login to the site.

Other Programs

Rehabilitation Services

The Division of Rehabilitation Services, a division of the Georgia Department of Human Resources, may provide assistance to students with physical disabilities who have reasonable expectations of becoming employed. Students are advised to contact the nearest Rehabilitation Services office for information.

Veterans Educational Benefits

Veterans, war orphans, and dependents of totally disabled veterans may be eligible for financial assistance through the Department of Veterans Services. Contact the School Certifying Official or the local Veterans Services office for more information, or go online to www.gibill.va.gov or www.thomasu.edu.

Financial Aid Academic Requirements

The financial aid office is required under federal and state regulations to review the academic performance of every student. Failure to maintain satisfactory academic progress affects a student's eligibility to receive federal and state financial aid.

A student **must receive a passing grade in at least 67% of the academic course work attempted** each semester to remain eligible for federal and state financial aid.

In addition, a student must maintain [satisfactory academic progress](#). In accordance with the Higher Education Act of 1965, as amended, students must be making satisfactory academic progress, both in quality and quantity, to qualify for and continue to receive Title IV Federal Financial Aid. The satisfactory academic progress standards for federal financial aid recipients at Thomas University are outlined in the next section.

Qualitative

All students are expected to maintain the academic standards outlined in the Thomas University catalog. Students who fail to meet these standards will be placed on academic probation, continued probation, suspension, or exclusion. Financial aid recipients who are placed on academic probation and/or continued academic probation will be placed on financial aid probation and may remain eligible for financial aid. However, students placed on academic suspension or exclusion are not eligible for federal assistance until the terms of the suspension and/or exclusion are

satisfied and the quantitative and qualitative requirements for financial aid assistance are met.

Academic Hours	Minimum Cumulative GPA for Satisfactory Academic Progress
0-30	1.50
31-60	1.80
67-89	1.95
90-Completion	2

Quantitative

In addition to maintaining the specified grade point average, a student must complete his/her degree within a maximum time frame and successfully complete a minimum percentage of hours (67%). This pace of progression rate will be monitored at the end of each semester. Remedial hours will not be included in this calculation. Transfer hours accepted toward the student's degree program are included in both the attempted and earned hours used in calculating the pace of progression.

At Thomas University, the maximum time frame allowed is 150% of the number of hours required to earn the degree. For example, a student who is pursuing a degree which requires 120 hours may not receive financial aid after attempting 180 hours.

A student must complete 67% of the courses for which he/she registers. A grade of "F", "W", or "I" does not count as a passing grade.

Remedial Coursework

No student may receive financial aid for more than 30 hours of developmental studies classes. Students who fail to successfully complete a developmental course after three attempts will be excluded from Thomas University and will not be reinstated for financial aid until the exclusion issue is resolved.

Monitoring of Satisfactory Academic Progress

Qualitative academic requirements will be checked at the end of each semester and at the time the student applies for financial aid. The limitation on total hours attempted and the 67% pace of progression requirements will be checked at the end of each semester as well.

Pace of Progression

Semester 1

Satisfactory Academic Progress Check

- Meeting requirements—Eligible for financial aid

- Not meeting requirements—Financial Aid Warning

Semester 2

Satisfactory Academic Progress Check

- Meeting requirements—Eligible for financial aid
- Not meeting requirements—Not eligible, Financial Aid Suspension but can appeal for probation (requires academic plan)

Semester 3

Satisfactory Academic Progress Check

- Meeting requirements—Eligible for financial aid
- Not meeting requirements—Not eligible, Financial Aid Suspension

Students who are placed on financial aid suspension after Semester 2 and choose not to appeal for probation will not qualify for financial aid until they meet the satisfactory academic progress standards. Students must pass a specified number of semester hours at their own expense **and** have a cumulative 2.0 GPA for their Thomas University coursework. These hours can be taken in one semester or in multiple semesters, but no financial aid can be awarded during this time period. The same is true for those who are placed on financial aid suspension after Semester 3 due to not meeting the Academic Plan.

Students placed on Academic Suspension at the end of any semester are no longer eligible for financial aid. They must pay for their classes at their own expense until a 2.0 cumulative GPA is met. These hours can be taken in one semester or in multiple semesters, but no financial aid can be awarded during this time period.

Unclassified Students

Unclassified students, non-degree students, transient students, and unclassified post-graduate students are not eligible for a Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, Federal Work-Study Program, Federal Direct Stafford Loan, or Federal PLUS Loan.

Exception in the GTEG and HOPE Programs

A student may be eligible as a transient student in the GTEG and HOPE programs if the eligible college in which he/she is normally enrolled has a written agreement with another eligible college in Georgia to transfer such credits from that institution for application toward the student's degree.

Teacher Certification

Students holding an undergraduate degree enrolled in a Teacher Certification program are eligible to apply for a Federal Direct Loan. The only courses that can be taken are those required for certification.

Repetition of Courses, Developmental Studies Coursework, Withdrawals, and Incompletes

Students should be careful in repeating courses as all attempts at a course are counted in the maximum hours allowed to obtain a degree. Students are also reminded that withdrawing from a course does not constitute completion and does not count in the required 67% pace of progression calculated each semester. Incompletes also do not count as the successful completion of a course and excessive incompletes can result in the termination of financial aid. A student can receive financial aid for no more than 30 hours of developmental studies coursework.

Reinstatement of Aid

A student terminated from aid may apply for reinstatement of financial aid after he/she has met the quantitative and qualitative requirements for financial aid.

A student terminated from financial aid for failure to exit Developmental Studies classes after 30 hours attempted may apply for reinstatement of aid when he/she has exited Developmental Studies classes.

Appeals

Any student wishing to appeal financial aid suspension may do so by presenting a written statement along with any **supporting documentation** to the Office of Financial Aid. Illness or death in the immediate family or any other extenuating circumstances may be taken into consideration. The student will be notified of the decision.

Scholarships

Dean's Scholarships

This scholarship is awarded to selected rising juniors (including incoming transfers) who have completed at least 60 credit hours towards a college degree with a 3.0 cumulative GPA. The scholarship provides the total cost of tuition and matriculation fees and up to \$500 for books per year, after all federal and state aid is applied. All students must complete the FAFSA and accept all federal and state aid. The recipient must maintain a 3.25 GPA. Applications are available on the Thomas University website.

General Endowed Scholarships

A number of partial endowed scholarships are offered each year. Award amounts may vary each year depending on the scholarship and the funding available.

Institutional scholarships can be applied to tuition and fees and are awarded only after all federal and state grants have been applied to a student's charges. Only one institutional scholarship per student, per semester is permitted. Institutional scholarships carry no cash award.

Recipients must have a 2.0 GPA, not have more than one honor code violation, and have applied for all applicable state and federal grants. Scholarship awards are based on one or more of the following guidelines: academic performance, moral character, community or citizenship activities, financial need, and potential for benefiting from enrollment at Thomas University.

High Achievers Scholarship

This is a merit-based scholarship for full-time freshmen following high school graduation. This scholarship is open to applicants who will graduate from city and county schools in the following counties in Georgia: Brooks, Colquitt, Decatur, Grady, Mitchell, and Thomas.

High Achievers Level I: Competition for 5 Scholarships awarded to high school seniors who meet the following criteria: High School GPA of 3.5 or higher, Dual-enrollment credits from any MOWR participating college or university: 12 or more with a 3.0 minimum GPA,

The award is \$3000 per semester without housing
\$3250 per semester with housing
Renewable each Fall and Spring semesters with a minimum GPA of 3.0, for a maximum of four years

High Achievers Level II: Competition for 5 Scholarships awarded to high school seniors who meet the following criteria: High School GPA of 3.25 or higher, Dual-enrollment credits from any MOWR participating college or university: 12 or more with a 2.5 minimum GPA

The award is \$2000 per semester without housing
\$2250 per semester with housing
Renewable each Fall and Spring semesters with a minimum GPA of 3.0, for a maximum of four years.

Veteran's Scholarships

Institutional funding is available for students who have or are currently serving in the military. To qualify, students must be a veteran who served in one of the recent U.S. operations in Iraq or Afghanistan or be a member of active military personnel.

The award for veterans is \$500 per semester (the veteran must be enrolled at least three-quarter time). A tuition rate of \$250 per credit hour is available for those who are currently on active duty in the armed forces.

In addition to the scholarship application, students must show documentation regarding military service in a combat zone in Iraq or Afghanistan since September 21, 2001.

Note: This scholarship can be combined with other institutional aid.

Graduate Assistantships

Graduate Assistantship positions are designed to provide the student with a meaningful work experience in the field of study while enabling and/or supporting a division project or initiative. Duties and responsibilities are described in assistantship position descriptions posted on the Thomas University website.

Applicants must be accepted and in good standing as a student in the graduate program supporting the assistantship. To continue as an assistant, students must make satisfactory academic progress in their program.

The work hours are exchanged for 4 credits of graduate tuition remission for 12 hours of work per week for 15 weeks (180 hours per fall/spring semester). The student will owe the balance of tuition and fees after the tuition remission for 4 credits is applied.

Graduate Assistantship Application Process

Applicants must complete the Graduate Assistantship Application by each semester deadline - November 15 (for spring) and July 15 (for fall). Graduate assistants are available for the fall and spring semester only.

Applicants submit the application online. The Office of Financial Aid will forward all applications to the graduate program division chair for his/her selection for each semester. The selected student is subject to a criminal background check. Graduate Assistants must

reapply each semester in order to receive assistantships.

The division chair or a designated faculty member is responsible for supervising the graduate assistant. Supervision is aided by required submission of a task list and work hours log given to the supervisor by the end of each month of the semester.

The supervisor will complete a mid-term evaluation to ensure that the graduate assistant is meeting the assignment objectives, as well as an end-of-semester evaluation providing summative documentation of the work accomplished, its quality, and timeliness.

More information is available online at www.thomasu.edu financial aid, graduate assistantship.

Fees and Expenses

Thomas University operates on a semester basis. The cost of attendance per semester, for fall 2016 and spring 2017, follows. Note that any increase in tuition and fees will begin summer 2017.

One Time Only Fees

Undergraduate Application Fee	\$35
Graduate Application Fee	\$50
International Application Fee	\$125
Undergraduate Graduation Fee 1	\$175
Graduate Graduation Fee 1	\$175
Post Baccalaureate Completion Fee	\$30
Certificate Program Completion Fee	\$30

General Fees (per semester)

Undergraduate Full-time Tuition (12- 18 credit hours)	\$7,970
Undergraduate Part-time Tuition (per credit hour, fewer than 12 semester hours)	\$630
Undergraduate Overload Tuition (per credit over 18 hours)	\$630
Graduate Tuition (per credit hour)	\$655
Military (active) Tuition per credit	\$250
Audit/Continuing Education (per credit)*	\$100
Audit/Continuing Education Fee*	\$75
Matriculation Fees (12 or more undergrad hours)	\$425
Matriculation Fees (11 or fewer undergrad hours)	\$275
Matriculation Fees (all graduate students)	\$275
Technology Fee (all students)	\$75

*65 years old or above Free

Reduced tuition rates apply for the following programs:

- MEd
- MLS 2+2
- RN - BSN
- RN – MSN
- SWK - TCC

See the website for details.

Special Fees (per semester if applicable)

Late Fee	\$100
RN-BSN Assessment Fee	\$50
Computer Competency Exam Fee	\$350
Credit by Exam and Experiential Learning Fee (per course)	\$350
Academic Transcript	\$5
Returned Check	\$35
Reinstatement Fee	\$250
Late Registration Fee	\$100
Online fee for proctored exams (per online-OL course)	\$25

University Housing Fees Per Semester

Tier 1 Double Room	\$2400
Tier 2 Single Room	\$3000
Tier 3 Double Room	\$2700
*Room Reservation fee	\$300

*A room reservation fee of \$300 is to be submitted by all incoming students. This fee requests a space in student housing. It is credited to the students' housing charges for the semester when the student is assigned and moves on campus. Refer to the [University Housing](#)

[Cancellation Policy](#) on the TU website for information on refund and forfeiture of the Room Reservation Fee.

1. 1 The graduation fee covers all costs related to graduation. All students are required to participate unless permission to be absent is granted by the Vice President of Academic Affairs.
2. 2 All tuition and fees are due one week after drop/add. If a student does not have sufficient financial aid or a third party payer amount to completely pay their tuition and fee charges they must sign up for the Sallie Mae Tuition Payment Plan. If you do not pay your account in full or do not enroll in a payment plan by the assigned deadline, you will be withdrawn from your classes.

Deadlines

If you are withdrawn from classes, to re-enroll you must pay your out-of-pocket expenses in full and will be charged an additional \$100 reinstatement fee. See the [Academic Calendars](#) starting on page 5 for payment deadlines.

General Note

Please be advised that for online and hybrid courses, a student's initial log in to Blackboard acknowledges their enrollment and financial obligations to Thomas University.

In all student academic and financial matters, Thomas University considers notification by Thomas University email and/or by regular mail at the last known address of the student to be adequate and sufficient notice. If such mail is not returned, the student is considered to have received notice and has no further recourse if the notice requires an action which is not taken.

Payment is accepted in the form of cash, check, Visa/Master Card, American Express, or money order.

Books and Supplies

The cost of books and supplies is in addition to tuition and fees. A student whose financial award exceeds the cost of their tuition and fees may use the remaining balance on their student account for textbook purchases from Thomas University's Blackboard Store. Any amount over this balance must be paid directly to the Blackboard Store. Books and supplies may be purchased from the e-bookstore or at any other establishment that carries the required materials. A list of courses with required materials can be found on the bookstore's webpage along with other helpful tips and guides,

<http://www.thomasu.edu/Content/Default/3/160/0/0/0/0/student-services/e-bookstore.html>.

Withdrawing from Classes and Financial Aid (Return to Title IV Calculation)

According to Federal Government regulations, if a student completely withdraws on or before completing 60% of an academic semester, the student may be required to return part or all of the Title IV aid (Pell, SEOG, student loans, etc.). A similar calculation is done for state aid (HOPE & GTEG). This reduction in actual financial aid may increase the outstanding balance, which must be paid by the student by the end of the semester.

Refund Check Release

After notification from the Business office, students may pick up their refund checks or request to have them mailed. Students also have the option to sign up for Direct Deposit prior to the release of their refund by completing the authorization for direct deposit. The student's account, including library charges, must be paid in full before the check is released. The Business Office will apply their financial aid to any outstanding balance, other than a balance owed from prior semester, and Thomas University will write a refund check within 14 business days of Thomas University's receipt of federal funds for any credit balance.

No refunds will be made to students who:

- withdraw after the deadlines stated above for each semester;
- are suspended for disciplinary reasons;
- leave the college when disciplinary action is pending; or
- do not officially and completely withdraw.

The unused portion of any financial aid is returned to the appropriate funding agency.

Tuition Refund Policy

The final tuition and fees balance is calculated at the end of the second week of classes for fall and spring semesters and at the end of the first week of classes for each summer term and this is the balance the student owes.

Tuition is refunded in full for students who withdraw within the add/drop period. Withdrawals after the drop period will result in no refund. Refer to the academic calendars for specific add/drop dates.

Students must withdraw from OCICU courses before the second day of classes. Students who withdraw

before the second day of classes will receive an 80% tuition refund for their OCICU courses.

Textbook Refunds

Textbooks purchased from Thomas University's e-bookstore before or on the first day of class must be returned within 2 weeks of the first day of class in order to receive a refund. Textbooks purchased after

the first day of class and before the last week of class must be received within 7 days of receipt. Textbooks purchased during the last week of class are non-refundable.

Software or CD refunds are accepted only if unopened, unless defective. New items received with markings or damaged will be credited at the used price.

Student Affairs

Career Services

Career services are provided through the Thomas University Career Center and Student Support Services. The Career Center is located in room 2 in the Academic Classroom Complex. Through this center, students have access to a variety of personality inventories and career assessment resources, and can consult with a career counselor.

Disclosure of Student Information

Thomas University students and alumni have the right to inspect their educational records by submitting a written request 48 hours in advance. The right of inspection includes academic records and related support documents maintained in the registrar's office, student support services, the business office, and the financial aid office.

Student Services

Health Services

As independent adults, students are responsible for deciding if they are physically able to participate in university activities. Students are expected to have their own family physicians. If an emergency arises, Archbold Memorial Hospital is located four blocks from the college campus; **there is no university health clinic.**

First-aid kits are available in the Student Affairs Building, Business Office, Library, Campus Center, and science labs for emergency use. Students requiring emergency medical treatment will have their families contacted to provide transportation home or to a medical facility. In the event the student's family cannot be contacted or cannot provide transportation, an emergency medical service unit will be called. Students are responsible for all expenses incurred.

Counseling Services

Thomas University partners with Archbold Medical Center to offer the Student Assistance Program (SAP). SAP offers:

- identification, assessment, and diagnosis of academic, social, and psychological problems;
- brief consultation and problem resolution; and
- referral to appropriate and accessible services and resources.

SAP services are private and confidential, in accordance with state law. All registered students are eligible for SAP services, and there is no cost to students for utilizing SAP services. There may be fees associated with the other services and resources to which the student may be referred, though the student's health insurance usually defrays the cost of such care. Referrals may be mandated by a Thomas University faculty or staff member.

SAP is a program of Archbold Medical Center, and services are provided at the Archbold Medical Center Employee Assistance Program Office at 902 Highway 84 West or at offices operated by Archbold Medical Center. For Appointments, call toll free 1-877-327-2724.

Internet Usage

Internet Services

The Thomas University internet access and e-mail addresses offer vast, diverse, and unique resources to students. Our goal in providing this service to students is to promote educational excellence at Thomas University by facilitating resource sharing, innovation, and communication. Students have access to e-mail, information and news, public domain and shareware of all types, and discussion groups on an ever-increasing range of topics.

Acceptable Use

The purpose of Thomas University network access to the internet is to support education by providing access to unique resources and the opportunity for collaborative work. Use of the access must be for academic activities consistent with the educational objectives of Thomas University. Use of another organization's network or computing resources must comply with the rules appropriate for that network. Transmission of any material in violation of any U. S. or state regulation is prohibited. This includes, but is not limited to, copyrighted material, threatening or obscene material, or material protected by trade secret. Use for commercial activities is not acceptable. Use for product advertisement or political lobbying is also prohibited.

Privileges

The use of the Internet is a privilege. Inappropriate use will result in cancellation of those privileges.

Netiquette

You are expected to abide by the generally accepted rules of network etiquette. These include (but are not limited to) the following:

- Limit use to one hour if others are waiting.
- Be considerate in your choice of sites and graphics. The viewing of sexually explicit materials may constitute sexual harassment under federal law.
- Be polite. Do not get abusive in your messages to others.
- Use appropriate language. Do not swear, use vulgarities, or use any other inappropriate language. Illegal activities are strictly forbidden.
- Do not reveal the personal address or phone numbers of students or colleagues.

Note that e-mail is not guaranteed to be private. People who operate the system do have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities. Do not use the network in such a way that you would disrupt the use of the network by other users. All communications and information accessible via the network should be assumed to be private property of the university.

Security

Security on any computer system is a high priority, especially when the system involves many users. If you feel you can identify a security problem on the internet, you are required to notify an administrator. Do not demonstrate the problem to other users. Do not use another individual's access without written permission from that individual. Attempts to log onto the internet as a system administrator will result in cancellation of user privileges.

Vandalism

Vandalism will result in cancellation of privileges. Vandalism is defined as any malicious attempt to harm or destroy data of another user, internet, or other networks that are connected to the internet backbone. This includes, but is not limited to, the uploading or creation of computer viruses.

Academic Accommodations for Students with Disabilities

Thomas University is committed to the requirements of making all programs, services, and facilities

accessible to and usable by individuals with disabilities in order for students to obtain maximum benefit from their educational experience. The Director of Disability Services is available to advise students with disabilities and may also act as an advocate and liaison with faculty, staff, and local agencies.

Students who identify themselves and provide documentation will be eligible for academic accommodations and support services as appropriate. Documentation should be provided by a medical doctor, a psychologist, or by a licensed or certified specialist recognized as appropriate to treat the specific disability.

Accommodations such as note takers, interpreters, extended time on testing, tutors, an adaptive computer lab, and individualized pre-registration assistance are available.

Although Thomas University is responsible for notifying faculty, students, and staff of services available, students with disabilities are responsible for requesting academic accommodations. Services are listed in publications, including this bulletin, faculty handbook, brochures, student handbook, and at orientation.

If a student feels intimidated about speaking directly with the instructor, a mediator is available on campus to act as a liaison. The federal law that covers special needs, the Americans with Disabilities Act (ADA), is enforced on this campus. Compliance is monitored through the ADA Committee. The purpose of the Committee is to see that all students with special needs are treated with respect and reasonable accommodation. A student who encounters any difficulties with an instructor or any other employee of the university concerning personal or mental challenges is invited to petition the Committee for review of the issue.

Thomas University grants course substitutions. The academic Council at Thomas University has established policies and procedures for reasonable substitutions for eligible students to meet admission and graduation requirements. Students seeking substitutions must discuss the substitutions with the Director of Disability services, their advisor, and the Associate Vice President of Academic Affairs. Any substitution previously granted to a student transferring to Thomas University from an accredited college will be recognized by Thomas University with documentation.

The university campus is handicap accessible and special parking is available. For information and assistance, students should contact the Director of Student Disability Support Services.

Student Rights and Responsibilities

Students must assume full responsibility for understanding the policies, procedures, rules, and regulations of the university as outlined in the [Student Handbook](#). Students who accept an offer of admission to Thomas University are expected to be responsible citizens of the college and community, to respect the rights of others, and to observe the laws of the state of Georgia.

General Student Complaints

Students have the right to seek a resolution for a dispute or disagreement concerning a university policy or action through a designated complaint procedure.

This procedure does not apply to academic appeals, violations of academic integrity or Judicial issues. Students are encouraged to discuss the concern or decision with the person with whom he/she differs and attempt to resolve the matter satisfactorily before filing a formal complaint. If the complaint cannot be resolved informally, students may file a written complaint to the chairperson or head of the department responsible for the matter in question. Further details of the General Student Complaint Policy may be found in the Student Handbook.

Complaints of Noncompliance

After exhausting all Thomas University complaint procedures, a student who wishes to lodge a complaint of significant noncompliance with standards, policies, or procedures may contact the Commission on Colleges of the Southern Association of Colleges and Schools according to the policy at this location: <http://www.sacscoc.org>. Please note: Because the Commission's complaint procedures are for the purpose of addressing any significant noncompliance with the Commission's standards, policies, or procedures, the procedures are not intended to be used to involve the Commission in disputes between individuals and member institutions, or cause the Commission to interpose itself as a reviewing authority in individual matters of admission, grades, granting or transferability of credits, application of academic policies, fees or other financial matters, disciplinary matters or other contractual rights and obligations.

An online student may file a complaint of significant noncompliance with standards, policies, or procedures with his/her relevant state agency, official, and/or accreditor; contact information may be obtained at <http://www.sheeo.org/node/434>.

Student Bill of Rights

- Right to Academic Freedom: All Thomas University students have the right to seek knowledge in an environment, which is conducive to free inquiry.
- Right to Fair Academic Evaluation: Thomas University students shall have the right to fair academic evaluation. Students, however, must meet the requirements of the instructors.
- Right to Confidentiality of Student's Records: Thomas University students have the right to have their records kept confidential in accordance with the federally mandated Buckley Amendment.
- Right to Due Process: Thomas University students are to be free from arbitrary and capricious punishment. When charged with misconduct, students have the right to due process. Any administrative action that adversely affects a student may be appealed by the student.
- Right to Inquiry and Expression: Students have the freedom to seek knowledge, debate ideas, examine and discuss all issues of interest, and to express opinions publicly and privately as long as these expressions of opinion do not interfere with the same rights and freedom of others or violate federal, state, or local laws.

Student Conduct

Thomas University expects lawful and reasonable conduct from students both on and off campus. Student Bill of Rights, conduct regulations, sanctions, and due process procedures are described in detail in the [Student Handbook](#), which is available in the student affairs office and on the university website.

Honor Council

The Honor Council has primary responsibility for implementation of the Thomas University Honor Code, which states "As a member of the Thomas University Student body, I will not lie, cheat, or steal in any endeavor related to my academic pursuits, nor will I tolerate this behavior in others." More information on the structure and responsibilities of the Honor Council is available in the Student Handbook and on the Thomas University website.

Drug and Alcohol Policy

Thomas University is committed to maintaining an alcohol and drug-free campus for students. Under this

policy, the unlawful manufacture, distribution, dispensation, possession, or use of alcohol or any illegal drug by students is prohibited in all areas of Thomas University, including buildings, the Residence Hall, vehicles, and grounds.

Violations of this policy shall be considered sufficient grounds for disciplinary dismissal.

Smoking Policy

Smoking and any other use of tobacco or “tobacco-like” products is prohibited on university property. “Smoking” is defined as the burning of a cigar, a cigarette, pipe or other device containing tobacco or any “tobacco-like” substance. “Other use” includes snorting, chewing, or spitting of smokeless tobacco, snuff, and similar substances. “University property” includes all real estate owned, leased or controlled by the university, including the grounds, playing fields, walkways, roadways, parking lots and areas in and around the perimeter of any building. This policy also applies to privately owned vehicles on university property.

Parking Regulations

There is adequate space for student parking in the parking lots. Students may park in any unreserved parking space. Reserved spaces are 24-hour reserved for the handicapped. Parking in areas marked handicapped requires a handicapped sticker. Parking is prohibited in any reserved space or grassy area.

Student Insurance

Student accident and health insurance is available at a modest cost through a group policy at Thomas University. Students should contact Student Affairs for full details and a sample policy.

Student Activities

Thomas University encourages students to participate in campus activities and student organizations according to their personal interests. Student activities are developed in response to the interests of the student body.

Campus Activity Board

Campus Activity Board (CAB) is a specially selected group of 10 students, under the supervision of the Executive Director of Student Affairs and Athletics, responsible for planning and implementing all student activities for Thomas University. This includes all social and educational programs.

Being a member is a great way to make a difference in the campus community. Members will have influence over the type and scope of activities the Student Life Office hosts each year. Thomas University wants to hear student opinions and have student input with planning and implementing events that will be enjoyed and attended by all students.

Duties of CAB members include attending regular meetings. Members are expected to attend all Student Life events as representatives of the Campus Activity Board. CAB members are expected to be role models for the student body and will represent the diversity of our campus. Also, members will attend special meetings and events throughout the year and may be asked to participate in special research questionnaires to help enrich student life at Thomas University.

To apply to CAB:

1. Contact the Student Activities Coordinator to express your desire to apply.
2. Good academic and behavioral standing with the university.
3. Minimum 2.0 GPA.
4. Complete an interview by the selection committee.

Each member of CAB will receive a \$250 scholarship each year. Ten students will be chosen.

Clubs and Organizations

Alumni Association

Membership in the Alumni Association is open to all graduates of Birdwood College, Thomas County Community College, Thomas College, and Thomas University, as well as all former students who were regularly matriculated in degree credit courses.

Note: The purpose of the association is to support Thomas University with the emphasis on improving the University’s programs, creating institutional pride, developing and enhancing the university’s image, and meeting the needs of the university through fund-raising.

Association of Social Workers

The Thomas University Association of Social Workers promotes the field of social work both on-campus and through community activities.

Goalline Ministries

Goalline Ministries uses the powerful medium of athletics to bring the good news of Jesus Christ into the

lives of athletes and students on the college level. The dynamic that characterizes Goalline is its commitment to serve the local community by equipping, empowering and encouraging students to make a difference for Christ. For information, contact John Rainey at jrainey@goallineministries.org.

Older-Wiser Learners

Older-Wiser Learners (OWL) brings together adult students over the age of 30 to share ideas and support each other throughout the learning process. OWL members learn from experienced adult students how to balance school responsibilities with those at work and home.

Psychology Club

The Psychology Club is an organization open to psychology majors and those with a special interest in psychology. Activities include trips to psychology conferences and movie nights.

Student Veteran Organization

Veterans and students compassionately working together to bring resources, support, advocacy, and awareness for veterans to succeed in higher education and post-graduation. To unite Thomasville and the campus community and bridge the military-civilian gap.

Thomas University Student Counseling Association

Thomas University Student Counseling Association (TUSCA) is a Student Affiliate Organization (SAO) of GA Licensed Professional Counselors Association. TUSCA is open to graduate level counseling students, or any students interested in the mental health field that have an interest in the advancement of the counseling profession. Majors in Clinical Rehabilitation and Mental Health Counseling, Community Counseling, Criminal Justice, Nursing, Medical Laboratory Science, Social Work, or any human service field are encouraged to join TUSCA. Benefits of membership include a variety of workshops offered year-round and free through GA LPCA.

Creative Writing Club

This club is sponsored by the English faculty and meets weekly during the fall and spring semesters to showcase art, photography, poetry, fiction and essays from the Thomas University community and beyond. It is open to all students. If you like to write poetry, fiction, or non-fiction and/or like to draw, please feel free to come by and be a part of our club!

Arts for the Community at Thomas University

The mission for Arts for the Community at Thomas University (ACTU) is to combine the gifts and energies of Thomas University personnel and students (Act One) with those of community members (Act Two) to provide excellent arts events for the community. For this reason, we have named this organization ACTU – Act Two: Arts for the Community at Thomas University.

Sundays at Four

Monthly Concerts that feature local and regional artists performing a wide range of musical styles held at venues throughout the community and on campus.

Fridays at Noon

Bimonthly Lunch Concerts that include a complimentary luncheon and feature regional and occasionally national performing artists, usually held in the chapel of the First United Methodist Church or in the Balfour Chapel on campus.

The Thomasville Singers/ Thomas University Community Chorus

The Thomas University Community Chorus is a mixed choral organization performing the best in standard choral literature. The chorus is open to all university students and community members (high school and older) and requires the ability to sing on pitch and a desire to improve singing skills. Rehearsals are once a week for two hours. It is non-auditioned.

TU Book Club

Monthly meetings open to all featuring guest leaders and a mix of classic and modern book selections.

TU Film Club

Regular showings of classic and contemporary films.

Thomas University Jazz Ensemble

Weekly rehearsals open to all as a way to explore both traditional and modern jazz standards with an emphasis on improvisation and performances throughout the region.

TU Theatre

Annual productions open to all that include a musical revue in the fall, and a drama in the spring usually performed at the TU Playhouse.

TU Visual Arts

Annual exhibit at the Cultural Center and courses available for students and the community in digital photography, drawing, painting and more.

Arts Review

Night Hawk Review is Thomas University's arts review, which publishes the fiction, non-fiction, poetry, and art of those in the Thomas University community. Night Hawk Review is published yearly with a new issue appearing each spring.

Athletic Programs

Thomas University currently participates in intercollegiate sports and is nationally affiliated with the NAIA. These teams include Men's and Women's Soccer, Men's and Women's Golf, Men's and Women's Basketball, Women's Fast Pitch Softball, and Men's Baseball. In addition to varsity teams, we have junior varsity baseball, junior varsity fast pitch softball, and junior varsity men's soccer. The teams are members of the NAIA and The Sun Conference.

Philosophy

Thomas University has an intercollegiate athletic program designed to allow student athletes to participate in a number of competitive sports. The philosophy of the Thomas University intercollegiate athletics program is that our student athletes are first, qualified students with their primary goal being that of obtaining their degrees, and second, they are collegiate athletes able to participate in intercollegiate sports.

Athletic Scholarships

Athletic scholarships are provided to student athletes at the discretion of the respective intercollegiate coach. Athletic scholarships are applicable only after the student athlete has applied for the HOPE, GTEG (if applicable) and the Pell grant (if applicable). If a student athlete qualifies for all or any of these grants, only that portion of the athletic scholarship award needed will be applied to the terms of the scholarship agreement. All grants will be applied to tuition first, fees, books and then residence hall fees.

A student receiving an athletic scholarship must maintain [satisfactory academic progress](#).

NAIA Regulations

Student athletes and coaches must conform to all of the National Association of Intercollegiate Athletes' regulations. Athletes must maintain full-time student status and must maintain satisfactory academic standing based upon the Thomas University criteria established to determine satisfactory academic progress for all students.

Athletic Facilities

Thomas University is located on a beautiful twenty-five acre campus within the city limits of Thomasville. Because of its size, the campus is not designed to house all athletic programs.

The Thomas University **Baseball Program** uses Varnedoe Stadium as its home field. This baseball facility offers adequate parking, restroom facilities, bleachers, and those other facilities required of a quality baseball park.

The Thomas University **Softball Program** uses Armory Field located adjacent to Varnedoe Stadium. The Armory Field has been recently renovated and offers all of the amenities that one normally associates with intercollegiate softball. The university has an agreement with the City of Thomasville to use these facilities on a regular basis.

The Thomas University **Soccer Program** uses the beautifully refurbished soccer field located on campus. This facility has been recently upgraded with the addition of the Rehberg Field House, complete with restrooms, training room, and a locker room.

The Thomas University **Golf Team** uses Glen Arven Country Club as their home course. This is a beautifully maintained private golf course located adjacent to the campus.

The Thomas University **Swim Team** will use the competition pool at the Butler-Mason YMCA on Remington Avenue. It is a 25-meter heated pool with starting blocks and a timing system.

The Thomas University **Basketball Teams** use the recently renovated gymnasium on the Magnolia campus. Seating 630 people, it provides locker rooms, restrooms, laundry facilities and ample storage for equipment.

Academic Affairs

Academics at Thomas University

Thomas University operates on the semester system. Two semesters, each approximately fifteen weeks in length plus a final exam week, and a summer session of approximately ten weeks in length comprise an academic year. Both degree and non-degree credits are offered by Thomas University for successful completion of prescribed course work. Non-degree credits (for academic development or personal enrichment) are numbered 000-100. Undergraduate degree and certificate credits (study toward a degree or certificate) are identified by course numbers ranging from 101 to 499. Post-baccalaureate credits (for Post-baccalaureate programs or academic development) are numbered from 500 to 599, and may or may not count toward a degree or certificate, depending upon program requirements. Graduate program credits are numbered from 600 to 699.

In all student academic and financial matters, Thomas University considers notification to the student's required Thomas University email account and/or by regular mail at the last known address of the student to be adequate and sufficient notice. If such mail is not returned, the student is considered to have received notice and has no further recourse if the notice requires an action which is not taken.

Code of Academic Honor

The Academic Honor System of the university is based on the premise that each student has the sole responsibility to uphold high standards of academic integrity; to refuse to tolerate academic dishonesty in the university community; and to foster a high sense of honor and social responsibility for abiding by the Academic Honor Code at all times.

If an Honor Code violation stamp is on a graduating student's transcript at the time of Honors Calculations, the student is excluded from receiving recognition for Honors (e.g.: transcript note, Honors Tea, Latin Honors, commencement program), regardless of GPA, until the requirements of the stamp are met. See the Thomas University [Student Handbook](#) and the Thomas University website for the complete Honor Code.

Course Delivery and Credit Definition Policy

Thomas University uses a variety of [delivery modes](#) for teaching and learning. They are defined as face-to-face (campus-based), hybrid (combination of face-to-face and online), and fully online (via the course learning management system). Regardless of delivery mode or length of academic term, each course credit reflects approximately one hour of instruction/interaction and two hours of student work in addition to class or instructional time per week or the equivalent time depending on the length of the term. Online learning is approximated in relation to the typical weekly face-to-face campus-based contact hour/class period through requirements for engaged instruction and interaction with the professor, classmates, and course content.

For a practice class (internships, practica, clinical rotations, visual or performing art studio, student teaching, field work, etc.), the number of hours per week in field vary depending on whether the course is an undergraduate or graduate course, students' expected level of skill and knowledge applied in the field, the degree to which course outcomes focus on exposure and observation or intensive work experiences, and the degree to which students are learning in groups or individually with a supervisor. Typically, the higher level the practice course, the more field hours are required to earn course credits. Practice courses may also include face-to-face or online instruction/interaction and/or assignments and projects outside of the practice experience hours. These activities constitute another part of the course credit.

Most laboratory courses are awarded up to four credit hours. One laboratory credit hour represents one hour per week of instruction/interaction plus one to two hours per week of scheduled supervised or independent laboratory work, and two hours of student preparation time.

Course outcomes and requirements for all courses are approved by the relevant academic division and Academic Council for rigor and consistency appropriate to the course type, level, and number of credits.

Grading System

The following grading system has been established by the faculty and approved by the Board of Trustees of Thomas University:

Letter Grade	Numerical Equivalent
A	90 - 100
B	80 - 89
C	70 - 79
D	60 - 69
F	Below 60

Grade Point Average

Quality points are used to compute the student's grade point average (GPA) and are determined by multiplying the grade points for each letter grade by the number of hours for each respective course.

Letter Grade	Grade Point
A	4.0
B	3.0
C	2.0
D	1.0
F	0.0

The grade point average is computed two ways at the end of each semester. The first time is to determine the semester grade point average. The semester grade point average is computed by dividing the total number of quality points earned that semester by the total number of hours attempted that semester. A sample computation of a student's semester grade point average is shown below.

Course	Semester Hours	Grade	Grade Points	Quality Points
REA 099*	3	C	0.0	0
MTH 140	3	C	2.0	6
SPE 105	3	B	3.0	9
ENG 101	3	B	3.0	9
Total	9			24

$GPA = 24 \text{ Quality points, divided by } 9 \text{ hours} = 2.66 = \text{Institutional Credit}$

*Non-degree credits are numbered 000-100 and do not count toward the GPA.

The second time the grade point average is computed is to determine the cumulative grade point average.

The cumulative grade point average is computed by dividing the total number of quality points accrued by a student at the university by the total number of hours attempted by that student at Thomas University.

NOTE: Hours earned at other institutions and transferred to Thomas University are not included in Thomas University's grade point average, except in determining graduation honors.

Symbols on Academic Transcripts:

An "S" (or a "P") will be assigned by the instructor to indicate satisfactory completion of all course requirements in courses designated as Satisfactory/Unsatisfactory or Pass/Fail.

A "U" indicates failure to adequately satisfy course requirements. No grade ("S", "U", or "P") in a course of this designation calculates into the grade point average.

A “W” will be assigned by the registrar to any student who formally withdraws from any class after the last day of the drop/add period, and prior to the last day to withdraw from a course without academic penalty.

A “V” will be assigned to any student who audits a course. Students may not transfer from audit to credit status or vice versa after the drop/add period.

A “K” will be assigned to any student who receives credit for the course in an approved institutional credit-by-examination program.

An “I” will be assigned by the instructor only to those students who were doing satisfactory work but did not complete the course due to approved extenuating circumstances. An Incomplete may be granted only if the student has attended the majority of classes and lacks only one or two course requirements to complete the course. Academic Council policy requires a written contract between the instructor and the student be filed before an “I” can be given. An “I” will be converted to an “F” if all course requirements are not completed by the end of the next semester. Completion of requirements to convert an “I” to a letter grade is solely the responsibility of the student.

An “E” will be assigned to designate credit earned through experiential learning. Thomas University uses the guidelines of ACE and CAEL to determine appropriate credit for training, workshops, military service, etc. that has taken place outside a college setting.

Directed Independent Studies

A student can take no more than eight credit hours in his/her degree program as a directed independent study. Directed independent studies must be recommended by the division chair and approved by the Associate Vice President of Academic Affairs.

Undergraduates Taking Graduate Courses

Undergraduate students interested in taking graduate level courses:

- will not be required to apply for a graduate program;
- must have senior status;
- can only take a total of six credit hours in graduate courses;
- must have an undergraduate GPA of 3.0 or higher; and
- must have approval of their advisor and appropriate graduate division chair.

Graduate courses will only count as undergraduate credits. However, if the student has undergraduate credits above and beyond the total required number of credits for their undergraduate degree, the graduate course can be carried over to the graduate coursework and count toward the graduate degree, if the student earns a “B” or higher. This may happen if the student exceeds the number of required credits for the undergraduate degree and the specific undergraduate requirement filled by the graduate course is replaced with another applicable course. If graduate credits do not carry (in the case of having no surplus credits beyond the total required for the undergraduate degree), the student is exempt from repeating those courses in their graduate coursework. However, the student must take electives to satisfy the total credits required for the graduate degree.

Transient Authorization

Thomas University students who wish to enroll temporarily in another college or university must obtain prior permission from Thomas University’s registrar and their academic advisor/chair. All coursework a student wishes to attempt for transient credit must receive prior approval; approved credit earned while in transient status may then be transferred to Thomas University provided such credit carries a grade of “C” or higher and satisfies Thomas University’s curricular requirements. A student cannot receive transient authorization to enroll in a course at another college or university which he or she failed in an attempt at Thomas University.

Academic Renewal

Students who previously attended Thomas University but have not been enrolled for a period of at least five years may enter with a renewed GPA. A student may contact the Office of the Registrar to request Academic Renewal. When Renewal is requested, all courses previously completed at Thomas University, both successfully and

unsuccessfully, will not be calculated in the student's cumulative GPA as reported on the official transcript. The courses that have Academic Renewal remain on the student academic record, but the final grade is preceded by a "G." This policy may not apply to all programs. This Renewal does not apply to financial aid and scholarship eligibility, athletic eligibility, and calculation of graduation honors.

Registration Policies

Add/Drop and Student Accounts Policies

During fall and spring semesters, students may drop and/or add class(es) during the Add/Drop period for each course block (i.e.: 1st 5 weeks, 2nd 5 weeks, 1st 8 weeks, etc.). The Add/Drop period is the first week of each course block and is defined on the Academic Calendar posted online and in the Catalog. An Open Drop period is available during the second week of the semester for further course drops only (no course additions). Open Drop is not applicable to every course block – it is only at the beginning of the semester. Any course changes after the first two weeks of the semester are withdrawals, in part or in full, and full financial obligations apply.

During summer term, students may drop and/or add class(es) during the Add/Drop period for each course block (i.e.: 1st 5 weeks, 2nd 5 weeks, 1st 8 weeks, etc.). The Add/Drop period is the first week of each course block and is defined on the university Academic Calendar posted online and in the Catalog. There is no additional Open Drop period during summer term. Any course changes after the Add/Drop period are withdrawals, and full financial obligations apply.

- Students may change their schedules during the published, applicable Add/Drop and Open Drop periods after conferring with their academic advisor.
- Instructor approval is needed to add a course if a class has already met once. **Classes may not be added after the first week of classes.**
- A student who does not attend the first day of class may be dropped from the class roll. A student who has been dropped from a class may appeal to the professor for reinstatement.
- The final tuition and fees balance is calculated at the end of the second week of classes for fall and spring semesters and at the end of the first week of classes for each summer term.
- A student must pay in full or finalize a payment plan by the end of the second week of classes during fall and spring semesters and at the end of the first week of classes for each summer term or the student will be removed from all courses.

No Show Policy

A registered student who has failed to attend class (in person or by electronic equivalent) within the first week of class will be reported as a **no show**. The no show student will be removed from the course, and tuition/fees and financial aid will be adjusted accordingly. Neither the course(s) nor any grade(s) will appear on the student's permanent record.

Academic Withdrawal

Students may withdraw from a course following the drop/add period until the 60% mark of the semester as designated on the academic calendar, and after conferring with an advisor. It is the student's responsibility to meet with his or her advisor for review and approval. If a student wishes to withdraw from a course with a "W" as the grade, the request must go through the student's advisor for review and approval. Advisors submit a withdrawal online form to the registrar. Students who fail to withdraw officially using the formal withdrawal process will receive a grade of "F" in courses for which they have registered.

A withdrawal before midterm is non-punitive, and a grade of "W" is assigned. Students will not be allowed to withdraw after the withdrawal date published on the academic calendar. However, in cases of extreme hardship and/or extenuating circumstances where an incomplete is not warranted, a student may petition for withdrawal by completing the appropriate forms, obtaining required signatures from the Associate Vice President of Academic Affairs, and forwarding the form to the registrar's office. The student must have been passing the course at the time of the withdrawal petition. If approved, the instructor for the course may assign a grade of "W."

Withdrawing and Financial Aid

Students receiving financial aid should be aware that withdrawing from courses may affect continued financial aid eligibility. Students are encouraged to see the Director of Financial Aid before withdrawing. The student must be withdrawn on or before the deadline to withdraw with a “W.”

Full-time students who wish to withdraw completely from the college are required to contact the registrar’s office for an exit interview.

Administrative Withdrawal

An instructor may withdraw a student from class administratively under the following guidelines:

1. The student has missed more classes than allowed in the attendance policy stated in the Catalog or course syllabus.
2. The deadline to withdraw with a “W” has not passed.

Under extenuating financial, health, or safety-related circumstances, the Associate Vice President of Academic Affairs or his/her designee may withdraw a student from class administratively.

Military Service

Students ordered to active military duty during a national emergency will be assigned an “I” or “W” in each course in which they are passing.

Undergraduate Program Policies

Academic Advising

Academic advising ensures proper scheduling for the timely completion of students’ program requirements.

Students with fewer than 48 credit hours must be advised by a pre-professional advisor. Once students have declared a major and attained 48 hours of credit toward a degree, students will be assigned a faculty or professional advisor in their major field.

Students are responsible for making appointments with their academic advisor to register by posted deadlines each semester.

Academic Standing

Classification for class standing is determined by the number of academic hours successfully completed. Criteria are shown in the table below:

Classification	Hours
Freshman	0-29
Sophomore	30-59
Junior	60-89
Senior	90-completion

Course Load

Undergraduate students carrying a course load of twelve hours of credit or more are considered full-time; students carrying a course load of 6-11 hours of credit are considered part-time.

The university reserves the right to limit the course load of students who are not showing satisfactory academic progress.

Students may not take over eighteen hours per semester without the written permission of the Associate Vice President of Academic Affairs.

Declaring a Major

Students are required to declare a major after earning 30 credit hours and before completing 60 earned credit hours. Students must obtain approval from their current advisor. Change of major and change of advisor forms are located online and are ultimately approved by the Director of Academic Advising and sent to the Registrar.

Major Course Minimum Grade Policy

A “C” or better must be earned in all required courses in a major to satisfy degree requirements. This includes prerequisites as well as all upper division courses, including upper division electives.

Attendance Policy

A student in a face-to-face class is expected to attend all scheduled classes and laboratory sessions. A student who does not attend the first day of class may be dropped from the class roll.

It is the student’s responsibility to officially withdraw from class in the event that they choose not to complete the course.

Absence from 20% or more of regularly scheduled classes or laboratory sessions for any unexcused reason may result in an administrative withdrawal or receiving an “F” for that course at the instructor’s discretion.

A student in hybrid and online courses is expected to be present in all online classes each week. Presence in the online classroom is assessed through logging in and participating in class activities each week as specified in the course syllabus. Failure to meet these expectations for any unexcused reason will result in a recorded absence for the week. Recorded absences equaling 20% or more of the length of the semester/term may result in an administrative withdrawal or receiving an “F” for that course at the instructor’s discretion.

A student in an online course is responsible for logging onto the course by midnight of the first day of classes. Otherwise, the student may be dropped.

A student in a Directed Independent Study or a course listed as TBA on the class schedule must contact the instructor by midnight of the first day of classes. Otherwise, the student may be dropped.

Excused Absence

Students participating in required university sponsored events are excused from scheduled classes by written request of the respective coach or professor. Students are required to notify the professor and request an excused absence prior to the event. Faculty and adjunct instructors must allow students to make up any assignment missed (quizzes/tests/other assignments) or an appropriate alternate assignment during an excused absence without penalty. To the extent possible assignments are expected to be completed prior to the event or at the discretion of the professor.

CWRTE: Critical Writing, Reading, and Thinking Exam

The CWRTE is a two hour, timed exam that requires students to read an article regarding a familiar topic, answer reading comprehension and information fluency questions, and write a multi-paragraph essay.

Purpose of the CWRTE

The CWRTE is designed to identify students who are prepared to continue their course of study in upper division courses. It also identifies students who may benefit from advanced instruction in critical thinking, reading, information fluency, and English composition.

Who Takes the CWRTE

All TU undergraduates, *i.e.* all those pursuing an Associates and/or Bachelor’s degree, must pass the CWRTE in order to earn a degree from Thomas University. In addition, RN-MSN and RN-MSN/MBA students must also pass the CWRTE. Students pursuing a second bachelor’s degree or post-bachelor certification are exempt from the CWRTE requirement.

When Students Take the CWRTE

Students must take the CWRTE in order to enroll in their major program of study and/or before earning 60 credit hours.

- Students should take the CWRTE after completing 30 semester hours, including completion of ENG 102 (or its transfer equivalent) with a grade of “C” or better.
- A student who has accrued 60 credit hours, but has not passed the CWRTE, must register for REA 111 Critical Writing, Reading, and Thinking Skills for the following academic term.
- Students cannot take more than 30 upper division hours until they successfully complete the CWRTE.

When Transfer Students Take the CWRTE

Transfer students should follow a similar progression:

- Students who transfer to Thomas University with coursework equivalent to ENG 101 and ENG 102, and less than 45 credit hours should take the CWRTE during their first semester at TU.
- Students who transfer to Thomas University with coursework equivalent to ENG 101 and ENG 102, and 45 or more credit hours should take the CWRTE as part of their admission requirements, before beginning classes.

NOTE: These students may wait until the end of their first semester under one of two conditions:

- The student enrolls in REA 111 during the first five weeks of their first semester at Thomas University. The CWRTE serves as the final exam for this course.
- The student enrolls in an upper level expository composition course (e.g., Scholarly Writing, Professional Writing, Argumentative and Persuasive Writing).

If the CWRTE is Not Satisfied

If one or more parts of the CWRTE are not satisfied, the student should register for REA 111 during the next semester of enrollment. At the conclusion of the course, the student will retake section(s) not satisfied. If students do not satisfy a section for the second time, they should register for REA 111 a second time as well as set up an academic plan with Developmental Studies. After three attempts at a section, if the section is not satisfied, students may not continue taking classes at Thomas University.

Developmental Studies Courses

All students who place into take two or more Developmental Studies courses in English, Reading, and/or Math at Thomas University must take the UNV102 Student Success Seminar. All courses listed with a number less than 101 are taken for institutional credit only. Students scoring below the required level for entrance into academic courses are required to register for Developmental Studies classes. Successful completion of Developmental Studies classes is required before a student is admitted into the regular academic program.

Repeating Courses/Forgiveness Policy

The Forgiveness Policy applies to undergraduate courses only. In order to attempt to improve a course grade and grade point average, a student may repeat courses.

The following stipulations apply:

- A course repeated will not replace the first grade from appearing on the student’s transcript.
- The repeated course grade will be entered on the student’s official transcript, and the cumulative GPA will be determined using the grade earned for the repeated attempt.
- The original grade will remain on the transcript but will not be counted in the GPA.
- Only one re-attempt is allowed for three separate courses.
- Specific Division policies may apply. A student’s advisor must be consulted before registering to repeat a course.
- The student must apply for Grade Forgiveness using the appropriate form and submitting it to the Registrar’s Office in order to replace a lower grade with a higher grade earned by repeating a course.

Second Bachelor’s Degree

Students who want to earn a second bachelor’s degree at Thomas University must meet the following stipulations:

- must have completed all Core requirements (or an A.A.);
- can count upper division course work from the previous degree if appropriate;

- must earn a minimum 30 additional hours to earn the second degree; and
- must meet any other program requirements for the second degree.

Satisfactory Academic Progress

Thomas University seeks to provide an environment suitable for promoting learning. To ensure this primary goal, the university requires of its students reasonable academic progress. The retention of those students who repeatedly demonstrate a lack of ability, industry, maturity and preparation would be inconsistent with this requirement.

At the end of each semester, the registrar will compute the cumulative GPA and compare each student's progress to the established criteria. This comparison will determine whether or not a student is performing satisfactorily.

The Academic Council determines the criteria for satisfactory progress. The criteria for satisfactory progress are shown in the following table.

Academic Hours Attempted	Minimum Cumulative GPA
0-29	1.50
30-59	1.80
60-89	1.95
90-completion	2.00

The individual's stage of progress is determined on the basis of the total number of academic semester hours attempted, including those transferred from other institutions. However, transfer credits are not included in computing GPAs.

Academic Warning

A student will receive an **academic warning**, if at the end of the semester while on good standing, the semester GPA falls below a 2.0. This is an indication to the student that he or she needs to meet with his/her advisor to discuss an academic plan designed to increase academic success during subsequent semesters. Even though a student given an academic warning is making progress toward graduation, it should be clearly understood that without immediate academic improvement, probation or suspension will result.

Academic Probation

A student will be placed on **academic probation** if at the end of the semester the cumulative GPA falls below the minimums specified for **satisfactory academic progress**. Even though a student on probation is making progress toward graduation, it should be clearly understood that without immediate academic improvement, suspension will result.

NOTE: If a student enrolled in developmental courses does not pass with a least a "C" or better in six hours of developmental course work each semester, he or she will be placed on academic probation.

Provisionally admitted students will enter on Academic Probation. They must earn at least a 2.0 GPA during their first semester or they will be placed on Academic Exclusion

Academic Suspension

While on academic warning or probation, a student will be suspended at the end of any semester if the cumulative GPA falls below the minimums specified in the table above and semester GPA falls below 2.0.

Suspended students may be readmitted after one regular semester of suspension, typically fall or spring*, but shall be readmitted on academic probation. Students may be suspended and readmitted in this manner only twice. The third suspension will result in Academic Exclusion. Should another institution permit a student on suspension from Thomas University to enroll, work taken at that institution during any period of suspension shall not be counted as credit at Thomas University.

*An exception to the regular semester rule may apply if the student was registered for summer by April 15th and received notice of academic suspension at the end of spring semester. In this case, the student may appeal to the Associate Vice President of Academic Affairs to have summer count as the suspension term.

Academic Exclusion

Academic exclusion results in a student being barred from the institution due to unsatisfactory academic progress. A student placed on academic exclusion will be suspended from the university for a minimum of one calendar year.

Students enrolled in developmental courses may attempt each course a maximum of **three times** to earn a minimum grade of “C” required for advancing to the next course level. If they have not completed the requirements for the course after three attempts in each course, they will be excluded from further study at Thomas University.

Readmission to the university after Academic Exclusion can only be accomplished by appealing to the Associate Vice President of Academic Affairs in writing.

Graduate Program Policies

Course Load

Graduate students carrying nine or more hours are considered full-time; graduate students carrying a course load of fewer than nine are considered part-time. Graduate students are considered full time during the summer term if enrolled for a minimum of six graduate credits.

Satisfactory Academic Progress

The Graduate Council sets minimum standards that all graduate students in the university must fulfill. Divisions and programs may have additional requirements that exceed the Graduate Council minimum requirements. Students are advised to read the rules explaining satisfactory progress for the graduate major.

The Graduate Council requires that a student earn a minimum graduate grade of “B” (grade point of 3.0 on a 4.0 scale), “S” (Satisfactory), or “P” (Pass) in each graduate-level course taken as a graduate student. The Graduate Council also considers grades of incomplete to be unsatisfactory if they are not removed during the next fall or spring semester in which the student is enrolled; however, the professor may impose an earlier deadline. A student may be expelled from the program for one or more grades below the “B”, “S”, or “P” minimum within one semester or for failing to resolve incompletes.

Academic Suspension

A student may be suspended from the Graduate Program for the subsequent semester for a grade falling below the “B” (grade point of 3.0 on a 4.0 scale), “S” (Satisfactory), or “P” (Pass) minimum or for failing to resolve incompletes grades during the next fall or spring semester in which the student is enrolled. In order to remain enrolled, the student must submit a request in writing to continue in the program with an action plan in which the student outlines his or her plan to attain successful results in the student’s course of study during the next semester (i.e. what will the student do differently the next semester to insure success in their classes). This action plan must be submitted by the first day of the next semester to the division chair. The division chair and appropriate graduate faculty will determine whether the student will continue in the program. This decision will be final.

Readmission

If the student is readmitted he/she must repeat the course in which the unacceptable grade was earned, at the student’s expense. A course so repeated will not negate the first grade. The repeated course grade will remain on the student’s transcript. A second unacceptable grade (below the “B” (grade point of 3.0 on a 4.0 scale), “S” (Satisfactory), or “P” (Pass) minimum) in any graduate course will result in permanent academic exclusion from the graduate program.

Provisional Admit - Graduate

If a student is admitted as a provisional admit, the student must register for and successfully pass the graduate Scholarly Writing Course prior to full admission to the graduate program. The graduate Scholarly Writing course must be taken and passed before the student is permitted to register for any other graduate courses. If undergraduate courses are needed for prerequisites in the graduate program, the student is permitted to take these during the same semester as Scholarly Writing. The student must earn a grade of “B” or better in each course to enter into the graduate program.

Academic Exclusion

Students who were excluded from one graduate program at Thomas University may apply to another graduate program if minimum admission criteria for that program are met. Application to another graduate program must be reviewed and approved by the Graduate Council for provisional admittance. If the student is provisionally admitted, the first semester of the provisional admit is considered an Action Plan and the student must earn a grade of “B” or better in each course to remain in program. Since graduate students cannot have more than one action plan, a grade below a B during the first semester will result in permanent academic exclusion from the graduate program.

Special Standing

Thomas University accepts qualified applicants for graduate study as Special Standing Students (non-degree seeking) to take up to 12 credits of approved graduate-level courses. Applicants must meet the standard of a cumulative undergraduate GPA of 3.0 or higher; provide a resume and personal statement describing their reason for applying and stating specific courses they wish to take; and supply three letters of reference relevant to their ability to do graduate study. We expect applicants to hold an undergraduate (or prior graduate) degree in a related discipline.

Not all courses/programs are open to non-degree seeking students. Course enrollment must be approved by the applicable division chair.

Special Standing Graduate Students (non-degree seeking) must earn a “C” or higher in each Thomas University graduate course taken to be permitted to enroll in additional courses as a Special Standing Student. If a Special Standing Graduate Student applies and is admitted to a graduate degree program, only 12 credits of non-degree seeking coursework for which the student earned a “B” or higher can be applied to the graduate degree requirements.

A student who has been excluded from a Thomas University graduate program cannot be a non-degree seeking student.

Additional Graduate Policies

In addition to these minimum academic requirements, students are expected to demonstrate behaviors that support and contribute to a positive professional learning environment in the classroom, university and community, in congruence with the mission and philosophy of the university and graduate program. In accordance with the policies of Thomas University, a student’s scholarly (e.g. cheating, plagiarism) or personal misconduct may make it inadvisable to retain the student in the program or university.

Academic Appeals Processes

There are a variety of protections offered students at the university to assure a fair and consistent treatment in academic matters. Issues of alleged discrimination, harassment, sexual harassment, and penalties for student misconduct have their own grievance or appeals procedure, detailed on the TU [Campus Safety](#) website.

Student academic grievances may concern:

- Course content that veers significantly and substantively from the content and requirements as set forth in a course syllabus.
- Demonstrably arbitrary and unfair evaluation of student produced course work.

Deviations from the Course Syllabus

Deviation from the syllabus will be considered a grievable situation only if the student can show that significant material, vital to future courses for which this course is a prerequisite, has been eliminated or the expectation of student performance has significantly changed.

In general, any student who has any form of grievance with a faculty member or administrator follows this process:

1. Take that grievance to the person involved. Accordingly, students who have a grievance about major deviations, additions or changes to a course's syllabus are encouraged to first take up the issue with the course instructor. Significant reasons may have developed – such as a major discovery that necessitates changes in the course content or contextual developments which change the way the course may be delivered or evaluated – to warrant such changes in the curriculum.
2. If a faculty member is contacted and a resolution does not result, the grievance may then be taken to the division chair. (If the applicable division chair is the instructor in question, the concern should be directed to the Director of Academic Advising) The purpose of this meeting is primarily informational, although if there is evidence that the course did not generally match with the basic description provided in the University catalog, remedies may be offered to the student, including, but not limited to, re-offering the course to the student, providing an opportunity for mentored independent study, or extending the option of course withdrawal.
3. If the grievance is still not resolved, it may be taken to the Director of Academic Advising for review and final decision. Grievances should be expressed and dealt with at the earliest point in time. Ordinarily students should begin the grievance process no later than two weeks after the initial unresolved experience. Grievances initiated after the end of the semester will be treated as grade appeals.

Demonstrably Arbitrary and Unfair Evaluation of Student Work

Students have a right to expect fair and consistent issuance of course grades. The grading policy employed in each class, including the comparative weight of each component used to determine the final grade, is outlined in each course syllabus. It is the student's responsibility to read and comply with the grading policy outlined in that syllabus.

In general, any student who has any form of grievance with a faculty member or administrator follows this process:

1. Take the grievance to the person involved. Accordingly, students who have questions about grades on projects, tests or final grades for the semester are encouraged to meet with their instructor and review the grades.
2. In the case of a final grade only, if the student still does not understand the basis for the grade or believes that the composition of the semester grade conflicts with the grading policy stated in the syllabus, the student may request an additional meeting with the instructor and the applicable division chair (If the applicable division chair is the instructor in question, the concern should be directed to the Director of Academic Advising). This meeting must be requested within two weeks of receipt of the final grade, and must take place within 30 days of the beginning of the next semester.
3. At this meeting, the student will be asked to provide evidence to substantiate the claim that the grade was either arbitrary or unfair. The role of the applicable division chair is to facilitate communication and clarify understandings.
4. If the dispute is regarding the accuracy of a grade assignment, and in the opinion of the division chair, evidence substantiates the claim that the grade is either arbitrary or unfair; the division chair will determine a resolution.
5. A further appeal based on merit may be made to the Director of Academic Advising for final determination.

The grade appeal process is not designed to address accusations of discrimination or harassment. If such concerns are the premise upon which the appeal is made, the student is directed to use the processes established by the university to resolve discrimination or harassment charges.

Credit by Examination

To reduce the length of time and cost to complete a program of study, students may receive up to 30 combined hours of credit for approved courses towards a bachelor's degree or 15 hours towards an Associate of Arts degree through any of the following: CSC 120 Microcomputer Applications Examination, institutional-departmental examinations, the College Level Examination Program (CLEP) subject examinations, the Defense Activity for Non-Traditional Education Support (DSST/DANTES), or the Advanced Placement (AP) program.

Credit earned from the CSC 120 Microcomputer Applications examination, institutional-departmental examinations, CLEP, DSST/DANTES, AP, or any external credit source will not be used to compute the grade point average.

CSC 120 Microcomputer Applications Examination

This credit by exam is an option to obtain course credit for computer skills for students who bring work and learning experiences that enable them to demonstrate mastery of the course learning outcomes for CSC 120 Microcomputer Applications. Outcomes show proficiency in the following areas: Windows, Microsoft Office Suite (Excel, Word, PowerPoint, etc.), and the use of the internet. Students will pay \$350 to attempt the exam; if the student passes the exam they will receive three credit hours on their transcript for the CSC 120 course. If the student does not pass the exam, the \$350 is non-refundable. Credit earned from this examination will not be used to compute the GPA. The exam may be taken on campus or at selected proctoring sites off campus. Contact the registrar's office for more information.

Institutional-Departmental Examinations

Arrangements for these exams must be made through the Division Chair. The Associate Vice President of Academic Affairs will determine whether the student meets the requirements to proceed with a departmental exam.

- Students desiring credit by examination must present evidence of probable success in the examination subject area before permission will be granted.
- Departmental credit by exam is limited to nine credit hours (unless otherwise stipulated by an articulation agreement in which the student is a participant).
- A student may not attempt credit by exam for any 400 level courses.
- Credit by exam must be attempted during the first year a student is enrolled at TU.
- A \$350 fee per examination is required, and a copy of the examination and score must be signed by the examination administrator and submitted to the Registrar.
- Students achieving a satisfactory score will have the credit or exemption entered on their academic transcript.

CLEP or DSST/DANTES Subject Examinations

Courses for which CLEP or DSST/DANTES examinations are accepted are available from the registrar. For those exams accepted, a minimum score of 50 is required. Thomas University follows the credit recommendations of ACE for scores required for college credit. An official score report must be submitted to receive credit.

Advanced Placement and International Baccalaureate Programs

AP and/or IB courses are offered to high school students by some high schools. Enrollment in AP and/or IB courses is determined at the high school level. A student in such courses must take the concluding exam to be eligible for college credit. A score of three or above on the AP exam is required to earn college credit. An official, original score report must be submitted to receive credit.

Extra-Institutional Learning Credit

Thomas University gives credit for formal training according to the principles established in the ACE National Guide and/or Guide to Evaluation of Educational Experiences.

Experiential Learning Credit

Experiential learning course credit is an option for non-traditional college students who bring significant work experience, both in terms of years and responsibility, to obtain course credit if they can demonstrate achievement of course outcomes and competencies obtained through prior learning experiences.

The requirements for earning experiential learning credit follow the guidelines of the Council for Adult and Experiential Learning and can be found on the TU website at www.thomasu.edu/academics.

Experiential learning course credit is available for:

- SPE 105 Oral Communication for Professionals
- NSG 490 Special Topics in Nursing or Related Health Services
- CRJ 390 Criminal Justice Specialization

A student seeking experiential learning credit must complete a request form supplying and verifying the information required by the appropriate division (see below). The Associate Vice President of Academic Affairs will determine whether the student meets the requirements to proceed with the portfolio.

An assessment committee made up of faculty/administrators in the appropriate Division will determine whether the portfolio merits course credit.

For more information, students should contact the Associate Vice President of Academic Affairs.

Requirements for SPE 105 Experiential Learning Credits

To be eligible for Experiential Learning credit for this course, a student must meet the following criteria:

1. be enrolled in a TU degree completion program (BSN, BS in Medical Laboratory Science, BS in Criminal Justice) or transfer into a major program as a junior;
2. have a transfer GPA of 2.0 or better;
3. successfully complete or transfer ENG 101 and ENG 102;
4. document at least three full-time equivalent years of relevant employment;
5. pay \$350 fee if materials merit course credit; and
6. submit a portfolio with the understanding that plagiarism, falsification, or misrepresentation are unacceptable and will result in rejection of the portfolio and will be reported to the Honor Council as a violation of the Honor Code.

Requirements for CRJ 390 Experiential Credits

Students may obtain up to six major elective course credits for specialized skills or careers within the field of criminal justice by providing documentation of training, experience and proficiency within a specific specialization or field of criminal justice. The requirements for experiential learning credit for CRJ 390 Criminal Justice Specialization are:

1. be enrolled in the TU Bachelor of Science in Criminal Justice or transfer into the major as a junior;
2. have a transfer GPA of 2.0 or better;
3. successfully complete or transfer ENG 101 and ENG 102;
4. document at least three full-time equivalent years of relevant employment;
5. pay \$350 fee if materials merit course credit; and
6. submit a portfolio with the understanding that plagiarism, falsification, or misrepresentation are unacceptable and will result in rejection of the portfolio and will be reported to the Honor Council as a violation of the Honor Code.

Requirements for NSG 490 Experiential Learning Elective Credits

Upon acceptance to the Thomas University Nursing Program, students who hold an active professional nursing certification sponsored by a national organization may receive three credit hours for NSG 490 Special Topics in Nursing or Related Health Services as part of their required curricular plan. Additionally, students who receive an initial certification while enrolled in the nursing program can also receive three credit hours. Examples of approved organizations and certifications include American Nurses Credentialing Center, Emergency Nurses Association, Oncology Nursing Certification Organization, American Board of Perianesthesia, Nephrology Certification Commission, and others. Examples that would not meet this requirement include CPR, ACLS, TNCC, PALS, NALS and other similar certifications.

To receive credit, a student must:

1. have the certification approved by his/her nursing advisor and the division chair;
2. submit a copy of the certification to his/her advisor along with a letter requesting the credit;
3. attach a copy of the official certification requirements; and
4. pay \$350 fee if materials merit course credit.

All of these documents will be filed in the student's academic file. The certification must be current at the time credit is requested in order to receive experiential learning credit. Only one national certification is eligible for experiential learning credit.

Foreign Study Opportunities

Thomas University offers several study/travel abroad programs. These programs allow students the opportunity to earn academic credits while participating in an overseas experience. Travel takes place between semesters or during the summer term. For more information about Study Abroad courses, dates and requirements, students may contact their academic advisor.

Financial Assistance for Foreign Study Opportunities

Deadlines

- September 1st for fall semester trips
- February 1st for spring semester trips

Application Process and Policy:

- Apply for scholarship aid for travel expenses by filling out the Institutional Scholarship Application and submitting it to the Director of Financial Aid, by the deadline.
- Institutional Scholarship Aid will be awarded if funds are available.
- No funds will be provided to a student who is making a repeat trip to the same country, even if the trip is repeated for a different course.

Online Consortium of Independent Colleges and Universities

The Online Consortium of Independent Colleges and Universities (OCICU) provides students with the opportunity to complete courses with students from over 60 private, not-for-profit colleges in the United States.

Enrollment in OCICU courses will be limited to one per semester unless required courses are cancelled or for other reasons cannot be completed within the Thomas University curriculum. In such exceptional cases, students must have the approval of the Division Chair and Associate Vice President of Academic Affairs. Thomas University undergraduate students may complete a total of nine credits through OCICU and graduate students may complete a total of six credits through OCICU.

Students are eligible to register for courses through OCICU if they meet the following stipulations:

- the course(s) have been specifically designated as requirements or electives for a particular program of study and if the course is not being offered at Thomas University within a reasonable time for completion of the degree;
- the limit for OCICU Core Curriculum courses has not been exceeded;
- have completed at least 30 credit hours of college level coursework (not applicable for graduate students);
- have a minimum cumulative GPA of 2.5 for undergraduates or 3.0 for graduate students;
- have the approval of their advisor; and
- earned a "C" or better in ENG 101 Composition I (not applicable for graduate students).

Academic Honors

President's List

The President's List for each semester will include those full-time students who earn a GPA of 4.0. Students enrolled in courses which earn institutional credit only are not eligible for the President's List.

Dean's List

The Dean's List for each semester will include those full-time students who earn a grade point average of 3.50 to 3.99. Students enrolled in courses which earn institutional credit only are not eligible for the Dean's List.

Merit List

The Merit List for each semester will include those part-time students who are taking at least 9 semester hours of credit, but fewer than 12, and who earn a GPA of 3.5 or higher. Students enrolled in courses which earn institutional credit only are not eligible for the Merit List.

Achiever's List

The Achiever's List for each semester will include students who are taking at least 9 semester hours of credit and earn a grade point average of 3.5 or higher. This is an honor awarded to students enrolled in courses which earn institutional credit only.

Honor Societies

Alpha Chi

Alpha Chi, a national honor society, is open to students with junior or senior standing. Students must be in the top 10% of their class, have a minimum GPA of 3.5, participate in student activities, show evidence of community participation, and be of good character and reputation. Competitive scholarships are available and national and regional conventions are held annually at selected sites.

Alpha Phi Sigma

Alpha Phi Sigma is a national honor society for Criminal Justice undergraduate students with a grade point average (GPA) of 3.2 on a 4.0 scale, must have completed one-third of the total hours required for graduation, must rank in the top 35 percent of their class and have completed a minimum of four courses in the Criminal Justice curriculum. The TU chapter of Alpha Sigma Lambda is Phi Lambda.

Alpha Sigma Lambda

Alpha Sigma Lambda is an honor society for non-traditional students, age 26 or older, who have earned a minimum 3.2 GPA taking a minimum of 24 graded undergraduate semester hours at TU. The TU chapter of Alpha Sigma Lambda is Phi Lambda.

Chi Sigma Iota

Chi Sigma Iota is an international counseling, academic and professional honor society dedicated to promoting excellence in counseling. Students must have a minimum 3.5 GPA and have completed at least 12 hours in a graduate counseling program.

Kappa Delta Pi

Kappa Delta Pi is an international honor society in education open to second semester sophomores, juniors, and seniors who rank in the top 20% of their class or have a minimum 3.5 GPA.

Phi Alpha

Phi Alpha is a national honor society for Social Work students. Thomas University is part of the Phi Alpha National Social Work Honor Society as Omicron Tau chapter. Social Work seniors with at least a 3.0 overall college GPA and a 3.25 GPA in social work classes will be eligible for membership in the TU chapter. Members receive a lifetime membership certificate and wear a multi-colored honor cord at their graduation ceremony to reflect the diversity of their client populations.

Psi Chi

Psi Chi is a national honor society in psychology. Membership is an earned life honor. Undergraduates must have an overall CGPA of 3.0, rank in the upper thirty-five percent of their class, must demonstrate superior scholarship in psychology, and demonstrate high standards of personal behavior.

SALUTE

SALUTE is the national honor society for military and veteran students who have earned a minimum GPA of 3.0 for undergraduates or a GPA of 3.5 for graduate students, who have served or who are currently serving in the military, National Guard, or reserves, and who maintain the highest ethical standards. Inducted graduate students are classified as SALUTE Gold Members and must have completed 12 semester hours of graduate work or equivalent.

Sigma Beta Delta

Sigma Beta Delta is a national honor society in business. Its purpose is to encourage and recognize scholarship and accomplishment among students of business, management, and administration.

Sigma Theta Tau International

Sigma Theta Tau is an international honor society of nursing whose mission is to support the learning, knowledge, and professional development of nurses committed to making a difference in health worldwide. Membership is open to BSN and MSN students with a minimum GPA of 3.5, as well as nursing leaders with a minimum of a bachelor's degree and demonstrated achievement in the profession. The TU chapter of Sigma Theta Tau International is Phi Tau.

Graduation

Thomas University awards associates, bachelor's, and master's degrees. Degrees will be conferred summer, fall, and spring, upon the recommendation of the faculty, to students who have successfully completed all program requirements. The Commencement ceremony for all students graduating in summer, fall, and spring of an academic year is conducted following spring semester. All students completing graduation requirements during this period are required to participate in the ceremony.

Exemptions are permitted by the Provost only under exceptional circumstances. All students must have a minimum GPA of 2.0 in order to be eligible for recommendation for graduation. At least 25% of all hours earned toward any degree must have been earned at Thomas University, and 24 of the last 30 hours of upper-division coursework toward a bachelor's degree must have been earned at Thomas University.

Latin Honors

Students who are awarded a Bachelor's Degree may earn the distinction of graduating summa cum laude (3.9 CGPA), magna cum laude (3.7 CGPA), or cum laude (3.5 CGPA).

- The associates degree honor graduates are those students who graduate with a cumulative grade point average of 3.5 or higher.
- GPAs for graduation honors are calculated using all hours attempted in service to the degree at all institutions attended through the end of the fall semester preceding graduation.
- Honors will not be re-calculated after all grades are posted.
- Graduate students, already subject to maintaining a higher GPA as a student in the graduate program, are not issued Latin Honors
- If an Honor Code violation stamp is on a graduating student's transcript at the time of Honors Calculations, the student is excluded from receiving recognition for Honors (e.g.: transcript note, Honors Tea, Latin Honors, commencement program), regardless of GPA, until the requirements of the stamp are met.

Graduation Procedures

Students who expect to graduate must complete the Graduation Application before the deadline.

- The deadline for fall graduates is March 1st.
- The deadline for spring graduates is October 1st.
- The deadline for summer graduates is December 1st.

Graduation Applications received after the deadlines will not be guaranteed the opportunity to participate in the graduation ceremony.

In addition to the graduation application, students are required to pay graduation fees, and clear all accounts in the Business Office. Official transcripts and diplomas will not be provided until all requirements have been met.

NOTE: Students expecting to graduate in Summer term may have no more than three classes, for a total of 10 credit hours or less, remaining for Summer enrollment in order to participate in the preceding annual Commencement exercises. To receive permission to participate, students must be registered for the remaining courses and courses must be completed during the summer semester after Commencement.

Library Services

The Thomas University Library, conveniently located in the center of the Academic Complex, offers traditional library services coupled with the latest in educational technology. It is the expressed mission of the library “to support the academic needs of the students by providing a dynamic learning environment that engages students in their intellectual and personal development and to provide faculty and students training and resources to ensure the means by which they can achieve personal and professional transformation.”

The library supports individual, group, and distance use of its resources through its availability and arrangement of computer terminals, collections, study areas, seating, and web presence.

The library provides various print and electronic collections to support the academic programs of the university. This includes the general circulating collection, the reference collection, the audiovisual collection, and access to various collections of electronic books and periodicals; all searchable via the library web page. These holdings consist of over 20,000 print books, 1,000 audiovisual items (audio books, music CDs, and DVDs), and 90 print newspapers, magazines, and journals; as well as access to over 160,000 electronic books and access to hundreds of full-text articles available through the state-renowned GALILEO collection of academic databases and resources.

Patrons have access to 26 computers, several printers, and a photocopier. Articles and books not available in the library may be acquired through the Interlibrary Loan service. Librarians conduct classroom, online, and one-on-one library and information literacy instruction.

The Thomas University Library maintains cooperative agreements with GPALS (Georgia’s Private Academic Libraries) and Southern Regional Technical College Library.

Learning Support

Developmental Studies Courses

These reading, English, and math courses empower students with the knowledge, skills and dispositions to meet the reading, writing, and quantitative reasoning demands of the Core Curriculum.

Students are placed into Developmental Studies courses based on their scores on the Thomas University placement exam. Students place into Developmental Studies courses for many reasons: they may have never learned some required skills in high school, they may never have planned to go to college, or they may have been out of school for several years before returning to college.

Developmental Studies or college prep courses involve the same amount of time and effort for assignments as college level classes, yet they do not penalize a student if a course needs to be repeated. Grades are not averaged into the cumulative grade point average, but are counted towards financial aid and other eligibility requirements. Each Developmental Studies courses may be attempted a maximum of three times.

Students who take Developmental Studies courses must pass these courses with a “C” or higher to proceed to college-level classes. However, Developmental Studies students are not restricted to taking only developmental courses. Certain college-level courses may be taken while completing the developmental courses. Developmental Studies courses should ordinarily be completed within the first thirty hours that a freshman is enrolled.

Learning Support Courses

Thomas University offers support courses for enhancing English as a Second Language, college Math / Algebra learning, and Critical Writing, Reading, and Thinking skills. Students are advised to take these courses based on entrance exam scores and CWRTE results.

Academic Resource Center

The Academic Resource Center (ARC) empowers students to take personal responsibility for their college success by addressing their knowledge, skills, strategies, and dispositions on an individual basis and through individual course

assignments. To achieve this mission, ARC provides all Thomas University students with free assistance from their trained peer tutors and professors in all academic subjects. ARC delivers these services both face to face and online using a variety of technologies. ARC also equips students with wireless access, computers, and a quiet study space.

The Pre-College Program Educational Talent Search

The Pre-College Program (funded by the U.S. Department of Education, under the Educational Talent Search Program) prepares middle and high school students for post-secondary study. This is achieved via tutorials (at the middle school level), cultural enrichment activities, college visits and a variety of workshops on topics such as study and test-taking skills, financial aid preparation and college entry/admissions. The project serves students in four school systems across southern Georgia. They are: Thomas County Schools, Thomasville City Schools, Grady County Schools, and Decatur County Schools.

General Education and Core Curriculum

General Education

General Education learning at Thomas University is based on course requirements and outcomes tied to assignments in each course to ensure that all students are exposed to broad knowledge and perspectives and that they develop analytical and communication skills expected of an associate or baccalaureate degree-holding graduate with a liberal arts foundation. This liberal arts foundation is expressed in Thomas University's General Education Student Learning Outcomes which prepare graduates for a profession, lifelong learning, and global citizenship:

Think Critically

To engage in orderly, open-minded, informed inquiry that begins with a clear understanding of a problem or circumstance and yields a purposeful judgment or analysis.

Discover Information

To have a clear understanding of an information need and ability to collect information from multiple sources for analytical and creative purposes.

Foster Community

To take intentional action geared toward creating a sense of connection with and between faculty, students, and cultures, toward common values, activities, and/or goals.

Communicate Effectively

To transmit ideas clearly, concisely, and convincingly through speech and writing.

The university uses two curricular approaches to ensure every student's exposure to and development of college-level General Education learning:

1. 48-49 credits of required lower-division Core Curriculum courses; and
2. Embedded General Education Student Learning Outcomes in every course.

Core Curriculum

At Thomas University, the General Education coursework, or Core Curriculum, comprises a substantial component of all undergraduate degree programs. The General Education Student Learning Outcomes are introduced in the Core Curriculum and continue to be developed throughout all degree programs.

Undergraduate students, regardless of major, complete a common Core Curriculum, consisting of five main areas of study: University Studies, Communication, Math and Science, Social Sciences, and Humanities.

Degree programs may require specific courses to be taken in the Core Curriculum which meet Core and degree requirements. The student should consult the program of study information in the TU Catalog and his/her advisor for specific requirements of each major.

General Education Core Curriculum Requirements

48-49 Total Semester Credits

University Studies: 4 semester credit hours

These courses empower students to take personal responsibility for their college success. Each course focuses upon a particular subject, such as university resources and policies, study skills, research skills, ethical decision making, academic technology, career development and wellness. Students are taught to analyze their individual capabilities (i.e., knowledge, skills, strategies, and dispositions), adjust those capabilities for the college environment, and approach their program of study with improved competence.

All entering freshmen and transfer students with less than 24 credit hours are required to take UNV 101 Freshman Success Seminar.

- Students transferring in with 24 or more hours or a completed AS or AAS degree are exempt from UNV 101.
- Students transferring in with 40 or more hours are also exempt from all UNV requirements.

- Students transferring in between 25 and 39 hours must take UNV 202 and three additional hours of UNV courses from the approved list.

UNV 102 Student Success Seminar, a 2 credit hour course, is required for all students placing into two or more Developmental Studies courses.

Required courses:

Course	Credits
UNV 101 Freshman Success Seminar	1
UNV 202 Introduction to Ethics	1

A student chooses two of the following courses:

Course	Credits
UNV 103 Personal Wellness	1
UNV 111 Student Success with Technology-Enhanced Learning	1
UNV 201 Career Development	1
UNV 211 College Research Skills	1

COMMUNICATION: 12 semester credit hours

Course	Credits
*ENG 101 Composition I	3
*ENG 102 Composition II	3
SPE 105 Oral Communication for Professionals	3
CSC 120 Microcomputer Applications	3

*Student must meet minimum placement score to enroll (see Admissions section of Catalog). Student must pass the course with a grade of "C" or better

Math and Science: 14-15 semester credit hours

Course	Credits
*MTH 140 College Algebra or Lab-based Science	4
*MTH 120 Mathematical Modeling or	3
*MTH 150 Pre-Calculus Lab-based Science	4
Math or Science elective	3/4

*Student must meet minimum placement score to enroll (see Admissions section of Catalog). Student must pass the course with a grade of "C" or better

Lab-based Science Course Options

(Prerequisites must be met, if applicable.)

Lab Science Courses for Core Curriculum Requirements	Credits
BIO 101 Principles of Biology I	4
BIO 102 Principles of Biology II	4
BIO 105 A Survey of Biology for Non-Majors	4

BIO 110 Current Issues in Life Science	4
BIO 261 Human Anatomy and Physiology I	4
BIO 262 Human Anatomy and Physiology II	4
CHM 101 General Chemistry I	4
CHM 102 General Chemistry II	4
PHS 220 Principles of Physical Science I	4
PHS 221 Principles of Physical Science II	4
GLY 125 Physical Geology	4
GLY 226 Historical Geology	4
OCE 220 Oceanography	4
BIO 250 Human Osteology	4
BIO 252 Current Issues in Environmental Science	4
Upper Level Science Courses Approved to Fulfill the Core Requirement	
ANT 310 Physical Anthropology	4
PHY 301 General Physics I	4
PHY 302 General Physics II	4
BIO 315 Zoology	4
BIO 323 Botany	4
BIO 311 Conservation Science	4

Math/Science Elective:

One additional course in either Mathematics or Science is required. The student should consult the specific requirements of his/her major before choosing a Math or Science course. Mathematics and Science courses at the 300 and 400 level are elective options. ARC 303 Field Techniques in Archaeology may be an elective option.

Social Sciences: 12 hours

Course	Credits
HIS 201 United States History and Government I OR (three 1-credit courses listed below in lieu of HIS 201) OR	3
HIS 202 United States History and Government II OR	
HIS 203 United States History and Government III	
HIS 201 United States History and Government I OR (three 1-credit courses listed below in lieu of HIS 201) OR	3
HIS 202 United States History and Government II OR	
HIS 203 United States History and Government III	
Social Science elective (see options)	3
Social Science elective (see options)	3

3 of the following 1 credit hour courses may be taken in lieu of HIS 201:

Courses	Credits
HIS 210 Overview of American Politics	1
HIS 211 Congress	1
HIS 212 Presidency	1
HIS 213 The Federal Court System	1

Criteria for Undergraduate Programs

General Education Outcomes

Each academic program and course is guided by the four General Education Student Learning Outcomes of the university. Every course syllabus must indicate how the General Education Outcomes are developed through the course learning outcomes and course requirements. The knowledge, skills, and perspectives that students acquire through their general education embedded in every course develop the broad capabilities that prepare them as graduates for successful careers and responsible leadership in a rapidly changing and complex world.

The General Education Student Learning Outcomes distinguish graduates of Thomas University. They are able to:

- **Communicate Effectively**—To transmit ideas clearly, concisely, and convincingly through speech and writing.
- **Think Critically**—To engage in orderly, open-minded, informed inquiry that begins with a clear understanding of a problem or circumstance and yields a purposeful judgment or analysis.
- **Discover Information**—To have a clear understanding of an information need and to be able to collect information from multiple sources for analytical and creative purposes.
- **Foster Community**—To take intentional action geared toward creating a sense of connection with, and between, faculty, students and cultures toward common values, activities, and goals.

Computer Literacy

Students must demonstrate computer literacy. Credit by exam is an option to obtain course credit for CSC 120. See [Credit by Examination](#) for details.

Electives

Elective courses should be selected with the help of an advisor and must be appropriate to the program of study. Upper division electives must be 300 or 400 level. For transfer students only, no more than 3 courses (up to 12 transferred credit hours) at the 200-level may be used as upper division requirements and/or program electives. They must be appropriate to the program of study.

Foreign Languages

Students wishing to pursue a Bachelor of Arts which requires 12 credits of foreign language are required to fulfill the following:

- a. Students entering with no high school credits in a foreign language must take six hours of the same foreign language. In addition, students must take the two following language courses: ENG 330 Word Origins and SPN 202 Conversational Spanish.
- b. Students entering with two years of high school credits in the same foreign language may exempt six hours of foreign language. These six hours must be replaced with elective courses. For the remaining six hours of foreign language, students may choose to earn credit by examination to fulfill these hours; or choose two of the following foreign language or language courses: SPN 101 Elementary Spanish I, SPN 102 Elementary Spanish II, ENG 330 Word Origins or SPN 202 Conversational Spanish.
- c. Students entering with four years of high school credit in the same language are exempt from the requirements above. They may choose to earn credit by examination to fulfill these 12 hours or select other electives.
- d. Students who demonstrate proficiency, such as native speakers of a language other than English (not necessarily one offered by Thomas University), may be exempted or may earn credit by examination. Those who exempt must select other elective courses to fulfill these 12 hours.

Students wishing to pursue the Associate of Arts in Liberal Arts which requires three credits in foreign language are required to fulfill the following:

- a. Students entering with no high school credits in foreign language must take one of the following foreign language or language courses: SPN 101 Elementary Spanish I, SPN 102 Elementary Spanish II, ENG 330 Word Origins, or SPN 202 Conversational Spanish.
- b. Students entering with one year of high school credits in foreign language may exempt the language course or choose to earn credit by exam for a foreign language course. If exempted, they must fulfill these three hours with an elective course.

Math Courses

Only one of the following math courses may be used in fulfillment of Core Curriculum or degree requirements: MTH 120, MTH 140, or MTH 150.

Associate of Arts

Associate of Arts

Liberal Studies

LiSt

Associate of Arts in Liberal Studies

All students seeking an Associate of Arts in the Liberal Studies program are required to complete the following lower division core curriculum. Elective courses should be selected with the help of an advisor and must be appropriate to the major. Make selections based on area of concentration. Consult with an advisor regarding substitutions of electives.

Core Curriculum

University Studies: 4 hours

Four 1 hour classes required. UNV 101 & UNV 202 are required, plus two more of students' choice.

Courses	Credits
UNV 101 Freshman Success Seminar	1
UNV 103 Personal Wellness	1
UNV 111 Student Success with Technology Enhanced Learning	1
UNV 201 Career Development	1
UNV 202 Introduction to Ethics	1
UNV 211 College Research Skills	1

*UNV 102 Student Success Seminar, a 2 credit hour course, is required for all students placing into two or more Developmental Studies courses.

Communication: 12 hours

ENG 101 Composition I	3
ENG 102 Composition II	3
SPE 105 Oral Communication for Professionals	3
CSC 120 Microcomputer Applications	3

Math and Science: 14-15 hours

MTH 120 Mathematical Modeling OR	3
MTH 140 College Algebra	4
Lab-based Science	4
Math or Science Elective	3-4

Social Sciences: 12 hours

HIS 201* United States History and Government I, HIS 202 United States History and Government II, or HIS 203 United States History and Government III	6
Social Science Elective	3
Social Science Elective	3

*THREE of the following 1 credit hour courses may be taken in lieu of HIS 201:

- HIS 210 Overview of American Politics
- HIS 211 Congress
- HIS 212 Presidency

- HIS 213 The Federal Court System
- HIS 214 Notable Documents and Amendments in American History
- HIS 215 Who and What Impacts Political Decisions and Elections

**Humanities: 6 hours total

Choose two. At least one must be a HUM.

- HUM 200 Survey of Western and Non-Western Culture I
- HUM 201 Survey of Western and Non-Western Culture II
- HUM 202 Survey of Western and Non-Western Culture III
- HUM 203 Survey of Western and Non-Western Culture IV

Mission

In support of the university's mission, the mission of the business division is to provide innovative instruction that educates and challenges students to develop into ethical and competent business leaders with a global focus and to cultivate good relationships with the business community regionally as well as other educational units within the institution.

Enrollment in upper division (300 or 400 level) business courses and the Bachelor of Science program is restricted to students who have been formally accepted into the baccalaureate program. To be accepted into the baccalaureate program the student must have a 2.0 CGPA or better and have completed a minimum of 60 hours to include BUS 200, BUS 201, BUS 210, BUS 211, ENG 101, ENG 102, MTH 250 and MTH 140.

Dual Degree

In addition to the Forbes campus in Thomasville, GA, the Bachelor of Science in Business Administration program is also offered with a partner university, Guangzhou College of Southern China University of Technology, in the People's Republic of China. The Thomas University China Program is approved by SACSCOC and the Ministry of Education of the People's Republic of China.

Bachelor of Science in Business Administration

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate an understanding of the functional areas of business including accounting, marketing, finance, management, and economics. Students will understand how the functional areas of business are integrated into the practical applications within business (knowledge and/or skills).
2. Demonstrate an understanding of the legal environment in business. Students will demonstrate an understanding of the legal environment through analyzing issues and risks in making business decisions (knowledge and/or skills, basic skills).
3. Demonstrate an understanding of the social environment of business. Students will demonstrate an understanding of social responsibility and social environment through analyzing ethical and diversity issues in business scenarios (knowledge and/or skills, basic skills).

4. Have an understanding of the global environment of business. Students will demonstrate an understanding of the cultural, political, and economic factors on global business strategy development (knowledge and/or skills, basic skills).
5. Apply business tools. Students will demonstrate use of the appropriate analytical financial business tools and applications to create appropriate and feasible business solutions (knowledge and/or skills, basic skills).
6. Demonstrate information literacy. Students will recognize the sources needed for business analysis (knowledge and/or skills, basic skills).
7. Demonstrate effective oral and written communication. Students will demonstrate through case analysis the ability to arrive at conclusions and recommendations, both orally and through written communication including background issues, and analysis (knowledge and/or skills, basic skills).
8. Demonstrate critical thinking skills. Students will develop effective critical thinking skills necessary to function in a professional context. Students will apply knowledge of business concepts and functions in an integrated manner. Students will demonstrate the ability to identify central problems, details, embedded business issues and clearly communicate the relationships between central problems and underlying assumptions (knowledge and/or skills, basic skills).
9. Be prepared for entry into business, management, or leadership positions in corporate, non-profit, or governmental organizations, or pursue a graduate degree in a related field. Students will upon graduation demonstrate a personal readiness for a professional career or graduate studies (personal/professional).

The course of study for students who are formally accepted into the baccalaureate program will be predicated on the program of study as outlined in the university bulletin and/or bulletin addendum that is in effect at the time of their acceptance.

Three concentrations are available in this degree program in business administration, accounting, management, or marketing. Students are required to complete the Upper Division Business Core in addition to the requirements for the concentration.

The Core Courses listed below are required for the Bachelor of Science Degree in Business Administration.

University Studies: 4 hours

Four 1 hour classes required. *UNV 101 & 202 are required, plus two more of students' choice.

Course	Credits

Master of Business Administration

The Thomas University MBA is a professional and applied graduate degree, preparing the student for leadership in the business world of the twenty-first century through readings, research, and case study analysis.

This MBA Program builds from the strong undergraduate program in business administration. The program is open to students with undergraduate majors in any area (assuming passage of four appropriate prerequisites for non-business majors). Students should be able to complete the program in two years of evening and/or online classes, assuming good progress at the rate of two courses per semester over three semesters per year. MBA courses are offered in a variety of delivery models.

Program Student Learning Outcomes

1. Students will apply requisite knowledge and information for the development of framing and solving problems. Students will demonstrate a proficiency in the integration of the functional areas of business.
2. Students will demonstrate an understanding of the link between strategic analysis, integration of theory and practical implementation. Students will demonstrate a proficient or exemplary level of case analysis in a global business environment.
3. Students will apply quantitative techniques. Students will demonstrate the ability to apply appropriate analytical concepts from the common body of business knowledge to evaluate the business environment and choose appropriate action for the business problem.
4. Students will demonstrate an understanding of professional levels of oral and written business communications and presentation skills.
5. Students will demonstrate the ability to communicate through written and oral presentations. Students will demonstrate the ability to function as an effective and productive member of a project team and will demonstrate the ability to apply project management skills in a diverse world. Students will participate in group project management addressing practical business situations.
6. Students will develop an awareness of professional business ethics. Students will demonstrate an understanding of ethical issues and behaviors through an exit survey.
7. Student will develop an understanding of diversity including ethnicity, gender, age, physical differences, sexual orientation, race, and religion.

Students will demonstrate an understanding of diversity issues and its influence in the domestic and international business environments.

See [Satisfactory Academic Progress](#) on page 39 for the Graduate policy.

Entrance Prerequisites for Master of Business Administration and MBA/Human Resources Management Concentration

BUS 200 Principles of Financial Accounting or MBA 200 Principles of Financial Accounting non-credit workshop

BUS 210 Principles of Macroeconomics or MBA 210 Principles of Macroeconomics non-credit workshop

BUS 320 Principles of Finance or MBA 320 Principles of Finance non-credit workshop

MTH 250 Introduction to Statistics (no non-credit workshop available)

These courses may be taken at Thomas University for students without a prior undergraduate business degree or significant related work experience. Some students may qualify to substitute online prerequisite workshops in an 8-week self-paced time frame. Each workshop is offered at a significantly reduced tuition rate. Entrance requirements/workshops may be waived if applicant has relevant professional work experience or undergraduate coursework. Please speak with a MBA program advisor for details.

Please refer to the Master of Business Administration literature for a full description of this degree program.

Master of Business Administration

Accounting Concentration

The MBA with a concentration in Accounting is designed to offer Thomas University accounting graduates with the extra hours and education required to become a licensed CPA in most states of the USA. Studies have shown that students that enroll in a

master's program to satisfy the extra 30-hour requirement pass the exam at higher rates than those who merely study the missing material. The Thomas University MBA program with a concentration in Accounting is designed to offer a well-rounded postgraduate education to equip students with not only the knowledge required to pass the exam, but also other critical thinking and reasoning skills that have been shown to foster professional success.

Students seeking an Accounting concentration should have graduated with a Bachelor's degree in Accounting from a regionally accredited institution.

Master of Business Administration

Human Resources Management Concentration

The MBA with a concentration in Human Resources Management is designed to offer Thomas University HRM graduates with the tools to become a highly qualified and knowledgeable Human Resource professional with great career growth potential. Strong written and oral communication skills and a desire to help people are essential to a successful Human Resources career. Education, however, is the first step in securing a future in the profession, and candidates with certification or a Master's degree – particularly those with a concentration in human resources management – will possess the credentials that are most sought by employers in this increasingly complex field.

Over the last decade, the labor market continues to recognize the need for Human Resource specialists in order to obtain effective management and facilitate company growth. As a result, employment of Human Resource professionals is expected to increase by 13%

from 2012 to 2022, a statistic which evidences the opportunities that will be available for students who are educated and experienced in this field.

Quality Human Resource training provides a wider variety of career paths that can lead to upper level management positions with high earning potential. Graduates with the requisite education and training can expect to climb to the level of Vice President or Director within both the private and public sectors, and the career opportunities are not exclusive to the business industry as Human Resource positions are also increasing in governmental and non-profit organizations.

Human Resource Management is defined as the process of hiring and developing employees so that they become more valuable to the organization. Employee focus is the main component of this division in a company. Recruitment, orientation, training, benefits, retention, and policies are within the scope of responsibilities assumed by the human resources professional. As the scope of responsibilities continues to expand related to ensuring employee satisfaction and retention, Human Resource professionals are becoming more recognized as absolutely vital to the prosperity of a company or organization. Specifically, the development of benefit packages, compensation packages, policies and procedures, training programs, and employee handbooks are a few of the specific responsibilities incumbent upon a Human Resource professional. Students pursuing this degree will complete the MBA Core, along with three Human Resources Courses, and two MBA electives.

Foreign Study Program

Thomas University graduate and undergraduate students may participate in a short study abroad trip during which they attend lectures in Europe and visit European business institutions. The trip lasts approximately 10 days. Undergraduate students earn 3 hours credit in BUS 330 International Business. Graduate students earn three hours credit in MBA 620 International Business.

Division of Counseling and Psychology

Bachelor of Science Degrees

Psychology

Rehabilitation Studies

Concentration in Addictions

Concentration in Criminal Justice

Concentration in Gerontology

Master of Science Degree (MS)

Clinical Rehabilitation and Mental Health Counseling

Specialization in Addictions and Alcoholism Counseling

Bachelor of Science Psychology

Psychology is the study of behavior, mental processes, emotions, and their biological bases. Understanding self and others is an extremely valuable tool that can help prepare psychology majors to work in a wide variety of settings. Psychology majors work in medicine, the legal system, law enforcement, education, healthcare, youth services, business, architecture, engineering, wellness, sports, science, and research.

Mission Statement

The purpose of the undergraduate Psychology program is to provide students with a comprehensive background in the basic concepts, theories, findings, and ethical issues in psychology. The Psychology program provides an integrative educational experience by fostering relations among faculty and students through advising, mentoring, and outreach in the local community. In order to help students achieve their individual goals, students are afforded great flexibility in choosing upper-division classes. The main endeavor of the program is to enable students to engage in lifelong education and contribute to their community.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Understand and apply basic research methods in psychology, including research design, data analysis, and interpretation.
2. Demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.
3. Apply psychological principles critically and creatively to personal, social, and organizational issues.
4. Demonstrate awareness and apply the APA code of ethics, as well as an understanding that psychological explanations vary across complex and diverse populations and contexts.
5. Demonstrate information competence and the ability to use software to exhibit quantitative and qualitative research literacy.
6. Demonstrate effective writing and oral communication skills and collaborate effectively with others.
7. Apply psychological knowledge, skills, and values to current issues and career interests within the discipline of psychology.

Psychology majors are required to complete the Thomas University Core Curriculum to include:

Bachelor of Science Rehabilitation Studies

The Thomas University Rehabilitation Studies program will prepare students to provide rehabilitation services in public and private agencies to persons with various disabilities. This program will also prepare students to attain Advanced Standing status and complete a Master's degree in the Thomas University Clinical Rehabilitation and Mental Health Counseling graduate program.

Program Goals

1. Provide quality education in a fully online setting.
2. Train students to provide effective rehabilitation services to individuals with disabilities.
3. Deliver graduates who have the skills, knowledge, and mindsets to enter the workforce in the public or private sector.
4. Meet the employment needs of public and private rehabilitation and human service agencies throughout the United States.
5. Prepare undergraduate students to academically qualify for the Advanced Standing status in the Clinical Rehabilitation and Mental Health Counseling graduate program at Thomas University.
6. The undergraduate program will become accredited under Council on Rehabilitation Education (CORE) standards for undergraduate programs.

Program Student Learning Outcomes

1. Students will demonstrate acquisition of knowledge that attitudes and environments cause functional limitations more frequently than an individual's medical/physical condition.
2. Students will identify helping systems and professionals in local communities, in the U.S., and in the world. Additionally, students will have the skills to identify resources and opportunities in any given catchment area.
3. Students will apply Inclusion and Integration principles to maximize individual strengths in their work with people with disabilities, and emphasize individual choice in the planning process.
4. Students will demonstrate and analyze communication skills necessary to develop, maintain, and discontinue helping relationships in ways that empower people with disabilities. Students will build collaborative relationships and networks with significant others (including other professionals) as a key to effective rehabilitation.
5. Students will apply a working knowledge of history, pertinent legislation, current trends, and

ways to successfully advocate for change. Students will be able to help consumers self-advocate and advocate with and on behalf of persons with disabilities.

6. Students will apply the tenets of ethical professional practice.
7. Students will apply and evaluate theory to practice in the field of rehabilitation services.
8. Students will demonstrate the acquisition, utilization, and evaluation of knowledge, skills, and attitudes related to their area of concentration.

Rehabilitation Studies majors are required to complete the Thomas University Core Curriculum to include:

MTH 250 Introduction to Statistics	3
SOC 201 Introduction to Sociology	3
PSY 125 Lifespan Development	3
PSY 201 General Psychology	3

and

CWRTE = Critical, Writing Reading, and Thinking Examination

Master of Science Clinical Rehabilitation and Mental Health Counseling

The Thomas University **Master of Science in Clinical Rehabilitation and Mental Health Counseling** is a professional and applied graduate degree, preparing students for positions as counselors in a wide range of human service settings. Accredited by the Council on Rehabilitation Education (CORE), this program prepares students to sit for their Certification as a Rehabilitation Counselor (CRC) after the degree is awarded and for licensure as a professional counselor (LPC), after completion of post-graduation supervision.

The program is open to students with undergraduate majors in any area. See [Graduate Admissions](#) on page 17 for requirements.

Admissions

To qualify for the Master of Science degree, a student must complete the prescribed 63 credit hours (including practicum and internships) with a 3.0 grade point average (GPA). Students are evaluated throughout the program in three major areas:

1. Academic Performance-Each student is expected to maintain at least a 3.0 GPA.
2. Interpersonal Skills-Each student is expected to demonstrate effective interpersonal skills considered requisite to the counseling field, including:
 - Effectiveness in close interpersonal relationships.
 - Ability to establish facilitative relationships with many different kinds of people.
 - Flexibility and openness to feedback and learning.
 - Self-awareness, openness to self-examination, and commitment to personal growth.
 - Appropriate attitudes.
3. Ethical Behavior-Each student is expected to demonstrate awareness of and concern for the ethical standards of rehabilitation counseling and all other disciplines within the counseling field.

Mission

To create a dynamic learning environment that advances the intellectual and personal development goals of our students to work in the field of rehabilitation and mental health counseling.

Program Goals

To prepare each student to take and pass the national certification exam in rehabilitation counseling by engaging students in rigorous intellectual studies that requires creativity, discipline, and personal responsibility.

To maintain Council on Rehabilitation Education (CORE) accreditation so that students will be eligible to sit for the Council on Rehabilitation Counseling (CRC) exam while still enrolled in the program.

To address professional issues and community needs and the needs of persons with disabilities consistent with the program's mission through classroom, practicum, internship, and community services.

To maintain direct contact with Department of Labor, Vocational Rehabilitation agencies.

Curriculum Objectives

The Clinical Rehabilitation and Mental Health Counseling program will provide students with the CORE required classes, using CORE standards. The students will be eligible to sit for the CRC exam after successfully completing 75% of the masters in Clinical Rehabilitation and Mental Health Counseling program.

The Clinical Rehabilitation and Mental Health Counseling program coursework provides rigorous, intellectual, studies that require creativity, discipline, and personal responsibility. Students will learn principles of rehabilitation counseling and demonstrate mastery of knowledge areas through 63 semester hours of coursework. The core requirements include 100 hours of practicum and 600 hours of internship at a variety of community sites.

The Clinical Rehabilitation and Mental Health Counseling program through classroom, practicum, internship and community services addresses professional issues and community needs and the needs of persons with disabilities consistent with the program's mission.

Our program is in direct contact with the Department of Labor, Vocational Rehabilitation agencies.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate awareness of the professional role of counseling and apply the code of ethics of rehabilitation counseling in a legal and ethical manner, inclusive of international standards and cultural contexts.
2. Identify and articulate an understanding of social, economic, and environmental forces which may present barriers to a consumer's rehabilitation.
3. Demonstrate a working knowledge of human development and the needs of individuals with disabilities across the lifespan, including the effect of crises, disasters, trauma, or other events on persons of all ages.
4. Assess and maximize the readiness of individuals with a disability for gainful employment.
5. Demonstrate and apply a personal philosophy of rehabilitation counseling based on an established counseling theory.
6. Demonstrate a knowledge and use of clinical skills related to directing group processes toward a desired goal.
7. Apply basic measurement concepts and associated statistical terms and comprehend the

validity, reliability, and appropriateness of assessments.

8. Understand research methodology and apply evidence-based practice to counseling and rehabilitative services.
9. Apply a working knowledge of the impact of disability on the individual, the family, environment, and employment.
10. Identify and plan for the provision of rehabilitation services with individuals with a disability and be able to advocate for the rights of these individuals.

Students who have attended graduate courses prior to admission into the Master's program may have their course work evaluated for transfer credit up to 15 hours.

Division of Criminal Justice

Associate of Science Degree

Law Enforcement

Bachelor of Science Degree

Criminal Justice

Mission

The mission of the Division of Criminal Justice is to provide students with a working knowledge of criminology, law, legal procedures and the legal culture of the justice system of the United States while preparing them to become outstanding practitioners, leaders, and scholars in a diverse society.

Associate of Science Law Enforcement

The Associate of Science Degree in Law Enforcement prepares students who are working as law enforcement officers for career enhancement or to pursue professional development at the baccalaureate level.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate mastery of knowledge, skills and attitudes required by the Peace Officers Standards and Training Council for Basic Mandate for Law Enforcement, or Corrections.
2. Demonstrate ability to communicate effectively
3. Demonstrate mastery of knowledge in the areas of history and social science.
4. Demonstrate mastery of knowledge and skill in problem solving and reasoning.

For successful graduation from a police academy as a certified law enforcement officer with 600 or more Basic Training hours, credit will be given for 40 credit hours of previous course work in Criminal Justice. The following core courses must be taken at Thomas University to receive the associate degree.

Course	Credit
ENG 101 Composition I	3
ENG 102 Composition II	3
HIS 201 U S History & Gov't I	3
HIS 202 U S History & Gov't II	3

Teacher Leadership

All Division of Education programs are accredited by the Georgia Professional Standards Commission. The Division of Education is dedicated to producing the highest quality professional educators. Currently, the Division offers a Bachelor of Science degree program in early childhood education, middle grades education, secondary grades education, and a post-baccalaureate certification program in middle and secondary grades. Courses are offered at the Forbes campus in Thomasville, GA and on the campus of Bainbridge State College in Bainbridge, GA, on Saturdays. The Division also offers Master of Education and Education Specialist Degree programs for K-12 teachers. In addition to the main Thomasville campus, satellite campuses are located in school districts across the state. All courses are taught through a hybrid model which involves both online instruction and traditional face-to-face classroom meetings.

A Bachelor of Science in Education (non-certification) is offered to students who desire a degree in education without being certified. Students pursuing this degree option must meet all admission and satisfactory progress policies of the teacher certification programs. The degree requirements mirror that of the certification program with the exception of student teaching (ECE/MGE/SEC 429) and student teaching seminar (ECE/MGE/SEC 430). The student must have 120 credits to complete the degree.

Division of Education Conceptual Framework

As members of a global community, students today require flexible attitudes, dispositions, and skills to understand themselves and others. Teachers who are responsible for educating students must themselves be critical thinkers; respect and understand diversity; communicate effectively; possess pedagogical skills, content knowledge, and classroom management skills; demonstrate skills for life-long learning; and demonstrate professionalism and effectively use technology. The teacher education program at Thomas University is designed to provide teacher candidates with a wide range of learning opportunities in diverse settings to become highly qualified, effective classroom teachers.

Specific Admission and Retention Requirements

Lower Division Core Courses (first two years) Core Curriculum Requirements

Teacher candidates who enroll in Thomas University without a completed Associate of Arts (AA) degree are required to complete Thomas University's Core Curriculum for Education majors. Transfer students with an Associate of Science (AS) degree must complete TU's core requirements. If a student enters Thomas University with an Associates of Arts degree from an accredited college or university, (s)he may apply for admission to the Division of Education at the junior level.

Transfer Students-Specific Course Requirements

The courses below are required for admission to the specified education programs. An approved equivalent transfer course may be used as transfer credit.

Admission to Teacher Education

To be admitted to the teacher education programs in the Division of Education, a prospective teacher candidate must:

1. Be admitted to Thomas University.
2. Pass all three tests within the GACE Program Admissions Assessment. Reading (200), Mathematics (201), and Writing (202) are required unless exempted by the following:
 - SAT® (1000 Verbal/Critical Reading, and Math)
 - ACT® (43 English and Math)
 - GRE® (1030 Verbal and Quantitative; after 8/1/11, 297 Verbal and Quantitative)
3. Complete the lower division coursework requirements (minimum of 60 semester hours) and program specific requirements (listed with each program).
4. Have a cumulative GPA of 2.5 on required lower division coursework.
5. Provide a record documenting at least 20 hours of work with appropriate aged children from experiences in which ongoing supervision has occurred, either volunteer or for compensation. Provide a description of the work (single or multiple locations) in which you were involved, the number of hours, and the name of your supervisor. Parental responsibilities may not be submitted as hours to meet this entrance requirement.
6. Submit three letters of recommendation which support the teacher candidate's desire and character to become a PK-12 teacher.
7. Submit a criminal background check.
8. Obtain professional liability insurance.
9. Paraprofessionals must submit the School Administrator Commitment Form. As a paraprofessional applying for admissions to the Thomas University Division of Education you must discuss your professional plans with your principal

and gain his or her support for working with you throughout the program to assist you in completing the required field-based learning experiences (multiple grade bands, diverse ethnic groups, and linguistic groups).

10. Complete the GAPSC Ethics Entry Exam.
11. Obtain an acceptable score on both the oral and written sections of the interview.
12. Submit to the GAPSC pre-service certification application and verification of lawful presence with picture ID.

Admission to Professional Core 4:

1. Completion of all required program coursework with a minimum GPA of 2.5.
2. An acceptable rating on the Core Professional Dispositions Student Assessment.
3. Current professional liability insurance.
4. Students must not have previously been denied admission to, had an unsatisfactory performance rating, or been removed from student teaching at another institution.

Graduation Requirements:

To successfully complete the teacher education program and be recommended for certification a teacher candidate must:

1. Complete all program requirements.
2. Have a cumulative minimum GPA of 2.5.
3. Pass the GACE content exam in his/her major/specialization(s).
4. Pass the EdTPA in his/her major/specialization.
5. Pass the GaPSC Ethics Exit Examination.
6. Have acceptable ratings on the Core Professional Dispositions Student Assessment.
7. Complete program surveys.
8. Submit to the GAPSC certification application and verification of lawful presence with picture ID.

In addition to the above requirements the following teacher education policies are required:

1. All teacher candidates and faculty will abide by the Georgia Professional Practices Code of Ethics.
2. All university coursework is considered to be part of the major requirements. No grade lower than a "C" may be applied toward a degree.
3. Professional dispositions will be assessed each semester. A teacher candidate must maintain an acceptable rating.
4. For any deficiencies that are identified, a Professional Development Plan will be implemented. Professional Development Plans may require more experience, coursework, counseling, or remediation and may be

implemented at any time during the student's career at Thomas University. Satisfactory progress on the Professional Development Plan must be achieved to continue in the program.

- If a student does not pass the GACE Content exam, edTPA Content Exam, and/or GaPSC Ethics Exit Exam by the end of student teaching, he/she will need to enroll in a 1-credit hour DIS course(s) each continuing semester after student teaching until the exam(s) can be passed (maximum 3 terms). A student not enrolling in the DIS course after student teaching or failure to continuously re-enroll in the program, will be dismissed from the program and will not be able to re-apply or be recommended for the Georgia Certificate of Eligibility.

Bachelor of Science Early Childhood Education

The Early Childhood Education Program is designed to prepare educators to teach in grades PK-5. Admission, retention, and graduation requirements are detailed in the section titled Specific Admission and Retention Requirements.

Program Student Learning Outcomes

A graduate of this program will be able to:

- Pass the GACE content test for state certification in the respective specialization area.
- Demonstrate effective teaching skills in the PK-12 classroom setting which will result in student learning.
- Demonstrate his/her impact on PK-12 student learning.
- Pass the EdTPA in his/her major/specialization.
- Pass the GaPSC Ethics Exit Examination.

Post Baccalaureate Certification

The Post Baccalaureate Certification is for individuals who have a Baccalaureate degree from an accredited institution and want to become certified as teachers. Courses with a grade of “C” or better will be applied toward the Post Baccalaureate Certification.

Middle Grades Education

The Middle Grades Education program is designed to prepare professional educators to teach grades four through eight. Teacher candidates majoring in middle grades education select two areas of concentration (mathematics, language arts, science and social studies) and must complete a minimum of fifteen hours in each Content Concentration Area. Admission, retention, and graduation requirements are detailed in the section titled Specific Admission and Retention Requirements. Some lower division content course work may count toward the content concentration area. (See Content Concentration Requirements Section.)

A student who has earned a Bachelor’s degree from an accredited institution of higher education in one of the middle grade content areas, generally meets some of the content course requirements. A thorough transcript evaluation will be conducted and courses not taken will be required as part of the student’s Post Baccalaureate program. Students consult with their academic advisor for course selection. Certification is available in the following fields: Middle Grades Language Arts, Mathematics, Science, and Social Science.

Upper Division Professional Core Courses 63 Hours

Master of Education

Thomas University's graduate programs for certified teachers are designed to enhance the role of the teacher as a leader in the school community. The programs professional practices include candidate proficiencies related to expected knowledge, skill, and professional dispositions that are aligned with the expectations in professional and state standards. Coursework and experiences will be designed to address the following advanced outcomes:

- **Advanced Professional and Pedagogical Knowledge**—the candidate uses research-based, discipline-specific knowledge and pedagogy in coordinated and engaging ways to facilitate student learning.
- **Research and Inquiry Skills**—the candidate designs and implements research and assessment practices to improve teaching and learning for all learners.
- **Professional and Ethical Practice**—the candidate possesses and practices a core set of professional and ethical dispositions, serves as a teacher leader and mentor, and models practices that embrace the importance of life-long learning.

Admission to the Master of Education

Certified teachers should complete all sections of the Graduate Admissions Application and submit it to the Admissions Office at least 6 weeks prior to the beginning of the term you plan to enter. A copy of the application can be found online at

<http://www.thomasu.edu/Content/Default/2/4439/0/admissions/application-for-admission.html>.

Applicants interested in a graduate education program must meet the following criteria:

1. Hold a bachelor's degree in a relevant field from a regionally accredited college or university.
2. Hold a professional teaching certificate in at least one teaching field.
3. Candidates for graduate admission must report a minimum GPA of 3.0 on a 4.0 scale in the last 60 hours of their Bachelor's degree or undergraduate coursework considered in context of the GPA for that Bachelor's degree, work experience, relevant credentials, other graduate course work, the strength of the student's personal and professional goal statements, reference letters, and academic history. Applicants with a GPA lower than 3.0 may be considered for provisional admission by the prospective Graduate Division. Any student provisionally admitted must take the 1-credit Scholarly Writing course during the semester before taking any graduate level courses; other requirements may be required by the Division and/or Graduate Council.
4. International students seeking admission into a graduate program must submit:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
 - China English Test (CET) minimum of level 4; OR
 - International English Language Testing System (IELTS) minimum 5.
5. All applicants to the Teacher Leadership program must have 3 years of teaching experience.

Along with proof of the above criteria, teachers are required to submit the following along with their application for Graduate Admissions:

1. A personal statement of career and educational objectives, including why you want to pursue a graduate degree (minimum two pages). Please explain any extenuating circumstances which may have had an adverse impact on your previous academic performance. Additionally, please explain the circumstances surrounding any ethics reprimand on your certificate.
2. Official transcripts from all undergraduate and graduate schools attended, to be forwarded directly to the Office of Admissions from the schools attended.
3. Three professional or academic references.

4. A \$50 non-refundable application fee made payable to Thomas University.
5. Submit completed mentor form (Teacher Leadership applicants only).

Division of Humanities and Interdisciplinary Studies

Bachelor of Arts Degree

Humanities

Concentration in Art

Concentration in English

Concentration in Film Studies

Concentration in Music

Interdisciplinary Studies

Social Sciences

Bachelor of Science Degree

Interdisciplinary Studies

Social Sciences

Bachelor of Arts Humanities

The interdisciplinary degree in Humanities provides students an opportunity to concentrate their studies in Art, English, Music, or Film while also gaining advanced study in each of the disciplines. This broad background in the liberal arts appeals to employers looking for candidates who demonstrate the ability to think critically, to make connections, and to create, express, and analyze ideas adeptly. The degree affords excellent preparation for careers in public relations, print and mass media, law, education, and museum work, to name a few.

Humanities majors choose a concentration in Art, English, Music, or Film consisting of 30 credit hours. In addition, they take nine hours in each of the other areas. The degree requires 12 hours of Foreign Language/Language Alternative courses. All majors must take three of four Humanities survey courses and Senior Thesis. Other electives can be selected to achieve a minor in various disciplines.

Mission

To provide students an opportunity to concentrate their studies in Art, English, Music or Film, while also gaining advanced study in each of the disciplines.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate acquisition, utilization, and evaluation of creative knowledge, skills, and perspectives related to their area of concentration (Art, Music, English, or Film).
2. Demonstrate critical skills in research, analysis, synthesis, creative problem solving and evaluation through written and oral presentation.
3. Analyze and articulate the relationship of ideas within and between different cultures, time periods, and modes of artistic expression.
4. Demonstrate an understanding of the essential principles and critical approaches of art, music, literature, and history.
5. Integrate experiential learning from an applied art into their understanding of artistic expression.

Interdisciplinary Core required for ALL Humanities concentrations (12 hours total)

Course	Credit
ART 304 Art History I or	3
ART 305 Art History II or	
ART 306 Art History III	
ENG 302 Creative Nonfiction Writing or	3
ENG 303 Argumentative and Persuasive Writing

Total Hours for Degree 120

Bachelor of Arts, Bachelor of Science Interdisciplinary Studies

The Interdisciplinary Studies program is a flexible course of study that explores the humanities, natural sciences, and social sciences. It teaches ways of thinking, exploring, understanding, and seeing the world from different perspectives. The Interdisciplinary Studies program allows students to pursue a range of intellectual interests and provides a foundation for careers in law, journalism, government, and various fields of public service, or for cultural employment in organizations such as historical societies or museums.

All Interdisciplinary Studies majors are required to complete the Thomas University Core Curriculum including the CWRTE.

Foreign Language is required for B.A. only. [See page 52](#) for details.

Mission

To provide students an opportunity to pursue a wide range of intellectual interests through largely self-determined areas of study.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate critical skills in research, analysis, synthesis, creative problem solving and evaluation through written and oral presentation.
2. Demonstrate acquisition, utilization, and evaluation of knowledge, skills, and perspectives related to at least one career field.
3. Demonstrate an understanding of the essential principles and critical approaches of art, music, literature, and history.
4. Be prepared for entry into the workforce or graduate school.

Upper Division Courses (300-400 level courses)

All majors must select a minimum of 21 hours in Humanities (including the 12 Interdisciplinary Core), 30 hours in a secondary area (social science, math/science or career specialty), take six hours of additional foreign language or alternatives, and complete IDS 417 Senior Thesis during the final fall semester. Included in the 30 hours in a secondary area must be 15 hours with the same prefix (career focus) or an approved minor (see page ?? for minor programs)

All applicable prerequisites must be met prior to selecting a course.

Humanities

Art, English, Foreign Language, History, Music.

Social Sciences

Anthropology, Economics, Criminal Justice, History, Political Science, Psychology.

Math/Science

Biology, Chemistry, Geology, Math, Statistics.

Career Specialty

Business, Education, Social Work.

Interdisciplinary Core required for ALL Interdisciplinary Studies (12 hours total)

ART 304 Art History I or	3
ART 305 Art History II or	
ART 306 Art History III	
ENG 302 Creative Nonfiction Writing or	3
ENG 303 Argumentative and Persuasive Writing or	
ENG 304 Intro to Creative Writing	
HIS 304 20th Century America or	3
HIS 451 Georgia History	
MUS 337 History of Jazz	3
MUS 340 World Music	
MUS 344 Pop & Rock Music	

Other Required Courses: 9 Hours

Total Hours for Degree 120

Bachelor of Arts, Bachelor of Science Social Sciences

The Bachelor of Arts or Bachelor of Science in Social Science provides the student with a broad background in all of the social sciences. Students take a wide range of courses in many different fields. Required upper division courses include history, psychology, sociology, statistics, and anthropology.

The program is designed for those seeking a broad background in the social and behavioral sciences. The degree is suitable for traditional students planning to seek entry-level positions in government or private industry or planning to enter graduate school, and non-traditional students such as mid-career professionals seeking broader backgrounds in the study of the causes of human behavior.

Mission

To provide students an opportunity to study in many different fields of the social and behavioral sciences; including history, psychology, sociology, statistics and anthropology.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate critical skills in research, analysis, synthesis, creative problem solving and evaluation through written and oral presentation.
2. Demonstrate acquisition, utilization, and evaluation of knowledge, skills, and perspectives related to their area of concentration (Anthropology, History, or Psychology).
3. Demonstrate an understanding of the essential principles and critical approaches of art, music, literature, and history.
4. Demonstrate the ability to develop a project using quantitative and qualitative methods.

PROGRAM REQUIREMENTS

Required Lower Division Courses:

(taken in CORE as Math & Social Science electives)

PSY 201 General Psychology	3
SOC 201 Introduction to Sociology	3
MTH 250 Introduction to Statistics	3

AND

12 credit hours from the following:

ANT 202 Introduction to Cultural Anthropology	3
GEO 201 Introduction to Geography	3
HIS 101 Western Civilization I	3
HIS 102 Western Civilization II	3
HIS 2XX US History III (not taken in CORE)	3
HUM III (any HUM not taken in CORE)	3

PSY 125 Lifespan Development	3
------------------------------	---

CWRTE = Critical Writing Reading Thinking Examination

Required Interdisciplinary Upper Division Courses (12 credit hours)

ART 304 Art History I or	3
ART 305 Art History II or	
ART 306 Art History III	
ENG 302 Creative Nonfiction Writing or	3
ENG 303 Argumentative and Persuasive Writing or	
ENG 304 Intro to Creative Writing	
HIS 304 20th Century America or	3
HIS 451 Georgia History	
MUS 337 History of Jazz	3
MUS 340 World Music	
MUS 344 Pop & Rock Music	

AND

Upper Division courses in one of the following areas (18 credit hours)

Anthropology, History, Psychology

AND

Research Methods (6 credit hours)

STA 450 Applications of Statistical Methods	3
STA 471 Qualitative Research Methods	3

AND

Social Science or history related electives (15 credit hours) Must be approved by advisor. Must be in two other areas different than concentrations above.

Appropriate electives may be in Anthropology, History, Psychology, Social Work, English, Art, Business, and Criminal Justice.

AND

Open Electives (6 credit hours)

AND

Degree Capstone Course (3 credit hours)

SSC 417 Senior Thesis	3
-----------------------	---

Total Hours Core Curriculum	51
------------------------------------	-----------

Total Program Hours	69
----------------------------	-----------

Total Hours for Degree	120
-------------------------------	------------

***Foreign Language Courses—12 HOURS**

B.A. students need 12 foreign language credits. If a student has two years of high school foreign language credit, six credit hours above may be waived. Six additional hours must be met through foreign language/language alternative courses. [See page 52](#) for details.

Nursing Education

Bachelor of Science Nursing RN-BSN Program

The RN-BSN program is approved by the Georgia Board of Nursing and fully accredited by the Accreditation Commission for Education in Nursing. The RN-BSN program is designed for the registered nurse to complete a Bachelor of Science degree in Nursing while maintaining an active practice. Courses are offered at the Forbes campus in Thomasville, GA, and at our satellite programs in Moultrie, GA, and Tallahassee, FL, through a “hybrid” learning model, using a combination of a traditional classroom environment and online instruction. Additionally, two required practicum experiences are completed at times convenient to the student and clinical preceptor. Students may select from over 150 approved health care facilities located throughout Georgia and the north Florida area for their practicum experience.

Thomas University also has partnerships with three universities in the People’s Republic of China, located at Wenzhou Medical University, Inner Mongolia University of the Nationalities, and Jiangxi University of Traditional Chinese Medicine to offer the RN-BSN program. Students in these programs complete the same curriculum as our students in the U.S. in a traditional classroom environment in the People’s Republic of China.

Mission

The mission of the RN-BSN program is to educate registered nurses for enhanced professional nursing practice in a variety of health care settings and to challenge them to continued personal and professional growth.

Philosophy

We believe that nursing is a profession that utilizes a holistic, safe, effective, caring and culturally competent approach to promote optimal health potential of individuals, families, groups and communities. Utilizing the roles of health care provider, teacher, advocate, collaborator, leader and member of the profession the nurse applies evidence-based research to the care of individuals, families, groups and communities. We believe that the following are essential to the practice of baccalaureate level nursing:

- Liberal education including courses in the humanities
- Professional values of altruism, autonomy, human dignity, integrity, social justice, caring, culturally sensitive care, and respect for diversity

- Core competencies of critical thinking, communication, assessment and technical skills
- Core knowledge including health promotion, risk reduction, disease prevention, illness and disease management, technology in health care delivery and information, ethics, human diversity, globalization of health care, health care systems and policy, theory and research leading to evidence-based practice.
- Role development as provider / designer, teacher / advocate / collaborator, leader / manager / coordinator of care, and member of the profession of nursing.

We believe that nursing education is a transformational process that is collaborative, interdisciplinary and interactive in nature. Education includes prior learning and experiences that influence responses to new knowledge. Built on research and theory, education is not only formal instruction but self-teaching and incidental learning.

We believe that the faculty facilitates the learning process by creating a learning environment that fosters reflection, creative/critical thinking, open communication, caring and an active interchange of ideas and technological competence. Faculty assists students to attain goals by utilizing a variety of teaching strategies identified to meet the learning needs of students. We believe that the development of a caring, collaborative faculty-student relationship fosters success in students.

Program Student Learning Outcomes

Upon completion of the RN-BSN program graduates should be able to:

1. Apply critical thinking in a variety of health care settings/complex situations.
2. Integrate professional nursing principles and standards to guide practice.
3. Utilize information management and technology to support evidence-based practice.
4. Advocate for social justice in health care.
5. Engage in inter-professional collaborative practice as leaders in health care.
6. Evaluate the application of health promotion and quality improvement principles to optimize the health potential of populations.

Satellite Program

In addition to the Forbes campus in Thomasville, GA, the RN-BSN program is also offered to Registered Nurses in Moultrie, GA, Tallahassee, FL, and the People’s Republic of China. Thomas University is

licensed by the Florida Commission for Independent Education to offer this program in the state of Florida (#3447). The Thomas University China Program is approved by the Ministry of Education of the People's Republic of China.

Admission

Students must be admitted to Thomas University prior to admission to the RN-BSN program. Contact the Office of Admission or the Thomas University website for assistance with university admission procedures and requirements. Please contact the Division of Nursing for advisement related to admission to the RN-BSN program.

The following items are required for admission to the Thomas University RN-BSN program:

- Completion of the Thomas University Undergraduate Application.
- Submission of official transcripts from all universities / colleges attended.
- Current valid Registered Nurse License without limitations or sanctions. Students must hold a R.N. license from the state or country in which they plan to complete any practicum hours. Applicants who have recently (within six months) graduated from an Associate Degree in Nursing (ADN) or diploma program but are not licensed as a Registered Nurse may be admitted conditionally to the RN-BSN program. R.N. licensure must be obtained prior to enrollment in a course with practicum hours in order to remain in the program. Students may not progress in upper division nursing courses if a valid, unencumbered R.N. license has not been obtained. Conditional status will be removed only upon written verification of R.N. licensure.
- College grade point average of 2.5 or higher on a scale of 4.0 in the required core and nursing coursework completed to meet the requirements of an Associate Degree in Nursing from an accredited post-secondary institution at the time of admission to the RN-BSN program. Remaining core coursework required for graduation from Thomas University may be completed following admission to the RN-BSN program.

Technical Standards for Admission

Reasonable accommodations will be made for students with disabilities. However, a candidate is expected to perform the following in a reasonably independent manner.

1. Observation: A candidate must be able to observe a patient/client accurately.

2. Communication: A candidate must be able to communicate effectively, including verbal, nonverbal, and written communication, with patients/clients and other members of the health care team.
3. Motor: A candidate must have adequate motor function to effectively complete nursing care.
4. Behavioral: A candidate must possess the emotional health to function effectively during stressful situations, adapt to ever-changing environments, and interact professionally with others.

Articulation/Advanced Placement

Thomas University participates in the Georgia RN-BSN Articulation Plan. The purpose of this plan is to enable registered nurses to advance their education with minimal loss of credit and/or duplication of knowledge and skills while maintaining the integrity of the educational process and the autonomy of participating programs. The registered nurse articulating to the baccalaureate level will be awarded 36 course credit hours for nursing and 3 hours of University Studies. These credits will be held in escrow until the student has successfully completed nine semester hours of nursing (NSG 306 and NSG 311). Credits held in escrow will then be placed on the transcript. The applicant must provide the necessary materials to establish proof of compliance with the articulation criteria at the time of admission. These materials include the following:

1. Official transcript of all completed nursing courses from previous nursing school.
2. Documentation of accreditation status of previous nursing school.
3. Documentation from employer stating completion of at least 1000 clinical practice hours in the last three years, if the time since graduating from an associate degree or diploma nursing program is greater than four years. If the applicant has not completed at least 1000 hours of clinical practice within the past three years, he/she must either (a) complete 1000 clinical practice hours in nursing prior to enrollment, or (b) successfully complete one of the National League for Nursing (NLN) ACE II Examinations prior to enrollment.
4. Undergraduate application fee payment.

Upon completion of these requirements, the student will be awarded the 36 hours of credit for nursing and 3 hours of credit for University Studies held in escrow.

Transfer of Credit

Students who have been enrolled at another institution must submit official transcripts from each college or university previously attended to the registrar. The registrar will determine transfer of non-nursing credits. Transfer credit may be given for those courses taken at accredited institutions provided that the courses fall within the scope of Thomas University's curriculum. Acceptability of non-equivalent courses is subject to the approval of the Chair of the Division of Nursing, Academic Affairs, and the registrar. Students who fail a nursing course at Thomas University and successfully complete a similar course at another institution cannot transfer that course back to Thomas University.

LOWER DIVISION COURSES**University Studies – 3 hours**

UNV 103 Personal Wellness	1*
UNV 201 Career Development	1*
UNV 202 Intro to Ethics	1*

* waived/credited as part of ADN coursework

Communication – 12 hours

Nursing Articulation Credit	36
Open Electives	6
Total Hours for Degree	120

CWRTE: Critical Writing, Reading & Thinking

Exam is administered prior to or during the first semester of enrollment.

Experiential Learning Credit

The requirements for experiential Nursing elective credit are as follows:

Upon acceptance to the Thomas University nursing program, students who hold an active professional nursing certification sponsored by a National Organization may receive three (3) credit hours for NSG 490 Special Topics in Nursing or Related Health Services as part of their required RN-BSN curricular plan. Additionally, students who receive an initial certification while enrolled in the nursing program can also receive 3 credit hours. Examples of approved organizations/certifications include American Nurses Credentialing Center, Emergency Nurses Association, Oncology Nursing Certification Organization, American Board of Perianesthesia, Nephrology Certification Commission, and others. Examples that would not meet this requirement include CPR, ACLS, TNCC, PALS, NALS, and other similar certifications.

To receive credit, a student must:

1. Have the certification approved by his/her nursing advisor and the Division Chair
2. Submit a copy of the certification to his/her advisor along with a letter requesting the credit

3. Attach a copy of the official certification requirements.
4. All of these documents will be filed in the student's academic file.
5. The certification must be current at the time credit is requested in order to receive experiential learning credit.
6. Only one national certification is eligible for experiential learning credit.

Requirements for Progression and Re-Admission

- Students must hold a current R.N. license in the state or country in which they complete a practicum.
 - Students who have graduated from an Associate Degree in Nursing (ADN) or diploma program but are not yet licensed as a Registered Nurse must obtain R.N. licensure prior to enrollment in a practicum course in order to remain in the program. Students may not progress in upper division nursing courses if a valid, unencumbered R.N. license has not been obtained.
 - Prior to enrollment in a practicum course, the following are required: R.N. licensure without limitations or sanctions; Cardiopulmonary resuscitation certification (Health Care Provider Level); evidence of health insurance; a criminal background check and toxicology (drug) screen (if required by the agency), professional liability insurance with a minimum of \$1 million per occurrence/\$3 million aggregate coverage, and current health record with documentation of immunizations.
 - Successful completion the Critical Writing, Reading, and Thinking Examination (CWRTE) prior to or during the first semester in the RN-BSN program. Students not passing the CWRTE will be required to successfully complete a college-level Reading course in order to continue in the nursing program.
 - Students are required to obtain a grade of no less than a "C" in all required nursing courses. If a student obtains a grade of less than "C" in a required nursing course, the student may not continue in the program. A student must request re-admission by submitting a written action plan to the Division of Nursing Chair that includes a specific plan designed to promote the student's success if re-admitted. The division chair will review the student's file and written request to determine whether the student will be re-admitted. Readmission is not automatic. If the student is readmitted, he/she must repeat the course for an acceptable grade. A second grade of less than "C" will result in exclusion from the program. The student will be eligible to take other courses not requiring the course in which the student received an unacceptable grade as a prerequisite.
- The student must maintain a cumulative grade point average of 2.0 in all core and upper division nursing courses required for the degree. Students not meeting this requirement will receive a letter from Thomas University indicating academic probationary status. A student may not continue for more than two semesters on academic probationary status in the Nursing Program.
 - A student's continued enrollment in the Nursing Program is based on physical as well as emotional health. If the student demonstrates evidence of a physical or emotional illness, the student may be referred to an appropriate resource. If, in the opinion of the faculty, the student's illness impairs ability to implement nursing responsibilities safely, the student may be asked to withdraw from the program until the student can resolve the situation. Reinstatement will be considered on an individual basis by the division chair.
 - Each student is expected to demonstrate behaviors that support and contribute to a positive professional learning environment in the classroom, university, and community in congruence with the mission and philosophy of the university and nursing program. In accordance with the policies of Thomas University, the division chair, upon recommendation of the nursing faculty, reserves the right to dismiss a student whose scholarly (e.g. cheating, plagiarism) or professional conduct, scholastic standing, or violation of laws governing professional licensure make it inadvisable to retain the student in the program.

Graduation

To graduate from the Thomas University RN-BSN Program the student must meet the following requirements:

- 120 total semester hours as required for the baccalaureate degree
- Successful completion of the CWRTE exam
- Completion of "Intent to Graduate" form by specified date and advisor approval received
- Payment of all outstanding fees due to the university.

Degrees will be conferred upon the recommendation of the faculty to students who have successfully completed all graduation requirements. The graduation ceremony is held once per year at the

completion of the spring semester and all candidates for graduation are expected to attend.

Health Policies

Required Immunizations/Documentation

1. Rubeola - Documentation of two (2) immunizations with live measles (Rubeola) virus vaccine, administered at least 30 days apart, dated after 1967, and on or after the first birthday; or positive Rubeola titer (blood test) proving immunity or, a written, dated statement by a physician on his/her stationary specifying a history of Rubeola. Measles requirement applies only to students born after 1957.
2. Rubella (German Measles) - Documentation of immunization with live Rubella virus vaccine, dated after 1967, and on or after the first birthday; or positive Rubella titer (blood test) proving immunity.
3. Mumps - Documentation of immunization with live mumps virus vaccine, on or after the first birthday; or positive mumps titer (blood test) proving immunity.
4. Polio - Documentation of immunization to oral polio vaccine, primary series of three doses, or inactivated polio vaccines, primary series of four doses.
5. Varicella (Chickenpox) - Verbal report by student. If the student has not had, or is unsure of having had, this disease, proof of history of illness or titer must be documented. After enrollment in a clinical nursing course, it is the responsibility of each student with a negative history of varicella (chicken pox) to report exposure to varicella or shingles, to the assigned faculty.
6. Hepatitis B - Series of three intramuscular injections or laboratory evidence of immunity. Students may sign a waiver if they do not wish to receive the series.
7. Hepatitis C - testing is recommended
8. PPD - If a history of a positive result occurs, the student must provide documentation of a chest x-ray.
9. Tetanus-booster recommended every 10 years.
10. Meningococcal polysaccharide vaccine documentation or signed waiver form.
11. Other immunizations/vaccinations as required by the clinical agency.

Master of Science Nursing Program

Graduate education is characterized by commitment to the advancement of nursing, theory, practice, and research. Mastery of this advanced knowledge is essential for the empowered decision making,

problem solving, and independent functioning of professional nurses.

The Master of Science in Nursing curriculum is based on the AACN Essentials of Master's Education for Advanced Practice Nursing and the Division of Nursing Philosophy and Conceptual Framework. The MSN curriculum presupposes a general, professional preparation in nursing then builds upon, as well as expands, that generalist preparation. The program also acknowledges that students bring their existing knowledge and experience as practicing registered nurses and have personal and professional goals which are complementary to those of the program.

The organizing framework for the graduate program incorporates theory development, scientific inquiry, leadership strategies, quality management, information technology, program planning, and the ethical-legal dimensions of practice. Emphasis is placed on the use of pertinent nursing and non-nursing theories to develop leadership behaviors that will improve the quality of patient care and environment in which nursing is practiced. This program is congruent with the mission of Thomas University to provide professional programs with a strong liberal arts foundation and the mission of the Division of Nursing to educate registered nurses for professional practice and personal and professional growth.

The MSN program is accredited by the Accreditation Commission for Education in Nursing. 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, P: (404) 975-5000.

Mission

The mission of the Master of Science in Nursing (MSN) program at Thomas University is to prepare nurses who are reflective and critical practitioners of the art and science of nursing; are caring, culturally competent, and politically aware; and who practice within a legal and ethical framework in the advanced roles of leader, advocate, educator, and researcher. The graduate will be an effective communicator, a competent scholar, and a professional role model. Graduates of the MSN program will be equipped with the knowledge, competencies, and values to assume roles as nursing leaders or educators in current and future health care or academic settings. The faculty believes that the following are essential to the practice of master's level nursing:

- Professional values of altruism, autonomy, caring, culturally sensitive care, human dignity, respect for diversity, integrity, and social justice.
- Core competencies of critical thinking and analysis; communication skills; assessment, planning, intervention, and evaluation of clients / patients (individuals, families, and communities); the ability to analyze, synthesize, and utilize knowledge from a variety of sources to inform decision-making and practice.
- Core knowledge including health care policy, organization, and financing of health care; theoretical frameworks relevant to nursing leadership, practice, and education; utilization of sound research methods to analyze the outcomes of nursing interventions, initiate change, and improve practice; health promotion, risk reduction, disease prevention practices in a global society; principles, values, and beliefs that provide a framework for ethical nursing practice; and the utilization of technology in health care delivery and information management.
- Role development as a change agent within the health care system; an advocate for patients, consumers, and the nursing profession; a leader within a collaborative, interdisciplinary health care team; a reflective and critical practitioner practicing within a legal and ethical framework in the advanced role of leader, advocate, educator, and researcher.

Program Student Learning Outcomes

Upon successful completion of the MSN program, the graduate should be able to:

1. Apply theories, concepts, strategies, and research findings in nursing and other disciplines to enhance the quality of health care and improve the environment in which health care is provided.
2. Analyze the impact of health care policies on health care delivery systems and the health care needs of specific populations.
3. Utilize information technology to assess, analyze, evaluate, and improve the quality of nursing care and patient care outcomes.
4. Articulate and analyze the ethical, legal, financial, social, and political issues impacting health care, nursing practice, and education and identify and implement strategies for resolution.
5. Collaborate with other health care professionals, consumers, and other key stakeholders to effect needed change in health care delivery systems.
6. Function effectively in the advanced professional nursing roles of leader, advocate, educator, and researcher.

This 36 credit program consists of core courses (24 credits) in nursing leadership, with additional concentration in the areas of nursing administration (12 credits) or nursing education (12 credits). The program is designed to allow students to maintain an active nursing practice while attending classes on campus one half-day per month. Courses are offered through a “hybrid” learning model, using a combination of a traditional classroom environment and online instruction. Internship hours are arranged at times and locations convenient to students and preceptors.

Core MSN Courses (24 credits)

These are foundational courses of the program and are required of all candidates. Courses focus on the policies which shape the organization and financing of health care and the influence of such policies on access, quality and affordability of health care services to specific populations at the local, state, national and international level; theories and concepts related to health, leadership, and education; research methodology and the utilization of research to inform practice and improve the quality of health care; issues and trends related to health care technology and informatics; community health service or education program planning and development to improve quality and access to health care; the legal, ethical, political, and social environments that influence health care policy and decision-making for health care professionals; and leadership/management strategies designed to improve the quality of care and professional practice environments.

Nursing Administration Concentration (12 semester hours to include one 3 hour elective)

An internship provides opportunities to apply management principles, theories, and strategies in a variety of health care settings. The capstone experience is the Capstone Project in nursing administration/leadership, which entails the development, implementation, and evaluation of one or more strategies to enhance the quality of care and patient outcomes; effectively manage human and/or financial resources associated with the provision of care; and/or improve the professional practice setting in which care is provided.

Elective coursework is tailored to the student’s interests and career goals. Elective courses expand and build on the core courses and may include such topics as financial management / analysis, marketing, strategic planning, human resource management, and

community health systems / policy development. Students are encouraged to pursue electives in the M.B.A. program at Thomas University.

Nursing Education Concentration (12 semester hours)

Courses focus on the process of curriculum planning, development, and program evaluation, as well as teaching, learning, and assessment strategies. An internship in nursing education provides an opportunity to implement teaching and learning strategies in an academic setting. The capstone experience is the Capstone Project in nursing education, which entails the development, implementation, and evaluation of one or more approaches to improve or enrich nursing education programs and/or academic settings.

Core MSN Courses

NSG 604 Information Technology in Nursing Administration and Education

NSG 606 Advanced Theoretical Foundations

NSG 608 Research Design and Methodologies

NSG 610 Policy, Law and Ethics in Nursing

NSG 612 Program Planning for Nursing

Leadership and Education

NSG 614 Global Perspectives on Population-Based Health

NSG 616 Leadership & Financial Management Strategies

NSG 690 Nursing Elective

Nursing Administration Track (12 credits)

NSG 632 Human Resources Management for the Nurse Administrator

NSG 644 Nurse Administration Internship

NSG 646 Capstone Project in Nursing

Administration

NSG 690 Special Topics in Nursing Administration

Nursing Education Track (12 credits)

NSG 620 Teaching Strategies in Nursing

NSG 622 Curriculum Development, Assessment, and Evaluation in Nursing Education

NSG 640 Nursing Educator Internship

NSG 642 Capstone Project in Nursing Education

Required Courses Total36 Hours

Admission Requirements

Thomas University offers two entry options for the Master of Science in Nursing Program:

1. Traditional track, following completion of a bachelor's degree in Nursing or a related field, or

2. RN-MSN track, for Registered Nurses who hold an Associate Degree or Diploma in Nursing. A Bachelor of Science in Nursing is not awarded as part of the RN-MSN program.

General Graduate Admission Requirements

Candidates for Graduate Admission to Thomas University MUST submit to the Office of Admissions each of the following:

- Application for Graduate Admission
- A non-refundable application fee
- A detailed resume
- A personal statement of career and educational objectives (not to exceed two pages)
- Transcripts from all undergraduate and graduate schools attended, to be forwarded directly to the Office of Admissions at Thomas University
- Three professional or academic references

Program Specific Admission Requirements for the Traditional MSN Program:

The candidate must be a graduate of an accredited Bachelors of Science in Nursing program OR hold a Bachelor's degree in a related field AND an Associate Degree or Diploma in Nursing.

If the candidate holds a BA or BS in a field other than nursing and is a graduate of an accredited diploma or Associate Degree Program in nursing, he or she MUST meet the admission requirements and complete an interview with the MSN Program Coordinator. Upon review and approval by the Nursing Division, the applicant may be admitted to the Master in Science nursing program. Additional courses in baccalaureate upper division nursing may be required as a "bridge" to the MSN degree.

Additional General MSN Admission Requirements:

- Candidates must have a minimum undergraduate cumulative GPA of 3.0 (on a 4.0 scale) for the most recent 60 hours of college-level coursework.
- Candidates must provide evidence of completion of an undergraduate statistics course completed within five years of date of enrollment in the MSN program.

In addition to the general admission requirements, students who are accepted for admission into Thomas University's MSN program must submit the following prior to beginning the internship course:

- One current Passport or driver's license type photo

- Current, valid Registered Nurse licensure (without limitations or sanctions) in the state or country in which they plan to complete internship hours.
- Current Cardiopulmonary Resuscitation certification from American Red Cross or American Heart Association (Health Care Provider Level).
- Evidence of health insurance.
- Current professional liability insurance with a minimum of \$1 million per occurrence/\$3 million aggregate coverage
- Criminal background check and toxicology (drug) screen (if required) by the internship facility
- Record of current immunizations and health record.

Program Specific Admission Requirements for the RN-MSN Program:

- The candidate must be a graduate of an accredited ADN or Diploma program in Nursing. In addition, candidates must meet the General Graduate Admission Requirements.
- Evidence of a current unencumbered (without limitations or sanctions) Registered Nurse License. Applicants who have recently (within six months) graduated from an Associate Degree in Nursing (ADN) or Diploma program but are not licensed as a Registered Nurse may be admitted conditionally to the RN-MSN program. R.N. licensure must be obtained prior to enrollment in a practicum or internship course in order to remain in the program. Students may not progress if a current, unencumbered R.N. license has not been obtained. Conditional status will be removed only upon written verification of R.N. licensure.
- Undergraduate grade point average (GPA) of 3.0 or higher on a scale of 4.0 in the required nursing coursework completed to meet the requirements of an Associate Degree or Diploma in Nursing from an accredited post- secondary institution.
- Completion of English 101 and 102 or equivalent prior to enrollment in the RN-MSN program. All remaining undergraduate core curriculum coursework required for graduation from Thomas University may be completed prior to or during enrollment in the RN-MSN program. Prerequisite course requirements must be met. CSC 120 and SPE 105 are not required as part of the Core Curriculum for the RN-MSN or RN to MSN-MBA degree.
- Competency in basic computer skills (Microsoft Word, PowerPoint, Email [including attachments]) is expected of all students. Students must verify

basic computer competency by the first day of class.

Transfer of Credit

Students who have been enrolled at another institution must submit official transcripts from each college or university previously attended to the registrar. Transfer credit may be given for those courses taken at accredited institutions provided that the courses fall within the scope of Thomas University's MSN curriculum. The division chair must approve any credit for transfer. Students who fail a Nursing course at Thomas University and successfully complete a similar course at another institution cannot transfer that course back to Thomas University.

Satisfactory Academic Progress - Graduate Council Policy

The Graduate Council sets minimum standards that all graduate students in the university must fulfill. See the Graduate Admission and Progression policies of this University Catalog for specific information.

In addition to these minimum academic requirements, students are expected to demonstrate behaviors that support and contribute to a positive professional learning environment in the classroom, university and community, in congruence with the mission and philosophy of the university and graduate program. In accordance with the policies of Thomas University, a student's scholarly (e.g. cheating, plagiarism) or personal misconduct may make it inadvisable to retain the student in the program or university.

Progression and Re-admission – Traditional MSN Program

In addition to the Graduate Council policies:

- Students applying for re-admission must meet all of the admission requirements of Thomas University and the MSN program.
- Students must hold a current R.N. license in the state or country in which they complete an internship (clinical practice). Internships sites must have prior written approval by the Division of Nursing.
- A student's continued enrollment in the Nursing Program is based on physical as well as emotional health. If the student demonstrates evidence of a physical or emotional illness, the student may be referred to an appropriate resource. If, in the opinion of the faculty, the student's illness impairs ability to implement nursing responsibilities safely, the student may be asked to withdraw from the program until the student can resolve

the situation. The division chair will consider reinstatement on an individual basis.

- In accordance with the policies of Thomas University, the faculty of the Division of Nursing reserves the right to dismiss a student whose scholarly (e.g. cheating, plagiarism) or professional conduct, scholastic standing, or violation of the laws governing professional licensure make it inadvisable to retain the student in the program.
- A full-time student is expected to complete the traditional MSN program within four calendar years from the first day of enrollment in MSN courses. In order to remain enrolled in the program beyond four calendar years, the student must submit a request for extension in writing to the division chair detailing a plan of action to complete the program of study within a specified time frame. This detailed plan of action must be submitted prior to registration for any courses beyond the expected semester of completion. The division chair will determine whether the student may continue in the program. If the student fails to complete the program within the specified time frame, the student will be academically excluded from further coursework in the program.

A student may enroll in NSG 699 Independent Study and Research a maximum of three consecutive semesters in order to complete the Capstone Project. The student must remain continuously enrolled in the fall and spring semesters. Failure to complete the Capstone Project after three consecutive (continuous) semesters of enrollment in NSG 699 Independent Study and Research will result in academic exclusion from the MSN program.

Progression and Re-admission- RN-MSN Program

In addition to the Graduate Council policies:

1. Students applying for re-admission must meet all of the admission requirements of Thomas University and the MSN program.
2. All policies regarding progression and readmission for the Traditional MSN program also apply to the RN-MSN program. In addition, prior to enrollment in a practicum/internship course:
 - Students must submit evidence of current, unencumbered (no limitations or sanctions) license to practice as a Registered Nurse. Students who have graduated from an Associate Degree in Nursing (ADN) or Diploma program but are not yet licensed as a Registered Nurse must obtain R.N. licensure prior to enrollment in a practicum or internship course in order to

remain in the program. Students must hold a current R.N. license in the state or country in which they complete a practicum or internship (clinical practice). Practica / Internships sites must have prior written approval by the Division of Nursing.

- Cardiopulmonary Resuscitation certification (Health Care Provider Level); evidence of health insurance; a criminal background check at the student's expense (some clinical sites require a criminal background check through another agency – see advisor for details); toxicology (drug screen) if required by the practicum facility, at the student's expense; professional liability insurance with a minimum of \$1 million per occurrence/\$3million aggregate coverage, and current health record with documentation of immunizations.
3. Successful completion of the Critical Writing, Reading, and Thinking Examination (CWRTE) is required by the end of the first semester of Nursing Bridge courses (NSG 306, 311). Students who do not pass the CWRTE will be required to complete a college-level Reading course (REA 111) in order to continue in the nursing program.
 4. All remaining undergraduate core curriculum coursework required for graduation from Thomas University may be completed prior to or during enrollment in the RN-MSN program. **CSC 120 and SPE 105 are not required as part of the Core Curriculum for the RN-MSN or RN to MSN-MBA degree.**
 5. Students are required to obtain a grade of no less than "C" in all undergraduate nursing "bridge" courses (NSG 306, NSG 311, NSG 456, NSG 452) and a grade of "B" in all required graduate level nursing courses (500 or 600 level). If a student obtains a grade of less than "C" in a required "bridge" course or a "B" in a required graduate nursing course, the student may not continue in the RN-MSN program. A student must request re-admission by submitting a written action plan to the Division of Nursing Chair that includes a plan of action designed to promote the student's success if re-admitted. The division chair will review the student's file and written plan of action to determine whether the student will be re-admitted. Re-admission is not automatic. If the student is re-admitted, he/she must repeat the course for an acceptable grade. A second grade of less than "C" in a required "bridge" course or "B" in a required graduate course will result in exclusion from the RN-MSN program. The student will be eligible to take other courses not requiring

the course in which the student received an unacceptable grade as a prerequisite. The student may also opt to apply to the RN-BSN degree program. Any previously completed coursework that meets the requirements of the RN-BSN degree will be applied toward the RN-BSN degree. All requirements for the RN-BSN degree must be met.

6. A student's continued enrollment in the Nursing Program is based on physical as well as emotional health. If the student demonstrates evidence of a physical or emotional illness, the student may be referred to an appropriate resource. If, in the opinion of the faculty, the student's illness impairs ability to implement nursing responsibilities safely, the student may be asked to withdraw from the program until the student can resolve the situation. Reinstatement will be considered on an individual basis by the division chair.
7. Each student is expected to demonstrate behaviors that support and contribute to a positive professional learning environment in the classroom, university, and community in congruence with the mission and philosophy of the university and nursing program. In accordance with the policies of Thomas University, the Nursing Division Chair, upon recommendation of the nursing faculty, reserves the right to dismiss a student whose scholarly (e.g. cheating, plagiarism) or professional conduct, scholastic standing, or violation of the laws governing professional nursing practice make it inadvisable to retain the student in the program.

Graduation

To graduate from the Thomas University MSN Program, the RN student will be required to meet the following requirements:

- Completion of 36 total semester hours as specified in the catalog for the Master of Science in Nursing degree
- Completion of the "Intent to Graduate" form by specified date and approval received
- Payment of all outstanding fees to the university.

Degrees will be conferred upon the recommendation of the faculty to students who have successfully completed all course requirements. All candidates for graduation are expected to attend the graduation ceremony, which is held once per year at the completion of the spring semester.

Health Policies

Required Immunizations/Documentation

1. **Rubeola**—Documentation of two (2) immunizations with live measles (Rubeola) virus vaccine, administered at least 30 days apart, dated after 1967, and on or after the first birthday; or positive Rubeola titer (blood test) proving immunity or, a written, dated statement by a physician on his/her stationary specifying a history of Rubeola. Measles requirement applies only to students born after 1957.
2. **Rubella (German Measles)**—Documentation of immunization with live Rubella virus vaccine, dated after 1967, and on or after the first birthday; or positive Rubella titer (blood test) proving immunity.
3. **Mumps**—Documentation of immunization with live mumps virus vaccine, on or after the first birthday; or positive mumps titer (blood test) proving immunity.
4. **Polio**—Documentation of immunization to oral polio vaccine, primary series of three doses, or inactivated polio vaccines, primary series of four doses.
5. **Varicella (Chickenpox)**—Verbal report by student. If the student has not had, or is unsure of having had, this disease, proof of history of illness or titer must be documented. After enrollment in a clinical nursing course, it is the responsibility of each student with a negative history of varicella (chickenpox) to report exposure to varicella or shingles, to the assigned faculty.
6. **Hepatitis B**—Series of three intramuscular injections or laboratory evidence of immunity. Students may sign a waiver if they do not wish to receive the series.
7. **Hepatitis C**—testing is recommended
8. **PPD**—If a history of a positive result occurs, the student must provide documentation of a chest x-ray.
9. **Tetanus-booster**—recommended every 10 years.
10. **Meningococcal polysaccharide vaccine**—documentation or signed waiver form.

MSN-MBA Dual Master's Degree

Thomas University's MSN-MBA program prepares Registered Nurses (R.N.s) for the complex demands of administrative leadership positions. Through this dual degree graduate program, Registered Nurses earn a Master of Science in Nursing and a Master of Business Administration (dual degree). All graduate admission policies apply to this program and all entry/progression options.

Three MSN-MBA Program Options are available:

1. R.N.s with an earned bachelor's degree in Nursing or a related field must complete the 54 credits of MSN-MBA coursework. All MSN and MBA admission and progression policies apply to this entry option.
2. R.N.s with an earned associate degree in Nursing must complete all of the coursework required in the RN-MSN program plus the required 24 credits in the MBA program to earn the MSN-MBA dual degree. All RN-MSN and MBA admission and progression policies apply to this program. A BSN degree is not awarded.
3. Registered Nurses with a prior MBA or MSN degree from Thomas University must complete the course requirements for the MSN-MBA dual degree. Prior MSN or MBA coursework is applied to the dual MSN-MBA degree under one of the three progression options listed below.

Option A: A student holding an MSN with a Nursing Administration concentration will be required to complete the required 24 credits of MBA courses. Applicable MBA course substitutions from the MSN degree may be applied toward the MSN-MBA dual degree.

Option B: A student holding an MSN with a Nursing Education concentration will be required to complete the required 24 credits of MBA courses and NSG 644 Nursing Administration Internship. Applicable MBA course substitutions from the MSN degree may be applied toward the MSN-MBA dual degree.

Option C: A student holding an MBA must take the following 24 credit hours of MSN courses: NSG 606, NSG 608, NSG 612, NSG 614, NSG 644, NSG 646, and two NSG electives. Applicable course substitutions may be made for the NSG electives. The student will not be required to take NSG 604, NSG 610, or NSG 616, but any of these courses may be taken to satisfy the NSG electives.

Prerequisite Undergraduate Requirements for the MSN-MBA program:

Recent (within the past five years) completion of an undergraduate statistics course is required.

In addition, students who do not hold a prior undergraduate business degree must complete content-specific workshops in order to be prepared for corresponding MBA level coursework (MBA 600, 614, and 645). These online workshops are offered in an 8-week self-paced time frame. Each workshop is offered

at a significantly reduced tuition rate and 50% of this tuition is applied to future corresponding MBA courses. Workshops may be waived if applicant can demonstrate relevant professional work experience or completion of corresponding undergraduate coursework. Please speak with a MSN or MBA program advisor for details.

Undergraduate Prerequisite Workshops in Business Administration:

MBA 200 Principles of Financial Accounting
MBA 210 Principles of Macroeconomics
MBA 320 Principles of Finance

MSN COURSES..... 30 Hours

NSG 604 Information Technology in Nursing Administration and Education
NSG 606 Advanced Theoretical Foundations
NSG 608 Research Design and Methodologies
NSG 610 Policy, Law and Ethics in Nursing
NSG 612 Program Planning for Nursing Leadership and Education
NSG 614 Global Perspectives on Population-based Health
NSG 616 Leadership and Financial Management Strategies
NSG 644 Nursing Administration Internship
NSG 646 Capstone Project in Nursing Administration
NSG 690 Nursing Elective

MBA COURSES24 Hours

**Note: MBA CORE Classes are in bold*

MBA 600 Applied Economics
MBA 614 Accounting and Decision-Making
MBA 645 Financial Management
MBA 675 Marketing Management
MBA 601 Organizational Behavior
MBA 632 Human Resource Management
MBA 690 Business Strategy & Policy
MBA 663 Operations Management or MBA 669 Training and Development

Graduation

To graduate from the Thomas University MSN-MBA Dual Degree Program the RN student will be required to meet the following requirements:

- Completion of total semester hours as specified in the catalog for the MSN-MBA dual degree, including all required undergraduate coursework;
- Completion of the "Intent to Graduate" form by specified date and approval received;
- Payment of all outstanding fees to the university.

Degrees will be conferred upon the recommendation of the faculty to students who have successfully completed all course requirements. All candidates for graduation are expected to attend the graduation ceremony, which is held once per year at the completion of the spring semester.

Graduate Certificate in Nursing Administration or Nursing Education

Thomas University offers Nursing Education and Nursing Administration Graduate Certificate programs with graduate-level academic credit in either field of study. The purpose of the certificate program is to provide a graduate-level academic foundation for bachelor's or master's-prepared Registered Nurses interested in these fields.

Admission Requirements:

Minimum of a Bachelor's of Science in Nursing (BSN) degree from an accredited institution.

- Minimum grade point average of 3.0/4.0
- Active Registered Nurse (R.N.) licensure without restrictions.
- Students who are currently enrolled in the Nursing Administration Track at Thomas University are eligible to earn a graduate certificate in nursing education by completing 9 additional credit hours: NSG 620, NSG 622, and NSG 640.
- Students who are currently enrolled in the Nursing Education Track at Thomas University are eligible to earn a graduate certificate in nursing administration by completing 9 additional credit hours: NSG 632, NSG 644, and one graduate level approved administration course.
- Three years is the maximum time allowed for completion of the certificate program beginning at the first day of the first course in the graduate sequence.
- Three semester credit hours of graduate course work may be transferred from another university with the approval of the Division Chair of Nursing.
- No undergraduate credits may be applied toward the certificate.
- Prior to the internship, the student must provide evidence of current CPR certification (health-provider level); health record with immunizations; health insurance, criminal background check (if required by the agency); toxicology (drug) screen (if required by the agency); professional liability insurance (\$1million per occurrence/\$3 million aggregate in coverage).

Certificate in Nursing Education

Completion Requirements

The certificate will require 12 semester credit hours with a grade of "B" or better.

NSG 604 Information Technology in Nursing Administration and Education.....	3
NSG 620 Teaching Strategies in Nursing	3
NSG 622 Curriculum Development, Assessment, and Evaluation in Nursing Education.....	3
NSG 640 Nursing Education Internship	3

Certificate in Nursing Administration

Completion Requirements

The certificate will require 12 semester credit hours with a grade of "B" or better.

NSG 604 Information Technology in Nursing Administration and Education.....	3
NSG 632 Human Resource Management for the Nurse Administrator.....	3
NSG 616 Leadership & Financial Management Strategies.....	3
NSG 644 Nursing Administration Internship	3

Course substitutions may be possible at the discretion of the Division Chair based on prior graduate courses completed and/ or experiential learning credit.

Division of Science

Bachelor of Science Degree

Biology

- Concentration in General Biology

- Concentration in Environmental Science

- Concentration in Pre-Physician

Biomedical Science

Medical Laboratory Science

Bachelor of Science Biology

Mission

Biology majors at Thomas University design their curriculum to meet personal career and advanced study goals. Students interested in medicine, dentistry, pharmacy, veterinary medicine, teaching or biomedical research take process-oriented courses at the molecular and cellular level such as biochemistry, bacteriology, genetics, cellular biology, and physiology. These and related subjects will prepare students for advanced training in the medical profession and provide the background to qualify for examinations such as the MCAT and PCAT.

Students interested in natural resource protection, wildlife management, or environmental issues take courses that deal with resource issues such as conservation biology, ecology, field biology, and environmental science. These and related subjects will prepare students for advanced study at the graduate level or for a career in resource management, environmental planning, or environmental regulation with local, state, Federal governments, or an environmental consulting firm.

Regardless of emphasis, all biology majors are required to take basic coursework in botany, zoology, evolution, and principles of biology, as well as mathematics, chemistry, and physics. In addition, a wide range of independent study opportunities are available each semester including an internship program, advanced research, and directed readings. Biology students will be required to take ETS Biology Major Fields Test prior to graduation (Senior Year), although a specific score is not required for graduation.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate fundamental content knowledge in broad areas of biology, including, zoology, botany, genetics, microbiology, chemistry and evolution.
2. Express clearly biological terminology and understanding of major biological concepts when writing or speaking about biology.
3. Perform laboratory and/or field experiments, utilizing scientific method and adequate controls to examine data.
4. Evaluate biological data, draw reasonable conclusions, and recognize the ethical implications of these conclusions.
5. Understand his/her part in the scholarly scientific community through interaction with scholarly

scientific literature and application of knowledge to personal, community, and scientific problems.

All Biology majors are required to complete 48 hours of Thomas University Core

Curriculum to include:

MTH 140 College Algebra OR

Bachelor of Science in Biology with a Pre-Physician Assistant Concentration

The undergraduate portion consists of 127 semester hours and will include all the liberal education and major requirements of a B.S. in Biology.

- Students will complete courses of study in the major biologic, chemical, and mathematical areas and will complete four semester rotations of shadowing experience within the local area with certified PA's. Note: Students must have a cumulative G.P.A. of 3.0 prior to shadowing/final admittance to program.
- Consideration for shadowing experiences (BIO 140, 240, 340, 440) requires:
 - Completed Program admissions requirements may include: student demographic profile, a complete physical exam, criminal background check, drug screen documentation, immunization records with Hep B and PPD. Specific information regarding this documentation will be determined during the advisement process and will depend on the requirements of job shadowing placement.

All Biology majors are required to complete 48 hours of Thomas University Core

Curriculum to include:

Bachelor of Science Biomedical Science

A degree in Biomedical Science includes a course of scientific study related to biology as it affects healthcare. It is designed as a degree completion program for students who have earned an Associate Degree in Medical Laboratory Technology. The degree prepares students for a wide variety of career opportunities or for admission to advanced science or professional health care degrees.

**This degree path does not culminate in the student's ability to sit for the Medical Laboratory Science certification exam.

Admission Requirements

- Associate Degree in Medical Laboratory Technology
- Satisfactory completion of the CWRTE exam

All Biomedical Science majors are required to complete 48 hours of Thomas University Core Curriculum to include:

MTH 140 College Algebra OR MTH 150 Pre-Calculus	3
MTH 250 Statistics.....	3
CHM 101 General Chemistry I.....	4
CHM 102 General Chemistry II.....	4

Bachelor of Science Medical Laboratory Science

The Thomas University MLS program is accredited by:
National Accrediting Agency for Clinical
Laboratory Sciences
5600 North River Road Suite 720
Rosemont, Illinois 60018-5119
773.714.8880
www.NAACLS.org

Program Goals and Philosophy

The purpose of the Thomas University Medical Laboratory Science program is to provide educational opportunities to individuals that will enable them to

obtain the knowledge, skills, abilities, and attitudes necessary to succeed as medical laboratory scientists. General goals of the program include the following:

1. To provide education, which acknowledges individual differences and respects the right of individuals to seek fulfillment of educational needs.
2. To provide an environment which encourages the individual to benefit and contribute as a partner in the economic progress, development, and stability of their communities.
3. To provide education which develops the potential of each student to become a productive, responsible, and upwardly mobile member of society.
4. To provide quality medical laboratory science education in an atmosphere that fosters interest in and enthusiasm for learning.
5. To prepare graduates to function as accountable and responsible members within their field of endeavor.
6. To prepare graduates to function as safe and competent practitioners in the medical laboratory science field.
7. To prepare graduates with the highest level of competence possible given the constraints of the interests and ability levels of the individual.
8. To provide educational and related services without regard to race, color, national origin, religion, sex, handicapping condition, academic disadvantage, or economic disadvantage.
9. To foster employer participation, understanding, and confidence in the instructional process and the competence of medical laboratory science graduates.
10. To provide guidance to medical laboratory science students to assist them in pursuing educational opportunities that maximize their professional potential.
11. To encourage graduates to recognize and to act upon individual needs for continuing education as a function of growth and maintenance of professional competence.

Program Student Learning Outcomes:

A graduate of the Medical Lab Science program will be able to:

1. Demonstrate professional conduct and interpersonal communication skills with patients, laboratory professionals, and other healthcare professionals and the public.
2. Provide quality medical laboratory science procedures in an atmosphere that fosters interest in and enthusiasm for the profession.

3. Relate laboratory findings to common disease processes through case presentation.
4. Attain MT/MLS certification by a national certification agency (ASCP or AMT).

Important attributes for success of program graduates are analytical thinking, problem solving, and the ability to apply technology to the work requirement. Medical Laboratory Science is a dynamic profession; therefore, careful attention to current curriculum and up-to-date instructional equipment is required. The program promotes the concept of change as the technology evolves and nurtures the spirit of involvement in lifelong professional learning.

Thomas University accepts the following concepts concerning education in medical laboratory science:

1. The scientist is a skilled person who performs laboratory tests on body fluids under the direction of a qualified physician, pathologist or laboratory director.
2. The scientist evaluates and correlates medical laboratory test results performed on a patient but does not make a diagnosis from these results.
3. The student scientist should be educated to assess the needs of the patient and provide laboratory data within the scope of his/her training.
4. The educational standards and administrative policies of the program in medical laboratory science should conform to those approved by the National Accrediting Agency for Clinical Laboratory Sciences.
5. All instruction should be geared to the educational level and experience of the individual.

An advisory committee, which is representative of the professionals concerned with the training and employment of medical laboratory scientists, should provide guidance in the planning, organizing, and operation of the program.

Option A: MLS 2+2 Program

The program is a bridge program designed for the clinical laboratory technician. A student must possess an Associate Degree from a NAACLS accredited CLT program and national CLT certification. To achieve junior status at Thomas University, a student must take approximately one semester of core courses and must pass the Critical Writing, Reading, and Thinking Exam (CWRTE). Students will be accepted each semester, to begin a structured curriculum that includes on line courses and supervised clinical experience. These courses will provide the skills needed by the coming generation of Medical

Laboratory Scientists. Students graduating with the B.S. degree from Thomas University in MLS will be eligible to sit for the national certification examination in Medical Laboratory Science. Successful completion of the exam will lead to certification as an MLS.

**Conditional admission status may be granted to students who do not have acceptable clinical sites or appropriate certification upon admission. Upon receipt of these items, students will be fully accepted; however, if not attained after two semesters of conditional acceptance, students will be diverted to the B.S. degree in Biomedical Science.

Articulation/Advanced Placement

The Medical Laboratory Science student articulating to the baccalaureate level will be awarded 27 course credit hours for Medical Laboratory Science. These credits are specific to the MLS Program and are awarded for technical/clinical courses successfully completed in a NAACLS accredited Associate Degree Clinical Laboratory Technology/Medical Laboratory Technology program. These 27 credits will be held in escrow until the student has successfully completed 6 semester hours of required course work in the MLS program. Credits held in escrow will then be placed on the transcript.

The applicant must provide the necessary materials to establish proof of compliance with the articulation criteria at the time of admission. These materials include the following:

- Certified transcript of all completed CLT/MLT courses from previous CLT/MLT program.
- Documentation of NAACLS accreditation status of previous CLT/MLT program.
- Documentation of CLT/MLT national registry licensure.

Option B: Traditional MLS Program

This program is designed to provide students with the general Core requirements, and a structured curriculum to include both lecture and laboratory components in the classroom setting. Upon successful completion of the coursework and professional training, students will enter clinical settings and perform internships during the last two semesters of program. These courses will provide the skills needed by the coming generation of Medical Laboratory Scientists. Students graduating with the B.S. degree from Thomas University will be eligible to sit for the

national certification examination in Medical Laboratory Science.

Admission

Students must be admitted to Thomas University prior to admission to the MLS program. Contact the office of Admissions or the Thomas University website for assistance with university admission procedures. Upon completion of core requirements, students interested in the MLS program, must apply to the program by visiting the MLS website. Traditional MLS students are accepted each fall. Acceptance decisions for each fall are made by June 1st. Once accepted, students are required to submit the following documents prior to the first day of class.

Complete physical exam, criminal background check, drug screen documentation, immunization records with Hepatitis B and PPD and essential functions declaration. Specific information regarding this documentation can be found in the MLS Handbook. Handbook and forms will be provided to the student upon acceptance to the MLS program.

Alternate Status

The maximum number of MLS students accepted each year is fifteen. Students will be admitted in order of admission requirements completion. If more than 15 students apply to the MLS program, an alternate list will be generated. Students may be admitted as alternates provided they have met basic MLS program admission requirements. Any student readmitted into the MLS program will be readmitted as an alternate.

Division of Social Work

Bachelor of Social Work Degree

Social Work

Bachelor of Social Work Degree Program

The Division of Social Work is committed to preparing skilled BSW graduates to serve the needs of southwest Georgia and north Florida. We are a growing program and have been fully accredited by the Council on Social Work Education.

Mission and Goals

The mission of the Division of Social Work is to develop competent, ethical, and productive professional social workers who are able to meet human needs, enhance human wellbeing, and promote social and economic justice through generalist social work practice and social action. To accomplish this, the Division has set the following goals:

- **Goal 1: Academic Excellence** - To maintain an accredited Bachelor of Social Work (BSW) program that will teach students the foundation curriculum content, including knowledge, critical thinking skills, practice skills, communication skills, and values necessary to become effective social workers and lifelong learners.
- **Goal 2: Professional Skills** - To prepare generalist social work practitioners to intervene effectively in a variety of human and social problem areas, and to evaluate the effectiveness of their interventions.
- **Goal 3: Advocacy** - To prepare generalist social work practitioners to understand current social policies impacting clients and to advocate for needed changes at all levels of society and government.
- **Goal 4: Ethics** - To prepare generalist social work practitioners to understand and utilize the ethical standards of the profession embodied in the Code of Ethics of the National Association of Social Workers (NASW) and to follow this code as a member of the social work profession.
- **Goal 5: Cultural Competence** - To instill in BSW students an awareness of, and sensitivity to, issues of race, ethnicity, gender, class, age, sexual orientation, ability, and religion, as well as other factors, in our pluralistic society.
- **Goal 6: Research and Technology** - To prepare generalist social work practitioners to utilize available technological resources in their practice, including internet resources, Excel, Galileo, PowerPoint, Collaborate, and Blackboard.
- **Goal 7: Community Engagement** - To encourage social work faculty and students to reach out to their communities, and to seek out ways they can

enrich and meet the needs of the communities in which they live and work.

The Division of Social Work is dedicated to preparing generalist social work practitioners as entry-level professionals. The generalist approach in social work emphasizes that problems are the result of many different challenges (psychological, social, economic, cultural, mental illness, medical, addictions, etc.) within a person's life. To assist clients, social work is practiced on many different levels: micro (individuals), mezzo (families and groups) and macro (organizations, communities, legislation, etc.). Our Thomas University Division of Social Work emphasizes outreach to special populations such as the poor in rural areas, children and families at risk, and other disadvantaged groups, along with providing support, advocacy, and service to our global community.

The Division of Social Work has utilized the Core Competencies for social work as suggested by the Council on Social Work Education for the major learning outcomes for their program. These competencies include the following learning outcomes:

Program Student Learning Outcomes:

A graduate of this program will be able to:

1. Identify as a professional social worker and conduct oneself accordingly.
2. Apply social work ethical principles to guide professional practice.
3. Apply critical thinking to inform and communicate professional judgments.
4. Engage diversity and difference in practice.
5. Advance human rights and social and economic justice.
6. Engage in research-informed practice and practice-informed research.
7. Apply knowledge of human behavior and the social environment.
8. Engage in policy practice to advance social and economic well-being and to deliver effective social work services.
9. Respond to contexts that shape practice.
10. Engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities.

Professional Performance

Social Work is both an academic major and a profession. Failure to demonstrate professional and/or ethical behavior is considered academic in the sense that it relates to the student's likely

performance as a social work practitioner, and is considered cause for denial of admission to, or termination from, the Division of Social Work. Social work students are expected at all times to demonstrate professional conduct, relationship skills, and behavior consistent with professional values and the NASW Code of Ethics, and the emotional stability requisite for professional practice.

Admission Requirements

Admission to the social work major is based on a comprehensive review process. During the sophomore year, students are encouraged to make an appointment with a social work faculty member to discuss their interest in the major and to receive an application packet. Transfer students should meet with a social work faculty member upon admission to Thomas University. All application materials must be submitted before an admissions decision is made.

All students must have a minimum overall grade point average of 2.5 in order to have their application considered for admission, unless they receive special permission from the division chair.

Acceptance into the Division of Social Work is based upon an assessment of the student's capability for achieving academic success, the possession of a personal value base consistent with professional social work values and ethics, the student's interest in and commitment to the profession of social work, and personal characteristics which would enable the student to render effective assistance to those they serve.

The social work faculty will review the application materials and conduct a short interview with the applicant. Following the review of materials, there are three possible outcomes to the review process:

- Students may be fully admitted and allowed to continue taking social work courses as outlined on the Progression Sheet.
- Students who lack certain courses or prerequisites, whose grade point average is not at the minimum 2.5 required, or who have non-academic factors which may impede their ability to practice professionally, may be given a conditional admission in which specific conditions are set forth with a specific timeline for completion in order to continue in the major.
- Students who lack certain courses or prerequisites, who have other non-academic factors which may impede their ability to practice professionally, or whose grade point average is

not at the minimum 2.5 required, may be denied admission at the time of application and asked to reapply or to select a different major.

Students may appeal the decision using the Thomas University Grievance Procedures, which are explained in the [Student Handbook](#).

Satellite Program

In addition to the Forbes campus in Thomasville, GA, the Bachelor of Social Work program is also offered in Tallahassee, FL. Thomas University is licensed by the Florida Commission for Independent Education to offer this program in the state of Florida (#4348).

The Social Work Experience: Classes and Practical Training

After successfully completing the required lower division classes necessary to enter the program, students begin a two year course of study of social work. The first year (junior) consists of classroom instruction in theory and practical skills, typically five classes each semester. In the student's second year (senior), they are provided with an internship or Field Practicum at a social service organization to begin "practicing" these skills under the guidance of a field instructor. Students earn 6 credits each semester for this Field Practicum (I-fall, II-spring) and 3 credits each semester for their Senior Seminar class (I-fall, II-spring) which assists them in integrating their classroom instruction with their field placement experience. Students in their senior year in social work should plan on a time commitment of at least 200 hours each semester (400 total) for their Field Practicum. This is generally two full days a week for both semesters or the equivalent time (16 hours per week) spread over multiple days.

Seniors typically enroll for two other classes each semester to maintain a full course load.

Lower Division Core Curriculum

PSY 201 General Psychology
MTH 120 Mathematical Modeling
MTH 250* Statistics

**Course is suggested, not required*

Certificate, Minor, and Bridge Programs

ESL Bridge Program

International students may test into this bridge program based on TOFEL and ILTS scores.

Program Outcomes:

- Demonstrate sufficient confidence in speaking and listening abilities in order to participate effectively in aural exchanges with native English speakers in a variety of academic and/or professional contexts, as demonstrated by holistic assessment of performance in labs by two faculty graders.
- Read English texts with comprehension adequate for college-level assignments, as demonstrated by a norm-referenced test (e.g., Nelson-Denney Reading Test).
- Write short, English essays independently that communicate ideas clearly, coherently, and effectively in response to written or spoken prompts, as determined by two or more faculty graders. (e.g., minimum passing holistic score on exit essay)
- Develop learning strategies in order to achieve academic success in the technology rich, English speaking academic community, as determined by successful completion of UNV 101, 102, and 111 course activities as well as by UNV 103 course grade.

Required Courses:

Courses denoted with an asterisk (*) are developmental and for institutional credit only.

ENG 099	*3 hours
REA 099	*3 hours
UNV 111	1 hour
UNV 101	1 hour
UNV 102	2 hours
ESL 120	1-4 hours
UNV 103	1 hour

Graduate Certificate in Nursing

For information [see page 99](#).

Minor Programs

All students who wish to participate in a minor program must be approved and accepted into the program by the appropriate division chair.

When applicable, electives taken at Thomas University in the student's major program of study may be used to fulfill a portion of the requirements for a minor program. All electives that will apply toward a minor **must** be approved by an advisor and/or the division chair.

Required Courses for a Minor

(All prerequisites must be met prior to enrolling in any of the courses listed.)

Anthropology 15 hours

ANT 202 Introduction to Cultural Anthropology.....	3
ANT 240 Peoples of the World.....	3
ARC 301 Archaeology or	
ANT 401 World Prehistory.....	3
ANT 310 Physical Anthropology	3
ANT 440 Cultural Anthropology	3

Art 15 hours

The minor consists of fifteen semester hours taken in art courses numbered 300 or above.

All students seeking a minor in art will be required to meet with an art department instructor and submit a portfolio for approval before beginning a course of study for the minor.

Biology 20 hours

The minor consists of five courses in biology. All students are required to complete BIO 101 and four additional courses with BIO prefixes. Some courses may require prerequisites.

Business Administration 15 hours

Prerequisites: BUS 211 and a 2.0 CGPA.	
BUS 200 Principles of Financial Accounting	3
BUS 290 Legal Environment of Business	3
BUS 320 Principles of Finance	3
BUS 340 Organizational Behavior.....	3
BUS 360 Principles of Marketing	3

Chemistry20 hours

CHM 101 General Chemistry I.....	4
CHM 102 General Chemistry II.....	4
CHM 250 Organic Chemistry I.....	4
CHM 251 Organic Chemistry II.....	4
CHM 301 Biochemistry.....	4

Communication15 hours

BUS 352 Web Design.....	3
ART 380 Digital Photography.....	3
FLM 400 Methods and Materials of Film Making.....	3
ENG 301 Professional Writing in the Digital Age.....	3
PSY 300 Interpersonal Communication OR	
PSY 340 Social Psychology.....	3

Criminal Justice15 hours

Required Courses:

CRJ 370 Constitutional Law.....	3
CRJ 470 Criminal Law.....	3

Additional 9 hours Criminal Justice courses as approved by advisor.

Education15 hours

Prerequisite: EDU 200

Note: The student must abide by all of the rules and regulations governing education students at Thomas University. Completing a minor in education does not entitle the student to be recommended for teacher certification.

EDU 310 Educational Psychology.....	3
EDU 316 Teaching Methods & Strategies.....	3
EDU 320 Teaching Diverse Learners.....	3
EDU 468 Educating Exceptional Learners.....	3
EDU 350 Integrating Educational Technology Into Teaching.....	3

English.....15 hours

The minor consists of fifteen semester hours taken in English courses numbered 300 or above and must include one course from ENG 301-ENG 304.

Geographic Information Systems 15 hours

Recommended prerequisites: GEO 201

GEO 302 Geographic Information Systems Applications I - Methods.....	4
GEO 303 Geographic Information Systems Applications II - Analysis.....	4
GEO 410 Geographic Information Systems: Conservation.....	4
BIO 495/GEO 495 Geography Internship.....	3

Gerontology 15 hours

The minor consists of fifteen semester hours selected from the following courses:

NSG 332 Healthy Aging.....	3
NSG 441 Physiology of Aging.....	3
SWK 330 Social Gerontology: Family and Caregiving Issues.....	3
NSG/SWK 331 End of Life Issues.....	3
PSY 495 Advanced Practicum.....	3
PSY 490 Psychology of Aging.....	3
PSY 490 Grief and Bereavement.....	3

History 15 hours

The minor consists of fifteen semester hours selected from the following courses:

HIS 304 20th Century America.....	3
HIS 314 Contemporary Europe.....	3
HIS 321 Contemporary Latin America.....	3
HIS 361 Special Topics in History.....	3
HIS 404 A Critical Decade in U S History.....	3
HIS 434 History of African Nationalism.....	3
HIS 444 Contemporary Asia.....	3
HIS 451 History of Georgia.....	3
HIS 421 History of the Middle East.....	3

Math..... 15 hours

The minor consists of fifteen semester hours taken in mathematics (with a MTH prefix) above the 200 level.

Music 15-21 hours

MUS 201 Introduction to Music.....	3
MUS 291 or 390 Jazz Ensemble or Community Chorus (2 semesters).....	3-6
Applied Music (2 semesters).....	3-6

Music Electives (select two)

MUS 337 History of Jazz.....	3
MUS 340 World Music.....	3
MUS 344 Pop & Rock Music.....	3
MUS 350 Electronic Music.....	3

Psychology 15 hours

The minor consists of fifteen semester hours taken in psychology above the 200 level.

Social Work 15 hours

The minor consists of 15 semester hours taken in social work above the 200 level.

Sports Studies 19 hours

Students with a Sports Studies Minor will be able to

- Demonstrate breadth of preparation for coaching for a variety of sports at a variety of levels.

- Understand the developing physical and psycho-social aspects of sports participants.
- Understand the business practice of sports administration.
- Understand sport as an integral part of today's society.

Required Courses:

BIO 280 Introduction to Sport Science.....	4
SPS 300 Injury Prevention	3
PSY 351 Sport Psychology	3
SPS 350 Introduction to Sport Management	3
SPS 420 Coaching Theories and Methods	3
SOC 401 Sociology of Sport	3

Course Listings

ANT—Anthropology

- ANT 202** **3 hours**
Introduction to Cultural Anthropology
 Prerequisite: ENG 101. Study of the concept of culture and the study of the cultures of living peoples throughout the world, including our own; the role of the individual, cultural adaptation, diversity, the concept of “race,” and language and culture.
- ANT 240** **3 hours**
Peoples of the World
 Survey of different cultures as case studies in anthropology. Cultural adaptation, social organization and ideology.
- ANT 303** **4 hours**
Anthropology of the Yucatan
 Prerequisite: ANT 202 and ARC 301. An introduction to the history, culture, ecology and archaeology of the Yucatan peninsula.
- ANT 310** **4 hours**
Physical Anthropology
 Topics include: overview of evolutionary theory, basic genetics and inheritance, evolution in present populations, biocultural evolution in human populations, human variation, and living primates and their behavior, Mammalian/Primate evolutionary history, human evolution, human osteology and paleopathology. 3 hours lecture 1 hour lab
- ANT 401** **3 hours**
World Prehistory
 Study of major events in human prehistory from 2 million years ago until the dawn of written history, from the Pleistocene to the Holocene and Paleolithic to Neolithic. Local events in south Georgia are used as examples of cultural patterns and processes occurring globally.
- ANT 415** **3 hours**
Cultural Sustainability
 Prerequisite: ANT 202. This course focuses on issues such as sustainability, well-being, community building and civic engagement needs, as well as using a clear cultural perspective as a basis for successful implementation of a sustainable and healthy society.

- ANT 440** **3 hours**
Cultural Anthropology
 Prerequisite: ANT 202. Study of different theories and approaches to study of the cultures of living peoples in the world today. The social construction of identity, hierarchy and stratification in state-level societies.

- ANT 495** **3 hours**
Anthropology Internship
 Students majoring in the NCRM Program or Social Sciences and/or those with the approval of instructor, can participate in the intern program. The purpose is to obtain hands-on working experience at a field location, site, laboratory, museum, nature center, or resource management agency. Typically, students work 10 hours per week for one or two semesters although this is flexible. Up to four hours of credit are given for each semester. These are usually volunteer positions although some with financial remuneration are available. The student can seek out their own organization, but Thomas University has contacts for internships both in and outside the state and the nation. Interns will prepare a written paper and a PowerPoint presentation describing their work experience.

- ANT 499** **1-3 hours**
Senior Seminar
 Review of all previous coursework in anthropology in the student’s final semester.

ARC—Archaeology

- ARC 301** **3 hours**
Archaeology
 The study of past cultures. As one of the social sciences, archaeology adds great time depth to study of the causes of human behavior. Classroom and field trips.
- ARC 303** **3 hours**
Field Techniques in Archaeology
 Participation in excavations at an archaeological site. Excavation techniques, recording, mapping, profiling.

ARC 305 **4 hours**
Archaeology in Nicaragua
 Prerequisite: ARC 301. Intensive field experience investigating archaeological sites of different cultures. Emphasis on cultural adaptation to the ecosystem, regions and cultures, architecture, mythologies, ceramics and other artifacts. Typically conducted out-of-state and frequently out-of-country such as in Nicaragua, Central America. Strenuous physical activity.

ARC 306 **4 hours**
Archaeology in Mexico
 Intensive field experience investigating archaeological sites located in and around Thomas University's 620 acre preserve near Izamal, Yucatan. Our emphasis will be on training and application of new nondestructive archaeological techniques including GIS spatial analysis of site locations and land usage and Remote Sensing to provide baseline documentation and mapping in international settings.

ART—Art

Note: Studio courses often require the student to perform experimentation, study, and research beyond actual studio contact hours with the instructor. Students taking studio courses pay a \$15 lab fee and may be required to purchase their own studio materials and pay a model's fee, if applicable.

ART 210 **3 hours**
Introduction to Drawing
 An introduction to the art of drawing through a variety of media including charcoal, pencil, and pen and ink. (Model's Fee) Required for Majors. Studio

ART 212 **3 hours**
2-D Design
 An introduction to the fundamental elements of the visual arts and their application through the solving of two dimensional visual problems involving line, shape, texture, value and color.

ART 240 **3 hours**
Art Appreciation
 Prerequisite: ENG 102. A survey of the visual arts examining Greek art, the Renaissance, Neoclassicism, Romanticism, and Realism, to mid-nineteenth century art. This course can be used to fulfill a CORE curriculum Humanities requirement.

ART 250 **3 hours**
Introduction to Studio Art
 An introduction to a variety of studio art media, including drawing, painting, sculpture and ceramics, and a survey of the tools and techniques of visual art. Basic concepts for creating 2D and 3D visual art will be covered in a hands-on, studio environment.

ART 270 **3 hours**
Introduction to Painting
 An introduction to the art of painting through instruction in fundamental techniques of painting in oils and acrylics. Required for Majors. Studio

ART 304 **3 hours**
Art History I
 A survey of the visual arts examining European and Mediterranean Paleolithic and Neolithic cultures and the Egyptian, Greek, and Roman Eras.

ART 305 **3 hours**
Art History II
 An examination of early Christian art, the Romanesque and Gothic periods, the Renaissance and Baroque Eras, Neoclassicism, Romanticism, and Realism, to mid-nineteenth century art.

ART 306 **3 hours**
Art History III
 A survey of the history and influences of twentieth century art, including European, American, and International influences and movements, current trends and concerns, and the future of art.

ART 320 **3 hours**
Sculpture
 This is a studio art course designed to enable students to explore the sculptural media and to develop a coherent body of work.

ART 322 **3 hours**
Ceramics
 Introduction to hand building techniques including coiling, slab, and pinch methods, textures, glazing, kiln firing and pit firing.

ART 350 **3 hours**
Introduction to Printmaking
 An introduction to the basic types and techniques of printmaking. Discussions concerning editions, monoprints, and ethics relating to the printmaking arts and current technology.

ART 380 **3 hours**
Digital Photography
 An introduction to software applications associated with computer generated images and their manipulation, including 2D animation.

ART 381 **3 hours**
Digital Photography II
 Prerequisite: ART 380. This course is designed to further develop student skills in pixel based photography and Adobe Photoshop with an emphasis on concept culminating in an exhibition of selected works. A studio fee will cover expenses for completing three contemporary artist presentations, one artist statement, creation of twenty unique images, and the printing and framing of selected images.

ART 382 **3 hours**
Digital Photography III
 Prerequisite: ART 381. This course is designed to further develop student skills in pixel based photography and Adobe Photoshop with an emphasis on concept culminating in an exhibition of selected works. Studio fee of \$150 will cover expenses for completing three contemporary artist presentations, one artist statement, creation of twenty unique images, and the printing and framing of selected images.

ART 390 **3 hours**
Principles of Graphic Art and Website Design
 Students will learn the principles of graphic art and website design. The elements of good graphic design, logo creation, and typography will be addressed. Utilizing artistic principles, students will progress to designing, building, and maintaining a functional website.

ART 400 **3 hours**
Figure Study
 Prerequisites: ART 210. Advanced study emphasizing special visual problems of the human figure rendered through a variety of media. (Model's Fee)

ART 480 **3 hours**
Senior Exhibition
 All students graduating with a concentration in art are required to assemble the work produced during their course of study and to organize an exhibition.

ART 490 **3 hours**
Special Topics
 Special topics courses offer the student opportunities to explore selected topics of interest in the discipline.

BIO—Biology

BIO 101 **4 hours**
Principles of Biology I
 Biology 101 is an introduction to the major principles, concepts, and connections in biology that includes a lab component. It is designed mainly for majors and includes modules on macromolecules, cells, processes such as photosynthesis, respiration, Mendelian and molecular genetics, and chemical and biological evolution.

BIO 102 **4 hours**
Principles of Biology II
 Biology 102 is an introduction to the major principles, concepts, and connections in biology that focuses mainly at the individual organism, population, community, and ecosystem levels. It is designed mainly for majors and includes modules on major organ systems, reproduction and embryonic development, as well as ecology and conservation biology. This course has a lab component.

BIO 103 **1 hour**
Medical Terminology
 This course introduces the elements of medical terminology. Emphasis is placed on building familiarity with medical words through knowledge of roots, prefixes, and suffices. Topics include: word origins (roots, prefixes, and suffixes), word building, abbreviations a symbols, terminology related to the human anatomy, disease states, and terminology specific to the student's field of study.

BIO 105 **4 hours**
A Survey of Biology for Non-Majors
 A Survey of Biology for Non-Majors introduces fundamental biological concepts and issues for students who are not majoring in the sciences. This course enables students to effectively interpret, understand and communicate scientific concepts in their daily lives. Major topics include structure and function of important macromolecules, cells, DNA, genetics, health, evolution, ecology, plants, animals, and conservation biology.

BIO 110 **4 hours**
Current Issues in Life Science
 This course introduces non-science majors to important biological principles and concepts, and the nature of the scientific process through an understanding of current issues and topics related to life sciences. This course includes a lab component.

BIO 140 **1 hour**
Pre-PA Seminar I
Prerequisite: Admission to the PA program. This course introduces students to a variety of contemporary medically oriented environments. This course will require 50 semester hours of shadowing experience in a healthcare setting with trained PA's, MD's, and Nurse Practitioners.

BIO 240 **1 hour**
Pre-PA Seminar II
Prerequisite: BIO 140. This course introduces the student to clinical, political, social, and economic trends in the Physician Assistant profession. This course will require 50 semester hours of shadowing experience in a healthcare setting with trained PA's, MD's, and Nurse Practitioners.

BIO 250 **4 hours**
Human Osteology
This course surveys human osteology, or the study of the human skeleton. Topics include skeletal morphology, introduction to bone biology; how to identify whole and fragmentary skeletal elements; techniques used to identify age, sex, ancestry, and stature; types of laboratory analysis and imaging techniques used by professionals; real world applications in forensic science and archaeological context.

BIO 252 **4 hours**
Current Issues in Environmental Science
This course will investigate large-scale environmental problems such as global warming, toxic spills, soil erosion, and pollution and how they create unequal distribution of food, clean water, arable land, and energy. Such inequities often result in ethnic conflict, insurgency, terrorism, civil violence, and state collapse. Mainstream environmental movements, and related offshoots such as deep ecology, ecofeminism, bioregionalism, and eco-terrorism, will also be studied. This course is for non-biology majors with an interest in environmental issues, but not biological principles or applied aspects such as experimental design, field study techniques, or data interpretation.

BIO 261 **4 hours**
Human Anatomy and Physiology I
Anatomy, physiology and biochemistry are taught concurrently to enable the student to grasp the interrelated complexities of all three areas. This course emphasizes structure and functions of the human body and its parts. During the course, students will study the anatomy, histology and function of the integumentary skeletal, muscular, and nervous systems from the molecular level to the level of the whole body. This course includes a lab component.

BIO 262 **4 hours**
Human Anatomy and Physiology II
Prerequisite: Completion of BIO 261 with a "C" or better. This course emphasizes structure and functions of human body and its parts. Students will study anatomy, physiology, and terminology relating to the human body by covering the cardiovascular, lymphatic, immune, respiratory, endocrine, reproductive, urinary, and digestive systems. This course includes a lab component.

BIO 270 **4 hours**
Microbiology
This course focuses on the structure and function of microorganisms ranging from virus to fungi and their interactions with humans. It introduces and provides experience with some fundamental laboratory techniques necessary for the study of microbes. During the course, students will learn the major subdivisions of microbiology and the types of microorganisms involved in each division, methods for studying microorganisms, microbial nutrition, the major beneficial and destructive activities of microorganisms, physical and chemical control of microbes, the etiology, pathogenesis, and treatments of major microbial diseases. Aspects of human defense systems are also covered. This course includes a lab component.

BIO 280 **4 hours**
Introduction to Sport Science
This is an introductory course with concepts and topics in anatomy, physiology, motor learning, and biomechanics, focusing on the art of the human body in relation to fitness and exercise conditioning using a total body approach. This course includes a laboratory component.

BIO 301/CHM 301**4 hours****Biochemistry**

Prerequisite: A grade of "C" or better in CHM 251 or CHM 107. The course provides the student with a background in amino acids, proteins, enzyme catalysis, metabolism and molecular genetics. This course will emphasize nomenclature, structure and function of the principle molecular components of cellular biochemistry. Emphasis will be placed on the relevance of biochemistry to disciplines in chemistry, biology, medicine, pharmaceuticals and nutrition. The laboratory will coordinate with class lecture to illustrate concepts and their application to everyday experiences.

BIO 308**4 hours****Ecology**

Prerequisites: BIO 102 or permission of the instructor. Biology 308 is an introduction to the theory and practice of ecology based on terrestrial and aquatic systems. This course includes experimental design, animal behavior, biotic and abiotic factors that determine plant and animal distribution. The majority of the course will focus at the population level and the community / ecosystem level. This course includes a laboratory component with visits to local aquatic and terrestrial ecosystems.

BIO 309**4 hours****Wildlife Ecology**

Prerequisites: BIO 308 or permission of instructor. This course is the study of animal populations with a special emphasis on their interactions with people. In BIO 308, students will study the life history, ecology, habitat and niche requirements of wildlife pests, as well as endangered species, game and non-game animals to identify methods to maintain, conserve, and enhance recreationally or ecologically valuable species. This course emphasizes process and procedures that are in the overall best interests of society, regardless of whether they are aesthetic, ecological, economic, or recreational. Students will engage in a field project in concert with a local wildlife resource agency.

BIO 311**4 hours****Conservation Science**

Prerequisite: BIO 102. This course is a field based lecture-discussion course that focuses on the scientific study of biological diversity, its rapid loss in recent decades, and approaches for conservation. The course will emphasize conservation issues in a variety of habitats, as well as theoretical considerations relevant to a broad understanding of biodiversity conservation. Concepts will be illustrated with examples from local

and regional ecosystems where applicable. Field trips to natural, disturbed and threatened areas will show the role of humans in the degradation, conservation and restoration of ecosystem biodiversity.

BIO 315**4 hours****Zoology**

Prerequisites: BIO 102. This course examines the unifying principles of zoology from an evolutionary and ecological perspective focused on the animal kingdom taxonomy and phylogeny. This course includes a laboratory component.

BIO 323**4 hours****Botany**

Prerequisite: BIO 102. This class introduces the unifying principles of Botany from an evolutionary and ecological perspective. The course examines structure and function of plant cells, tissues, and organs, and processes such as water movement, growth, response to hormones and inhibitors, photosynthesis, and respiration. The course includes a survey of the plant kingdom, emphasizing structure and function of major systems, reproductive strategies, evolutionary relationships, ecology, economic value, and conservation needs. This course includes a laboratory component.

BIO 325**4 hours****Advanced Botany**

Prerequisite: BIO 323. A botany course that focuses on the development, growth and reproduction of the flowering plants. The taxonomy of flowering plants is also included. This course includes a lab component and may include field trips.

BIO 340**1 hour****Pre-PA Seminar III**

Prerequisite: BIO 240. This course will examine the types of medical employment opportunities of PA's, limitations to practice, and a comparative analysis of the medical responsibilities that a PA will be required to conform to under professional standards. This course will require 50 semester hours of shadowing experience in a healthcare setting with trained PA's, MD's, and Nurse Practitioners.

BIO 351**4 hours****Environmental Science**

Prerequisite: BIO 102 or permission of the instructor. This course examines the history, scientific basis, and legislative response to important scientific issues of the 20th and 21st century. Topics to be addressed include: biological diversity, sustainability of natural

resources, climatic variability, endangered and non-indigenous species, and air and water pollution. The intent will be to investigate the background, concern, controversy, and government responses associated with each problem. A project on an environmental issue or local natural resource problem will be a significant component of this course. This course includes a laboratory component.

BIO 385/MLS 385 **3 hours**
Parasitology, Mycology, and Virology

The disease mechanisms of blood, tissue and intestinal parasites will be studied with emphasis on general mechanisms of parasitic infections. The increasing importance of fungal infections will also be discussed, as well as infections contracted through viruses.

BIO 401 **4 hours**
Evolution

Prerequisite: Senior-standing Biology Major. A study of the historical development of the concept of natural selection and modern concepts of evolution. This course includes a laboratory component.

BIO 403 **4 hours**
Field Biology

Prerequisites: BIO 101 or permission of instructor. Field biologists apply principles of biology, ecology, physical sciences, and mathematics to study the diversity and interactions of plants, animals in their natural environment. Studies are conducted at the level of the organism, community, ecosystem, or landscape. This course emphasizes collection methods, safe handling, and identification procedures for major taxonomic groups that are likely to be assessed by natural resource biologists working for a state or federal agency or conservation group.

BIO 409 **3 hours**
Pathophysiology

Prerequisite: BIO 262. This course examines diseases and disorders through a systemic approach, including pertinent anatomy, physiology, etiology, and predisposing factors.

BIO 410 **4 hours**
Cell and Molecular Biology

Prerequisite: BIO 101; Recommend BIO 412 Genetics. This course examines the organization and function of cellular structures in animal, plant, and microbial systems. Emphasis is on the molecular basis of cellular energetics, transport, cell cycle, and mechanisms of the regulation of nucleic acid and protein synthesis. This course includes a laboratory component.

BIO 412 **4 hours**
Genetics

Prerequisites: BIO 101. Molecular and Mendelian genetics as it applies to prokaryotic and eukaryotic organisms. Major topics cover such topics as molecular, cellular, developmental, Mendelian genetics. A quantitative approach is emphasized, both in the presentation of concepts and genetic analysis. A lab component is required.

BIO 440 **2 hour**
Pre-PA Seminar IV

Prerequisite: BIO 340. This course will examine the attributes and challenges of the individual learner in the healthcare arena. Topics will include ethics, morals, strength, value, plan of actions, and challenges within our own individual perspectives of self. This course will require 50 semester hours of shadowing experience in a healthcare setting with trained PA's, MD's, and Nurse Practitioners.

BIO 465 **3 hours**
Senior Seminar

Prerequisites: Senior standing and completion of 80% of the requirements for a Biology degree, including MTH 250, or Professors permission. In this course, students will plan and perform an original research project. The data will be organized and analyzed using statistical methods, and presented through a Senior Thesis and a public presentation of their data.

This is a Capstone Biology course in which Biology majors will utilize their knowledge and skills developed through the Biology curriculum. This course should be taken during the final semester in which the degree requirements are met, with the exception of students planning to graduate in the fall semester. To fulfill this requirement when the final semester is in the fall, one should take this course in the Spring prior to the final Fall semester or take BIO 480 during the final Fall semester. Additionally, the Biology Major Fields test will be administered during this course

BIO 480 **1-4 hours**
Advanced Readings in Biology

Prerequisite: Biology Major. The purpose of this course is to broaden the student's knowledge base by reading current or seminal works. Readings will provide a core of knowledge in a focused field that has relevance to the area of study anticipated by the student.

BIO 495 / 496 **1-4 hours**
Internship I / II
 Prerequisite: Biology Major, Junior or Senior Year. This course provides students with hands-on working experience at a local laboratory, museum, nature center, or resource management agency. Students will complete a minimum 30 hours per credit hour throughout the semester in the internship environment. Up to four hours of credit are given for each semester.

BIO 498 **4 hours**
Advanced Biological Research
 Prerequisite: Biology Major. This course is designed to enable a student to pursue a field or laboratory project of their own choosing. In conjunction with their professor, the student will design a project, prepare a schedule and objectives, and establish the laboratory or field protocol. Major findings will be summarized and presented for an advanced biology class. This class will run using an independent study format.

BUS—Business

BUS 200 **3 hours**
Principles of Financial Accounting
 This course introduces the fundamental principles of financial accounting in the United States. Topics include analysis of the accounting cycle, financial statement components, and financial statement structure; application of United States Generally Accepted Accounting Principles; and an introduction to internal control. Special emphasis is placed on the importance of the accounting equation and the articulation of the income statement and balance sheet.

BUS 201 **3 hours**
Principles of Managerial Accounting
 This course focuses on the study of accounting as a tool in the decision-making process. Concepts and techniques include analyzing financial reports, planning, and controlling operations in merchandising and manufacturing businesses. Major topics include capital budgeting and product costing.

BUS 210 **3 hours**
Principles of Macroeconomics
 An overview of macroeconomic theory including the introduction to American capitalism, national income, employment, fiscal policy, monetary policy, and economic stability.

BUS 211 **3 hours**
Principles of Microeconomics
 An introduction to microeconomic theory including economic growth, the economics of the firm, resource allocation and economic problems.

BUS 290 **3 hours**
Legal Environment of Business
 This course provides an introduction to the legal environment in which business operates. Course includes an introduction to law, contracts, torts, crimes and ethics in the business context.

BUS 300 **3 hours**
Intermediate Accounting I
 Prerequisite: BUS 200 and BUS 201. A detailed study of financial accounting procedures and practices with emphasis on financial statements, current assets, current liabilities, short term investments, intangible assets, and property, plant, and equipment.

BUS 301 **3 hours**
Intermediate Accounting II
 Prerequisite: BUS 300. A continuation of Intermediate Accounting I. Topics include: accounting for long-term debt, equity transactions, leases, pensions, and income taxes.

BUS 302 **3 hours**
Cost Management I
 Prerequisites: BUS 200, BUS 201, and MTH 250. Part 1 of a two-course series. The course focuses on topics related to the identification, classification, and evaluation of cost information. Several alternative cost measurement and budgeting systems are considered. Particular emphasis is given to developing a fundamental understanding of cost terms and purposes, and cost behavior.

BUS 303 **3 hours**
Cost Management II
 Prerequisite: BUS 302 and MTH 250. Part 2 of a two-course series. This course builds on BUS 302 by introducing more sophisticated cost measurement and budgeting techniques. Special emphasis is given to the use of cost accounting information for management control.

BUS 304 **3 hours**
Accounting for Not-for-Profit Organizations
 Prerequisite: BUS 300. Fund accounting theory and practice for government units, schools and colleges.

BUS 305 **3 hours**
Income Tax Accounting - Individuals
 A study of the evolution and present status of US federal individual income tax laws and their impact on tax accounting. Topics include tax research, practice and procedure; the federal tax legislative process; and an overview of federal individual income tax laws.

BUS 309 **3 hours**
Financial Statement Analysis
 Prerequisite: BUS 200. A study of the various methods of financial statement analysis. It will focus on the tools used to evaluate and value publicly traded companies.

BUS 310 **3 hours**
Money and Banking
 Prerequisite: BUS 200 and BUS 320. A study of the basic principles and concepts of money and credit and their importance in the economy. Major topics emphasize the key role of the commercial banking system, central banking as a means of expanding and stabilizing the money supply and credit, monetary theory, monetary and fiscal policies, international banking and finance, and a review of other banking and credit institutions.

BUS 311 **3 hours**
Issues in Economics
 Prerequisite: BUS 210 or BUS 211. A study of selected areas and issues affecting the business community. The course will offer an accelerated review of economic principles before entering into discussion on such issues as labor economics, labor relations, health care, social issues, individual policy, etc.

BUS 320 **3 hours**
Principles of Finance
 Prerequisite: BUS 200. An introduction to the principles of financial management, including capital budgeting, the acquisition of funds, the cost of capital, and dividend policy.

BUS 330 **3 hours**
International Business
 This course is designed to educate the student about the international environment of business. The course highlights the importance of international business by providing an overview about country factors, global

trade and investment, global monetary systems and entry strategies and strategic alliances.

BUS 332 **3 hours**
International & Cross-Cultural Comparisons
 This class is designed to help students to understand the cultural effects of interpersonal communication through exchanges, gesture, dress, art/advertising, visual stimulation, and business relations in the diverse world from both theoretical and applied perspectives.

BUS 340 **3 hours**
Organizational Behavior
 A course designed to familiarize students with the functions of the management process. Major emphasis is devoted to the functions of planning, organizing, directing, and controlling. Includes a study of the behavioral aspects of the organization and the application of management principles to human resources.

BUS 341 **3 hours**
Operations Management
 Prerequisite: MTH 250. A study of the basic concepts, designs, techniques, and applications for managing physical resources.

BUS 342 **3 hours**
Human Resources Management
 Prerequisite: BUS 340. A study of the recruitment, selection, training, development, utilization, and maintenance of human resources in organizations. Topics also include labor-management relations and the legal environment.

BUS 344 **3 hours**
International Management
 This course focuses on the formation of the global economy, the differences that exist among world buyers and sellers, management on a global scale and the difficulties of entrepreneurial activity on an international basis.

BUS 350 **3 hours**
Management Information Systems
 Prerequisite: CSC 120. A presentation of the basic concepts for design, implementation, and application of management information systems.

BUS 352 **3 hours****Web Design**

This class is designed to give students the tools necessary to develop quality websites through the integration of specialized web-design software, current multimedia technology and web-design principles to create graphical user interfaces for e-commerce sites.

BUS 360 **3 hours****Principles of Marketing**

An introduction to basic practices and problems of marketing including consumers' buying behavior, products and markets, distribution techniques, and marketing programs.

BUS 361 **3 hours****E-Commerce Marketing**

Prerequisite: BUS 360. This course involves the analysis and design of electronic media advertising, marketing and selling. Topics include direct marketing, relationship marketing, e-marketing, social marketing, and small business applications.

BUS 362 **3 hours****Retailing Management**

Prerequisite: BUS 360. A study of the organization, planning, policies, procedures, problems, and controlling of various types of retailing institutions. The major topics emphasized include the selection of retailing locations, organization of retailing establishments, merchandising policies and procedures, retailing services, and the selection, training, compensation, and supervision of retailing personnel.

BUS 363 **3 hours****Sales Management**

Prerequisite: BUS 340 and BUS 360. Basic principles in recruiting, training, managing, motivating, evaluating and compensating salespeople and sales forces.

BUS 364 **3 hours****Consumer Behavior**

Prerequisite: BUS 360. This course will examine the Wheel of Consumer Behavior which includes: consumer behavior, consumer environment and consumer affect and cognition. The student will further examine how the actions of consumers influence business and marketing strategies.

BUS 390 **3 hours****Business Communication**

Prerequisite: Grade of "C" or better in ENG 102 and CSC 120. Business Communications is a survey course of communication skills needed in the business environment. This course will introduce the student to writing memoranda, letters, reports, resumes and electronic messages. Interpersonal, critical thinking and problem solving skills are developed to enhance the student's ability to communicate in the business world as an articulate, conscientious professional.

BUS 391 **3 hours****Business and Social Responsibility**

The new millennium reflects the importance of a business manager adhering to ethical and moral obligations. The purpose of this course is to acquaint the student with a business's social and ethical responsibility to the internal and external stakeholders. This course will address organizational decision making processes and their relationship to the ethical and social implications of the political, legal, regulatory, technological, and global environments.

BUS 400 **3 hours****Accounting Information Systems**

Prerequisites: BUS 200 and BUS 201. An introduction to the design, implementation, and monitoring of accounting information systems. Special emphasis is put on the role of the AIS in providing good internal control that can minimize accounting misstatements due to error and fraud.

BUS 401 **3 hours****Auditing**

Prerequisite: BUS 301. Co-requisite BUS 400. A study of United States audit and attestation practices and procedures. Special emphasis is put on the financial statement audit. Topics include the study of United States auditing standards, professional ethics, legal liability, internal control, and evidence gathering.

BUS 402 **3 hours****Internal Auditing**

Prerequisites: BUS 301, BUS 303, and BUS 400. This course examines issues relating to the concepts and theory of internal auditing. Major topics of discussion will include the internal audit environment; the auditing profession; the duties, responsibilities, and procedures of internal auditors; and the relationship between the internal auditing function and the external auditing function.

BUS 405 **3 hours**
Income Tax Accounting - Partnerships & Corporations
 Prerequisite: BUS 305. This course examines issues relating to the taxation of partnerships, corporations, and other entities. Issues relating to both federal and state taxation are addressed.

BUS 406 **3 hours**
Advanced Accounting Law
 Prerequisites: BUS 290 and BUS 300. A study of specialized areas in partnerships and corporations.

BUS 407 **3 hours**
Advanced Accounting
 Prerequisite: BUS 301. An advanced study in financial accounting and reporting theory. Topics include the equity method of accounting for investments, consolidation of financial information, accounting for variable interest entities, foreign currency transactions and hedging foreign exchange risk, and international accounting standards.

BUS 408 **3 hours**
Advanced Business Law
 Prerequisite: BUS 290. This course is the second in a two-part series and covers advanced areas of law within the business context as well as a primer on the Uniform Commercial Code. Topics covered include sales, real and personal property, negotiable instruments, secured transactions, bankruptcy, and professional liability.

BUS 417 **1 hour**
Senior Business Seminar
 Prerequisite: permission of division chair. A synthesis course which overviews student development in management, marketing, accounting, finance, and economic, legal and ethical environments. As a co-requisite for the capstone BUS 495 Strategy class, students apply these principles to case studies.

BUS 440 **3 hours**
Labor Relations
 Prerequisite: BUS 340. A general survey of collective bargaining environment with major emphasis on the major provisions of labor law, bargaining issues of craft and industrial unions, and a review of labor relations in public organizations.

BUS 441 **3 hours**
Small Business Management
 Prerequisites: BUS 340, BUS 360, and BUS 320. This course involves the analysis of simulated and actual business opportunities. The relationship of the

entrepreneur to the formation and growth of the enterprise is studied in its economic and social environment.

BUS 442 **3 hours**
Entrepreneurship
 Prerequisites: BUS 320, BUS 340, and BUS 360. This course explores the nature of entrepreneurship, including the financing, examining risks associated with new ventures, new entry strategies, managing growth strategies, global expansion, and termination of the business venture.

BUS 443 **3 hours**
Leadership
 Prerequisite: BUS 340. This course is designed to provide a framework for studying and understanding the concept of leadership within organizational environments. Special emphasis will be placed on identifying cultural values and other situational variables that potentially affect leadership. Through the use of case studies different leadership styles will be analyzed and applied.

BUS 445 **3 hours**
Training and Development
 Prerequisite: BUS 340. This course presents an overview of training, its roles and goals, using an open systems perspective. The content focuses on how training fits into the structure of large and small companies. Most of the course will entail the presentation of an overarching training process model that can be applied in any organization

BUS 460 **3 hours**
Marketing Research
 Prerequisite: BUS 360 and MTH 250. Develops the scientific process of problem solving in a marketing context. Covers the concepts of problem definition, hypothesis testing, questionnaire development, research design, and interpretation of statistical findings.

BUS 461 **3 hours**
International Marketing
 Global business has had an impact on international marketing practices. This course uses an approach of examining cultural differences, assessing global market opportunities, and developing and implementing global marketing strategies.

BUS 490 **3 hours**
Special Topics in Business
 Special topics courses offer the student opportunities to explore current issues and selected topics of interest in the discipline.

BUS 493 **3 hours**
Independent Study in Business
 Approval by the instructor and division chair is required. Research is conducted on specific business issues.

BUS 494 **3 hours**
Internship
 A course designed to provide practical experience in a local business. Students will be expected to perform specific responsibilities in the business and prepare a detailed report about the experience.

BUS 495 **3 hours**
Strategy
 Prerequisites: BUS 320, BUS 330, BUS 340, BUS 341, BUS 350, and BUS 360. Course **must** be taken at Thomas University. A multi-level, integrative approach to the study of business strategy. The course provides conceptual frameworks to consider various issues related to the strategic process and uses cases for experience in adaptation and integration.

BUS 496 **3 hours**
Business Research Methods
 Prerequisite: MTH 250. The course introduces students to basic research methods in the field of business. Students will create research questions, create a research-based literature review, and plan a methodology appropriate to carry out the study. The purpose of this course is to produce more informed future business leaders and to improve their understanding of research methods in business.

CHM—Chemistry

CHM 101 **4 hours**
General Chemistry I
 Prerequisite: MTH 140 and satisfactory academic standing in college level courses. This is part one of a two-semester course in general chemistry designed primarily for science majors. This course is an introduction to the principles and practice of modern chemistry, with in-depth treatments of the fundamental concepts of atomic theory, periodic properties of the elements, chemical bonding, molecules and compounds, states of matter and intermolecular forces, thermodynamics, solution chemistry, and chemical equilibrium, including

equilibria of aqueous solubility and acid base reactions. The laboratory integrates qualitative and quantitative skills, chemical instrumentation and laboratory projects, with emphasis on collection and analysis of data and their limitations.

CHM 102 **4 hours**
General Chemistry II
 Prerequisite: CHM 101. This is part two of a two-semester course in general chemistry designed primarily for science majors. This course builds on concepts from General Chemistry I and covers topics such as thermochemistry, the behavior of gases, intermolecular forces in solids and liquids, kinetics, chemical equilibria, thermodynamics, and electrochemistry. The laboratory integrates qualitative and quantitative skills, chemical instrumentation and laboratory projects, with emphasis on collection and analysis of data and their limitations.

CHM 103 **4 hours**
Environmental Chemistry
 Prerequisite: CHM 101 preferred. The chemistry and quantitative aspects of environmentally important cycles (C, N, O, P, S) in the context of the atmosphere, hydrosphere and lithosphere. Major environmental issues will be discussed such as acid rain, sewage treatment, ozone destruction, anthropogenic climate change, air pollution and eutrophication. Laboratories will involve sampling, quantitative detection and data analysis.

CHM 107 **4 hours**
Survey of Organic Chemistry
 Prerequisite: CHM 101. The course is an introduction to organic chemistry covering a wide range of topics on the chemistry of functional group classes such as alkanes, alkene, alkynes, alkyl halides, alcohol, aldehydes, ketones, carboxylic acids, heteroatom compounds, amines, aromatics, heterocyclics, organometallics, amino acids, proteins, lipids, and nucleotides. Emphasis will be placed on organic nomenclature, structure, bonding, stereochemistry, conformational analysis, organic reactions and structure. This course includes a laboratory component.

CHM 250 **4 hours**
Organic Chemistry I
 Prerequisites: Grade of "C" or better in CHM102. This is part one of a two-semester course in modern organic chemistry designed primarily for biology majors. The course is intended to provide the student

with a general background in organic chemistry covering a wide range of topics on the chemistry of functional group classes, including alkanes, alkenes, alkynes, alkyl halides, alcohol, aldehydes, ketones, carboxylic acids and heteroatom compounds.

Emphasis will be placed on organic nomenclature, structure, bonding, stereochemistry, conformational analysis, organic reactions and structure determination by organic spectroscopic methods. This course will also focus on an understanding of organic reactivity through a detailed description of reaction mechanisms. This course includes a laboratory component.

CHM 251 **4 hours**
Organic Chemistry II

Prerequisites: Grade of "C" or better in CHM250. This is part two of a two-semester course in modern organic chemistry designed primarily for science majors. This course will emphasize additional organic groups not covered including amines, aromatics, heterocyclics, organometallics, amino acids, proteins, lipids, and nucleotides. This course will address additional aspects of nomenclature, structure, bonding, stereochemistry, organic reactions and identification/structure determination by organic spectroscopic methods. This course will also focus on understanding the reactivity of organic and biological molecules through a detailed description of reaction mechanism and intermolecular bonding forces. This course includes a laboratory component.

CHM 301/BIO 301 **4 hours**
Biochemistry

Prerequisite: Grade of "C" or better in CHM 251 or CHM 107. The course provides the student with a background in amino acids, proteins, enzyme catalysis, metabolism and molecular genetics. This course will emphasize nomenclature, structure and function of the principle molecular components of cellular biochemistry. Emphasis will be placed on the relevance of biochemistry to disciplines in chemistry, biology, medicine, pharmaceuticals and nutrition. The laboratory will coordinate with class lecture to illustrate concepts and their application to everyday experiences.

CRJ—Criminal Justice

CRJ 105 **3 hours**
Introduction to Criminal Justice

This course examines the U.S. criminal justice system from a sociological perspective. Sociological theories of social control and the origin of law are used to frame

important issues of criminal justice and social policy. The most current studies are reviewed on the effectiveness of rehabilitation, decriminalization, deterrence, incapacitation, and various police initiatives.

CRJ 150 **3 hours**
Criminology

This course will cover the study of criminal behaviors that violate social norms. Students will examine the scientific study of the making of laws, the breaking of laws and society's reaction. Major emphasis will be placed on the evolution of criminological theories. Students will examine the survey of the patterns and trends in adult criminal behavior and juvenile delinquency analyzed in terms of various theories of such behavior. Students will also examine types of crime and the administration of justice.

CRJ 210 **3 hours**
Policing in America

Designed to be a comprehensive introduction to the foundations of policing in the United States, this course primarily examines the role of law enforcement in the American society. The history of policing, organizational structure, and police deviance are some of the many topics covered.

CRJ 230 **3 hours**
Corrections in America

This course is a study of the role of corrections in the criminal justice system by examining the philosophies, practices, procedures, and problems in corrections throughout our nation's history.

CRJ 250 **3 hours**
Juvenile Justice

Structured to examine classical and contemporary criminological theories, this course allows students to explore the origins of juvenile delinquency and to apply criminological knowledge to juvenile delinquency, as it exists today. Particular emphasis is placed on exploring those factors which might contribute to delinquent behavior, possible remedies, and gang violence.

CRJ 255 **3 hours**
Criminal Procedure

This course examines the court system and sources of rights, the criminal justice process, probable cause and responsible suspicion, search and seizure, the Exclusionary Rule, stop and frisk, motor vehicle stops, searches and inventories, self-incrimination, confessions and admissions, plea bargaining, rights of

the accused before, during and after trial and punishment. Emphasis will be placed on court decisions involving the 4th, 5th, 6th, 8th and 14th amendments to the U.S. Constitution and the cases that have shaped history.

Note: It is recommended that only those students who have completed their lower division course work take the following upper division courses.

CRJ 300 **3 hours**

Criminal Justice Research and Analysis

This course provides is an in-depth study on conducting and applying statistical techniques to criminal justice research, including electronic searching, quasi-experimental methods as well as multiple baseline designs.

CRJ 310 **3 hours**

History of Criminal Justice

This course examines the history of criminal justice systems in Western Europe and the United States. These studies form the backdrop for the American legal system that is currently operating.

CRJ 320 **3 hours**

Terrorism

This course is an in-depth study of terrorism including its origins, types and styles and history. Efforts around the world to detect, discover and deter terrorist actions will be focused upon. Contemporary terrorism and its influences upon lifestyles, law enforcement, legal systems and public policy will receive special attention.

CRJ 330 **3 hours**

Deviance, Crime and Criminal Justice

Relationships among individual and group motivation and psychology that result in psychological and/or psychosocial deviance and their special relationships with crime, criminology and criminal justice are examined. Related issues in control, management and investigation of deviance and its criminal manifestations are also considered. Gang behavior, ritualistic crimes, deviant sexual crime and serial crimes receive specific treatment.

CRJ 340 **3 hours**

Criminal Justice Standards and Practices

Standards and Practices is a philosophic study of police ethics and is presented in order to address the principles of professional and ethical conduct in the law enforcement community. The course will provide

the student with insights into The Law Enforcement Code of Ethics.

CRJ 350 **3 hours**

Victimology

Victimology is the scientific study of victimization, which is the physical, emotional, and financial harm people suffer because of illegal activities. This includes the relationships between victims and offenders; the interaction between victims and the criminal justice system; and the connections between victims and other societal groups and institutions such as the media, businesses, and social movements.

CRJ 360 **3 hours**

Forensic Science

Prerequisites: ENG 101 and ENG 102. This course will study the relevant scientific and technological principles and techniques that are used to solve crimes. The student will learn modern forensic methodologies and will invoke the application of scientific method to solve legal problems. The course is designed to provide an overview of the basic science concepts and techniques used in a forensic laboratory. The nature and significance of physical evidence and the underlying chemical and biological principles of the scientific techniques employed for analysis and interpretation will be emphasized.

CRJ 370 **3 hours**

Constitutional Law

This course examines the basic principles of the U. S. Constitution as the authoritative document for allocating governmental power, establishing individual rights and acting as a basis of law. Particular emphasis is placed on current rulings apply-ing the First, Second, Fourth, Fifth, Sixth, Eighth, and Fourteenth Amendments. Students will study the correlation of how laws are formulated and enforced to the basic fundamental privileges that the Constitution affords as the supreme law of the land.

CRJ 380 **3 hours**

White Collar and Organized Crime

Examines the nature, dynamics, and types of white collar crime along with the history, structure and evolution of organized crime in the United States. May be taken by non-majors.

CRJ 390 **3 – 6 hours**

Criminal Justice Specialization

Prerequisite: ENG 101 and ENG 102. Experiential Learning course credit is an option for non-traditional college students who bring significant work

experience, in both terms of years and responsibility. Students may obtain up to 6 major elective course credits for specialized skills or careers within the field of criminal justice by providing documentation of training experience and proficiency within a specific specialization or field of criminal justice.

CRJ 410 **3 hours**
Community Policing

This course examines community policing, an innovative and non-traditional policing philosophy that emphasizes community cooperation and proactive law enforcement. May be taken by non-majors.

CRJ 420 **3 hours**
Evidence

This course is a survey of the Federal Rules of Evidence and applies of the more complicated rules of evidence in courts of law. The evidence code of the State of Georgia will be stressed. The principles underlying the basic rules as well as burden of proof, probative value, presumptions, stipulations, competency, privilege, cross-examination, hearsay, and expert opinion testimony will be examined.

CRJ 430 **3 hours**
Management in Law Enforcement

This course provides students the necessary tools to develop the behavioral and social skills necessary to deal effectively with a rapidly changing law enforcement community. Through thought provoking reading, class interaction, completion of case studies, and detailed testing, this course will introduce the student to many management processes and the fundamental organizational behaviors. Additionally, this course will introduce the student to the importance of human behavior and its relationship to the overall organizational process.

CRJ 441 **3 hours**
Computer Forensics

This course is the study of computer forensic investigation procedures and response. Students will be introduced to computer crimes through an examination of the crimes and those individuals committing the crimes. Students will examine the laws, investigative techniques, and criminological theories applicable to computer crime. Students will gain understanding of digital crime and digital terrorism, the types, nature, and extent of digital crime, legislation and enforcement of digital crime, and future trends of digital crime.

CRJ 460 **3 hours**
Criminal Investigation

This course examines the procedures, techniques and applications of public and private investigations. The course features enhanced coverage of such important topics as physical evidence, report writing, crimes against children, photography, sketching and court procedures.

CRJ 465 **3 hours**
Crime Prevention

This course examines methods of crime control and research concerning its effectiveness. The course also covers policing, prosecution and the courts, legislative methods, as well as the crime control at the individual, family, school community levels and best ways to prevent crime in the future.

CRJ 470 **3 hours**
Criminal Law

This course examines substantive criminal law. Particular emphasis is placed on recognizing and understanding the legal elements that constitute a crime, affirmative defenses, and constitutional limitations on criminal statutes. May be taken by non-majors.

CRJ 480 **3 hours**
Comparative Criminal Justice Systems

This course offers a cross-cultural perspective to the comparative study of different criminal justice systems operating worldwide. It analyses the societal responses to various conceptions of justice and, describes and contrasts the major aspects of the organization of criminal justice.

CRJ 485 **3 hours**
Criminal Justice Internship

This course places suitable students in various criminal justice agencies in order to prepare them for future employment in the criminal justice field. All internships must be pre-approved and it should be noted that some require lengthy processing which must be initiated months in advance. Only those who have successfully completed a minimum of 18 hours of upper division criminal justice course work may intern.

CRJ 490 **3 hours**
Special Topics

Special topics courses offer the student opportunities to explore selected topics of interest in the discipline.

CSC—Computer Science

CSC 120 **3 hours**

Microcomputer Applications

Pre/Co-requisite: ENG 100 or placement in higher level ENG. This course provides students with a diverse base of knowledge and experience in personal computer concepts and applications. Through hands-on experience, students will develop proficiency in Microsoft Word, Excel, and PowerPoint, Windows, and Internet, including search tools and techniques. Students also will develop an understanding of information literacy as it applies to use of the Internet.

ECE—Early Childhood Education

ECE 326 **3 hours**

Developmentally Appropriate Practices for Pre-K and Kindergarten

The purpose of this course is to examine the characteristics of the preschool and kindergarten learner as well as the developmentally appropriate teaching strategies and resources for preschool and kindergarten instruction. This course requires a field placement in a preschool and kindergarten setting.

ECE 327 **3 hours**

Methods and Strategies for Teaching Early Adolescent Learners

Prerequisite: EDU 316 and EDU 350. Co-requisite: EDU 340 and ECE 460. This course focuses on research-based effective teaching methods and strategies for teaching early adolescence learners, with attention provided to the characteristics of diverse and exceptional learners in the classroom and assessment of student learning. This course requires a field placement in a 4th-8th grade setting, depending on major.

ECE 428 **3 hours**

Developing Pedagogical Content Knowledge for Teaching Early Childhood Learners

Prerequisite: EDU 327, EDU 340, and EDU 460. Co-requisite: ECE 470, ECE 480, and EDU 468. The focus of this course is to examine research-based pedagogical content knowledge that engages early childhood education students in active learning that results in student's acquisition of essential knowledge and skills. This course requires a field placement in an elementary school setting, beginning with the first day of the assigned school district calendar, for three days a week until the end of the semester.

ECE 429 **10 hours**

Student Teaching

Prerequisites: All program courses in Professional Core I, II, and III. Co-requisite: ECE 430. The purpose of this course is to provide full immersion in the school community in order to further develop and demonstrate competence in the professional role as an elementary teacher. This course requires full-time participation in a school for 15 weeks.

ECE 430 **2 hours**

Student Teaching Seminar

Prerequisite: All program courses in Professional Core I, II, and III. Co-requisite: ECE 429. The purpose of this seminar is to examine the knowledge, skills, and dispositions essential to the positive career path of the elementary teacher, from teacher candidate to early career professional.

ECE 440 **3 hours**

Interdisciplinary Teaching through Art, Music, and Physical Education/Health

The purpose of this class is to examine the strategies, resources, and materials for developing interdisciplinary art, music, physical education/health lessons in grades Pre-K through fifth grade.

ECE 460 **3 hours**

Social Studies Curriculum Development

Prerequisite: EDU 316. Co-requisite: ECE 327. The purpose of this course is to examine major social studies concepts and modes of inquiry derived from national and state standards to develop cohesive elementary social studies curricula that meets the changing needs of students and other stakeholders in a diverse community.

ECE 470 **3 hours**

Mathematics Curriculum Development

Prerequisite: EDU 327. Co-requisite: ECE 428. The purpose of this course is to examine major mathematics concepts and modes of inquiry derived from national and state standards to develop cohesive elementary mathematics curricula that meets the changing needs of students and other stakeholders in a diverse community.

ECE 480 **3 hours**

Science Curriculum Development

Prerequisite: EDU 327. Co-requisite: ECE 428. The purpose of this course is to examine major science concepts and modes of inquiry derived from national and state standards to develop cohesive elementary science curricula that meets the changing needs of

students and other stakeholders in a diverse community.

EDU—Education

EDU 200 3 hours

Introduction to the Teaching Profession

This course provides an introduction to teaching as a profession in the American education system. It offers a variety of perspectives on education including historical, philosophical, social, legal, and ethical issues in a diverse society. A practicum component is required which includes 15 hours of classroom observation.

EDU 301 0 hours

Teacher Candidate Orientation

Prerequisite: Admission to the Division of Education. The purpose of this course is to orient the teacher candidate to program expectations and Georgia rules governing certification.

EDU 310 3 hours

Educational Psychology

Students examine psychological principles of learning, cognition, motivation, behavior, and the practical implications of these principles for teaching and learning. The development of skills to interpret behavior and classroom interactions within a framework of psychological theory will be a major feature.

EDU 316 3 hours

Teaching Methods and Strategies

Prerequisite: Admission to the Division of Education or permission of the Chair of the Division. Co-requisite: EDU 350. This course provides an introduction to the basic principles of instruction and learning in the context of research supported methods, strategies, and skills that meet the needs of all learners. A practicum component is required which includes 15 hours of classroom observation.

EDU 320 3 hours

Teaching Diverse Learners

This course will explore the factors that make students diverse and the instructional implications for teaching to diverse populations, including building students' resiliency, fostering a sense of community within the classroom, teaching to students' learning styles, and minimizing the effects of poverty on student achievement.

EDU 340 3 hours

Assessment Strategies to Improve PK-12 Learning

Prerequisite: EDU 316 and EDU 350. Co-requisite: ECE/MGE/SEC 327. This course examines the development and use of multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making. This course requires a field placement in a school setting in conjunction with ECE/MGE/SEC 327.

EDU 350 3 hour

Instructional Technologies in the PK-12 Classroom

Prerequisite: CSC 120. Co-requisite: EDU 316. The purpose of this course is to develop the knowledge and skills needed to understand the role that various forms of electronic and digital technology can have in the teaching/learning process and how effective teachers engage these processes in the classroom.

EDU 360 3 hours

Models of Teaching

Prerequisite: ECE/MGE/SEC 327 and EDU 340. Co-requisite: ECE/MGE/SEC 428. This course investigates instructional models and their features, with a focus on how instructional models promote learning in K-12 settings. Special emphasis is placed on the use of instructional models to develop pedagogical content knowledge with the goal of providing the strongest positive effect on student achievement tied to discipline specific standards based instruction.

EDU 399 1 hour

Georgia Teacher Certification Exam Preparation

Prerequisite: Students must have an official score on the GACE and/or edTPA exam. The purpose of this course is to provide a comprehensive review of the Georgia Assessments for the Certification of Educators (GACE) program standards for the content area and/or edTPA exam in which the Teacher Candidate is being certified. The course will provide a review of study strategies and test-taking tips. A student's previous exam scores (GACE and/or edTPA) will be used to identify areas of weakness and to develop individual learning plans.

EDU 468 3 hours

Educating Exceptional Learners

Prerequisite: ECE/MGE/SEC 327 and EDU 340. Co-requisite: ECE/MGE/SEC 428. The purpose of this course is to provide an overview of the educational needs of exceptional students, including children with learning and/or behavior problems, children with physical disabilities or sensory impairments, and

children who are intellectually gifted or have a special talent. This course requires a field placement in collaboration with ECE/MGE/SEC 428.

EDU 601 **0 hours**
Orientation to Advanced Programs in Education

The purpose of this course is to introduce advanced candidates to key assessments and additional program requirements that are required for program completion and/or certification by the Georgia Professional Standards Commission.

EDU 602 **3 hours**
Teachers as Leader and Mentor

This course focuses on leadership and mentoring skills within the context of current best practices and research, to include the design, implementation, and evaluation of student instruction and professional development strategies that maximize the diverse learning strengths and needs of all learners. Teachers develop mentoring expertise including reflective teaching, peer coaching, induction processes, observation and feedback techniques, and evaluation techniques and instruments.

EDU 603 **3 hours**
Best Practices in Teaching and Learning

The purpose of this course is to provide a critical examination of research and theory relevant to the advanced study of teaching and learning. Emphasis is placed on the relationships that exist between student development, instructional practices/culturally responsive pedagogy, educational environments, continuous reflection and assessment, learning communities, and dispositions of the profession.

EDU 610 **3 hours**
Educational Research

The purpose of this course is to help students become more sophisticated consumers and beginning practitioners of educational research. The course will provide students with an inclusive and integrated overview of the field of educational research. The course is designed to be balanced in its presentation of quantitative and qualitative research by examining foundational issues of research.

EDU 611 **3 hours**
Leading the Professional Learning Community

This course will orient participants around the concepts of PLC, where PLC fits in the broader perspective of school reform, and strategies for implementing PLC. This course is designed to assist those in leadership roles (curriculum specialist,

teacher leader) in acquiring the knowledge, skills, and dispositions associated with leadership of a PLC. Some PLC traits to be a part of this course include collaboration (educators learning with and from each other), inquiry, reflection, shared responsibility for student learning, shared examination of instructional practice, and student learning. Candidates will promote professional learning communities and demonstrate the ability to effectively design, deliver, and evaluate professional learning in their schools.

EDU 612 **3 hours**
Teacher as Researcher

This course is designed to enable the K-12 teacher to conceptualize and implement meaningful action research to improve educational outcomes and to help address critical educational issues. The course will orient students to the use of methodologies in formulating hypotheses, and will develop strategies for conducting action research to include collecting, analyzing, and evaluating data.

EDU 613 **3 hours**
Curriculum Design and Development for Student Achievement

This course focuses on advanced knowledge related to the design, implementation, and evaluation of curricula that promotes student learning for all learners, including students with exceptionalities and those who are culturally and linguistically diverse. This course will examine and analyze the following core elements of curriculum design: conceptual purpose, content, coherence, articulation within a subject area across grade levels, and across subjects, alignment with both achievement standards and achievement assessments. Program assessment will be examined with particular attention to how it differs from but is relevant to student performance assessment.

EDU 614 **3 hours**
Program Planning

This course emphasizes the elements essential in designing, implementing, and evaluating effective school and community educational programs, and prepares students with the knowledge and skills required for writing a project or program grant proposal. This course provides students with an overview of program planning, including methods for assessment, planning models and theories, and intervention strategies. Course content will focus on program planning in school and community settings, giving focus to both cultural and technological aspects of programming.

EDU 615 **3 hours**
Educational Law
 This course examines the legal and ethical issues as related to practical problems in school. Topics to be studied include organizational structures of school, federal and state systems, church-state related issues, teacher rights, rights of students with disabilities, instructional issues, tort liability, and equal opportunities in education.

EDU 616 **3 hours**
Educational Reform
 This course examines broad concepts of school reform utilizing the perspectives of policy, practice, and instructional leadership. The course also aims to develop in the career educator a broader and deeper understanding of the problems between ideas and practice in dynamic social settings.

EDU 617 **3 hours**
Using Data to Improve Schools
 This course provides teacher leaders with the skill and knowledge to analyze state, district, and local data for use in planning systemic improvement of instructional delivery, program effectiveness, and administrative processes. Acquisition, analysis, and interpretation of data are applied in educational settings to facilitate research-based decisions in planning for instructional and organizational improvement.

EDU 618 **3 hours**
Building Collaborative Teams
 The purpose of this course is to teach strategies for building and working effectively within collaborative teams in schools and with school partners.

EDU 620 **3 hours**
Applying Technologies for Effective Instruction
 The purpose of this Course is to develop the knowledge and skills needed to understand the role various forms of electronic and digital technology can play in the teaching/learning process and how effective teachers engage these processes in the classroom.

EDU 622 **3 hours**
Current Issues and Trends in Education
 This course is designed to examine current issues and trends in education that could affect teaching, curriculum, motivation, families, students, teachers, administration, school reform, school policy, and school law.

EDU 623 **3 hours**

Educational Assessment and Decision Making
 This course is deigned to further develop the knowledge, attitudes, conceptual and technical skills needed by the PK-12 teacher to use assessment and assessment results in instructional planning, teaching, curriculum development, student learning, and school improvement.

EDU 624 **3 hours**
Collaborative Classrooms through Social Emotional Learning
 The purpose of this course is to provide students with the concepts and skills related to social and emotional intelligence learning. The course examines effective ways of connecting and communicating even in the most challenging situations.

EDU 629 **0 hours**
Instruction and Curriculum Capstone Portfolio
 The purpose of this 0 credit course is to serve as the mechanism for the submission of the Instruction and Curriculum Capstone Portfolio.

EDU 630 **1-3 hours**
Teacher Leadership Internship
 This course may be repeated for credit. The Teacher Leadership Internship provides opportunities for candidates to apply the PSC Teacher Leadership knowledge, skills, and dispositions during a year-long job-embedded internship. Candidates will work closely with their Candidate Support Team, specifically their coach and mentor, to determine the scope of work for the internship. Professional learning proficiencies outlined in the Teacher Leadership Standards will guide the Candidate Support Team's development of an Individual Growth Plan.

EDU 688 **3 hours**
Human Growth and Development
 This course provides and understanding of the nature and needs of individuals at all developmental levels, including learning styles and personality development, normal and abnormal behavior, and lifespan transitions.

ENG—English

ENG 099 **3 hours**
Writing Skills I
 * A thorough review of essential grammar skills, use of standard written English, sentence and paragraph development, and the basic expository essay. Average of 70% or better passing exit score required for exit into ENG 100. Institutional credit.

ENG 100 **3 hours**
Writing Skills II
 *Prerequisite: "C" or better in ENG 099 or appropriate placement score. Further development of essential writing skills with focus on the use of standard written English, and detailed essay construction. Grade average of 70% or better passing exit score is required for exit into ENG 101. Institutional credit.

*Placement based on entrance exam score

ENG 101 **3 hours**
Composition I
 Prerequisite: Grade of "C" or better in ENG 100 or appropriate placement test score. An introduction to writing that concentrates on developing expository techniques through summaries and essays incorporating analysis, synthesis, argument, and critical thinking skills. The course also teaches research skills, and a major documented paper is required. Mastery of standard English usage and principles of composition is determined through departmental examination and evaluation. Grade of "C" or better is required for credit.

ENG 102 **3 hours**
Composition II
 Prerequisite: Grade of "C" or better in ENG 101. A continuation and expansion of the skills and principles introduced in ENG 101 through the study and analysis of literature. A major documented paper is required. Mastery of the principles of composition is determined through departmental examination and evaluation. Grade of "C" or better is required for credit.

ENG 301 **3 hours**
Professional Writing in the Digital Age
 Prerequisite: Grade of "C" or better in ENG 102 and CSC 120. A study of writing techniques and patterns used in various professions with an emphasis on electronic communication and presentation. Topics include reports, newsletters, summaries, information research, analysis, and evaluation in the context of hypertext writing, web page development, desktop publishing, and electronic presentations.

ENG 302 **3 hours**
Creative Nonfiction Writing
 Prerequisite: Grade of "C" or better in ENG 101 and ENG 102. This is a survey course designed for undergraduate students writing nonfiction prose. Students will read works of nonfiction across a broad spectrum of content and form. The course is designed to improve nonfiction writing through discussions of written work in a group workshop setting as well as discussions of published essays from the textbooks. The course will also emphasize defining and understanding the genre of nonfiction from various cultural and historical perspectives. Students will learn how to read these pieces of nonfiction both as a scholar and as writer. From a craft perspective, students will study figurative language, voice, character development, setting, and dramatic structure and practice close-reading techniques.

ENG 303 **3 hours**
Argumentative and Persuasive Writing
 Prerequisite: Grade of "C" or better in ENG 101 and ENG 102. This course provides models and strategies of argumentative and persuasive writing that develop skills in critical thinking. Students are expected to analyze and critique arguments in order to develop their ability to use argumentative patterns to write persuasively.

ENG 304 **3 hours**
Introduction to Creative Writing
 Prerequisite: Grade of "C" or better in ENG 101 and ENG 102. Students will write poetry, short fiction and a short screenplay. The course is designed to help undergraduates improve their reading and writing skills beyond the freshman level. This is achieved through studying contemporary pieces of creative writing, producing original pieces of creative work and engaging in peer critiques that work.

ENG 311 **3 hours**
American Literature Survey I
 Prerequisite: Grade of "C" or better in ENG 101 and ENG 102. A survey of the major American writers and genres of the 17th, 18th, and 19th centuries.

ENG 313 **3 hours**
American Literature Survey II
 Prerequisite: Grade of "C" or better in ENG 101 and ENG 102. This course exposes students to multiple readings of canonical and non-canonical texts as examples of literary periods in American literature. Students are expected to employ literary analysis, an

understanding of historical and social context, and some literary criticism to discuss questions of American identities and the definition of “American literature.”

ENG 330 **3 hours**
Word Origins

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. A study of the origins of key words and phrases from our classical heritage, focusing on their use in contemporary social and professional contexts. Research paper required.

ENG 339 **3 hours**
Film and Literature

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. A study of the relationship between original, classic works of fiction and the film adaptations of these works. The course examines aspects of the film-making process and requires several critical papers.

ENG 341 **3 hours**
Adolescent Literature

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. This course will introduce students to quality adolescent fiction, enhance skills in literary analysis, and address pedagogical issues relating to choosing and teaching these works.

ENG 355 **3 hours**
Literature of the South

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. A survey of 20th and 21st century writers of the United States South and Southern literature with emphasis on such writers as Faulkner, O’Connor, and Welty.

ENG 361 **3 hours**
Advanced Grammar and Syntax

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. This course provides an in-depth study of all aspects of traditional English grammar with the ultimate aim of developing a deeper understanding of English sentence structure. The course also offers a detailed examination of generative transformational grammar and phrase structure grammar, two of the most important modern approaches to grammatical analysis. The course provides a brief introduction to other grammar systems as well.

ENG 401 **3 hours**
Comparative Mythology

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. A study of the major mythological traditions of the East and West, with consideration given to origins and purposes of myths; their propagation and dissemination; and recurring themes, motifs, and character types in a variety of cultural contexts.

ENG 412 **3 hours**
British Literature Survey I

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. A survey of major authors, works, themes, and movements from the Anglo-Saxon period through the mid-19th century. The course typically examines such authors as the Beowulf poet, Chaucer, Shakespeare, Milton, Dryden, Pope, and Johnson.

ENG 414 **3 hours**
British Literature Survey II

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. A survey of the literary forms, ideas, and themes revealed in British literature from the Romantic period through the early twentieth century.

ENG 425 **3 hours**
Shakespeare

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. This course exposes students to major works of Shakespeare and develops students’ ability to interpret the texts through literary analysis and through application of concepts of drama and film.

ENG 470 **3 hours**
African American Literature

This course will be a comprehensive study of the origins, development, major texts, and legacies of the African American literary tradition. Students will survey the various genres of the literature--slave narratives, folktales, poetry, drama, and the novel, while examining works in their historical, social, religious, and philosophical contexts. Students will also discuss American history, sociology, and politics to understand the forces that have influenced African American literature, and to discover the role that the African American writer serves in the African American community.

ENG 490 **3 hours**
Special Topics in English

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. Special topics courses offer the student opportunities to explore selected topics of interest in the discipline.

ENG 601 **3 hours****Cultural Contexts of World Mythology**

The course is a study of the intersection of mythology and culture. It considers the role of expression and imagination in a culture's underlying myths as well as their impact, influence, and significance. The course also examines the central place of archetypes in mythology and their continued importance and influence.

ENG 602 **3 hours****Article and Personal Essay Writing**

This course is designed for graduate students interested in writing nonfiction prose, specifically, the personal essay. The course is designed to help students improve writing through discussions of written work in a group workshop setting as well as discussions of published essays from the textbooks. The course will also emphasize understanding the genre of nonfiction from various perspectives of cultural, historical and critical theory.

ENG 603 **3 hours****Rhetorical Theory and the Craft of Argument**

Classical and contemporary concepts of rhetorical theory are examined. Students will employ theoretical perspectives and diverse rhetorical strategies to analyze diverse written arguments and to craft sophisticated arguments. Through the theoretical framework, students examine philosophical and cultural positions and the potential as well as the limits of persuasion itself.

ENG 604 **3 hours****Poetry (Genre Study)**

This course is designed to provide the fundamental concepts and techniques of literary interpretation, focusing on poetry as a genre: the nature of poetic language and the methods of analyzing figurative discourse, genre, and structure.

ENG 611 **3 hours****American National Literature**

The development of the American novel in the decades following the Civil War as the nation reconstructed and redefined itself as an American empire through western expansion, colonization in the Pacific, European immigration, and progressive era reforms.

ENG 612 **3 hours****Tradition and Innovation in Early British Literature**

This course investigates how prominent English writers from Anglo-Saxon times through the

eighteenth century simultaneously adhered to the canonical traditions of their craft and employed innovative concepts to produce ground-breaking and ultimately enduring works of literature.

ENG 613 **3 hours****Race, Gender, and Culture in Modern American Literature**

Students are expected to engage deeply in literary critical theory that explores concepts of "national literature" and "American literature," while appreciating and critiquing the major movements, authors inclusion in and exclusion from the canon, and the diversity of literary techniques and genres.

ENG 625 **3 hours****Studies in Shakespeare**

Students read drama contemporaneous with Shakespeare's plays to broaden their understanding of the genre in historical context, to contrast Shakespeare's poetic and dramatic techniques with his contemporaries, and to understand the dramatic capacity of his plays. A range of literary critical texts will be used for analysis.

ENG 655 **3 hours****Literature of the Global South**

This course places the modern literature of the South within the context of modern literature in Central and South America. The course emphasizes cross-cultural influences as the writers of Latin America were influenced by and influenced Southern writers. The emphasis in the course will be on critical literary theory and scholarly research. In addition to surveying the major genres of the modernist traditions in both the literature of the U.S. South and Latin America, students will gain familiarity with the most common theoretical approaches to the literature including theories of race and gender identity. The course will also introduce students to the historical and cultural events that shaped these cross-cultural literary traditions. Student will learn and practice methods of scholarly research in order to develop an awareness of the major trends in the field of literature of the Southern Americas.

ENG 670 **3 hours****African American Literary Theory and Research**

This course examines the African American literary tradition with an emphasis on critical literary theory and scholarly research. In addition to surveying the major genres of the tradition, students will gain familiarity with the most common theoretical approaches to the literature including theories of race

and gender identity. The course will examine the historical and cultural events that shaped the tradition such as the Harlem Renaissance and the Black Diaspora. Students will learn and practice methods of scholarly research in order to develop an awareness of the major trends in the field of African American literary studies.

ESL—English as a Second Language

ESL 120 **1-4 hours**

English as a Second Language Seminar

This course affords students practice in intermediate to high level listening, speaking, and reading skills, with an emphasis on vocabulary and grammar acquisition in context, on a variety of personal, professional, academic and/or cultural topics. In particular, this course will reinforce skills learned in language specific courses, giving students opportunity to generalize their newly acquired skills.

FLM—Film

FLM 210 **3 hours**

Introduction to Film

Prerequisite: ENG 102. This course introduces film form and aesthetics, utilizes the basic technical and critical vocabulary of motion pictures, and explores the cultural history of American film through a variety of genres. This course can be used to fulfill a CORE curriculum Humanities requirement.

FLM 400 **3 hours**

Methods and Materials of Film Making I

ART 380 is strongly recommended as pre- or co-requisite. This course is an introduction to and exploration of the film editing process utilizing Final Cut Pro. This course is designed to develop skills in the acquisition and creation of digital media.

FLM 410 **3 hours**

Methods and Materials of Film Making II

Prerequisite: FLM 400. ART 380 is strongly recommended as a pre- or co-requisite. This course is an introduction to and exploration of 2D and 3D motion graphics and special effects utilizing Motion 4 and DVD design, authoring, and mastering using DVD Studio Pro. This course is designed to develop skills in the creation and generation of digital media.

FLM 450 **3 hours**

Film Making

This is a project-oriented class developing camera techniques and utilizing Final Cut Pro, Motion, and DVD Studio Pro applications to produce short film

projects and TU Takes. This course may be repeated for credit.

FLM 490 **1-3 hours**

Special topics in Film

The exploration of a unique area or aspect of films and/or film making.

FRN—French

FRN 101, 102 **3 hours**

Elementary French I, II

Prerequisite for FRN 101: "C" or better in ENG 101 or consent of the instructor. Prerequisite for FRN 102: "C" or better in FRN 101 or consent of instructor. An introduction to, and the development of, the fundamentals of French grammar and composition, including reading, writing, speaking, and listening.

GEO—Geography

GEO 201 **3 hours**

Introduction to Geography

Geography is the study of spatial distributions of peoples, cultures, places and environments across the face of the Earth, with a focus on the similarities and differences between those distributions. It includes relationships between different peoples from the local to the global scale while examining both cultural and natural factors, and it explores features of the natural environment as a background to explain human-environmental interactions. To achieve this, we will investigate four geographic traditions: the Earth Science Tradition, the Culture-Environment Tradition, the Location Tradition, and the Area Analysis Tradition.

GEO 302 **4 hours**

Geographic Information Systems Applications I - Methods

This is an introductory course in the fundamental concepts and applications of Geographic Information Systems (GIS). The course introduces the core components and functionality of ArcGIS software, and explores the essential tools and techniques for creating, visualizing, working with and managing geographic spatial data. The course provides students with experience collecting real-world data in the field using Global Positioning System (GPS) technology, and to incorporate this data into a GIS mapping project.

GEO 303 **4 hours**
Geographic Information Systems Applications II - Analysis

Prerequisite: GEO 302 with a "C" or better. An in-depth intermediate course in geospatial analysis that builds on the concepts and techniques learned in GEO302. This course will cover more complex aspects of GIS including Geoprocessing, Georeferencing, Raster Analysis, Spatial Analysis, Geodatabases, and Cross-platform GIS. The course will expose students to a variety of GIS tools, data formats and sources of data. Students will use knowledge gained to solve challenge problems, as well as to analyze, manage and present real world data collected in the field.

GEO 410 **4 hours**
Geographic Information Systems: Conservation

Prerequisite: GEO 302 and GEO 303. This is an advanced course that applies geospatial problem solving techniques to natural and cultural resource management issues using GIS as a decision support tool to enhance conservation planning solutions. The course will address issues related to conservation GIS development (e.g., articulation of management objectives, user needs assessment, and GIS partnership development) as well as those related to GIS project design (project planning, data acquisition, development, and documentation, and project implementation). The course will focus on the development, execution and presentation of a final Conservation GIS project. A key goal of the final project is to provide the student with a portfolio piece.

GEO 495 **1-4 hours**
Geography Internship

This course provides students with hands-on working experience using GIS technology. Students will complete a minimum 30 hours per credit hour throughout the semester in the internship environment. Up to four hours of credit are given for each semester.

GLY—Geology

GLY 125 **4 hours**
Physical Geology

A survey of the fundamentals of physical geology; characteristics and origins of rocks and minerals; mechanisms and processes of volcanism, plutonism, metamorphism, weathering, erosion, sedimentation, and lithification; evolution of landforms, and plate tectonics. This course includes a laboratory component.

GLY 226 **4 hours**

Historical Geology

A study of the methods and concepts by which earth history is interpreted, including the geologic time scale; interactions of physical, chemical, and biological processes through time, origin of life; evolution and distribution of plants and animals; the geologic time scale, and the geologic history of North America. This course includes a laboratory component.

HIS—History

HIS 101 **3 hours**
History of Western Civilization I

A survey of Western civilization involving man's struggles and achievements from earliest times until the end of the seventeenth century.

HIS 102 **3 hours**
History of Western Civilization II

A survey of Western civilization from the seventeenth century until the present day, including an overview of the growing interaction between the East and West.

HIS 201 **3 hours**
United States History and Government I

ENG 101 preferred. A study of the important events, movements, and people of the United States covering the colonization of America through the election of Abraham Lincoln. Heavy emphasis is placed on the development of the political system in Georgia and the United States.

HIS 202 **3 hours**
United States History and Government II

ENG 101 preferred. A study of the important events, movements, and people of the United States covering the period from Abraham Lincoln's election to the end of WWII. Heavy emphasis is placed on the development of the political system in Georgia and the United States.

HIS 203 **3 hours**
United States History and Government III

ENG 101 preferred. A study of the important events, movements, and people of the United States covering the period from the end of WWII through present. Heavy emphasis is placed on the development of the political system in Georgia and the United States.

HIS 210 Overview of American Politics ENG 101 preferred. A basic course in understanding American Politics. The course will cover the history of American Political parties, the origins of government, and the definitions of a federal form of government.	1 hour
HIS 211 Congress ENG 101 preferred. An introductory course in understanding the American Congress. The course will cover the major responsibilities of Congress, the leadership of Congress and how a bill becomes a law.	1 hour
HIS 212 Presidency ENG 101 preferred. An introductory course in understanding powers of the President, the Electoral College, and advisors to the President.	1 hour
HIS 213 The Federal Court System ENG 101 preferred. An introductory course in understanding the Federal Court system, the function of the Supreme Court, members of the Supreme Court, how the Supreme Court has become so powerful major court cases, and why appointing a Supreme Court justice is one of the most important roles a President has for the country.	1 hour
HIS 214 Notable Documents and Amendments in American History Prerequisite: ENG 101 preferred. This course analyzes important documents from American history that have had a deep impact on American history and American lives. These will include The Declaration of Independence, The Preamble to the Constitution, The Emancipation Proclamation, The Gettysburg Address, and the Amendments to the Constitution.	1 hour
HIS 215 Who and What Impacts Political Decisions and Elections ENG 101 preferred. This course analyzes the role of individuals and groups in the election process including: Political Action Groups, Organized Labor, Lobbyists, Political Parties, and the Media.	1 hour
HIS 304 20th Century America Prerequisites: HIS 201, and HIS 202. A study of the political, economic, and social growth of the United	3 hours

States and its changing role in world affairs from 1898 to the present.

HIS 314 History of Contemporary Europe Prerequisite: HIS 102. An intense study of the political, economic, and social issues of the major European countries since World War I. Special emphasis will focus on: the decline of the preeminent position of Europe in world affairs, the challenge of European cooperation for survival, and the role of Europe during and after the Cold War.	3 hours
--	----------------

HIS 321 Contemporary Latin America Prerequisite: HIS 102. An intense study of the political, economic, and social issues of the major Latin American countries since World War I. Special emphasis will be on the Pan American system, Latin American revolutions, and the role of Latin America during and after the Cold War.	3 hours
---	----------------

HIS 361 Special Topics in History Prerequisite: Junior Standing. Special topics courses offer the student opportunities to explore selected topics of interest in the discipline. Variable credit. May be repeated for a maximum of six (6) hours.	3 hours
--	----------------

HIS 404 A Critical Decade in U.S. History: The 1960's Prerequisite: HIS 202, and HIS 102 or consent of the instructor. An intense study of the decade of the 1960's when Americans were forced to examine themselves, their traditions, and their institutions. Special emphasis will focus on the Civil Rights movement, the Vietnam conflict, and the counter culture revolution.	3 hours
---	----------------

HIS 421 History of the Middle East Prerequisite: HIS 102. A study of the importance of this region in the ancient world, the development of Islam, the importance of oil during the age of imperialism, the conflict of religions and the establishment of Israel, modern religious warfare, and the emergence of terror as a major force in the region.	3 hours
--	----------------

HIS 434 African Nationalism An intense study of the major developments in the African nations primarily since the 20th century. An introduction to the continent of Africa will include its importance in the ancient world and the impact of	3 hours
---	----------------

imperialism during the 1800's. The focus will then shift to the 1900's and the emergence of Africa in a modern world.

HIS 444 **3 hours**
Contemporary Asia

Prerequisite: HIS 102. A study of the major developments in the Contemporary Asian History primarily since the 20th century. An introduction to the Asian Pacific region will include the importance of major historical events and human advances that have shaped modern Pacific Asia and its emergence from a fractured regional power to a global economic and military power.

HIS 451 **3 hours**
History of Georgia

Prerequisite: HIS 201 and HIS 202, or consent of the instructor. A survey of the political, economic, social, and cultural developments in Georgia from pre-colonization to the present. Special emphasis will focus on the founding of Georgia, Georgia's role in the American Revolution, Indian relocation, the Civil War, and post-World War II prosperity and problems.

HIS 499 **3 hours**
Senior Practicum

The student engages in a hands-on historical project for a museum, community group, or non-profit organization. Prerequisite: Junior/Senior standing.

HUM—Humanities

HUM 200 **3 hours**
Survey of Western and Non-Western Culture I

Prerequisite: ENG 102. This course introduces thoughts and values in art, literature, philosophy, and religion from the beginning of civilization through the time of the Roman Empire in the west and the civilizations of India and China in the east.

HUM 201 **3 hours**
Survey of Western and Non-Western Culture II

Prerequisite: ENG 102. This course introduces thoughts and values in art, literature, music, philosophy, and religion from the beginning of the Common Era through the Middle Ages.

HUM 202 **3 hours**
Survey of Western and Non-Western Culture III

Prerequisite: ENG 102. This course introduces thoughts and values in art, music, literature, philosophy, and religion from the Renaissance through the 1700s.

HUM 203 **3 hours**
Survey of Western and Non-Western Culture IV
Prerequisite: ENG 102. This course introduces thoughts and values in art, music, literature, philosophy, and film from the 1800s through the present.

HUM 204 **3 hours**
A Survey of the Art, Literature, and Religion of China
Prerequisite: ENG 102. This humanities course surveys the art, literature, and religion of China from pre-history to the twenty first century. Students enrolled in this course must complete all course work by the due dates indicated on the syllabus and must travel to China in order to receive credit for this course.

HUM 417 **3 hours**
Senior Thesis

Prerequisites: 2 IDS Core Classes. The course develops advanced skills in research, organization, synthesis, evaluation, and presentation. Students create an annotated bibliography, develop an in-depth paper or project, and give a presentation on a topic selected in consultation with the thesis advisor.

HUM 450 **3 hours**
Senior Humanities Seminar

This course reviews the major disciplines, themes, events, periods, works, and artists in the humanities from the ancient to the modern world.

HUM 490 **3 hours**
Special Topics in Humanities

Special topics courses offer the student opportunities to explore selected topics of interest in the discipline

HUM 498 **1-6 hours**
Liberal Studies Internship

This course will enable students to earn between one and six hours of credit through internships which provide them with professional experience in fields related to possible or anticipated areas of employment. Twenty-four hours of work in the internship setting will equate to one hour of credit. The supervisor(s) of the internship position will provide the overseeing faculty member with a final assessment of performance. During the internship, the student will maintain a journal which will document tasks, skills, responsibilities, and insights on the job and the student will create and compile evidence of professional learning and accomplishments. The internship and its specific outcomes must be approved by the Division Chair. These internships may be paid or unpaid and may be completed in a number of areas,

such as communications, technology, writing, management, research, or teaching. Internship experiences must be outside of the student's current place of employment or be constituted of work and assignments outside of his/her normal scope of work assignments.

IDS—Interdisciplinary Studies

IDS 417 **3 hours**

Senior Thesis

Prerequisites: 2 IDS Core Classes. Students create an annotated bibliography, develop an in-depth paper or project, and give a presentation on a topic selected in consultation with the thesis advisor. The course develops advanced skills in research, organization, synthesis, evaluation, and presentation.

MBA—Master in Business Administration

Entrance prerequisites: BUS 200, BUS 210, BUS 320 and MTH 250. Some students may begin selected graduate courses while completing prerequisites.

MBA 507 **1 hour**

Scholarly Writing

This course expands the students' composition and investigative skills to prepare to write scholarly papers using reasoned claims, scholarly resources, correct APA documentation, and a professional writing style.

MBA 600 **3 hours**

Applied Economics

Prerequisite: BUS 210. A course on economics for managers. Covered will be both macro and micro perspectives on resources and labor costing, influence of governments and consumers on the performance of the firm, and the analysis of economic trends.

MBA 601 **3 hours**

Organizational Behavior

The purpose of this course is to provide a conceptual framework for studying and understanding behavioral management concepts. Theories and empirical research studies designed to aid in understanding human behavior as it relates to the field of business management will be examined.

MBA 611 **3 hours**

Tax II: Federal Income Tax

Prerequisite: Bachelor's degree in Accounting. A study of the US federal tax laws as they impact organizations. Topics include corporate, partnership, estate and gift taxation, and the taxation of trusts.

MBA 612 **3 hours**

Advanced Audit

Prerequisite: Bachelor's degree in Accounting. Special emphasis is put on audit sampling, reports on audited financial statements and other public accounting services, information systems, auditing, and fraud.

MBA 614 **3 hours**

Accounting and Decision Making

Prerequisites: BUS 200 A case-based analysis of financial and managerial accounting information and reports.

MBA 615 **3 hours**

Management Information Systems

This course examines how information technology enables organizations to conduct business in radically different and more effective ways. The course will address systems concepts, information management, and decision making, as well as the use of specific MIS programs and new applications of information technology in the modern corporation.

MBA 619 **3 hours**

Business Law

This course examines the laws and regulations governing the operation of businesses in the United States. Particular emphasis will be placed on current legal issues facing American corporations operating overseas and domestically, including contracts, liabilities, physical and intellectual properties, risk and insurance, and technology transfer. Special focus will be placed on business ethics.

MBA 620 **3 hours**

International Business

A study providing a comparative analysis of international business competitiveness and management. Special topics to be covered in the course will include joint ventures, mechanics of trade, and cultural influences on trade and negotiations.

MBA 632 **3 hours**

Human Resource Management

Prerequisite MBA 601. The purpose of this course is to provide a broad overview of the activities required for effective human resource management. In today's

rapidly changing environment the organizations that can recruit, train, and retain the best people will be better able to compete and survive. Major topic areas will include: workforce planning, staffing, training, compensation, labor-management relations as well as health and safety issues.

MBA 645 **3 hours**
Financial Management

Prerequisite: BUS 320. A case study approach applying economic and financial theory to specific business problems. Advanced topics in capital budgeting, dividend policy, and capital costs will be covered.

MBA 646 **3 hours**
Finance and Accounting for Government and Non-Profit Organizations

Prerequisites BUS 200 and BUS 320. This course introduces the student to the theory of accounting, auditing and financial management for government and not-for-profit entities. Special emphasis will be given to public account groups, budgetary accounting, financing capital projects funds and debt service funds, and government and not-for-profit reporting.

MBA 650 **3 hours**
Research and Statistics

This course concentrates on statistical analysis for managers, covering both descriptive and inferential analysis of data, as well as statistical reference techniques. The course covers common research tools and techniques, including qualitative and quantitative methodologies for addressing research problems in business.

MBA 662 **3 hours**
Leadership

This course provides a framework for examining and understanding the concept of leadership within organizational environments. Emphasis will be placed on exploring the relationships among the following variables; leaders, followers, and the situation. Further emphasis will be placed on translating theory into practice.

MBA 663 **3 hours**
Operations Management and Technology

A study of design, analysis, and control of transformation processes in the allocation and use of physical resources to produce goods and services. Advanced techniques of inventory planning, logistics, queuing theory, and total quality management will be covered.

MBA 669 **3 hours**
Training and Development

Prerequisite: MBA 601. This course presents an overview of training techniques and delivery approaches using an open systems perspective. The content focuses on how training fits into the strategy and structure of both large and small companies.

MBA 673 **3 hours**
Current Issues in Human Resource Management

The purpose of this course is to research and discuss current concepts in the area of Human Resource Management. Due to the changing economic, political, and regulatory environment, Human Resource professionals are under continuing pressure to remain current in their field. Students will read, abstract, report and discuss current Human Resource articles.

MBA 675 **3 hours**
Marketing Management

A case study course which emphasizes development of the strategic positioning of the firm and its brands, product lines, products and services within its competitive and legal environment. Coverage includes advance concepts of marketing research, product development, placement and distribution, pricing and promotion.

MBA 690 **3 hours**
Business Strategy and Policy

Prerequisite: Completion of all previous MBA courses or permission of the instructor. This is a capstone course designed to teach a Strategic Management Process and its application within operating organizations. Through a case study format, students will analyze an organization's external and internal environment, recommend a strategy for the company's successful competition within their industry, and specific changes necessary to implement the new strategy. Emphasis will be placed on team work and the ability to share knowledge in order to recommend group solutions.

MGE—Middle Grades Education

MGE 326 **3 hours**
Field Experience I: Nature and Needs of Middle Grades Students

Interview and full admittance required during this Field. Co-requisite: Professional Preparation Core I. Teacher candidates participate in a weekly seminar. They will spend 50 hours observing, assisting and teaching in fourth or fifth grade classrooms examining the physical, emotional, social and intellectual

development of middle grades students. Fee for background check is required

MGE 327 **3 hours**
Methods and Strategies for Teaching Early Adolescent Learners

Prerequisite: EDU 316 and EDU 350. Co-requisite: EDU 340 and ECE 460. This course focuses on research-based effective teaching methods and strategies for teaching early adolescence learners, with attention provided to the characteristics of diverse and exceptional learners in the classroom and assessment of student learning. This course requires a field placement in a 4th-8th grade setting, depending on major.

MGE 428 **3 hours**
Developing Pedagogical Content Knowledge for Teaching Middle Grade Learners

Prerequisite: EDU 327, EDU 340, and EDU 460. Co-requisite: EDU 468. The focus of this course is to examine research-based pedagogical content knowledge that engages middle grades students in active learning that results in student's acquisition of essential knowledge and skills. This course requires a field placement in a middle school setting, beginning with the first day of the assigned school district calendar, for three days a week until the end of the semester.

MGE 429 **10 hours**
Student Teaching

Prerequisite: All program courses in Professional Core I, II, and III, and satisfactory score on Disposition Assessment. Co-requisite: MGE 430. The purpose of this course is to provide full immersion in the school community in order to further develop and demonstrate competence in the professional role as a middle grades teacher. This course requires full-time participation in a middle school for 15 weeks.

MGE 430 **2 hours**
Student Teaching Seminar

Prerequisite: All program courses in Professional Core I, II, and III, and satisfactory score on Disposition Assessment. Co-requisite: MGE 429. The purpose of this seminar is to examine the knowledge, skills, and dispositions essential to the positive career path of the middle grades teacher, from teacher candidate to early career professional.

MLS—Medical Laboratory Science

MLS 301 **3 hours**
Medical Laboratory Methods

Introduces students to the terms, concepts, procedures, and equipment used in a professional laboratory. Topics include: professional ethics and regulatory agencies; basic laboratory safety, equipment, and techniques; phlebotomy/specimen processing; quality control concepts; laboratory math; documentation; point of care testing, basic instrumentation, automation, and computerization in the laboratory. Practical experience in phlebotomy will be provided in the institution laboratory and/or the clinical setting.

MLS 321 **4 hours**
Clinical Microbiology I

Lectures and laboratory experiences emphasize current medical laboratory procedures for the safe collection, culture, staining, identification and control of microorganisms routinely encountered in a medical setting. This course includes a survey of organisms encountered in a medical laboratory setting and includes sterilization and disinfection techniques.

MLS 331 **4 hours**
Clinical Hematology & Coagulation I

Introduces the fundamental theory and techniques applicable to hematology and coagulation practice in the medical laboratory. Topics include: reticuloendothelial system and blood count formation, complete blood count and differential, related blood tests, correlation of test results to disease states, coagulation and fibrinolysis, instrumentation, critical values and blood cell dyscrasias, safety and quality control.

MLS 341 **4 hours**
Clinical Immunohematology I

Provides an in-depth study of immunohematology principles and practices as applicable to medical laboratory science. Topics include: genetic theory and clinical applications, immunology, donor unit collection, pre-transfusion testing, management of disease states and transfusion reactions, safety and quality control.

MLS 351 **4 hours**
Clinical Chemistry I

Prerequisites: Minimum of a "C" in the following courses: CHM 101, CHM 102, and CHM 107. Develops concepts and techniques of clinical chemistry applicable to medical laboratory science. Topics include: carbohydrates, electrolytes and acid-base

balance, nitrogenous compounds, enzymes and endocrinology, liver functions, lipids, toxicology and therapeutic drug monitoring, safety and quality control.

MLS 385/BIO 385 **3 hours**
Parasitology, Mycology, and Virology

The disease mechanisms of blood, tissue and intestinal parasites will be studied with emphasis on general mechanisms of parasitic infections. The increasing importance of fungal infections will also be discussed, as well as infections contracted through viruses.

MLS 400 **3 hours**
Internship I

Structured clinical laboratory experience in urinalysis, serology, and phlebotomy.

MLS 401 **5 hours**
Internship II

Structured clinical laboratory experience in clinical, hematology and chemistry.

MLS 402 **5 hours**
Internship III

Structured clinical laboratory experience in microbiology and immunohematology.

MLS 411 **2 hours**
Urinalysis & Body Fluids

This course provides students with an opportunity for in-depth application and reinforcement of urinalysis and techniques. It allows the student to become involved in laboratory principles and procedures at a clinical laboratory scientist level. Topics include: basic and specialized urinalysis tests, techniques, blood and correlation of test results to disease states, safety and quality control, instrumentation methods and management issues.

MLS 412 **2 hours**
Urinalysis & Body Fluids with Lab

This course provides students with an opportunity for in-depth application and reinforcement of urinalysis principles and techniques. It allows the student to become involved in laboratory principles and procedures at a clinical laboratory scientists level. Topics include: basic and specialized urinalysis tests, body fluid analysis, techniques, blood, correlation of test results to disease states, safety and quality control, instrumentation methods and management issues.

MLS 414 **4 hour**
Immunology and Molecular Diagnostics

This course provides students with an opportunity for in-depth application and reinforcement of immunology and molecular biology principles and techniques. It allows the student to become involved in laboratory principles and procedures at a clinical laboratory scientist level. Topics include: basic and specialized serological tests and techniques, blood and specimen processing, correlation of test results to disease states, PCR and DNA molecular methodologies; safety and quality control, instrumentation methods and management issues.

MLS 421 **4 hours**
Clinical Microbiology II

Prerequisite: Associate Degree from a NAACLS accredited MLT/CLT program or MLS 321. The didactic portion of the course provides a review of basic microbiology principles. Microbial physiology and the interactions between the host and pathogenic microorganisms, clinical and epidemiological consequences of these interactions, and molecular diagnostic testing are also covered. Clinical rotations are scheduled following the didactic portion of the course allowing for in-depth understanding, application and reinforcement of clinical microbiology principles and techniques to include management of a microbiology lab.

MLS 431 **4 hours**
Clinical Hematology & Coagulation II

Prerequisite: Associate Degree from a NAACLS accredited MLT/CLT program or MLS 331. An opportunity for in-depth understanding, application and reinforcement of hematology/coagulation principles and techniques is provided. Supervised experience will allow the student to become involved in laboratory principles and procedures at a medical technologist level requiring critical thinking and troubleshooting methods. Topics include: complete blood counts and differentials, routine and special blood tests, evaluation of data for acceptability; calibration and instrument to instrument comparisons; coagulation to disease states and critical levels; recording and evaluating accuracy, safety, and quality control, and management issues.

MLS 441 **4 hour**
Clinical Immunohematology II

Prerequisite: Associate Degree from a NAACLS accredited MLT/CLT program or MLS 341. This course provides an opportunity for in-depth application and reinforcement of immunohematology principles and

techniques in a medical laboratory job setting. Case study applications allow the student to become involved in laboratory principles and procedures at a medical technologist level requiring concentration, practice, and follow through. Topics include: specimen processing, tube/gel serological techniques, component therapy practices, transfusion complications, inventory control, management of disease states, inventory control, records and reagent quality control, equipment and safety, and regulatory accrediting agency standards.

MLS 450 **4 hours**
Clinical Chemistry II

Prerequisite: Associate Degree from a NAACLS accredited MLT/CLT program or MLS 351. This course provides students with an opportunity for in-depth application and reinforcement of chemistry principles and techniques in a medical laboratory job setting. Topics include carbohydrates, electrolytes and acid-base balance, nitrogenous compounds, enzymes and endocrinology, liver functions, lipids, therapeutic drugs and toxicology, automated chemistry - routine and stat, immunoassay, special chemistry tests, molecular diagnostics, recording accuracy, safety, and quality control.

MLS 452 **3 hours**
Research Methods & Project

Prerequisite: MTH 250. The purpose of this course is to introduce students to basic research methods in the Medical Laboratory Science field, including familiarization with both quantitative and qualitative methods. Students will be introduced to topics on how to write a research proposal, and how to analyze quantitative and qualitative results. Students will observe the ten principals of research and conduct a small scale research project as a thesis/culminating project within the disciplines of the medical laboratory science field.

MLS 460 **3 hours**
Senior Seminar

Prerequisite: Associate Degree from a NAACLS accredited MLT/CLT Program or a passing grade of "C" or better in the following courses: MLS 385, MLS 411, MLS 414, MLS 421, MLS 431, MLS 441, and MLS 450. This course provides an in-depth analysis of various case studies from the broad spectrum of disciplines within the Medical Laboratory Science field. Real life scenarios are presented that not only correlate with disease states, but also serve as problem-solving and critical thinking exercises. Emphasis is also placed on reviewing educational material appropriate to the

field so as to better prepare for sitting for the national certification examinations required for licensure and clinical practice. A mock registry national examination will also be given.

MLS 470 **3 hour**
Laboratory Management and Supervision

Prerequisite: Associate Degree from a NAACLS accredited MLT/CLT Program. An overview of the management and supervision of the medical technology profession is provided including the accreditation, licensure and certifying procedures. Management styles, motivational techniques, communication skills, leadership, human resource management, financial planning, laboratory information systems, educational methodologies, and professional responsibility are included in this course.

MLS 490 **1-4 hour**
Directed Readings

Prerequisite: MLS major or permission of the instructor. The course will enable the student to research and explore technical literature on a topic pertaining to Medical Laboratory Science, and trends within the disciplines that comprise the field. In conjunction with the professor, the student will develop a reading list to include current trends, issues, and historical literature on their chosen topic that will support future education or career objectives. The student will develop an action plan and communicate with their instructor based on the instructor's guidelines.

MLS 495 **4 hours**
Advanced Clinical Practicum

Supervised clinical rotations for urinalysis; immunology; immunohematology; hematology; chemistry; microbiology; body fluids, and coagulation.

MTH—Mathematics

*Only one of the following can be used to fulfill the Core Math requirement: MTH 120, MTH 140, MTH 150 or MTH 270.

MTH 090 **1 hour**
Student Success in Beginning Algebra Lab

Co-requisite: MTH 092 or MTH 094. This lab course is a supplement to developmental math courses, MTH 092 and MTH 094, designed to support students taking a developmental math course concurrently. The course content will focus on developing mathematical maturity through conceptual understanding and improving foundational skills. An emphasis is placed on problems-solving strategies and study habits that

enhance concept development, self-reflection, and taking personal responsibility for success in MTH 092 or MTH 094.

MTH 092 **1 hour**
Applications in Beginning Algebra

Co-requisite: MTH 090. This course is required for students scoring 25 or below on the COMPASS Algebra exam, and is recommended for any student wanting to strengthen their math knowledge and skills. This course emphasizes first degree linear equations and inequalities, operations on polynomials and radicals, factoring, and graphing. The goal of MTH 092 is the development of basic mathematics and algebra skills that will prepare students for Mathematical Modeling (MTH 120).

MTH 094 **1 hour**
Beginning Algebra

Co-requisite: MTH 090. This course is for students scoring 42 or below on the COMPASS Algebra exam, and is recommended for any student wanting to strengthen their math knowledge and skills. This course emphasizes operation on polynomials, radicals, and functions; first degree linear equations and inequalities, quadratic equations, and systems of equations. The goal of MTH 094 is the development of basic mathematics and algebra skills that will prepare students for College Algebra (MTH140).

MTH 102 **1 hour**
Student Success in Algebraic Modeling

This course is a supplement to MTH 120, designed to support students taking MTH 120 concurrently. The course content will focus on developing mathematical maturity through conceptual understanding and improving foundational skills. An emphasis is placed on problem-solving strategies and study habits that enhance concept development, self-reflection, and taking personal responsibility for success in MTH 120.

MTH 104 **1 hour**
Student Success in College Algebra

This course is a supplement to MTH 140, designed to support students taking MTH 140 concurrently. The course content will focus on developing mathematical maturity through conceptual understanding and improving foundational skills. An emphasis is placed on problem-solving strategies and study habits that enhance concept development, self-reflection, and taking personal responsibility for success in MTH 140.

MTH 120 **3 hours**
Mathematical Modeling

Prerequisite: MTH 092 or MTH 094 with a "C" or better or appropriate placement score. A survey of algebra based mathematics including elementary algebra, basic probability, statistics, and financial mathematics with an emphasis on application. A final grade of "C" or better in this course is required to satisfy the Core requirement.

MTH 140 **3 hours**
College Algebra

Prerequisite: MTH 094 with a "C" or better or appropriate placement score. This course focuses on the study of linear, quadratic, exponential, polynomials, and logarithmic functions, inequalities, and their applications. Also, a study of rational and piecewise defined functions, their graphs and applications. TI 83 graphing calculator required.

MTH 150 **3 hours**
Pre-Calculus

Prerequisite: College Prep High School Algebra or appropriate placement score or consent of the instructor. A grade of "C" or better required to satisfy core requirement. This course is a study of applications of inverse, exponential, and logarithmic functions, and a study of the general concepts of trigonometry. TI 83 graphing calculator required.

MTH 170 **3 hours**
Concepts of Mathematics: Number Concepts

Prerequisite: "C" or better in MTH 120 or MTH 140. This course emphasizes a study of problem solving, examination, application, and critical thinking involving selected topics in number theory: numbers & operation, real numbers, and geometry. This course is designed for prospective early childhood education majors or as general elective.

MTH 210 **3 hours**
Trigonometry

Prerequisite: "C" or better in MTH 140 or MTH 150. A study of circular and trigonometric functions, analytic trigonometry, vectors, complex numbers, binomial theorem, and a review of geometry. TI 82/83 graphics calculator required.

MTH 250 **3 hours**
Introduction to Statistics
 Formerly STA 250. Prerequisite: MTH 120 or MTH 140 or higher with a “C” or better. This course focuses on the study of descriptive and inferential statistics, statistical techniques including measures of central tendency, dispersion, probability, sampling, elementary significance tests, confidence intervals, correlation, regression, and ANOVA.

MTH 270 **3 hours**
Calculus I: Differentiation
 Prerequisite: “C” or better in MTH 150 or MTH 140 and MTH 210. This course focuses on the study of introductory calculus including limits, continuity, derivatives of polynomial, rational, trigonometric, exponential and logarithmic functions and their applications, maximum/minimum problems and curve sketching. TI 83 graphing calculator required.

MTH 280 **3 hours**
Calculus II: Integration
 Prerequisite: “C” or better in MTH 270. This course is a study of anti-differentiation, definite integrals of algebraic and trigonometric functions; also, a study of the fundamental theorems of calculus, integration by substitution, integration by parts, and applications. TI 83 graphing calculator required.

MTH 320/671 **3 hours**
Introduction to Applied Linear Algebra
 Prerequisite: “C” or better in MTH 150 or MTH 210. This course focuses on the study of linear systems, matrix algebra, determinants, stochastic matrices, vector spaces, and linear transformations. Proof will be utilized in the course, but the primary focus is applications. TI 83 graphing calculator required.

MTH 340/670 **3 hours**
Set Theory
 Prerequisite: “C” or better in MTH 150 Pre-Calculus or MTH 210 Trigonometry. This course includes the study of axioms and theorems for set operations and properties, relations, functions, cardinal numbers, ordered sets, ordinal numbers, and axioms of choice.

MTH 350/672 **3 hours**
Introduction to Probability Theory
 Prerequisite: “C” or better in MTH 150 or MTH 210. The course is an introductory study of probability and probability distributions.
 Also, a study of counting techniques, random variables, and important probability distributions. TI 83 graphing calculator required.

MTH 360 **3 hours**
Geometry
 Prerequisite: “C” or better in MTH 150 or MTH 210. This course offers an introductory study of in problem solving in geometry, Euclidean geometry, classic geometric constructions, proofs (and justifications), coordinate geometry, and Introductory non-Euclidean geometry. TI 83 graphing calculator required.

MTH 370/677 **3 hours**
Discrete Mathematics
 Prerequisite: “C” or better in MTH 150 or MTH 210. This course focuses on the study of logic, introduction to mathematical proof, principle of mathematical induction, a survey of graph theory, and tree and directed graphs.

MTH 374/674 **3 hours**
Developing Algebraic Concepts
 Prerequisites: “C” or better in MTH 150 or MTH 210. This course includes a study of algebraic properties, and pattern recognition of arithmetic and geometric sequences. Also a study of algebraic expressions, equations, variation, functions and relations, linear functions, systems of equations, and properties and operations of quadratic equations. TI 83 graphing calculator required.

MTH 375/675 **3 hours**
Developing Geometric Concepts
 Prerequisites: MTH 360 or MTH 270 or permission of instructor. This course includes a study of properties of plane and solid figures including constructions with compass, protractor, and polyhedra nets. Topics included will be symmetry, transformations, scale drawings, similarity, congruence, parallels, perpendiculars, the Pythagorean theorem, and coordinate geometry. Graduate students will be expected to complete projects or models that support concept development involved in selected topics.

MTH 410/673 **3 hours**
Number Theory
 Prerequisite: “C” or better in MTH 150 or MTH 210. This course includes a study of divisibility, prime numbers, numerical functions, congruence classes, linear Diophantine equations, and other selected theorems. Graduate students will do selected study of higher degree congruence classes, other Diophantine equations, and additional theorems related to the real numbers.

MTH 475 **3 hours**
Mathematics Problem Solving and Error Analysis
 Prerequisite: "C" or better MTH 150 Pre-Calculus or MTH 210 Trigonometry. This course provides a study of common difficulties in mathematics, and applications of strategies for corrective treatment. Also, included is a study of problem solving, analyzing, and predicting types of errors commonly made when solving problems. TI 83 graphing calculator required.

MTH 680 **3 hours**
Concepts & Applications of Number and Operations
 Prerequisites: MTH 270 and MTH 280 or permission of instructor. This course includes an overview of the conceptual development of number systems and their associated operations including ways of representing numbers, relationships among numbers, number systems, and meanings of operations and relationships among them.

MTH 685 **3 hours**
Concepts & Applications of Probability and Statistics
 Prerequisites: MTH 270 and MTH 280 or permission of instructor. This course includes an overview of the conceptual development of probability and statistics with emphasis on data analysis.

MTH 690 **3 hours**
Concepts and Applications in Calculus
 Prerequisites: MTH 270 and MTH 280 or permission of instructor. This course includes an overview of the conceptual development of differential and integral calculus with emphasis on limits, continuity, differentiation, and integration. Special emphasis will be placed on multiple representations of ideas, the use of technology, and problem solving in calculus.

MUS—Music

Note: All applied music courses require a music audition. See department chairperson.

MUS 201 **3 hours**
Introduction to Music
 Introduction to music through the study of musical elements, notation, basic keyboard skills, sight-singing and ear-training.

MUS 202 **3 hours**
Theory I
 Prerequisite: Music theory entrance exam with passing score or MUS 201. An introduction to the study of tonal music through analysis of harmonic, melodic, rhythmic, and structural elements.

MUS 203 **3 hours**
Theory II
 Prerequisite: MUS 202 with a grade of "C" or higher or permission of instructor. A continuation of MUS 202 with emphasis on part-writing.

MUS 231 and MUS 232 **3 hours**
Principal Applied Music
 Prerequisite: Audition by music faculty. Intensive, one-on-one instruction that develops beginning to intermediate skill in the applied music area. Meetings consist of weekly 50-minute lessons during the term, or an equivalent amount of time. A juried examination is required at the end of each semester during finals week to earn a passing grade, with the exception of students who present a recital during the semester. May be repeated for credit.

MUS 280 **1-3 hours**
Group Piano I for Non-Music Majors
 Introduction to the fundamentals of music and development of basic keyboard skills.

MUS 281 **1-3 hours**
Group Piano II for Non-Music Majors
 Prerequisite: MUS 280 or permission of instructor. Continuation of MUS 280.

MUS 282 and MUS 283 **1-3 hours**
Group Guitar
 An introduction to the fundamentals of music and development of basic guitar skills.

MUS 284 **1-3 hours**
Group Voice I for Non-Music Majors
 This course is designed to provide the non-voice major with a fundamental understanding of the principles and techniques involved in healthy vocal production, specifically as this relates to practice and performance.

MUS 285 **1-3 hours**
Group Voice II for Non-Music Majors
 This course is designed to provide the non-voice major with a fundamental understanding of the principles and techniques involved in healthy vocal production, specifically as this relates to practice and performance.

MUS 286 **1 hour**
Group Piano I
 Introduction to the fundamentals of music and development of basic keyboard skills. Emphasis on technical development, sight-reading, harmonization and transposition of melodies, improvisation, and ensemble playing.

MUS 287 **1-3 hours**
Group Piano II
 Prerequisite: MUS 286 with a grade of “C” or higher or permission of instructor. Continuation of MUS 286.

MUS 291 **1-3 hours**
Jazz Ensemble
 Rehearsal and performance of a wide variety of jazz styles and idioms. May be repeated for credit.

MUS 331 and MUS 332 **3 hours**
Principal Applied Music
 Prerequisite: MUS 231 and MUS 232, or placement by audition. Intensive, one-on-one instruction that develops intermediate to advanced skill in the primary instrument or applied area. Meetings consist of weekly 50-minute lessons during the term, or an equivalent amount of time. A juried examination is required at the end of each semester during finals week to earn a passing grade, with the exception of students who present a public recital during the semester.

MUS 337 **3 hours**
History of Jazz
 An overview of jazz musical styles and significant jazz musicians from 1900 to the present.

MUS 340 **3 hours**
World Music
 An introduction to the music and cultures of societies in Africa, the Near East, Asia, Indonesia, and other selected regions.

MUS 344 **3 hours**
Pop & Rock Music
 An overview of popular music styles and significant musicians and musical groups in the United States from 1900 to the present.

MUS 350 **3 hours**
Music and Multimedia
 A survey of computer music applications including recording and editing digital audio and MIDI, arranging and mixing, and scoring slideshows and movies.

MUS 390 **1-3 hours**
Community Chorus
 Study and performance of standard choral literature for SATB voices. Open to all students and community members who are high school seniors or older. Prior singing experience and permission of the director required. May be repeated for credit.

MUS 431 and MUS 432 **3 hours**
Principal Applied Music
 Prerequisite: MUS 331 and MUS 332, or placement by audition. Intensive, one-on-one instruction that develops intermediate to advanced skill in the primary instrument or applied area. Meetings consist of weekly 50-minute lessons during the term, or an equivalent amount of time. A juried examination is required at the end of each semester during finals week to earn a passing grade, with the exception of students who present a public recital during the semester. Students must present a public recital during the final semester at the senior level.

MUS 443 **0 hours**
Senior Recital
 Public applied music performance or special project related to area of emphasis.

NSG—Nursing

NSG 306 **6 hours**
Professional Nursing Praxis: Context, Issues, and Trends
 Prerequisite: Admission to the RN-BSN or RN-MSN program. This course examines the evolution of professional nursing through an analysis of the social, cultural, political, economic, philosophical, historical, and theoretical influences on nursing practice and healthcare delivery systems. The fostering of community through a cross-cultural learning approach in nursing practice will be explored. Students will learn to use reasoned claims, scholarly resources, correct APA documentation, and the skill of professional writing styles.

NSG 307 **1 hour**
Scholarly Writing
 This course expands the nursing students’ composition and investigative skills to prepare to write scholarly papers using reasoned claims, scholarly resources, correct APA documentation, and a professional writing style. TU China Program.

NSG 311 **3 hours**
Advanced Health Assessment
 Prerequisite: Admission to the RN-BSN or RN-MSN program. This course focuses on advanced health assessment of culturally diverse populations across the life span. A holistic approach to assessment emphasizes accurate, systematic history taking and physical examination skills. Critical thinking skills are practiced in determination of the significance of

assessment findings, appropriate communication of data and in planning for health promotion.

NSG 331 **3 hours**

End of Life Issues

This elective course focuses on exploration of issues concerning the dying process, grief, loss and bereavement. Concepts related to psychosocial needs of clients and caregivers are addressed incorporating diversity of culture, ethnicity, gender, and age. Legal and ethical issues related to professional practice are emphasized.

NSG 332 **3 hours**

Healthy Aging

Prerequisites: ENG 101, ENG 102 and college level course in the human sciences. This course will provide a clinical and theoretical focus of the evolving field of gerontology. Topics will cover important social, psychological, and physical aspects of aging. Content will include demographic trends, functional performance, pharmacotherapy, nutrition, sexuality, living options, future concerns, health literacy and clear communication, and legal and ethical issues of the elderly.

NSG 370 **3 hours**

Ethical Issues in Nursing Practice

Prerequisite: Admission to the RN-BSN program or permission of the instructor. This course studies legal and ethical issues in nursing practice. It includes a study of frameworks and guidelines for using critical thinking in making ethical decisions and resolving ethical dilemmas. Relevant laws, codes of ethics, ethical theories, and ethical principles are examined.

NSG 410 **2-3 hours**

Women's Health Issues

Prerequisite: BIO 261 and BIO 262; admission to the RN-BSN program or permission of instructor. This course will take an interdisciplinary approach to both historical and contemporary women's health issues. Historical, biological, sociocultural, psychological, and political processes that shape and affect women's health and healthcare experiences will be examined. Selected theoretical frameworks will be used, including feminism, gender, and multiculturalism, to examine how perceptions of women and women's status have affected women's healthcare.

NSG 440 **3 hours**

Emergency Preparedness

This course prepares health care and public service workers as first responders in the events of disaster and terrorism. Topics covered include disasters (natural and man-made), planning for disasters managing casualties, organization and implementation of disaster response, and the first responder's role during disaster situations.

NSG 441/641 **3 hours**

Physiology of Aging

Prerequisite: BIO 261 and BIO 262 or permission of instructor. This course will examine aspects of the physiology of human aging and functional changes associated with the variances surrounding the aging process. Attention is given to the impact of aging on bodily systems, including cognitive processes and memory. The course examines the illnesses and disease processes with a focus on the relationship between changes in physical function, environment, and quality of life. In addition, appropriate nursing, health care provider, and lay care-giver interventions including primary place residence, medication management, safety, promotion of independence, teaching, infection control, and stress management will be incorporated.

NSG 450 **3 hours**

Community Health Nursing

Prerequisites: NSG 303, NSG 307, and NSG 311; may be taken concurrently with NSG 460. Selected concepts of community/public health nursing that form the theoretical foundation for population/community health practice are studied. Problem solving and creative/critical thinking activities are used to analyze issues, trends and practices of the public health/community health nurse, the community as partner, environmental issues, common community problems and vulnerable populations. TU China Program.

NSG 452 **3 hours**

Evidence-based Practice in Nursing

Prerequisite: MTH 250 (may be completed concurrently with permission of instructor). Students are introduced to basic research and evidence-based concepts in order to become informed consumers of research as a guide for quality nursing practice and improved patient outcomes. Approaches to evaluation, translation, and integration of the best evidence into current clinical practice settings are explored.

NSG 456 **6 hours****Community and Public Health Nursing**

Prerequisites: NSG 306 and NSG 311

This course uses principles of public health/community health nursing in the provision of health care to individuals, families, and aggregate populations. Selected concepts of community/public health nursing that form the theoretical foundation for population/community health practice are studied. Problem solving and creative/critical thinking activities are used to analyze issues, trends, and practices of the public health/community health nurse, the community as partner, environmental issues, common community problems, and vulnerable populations. Field study incorporates assessments of the community, resources, epidemiological and environmental needs, public health services, and strategies to address the health needs of selected aggregate populations.

NSG 465 **4 hours****Community Health Nursing**

Prerequisites: Licensure as a Registered Nurse; Admission to the MSN program. This course is designed for RNs who hold a baccalaureate degree in a field other than nursing and serves as a transition course for entry into the MSN program. Content includes both the theory and practice of Community Health Nursing. Problem solving and creative/critical thinking activities are used to analyze issues, trends, and practices of the public/community health nurse, the community as a partner, environmental issues, common community problems, and vulnerable populations. Application of these principles are applied through a variety of community settings utilized for practicum experiences focusing on community assessment, public health department services/resources, epidemiological/environmental needs, and strategies to address prioritized health needs of selected aggregate populations.

NSG 470 **3 hours****Leadership in Nursing**

Prerequisites: NSG 452, NSG 450, and NSG 460 or permission of instructor. May be taken concurrently with NSG 480. This course is designed to challenge students in the development of leadership and management skills. Theories, principles, and practical applications to professional practice are emphasized. An evidenced-based research project is the culminating activity. TU China Program.

NSG 476 **6 hours****Leadership in Nursing**

Prerequisites: NSG 452, NSG 456, or permission of instructor. This course is designed to guide and challenge students in the development of leadership and management skills. Theories, principles, and practical applications to professional practice are emphasized. The political, legal, ethical, financial and accreditation/standards components of organizational success are explored. The course provides the student with the opportunity to apply managerial/leadership skills in a professional nursing practice setting. An evidenced-based project is the culminating activity.

NSG 480 **3 or 4 hours****Leadership Practicum**

Prerequisite: Licensure as a Registered Nurse; NSG 450, NSG 460, and NSG 452; may be taken concurrently with NSG 470. This course provides the student with opportunities to apply managerial/leadership skills in a healthcare setting under faculty and nurse leader supervision. TU China Program.

NSG 490 **3 hours****Special Topics in Nursing or related Health Services**

Prerequisite: Approval of Nursing Division Chair. Special topics courses offer the student opportunities to explore selected topics of interest in the discipline.

NSG 507 **1 hour****Scholarly Writing**

Prerequisite: Provisional admission to a graduate program. This course expands the nursing students' composition and investigative skills to prepare to write scholarly papers using reasoned claims, scholarly resources, correct APA documentation, and a professional writing style.

NSG 604 **3 hours****Information Technology in Nursing Administration and Education**

Prerequisite: Admission to the MSN program or permission of instructor. This course focuses on the application and utilization of information technology in clinical practice, nursing administration, and nursing education. Advances in technology which support administrative decision-making and educational teaching/learning strategies are emphasized.

NSG 606 **3 hours****Advanced Theoretical Foundations**

Prerequisite: Admission to the MSN program or permission of instructor. Theories from nursing and

other sciences that facilitate a comprehensive and holistic approach to care will be analyzed and their application to clinical practice and administrative and educational settings will be evaluated. An overview of the components and characteristics of advanced nursing roles will be incorporated.

NSG 608 **3 hours**
Research Design and Methodologies

Prerequisite: Admission to the MSN program or permission of instructor, and a recent course in Statistics. Principles and strategies of quantitative and qualitative research methods will be examined. Utilization of research in a variety of health care settings to ensure quality care and to improve nursing practice will be emphasized. The topic for the culminating research project will be developed.

NSG 610 **3 hours**
Policy, Law and Ethics in Nursing

Prerequisite: Admission to the MSN program or permission of instructor. This course focuses on the legal, ethical, and socio-political environment that influences health care professionals and organizations in the delivery of patient care, the administration of nursing services, and nursing education. Ethical theories and principles, recent legal decision, professional standards of practice, and codes of ethics governing nursing administration and education are applied to contemporary ethical issues in health care.

NSG 612 **3 hours**
Program Planning for Nursing Leadership and Education

Prerequisite: Admission to the MSN program or permission of instructor. This course emphasizes the elements essential in designing, implementing, and evaluating effective community educational programs, and prepares students with the knowledge and skills required for writing a project or program grant proposal.

NSG 614 **3 hours**
Global Perspectives on Population-Based Health

Prerequisite: Admission to the MSN program or permission of instructor. This course focuses on the public health issues affecting vulnerable and high-risk populations at the local, state, national, and international levels. Topics include; epidemiology, levels of disease prevention, infectious and chronic disease management, environmental factors affecting health and wellness, and international healthcare agencies and partnerships.

NSG 616 **3 hours**
Leadership & Financial Management Strategies

Prerequisite: Admission to the MSN program or permission of instructor. This course focuses on various leadership and management strategies employed when interacting with diverse individuals and populations in the health care setting. Topics include leadership theories, standards of practice for nursing administration and education, organizational structure and behavior, change theory, human resource development, and financial management.

NSG 620 **3 hours**
Teaching Strategies in Nursing

Prerequisite: Admission to the MSN program and Core Courses, or permission of instructor. This course focuses on teaching/learning theories, the analysis of various teaching strategies to include current technology and distance education modalities, role development of the nurse educator, characteristics of the learner, and selected evaluation techniques. Students learn to apply basic components of instruction in both classroom and clinical settings to meet the learning needs of diverse populations in both formal education environments as well as staff development.

NSG 622 **3 hours**
Curriculum Development, Assessment, and Evaluation in Nursing Education

Prerequisite: Admission to the MSN program and Core Courses, or permission of instructor. This course focuses on the curriculum development process, including analysis of the internal and external environment, professional standards and trends, current philosophical approaches, curriculum and course design methods, and curriculum implementation and evaluation. Assessment, implementation, and evaluation methodologies for both formal education and staff development will be covered.

NSG 632 **3 hours**
Human Resource Management for the Nurse Administrator

Prerequisite: Admission to the MSN program or permission of instructor. This course focuses on the principles of human resource management and their application in various healthcare settings. It prepares the student to function as a nurse administrator at different levels in health-related organizations.

NSG 636**3 hours****Healthcare Study Abroad**

Prerequisite: Acceptance into MSN program or approval by Division Chair. This elective option allows students an opportunity to study nursing and healthcare issues during a travel abroad experience. This course focuses on the major health issues affecting the country's population and policies and ethical topics relating to healthcare. Topics include: acute and chronic disease management, environmental factors affecting health and wellness, partnership with international healthcare agencies as well as a look into the culture of the native citizens to include art, music, religion, and folk remedies.

NSG 638**3 hours****Capstone Project Conceptualization**

Prerequisite: Core Courses and permission of Division Chair. This course allows students an opportunity to conceptualize and develop their Capstone Project. During this course, students will complete their proposals, gain IRB approval, and submit drafts for chapters one through three. Completion of this course prior to NSG 642 or 646 provides students with more time for data collection and analysis. The course requires critical analysis and development of a strategy to address a need or problem in healthcare. This course is not designed for students who have already developed a proposal in NSG 608 or NSG 612.

NSG 640**3 hours****Nursing Educator Internship**

Prerequisite: Licensure as a Registered Nurse; Core MSN courses and NSG 620; NSG 622 or consent of advisor and instructor. This 90 hour internship course provides supervised experience for the student in the role of nurse educator, applying the theories and principles of leadership, teaching/learning, evaluation, and curriculum/program design. A variety of educational settings will be used.

NSG 642**3 hours****Capstone Project in Nursing Education**

Prerequisite: Core MSN courses; NSG 620 and NSG 622; may take NSG 640 concurrently; may also take one core class concurrently with consent of advisor and instructor. This course for nursing educators involves identifying a health care educational need, critically analyzing the need, and formulating a strategy to address the need. Demonstration of an understanding of the research process and the devising of an innovative application of research concepts will be emphasized.

NSG 644**3 hours****Nursing Administration Internship**

Prerequisite: Licensure as a Registered Nurse; Core MSN courses and NSG 632 or consent of advisor and instructor. This 90 hour internship course provides supervised experiences for the candidate in the role of nurse administrator applying the theories and strategies of leadership, financing, and resource management in various health care settings.

NSG 646**3 hours****Capstone Project in Nursing Administration**

Prerequisite: Core MSN courses; NSG 644 may be taken concurrently; one core class or NSG 632 or NSG 690 may also be taken concurrently with consent of advisor and instructor. This course involves the critical analysis, development, implementation, and evaluation of a strategy to address a health care need or problem in the organization. Demonstration of an understanding of the research process and an innovative application of leadership concepts will be expected.

NSG 690**3 hours****Special Topics in Nursing Administration**

Prerequisite: Consent of advisor. Special topics courses offer the student opportunities to explore selected topics of interest in the discipline.

NSG 699**1-3 hours****Independent Study and Research**

Prerequisite: NSG 642 or NSG 646; or consent of advisor and instructor. Students who have completed the coursework for their Capstone Project NSG 642/646 and are still actively working on their capstone project, consulting with the major professor, and / or using other resources of the university may enroll in this course. Hours are pre-determined by Capstone Project committee chair and approved by the Division Chair. Credit for this course is not to be counted toward the degree.

OCE—Oceanography**OCE 220****4 hours****Oceanography**

Prerequisite: BIO 101, BIO 102, or BIO 105. This course explores the major processes and broad-scale features of the world's oceans. It will emphasize the geological, chemical, physical and biological processes that operate in the ocean setting and begin to explain how they influence marine ecosystems. Topics include the origin and history of the ocean basins, atmospheric circulation and weather, ocean circulation, and the

dynamics of waves, tides, and coastlines. The course also examines marine life (including plankton, nekton, benthos, and marine mammals), explores the oceans as a resource for people, and considers human impacts on marine environments. Lab includes required field-trips to the Gulf Coastal or similar feature.

PHS—Physical Science

PHS 220 **4 hours**

Principles of Physical Science I

This course is designed to introduce students to theories, principles, and concepts in physics, chemistry, astronomy, and the earth sciences. It begins with an introduction to the scientific method, quantitative reasoning, and scientific measurement, followed by Newtonian mechanics, gravitation, thermodynamics, electromagnetism, waves, sound, and electromagnetic radiation. The course then covers atomic and nuclear theory, the Periodic Table of Elements, physical and chemical properties of materials, chemical compounds and bonding, chemical reactions, acids and bases, and an introduction to organic chemistry. It will identify connections to the life sciences and be relevant to important global issues and concerns such as resource sustainability, energy needs, and climate change.

PHS 221 **4 hours**

Principles of Physical Science II

PHS 220 is preferred before taking PHS 221. This course is designed to introduce students to theories, principles, and concepts in physics, chemistry, astronomy, and the earth sciences. It includes an introduction to major concepts and connections in geology, meteorology, potamology (study of rivers) limnology (study of lakes), oceanography, and astronomy. The portion on meteorology includes modules on the atmosphere and weather, solar and terrestrial radiation, heat, temperature, and circulation; clouds, the wind, precipitation, thunderstorms, tornadoes, tropical storms and hurricanes. The section on astronomy introduces the following topics: origin of the universe and the vastness of time and space; formation of the elements; characteristics of meteorites, comets, and planets; and the search for extra-terrestrial life. It will also identify connections with the life sciences and to be relevant to important global issues and concerns such as resource sustainability, energy needs, and climate change.

PHY—Physics

PHY 301-302 **4 hours**

General Physics I, II

Prerequisite: MTH 140. Two non-calculus based physics courses which include the mechanics of solids, liquids, and gases, thermodynamics, sound, light, magnetism, optics, waves and modern physics. Laboratory exercises which illustrate these topics will be used to supplement lecture material.

PSY—Psychology

PSY 125 **3 hours**

Lifespan Development

A study of human development from birth to death utilizing a biobehavioral psychosocial perspective.

PSY 201 **3 hours**

General Psychology

An introduction to the science of human behavior and mental process. Motivation, emotions, personality, memory, learning and neuroscience are some of the areas that will be discussed.

PSY 300 **3 hours**

Interpersonal Communication

This course examines both verbal and nonverbal behavior. Students will develop and improve various active listening skills, discuss body language, paralanguage, and proxemics and apply this knowledge in various activities.

PSY 305 **3 hours**

Psychology of Personal Adjustment

A course that promotes the development of self-awareness, developing close relationships, resolving interpersonal conflict, promoting psychological health, and a personal examination of goals in one's life.

PSY 310 / EDU 310 **3 hours**

Educational Psychology

Prerequisite: PSY 125. Students examine psychological principles of learning, cognition, motivation, behavior, and the practical implications of these principles for teaching and learning. The development of skills to interpret behavior and classroom interactions within a framework of psychological theory will be a major feature.

PSY 320 History of Psychology This course surveys the origins and developments of psychology as a science, including its various systems of thought and the current status of each.	3 hours
PSY 340 Social Psychology Study of group interactions and processes. Leadership, decision-making, conflict resolution, group processes, persuasion, and attitude formation and change are all investigated as they impact institutions from families to corporations.	3 hours
PSY 345 Psychology of Religion This course is designed to provide an overview of the Psychology of Religion. Topics include history, methods, religious development, conversion, morality, helping behavior, prejudice, death, and health, as well as related topics such as the relationship between science and religion, the religion of psychologists, and forgiveness.	3 hours
PSY 350 Psychological Tests and Measurements Prerequisites: MTH 250, and PSY 201. A critical review of the substantive and psychometric tests and procedures for the construction of psychological instruments.	3 hours
PSY 351 Sport Psychology Prerequisites: PSY 125 or PSY 201. This course is designed to introduce students to the field of sport psychology by providing a broad overview of the major topics in the field. Various psychological theories and research related to sport psychology will be explored, including growth and development, personality and social factors, practice, and training as they relate to the athlete and coach.	3 hours
PSY 360 Theories of Personality Prerequisites: PSY 125 and PSY 201. A survey of theory and research on the development of personality characteristics.	3 hours
PSY 365 Stress Management This course develops students' understanding of stress from physiological, cognitive, and behavioral	3 hours

perspectives. Students will practice a variety of strategies and techniques to reduce stress.

PSY 370 Health Psychology This is a survey course examining the contributions of psychological research to the understanding, prevention, and treatment of a variety of health concerns. The biopsychosocial model will be applied to better understand factors which influence health.	3 hours
---	----------------

PSY 380 Forensic Psychology This course provides a broad overview of the field of forensic psychology and how psychology interacts with the law.	3 hours
--	----------------

PSY 390 Positive Psychology Positive psychology is the scientific and applied approach to uncovering people's strengths and promoting their positive functioning. This course will focus on positive emotional states and processes, positive cognitive states and processes, and pro-social behavior.	3 hours
--	----------------

PSY 400 Cognitive Psychology Prerequisites: PSY 125 and PSY 201. Research and theory relating to attention, memory, problem solving, information processing, decision making, reasoning, expert systems, biological and artificial neural networks, and serial and parallel processes.	3 hours
--	----------------

PSY 401 Counseling Techniques Prerequisites: PSY 125 and PSY 201. Overview of approaches to psychopathology, methods of clinical assessment, and various approaches to individual and group counseling.	3 hours
---	----------------

PSY 423 Abnormal Psychology Prerequisite: PSY 201. This course provides students with an introduction to abnormal psychology. Various psychological disorders will be discussed with an emphasis on diagnostic criteria, treatment, and long-term implications. Current and historical concepts will be analyzed related to contextual issues of mentally ill persons.	3 hours
--	----------------

PSY 430 **3 hours****Theories of Personal Relationships**

Prerequisites: PSY 125 and/or PSY 201. This course surveys the major theories and research findings regarding personal relationships, and includes discussion of interpersonal attraction, liking, loving, romance, communication, and therapeutic interventions.

PSY 433 **3 hours****Psychology of Grief Counseling**

Prerequisites: PSY 125 and/or PSY 201. This course introduces students to the study of grief and loss, and examines empirical models of grief counseling. Theories and research related to the multiple dimensions of grief, including normal and atypical grief, are reviewed. Emphasis is placed on developing counseling skills necessary for facilitating healing.

PSY 440 **3 hours****Industrial/Organizational Psychology**

This course will introduce methods, practice, research, and theories of Industrial and Organizational (I/O) Psychology. I/O psychology is a subfield of psychology concerned with various aspects of people in the workplace, including employee productivity and well-being. Both real-world applications and research will be emphasized throughout the course.

PSY 445 **3 hours****Professional Standards and Ethics**

Prerequisites: PSY 125, and PSY 201. The purpose of this course is to provide an introduction to the role of ethics in psychological practice and psychological science. The goals are for the students to: (1) integrate the ethics materials presented with personal morals and values into a professional model, and (2) be able to develop logical and rational moral and ethical analyses of ethical problems that occur in psychology.

PSY 450 **3 hours****Research in Psychology**

Prerequisite: MTH 250. This course provides an introduction to psychological research technique with an emphasis on firsthand data collection. Project work introduces students to research design.

PSY 452 **3 hours****Directed Research in Gerontology**

Prerequisites: Psychology major or pursuing Minor in Gerontology. This course is designed for seniors majoring in psychology and/or those students pursuing a minor in gerontology. Students are

provided a supervised experience in research related to gerontology. Analysis and observation techniques are used.

PSY 460 **3 hours****Psychology of Aging**

This course examines cognitive processes, and the psychological and social factors shaping behavior during the aging process, as well as the impact of the cultural context on aging, from a psychological perspective.

PSY 490 **3 hours****Special Topics**

Special topics courses offer the student opportunities to explore selected topics of interest in the discipline. See advisor for special topics and permission to enroll.

PSY 495 **3 hours****Psychology Practicum**

Prerequisite: Psychology Major. This course provides a supervised experience in the field of psychology or research and is designed for juniors or seniors majoring in psychology. The course requires a minimum of 100 clock hours within the work setting and weekly supervision meetings with the professor.

RCE—Clinical Rehabilitation and Mental Health Counseling

RCE 601 **3 hours****Introduction to Counseling**

This course introduces the student to the field of counseling. Topics will include: History and legislation affecting individuals with physical and psychiatric disabilities and persons from other at-risk groups; rehabilitation and mental health terminology and concepts; philosophical foundations of rehabilitation and mental health counseling; ethical standards for rehabilitation counselors and mental health counselors; expert testimony; attitudinal and environmental barriers faced by individuals with disabilities; support services and community resources; and the various fields of counseling including the public and private sector.

RCE 603 **3 hours****Substance Abuse Counseling Methods**

Students will acquire the skills necessary to counsel and provide direct services to individuals who have, or have had, substance abuse (alcohol, drugs, inhalants, prescription medication, etc.) problems and/or their family members. Students will learn about addiction issues and will develop the skills necessary to work effectively with this population, including identifying

co-occurring disorders and the treatment needs involved with dual diagnosis. Students will also be exposed to the legal and ethical issues related to this at-risk population.

RCE 604 **3 hours**
Ethics in Addiction & Alcoholism

This course will provide students with an overview of ethical principles that guide professional conduct in the substance abuse field. Other topics reviewed in the course will include ethical considerations unique to the field of substance abuse, ethical decision making models, ethics in substance abuse research, and legal implications.

RCE 605 **3 hours**
Medical Aspects of Disability

This course provides an overview of medical terminology, body systems and the disabilities that occur when one or more of the body systems are affected by illness, injury, or genetic predisposition. Students will be able to read and understand medical records; describe the medical and rehabilitation consequences of various disabling conditions including functional capacities and limitations; describe the vocational implications for these disabling conditions; and analyze existing community resources for these disabling conditions.

RCE 607 **3 hours**
Crisis Counseling

This course provides an examination of issues and skills involved in assisting clients dealing with crisis situations. The progression and symptomatology of crisis functioning are presented with models and techniques for appropriate psychological, educational, and specialized intervention techniques for use with clients.

RCE 611 **3 hours**
Psychosocial Aspects of Disability

This course provides students with a basic understanding of psychological and social terminology, the community integration and independent living movement, and intervention methods necessary to enable individuals with disabilities adjust to having a disability. Students will be able to describe the psychological and social consequences of various disabling conditions including functional capacities and limitations; describe the vocational implications for these disabling conditions; and analyze existing community resources for these disabling conditions.

RCE 620 **3 hours**
Theories and Techniques of Counseling

This course will familiarize students with the terms, concepts, and principles of the major counseling theories, individual counseling practices and interventions, behavior and personality theories, and human growth and potential. Students will begin to develop their own individual philosophy of and approach to counseling and understand how their philosophy and approach impacts their work with their clients. Students will learn individual counseling skills and interventions through role playing, and hands-on experience.

RCE 621 **3 hours**
Case Management and Community Resources

This course provides an overview of the case management process, community resources and services available, and financial resources available for rehabilitation services. Students will develop the competencies necessary to provide timely, cost effective, and efficient services. They will examine the organizational structure of public rehabilitation programs and non-profit service delivery systems.

RCE 622 **3 hours**
Theories and Techniques of Group Counseling

Group counseling theories, practices and interventions will be examined. Students will understand the role of group work within various rehabilitation settings and how to apply group principles and techniques in their work with clients. Students will be required to participate in a lab experience where they will utilize principles of group dynamics, communication, processes, stages and goals, leadership, democratic group procedures, individual and group resistance and initiation and development of small groups.

RCE 630 **3 hours**
Assessment and Evaluation

Students will analyze and use the principles and theories of testing, assessment and evaluation. Specific topics will include types of tests, work samples, situational assessments to assess developmental variables, vocational skills, functional and physical capacities and personality characteristics. Interpretation of assessment results and report writing will be an integral part of the course.

RCE 640 **3 hours**
Psychopathology & the DSM

Prerequisite: RCE 611. This course examines policies, regulations, and services dealing with mental

disorders, addiction, and co-occurring disorders. As a result of this class, students will be introduced and become familiar with the use of the Diagnostic and Statistical Manual of Mental Disorders (DSM-V). The major categories and diagnostic criteria of mental disorders and chemical abuse are explored. Issues related to the mental wellness of culturally diverse groups are studied.

RCE 645 **3 hours**

Legal, Ethical & Cultural Issues in Counseling

Prerequisite: RCE 611. Students will learn the guidelines to analyze ethical dilemmas and choose appropriate action under the protocols and regulations of the Code of Professional Ethics for Certified Rehabilitation Counselors (CRC) as adopted by the Commission of Rehabilitation Counselor Certification, as well as the American Counseling Association (ACA) Code of Ethics. This course will examine ethical issues, supervision, trends, developments, and multicultural issues related to competent professional practice. Components of self-awareness, culture-specific knowledge, and skills as they pertain to counseling members of diverse and under-represented populations will be examined and practiced.

RCE 650 **3 hours**

Counseling Practicum

Prerequisites: Acceptance in the Clinical Rehabilitation and Mental Health Counseling program, completion of a minimum of 6 hours of course work, and approval of the Fieldwork Coordinator. The Practicum experience provides the opportunity for students to develop primary counseling skills and integrate their knowledge in the field of rehabilitation and mental health counseling under clinical and faculty supervision through a minimum of 100 clock hours over the academic term. A 1-hour weekly individual supervision meeting with the site supervisor, and a 1.5-hour group supervision meeting with a faculty supervisor is a mandatory requirement of this course.

RCE 651 **6 hours**

Counseling Internship I

Prerequisite: Successful completion of clinical and academic requirements of RCE 650 Counseling Practicum. This course may be taken in conjunction with RCE 652 Counseling Internship II upon approval of the Fieldwork Coordinator. The Internship I experience provides the opportunity for students to apply theory and develop counseling skills in the field of rehabilitation and mental health counseling under clinical and faculty supervision. A minimum of 300

clock hours in the student's designated program area is required with at least 40% of those hours constituting direct client contact. The internship experience will provide opportunities for the student to become familiar with a variety of professional activities in addition to direct services. A 1-hour weekly supervision meeting with the site supervisor and a 1.5-hour group supervision with a faculty supervisor is a mandatory requirement of this course.

RCE 652 **6 hours**

Counseling Internship II

Prerequisite: Successful completion of clinical and academic requirements of RCE 651 Counseling Internship I OR successful completion of RCE 650 Counseling Practicum if this course is taken in conjunction with RCE 651 Counseling Internship I. The Internship II experience provides the opportunity for students to demonstrate advanced theory and counseling skills in the field of rehabilitation and mental health counseling under clinical and faculty supervision. A minimum of 300 clock hours in the student's designated program area is required with at least 40% of those hours constituting direct client contact. The internship experience will provide opportunities for the student to master a variety of professional activities in addition to direct services. A 1-hour weekly supervision meeting with the site supervisor and a 1.5-hour group supervision with a faculty supervisor is a mandatory requirement of this course.

RCE 653 **6 hours**

Counseling Internship III

Prerequisites: Successful completion of clinical and academic requirements of RCE 652 Counseling Internship II OR upon approval of the Fieldwork Coordinator. Application for approval of the internship site must be made to the Fieldwork Coordinator prior to enrollment in this course. The Internship III experience provides the opportunity for students to apply theory and develop counseling skills in the field of substance abuse counseling. A minimum of 300 clock hours in the student's designated program area is required with at least 40% of those hours constituting direct client contact. This internship experience will provide opportunities for the student to become familiar with a variety of professional activities related to substance abuse counseling. A 1-hour weekly supervision meeting with the site supervisor and a 1.5-hour group supervision with a faculty supervisor is a mandatory requirement of this course.

RCE 660 **3 hours**
Occupational Information & Vocational Analysis
 This course provides an overview of the theories of career development, work adjustment, and the planning of vocational rehabilitation services. The vocational implications of disability, employer practices regarding return to work issues, and job modification and structuring techniques will be explored.

RCE 662 **3 hours**
Job Development and Job Placement
 Students will examine current theory and practice in career development for individuals with disabilities. Employment strategies including innovative job development, job modification and carving, job creation, labor market analysis and job placement strategies will be explored. Students will learn how to provide supported employment, follow-up, job retention, and post-employment services. Students will learn to teach job seeking and job retention skills to individuals from various at-risk groups through experiential exercises. Interpretation of assessment results and report writing will be an integral part of the course.

RCE 665 **3 hours**
Human Sexuality
 This course will review issues regarding sexuality and gender that the counseling professional will encounter in working with varied populations including people with disabilities. Attention is given to the lifelong process of acquiring information and forming attitudes, beliefs, and values about others and ourselves. Relationships, sexual behavior, sexual health issues, sexual orientation and the development of sexual identity will be explored. The course is designed to increase the participants' knowledge about these topics and to facilitate their ability to communicate effectively about issues related to sexuality in their personal life and professional practice.

RCE 672 **3 hours**
Behavioral Research Methods
 This course will introduce students to rehabilitation and mental health research literature and research methodology so that they can become intelligent consumers of research. Students will learn the evaluation procedures necessary to effectively assess services, develop needs assessments, and design research projects. Frequently utilized qualitative and quantitative research approaches will be examined, and students will become knowledgeable about the

scientific approach in counseling research, statistics and research design, hypothesis testing, research proposal development and research utilization.

RCE 685 **3 hours**
Marriage and Family Counseling
 This course examines the concept of marriage and family dynamics as well as a review and critique of various theoretical approaches. Marital and family relationships are viewed in political and historical contexts. Students will gain knowledge of specific assessment and counseling interventions. Special emphasis is placed on marital counseling and family relationships in diverse and special populations.

RCE 688 **3 hours**
Human Growth and Development
 This course provides an understanding of the nature and needs of individuals at all developmental levels and in multicultural contexts, including learning styles and personality development, normal and abnormal behavior, and lifespan transitions. Students will be able to demonstrate an understanding of individual and family development, the impact of crises or trauma-causing events that affect individual and family functioning, as well as theories for facilitating optimal development and wellness across the life span.

RCE 699 **1 hour**
CRC Exam Preparation
 Prerequisite: Application on file for next exam. The process of applying, preparing and taking the Certified Rehabilitation Counselor (CRC) exam will be addressed. It will cover a comprehensive review of all materials presented within the context of the Master's in Clinical Rehabilitation and Mental Health Counseling program as well as address test-taking tips, share study strategies, and conduct practice exams.

RDE—Reading Education

RDE 450 **3 hours**
Reading in Content Areas
 This course is designed to introduce teacher candidates to the teaching of content reading to adolescents. The focus will be on the application of comprehension/study strategies to content texts. Diagnosis and remediation strategies will be discussed.

RDE 452 **3 hours**
Teaching Reading
 This course is designed to provide teacher candidates with knowledge of current approaches and methods

for teaching reading in elementary schools. Attention is directed towards emergent literacy, reading skills, reading as part of the language arts, and planning and organizing a reading program.

RDE 454 **3 hours**
Children's Literature

The purpose of this course is to introduce teacher candidates on how to build a literature curriculum and implement strategies for integrating literature and multicultural education into the classroom curriculum. Teacher candidates will have the opportunity to critically survey literature for children and to consider a variety of teaching techniques. Social issues and multicultural factors presented in literature for children will be explored.

RDE 455 **3 hours**
Diagnosis and Remediation of Reading Difficulties

This course is designed to provide teacher candidates with an understanding of difficulties in reading, assessment procedures for diagnosing reading difficulties, and strategies for corrective treatment through class discussion and through individual work completed with a struggling reader.

RDE 651 **3 hours**
Foundations of Literacy and Assessment

This course applies important historical, theoretical, and research foundations in literacy processes, components, and acquisition to elementary, middle, and high school students. Topics include developmental stages of reading and writing acquisition, major components of reading (e.g., phonological awareness, word identification, comprehension, vocabulary, fluency, motivation, and higher-order cognitive skills), social, linguistic, and diverse cultural influences on learning literacy. From these foundational concepts students will apply assessment practices, with an emphasis on identifying children who struggle with pre-literacy or literacy skills.

RDE 653 **3 hours**
Comprehension, Curricular, and Programmatic Strategies for Improving Literacy Across the Content Areas

This course examines major components of reading comprehension, text-based strategies, writing, study skills, curriculum choices, programmatic strategies, and diverse socio-cultural influences on improving literacy skills. Students in this course will increase their knowledge base for these components and apply

that knowledge to assessment, instructional, and programmatic practices.

RDE 654 **3 hours**
Enhancing Literacy with Literature

This course focuses on teachers' integration of appropriate trade books across the curriculum. Its focus is to help teachers develop literacy and critical thinking in their learners, as well as to motivate their students to become life-long readers of quality literature. Teachers will identify and apply best pedagogical practices in planning thematic literature-based lessons and teaching units to enhance literacy. The course also provides opportunities for teachers to read and discuss age appropriate selections of award winners and other valuable literature.

RDE 656 **3 hours**
Patterns of Practice in the English Language Arts

This course focuses on strategies and methods classroom teachers use to enhance their students' communication abilities in the areas of listening, speaking, reading, writing, and viewing. Relationships among these communications skills will be examined to identify strategies for developing balanced language arts skills in all curricular areas. Standards of appropriate learned societies relating to communication skills will be analyzed for applicability across curricular areas.

REA—Reading

REA 099 **3 hours**
*** College Reading Skills**

Focuses on improving college reading skills, with an emphasis on literal and critical comprehension and vocabulary development. Institutional credit.
* Placement by examination

REA 111 **1 hour**
Critical Writing, Reading, and Thinking Skills

This course fosters the development of critical reading and thinking skills needed for success in college courses; students will learn to read, discuss, interpret, document and summarize professional articles and materials. Can be taken concurrently with ENG 101 or other courses that require article summaries.

REA 311 **3 hours**
Advanced Critical Writing, Reading, and Thinking Skills

This course expands critical reading, thinking, and writing skills needed for success in college courses through in-depth attention to reading and writing strategies and extended practice. Can be taken as an

upper division elective only with permission of major advisor.

REL—Religion Studies

REL 210 **3 hours**

Introduction to World Religion

Prerequisite: ENG 101 and ENG 102. A survey of the development of religious ideas in early human communities as well as the origins and central teachings of the major living religious traditions, including Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism and Shintoism. This course can be used to fulfill a core curriculum Humanities requirement.

RHS—Rehabilitation Studies

RHS 315 **3 hours**

Cultural Diversity

This course provides students with the knowledge and skills to work with physically, socio-economically, mentally, psychologically, and economically disadvantaged and oppressed people. Attention is given to ethnic minorities of color, women, people with disabilities, gay and lesbian people, the poor, and the oppressed. A multi-dimensional, cross-cultural framework is used for assessments and interventions with consumers from diverse groups. Students learn to identify and emphasize the adaptive capabilities and strengths of disadvantaged and oppressed people.

RHS 320 **3 hours**

Introduction to Rehabilitation Studies

This course provides an introduction to the field of Rehabilitation Studies by presenting information related to the history and development of the field, legal and legislative aspects of rehabilitation, the role and function of the rehabilitation professional, current practices and trends in the field of rehabilitation, and general knowledge regarding conditions that are typically served by the discipline of rehabilitation.

RHS 325 **3 hours**

Crisis Intervention

This course is an introduction to the models and techniques of time-limited crisis intervention. Students learn the principals involved in helping clients toward resolution of their concerns, and practice the micro-skills involved in goal-oriented efficient brief crisis intervention. By using these skills, students then develop resolution-focused, immediate crisis intervention strategies. Specific crisis intervention practices include suicide prevention, outreach approaches, and disaster intervention.

RHS 332/SWK 332 **3 hours**

Introduction to Substance Abuse

This is an introductory course on substance abuse that will provide an overview including the history of substance abuse. The course will include the major drugs, including alcohol, opiates, stimulants, sedatives, hallucinogens, inhalants. The course will also examine the effects of substance abuse on the individual, family and society and according to the group(s) the individual is a member, i.e., racial, ethnic, gender. Students will also be introduced to treatment options for substance abusers, including evidence-based strategies.

RHS 335 **3 hours**

Case Management & Community Resources

This course provides an introduction to the field of Rehabilitation by presenting general information related to the history and development of the field, the models of case management, the phases of case management process, general knowledge about documentation procedures and organizational skills, an understanding about case load burn out, and other survival techniques useful for the case management profession.

RHS 340 **3 hours**

Ethical Practices in Rehabilitation

This beginner course in ethics will examine code of ethics in rehabilitation, ethical decision-making, ethical issues and the law, and legal and liability concerns facing practitioners working in the public and private rehabilitation field. It will expose students to the implications of unethical behavior and the challenges practitioners must address. Students will evaluate their cultural self-awareness and examine their personal views of ethics in their future careers.

RHS 345 **3 hours**

Treatment Models for Addictions

Prerequisite: RHS332 or prior work experience in the field of addictions approved by Advisor. The treatment of addictions from various theoretical perspectives and treatment models will be analyzed, including motivational interviewing, cognitive-behavioral theories, 12-step oriented treatment, family therapy techniques, and neurobiological bases of addiction treatment. Particular focus will be given to integrating theory, research, and analysis in the case management of substance abuse treatment.

RHS 355 **3 hours**
Theoretical Counseling Approaches to Rehabilitation
 This course will offer a general overview of theories and approaches with additional information on basic techniques. Special consideration is given to working with various populations including persons with physical disabilities, mental and psychological disabilities, drug addictions, and other challenges. Professional issues such as ethics, supervision, and state and federal legislative restrictions are covered.

RHS 360 **3 hours**
Counseling Practicum
 This course provides a supervised experience in a rehabilitation setting and an opportunity for the student to explore the rehabilitation field. The course requires a minimum of 100 clock hours within the work setting, 40% of practicum hours as client contact hours, and a weekly 1.5-hour group supervision meeting.

RHS 365 **3 hours**
Evidence-based Rehabilitation
 This course will introduce students to the underpinnings of evidence-based rehabilitation. Students will be educated on the importance of using evidenced-based practices, finding evidenced-based information, evaluating research, and integrating evidenced-based rehabilitation into practice settings.

RHS 380 **3 hours**
Professional Communication in Rehabilitation
 This course examines communication styles and techniques and how various medical, educational, and allied health care professionals collaborate to engage strategies for effective delivery of services to eligible clients with disabilities. Students will learn problem-management and opportunity-development framework skills, as described in Skilled Helper Techniques.

RHS 390 **3 hours**
Vocational Development
 This introductory course will examine current theory and practice in career development for individuals with disabilities. Students will be given a basic overview of current vocational programs in operation, how they function, and key practical applications will be taught for counselors working with persons with disabilities. Students will learn about supportive employment programs, assessments, labor market surveys, and various tools Rehabilitation Counselors use to assist clients.

RHS 435 **3 hours**
Pharmacology of Drug Abuse
 Prerequisite: RHS332 or prior work experience in the field of addictions approved by Advisor. Students are introduced to the pharmacological treatment of tolerance, dependence, withdrawal, and recovery faced by persons with drug abuse issues. A series of case studies will be presented to analyze the efficacy of current evidence-based practice guidelines associated with the treatment of addictions and alcoholism. Symptoms of drug abuse are further explored to help students gain familiarity with the experiences of persons with dependence.

RHS 445 **3 hours**
Concurrent Disorders
 Prerequisite: RHS332 or prior work experience in the field of addictions approved by Advisor. This is an overview of the complex treatment challenges associated with concurrent disorders and the treatment modalities associated with facilitating the recovery process. Particular focus will be given to case management approaches associated with the treatment of individuals with dual disorders, group interventions, and working with families.

RHS 450 **3 hours**
Vocational Assessment
 This course will teach students how to analyze and use the principles and theories of testing, assessment, and evaluation in relationship to Rehabilitation Counseling. General topics will include types of tests, work samples, situational assessments to assess developmental variables, vocational skills, functional and physical capacities, and personality characteristics. Students will learn to interpret assessment results and basic report writing skills will be taught. Students will learn to develop, write, and present a Vocational Assessment.

RHS 460 **3 hours**
Medical & Health Issues in Rehabilitation
 This course will provide a survey of essential medication information, medical terminology, etiology, prognosis, and treatment procedures. Vocational and independent living implications will be covered for each major disability group. The adjustment process that consumers and their families experience is also addressed, along with a general health overview of how Rehabilitation Counselors can assist clients in medical and health care issues within the job environment context.

RHS 470 **3 hours**
Internship I

Prerequisite: RHS 380. This course provides a supervised experience in a rehabilitation setting and an opportunity for the student to gain experience in the rehabilitation field. The course requires a minimum of 150 clock hours within the work setting, 40% of the hours as client contact hours, and a weekly 1.5-hour group supervision meeting.

RHS 472 **3 hours**
Internship II

Prerequisite: RHS 470. Internship II provides the third component of the total internship hours required for this program. This course is a supervised experience in a rehabilitation setting and an opportunity for the student to gain additional experience in the rehabilitation field. The course requires a minimum of 150 clock hours within the work setting, 40% of the hours as client contact hours, and a weekly 1.5-hour group supervision meeting.

RHS 475 **3 hours**
Rehabilitation Research

Prerequisite: MTH 250. This course provides an introduction to behavioral and social research techniques with an emphasis on firsthand data collection. Project work introduces students to research design.

RHS 485 **3 hours**
Assistive Technology

The primary goal of this course is to introduce students to the basics of assistive technology, technology advancements, and how assistive technologies aid persons with disabilities. Students will become familiar with the historical aspects of assistive technology, understand how assistive technology and resources can be located and applied with clients of various disabilities, and be able to implement assistive technology with persons with disabilities to achieve autonomy.

SEC—Secondary Education

SEC 327 **3 hours**
Methods and Strategies for Teaching Early Adolescent Learners

Prerequisite: EDU 316 and EDU 350. Co-requisite: EDU 340 and ECE 460. This course focuses on research-based effective teaching methods and strategies for teaching early adolescence learners, with attention provided to the characteristics of diverse and exceptional learners in the classroom and assessment

of student learning. This course requires a field placement in a 4th-8th grade setting, depending on major.

SEC 428 **3 hours**
Developing Pedagogical Content Knowledge for Teaching High School Learners

Prerequisite: EDU 327, EDU 340, and EDU 460. Co-requisite: EDU 468. The focus of this course is to examine research-based pedagogical content knowledge that engages high school in active learning that results in student's acquisition of essential knowledge and skills. This course requires a field placement in a high school setting, beginning with the first day of the assigned school district calendar, for three days a week until the end of the semester.

SEC 429 **10 hours**
Student Teaching

Prerequisite: All program courses in Professional Core I, II, and III. Co-requisite: SEC 430. The purpose of this course is to provide full immersion in the school community in order to further develop and demonstrate competence in the professional role as a high school teacher. This course requires full-time participation in a school for 15 weeks.

SEC 430 **2 hours**
Student Teaching Seminar

Prerequisite: All program courses in Professional Core I, II, and III. Co-requisite: SEC 429. The purpose of this seminar is to examine the knowledge, skills, and dispositions essential to the positive career path of the high school teacher, from teacher candidate to early career professional.

SOC—Sociology

SOC 201 **3 hours**
Introduction to Sociology

Prerequisite: ENG 101. An introduction to the field of sociology involving how society and its component parts are structured, including an analysis of the development and function of social institutions: government, economy, education, family, and religion.

SOC 401 **3 hours**
Sociology of Sport

Prerequisite: SOC 201 or permission of instructor. This course focuses on the cultural and social aspects of sports. Students will use sociological concepts and theories to explore the relationship between sports and society. Topics will include socialization through sport, deviance in sport, violence in sport, gender

issues in sport, race and ethnicity, sports and economy, sports and media, sports and politics, sports and religion, and sports and education.

SPE—Speech

SPE 105 **3 hours**

Oral Communication for Professionals

An introduction to speech, designed to develop responsible, capable spoken communication, by building skills in researching and thinking critically about topics, organizing thoughts and ideas, and making professional presentations.

SPE 311 **1-3 hours**

Community Dialects

This course will help students develop their ability to communicate effectively in a variety of contexts by enabling them to understand differences between individual dialects and General American Dialect and thus develop skills in switching between community and general dialects.

SPN—Spanish

SPN 101 **3 hours**

Beginning Elementary Spanish I

Prerequisite: "C" or better in ENG 101 or consent of the instructor. This course is designed for the beginning student with limited or no previous experience in Spanish. First semester, is an introductory sequential course that develops the four language skills of listening, speaking, reading and writing with emphasis on communicative competence. Basic concepts of Spanish and Hispanic culture are also introduced so the students may learn about the values and aspects of everyday life in Spanish speaking countries.

SPN 102 **3 hours**

Advanced Elementary Spanish II

Prerequisite: "C" or better in ENG 101 or consent of the instructor. This course is a direct continuation of SPN 101 with further development of the four language skills to a higher novice level and continued introduction to the Hispanic culture. Students will acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the high beginner level while taking more and more opportunities for conversation.

SPN 201 **3 hours**

Intermediate Spanish

Prerequisites: SPN 102 or equivalent. A review of the essentials of reading, writing, and speaking skills in order to develop the use of the language.

SPN 202 **3 hours**

Conversational Spanish

Prerequisite: SPN 102. This course is designed to provide students with a working knowledge of basic, practical vocabulary, idioms, and usage to develop fluency.

SPS—Sport Studies

SPS 300 **3 hours**

Injury Prevention

Prerequisites: BIO 261 or BIO 280. This course will discuss common athletic injuries and the prevention and treatment of these injuries. This course will also cover basic nutrition principles and the impact of proper nutrition on athletic injuries.

SPS 350 **3 hours**

Introduction to Sport Management

This purpose of this course is to provide students with a general understanding of the Sport Management field. Through the course, students will learn about the breadth of the sport industry, the different areas which comprise the industry, and the prospective employment opportunities in Sport Management.

SPS 420 **3 hours**

Coaching Theories and Methods

Prerequisites: SPS 300 or SPS 350. Potential coaches must learn a variety of skills to deal with a diverse range of issues, concerns and problems which are faced daily. Coaching is a complex profession which incorporates aspects of many other professions, including strength coaching, academic advising, sport psychology, athletic training, and counseling. Students will learn the principles of coaching as well as begin to form their own basic coaching philosophy.

STA—Statistics

STA 450 **3 hours**

Quantitative Applications of Statistical Methods

Prerequisite: MTH 250. A study of advanced quantitative techniques for measurement, analysis, and inference of empirical data. Students will have direct experience with research design, data collection, analysis, and reporting. The course will make extensive use of the SPSS for Windows computer

software. Emphasis will be placed on experimental research.

STA 471 **3 hours**
Qualitative Research Methods

Prerequisite: MTH 250. An introduction to methods of data collection, data reduction, data display, conclusion and verification in qualitative analysis. The course will expose the student to computer software available for use in qualitative analysis.

SSC—Social Sciences

SSC 417 **3 hours**
Senior Thesis

Prerequisites: 2 IDS Core Classes. Students create an annotated bibliography, develop an in-depth paper or project, and give a presentation on a topic selected in consultation with the thesis advisor. The course develops advanced skills in research, organization, synthesis, evaluation, and presentation.

SWK—Social Work

SWK 201 **1-3 hours**
Leadership and Community Service

This course is designed to prepare students for a lifetime of engaged, responsible and active community involvement and leadership. In class, students will learn about leadership skills and styles and how to most effectively assess and assist organizations in their community. Outside of class, students will be required to provide volunteer service to an approved placement site in their local community for an approved number of hours.

SWK 301 **3 hours**
Introduction to Social Work

This course provides an introduction to the social welfare institution and the profession of social work. It focuses on the values, ethics, and methods of generalist social work practice with an emphasis on diversity. Students will be introduced to basic social welfare policies, community agencies, and at-risk populations. Students are also introduced to the Core Competencies and Behavioral Indicators necessary to become a social worker through the Thomas University's Division of Social Work "Passport to the Profession".

SWK 315 **3 hours**
Cultural Diversity

This course provides students with the knowledge and skills to work with physically, socio-economically, mentally, psychologically, and economically

disadvantaged and oppressed people. Attention is given to ethnic minorities of color, women, people with disabilities, gay and lesbian people, the poor, and the oppressed. A multi-dimensional, cross-cultural framework is used for assessments and interventions with consumers from diverse groups. Students learn to identify and emphasize the adaptive capabilities and strengths of disadvantaged and oppressed people.

SWK 320 **3 hours**
Child Welfare

This elective course focuses on social work practice with children, youth and families involved in the child welfare system. It emphasizes the needs and problems of children and families and the policies and services which have developed to meet those needs.

SWK 321 **3 hours**
Gender Issues

This elective course is designed to acquaint students with the forces which affect genders differently, including sexuality, race, ethnicity, religion, socioeconomic class, physical ability, age, and national citizenship. Sex role socialization and its impact on opportunities and life choices will be examined.

SWK 330 **3 hours**
Social Gerontology: Family and Caregiving Issues

This course studies the social phenomenon of aging in our society, including the aging process, and the impact not only on the elderly, but families and caregivers who support and sustain them. Areas of particular focus include the biopsychosocial assessment of the caregiving system, an understanding social support networks, and the ability to understand the financial resources of Medicare, Medicaid, Medicare Part D, Medigap, and other insurance programs.

SWK 331 **3 hours**
End of Life Issues

This elective course explores the student's professional and personal issues concerning death, grief, and bereavement. Emphasis is placed on the concepts and issues related to psychosocial aspects of grief and loss over the life continuum.

SWK 332/RHS 332 **3 hours**
Introduction to Substance Abuse

This is an introductory course on substance abuse that will provide an overview including the history of substance abuse. The course will include the major drugs, including alcohol, opiates, stimulants, sedatives, hallucinogens, inhalants. The course will

also examine the effects of substance abuse on the individual, family and society and according to the group(s) the individual is a member, i.e., racial, ethnic, gender. Students will also be introduced to treatment options for substance abusers, including evidence-based strategies.

SWK 333 **3 hours**
Understanding Family Violence

This elective course studies various family issues with a particular emphasis on family violence from medical, social, and legal perspectives. Topics include: spousal abuse, sibling abuse, child abuse, sexual abuse, sexual harassment, and victim's rights.

SWK 340 **3 hours**
Behavioral Health and the DSM (Diagnostic and Statistical Manual)

This elective course identifies various diagnoses, treatment strategies, policies, regulations, and services dealing with the problems of mental illness, addictions, and developmental disorders. Issues of ethnic minority groups and women which relate to mental wellness are explored. Students will become familiar with the use of the Diagnostic and Statistical Manual of Mental Disorders (DSM).

SWK 344 **3 hours**
Human Behavior in the Social Environment

This course explores the knowledge base for generalist social work practice. It emphasizes the integration of knowledge of the liberal arts, social sciences, and empirical research needed to effectively assess the behavior of individuals and collective interactions with the environment. Students are introduced to two organizing theoretical perspectives, systems/ecological and values and oppression, and learn to address biopsychosocial influences on human functioning.

SWK 348 **3 hours**
Social Welfare Policy

This course is an introduction to social welfare policy, major perspectives on the function of social welfare in society, and the implications of these perspectives for the professional practice of social work. Selected methods of policy analysis are introduced. Students will examine the historical development of social welfare services in the United States and the political changes and processes necessary to achieve social work goals. Students will acquire an understanding and knowledge of the relationships between cultural, personal, and social values and beliefs in the

formulation, implementation, delivery, and analysis of social services.

SWK 350 **3 hours**
Social Work Practice with Individuals: Generalist Practice I

Prerequisites: Social Work Major or consent of instructor. This course is offered as a beginning general foundation class and focuses on social work practice with individuals. It will emphasize interviewing skills and counseling techniques along with the assessment of a client's situation and determination of the appropriate level of intervention for the change effort. Ecosystems theory is utilized in providing students with beginning problem solving practice skills. The integration of values and ethics into a framework for social work practice will be emphasized throughout as students are challenged to demonstrate an awareness of potential conflicts in these areas. As a clinical practice course, students will be expected to participate in interpersonal sharing and activities.

SWK 369 **3 hours**
Human Sexuality

This elective course will review many of the important issues regarding sexuality that professionals will encounter in working with varied populations. Attention is given to the lifelong process of acquiring information and forming attitudes, beliefs, and values about others and ourselves. Relationships, sexual behavior, sexual health issues, sexual orientation, and the development of sexual identity will be explored. The course is designed to increase the participants' comfort level with these topics and to facilitate their ability to communicate effectively about these issues in their personal life and professional practice. Class participation is required; however, students may opt out of any particular class topic for a written assignment, if necessary.

SWK 370 **3 hours**
Ethical Issues in Human Services

This course focuses on ethical decision-making in human services. Students will examine the basic theories and principles of ethics, the NASW Code of Ethics, and the application of these principles to practice dilemmas. Current practice issues, such as dual relationships, professional boundaries, and ethical issues in rural settings, will be discussed.

SWK 375 **3 hours**
Social Work Practice with Families: Generalist Practice II

Prerequisite: Social Work Major or consent of instructor. The course focuses on intervention methods with families within a generalist social work model. Students will examine family theory in a historical and political context to understand the development of contemporary family practice models and intervention strategies. Influences upon the family (economic, cultural, ethnic, etc.) along with changes to traditional family structures (single parent, gay/lesbian, divorce) will be explored. As a clinical practice course, students will be expected to participate in interpersonal sharing and activities.

SWK 420 **6 hours**
Field Practicum I (fall)

Co-requisite: SWK 421. The field practicum is an educationally focused, guided field experience in which students engage in community-based practice with individuals, families, and/or communities. From the context of a systems theoretical approach to problem-solving, students gain experience with various social work roles, such as advocate, broker, and case manager. Students learn to function as professional generalist social workers in an organizational setting, to demonstrate an understanding of and behavior consistent with the NASW Code of Ethics, and to increasingly assume professional responsibility. Special emphasis is placed on the identification of specific needs, the empowerment of diverse populations at the micro and mezzo levels, and a keen awareness of social justice issues.

SWK 421 **3 hours**
Senior Seminar I (fall)

Co-requisite: SWK 420. This course affords the opportunity to integrate knowledge, values and skills derived in social work courses with real-life practice situations experienced in the practicum. Students review social work ethics, issues in the workplace, appropriate uses of supervision, empowerment with diverse and special populations, and social justice issues.

SWK 450 **3 hours**
Social Work Practice with Groups: Generalist Practice III

Prerequisite: Social Work Major or consent of instructor. This course focuses on how social work practice can be most effectively utilized through small

group work. Students will understand the context and evolution of group theory and the contexts in which it is most effective. Students will be required to participate in an on-going group and will be responsible for leadership, facilitation, and activities during the semester. Students will also explore other group settings (12 step, skills based, educational, etc.) in the community. Special group characteristics (ethnic, gender, gay/lesbian, cultural, children, etc.) will also be explored. As a clinical practice course, students will be expected to participate in interpersonal sharing and activities.

SWK 451 **6 hours**
Field Practicum II (spring)

Prerequisites: SWK 420, SWK 421. Co-requisite: SWK 455. This field practicum is a continuation of the field experience begun in SWK 420. Students continue to use a problem-solving, systems approach as they become more experienced in an agency setting. Emphasis is placed on the specific needs and empowerment of special populations at the macro level, including a keen awareness of social justice issues as they relate to agency policy decisions and organizational structure.

SWK 452 **3 hours**
Research & Program Evaluation

This course introduces students to basic research and program evaluation methodology, utilizing research literature and program evaluation techniques, so that they can become informed consumers of research and proficient providers of program evaluation services in community-based settings. One aspect of the course focuses on developing an understanding of the basic principles of designing and conducting research. The other aspect of this course prepares students to conduct a Program Evaluation, which critically evaluates services, programs, treatments, plans, outcomes, cost, and satisfaction of the individuals served.

SWK 455 **3 hours**
Senior Seminar II (spring)

Prerequisites: SWK 420, SWK 421. Co-requisite: SWK 451. The course affords the opportunity to continue the integration of knowledge, values, and skills derived in social work courses through real-life practice situations experienced in the practicum, and is the capstone for the student's educational experience. Students produce an original work integrating her/his knowledge, values and skills based on field experiences.

SWK 475 **3 hours****Social Work Practice with Communities and Organizations: Generalist Practice IV**

Prerequisites: Social Work Major or consent of instructor. This course will focus on how students can effectively join, participate, and influence communities and organizations regarding social work related issues. Students will be expected to demonstrate a grasp of ecosystems theory in their approach and will be challenged to show how they can think and act ethically when encountering conflicts in macro-level work. Special emphasis will be placed on understanding the specific needs of diverse and vulnerable populations, and actions for empowerment which can be utilized at the macro level. This is a clinical practice class which requires interpersonal interaction with other students and/or community organizations.

SWK 490 **3 hours****Special Topics in Social Work**

Special topics courses offer the student opportunities to explore selected topics of interest in the discipline.

SWK 491 **1-3 hours****Directed Individualized Study in Social Work**

This variable credit course (1, 2, or 3 credit hours) provides individual students with a unique opportunity to study a particular area of interest under the directed supervision of a faculty member. Faculty approval must be obtained before registering for this class.

THE—Theatre**THE 300** **1-3 hours****Theater Practicum**

This course is designed to cast, rehearse, and present a theatrical production. Students will develop experience in the dramatic arts, including acting and technical aspects of production.

UNV—University Studies**UNV 101** **1 hour****Freshman Success Seminar**

An introduction to university academics and university life including the knowledge and use of college facilities and services. Students will be introduced to administrators, faculty programs and services at Thomas University. This course introduces skills for understanding and succeeding in the culture of higher education. Mandatory for all freshmen.

UNV 102 **2 hours****Student Success Seminar**

An in-depth-presentation of specific success strategies for college students: goal-setting, memory, test-taking, note-taking, reading and writing tips, critical thinking and relationships. Mandatory for all students in developmental classes.

UNV 103 **1 hour****Personal Wellness**

Prerequisite or concurrent course: UNV 101. This course emphasizes six dimensions of personal wellness (physical, emotional, social, spiritual, environmental, and intellectual) through education about nutrition, exercise, stress management and healthy relational behavior. This course reinforces wellness skills for understanding and succeeding in the culture of higher education.

UNV 111 **1 hour****Student Success with Technology Enhanced Learning**

This course provides a foundation for students to succeed in a technology enhanced learning environment. Students will explore courses management platforms, online tutoring services, electronic research tools, electronic communication methods (including video, audio, text, and multi-media conferencing), smartphone/tablet applications, software and similar technologies in a hands-on environment. Students will develop and/or extend their proficiency with these technologies as well as assess how their individual level of proficiency can influence their learning. In particular, this course will reinforce skills for developing learning strategies in order to reach personal goals, achieve academic success, and work efficiently in the technologically rich culture of the 21st century.

UNV 201 **1 hour****Career Development**

Prerequisite or concurrent course: UNV 101. This course exposes students to TU's major programs, facilitates students' self-assessment of aptitudes and interests through personality inventories and career profiles, and identifies and encourages a suitable choice of major and career opportunities matching students' strengths. This course reinforces skills for understanding and succeeding in the culture of higher education.

UNV 202**1 hour****Introduction to Ethics**

Prerequisite or concurrent course: UNV 101. This course extends students' understanding of ethical behavior in the academic setting, introduces students to traditional frameworks for ethical decision-making, and promotes self-assessment of personal and professional values and their influence on ethical perspectives. This course will reinforce skills for understanding and succeeding in the culture of higher education.

UNV 211**1 hour****College Research Skills**

This course is designed to increase students' information literacy skills. Students will learn how to define, understand, evaluate, organize, and communicate information effectively. Students will use critical thinking abilities to develop research skills, organize and present information, and comprehend the legal aspects of information use.

Delivery Mode for Course Offerings

Campus-based (CB): courses meet typically twice a week face-to-face for 1 hour and 20 minutes at a TU campus (Forbes campus, satellite, or Dual Enrollment high school coded SA or TC). Some CB courses may meet once per week. CB courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Hybrid Weekly (HW): courses meet face-to-face at least once a WEEK; the rest of the course content, instruction, and interaction occurs online through Blackboard and/or a program-specific context. HW courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Hybrid Bi-Weekly (HB): courses meet face-to-face every other WEEK; the rest of the course content, instruction, and interaction occurs online through Blackboard and/or a program-specific context. HB courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Hybrid Monthly (HM): courses meet face-to-face once a MONTH; the rest of the course content, instruction, and interaction occurs online through Blackboard and/or a program-specific context. HM courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Online (OL): course content, instruction, and interaction occurs entirely online and asynchronously through Blackboard and/or a program-specific context. OL courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Online (OS): course content, instruction, and interaction occurs entirely online through Blackboard and/or a program-specific context and includes synchronous online class meetings. OS courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Online with Campus-based Exams (OE): course content, instruction, and interaction occurs online through Blackboard and/or a program-specific context; however, students are required to take exams in a face-to-face proctored setting. OE courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Off-site Field Practicum or Internship (OF): courses meet off-site at another location where students learn through hours in a supervised professional setting. OF courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Lab (LB): course content is delivered in a learning-lab format. LB courses meet approximately 1 hour per week for face-to-face instruction while the remaining 2 hours per week is spent engaged in the learning lab. LB courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Directed Independent Study (DI): courses are supervised by a professor but the student works independently to complete course outcomes. DI courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Faculty Roster

Dr. Christine Ambrose (2012)

Assistant Professor of Conservation Biology; and Director of the GAPP Center. Ph.D., Florida Institute of Technology; B.S., Western State College.

Dr. Claire Dede Avery (2013)

Chair, Division of Counseling and Psychology, Assistant Professor of Psychology. Ph.D., M.A., Fielding Graduate University; B.S., Psychology, Thomas University.

Deana Baker (2013)

Chair, Division of Science, Assistant Professor of Biology. M.S., California State University; M.S., University of Florida; B.S., Eastern Mennonite College.

David Barnett (2014)

Instructor of Rehabilitation Studies, and Coordinator of Career Services. M.S., Thomas University; B.A., Brewton-Parker College.

Dr. Karl S. Barton (1997)

Chair, Division of Humanities and Interdisciplinary Studies. Professor of Music. D.M., M.M., Florida State University; M.M. University of Akron; B.M., Duquesne University.

Crawford Battle (2006)

Chair, Division of Criminal Justice, Instructor of Criminal Justice. M.S., Troy State University; M.S., Albany State University; B.S., Georgia Southern University.

Lori Battle (2007)

Assistant Professor of Criminal Justice. M.S., Troy University; M.S., Thomas University; M.P.A., Columbus State University; B.S., Thomas University.

Dr. Nilakshee Bhattacharya (2015)

Assistant Professor of Chemistry. Ph.D., Florida State University; M.S. Colorado State University; B.S. University of Calcutta.

Deborah L. Burch (2012)

Assistant Professor of Nursing. M.S.N., B.S.N., Florida State University; B.S., West Chester State University.

Dr. Nadine Connor (2015)

Chair, Division of Nursing. D.N.P., University of South Florida College of Nursing; M.S.N., F.N.P., University of Texas Health Science Center; B.S.N., Columbia University School of Nursing.

Dr. Kim Cribb (2007)

Associate Professor of Nursing. Ed.D., Valdosta State University; M.S.N., Albany State University; B.S.N., Valdosta State University.

Richard Curtis (2011)

Assistant Professor of Art. M.F.A., School of the Art Institute of Chicago; B.F.A, University of North Alabama.

Dr. Jill Dennis (2002)

Associate Vice President of Enrollment Management & Marketing. Professor of Medical Laboratory Science. Ed.D., M.Ed., Valdosta State University; B.S., Georgia State University.

Dr. Lisa DeGiorgio (2011)

Assistant Professor of Clinical Rehabilitation and Mental Health Counseling. Ph.D., University of Arizona; M.S., B.S., Utah State University.

Robin DePaola (2007)

Assistant Professor of Learning and Literacy. Coordinator of Academic Resource Center. M.S., University of Alabama; B.S., Berry College.

Dr. Steve DePaola (2003)

Associate Professor of Psychology. Ph.D., M.S., University of Memphis; B.A., California State University, Fullerton.

Dr. Jason Dunn (2015)

Assistant Professor of English. Ph.D., University of California, Davis; M.A., San Diego State University, B.A., University of South Florida.

Dr. Tina Fleming (2016)

Assistant Professor of Clinical Rehabilitation and Mental Health Counseling. Ed.D., Argosy University; M.S., Thomas University; B.A., Albany State University.

Susan Ford (1989)

Director of Academic Advising and University Studies, Associate Professor of Learning and Literacy. M.S., B.S., Florida State University.

Dr. Susan Fowler (2001)

Associate Professor of Social Work. Ed.D., M.S.W., University of Georgia; M.Ed., University of South Carolina; B.A., Emory University.

Dr. Dale Graham (2003)

Associate Professor of Mathematics. Ph.D., Florida State University; M.S., B.S., Valdosta State University.

Dr. Debra Gresham (2010)

Assistant Professor of Social Work. Ph.D., Florida State University; M.S.W., B.A., University of Georgia.

Dr. Scott Grubbs (2016)

Instructor of Education. Ph.D., Florida State University; M.Ed., Valdosta State University; B.A., University of Georgia.

Dr. Susan Hagood (2013)

Associate Professor of Education, Coordinator of Assessment & Accreditation. Ph.D., M.S., B.S., Florida State University.

Dr. Eleanor Hall (2007)

Associate Professor of Nursing. Ph.D., Georgia State University; M.S.N., B.S., Vanderbilt University; Diploma, Baptist Memorial College.

Jennifer Hamilton (2013)

Instructor of Education. Coordinator of Field Placements and Partnerships. M.S., Thomas University; B.S., Newberry College.

Mina Haretos (2015)

Instructor of Business. M.B.A., Valdosta State University; B.A., Flagler College.

Elizabeth Harrell (2015)

Instructor of Biology. M.A.T., University of West Alabama; B.S.I.S., Mississippi State University.

Karen Harvey (1998)

Instructor of Computer Science. M.S., Valdosta State University; B.A., California University of Pennsylvania.

Dr. Diane Hopkins (2012)

Assistant Professor of Biology, Ph.D., Vanderbilt University; M.S., Tennessee Technology University; B.A., Carson-Newman College.

Jennifer Howell (2015)

Instructor of Rehabilitation Counseling. M.S., B.A., Georgia Regents University.

Scott Johnson (2008)

Instructor of Criminal Justice. M.P.A., Columbus State University; B.S., Thomas University.

Dr. Cristina Jones (2011)

Assistant Professor of Rehabilitation Studies. Ph.D., Florida State University; M.S., Florida State University; B.S., Florida State University.

Dr. Steve Kuniak (2016)

Assistant Professor of Counseling. Ph.D., M.S., Duquesne University; B.A., Saint Vincent College.

Dr. Ann Landis (1998)

Executive Vice President and Provost, Professor of English. Ph.D., Florida State University; M.A., James Madison University; B.A., Eastern Mennonite University.

Ingee Lee (2010)

Assistant Professor of Mathematics. M.Ed., B.S., University of North Carolina.

Dr. Susan Lynn (2010)

Chair, Division of Education, Professor of Education. Ph.D., University of South Carolina; M.S., University of Tennessee; B.S., Coker College.

Terry L. Maul (1994)

Assistant Professor of Sociology. M.S., B.S., Florida State University.

Dr. Carolyn S. McClenny (2004)

Associate Professor of Learning and Literacy. Ph.D., Florida State University; M.S., B.A., University of North Carolina, Chapel Hill.

Dr. John Meis (2016)

Associate Vice President of Academic Affairs, Associate Professor of Psychology. Ph.D., M.S., Florida State University; B.A., Rollins College.

Lisa Mitchell (2004)

Assistant Professor of Speech & Theater. M.S., B.A., Florida State University.

Dr. Laura Moak (2016)

Assistant Professor of Education. Ed.D, Argosy University; M.S., Georgia State University; M.A., Southwestern Baptist Theological Seminary; B.M.E., Southeastern Louisiana University.

Gale Neal (2015)

Assistant Professor of Education and Graduate Program Coordinator. M.S., B.A., Florida State University

Dr. Martha O'Neill (2008)

Associate Professor of Nursing. Ph.D., University of Florida; M.S., University of Arizona; B.S.N., University of Michigan.

Jaime Ortiz (2015)

Assistant Professor of Medical Laboratory Science. M.B.A., B.S., Thomas University, A.A.S., Valdosta Technical College.

Remigio Padilla-Hernandez (2013)

Instructor of Mathematics. Coordinator of Mathematics. International Student Advisor. M.Ed., B.S., Valdosta State University.

Dr. Pauline Patrick (2008)

Assistant Professor of Clinical Rehabilitation and Mental Health Counseling; Director of Disabilities Support Services; Graduate Program Director. D.S.W., University of Tennessee, M.S.W., Florida State University; B.S., Union College.

Dr. Jennifer Phillips (2015)

Assistant Professor of Education. Ed.D., B.S., Florida State University.

Dr. Pauline Ray (2005)

Associate Professor of Business. Ph.D., Touro University; M.S., B.S., Mississippi University for Women; B.S., Mississippi State University.

Dr. James A. Sheppard (2016)

President. Ph.D., The University of Sheffield; M.A., Iliff School of Theology; B.A., Bethany College.

Dr. Sandra Simonds (2010)

Assistant Professor of English. Ph.D., Florida State University; M.F.A., University of Montana; B.A., University of California.

Dr. Minjung Song (2016)

Assistant Professor of Psychology. Ph.D., M.A., University of Nebraska – Lincoln; B.B.A., Korea University; B.A., Duksung Women's University

Dr. Jenny Swearingen (2000)

Interim Chair, Division of Business, Assistant Professor of Business. D.B.A., M.B.A., Nova Southeastern University; B.A., University of South Florida.

R.C. Tucker, Jr. (2015)

Instructor of Education. M.Ed., B.S., Thomas University.

Dr. Todd Van Wieren (2015)

Assistant Professor of Clinical Rehabilitation & Mental Health Counseling. Ph.D., Virginia Commonwealth University; M.A., University of Iowa; B.A., Calvin College.

Katy Watson (2016)

Instructor of Medical Laboratory Science. B.S., Thomas University.

Gale N. Whitehurst (1975)

Professor of History. M.A.T., B.A., Rollins College.

Dr. Bonnie Woodbery (2003)

Associate Professor of English. Ph.D., M.A., B.A., Florida State University.

Dr. Shannon Woods (2008)

Assistant Professor of Nursing. D.N.P., University of Central Arkansas; M.S.N., Thomas University; B.S.N., University of Central Arkansas.

Dr. Jodi Yambor (1993)

Professor of Sport Psychology. Ph.D., M.S., Florida State University; B.A., University of Miami.

Professor Emeriti:**Howard J. Floyd (1986-2000)**

Associate Professor of Business M.B.A., University of Georgia.

James E. Hodges (1985)

Associate Professor of English, M.A., B.A., Florida State University.

Richard W. Search (1983-2007)

Professor of Natural Sciences. M.S., B.S., University of Miami.

Thomas University

Alma Mater

Alma Mater

(Words by Dr. Douglas Haydel
Music by Dr. Michael Webb)

*Under pine and dogwood flowering,
stately and serene,
stands our cherished alma mater,
honored white and green.*

*Through tradition, toward tomorrow,
beacon bright for all to see,
Alma mater, Thomas University.*

*Art and science, God and country,
show a better way.*

*We, whose challenge leads to triumph,
gather here today.*

*Building knowledge, seeking wisdom,
setting minds and spirits free.
Alma mater, Thomas University.*

Thomas University Mission

Vision Statement

Thomas University will be a national leader in innovative teaching and interactive technology that engages students in creative problem-solving for the Information Age.

Mission Statement

Thomas University is the school of choice for students in undergraduate and graduate programs to prepare for successful careers and responsible leadership in a rapidly changing and complex world. The faculty and staff value students' individual strengths, capabilities, and will to succeed, providing the means by which they will achieve personal and professional transformation.

Values

Thomas University values

- ...dynamic learning environments that engage students in their intellectual and personal development;
- ...rigorous intellectual studies that require creativity, discipline and personal responsibility;
- ...diversity and its use as a learning tool to teach that the world is a better place when respect for the individual is central to our relationship with others;
- ...community involvement, including cultural and artistic experiences, that enriches the lives of our students, as well as their fellow citizens;
- ...individual attention to all students;
- ...a lifetime connection with our students.

Role and Scope Statement

As a private, not-for-profit, non-sectarian, coeducational institution, Thomas University is committed to providing quality educational opportunities to both traditional and non-traditional, U.S. and international students. The University offers associates, bachelors, and master's degrees. The academic mission focuses primarily on providing students with professional preparation with a strong liberal arts and sciences foundation. Students develop the capability to think critically, discover information, foster community, and communicate effectively, enabling them to adapt to changing demands over time.

Nondiscrimination Policy

Thomas University is an Equal Opportunity University open to any qualified individual without regard to race, religion, sex, age, color, national or ethnic origin, or disability. Pursuant to all applicable federal anti-discrimination laws and regulations, Thomas University does not discriminate against any of the protected categories of individuals in the administration of its policies, programs or activities. This non-discriminatory policy includes admission policies, scholarship and loan programs, employment practices, and athletic and other school-administered programs.

Diversity Statement

At Thomas University, we believe that an environment that fosters respect for the diversity among our faculty, students, and staff strengthens the institution, stimulates creativity, promotes the open exchange of new ideas, and enriches campus and community life. Actions that serve to intimidate others or discriminate against individuals or groups are in conflict with Thomas University's educational mission to maintain and enhance an intellectual, social, and work environment free from intolerance and discrimination. In addition to and including all applicable state and federal laws prohibiting discrimination, Thomas University is committed to creating an educational environment that promotes academic excellence where diversity is valued and individuals are treated with respect, regardless of race, gender, age, sexual orientation, religion, ethnicity, or disability.

Confidentiality of Student Records

Thomas University complies with the Family Educational Rights and Privacy Act of 1974 ("Buckley Amendment," 20 U.S.C. 1230, 1232 g) to better guarantee the rights of privacy and access to student records.

Students with Disabilities

Students with disabilities are responsible for making sure that the Thomas University Office of Disability Support Services is made aware of his/her disability requiring accommodation in his/her educational process. Any student requiring assistance beyond the regular classroom needs is urged to speak with the instructor about the nature of the disability at the

beginning of the term. Not all disabilities are obvious and may require documentation, as is the case with learning disabilities. Students with disabilities should contact Pauline Patrick, Director of Disability Support Services, in Smith-Bonvillian Hall for classroom accommodations. Students are responsible for requesting accommodations in a timely manner so that instructors, professors, and coordinators may plan for those accommodations, for more details see [Academic Accommodations for Students with Disabilities](#) on page 33.

Accreditation & Authorization

Thomas University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate, baccalaureate, and master's degrees. Contact the Southern Association of Colleges and Schools Commission on Colleges 1866 Southern Lane, Decatur, GA 30033 or call 404-679-4500 for questions about the accreditation of Thomas University.

The Thomas University Bachelor of Science in Business Administration program and Master of Business Administration program are fully accredited by the International Assembly of Collegiate Business Education (IACBE).

International Assembly of Collegiate Business Education
P.O. Box 3960
Olathe, KS 66063

The Master of Science in Clinical Rehabilitation and Mental Health Counseling degree is accredited by the Council on Rehabilitation Education (CORE) and in candidacy for accreditation by the Council for Accreditation of Counseling and Related Educational Programs (CACREP).

Thomas University is authorized by the Professional Standards Commission of Georgia (GaPSC) to offer teacher certification programs for Early Childhood Education, Middle Grades Education, and Secondary Education. All advanced preparation programs offered by Thomas University as a GaPSC-approved university are accepted by the GaPSC for the purposes of certificate level upgrades.

The Thomas University Bachelor of Science in Medical Laboratory Science Program is fully accredited by the National Accrediting Agency for Clinical Laboratory Sciences.

This Catalog Supersedes All Previous Catalogs and/or Supplements.

The statements set forth in this catalog are for informational purposes only and are not to be construed as the basis of a contract between a student and the University. Thomas University reserves the right to revise all announcements contained in this publication and, at its discretion, to make reasonable changes in requirements to improve or upgrade academic and non-academic programs, without actual notice to individual students. Every effort will be made to keep students advised of such changes. Information on catalog changes will be available on the Thomas University website and in the Academic Affairs office.

Each student has the responsibility to stay informed on current instructional policies and requirements, including current graduation requirements for any particular degree program.

University Facilities

A Tobacco-Free University

Smoking and any other use of tobacco or “tobacco-like” products is prohibited on university property. “Smoking” is defined as the burning of a cigar, a cigarette, pipe or other device containing tobacco or any “tobacco-like” substance. “Other use” includes snorting, chewing or spitting of smokeless tobacco, snuff and similar substances. “University property” includes all real estate owned, leased or controlled by the university, including the grounds, playing fields, walkways, roadways, parking lots and areas in and around the perimeter of any building. This policy also applies to privately owned vehicles on university property.

Campus

Thomas University, founded in 1950, is located on the site of the former Birdwood Plantation. Birdwood was initially developed in 1932 as a winter home for the Right Honorable William Cameron Forbes, former Governor General of the Philippine Islands and Ambassador to Japan. The original buildings are a historical feature of today’s campus. The manor house, which is on the National Historic Register, has been renovated and now serves as the Forbes Administration Building. The original dining room, kitchen, and guest rooms serve as the faculty annex and are connected to the manor house by a colonnade. The annex provides space for administration and faculty offices. The original carriage house has been remodeled for use as the business office. Since 1950, several buildings have been moved onto the campus, including the Birdwood Chapel, which was originally the Mount Carmel Primitive Baptist Church, and several classroom buildings. The campus facilities include sports and recreation areas, and are currently undergoing many expansion projects.

In 2009-10 the campus grounds were extensively upgraded and beautified. New entries, parking lots, sidewalks, lighting, and abundant landscaping contribute to the traditional pastoral campus design. A highlight of this campus design is the John and Beth Wright University Park, complete with a lake.

Campus Facilities

Within about a 2 mile radius, TU has 74 acres. They include the Forbes campus; the Magnolia Campus; the Trails; the Pinetree Residence Hall; and two ball fields.

Buildings located on the **Forbes campus** include:

Academic Complex. The Academic Complex, built in 1985, is comprised of the library; an ARC computer lab; classrooms; and biology, chemistry, and physical science laboratories. In addition to print and electronic research materials, the library houses two computer labs, a computer classroom, a Mac Lab, and the Career Center. The library also houses the offices of the Director of Library and Information Services, university librarians and staff, and the Academic Technology Specialist.

Balfour Chapel. The chapel, which formerly served as Mount Carmel Baptist Church, was moved to the campus of, then, Birdwood Junior College in 1952. It has now been moved from its original setting, and once renovated and returned to its original purpose, the chapel is part of the Ben Grace Historic Quad, named for the longtime supporter and Trustee Emeritus of the university.

Birdwood Annex. The Birdwood Annex was constructed in 1932 as a guesthouse on the Forbes Estate. It is connected to the Forbes Administration Building by a two-story colonnade. The Birdwood Annex houses, the Vice President for Advancement, the publications office and public relations office and Alumni Affairs.

Business Services. The building in which the university’s Business Service is located was originally the carriage house for Ambassador Forbes, an avid polo player. This building is one of the last of the original buildings of Birdwood Plantation and is located on the east side of the campus. It has been remodeled to house the offices of accounts receivable, accounts payable, purchasing, and information technology.

Campus Center. Constructed in 1996 and renovated in 2009, this building is located near the Forbes campus entrance. It houses the Hawk’s Nest (food service), offices for the Registrar and Staff, and the Campus

Connection Center (Spirit Shop, e-bookstore and Student Information Center). The Campus Center Classroom is also housed here.

Education Building. This building houses the Division of Education and was renovated in 2000 and again in 2009. Included in this building are two classrooms, one of which is a computer lab, and faculty offices.

Forbes Hall. Forbes Hall, located near the west entrance, was built in 1932 and was the original summer residence of U.S. Ambassador Cameron Forbes. This building houses the offices of the President, Executive Vice President and Provost for Academic Affairs, Senior Vice President of Finance and Administration, Associate Vice President of Academic Affairs, Director of Academic Operations, and Director of Human Resources.

Ireland-Poe Building. The Ireland-Poe Building was renovated in 2007 and again in 2009. It currently houses the Division of Science.

Kathryn S. Read Recreational Complex. The Read Recreational Complex, located near the soccer field at the Millpond Road entrance, includes a tennis court and a volleyball court.

Magnolia Building. The Magnolia Building was constructed in 2003, and was renovated in 2010 and again in 2013. It contains 2,688 square feet. This building houses the Academic Resource Center (ARC) and the Geospatial Analysis for Planning and Preservation Center (GAPP), and faculty offices.

Maintenance Building. The maintenance building was constructed in 1993, and is located adjacent to the Smitha Fine Arts Building. The functions of plant operations, maintenance, renovations, and security are the mission of the Director of Physical Plant, maintenance staff, and custodians whose office is in this building.

Outdoor Playhouse. The outdoor playhouse was constructed in 1995 and has been renovated in 2010, to provide an outdoor stage and presentation area. This facility is used for campus plays and other performances.

Philip G. Rust Science Complex. The Philip G. Rust Science Complex was constructed in 1998, and is connected via a breezeway to the Academic Complex. This building includes five classrooms, two laboratories, and a lab preparation room.

Rehberg Soccer Field House. The Rehberg Soccer facility was constructed in 1999. It houses a concession area, public bathrooms, team dressing areas, storage, and showers.

Smith-Bonvillian Hall. This building was constructed in 2013. It is a two-story 19,000 square-foot building creating the western perimeter of the campus's Academic Quadrangle. It includes the Flowers Executive Classroom, a tiered auditorium with 124 seats and state-of-the-art presentation technology for conferences and events, three additional classrooms and three conference rooms. Offices for the Division of Counseling and Psychology, the Division of Criminal Justice, the Division of Nursing, and the Division of Social Work are also housed in Smith-Bonvillian Hall. Connected to the main building by a covered breezeway is the Davis Annex which houses offices for the Division of Business and the Division of Humanities. The total facility provides 34 faculty offices.

Student Affairs. In 1976, the current Student Affairs building was attached to the Carriage House and the combined facility served as the library for ten years. It now houses the offices of the Associate Vice President of Enrollment Management, the Director of Admissions, Director of Financial Aid, and financial aid counselors.

The **Magnolia campus** was purchased in January 2011. It holds:

Gymnasium. The Gymnasium has 1,360 person capacity and includes a basketball court, locker rooms, and a concession area.

Residence Halls. Thomas University has three residence halls. In addition to the Pinetree Residence Hall, located about two miles from the Forbes campus and housing approximately 65 students, two new residence halls opened on TU's Magnolia Campus in the fall of 2016, housing an additional 80 students in apartment suite style units.

Student Life Building. The Student Life building houses Athletics and Student Life offices, a fitness center and training room, the Humanities complex and classrooms, and Pre-College TRiO programs.

The Trails is eight acres located within one mile of the Forbes campus. It currently is used as a walking trail available to students and the public to explore nature.

It has been used in classes to identify various native plant life.

The baseball and softball fields are located approximately 1.5 miles away from the Forbes campus. Currently these fields are owned by the city of Thomasville and maintained by Thomas University. Long term plans are to have the playing fields relocated to the Magnolia campus facility.

Admission & Financial Aid

Classification of Students

Students are classified upon entrance as freshmen, transfer, graduate, non-degree seeking, special standing, dual enrolled or audit.

First Time Freshman: student has completed high school and is entering college. Previously dual enrolled students and those applying for early admission are included in this category.

Transfer Student: one who has terminated enrollment in an academic program at another college or university and who enrolls at Thomas University.

Graduate Student: one who has obtained a bachelor's degree from a regionally-accredited U.S. college or university or an approved foreign university and has been admitted to a specific graduate program at Thomas University.

Transient Student: one who plans to graduate from another institution and is enrolled in a specific course, or courses, at Thomas University with permission of their parent institution. Transient students must present letters of transient permission in lieu of previous educational records. A student who expects to graduate from Thomas University may be granted transient permission by the Thomas University registrar and his/her program division chair to attend another institution.

Special Standing Non-Degree Seeking: student enrolled in classes not leading toward a degree program. Credit is awarded for successful completion of coursework. This category includes: high school dual enrolled students, graduate special standing or bridge program students and those pursuing a certificate program.

Audit: student enrolled in classes not leading toward a degree. No credit is earned.

Undergraduate Admissions

Admission Procedures for First Time Freshmen

1. Submit an application for admission with required non-refundable fee. (\$35)
2. Provide an official copy of the high school transcript or GED certificate. A minimum high school GPA of 2.0 is required.
3. Submit official SAT and/or ACT scores*

*The SAT/ACT requirement can be waived if the student:

- Submits college level credit for English composition (ENG101 or equivalent) and mathematics (MTH120 or MTH140 or MTH 150 or equivalent).
- Completes Thomas University's mathematics, reading, and/or writing placement tests (see page 16).

Students who submit either an ACT or SAT score at or above the minimum scores in the individual subject areas listed below are eligible to enroll in the corresponding core curriculum courses without any pre-requisite, developmental course work, or any further placement testing. Students submitting scores below the minimum scores listed below will be required to enroll in pre-requisite, developmental course work in the corresponding subject area.

Course	ACT	SAT*
English	English 18	Reading & Writing 490
Math	Mathematics 17	Math 450
Reading	Reading 18	Reading 24

*SAT 2016 criteria; For older versions of the SAT, please contact the Admissions office

Thomas University welcomes applications from non-traditional students, those entering college for the first time and those with some previous college coursework and have not recently graduated from high school. An applicant with less than 14 hours of college credit is classified as a first-time, first-year student.

Non-degree seeking undergraduate students must complete all three steps.

Admission and financial aid files **must be complete** before financial aid is processed. Incomplete files will result in loss of any financial aid awards.

Thomas University is authorized under federal law to enroll non-immigrant alien students. These students

normally must complete steps one and two, and submit:

- Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
- China English Test (CET) minimum of level 4; OR
- International English Language Testing System (IELTS) minimum 5.

Admission Procedures for Home-schooled Students

1. An application for admission with required non-refundable fee (\$35)
2. Transcripts of home school course work or GED Certificate
3. Copy of the Declaration of Intent to Home School as filed online with the Georgia Department of Education.
4. Submit official ACT and/or SAT scores

NOTE: If studies are completed through a formal home school program, this record should be an official transcript of the program. If the program is crafted by parents or others, a detailed account of subjects studied, texts used, and other required reading should accompany an evaluation of the student's performance in specific areas. High school credits must include the following:

English	4
Math	3
Natural Science	3
Social Sciences	3

*If the home school transcript does not meet the above requirements, a student can be admitted with the minimum ACT or SAT scores listed below for all three subject areas:

Subject	ACT	SAT*
English	English 18	Reading & Writing 490
Math	Mathematics 17	Math 450
Reading	Reading 18	Reading 24

***SAT 2016 criteria; For older versions of the SAT, please contact the Admissions office**

Placement Testing

Thomas University requires that all first-time students submit scores from the ACT or SAT.

However, this admission requirement can be waived if students complete Thomas University placement testing for proper placement and course advisement. These procedures may include Residual ACT and/or institutional-based instruments, ACCUPLACER, or COMPASS. This placement testing can be taken on the Thomas University campus or at remote testing centers near the student. The first exam is free. Re-tests are \$35 each. The first re-test may be taken no sooner than 24 hours after the first exam. For each additional re-test, the students must wait 30 days from the date of the last exam. Transfer students who have taken the appropriate placement test within the past five years at a prior institution may use these scores. Students may re-take the placement test once, no sooner than 24 hours after the first exam. For assistance in setting up an appointment for placement testing, students should contact the Office of Admissions at 229-226-1621 or 229-227-6925.

Developmental Studies Courses

Students scoring below the required level for entrance into college level academic courses are required to register for Developmental Studies courses. Successful completion of appropriate Developmental Studies classes is required before a student is admitted into degree programs. However, students are not restricted to taking only Developmental Studies courses. Certain college-level courses may be taken while completing the Developmental Studies courses.

Students who place into Developmental Studies courses should be aware of the following requirements:

- All students who take two or more Developmental Studies courses at Thomas University must take UNV 102 Student Success Seminar.
- All courses listed with a number less than 101 are taken for institutional credit only.

Transfer Admissions

Thomas University welcomes applications from transfer students.

Admission Procedures for Undergraduate Transfer Students

1. Submit an application with a required non-refundable fee (\$35). Provide official academic transcripts from all colleges and/or universities previously attended.

2. Submit transcripts from all colleges/universities previously attended
3. Students who have not earned MTH120 or MTH140 equivalent credits, and/or have not earned ENG101 equivalent credits will be required to submit ACT/SAT scores or take Thomas University's math, reading, and writing placement tests.
4. Transfer students who have been out of college for more than 5 years will be required to submit ACT/SAT scores or take Thomas University's math, reading, and writing placement tests.

To be admitted to Thomas University, transfer students must have a cumulative grade point average of 2.0 or greater, calculated on all prior coursework. A cumulative GPA lower than 2.0 will be considered for provisional admission by the Thomas University Admission Committee.

If transferring 14 semester credits or less, transfer students must meet all requirements for entering freshmen and submit an official high school transcript or copy of the GED certificate.

Transfer Policy for Students with an Associate's Degree

Thomas University will accept an Associate of Arts degree (AA) issued by a regionally accredited post-secondary institution to entirely satisfy the core requirements at Thomas University.

1. Transfer students with an AA degree must take and pass the Critical Writing, Reading, and Thinking Exam (CWRTE).
2. Students transferring with an Associate of Science (AS) or Associate of Applied Technology (AAT) will be required to take additional courses to strengthen areas in the Core. If these requirements include English Composition and/or Mathematics (MTH120, 140, 150 or equivalent), the student may be required to submit ACT or SAT scores, or complete Thomas University placement testing.
3. Students with any degree are responsible for meeting prerequisites in their major program.
4. Students with an associate's degree must declare a major at the time of transfer.
5. Students will not have to retake a course that has been transferred from a community/junior college.
6. Up to nine credit hours approved by the Division Chair and Associate Vice President of Academic Affairs can be used to satisfy upper division

program requirements. Students may not apply credit hours as part of the AA degree and a part of the major degree requirements.

Students who have been enrolled at another institution must report previous college attendance. The applicant must have been honorably released by the last institution attended. Failure to report previous attendance or less than honorable withdrawal may be cause for dismissal. A transfer student must request an official transcript from each college or university previously attended. All previous work done by a student at other institutions will be evaluated by the registrar of Thomas University. Completed transfer of credit evaluations is final.

Advanced standing for a student will be allowed for work successfully completed at other accredited institutions.

To earn an **associate's degree** from Thomas University, a student must complete a minimum of 15 semester hours at Thomas University.

To receive a **bachelor's degree**, students must earn 30 hours of major program upper division course credit at Thomas University. Twenty-four (24) hours of the last 30 hours of upper division courses within the major must be taken at Thomas University. In addition, 25% of the total hours required for the degree must have been taken at Thomas University. Departmental Credit by Exam and upper division Open Elective credits do not count toward the required 30 major program hours.

Transfer Credit

The registrar will determine the transfer courses which are acceptable toward the student's declared major. Transfer credit may be given for those courses taken at regionally accredited institutions provided that the courses are at the college level or contained in an articulation agreement that fall within the scope of Thomas University's curriculum. Acceptability of equivalent courses that fall within the scope of Thomas University's curriculum is subject to the approval of the appropriate division chairperson and Associate Vice President of Academic Affairs.

Transfer credit will be awarded only for courses with grades of "C" or higher.

Students who fail a course at Thomas University (defined as a grade below that needed for credit for the course at Thomas University) then successfully

complete the same course at another institution cannot transfer that course back to Thomas University without validating competence in that specific course. Competency will be determined by the appropriate division chair.

Students suspended or excluded for academic or disciplinary reasons from another institution of higher education shall not be admitted to Thomas University until such suspension or exclusion is cleared.

Readmitted Students

Students, who have interrupted their studies at Thomas University and have not been enrolled for three consecutive semesters (one full academic year) or longer and wish to return, must apply for readmission.

To be readmitted to Thomas University, students must have a cumulative grade point average of 2.0 or greater calculated on all prior coursework.

1. A cumulative GPA lower than 2.0 will be considered for provisional admission by the Admission Committee.
2. Students denied admission may submit a letter of appeal to be reviewed by the Admission Review Committee.
3. Students who are readmitted must comply with all requirements of the current catalog, must update demographic information and be counseled on current programs, policies, and requirements.

Provisionally Accepted Students

Transfer students or students applying for readmittance to Thomas University who have a cumulative GPA lower than 2.0 will be considered for provisional admission by the Admission Review Committee.

1. Students provisionally admitted to Thomas University must submit ACT/SAT scores to facilitate accurate course placement. This requirement can be waived; however, the student will be required to complete Thomas University's placement tests.
2. Students' ACT and/or SAT scores must meet the minimum scores listed below, or students will be required to take developmental courses. A student must successfully pass any developmental courses with a grade of C or better in order to continue at Thomas University.

Subject	ACT	SAT*
English	English 18	Reading & Writing 490
Math	Mathematics 17	Math 450
Reading	Reading 18	Reading 24

***SAT2016 criteria; For older versions of the SAT, please contact the Admissions office**

3. Students denied admission may submit a letter of appeal to be reviewed by the Admission Review Committee.
4. Provisionally admitted students will enter on Academic Probation. They must earn at least a 2.0 GPA during their first semester or they will be placed on Academic Exclusion.

Undergraduate Special Standing Non-degree Seeking Students

Non-degree Seeking Special Standing Student: is a classification assigned to an undergraduate non-degree-seeking student for registration privileges within a specified non-degree or certificate program. Admission as a special student is subject to approval.

- Special students may enroll for up to a total of 15 undergraduate credit hours under the special student designation.
- All credit hours earned as a special student will be reflected on the student's permanent academic transcript.
- A special student who wishes to take classes in excess of 15 credit hours, or who subsequently decides to pursue a degree at Thomas University may be reclassified as a regular student upon meeting regular admission requirements.
- Enrollment as a special student does not guarantee admission to the University or any academic program.
- In order to ensure adequate preparation for the academic rigor involved in University coursework, it is preferred that special students have at least a minimum of an associate degree including English Composition, but transcripts will be evaluated on an individual basis to consider applicants' readiness for college credit courses.
- Up to three credits of prior college coursework may be approved to be applied toward the completion of a certificate program.
- To apply for special student status, a completed Thomas University application must be

accompanied by a \$35 nonrefundable application fee and official transcripts from all institutions previously attended.

- Special students waive rights to all federal financial aid.
- All registration by special students is on a space-available basis and, in some cases, may require departmental approval.

Early Admission Students

Early Admission Student: is one who has completed requirements for high school early, been awarded a high school diploma or GED and wishes to enroll in college early. Students may be accepted for early admission if they have:

1. earned a minimum grade point average of 3.0;
2. ACT and/or SAT scores that meet the minimum ACT or SAT scores listed below. Students who have not yet taken the ACT or SAT may substitute Residual ACT or Thomas University's placement exam.

Subject	ACT	SAT*
English	English 18	Reading & Writing 490
Math	Mathematics 17	Math 450
Reading	Reading 18	Reading 24

*SAT2016 criteria; For older versions of the SAT, please contact the Admissions office; **and**

3. submitted a written recommendation for early admission by the high school principal or counselor.

Early admission students are advised to verify the transferability of early admission credit to another educational institution.

Dual Enrollment Students

Georgia high school students are eligible to participate in the Move on When Ready program, which provides scholarship funds for students attending public or private postsecondary institutions as a dual enrollment student.

Move On When Ready

The Move On When Ready (MOWR) program provides dual enrollment opportunities for students who are enrolled at participating eligible public, private, or home school programs in Georgia. Participating

students take postsecondary coursework for credit towards both high school graduation and postsecondary requirements. Move On When Ready applicants should complete the Thomas University admission application **and** the MOWR application found online at www.gatracs.org. Applicants should speak with their high school guidance counselor for classification as a MOWR student and additional program information.

Thomas University MOWR Admission Requirements

1. Thomas University application for admission. High School transcript (*counselor recommendation required with high school GPA less than 2.0*)
2. Students must submit minimum ACT or SAT scores listed below. Students who have not yet taken the ACT or SAT may substitute Residual ACT or Thomas University's placement exam.

Subject	ACT	SAT*
English	English 18	Reading & Writing 490
Math	Mathematics 17	Math 450
Reading	Reading 18	Reading 24

***SAT2016 criteria; For older versions of the SAT, please contact the Admissions office**

Tuition, textbooks, and fees are covered by MOWR funding. Students are responsible for their own transportation and any food costs.

MOWR hours do not count against hourly caps for HOPE scholarships or grants.

The local high school may also set specific academic requirements for students who wish to participate.

For further information on state requirements, please visit the Gatracs a www.gatracs.org

Associate of Arts in Liberal Studies Program

The Associate of Arts in Liberal Studies Program (AA LiSt) is a rigorous program which allows students who meet the requirement for the program to earn an associate's degree through Thomas University while meeting high school graduation requirements. Students earn credit towards their associate's degree with a combination of Advanced Placement courses taken at the high school and courses taken through Thomas University. Students begin this program in

their sophomore year of high school and must be recommended by the high school counselor.

AA LiSt Admission Requirements

- Two letters of recommendation from teachers who can attest to the student's academic performance and level of maturity needed to be successful in the program.
- High School transcript. High school grade average of 3.2 in all ninth grade classes. (Students must check with their high school for additional specific academic requirements.)
- A brief written statement in which the student explains his or her educational and career goals.
- As a high school sophomore, the applicant should submit PSAT scores OR scores on Thomas University's placement test. Scores must be college-level. As a high school junior, the student should submit SAT scores of 440 Critical Reading and 410 on Math OR an ACT score of 18 English and 17 Math. Students must check with their high school for additional specific academic requirements.
- Completion of the Thomas University application process.
- Students are admitted conditionally during the first year and then fully after official SAT scores are on file.
Students must meet with their high school counselor to apply to this program.
- The program is limited to no more than 15 students per academic year. Each cohort must have a minimum of 8 students.
Students must maintain a 3.0 cumulative GPA to remain in the program.
- Tuition for specific courses is funded through the MOWR program; other courses necessary for the degree will be offered at the MOWR tuition rate. Students are responsible for fees and books only for the courses that are not state approved.

Audit Students

The university welcomes, on a space-available basis, individuals who wish to audit undergraduate courses for nonacademic credit. Students are not required to submit transcripts to audit courses. All prerequisites must be met before auditing any course. Division chairs may determine additional restrictions and/or exceptions on a case by case basis. Graduate courses may not be audited. Audit fees will be for tuition and technology fees and the student is responsible for books and special fees. Any person over the age of 65 may audit a class at no charge. A student who elects to

change from audit to credit while taking the course will be required to pay all applicable fees and will be required to meet the admissions criteria for the appropriate student type. Students will not be permitted to change from audit to credit or vice versa after the last date of the drop/add period. Students may not take a course for credit that they have already completed as an audit.

Procedures for Students with Disabilities

1. Students must file official documentation of their disability with the Director of Disabilities Services (ppatrick@thomasu.edu) including, if applicable, additional documentation of modifications followed by their high school. This should include a medical diagnosis, and a copy of the 504 Plan or the IEP used by the student's high school. The Office of Disability Services is located in Smith-Bonvillian, C201.
2. Students with disabilities are responsible for notifying each of their professors each semester regarding the specific modifications needed.
3. Professors may check with the Director of Disabilities Services to verify the disability and the need for modifications.

Undergraduate International Admission

Thomas University will admit international students who meet admission requirements and provide all necessary documentation to enter the United States under an F-1 status student visa. Application for admission should be made at least two months prior to the term in which a student plans to enroll.

Students must complete the following steps and submit all documents to the Office of Admission before an I-20 form may be issued.

To apply to Thomas University as a **first time undergraduate**, please send the following materials:

- A completed Undergraduate Application for Admission.
- A US \$125 nonrefundable application fee (made payable to Thomas University).
- Official secondary school transcript including notice of graduation and diploma. The transcript and diploma must be translated into English; translation must be certified for accuracy and accompanied by a professional evaluation (see Foreign Transcript section).

- For non-native speakers of English:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
 - China English Test (CET) minimum of level 4; OR
 - International English Language Testing System (IELTS) minimum 5.
- A signed confidential statement of finances with evidence of sponsorship and support.
- A stamped and signed statement from student's bank certifying finances.

To apply to Thomas University as a **transfer undergraduate (from an institution outside of the United States)**, please send the following materials:

- A completed Undergraduate Application for Admission
- A US \$125 nonrefundable application fee (made payable to Thomas University)
- Official transcripts from all institutions attended. Any transcript from an institution outside of the United States must be translated into English; translation must be certified for accuracy and accompanied by a professional evaluation (see Foreign Transcript section).
- For non-native speakers of English:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
 - China English Test (CET) minimum of level 4; OR
 - International English Language Testing System (IELTS) minimum 5.
- A signed confidential statement of finances with evidence of sponsorship and support.
- A stamped and signed statement from student's bank certifying finances.

To apply to Thomas University as a **transfer undergraduate (from another United States institution)**, please send the following materials:

- A completed Undergraduate Application for Admission
- A US \$125 nonrefundable application fee (made payable to Thomas University)
- For non-native speakers of English:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
 - China English Test (CET) minimum of level 4; OR
 - International English Language Testing System (IELTS) minimum 5.

- Official transcripts from all institutions attended.
- A signed confidential statement of finances with evidence of sponsorship and support.
- A stamped and signed statement from student's bank certifying finances.

Admission decisions will not be made until the application file is complete.

Extra-Institutional Learning Credit

Thomas University gives credit for formal training according to the principles established in the ACE National Guide and/or Guide to Evaluation of Educational Experiences.

CLEP or DSST/DANTES Subject Examinations

Information on CLEP and DSST/DANTES examinations, such as courses for which CLEP or DSST/DANTES examinations are accepted, and scores required are available from the registrar.

Advanced Placement and International Baccalaureate Programs

Advanced Placement courses are offered to high school students by some high schools. Students interested in receiving such credit should contact their high school guidance counselor or the university registrar. A score of 3 or above on the AP exam is required to earn college credit.

Graduate Admission

Each of the following must be submitted to the registrar:

1. A completed Graduate Application for Admission.
2. A \$50 non-refundable application fee, made payable to Thomas University.
3. A detailed resume.
4. A personal statement of career and educational objectives (maximum two pages).
5. Official transcripts from all undergraduate and graduate schools attended, to be forwarded directly to the Office of Admission from the schools attended.
6. Three academic or professional letters of reference.
7. Candidates for graduate admission must report a minimum GPA of 3.0 on a 4.0 scale in the last 60 hours of their bachelor's degree and relevant graduate coursework or conferred master's degree. (* For Nursing, only the ADN coursework will be considered for RN-MSN applicants and the RN-BSN coursework will be considered for MSN applicants who completed a RN-BSN program;)

The GPA will be considered in context of the cumulative GPA for that bachelor's degree, work experience, relevant credentials, other undergraduate and graduate course work, the strength of the student's personal and professional goal statements, reference letters, and academic history. Applicants with a GPA lower than 3.0 may be considered for provisional admission by the prospective graduate division and the Graduate Council. Any student provisionally admitted is a Special Standing student and must successfully complete the one credit Scholarly Writing course during the semester before taking any Master-level courses; other requirements may be required by the Division and/or Graduate Council.

- The 60 credit cumulative GPA will include relevant graduate coursework or final graduate degree GPA in a relevant program.
8. International students seeking admission into a graduate program must submit:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
 - China English Test (CET) minimum of level 4; OR
 - International English Language Testing System (IELTS) minimum 5.
 9. Students enrolling in a master's degree program may transfer in from another institution no more than 25% of the program hours required for the graduate degree. Graduate program directors must approve any credit for transfer.
 10. Any program specific admissions requirements.

NOTE: Completion of admissions file does not guarantee admission to a graduate program.

Graduate Transfer Credit

Students in a master's degree program may transfer in no more than 25% of the total degree hours required to earn the degree at Thomas University, from another institution. Graduate program directors must approve any credit for transfer that fall within the scope of Thomas University's curriculum.

Graduate International Admission

Thomas University will admit international students who enter the United States under an F-1 status student visa. Application for admission should be made at least two months prior to the term in which a student plans to enroll.

Students must complete the following steps and submit all documents to the Office of Admission before an I-20 form can be issued. To apply to Thomas University as a graduate student, please send the following materials:

- A completed Graduate Application for Admission.
- A completed Supplemental Program Application (if applicable).
- A US \$125 nonrefundable application fee (made payable to Thomas University).
- For non-native speakers of English:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
 - China English Test (CET) minimum of level 4; OR
 - International English Language Testing System (IELTS) minimum 5.
- Official transcripts from all institutions attended. Any transcript from an institution outside of the United States must be translated into English; translation must be certified for accuracy and accompanied by a professional evaluation (see Foreign Transcript section).
- A signed confidential statement of finances with evidence of sponsorship and support.
- A stamped and signed statement from student's bank certifying finances.

Admission decisions will not be made until the application file is complete.

Foreign Transcript Credit

All foreign transcripts must be accompanied by a professional evaluation and an official transcript, including an English translation if it is not in English, and course descriptions or syllabi. It is the student's responsibility to procure this evaluation, and to assume financial responsibility for it.

*Recommended for Nursing Program Applicants

The evaluation should include an explanation that the institution is recognized by the ministry of education in the home country and is generally considered to offer at least the equivalent of U.S. higher education credit. In addition, it should include an explanation of the credits, the grading system, and course levels, as well as a course-by-course evaluation.

The expertise and reliability of a professional evaluation report is recognized worldwide and is likely to be accepted by other academic institutions, employers, and state licensing boards. However, the report is not binding to Thomas University and will be considered a recommendation for independent decision of the credit to be given.

Information and applications are available on the web from the services. If you need further information, please contact the Office of Admissions.

Student Financial Aid Assistance

The purpose of the student financial aid assistance program is to assist in making higher education a reality for persons who would be otherwise unable to attend college. To be eligible for financial aid, students must be accepted for enrollment at Thomas University, maintain satisfactory academic progress, and receive a passing grade in at least 67% of the academic course work attempted each semester to remain eligible for federal and state financial aid. Required financial aid information must be completed and on file before aid is awarded. All students who receive aid must complete the Free Application for Federal Student Aid (FAFSA). The priority deadline to apply for financial aid is May 1.

Types of Financial Aid Assistance

Grants, loans, scholarships and the Federal Work-Study Program are available through the financial aid office to help defray educational expenses for eligible students. Grants and scholarships do not have to be repaid. Loans must be repaid. Students must be enrolled at least half-time (six hours) to receive the Federal Direct Loan or Federal Direct Parent PLUS Loan. Students must be enrolled full-time (12 or more hours) to receive the Georgia Tuition Equalization Grant (GTEG) and most scholarships offered by Thomas University. Other Federal assistance programs, such as the Federal Supplemental Educational Opportunity Grant and Federal Work Study, are also available for both part-time and full-time students.

Federal Grants

Federal Pell Grant

The Federal Pell Grant is a need-based grant with no repayment required and is designated for undergraduate students working toward a first bachelor's degree. The amount of the grant for eligible students is determined by the cost of attendance, the expected family contribution (EFC) shown on the

Student Aid Report, and the enrollment status. The Free Application for Federal Student Aid (FAFSA) is required. The Federal Pell Grant is intended to be the first and basic component of an undergraduate student's financial aid package. Students are encouraged to apply online at www.fafsa.gov. Thomas University School Code: 001555

Federal Supplemental Educational Opportunity Grant

The Federal Supplemental Educational Opportunity Grant (FSEOG) is a need-based grant with no repayment required and is designated for undergraduate students working toward a first bachelor's degree. Students must be Pell eligible to receive FSEOG. The FAFSA is required. FSEOG is a limited fund and priority will be given to those with the highest financial need.

State Grants

Georgia Tuition Equalization Grant

The Georgia Tuition Equalization Grant (GTEG) is a non-need-based grant that provides funding for eligible Georgia residents attending qualified private colleges in Georgia. Students must be enrolled full-time (twelve or more credit hours) and can receive GTEG up to 127 paid hours. The current award amount is \$450 per semester. Students can receive GTEG during any semester if they meet the eligibility requirements.

HOPE Scholarship & Zell Miller Scholarship

Georgia residents who graduate from an eligible high school and meet certain criteria may qualify for either the HOPE Scholarship or the Zell Miller Scholarship.

General Requirements

- Be enrolled as a degree-seeking student.
- Meet Georgia residency requirements.
- Meet U.S. citizenship or eligible non-citizen requirements.
- Be in compliance with Selective Service registration requirements.
- Be in compliance with the Georgia Drug-Free Postsecondary Education Act of 1990.
- Not be in default or owe a refund on a student financial aid program.
- Maintain satisfactory academic progress (SAP) as defined by the University.

Criteria for the HOPE Scholarship

- Cumulative GPA (core coursework)—graduate as a high school HOPE Scholar.

OR

- Cumulative GPA (degree coursework)—gain eligibility at 30, 60, or 90 attempted-hour checkpoints.

Details for the HOPE Scholarship

- Must maintain 3.0 cumulative GPA to continue eligibility.
- Award: \$1,968 per semester for full-time (12 hours) enrollment or \$984 per semester for part-time (6-11 hours) enrollment.

Criteria for the Zell Miller Scholarship

- Must have first entered college in 2007 or later.
- GPA of 3.3.
- 1200 SAT (math/reading portions on single test) OR 26 ACT.

OR

- Valedictorian or Salutatorian of high school class (must meet minimum HOPE standards).

Details for the Zell Miller Scholarship

- Must maintain 3.3 cumulative GPA to continue eligibility.
- Student may receive HOPE Scholarship instead if cumulative GPA drops below 3.3 but is at least 3.0
- Award: \$2,174 per semester for full-time (12 hours) enrollment or \$1,087 per semester for part-time (6-11 hours) enrollment.

More information regarding eligibility is available at www.GAcollge411.org.

Remedial Hours

Starting fall 2011, neither the HOPE Scholarship nor the Zell Miller Scholarship will pay for remedial hours (developmental courses). Example 1: If you are enrolled in six hours with three of those hours being remedial, you will not qualify for the part-time HOPE award (\$984) since it requires at least six degree-level hours during the semester. Example 2: If you are enrolled in 12 hours with three hours being remedial, you will not qualify for the full-time award (\$1,968). Instead, you will only qualify for \$984.

Award Limits

A degree-seeking student is ineligible for the HOPE Scholarship or the Zell Miller Scholarship if the student has:

- Received payment from combination of HOPE Scholarship, Zell Miller Scholarship, HOPE Grant, and Accel Program funds (through spring 2011) totaling 127 semester hours of credit.

OR

- Attempted 127 hours of college degree credit regardless of whether or not HOPE funds were received for those hours.

OR

- Earned a bachelor's degree.

OR

- Reached the 7-Year Time Limit for eligibility.

Starting fall 2011, students will be limited to 127 hours even during the last term of eligibility. The award amount will be based on a per hour rate provided by the Georgia Student Finance Commission (GSFC). Example: a student has 120 attempted hours, so there are only seven hours left before reaching the maximum hours. The student's semester award will be calculated by multiplying the remaining hours (seven) by the per hour rate from GSFC.

7-Year Time Limit

Eligible students are able to receive the HOPE Scholarship or the Zell Miller Scholarship until seven years from the date of the student's high school graduation, home study completion, or successful GED test. The expiration of eligibility date will be June 30th of the seventh year. However, students who serve on active duty in the U.S. Military after high school graduation, home study completion, or successful GED test and before the expiration of eligibility date may request an extension of eligibility based on the active duty service time. The application for this request is available online at www.GAcollege411.org under HOPE Scholarship Information.

Gaining & Maintaining Eligibility

Students who were not eligible for the HOPE Scholarship (excludes Zell Miller Scholarship) upon graduating from high school because of the minimum GPA requirement may be able to gain eligibility at a later time as long as they have not reached the 7-year expiration date. After attempting 30, 60, or 90 semester hours, students may request their academic records be reviewed to check eligibility. A cumulative 3.0 GPA is required. Contact the Office of Financial Aid for more information (finaid@thomasu.edu).

Both the HOPE Scholarship and the Zell Miller Scholarship are renewable based upon a review of the student's academic record at 30, 60, and 90 attempted hours. Should a student fall below the required cumulative GPA at the end of each review period, he/she may continue to attend college; however, he/she will not be eligible for that award.

A student who loses either scholarship will be given an opportunity to have it renewed if he/she has not

passed the last GPA checkpoint at 90 attempted hours. **However, students can only lose and regain eligibility for each program one time.**

All students attending Thomas University who receive the HOPE Scholarship or the Zell Miller Scholarship must apply for the FAFSA. These scholarships may be applied only to tuition and mandatory fees.

HERO Scholarship

The HERO scholarship is designed to provide educational scholarship assistance to members of the Georgia National Guard and U.S. Military Reservists who served in combat zones, and the children and the spouses of such members of the Georgia National Guard and U.S. Military Reserves.

Eligible students may receive up to \$2000 per academic year. Award amounts are prorated for school terms in which recipients are enrolled for less than full-time (12 hours). More information regarding award amounts and eligibility is available at www.thomasu.edu, financial aid, state grants as well at www.GAcollege411.org.

Federal Work-Study Program

Eligibility for Federal College Work-Study is based on established financial need, which is determined from the FAFSA. Jobs are located on campus and in the community (nonprofit charitable organizations). Work schedules are planned around class schedules. Applications are available on the [Thomas University website under Financial Aid Forms](http://www.thomasu.edu).

Federal Loans

Federal Direct Loan

The Federal Direct Loan is a low-interest loan made available to help cover educational expenses such as tuition, fees, books, housing, meals, etc. Students are encouraged to borrow conservatively as loans must be repaid.

Half-time (6-11 hours) enrollment is required.

Students must complete the FAFSA every year. Also students must electronically accept a new award letter each year as well as during the award year whenever an additional loan amount is desired. The signed award letter must be on file or accepted via HawkLink before the loan can be processed. Award notifications are typically sent via email letting students know their awards are available to accept or decline via HawkLink.

For subsidized loans, the Federal Government pays the interest on the loan while the student is enrolled at least half-time, during the six-month grace period after half-time enrollment ends, and during approved deferment periods. Subsidized loan eligibility is based on established financial need and is only available to undergraduate students. The current fixed interest rate for the subsidized loan is 3.76%.

For unsubsidized loans, the student is responsible for all interest that accrues on the loan. Interest begins to accrue after the loan disburses. The borrower can choose to pay all or some of the interest while still enrolled in school in order to lower future payments, but it is not a requirement. There is no penalty for early repayment on the interest or the principal. The current fixed interest rate for the unsubsidized loan is 3.76% for undergraduate students and 5.31% for graduate students. See the loan disclosure statement from the lender for more information regarding the interest rate.

Loan repayment for most loans begins six months after the student leaves school or drops below half-time student status. If the student falls below half-time enrollment, the grace period begins. It is the student's responsibility to notify the lender or guaranty agency when he/she leaves school. The amount of the monthly payment will be determined by the lender and is based upon the cumulative loan amount and Federal regulations.

Federal Direct Parent PLUS Loan

Parent PLUS loans can help provide additional funds for educational expenses of dependent undergraduate students. One of the student's parents must apply with the Direct Loan Program to determine eligibility. Unlike the Direct loan, a PLUS loan requires a credit check for the parent borrower. If the parent is denied for a PLUS loan, the student is then eligible for an additional unsubsidized loan.

The dollar amount of the PLUS loan eligibility is based on the cost of attendance minus any other aid the student may receive. The current interest rate is 6.31%, fixed.

The Federal PLUS repayment begins sixty days after the funds are disbursed. However, the parent may have the option of deferring payments or making interest-only payments while the student is enrolled at least half-time.

Graduate PLUS Loan

Graduate PLUS Loans may be available to students enrolled in a master's degree or professional program. Similar to the PLUS Loan for parents, this loan is based on the borrower's credit. In this case, the borrower is the student. Repayment begins after the last disbursement unless the borrower is approved for a deferment while enrolled at least half-time.

Important Information for Direct Loan Borrowers

First-time borrowers must receive loan counseling prior to receiving their first disbursement on any federal loan. Entrance counseling is available online at www.studentloans.gov along with the Master Promissory Note (MPN).

Students who receive federal loans are required by law to complete the loan exit interview upon leaving Thomas University (graduation, transferring, or dropping out). The exit counseling link is available on the Thomas University website or directly at www.studentloans.gov. The FSA ID, (fsaid.ed.gov) is required to login to the site.

Other Programs

Rehabilitation Services

The Division of Rehabilitation Services, a division of the Georgia Department of Human Resources, may provide assistance to students with physical disabilities who have reasonable expectations of becoming employed. Students are advised to contact the nearest Rehabilitation Services office for information.

Veterans Educational Benefits

Veterans, war orphans, and dependents of totally disabled veterans may be eligible for financial assistance through the Department of Veterans Services. Contact the School Certifying Official or the local Veterans Services office for more information, or go online to www.gibill.va.gov or www.thomasu.edu.

Financial Aid Academic Requirements

The financial aid office is required under federal and state regulations to review the academic performance of every student. Failure to maintain satisfactory academic progress affects a student's eligibility to receive federal and state financial aid.

A student **must receive a passing grade in at least 67% of the academic course work attempted** each semester to remain eligible for federal and state financial aid.

In addition, a student must maintain [satisfactory academic progress](#). In accordance with the Higher Education Act of 1965, as amended, students must be making satisfactory academic progress, both in quality and quantity, to qualify for and continue to receive Title IV Federal Financial Aid. The satisfactory academic progress standards for federal financial aid recipients at Thomas University are outlined in the next section.

Qualitative

All students are expected to maintain the academic standards outlined in the Thomas University catalog. Students who fail to meet these standards will be placed on academic probation, continued probation, suspension, or exclusion. Financial aid recipients who are placed on academic probation and/or continued academic probation will be placed on financial aid probation and may remain eligible for financial aid. However, students placed on academic suspension or exclusion are not eligible for federal assistance until the terms of the suspension and/or exclusion are satisfied and the quantitative and qualitative requirements for financial aid assistance are met.

Academic Hours	Minimum Cumulative GPA for Satisfactory Academic Progress
0-30	1.50
31-60	1.80
67-89	1.95
90-Completion	2

Quantitative

In addition to maintaining the specified grade point average, a student must complete his/her degree within a maximum time frame and successfully complete a minimum percentage of hours (67%). This pace of progression rate will be monitored at the end of each semester. Remedial hours will not be included in this calculation. Transfer hours accepted toward the student's degree program are included in both the attempted and earned hours used in calculating the pace of progression.

At Thomas University, the maximum time frame allowed is 150% of the number of hours required to earn the degree. For example, a student who is pursuing a degree which requires 120 hours may not receive financial aid after attempting 180 hours.

A student must complete 67% of the courses for which he/she registers. A grade of "F" "W", or "I" does not count as a passing grade.

Remedial Coursework

No student may receive financial aid for more than 30 hours of developmental studies classes. Students who fail to successfully complete a developmental course after three attempts will be excluded from Thomas University and will not be reinstated for financial aid until the exclusion issue is resolved.

Monitoring of Satisfactory Academic Progress

Qualitative academic requirements will be checked at the end of each semester and at the time the student applies for financial aid. The limitation on total hours attempted and the 67% pace of progression requirements will be checked at the end of each semester as well.

Pace of Progression

Semester 1

Satisfactory Academic Progress Check

- Meeting requirements—Eligible for financial aid
- Not meeting requirements—Financial Aid Warning

Semester 2

Satisfactory Academic Progress Check

- Meeting requirements—Eligible for financial aid
- Not meeting requirements—Not eligible, Financial Aid Suspension but can appeal for probation (requires academic plan)

Semester 3

Satisfactory Academic Progress Check

- Meeting requirements—Eligible for financial aid
- Not meeting requirements—Not eligible, Financial Aid Suspension

Students who are placed on financial aid suspension after Semester 2 and choose not to appeal for probation will not qualify for financial aid until they meet the satisfactory academic progress standards. Students must pass a specified number of semester hours at their own expense **and** have a cumulative 2.0 GPA for their Thomas University coursework. These hours can be taken in one semester or in multiple semesters, but no financial aid can be awarded during this time period. The same is true for those who are placed on financial aid suspension after Semester 3 due to not meeting the Academic Plan.

Students placed on Academic Suspension at the end of any semester are no longer eligible for financial aid. They must pay for their classes at their own expense until a 2.0 cumulative GPA is met. These hours can be taken in one semester or in multiple semesters, but no financial aid can be awarded during this time period.

Unclassified Students

Unclassified students, non-degree students, transient students, and unclassified post-graduate students are not eligible for a Federal Pell Grant, Federal Supplemental Educational Opportunity Grant, Federal Work-Study Program, Federal Direct Stafford Loan, or Federal PLUS Loan.

Exception in the GTEG and HOPE Programs

A student may be eligible as a transient student in the GTEG and HOPE programs if the eligible college in which he/she is normally enrolled has a written agreement with another eligible college in Georgia to transfer such credits from that institution for application toward the student's degree.

Teacher Certification

Students holding an undergraduate degree enrolled in a Teacher Certification program are eligible to apply for a Federal Direct Loan. The only courses that can be taken are those required for certification.

Repetition of Courses, Developmental Studies Coursework, Withdrawals, and Incompletes

Students should be careful in repeating courses as all attempts at a course are counted in the maximum hours allowed to obtain a degree. Students are also reminded that withdrawing from a course does not constitute completion and does not count in the required 67% pace of progression calculated each semester. Incompletes also do not count as the successful completion of a course and excessive incompletes can result in the termination of financial aid. A student can receive financial aid for no more than 30 hours of developmental studies coursework.

Reinstatement of Aid

A student terminated from aid may apply for reinstatement of financial aid after he/she has met the quantitative and qualitative requirements for financial aid.

A student terminated from financial aid for failure to exit Developmental Studies classes after 30 hours attempted may apply for reinstatement of aid when he/she has exited Developmental Studies classes.

Appeals

Any student wishing to appeal financial aid suspension may do so by presenting a written statement along with any **supporting documentation** to the Office of Financial Aid. Illness or death in the immediate family or any other extenuating circumstances may be taken into consideration. The student will be notified of the decision.

Scholarships

Dean's Scholarships

This scholarship is awarded to selected rising juniors (including incoming transfers) who have completed at least 60 credit hours towards a college degree with a 3.0 cumulative GPA. The scholarship provides the total cost of tuition and matriculation fees and up to \$500 for books per year, after all federal and state aid is applied. All students must complete the FAFSA and accept all federal and state aid. The recipient must maintain a 3.25 GPA. Applications are available on the Thomas University website.

General Endowed Scholarships

A number of partial endowed scholarships are offered each year. Award amounts may vary each year depending on the scholarship and the funding available.

Institutional scholarships can be applied to tuition and fees and are awarded only after all federal and state grants have been applied to a student's charges. Only one institutional scholarship per student, per semester is permitted. Institutional scholarships carry no cash award.

Recipients must have a 2.0 GPA, not have more than one honor code violation, and have applied for all applicable state and federal grants. Scholarship awards are based on one or more of the following guidelines: academic performance, moral character, community or citizenship activities, financial need, and potential for benefiting from enrollment at Thomas University.

High Achievers Scholarship

This is a merit-based scholarship for full-time freshmen following high school graduation. This scholarship is open to applicants who will graduate from city and county schools in the following counties in Georgia: Brooks, Colquitt, Decatur, Grady, Mitchell, and Thomas.

High Achievers Level I: Competition for 5 Scholarships awarded to high school seniors who meet the

following criteria: High School GPA of 3.5 or higher, Dual-enrollment credits from any MOWR participating college or university: 12 or more with a 3.0 minimum GPA,

The award is \$3000 per semester without housing \$3250 per semester with housing

Renewable each Fall and Spring semesters with a minimum GPA of 3.0, for a maximum of four years

High Achievers Level II: Competition for 5 Scholarships awarded to high school seniors who meet the following criteria: High School GPA of 3.25 or higher, Dual-enrollment credits from any MOWR participating college or university: 12 or more with a 2.5 minimum GPA

The award is \$2000 per semester without housing \$2250 per semester with housing

Renewable each Fall and Spring semesters with a minimum GPA of 3.0, for a maximum of four years.

Veteran's Scholarships

Institutional funding is available for students who have or are currently serving in the military. To qualify, students must be a veteran who served in one of the recent U.S. operations in Iraq or Afghanistan or be a member of active military personnel.

The award for veterans is \$500 per semester (the veteran must be enrolled at least three-quarter time). A tuition rate of \$250 per credit hour is available for those who are currently on active duty in the armed forces.

In addition to the scholarship application, students must show documentation regarding military service in a combat zone in Iraq or Afghanistan since September 21, 2001.

Note: This scholarship can be combined with other institutional aid.

Graduate Assistantships

Graduate Assistantship positions are designed to provide the student with a meaningful work experience in the field of study while enabling and/or supporting a division project or initiative. Duties and responsibilities are described in assistantship position descriptions posted on the Thomas University website.

Applicants must be accepted and in good standing as a student in the graduate program supporting the assistantship. To continue as an assistant, students must make satisfactory academic progress in their program.

The work hours are exchanged for 4 credits of graduate tuition remission for 12 hours of work per week for 15 weeks (180 hours per fall/spring semester). The student will owe the balance of tuition and fees after the tuition remission for 4 credits is applied.

Graduate Assistantship Application Process

Applicants must complete the Graduate Assistantship Application by each semester deadline - November 15 (for spring) and July 15 (for fall). Graduate assistants are available for the fall and spring semester only.

Applicants submit the application online. The Office of Financial Aid will forward all applications to the graduate program division chair for his/her selection for each semester. The selected student is subject to a criminal background check. Graduate Assistants must reapply each semester in order to receive assistantships.

The division chair or a designated faculty member is responsible for supervising the graduate assistant. Supervision is aided by required submission of a task list and work hours log given to the supervisor by the end of each month of the semester.

The supervisor will complete a mid-term evaluation to ensure that the graduate assistant is meeting the assignment objectives, as well as an end-of-semester evaluation providing summative documentation of the work accomplished, its quality, and timeliness.

More information is available online at www.thomasu.edu financial aid, graduate assistantship.

Fees and Expenses

Thomas University operates on a semester basis. The cost of attendance per semester, for fall 2016 and spring 2017, follows. Note that any increase in tuition and fees will begin summer 2017.

One Time Only Fees

Undergraduate Application Fee	\$35
Graduate Application Fee	\$50
International Application Fee	\$125
Undergraduate Graduation Fee 1	\$175
Graduate Graduation Fee 1	\$175
Post Baccalaureate Completion Fee	\$30
Certificate Program Completion Fee	\$30

General Fees (per semester)

Undergraduate Full-time Tuition (12- 18 credit hours)	\$7,970
Undergraduate Part-time Tuition (per credit hour, fewer than 12 semester hours)	\$630
Undergraduate Overload Tuition (per credit over 18 hours)	\$630
Graduate Tuition (per credit hour)	\$655
Military (active) Tuition per credit	\$250
Audit/Continuing Education (per credit)*	\$100
Audit/Continuing Education Fee*	\$75
Matriculation Fees (12 or more undergrad hours)	\$425
Matriculation Fees (11 or fewer undergrad hours)	\$275
Matriculation Fees (all graduate students)	\$275
Technology Fee (all students)	\$75
*65 years old or above Free	

Reduced tuition rates apply for the following programs:

- MEd
- MLS 2+2
- RN - BSN
- RN – MSN
- SWK - TCC

See the website for details.

Studio Courses	\$15

University Housing Fees Per Semester

Tier 1 Double Room	\$2400
Tier 2 Single Room	\$3000
Tier 3 Double Room	\$2700
*Room Reservation fee	\$300

*A room reservation fee of \$300 is to be submitted by all incoming students. This fee requests a space in student housing. It is credited to the students' housing charges for the semester when the student is assigned and moves on campus. Refer to the [University Housing Cancellation Policy](#) on the TU website for information on refund and forfeiture of the Room Reservation Fee.

1. The graduation fee covers all costs related to graduation. All students are required to participate unless permission to be absent is granted by the Vice President of Academic Affairs.
2. All tuition and fees are due one week after drop/add. If a student does not have sufficient financial aid or a third party payer amount to completely pay their tuition and fee charges they must sign up for the Sallie Mae Tuition Payment Plan. If you do not pay your account in full or do not enroll in a payment plan by the assigned deadline, you will be withdrawn from your classes.

Deadlines

If you are withdrawn from classes, to re-enroll you must pay your out-of-pocket expenses in full and will be charged an additional \$100 reinstatement fee. See the [Academic Calendars](#) starting on page 5 for payment deadlines.

General Note

Please be advised that for online and hybrid courses, a student's initial log in to Blackboard acknowledges their enrollment and financial obligations to Thomas University.

In all student academic and financial matters, Thomas University considers notification by Thomas University email and/or by regular mail at the last known address of the student to be adequate and sufficient notice. If such mail is not returned, the student is considered to

have received notice and has no further recourse if the notice requires an action which is not taken.

Payment is accepted in the form of cash, check, Visa/Master Card, American Express, or money order.

Books and Supplies

The cost of books and supplies is in addition to tuition and fees. A student whose financial award exceeds the cost of their tuition and fees may use the remaining balance on their student account for textbook purchases from Thomas University's Blackboard Store. Any amount over this balance must be paid directly to the Blackboard Store. Books and supplies may be purchased from the e-bookstore or at any other establishment that carries the required materials. A list of courses with required materials can be found on the bookstore's webpage along with other helpful tips and guides, <http://www.thomasu.edu/Content/Default/3/160/0/0/0/0/student-services/e-bookstore.html>.

Withdrawing from Classes and Financial Aid (Return to Title IV Calculation)

According to Federal Government regulations, if a student completely withdraws on or before completing 60% of an academic semester, the student may be required to return part or all of the Title IV aid (Pell, SEOG, student loans, etc.). A similar calculation is done for state aid (HOPE & GTEG). This reduction in actual financial aid may increase the outstanding balance, which must be paid by the student by the end of the semester.

Refund Check Release

After notification from the Business office, students may pick up their refund checks or request to have them mailed. Students also have the option to sign up for Direct Deposit prior to the release of their refund by completing the authorization for direct deposit. The student's account, including library charges, must be paid in full before the check is released. The Business Office will apply their financial aid to any outstanding balance, other than a balance owed from prior

semester, and Thomas University will write a refund check within 14 business days of Thomas University's receipt of federal funds for any credit balance.

No refunds will be made to students who:

- withdraw after the deadlines stated above for each semester;
- are suspended for disciplinary reasons;
- leave the college when disciplinary action is pending; or
- do not officially and completely withdraw.

The unused portion of any financial aid is returned to the appropriate funding agency.

Tuition Refund Policy

The final tuition and fees balance is calculated at the end of the second week of classes for fall and spring semesters and at the end of the first week of classes for each summer term and this is the balance the student owes.

Tuition is refunded in full for students who withdraw within the add/drop period. Withdrawals after the drop period will result in no refund. Refer to the academic calendars for specific add/drop dates.

Students must withdraw from OCICU courses before the second day of classes. Students who withdraw before the second day of classes will receive an 80% tuition refund for their OCICU courses.

Textbook Refunds

Textbooks purchased from Thomas University's e-bookstore before or on the first day of class must be returned within 2 weeks of the first day of class in order to receive a refund. Textbooks purchased after the first day of class and before the last week of class must be received within 7 days of receipt. Textbooks purchased during the last week of class are non-refundable.

Software or CD refunds are accepted only if unopened, unless defective. New items received with markings or damaged will be credited at the used price.

Student Affairs

Career Services

Career services are provided through the Thomas University Career Center and Student Support Services. The Career Center is located in room 2 in the Academic Classroom Complex. Through this center, students have access to a variety of personality inventories and career assessment resources, and can consult with a career counselor.

Disclosure of Student Information

Thomas University students and alumni have the right to inspect their educational records by submitting a written request 48 hours in advance. The right of inspection includes academic records and related support documents maintained in the registrar's office, student support services, the business office, and the financial aid office.

Student Services

Health Services

As independent adults, students are responsible for deciding if they are physically able to participate in university activities. Students are expected to have their own family physicians. If an emergency arises, Archbold Memorial Hospital is located four blocks from the college campus; **there is no university health clinic.**

First-aid kits are available in the Student Affairs Building, Business Office, Library, Campus Center, and science labs for emergency use. Students requiring emergency medical treatment will have their families contacted to provide transportation home or to a medical facility. In the event the student's family cannot be contacted or cannot provide transportation, an emergency medical service unit will be called. Students are responsible for all expenses incurred.

Counseling Services

Thomas University partners with Archbold Medical Center to offer the Student Assistance Program (SAP). SAP offers:

- identification, assessment, and diagnosis of academic, social, and psychological problems;
- brief consultation and problem resolution; and
- referral to appropriate and accessible services and resources.

SAP services are private and confidential, in accordance with state law. All registered students are eligible for SAP services, and there is no cost to students for utilizing SAP services. There may be fees associated with the other services and resources to which the student may be referred, though the student's health insurance usually defrays the cost of such care. Referrals may be mandated by a Thomas University faculty or staff member.

SAP is a program of Archbold Medical Center, and services are provided at the Archbold Medical Center Employee Assistance Program Office at 902 Highway 84 West or at offices operated by Archbold Medical Center. For Appointments, call toll free 1-877-327-2724.

Internet Usage

Internet Services

The Thomas University internet access and e-mail addresses offer vast, diverse, and unique resources to students. Our goal in providing this service to students is to promote educational excellence at Thomas University by facilitating resource sharing, innovation, and communication. Students have access to e-mail, information and news, public domain and shareware of all types, and discussion groups on an ever-increasing range of topics.

Acceptable Use

The purpose of Thomas University network access to the internet is to support education by providing access to unique resources and the opportunity for collaborative work. Use of the access must be for academic activities consistent with the educational objectives of Thomas University. Use of another organization's network or computing resources must comply with the rules appropriate for that network. Transmission of any material in violation of any U. S. or state regulation is prohibited. This includes, but is not limited to, copyrighted material, threatening or obscene material, or material protected by trade secret. Use for commercial activities is not acceptable. Use for product advertisement or political lobbying is also prohibited.

Privileges

The use of the Internet is a privilege. Inappropriate use will result in cancellation of those privileges.

Netiquette

You are expected to abide by the generally accepted rules of network etiquette. These include (but are not limited to) the following:

- Limit use to one hour if others are waiting.
- Be considerate in your choice of sites and graphics. The viewing of sexually explicit materials may constitute sexual harassment under federal law.
- Be polite. Do not get abusive in your messages to others.
- Use appropriate language. Do not swear, use vulgarities, or use any other inappropriate language. Illegal activities are strictly forbidden.
- Do not reveal the personal address or phone numbers of students or colleagues.

Note that e-mail is not guaranteed to be private. People who operate the system do have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities. Do not use the network in such a way that you would disrupt the use of the network by other users. All communications and information accessible via the network should be assumed to be private property of the university.

Security

Security on any computer system is a high priority, especially when the system involves many users. If you feel you can identify a security problem on the internet, you are required to notify an administrator. Do not demonstrate the problem to other users. Do not use another individual's access without written permission from that individual. Attempts to log onto the internet as a system administrator will result in cancellation of user privileges.

Vandalism

Vandalism will result in cancellation of privileges. Vandalism is defined as any malicious attempt to harm or destroy data of another user, internet, or other networks that are connected to the internet backbone. This includes, but is not limited to, the uploading or creation of computer viruses.

Academic Accommodations for Students with Disabilities

Thomas University is committed to the requirements of making all programs, services, and facilities

accessible to and usable by individuals with disabilities in order for students to obtain maximum benefit from their educational experience. The Director of Disability Services is available to advise students with disabilities and may also act as an advocate and liaison with faculty, staff, and local agencies.

Students who identify themselves and provide documentation will be eligible for academic accommodations and support services as appropriate. Documentation should be provided by a medical doctor, a psychologist, or by a licensed or certified specialist recognized as appropriate to treat the specific disability.

Accommodations such as note takers, interpreters, extended time on testing, tutors, an adaptive computer lab, and individualized pre-registration assistance are available.

Although Thomas University is responsible for notifying faculty, students, and staff of services available, students with disabilities are responsible for requesting academic accommodations. Services are listed in publications, including this bulletin, faculty handbook, brochures, student handbook, and at orientation.

If a student feels intimidated about speaking directly with the instructor, a mediator is available on campus to act as a liaison. The federal law that covers special needs, the Americans with Disabilities Act (ADA), is enforced on this campus. Compliance is monitored through the ADA Committee. The purpose of the Committee is to see that all students with special needs are treated with respect and reasonable accommodation. A student who encounters any difficulties with an instructor or any other employee of the university concerning personal or mental challenges is invited to petition the Committee for review of the issue.

Thomas University grants course substitutions. The academic Council at Thomas University has established policies and procedures for reasonable substitutions for eligible students to meet admission and graduation requirements. Students seeking substitutions must discuss the substitutions with the Director of Disability services, their advisor, and the Associate Vice President of Academic Affairs. Any substitution previously granted to a student transferring to Thomas University from an accredited college will be recognized by Thomas University with documentation.

The university campus is handicap accessible and special parking is available. For information and assistance, students should contact the Director of Student Disability Support Services.

Student Rights and Responsibilities

Students must assume full responsibility for understanding the policies, procedures, rules, and regulations of the university as outlined in the [Student Handbook](#). Students who accept an offer of admission to Thomas University are expected to be responsible citizens of the college and community, to respect the rights of others, and to observe the laws of the state of Georgia.

General Student Complaints

Students have the right to seek a resolution for a dispute or disagreement concerning a university policy or action through a designated complaint procedure.

This procedure does not apply to academic appeals, violations of academic integrity or Judicial issues. Students are encouraged to discuss the concern or decision with the person with whom he/she differs and attempt to resolve the matter satisfactorily before filing a formal complaint. If the complaint cannot be resolved informally, students may file a written complaint to the chairperson or head of the department responsible for the matter in question. Further details of the General Student Complaint Policy may be found in the Student Handbook.

Complaints of Noncompliance

After exhausting all Thomas University complaint procedures, a student who wishes to lodge a complaint of significant noncompliance with standards, policies, or procedures may contact the Commission on Colleges of the Southern Association of Colleges and Schools according to the policy at this location: <http://www.sacscoc.org>. Please note: Because the Commission's complaint procedures are for the purpose of addressing any significant noncompliance with the Commission's standards, policies, or procedures, the procedures are not intended to be used to involve the Commission in disputes between individuals and member institutions, or cause the Commission to interpose itself as a reviewing authority in individual matters of admission, grades, granting or transferability of credits, application of academic policies, fees or other financial matters, disciplinary matters or other contractual rights and obligations.

An online student may file a complaint of significant noncompliance with standards, policies, or procedures with his/her relevant state agency, official, and/or accreditor; contact information may be obtained at <http://www.sheeo.org/node/434>.

Student Bill of Rights

- Right to Academic Freedom: All Thomas University students have the right to seek knowledge in an environment, which is conducive to free inquiry.
- Right to Fair Academic Evaluation: Thomas University students shall have the right to fair academic evaluation. Students, however, must meet the requirements of the instructors.
- Right to Confidentiality of Student's Records: Thomas University students have the right to have their records kept confidential in accordance with the federally mandated Buckley Amendment.
- Right to Due Process: Thomas University students are to be free from arbitrary and capricious punishment. When charged with misconduct, students have the right to due process. Any administrative action that adversely affects a student may be appealed by the student.
- Right to Inquiry and Expression: Students have the freedom to seek knowledge, debate ideas, examine and discuss all issues of interest, and to express opinions publicly and privately as long as these expressions of opinion do not interfere with the same rights and freedom of others or violate federal, state, or local laws.

Student Conduct

Thomas University expects lawful and reasonable conduct from students both on and off campus. Student Bill of Rights, conduct regulations, sanctions, and due process procedures are described in detail in the [Student Handbook](#), which is available in the student affairs office and on the university website.

Honor Council

The Honor Council has primary responsibility for implementation of the Thomas University Honor Code, which states "As a member of the Thomas University Student body, I will not lie, cheat, or steal in any endeavor related to my academic pursuits, nor will I tolerate this behavior in others." More information on the structure and responsibilities of the Honor Council is available in the Student Handbook and on the Thomas University website.

Drug and Alcohol Policy

Thomas University is committed to maintaining an alcohol and drug-free campus for students. Under this

policy, the unlawful manufacture, distribution, dispensation, possession, or use of alcohol or any illegal drug by students is prohibited in all areas of Thomas University, including buildings, the Residence Hall, vehicles, and grounds.

Violations of this policy shall be considered sufficient grounds for disciplinary dismissal.

Smoking Policy

Smoking and any other use of tobacco or “tobacco-like” products is prohibited on university property. “Smoking” is defined as the burning of a cigar, a cigarette, pipe or other device containing tobacco or any “tobacco-like” substance. “Other use” includes snorting, chewing, or spitting of smokeless tobacco, snuff, and similar substances. “University property” includes all real estate owned, leased or controlled by the university, including the grounds, playing fields, walkways, roadways, parking lots and areas in and around the perimeter of any building. This policy also applies to privately owned vehicles on university property.

Parking Regulations

There is adequate space for student parking in the parking lots. Students may park in any unreserved parking space. Reserved spaces are 24-hour reserved for the handicapped. Parking in areas marked handicapped requires a handicapped sticker. Parking is prohibited in any reserved space or grassy area.

Student Insurance

Student accident and health insurance is available at a modest cost through a group policy at Thomas University. Students should contact Student Affairs for full details and a sample policy.

Student Activities

Thomas University encourages students to participate in campus activities and student organizations according to their personal interests. Student activities are developed in response to the interests of the student body.

Campus Activity Board

Campus Activity Board (CAB) is a specially selected group of 10 students, under the supervision of the Executive Director of Student Affairs and Athletics, responsible for planning and implementing all student activities for Thomas University. This includes all social and educational programs.

Being a member is a great way to make a difference in the campus community. Members will have influence over the type and scope of activities the Student Life Office hosts each year. Thomas University wants to hear student opinions and have student input with planning and implementing events that will be enjoyed and attended by all students.

Duties of CAB members include attending regular meetings. Members are expected to attend all Student Life events as representatives of the Campus Activity Board. CAB members are expected to be role models for the student body and will represent the diversity of our campus. Also, members will attend special meetings and events throughout the year and may be asked to participate in special research questionnaires to help enrich student life at Thomas University.

To apply to CAB:

1. Contact the Student Activities Coordinator to express your desire to apply.
2. Good academic and behavioral standing with the university.
3. Minimum 2.0 GPA.
4. Complete an interview by the selection committee.

Each member of CAB will receive a \$250 scholarship each year. Ten students will be chosen.

Clubs and Organizations

Alumni Association

Membership in the Alumni Association is open to all graduates of Birdwood College, Thomas County Community College, Thomas College, and Thomas University, as well as all former students who were regularly matriculated in degree credit courses.

Note: The purpose of the association is to support Thomas University with the emphasis on improving the University’s programs, creating institutional pride, developing and enhancing the university’s image, and meeting the needs of the university through fund-raising.

Association of Social Workers

The Thomas University Association of Social Workers promotes the field of social work both on-campus and through community activities.

Goalline Ministries

Goalline Ministries uses the powerful medium of athletics to bring the good news of Jesus Christ into the

lives of athletes and students on the college level. The dynamic that characterizes Goalline is its commitment to serve the local community by equipping, empowering and encouraging students to make a difference for Christ. For information, contact John Rainey at jrainey@goallineministries.org.

Older-Wiser Learners

Older-Wiser Learners (OWL) brings together adult students over the age of 30 to share ideas and support each other throughout the learning process. OWL members learn from experienced adult students how to balance school responsibilities with those at work and home.

Psychology Club

The Psychology Club is an organization open to psychology majors and those with a special interest in psychology. Activities include trips to psychology conferences and movie nights.

Student Veteran Organization

Veterans and students compassionately working together to bring resources, support, advocacy, and awareness for veterans to succeed in higher education and post-graduation. To unite Thomasville and the campus community and bridge the military-civilian gap.

Thomas University Student Counseling Association

Thomas University Student Counseling Association (TUSCA) is a Student Affiliate Organization (SAO) of GA Licensed Professional Counselors Association. TUSCA is open to graduate level counseling students, or any students interested in the mental health field that have an interest in the advancement of the counseling profession. Majors in Clinical Rehabilitation and Mental Health Counseling, Community Counseling, Criminal Justice, Nursing, Medical Laboratory Science, Social Work, or any human service field are encouraged to join TUSCA. Benefits of membership include a variety of workshops offered year-round and free through GA LPCA.

Creative Writing Club

This club is sponsored by the English faculty and meets weekly during the fall and spring semesters to showcase art, photography, poetry, fiction and essays from the Thomas University community and beyond. It is open to all students. If you like to write poetry, fiction, or non-fiction and/or like to draw, please feel free to come by and be a part of our club!

Arts for the Community at Thomas University

The mission for Arts for the Community at Thomas University (ACTU) is to combine the gifts and energies of Thomas University personnel and students (Act One) with those of community members (Act Two) to provide excellent arts events for the community. For this reason, we have named this organization ACTU – Act Two: Arts for the Community at Thomas University.

Sundays at Four

Monthly Concerts that feature local and regional artists performing a wide range of musical styles held at venues throughout the community and on campus.

Fridays at Noon

Bimonthly Lunch Concerts that include a complimentary luncheon and feature regional and occasionally national performing artists, usually held in the chapel of the First United Methodist Church or in the Balfour Chapel on campus.

The Thomasville Singers/ Thomas University Community Chorus

The Thomas University Community Chorus is a mixed choral organization performing the best in standard choral literature. The chorus is open to all university students and community members (high school and older) and requires the ability to sing on pitch and a desire to improve singing skills. Rehearsals are once a week for two hours. It is non-auditioned.

TU Book Club

Monthly meetings open to all featuring guest leaders and a mix of classic and modern book selections.

TU Film Club

Regular showings of classic and contemporary films.

Thomas University Jazz Ensemble

Weekly rehearsals open to all as a way to explore both traditional and modern jazz standards with an emphasis on improvisation and performances throughout the region.

TU Theatre

Annual productions open to all that include a musical revue in the fall, and a drama in the spring usually performed at the TU Playhouse.

TU Visual Arts

Annual exhibit at the Cultural Center and courses available for students and the community in digital photography, drawing, painting and more.

Arts Review

Night Hawk Review is Thomas University's arts review, which publishes the fiction, non-fiction, poetry, and art of those in the Thomas University community. Night Hawk Review is published yearly with a new issue appearing each spring.

Athletic Programs

Thomas University currently participates in intercollegiate sports and is nationally affiliated with the NAIA. These teams include Men's and Women's Soccer, Men's and Women's Golf, Men's and Women's Basketball, Women's Fast Pitch Softball, and Men's Baseball. In addition to varsity teams, we have junior varsity baseball, junior varsity fast pitch softball, and junior varsity men's soccer. The teams are members of the NAIA and The Sun Conference.

Philosophy

Thomas University has an intercollegiate athletic program designed to allow student athletes to participate in a number of competitive sports. The philosophy of the Thomas University intercollegiate athletics program is that our student athletes are first, qualified students with their primary goal being that of obtaining their degrees, and second, they are collegiate athletes able to participate in intercollegiate sports.

Athletic Scholarships

Athletic scholarships are provided to student athletes at the discretion of the respective intercollegiate coach. Athletic scholarships are applicable only after the student athlete has applied for the HOPE, GTEG (if applicable) and the Pell grant (if applicable). If a student athlete qualifies for all or any of these grants, only that portion of the athletic scholarship award needed will be applied to the terms of the scholarship agreement. All grants will be applied to tuition first, fees, books and then residence hall fees.

A student receiving an athletic scholarship must maintain [satisfactory academic progress](#).

NAIA Regulations

Student athletes and coaches must conform to all of the National Association of Intercollegiate Athletes' regulations. Athletes must maintain full-time student status and must maintain satisfactory academic standing based upon the Thomas University criteria established to determine satisfactory academic progress for all students.

Athletic Facilities

Thomas University is located on a beautiful twenty-five acre campus within the city limits of Thomasville. Because of its size, the campus is not designed to house all athletic programs.

The Thomas University **Baseball Program** uses Varnedoe Stadium as its home field. This baseball facility offers adequate parking, restroom facilities, bleachers, and those other facilities required of a quality baseball park.

The Thomas University **Softball Program** uses Armory Field located adjacent to Varnedoe Stadium. The Armory Field has been recently renovated and offers all of the amenities that one normally associates with intercollegiate softball. The university has an agreement with the City of Thomasville to use these facilities on a regular basis.

The Thomas University **Soccer Program** uses the beautifully refurbished soccer field located on campus. This facility has been recently upgraded with the addition of the Rehberg Field House, complete with restrooms, training room, and a locker room.

The Thomas University **Golf Team** uses Glen Arven Country Club as their home course. This is a beautifully maintained private golf course located adjacent to the campus.

The Thomas University **Swim Team** will use the competition pool at the Butler-Mason YMCA on Remington Avenue. It is a 25-meter heated pool with starting blocks and a timing system.

The Thomas University **Basketball Teams** use the recently renovated gymnasium on the Magnolia campus. Seating 630 people, it provides locker rooms, restrooms, laundry facilities and ample storage for equipment.

Academic Affairs

Academics at Thomas University

Thomas University operates on the semester system. Two semesters, each approximately fifteen weeks in length plus a final exam week, and a summer session of approximately ten weeks in length comprise an academic year. Both degree and non-degree credits are offered by Thomas University for successful completion of prescribed course work. Non-degree credits (for academic development or personal enrichment) are numbered 000-100. Undergraduate degree and certificate credits (study toward a degree or certificate) are identified by course numbers ranging from 101 to 499. Post-baccalaureate credits (for Post-baccalaureate programs or academic development) are numbered from 500 to 599, and may or may not count toward a degree or certificate, depending upon program requirements. Graduate program credits are numbered from 600 to 699.

In all student academic and financial matters, Thomas University considers notification to the student's required Thomas University email account and/or by regular mail at the last known address of the student to be adequate and sufficient notice. If such mail is not returned, the student is considered to have received notice and has no further recourse if the notice requires an action which is not taken.

Course Delivery and Credit Definition Policy

Thomas University uses a variety of [delivery modes](#) for teaching and learning. They are defined as face-to-face (campus-based), hybrid (combination of face-to-face and online), and fully online (via the course learning management system). Regardless of delivery mode or length of academic term, each course credit reflects approximately one hour of instruction/interaction and two hours of student work in addition to class or instructional time per week or the equivalent time depending on the length of the term. Online learning is approximated in relation to the typical weekly face-to-face campus-based contact hour/class period through requirements for engaged instruction and interaction with the professor, classmates, and course content.

For a practice class (internships, practica, clinical rotations, visual or performing art studio, student teaching, field work, etc.), the number of hours per week in field vary depending on whether the course is an undergraduate or graduate course, students' expected level of skill and knowledge applied in the field, the degree to which course outcomes focus on exposure and observation or intensive work experiences, and the degree to which students are learning in groups or individually with a supervisor. Typically, the higher level the practice course, the more field hours are required to earn course credits. Practice courses may also include face-to-face or online instruction/interaction and/or assignments and projects outside of the practice experience hours. These activities constitute another part of the course credit.

Most laboratory courses are awarded up to four credit hours. One laboratory credit hour represents one hour per week of instruction/interaction plus one to two hours per week of scheduled supervised or independent laboratory work, and two hours of student preparation time.

Course outcomes and requirements for all courses are approved by the relevant academic division and Academic Council for rigor and consistency appropriate to the course type, level, and number of credits.

Grading System

The following grading system has been established by the faculty and approved by the Board of Trustees of Thomas University:

Letter Grade	Numerical Equivalent
A	90 - 100
B	80 - 89
C	70 - 79
D	60 - 69
F	Below 60

Grade Point Average

Quality points are used to compute the student's grade point average (GPA) and are determined by multiplying the grade points for each letter grade by the number of hours for each respective course.

Letter Grade	Grade Point
A	4.0
B	3.0
C	2.0
D	1.0
F	0.0

The grade point average is computed two ways at the end of each semester. The first time is to determine the semester grade point average. The semester grade point average is computed by dividing the total number of quality points earned that semester by the total number of hours attempted that semester. A sample computation of a student's semester grade point average is shown below.

Course	Semester Hours	Grade	Grade Points	Quality Points
REA 099*	3	C	0.0	0
MTH 140	3	C	2.0	6
SPE 105	3	B	3.0	9
ENG 101	3	B	3.0	9
Total	9			24

$GPA = 24 \text{ Quality points, divided by } 9 \text{ hours} = 2.66 = \text{Institutional Credit}$

*Non-degree credits are numbered 000-100 and do not count toward the GPA.

The second time the grade point average is computed is to determine the cumulative grade point average.

The cumulative grade point average is computed by dividing the total number of quality points accrued by a student at the university by the total number of hours attempted by that student at Thomas University.

NOTE: Hours earned at other institutions and transferred to Thomas University are not included in Thomas University's grade point average, except in determining graduation honors.

Symbols on Academic Transcripts:

An "S" (or a "P") will be assigned by the instructor to indicate satisfactory completion of all course requirements in courses designated as Satisfactory/Unsatisfactory or Pass/Fail.

A "U" indicates failure to adequately satisfy course requirements. No grade ("S", "U", or "P") in a course of this designation calculates into the grade point average.

A “W” will be assigned by the registrar to any student who formally withdraws from any class after the last day of the drop/add period, and prior to the last day to withdraw from a course without academic penalty.

A “V” will be assigned to any student who audits a course. Students may not transfer from audit to credit status or vice versa after the drop/add period.

A “K” will be assigned to any student who receives credit for the course in an approved institutional credit-by-examination program.

An “I” will be assigned by the instructor only to those students who were doing satisfactory work but did not complete the course due to approved extenuating circumstances. An Incomplete may be granted only if the student has attended the majority of classes and lacks only one or two course requirements to complete the course. Academic Council policy requires a written contract between the instructor and the student be filed before an “I” can be given. An “I” will be converted to an “F” if all course requirements are not completed by the end of the next semester. Completion of requirements to convert an “I” to a letter grade is solely the responsibility of the student.

An “E” will be assigned to designate credit earned through experiential learning. Thomas University uses the guidelines of ACE and CAEL to determine appropriate credit for training, workshops, military service, etc. that has taken place outside a college setting.

Directed Independent Studies

A student can take no more than eight credit hours in his/her degree program as a directed independent study. Directed independent studies must be recommended by the division chair and approved by the Associate Vice President of Academic Affairs.

Undergraduates Taking Graduate Courses

Undergraduate students interested in taking graduate level courses:

- will not be required to apply for a graduate program;
- must have senior status;
- can only take a total of six credit hours in graduate courses;
- must have an undergraduate GPA of 3.0 or higher; and
- must have approval of their advisor and appropriate graduate division chair.

Graduate courses will only count as undergraduate credits. However, if the student has undergraduate credits above and beyond the total required number of credits for their undergraduate degree, the graduate course can be carried over to the graduate coursework and count toward the graduate degree, if the student earns a “B” or higher. This may happen if the student exceeds the number of required credits for the undergraduate degree and the specific undergraduate requirement filled by the graduate course is replaced with another applicable course. If graduate credits do not carry (in the case of having no surplus credits beyond the total required for the undergraduate degree), the student is exempt from repeating those courses in their graduate coursework. However, the student must take electives to satisfy the total credits required for the graduate degree.

Transient Authorization

Thomas University students who wish to enroll temporarily in another college or university must obtain prior permission from Thomas University’s registrar and their academic advisor/chair. All coursework a student wishes to attempt for transient credit must receive prior approval; approved credit earned while in transient status may then be transferred to Thomas University provided such credit carries a grade of “C” or higher and satisfies Thomas University’s curricular requirements. A student cannot receive transient authorization to enroll in a course at another college or university which he or she failed in an attempt at Thomas University.

Academic Renewal

Students who previously attended Thomas University but have not been enrolled for a period of at least five years may enter with a renewed GPA. A student may contact the Office of the Registrar to request Academic Renewal. When Renewal is requested, all courses previously completed at Thomas University, both successfully and

unsuccessfully, will not be calculated in the student's cumulative GPA as reported on the official transcript. The courses that have Academic Renewal remain on the student academic record, but the final grade is preceded by a "G." This policy may not apply to all programs. This Renewal does not apply to financial aid and scholarship eligibility, athletic eligibility, and calculation of graduation honors.

Registration Policies

Add/Drop and Student Accounts Policies

During fall and spring semesters, students may drop and/or add class(es) during the Add/Drop period for each course block (i.e.: 1st 5 weeks, 2nd 5 weeks, 1st 8 weeks, etc.). The Add/Drop period is the first week of each course block and is defined on the Academic Calendar posted online and in the Catalog. An Open Drop period is available during the second week of the semester for further course drops only (no course additions). Open Drop is not applicable to every course block – it is only at the beginning of the semester. Any course changes after the first two weeks of the semester are withdrawals, in part or in full, and full financial obligations apply.

During summer term, students may drop and/or add class(es) during the Add/Drop period for each course block (i.e.: 1st 5 weeks, 2nd 5 weeks, 1st 8 weeks, etc.). The Add/Drop period is the first week of each course block and is defined on the university Academic Calendar posted online and in the Catalog. There is no additional Open Drop period during summer term. Any course changes after the Add/Drop period are withdrawals, and full financial obligations apply.

- Students may change their schedules during the published, applicable Add/Drop and Open Drop periods after conferring with their academic advisor.
- Instructor approval is needed to add a course if a class has already met once. **Classes may not be added after the first week of classes.**
- A student who does not attend the first day of class may be dropped from the class roll. A student who has been dropped from a class may appeal to the professor for reinstatement.
- The final tuition and fees balance is calculated at the end of the second week of classes for fall and spring semesters and at the end of the first week of classes for each summer term.
- A student must pay in full or finalize a payment plan by the end of the second week of classes during fall and spring semesters and at the end of the first week of classes for each summer term or the student will be removed from all courses.

No Show Policy

A registered student who has failed to attend class (in person or by electronic equivalent) within the first week of class will be reported as a **no show**. The no show student will be removed from the course, and tuition/fees and financial aid will be adjusted accordingly. Neither the course(s) nor any grade(s) will appear on the student's permanent record.

Academic Withdrawal

Students may withdraw from a course following the drop/add period until the 60% mark of the semester as designated on the academic calendar, and after conferring with an advisor. It is the student's responsibility to meet with his or her advisor for review and approval. If a student wishes to withdraw from a course with a "W" as the grade, the request must go through the student's advisor for review and approval. Advisors submit a withdrawal online form to the registrar. Students who fail to withdraw officially using the formal withdrawal process will receive a grade of "F" in courses for which they have registered.

A withdrawal before midterm is non-punitive, and a grade of "W" is assigned. Students will not be allowed to withdraw after the withdrawal date published on the academic calendar. However, in cases of extreme hardship and/or extenuating circumstances where an incomplete is not warranted, a student may petition for withdrawal by completing the appropriate forms, obtaining required signatures from the Associate Vice President of Academic Affairs, and forwarding the form to the registrar's office. The student must have been passing the course at the time of the withdrawal petition. If approved, the instructor for the course may assign a grade of "W."

Withdrawing and Financial Aid

Students receiving financial aid should be aware that withdrawing from courses may affect continued financial aid eligibility. Students are encouraged to see the Director of Financial Aid before withdrawing. The student must be withdrawn on or before the deadline to withdraw with a “W.”

Full-time students who wish to withdraw completely from the college are required to contact the registrar’s office for an exit interview.

Administrative Withdrawal

An instructor may withdraw a student from class administratively under the following guidelines:

1. The student has missed more classes than allowed in the attendance policy stated in the Catalog or course syllabus.
2. The deadline to withdraw with a “W” has not passed.

Under extenuating financial, health, or safety-related circumstances, the Associate Vice President of Academic Affairs or his/her designee may withdraw a student from class administratively.

Military Service

Students ordered to active military duty during a national emergency will be assigned an “I” or “W” in each course in which they are passing.

Undergraduate Program Policies

Academic Advising

Academic advising ensures proper scheduling for the timely completion of students’ program requirements.

Students with fewer than 48 credit hours must be advised by a pre-professional advisor. Once students have declared a major and attained 48 hours of credit toward a degree, students will be assigned a faculty or professional advisor in their major field.

Students are responsible for making appointments with their academic advisor to register by posted deadlines each semester.

Academic Standing

Classification for class standing is determined by the number of academic hours successfully completed. Criteria are shown in the table below:

Classification	Hours
Freshman	0-29
Sophomore	30-59
Junior	60-89
Senior	90-completion

Course Load

Undergraduate students carrying a course load of twelve hours of credit or more are considered full-time; students carrying a course load of 6-11 hours of credit are considered part-time.

The university reserves the right to limit the course load of students who are not showing satisfactory academic progress.

Students may not take over eighteen hours per semester without the written permission of the Associate Vice President of Academic Affairs.

Declaring a Major

Students are required to declare a major after earning 30 credit hours and before completing 60 earned credit hours. Students must obtain approval from their current advisor. Change of major and change of advisor forms are located online and are ultimately approved by the Director of Academic Advising and sent to the Registrar.

Major Course Minimum Grade Policy

A “C” or better must be earned in all required courses in a major to satisfy degree requirements. This includes prerequisites as well as all upper division courses, including upper division electives.

Attendance Policy

A student in a face-to-face class is expected to attend all scheduled classes and laboratory sessions. A student who does not attend the first day of class may be dropped from the class roll.

It is the student’s responsibility to officially withdraw from class in the event that they choose not to complete the course.

Absence from 20% or more of regularly scheduled classes or laboratory sessions for any unexcused reason may result in an administrative withdrawal or receiving an “F” for that course at the instructor’s discretion.

A student in hybrid and online courses is expected to be present in all online classes each week. Presence in the online classroom is assessed through logging in and participating in class activities each week as specified in the course syllabus. Failure to meet these expectations for any unexcused reason will result in a recorded absence for the week. Recorded absences equaling 20% or more of the length of the semester/term may result in an administrative withdrawal or receiving an “F” for that course at the instructor’s discretion.

A student in an online course is responsible for logging onto the course by midnight of the first day of classes. Otherwise, the student may be dropped.

A student in a Directed Independent Study or a course listed as TBA on the class schedule must contact the instructor by midnight of the first day of classes. Otherwise, the student may be dropped.

Excused Absence

Students participating in required university sponsored events are excused from scheduled classes by written request of the respective coach or professor. Students are required to notify the professor and request an excused absence prior to the event. Faculty and adjunct instructors must allow students to make up any assignment missed (quizzes/tests/other assignments) or an appropriate alternate assignment during an excused absence without penalty. To the extent possible assignments are expected to be completed prior to the event or at the discretion of the professor.

CWRTE: Critical Writing, Reading, and Thinking Exam

The CWRTE is a two hour, timed exam that requires students to read an article regarding a familiar topic, answer reading comprehension and information fluency questions, and write a multi-paragraph essay.

Purpose of the CWRTE

The CWRTE is designed to identify students who are prepared to continue their course of study in upper division courses. It also identifies students who may benefit from advanced instruction in critical thinking, reading, information fluency, and English composition.

Who Takes the CWRTE

All TU undergraduates, *i.e.* all those pursuing an Associates and/or Bachelor’s degree, must pass the CWRTE in order to earn a degree from Thomas University. In addition, RN-MSN and RN-MSN/MBA students must also pass the CWRTE. Students pursuing a second bachelor’s degree or post-bachelor certification are exempt from the CWRTE requirement.

When Students Take the CWRTE

Students must take the CWRTE in order to enroll in their major program of study and/or before earning 60 credit hours.

- Students should take the CWRTE after completing 30 semester hours, including completion of ENG 102 (or its transfer equivalent) with a grade of “C” or better.
- A student who has accrued 60 credit hours, but has not passed the CWRTE, must register for REA 111 Critical Writing, Reading, and Thinking Skills for the following academic term.
- Students cannot take more than 30 upper division hours until they successfully complete the CWRTE.

When Transfer Students Take the CWRTE

Transfer students should follow a similar progression:

- Students who transfer to Thomas University with coursework equivalent to ENG 101 and ENG 102, and less than 45 credit hours should take the CWRTE during their first semester at TU.
- Students who transfer to Thomas University with coursework equivalent to ENG 101 and ENG 102, and 45 or more credit hours should take the CWRTE as part of their admission requirements, before beginning classes.
NOTE: These students may wait until the end of their first semester under one of two conditions:
 - The student enrolls in REA 111 during the first five weeks of their first semester at Thomas University. The CWRTE serves as the final exam for this course.
 - The student enrolls in an upper level expository composition course (e.g., Scholarly Writing, Professional Writing, Argumentative and Persuasive Writing).

If the CWRTE is Not Satisfied

If one or more parts of the CWRTE are not satisfied, the student should register for REA 111 during the next semester of enrollment. At the conclusion of the course, the student will retake section(s) not satisfied. If students do not satisfy a section for the second time, they should register for REA 111 a second time as well as set up an academic plan with Developmental Studies. After three attempts at a section, if the section is not satisfied, students may not continue taking classes at Thomas University.

Developmental Studies Courses

All students who place into take two or more Developmental Studies courses in English, Reading, and/or Math at Thomas University must take the UNV102 Student Success Seminar. All courses listed with a number less than 101 are taken for institutional credit only. Students scoring below the required level for entrance into academic courses are required to register for Developmental Studies classes. Successful completion of Developmental Studies classes is required before a student is admitted into the regular academic program.

Repeating Courses/Forgiveness Policy

The Forgiveness Policy applies to undergraduate courses only. In order to attempt to improve a course grade and grade point average, a student may repeat courses.

The following stipulations apply:

- A course repeated will not replace the first grade from appearing on the student’s transcript.
- The repeated course grade will be entered on the student’s official transcript, and the cumulative GPA will be determined using the grade earned for the repeated attempt.
- The original grade will remain on the transcript but will not be counted in the GPA.
- Only one re-attempt is allowed for three separate courses.
- Specific Division policies may apply. A student’s advisor must be consulted before registering to repeat a course.
- The student must apply for Grade Forgiveness using the appropriate form and submitting it to the Registrar’s Office in order to replace a lower grade with a higher grade earned by repeating a course.

Second Bachelor’s Degree

Students who want to earn a second bachelor’s degree at Thomas University must meet the following stipulations:

- must have completed all Core requirements (or an A.A.);
- can count upper division course work from the previous degree if appropriate;

- must earn a minimum 30 additional hours to earn the second degree; and
- must meet any other program requirements for the second degree.

Satisfactory Academic Progress

Thomas University seeks to provide an environment suitable for promoting learning. To ensure this primary goal, the university requires of its students reasonable academic progress. The retention of those students who repeatedly demonstrate a lack of ability, industry, maturity and preparation would be inconsistent with this requirement.

At the end of each semester, the registrar will compute the cumulative GPA and compare each student's progress to the established criteria. This comparison will determine whether or not a student is performing satisfactorily.

The Academic Council determines the criteria for satisfactory progress. The criteria for satisfactory progress are shown in the following table.

Academic Hours Attempted	Minimum Cumulative GPA
0-29	1.50
30-59	1.80
60-89	1.95
90-completion	2.00

The individual's stage of progress is determined on the basis of the total number of academic semester hours attempted, including those transferred from other institutions. However, transfer credits are not included in computing GPAs.

Academic Warning

A student will receive an **academic warning**, if at the end of the semester while on good standing, the semester GPA falls below a 2.0. This is an indication to the student that he or she needs to meet with his/her advisor to discuss an academic plan designed to increase academic success during subsequent semesters. Even though a student given an academic warning is making progress toward graduation, it should be clearly understood that without immediate academic improvement, probation or suspension will result.

Academic Probation

A student will be placed on **academic probation** if at the end of the semester the cumulative GPA falls below the minimums specified for **satisfactory academic progress**. Even though a student on probation is making progress toward graduation, it should be clearly understood that without immediate academic improvement, suspension will result.

NOTE: If a student enrolled in developmental courses does not pass with a least a "C" or better in six hours of developmental course work each semester, he or she will be placed on academic probation.

Provisionally admitted students will enter on Academic Probation. They must earn at least a 2.0 GPA during their first semester or they will be placed on Academic Exclusion

Academic Suspension

While on academic warning or probation, a student will be suspended at the end of any semester if the cumulative GPA falls below the minimums specified in the table above and semester GPA falls below 2.0.

Suspended students may be readmitted after one regular semester of suspension, typically fall or spring*, but shall be readmitted on academic probation. Students may be suspended and readmitted in this manner only twice. The third suspension will result in Academic Exclusion. Should another institution permit a student on suspension from Thomas University to enroll, work taken at that institution during any period of suspension shall not be counted as credit at Thomas University.

*An exception to the regular semester rule may apply if the student was registered for summer by April 15th and received notice of academic suspension at the end of spring semester. In this case, the student may appeal to the Associate Vice President of Academic Affairs to have summer count as the suspension term.

Academic Exclusion

Academic exclusion results in a student being barred from the institution due to unsatisfactory academic progress. A student placed on academic exclusion will be suspended from the university for a minimum of one calendar year.

Students enrolled in developmental courses may attempt each course a maximum of **three times** to earn a minimum grade of “C” required for advancing to the next course level. If they have not completed the requirements for the course after three attempts in each course, they will be excluded from further study at Thomas University.

Readmission to the university after Academic Exclusion can only be accomplished by appealing to the Associate Vice President of Academic Affairs in writing.

Graduate Program Policies

Course Load

Graduate students carrying nine or more hours are considered full-time; graduate students carrying a course load of fewer than nine are considered part-time. Graduate students are considered full time during the summer term if enrolled for a minimum of six graduate credits.

Satisfactory Academic Progress

The Graduate Council sets minimum standards that all graduate students in the university must fulfill. Divisions and programs may have additional requirements that exceed the Graduate Council minimum requirements. Students are advised to read the rules explaining satisfactory progress for the graduate major.

The Graduate Council requires that a student earn a minimum graduate grade of “B” (grade point of 3.0 on a 4.0 scale), “S” (Satisfactory), or “P” (Pass) in each graduate-level course taken as a graduate student. The Graduate Council also considers grades of incomplete to be unsatisfactory if they are not removed during the next fall or spring semester in which the student is enrolled; however, the professor may impose an earlier deadline. A student may be expelled from the program for one or more grades below the “B”, “S”, or “P” minimum within one semester or for failing to resolve incompletes.

Academic Suspension

A student may be suspended from the Graduate Program for the subsequent semester for a grade falling below the “B” (grade point of 3.0 on a 4.0 scale), “S” (Satisfactory), or “P” (Pass) minimum or for failing to resolve incompletes grades during the next fall or spring semester in which the student is enrolled. In order to remain enrolled, the student must submit a request in writing to continue in the program with an action plan in which the student outlines his or her plan to attain successful results in the student’s course of study during the next semester (i.e. what will the student do differently the next semester to insure success in their classes). This action plan must be submitted by the first day of the next semester to the division chair. The division chair and appropriate graduate faculty will determine whether the student will continue in the program. This decision will be final.

Readmission

If the student is readmitted he/she must repeat the course in which the unacceptable grade was earned, at the student’s expense. A course so repeated will not negate the first grade. The repeated course grade will remain on the student’s transcript. A second unacceptable grade (below the “B” (grade point of 3.0 on a 4.0 scale), “S” (Satisfactory), or “P” (Pass) minimum) in any graduate course will result in permanent academic exclusion from the graduate program.

Provisional Admit - Graduate

If a student is admitted as a provisional admit, the student must register for and successfully pass the graduate Scholarly Writing Course prior to full admission to the graduate program. The graduate Scholarly Writing course must be taken and passed before the student is permitted to register for any other graduate courses. If undergraduate courses are needed for prerequisites in the graduate program, the student is permitted to take these during the same semester as Scholarly Writing. The student must earn a grade of “B” or better in each course to enter into the graduate program.

Academic Exclusion

Students who were excluded from one graduate program at Thomas University may apply to another graduate program if minimum admission criteria for that program are met. Application to another graduate program must be reviewed and approved by the Graduate Council for provisional admittance. If the student is provisionally admitted, the first semester of the provisional admit is considered an Action Plan and the student must earn a grade of “B” or better in each course to remain in program. Since graduate students cannot have more than one action plan, a grade below a B during the first semester will result in permanent academic exclusion from the graduate program.

Special Standing

Thomas University accepts qualified applicants for graduate study as Special Standing Students (non-degree seeking) to take up to 12 credits of approved graduate-level courses. Applicants must meet the standard of a cumulative undergraduate GPA of 3.0 or higher; provide a resume and personal statement describing their reason for applying and stating specific courses they wish to take; and supply three letters of reference relevant to their ability to do graduate study. We expect applicants to hold an undergraduate (or prior graduate) degree in a related discipline.

Not all courses/programs are open to non-degree seeking students. Course enrollment must be approved by the applicable division chair.

Special Standing Graduate Students (non-degree seeking) must earn a “C” or higher in each Thomas University graduate course taken to be permitted to enroll in additional courses as a Special Standing Student. If a Special Standing Graduate Student applies and is admitted to a graduate degree program, only 12 credits of non-degree seeking coursework for which the student earned a “B” or higher can be applied to the graduate degree requirements.

A student who has been excluded from a Thomas University graduate program cannot be a non-degree seeking student.

Additional Graduate Policies

In addition to these minimum academic requirements, students are expected to demonstrate behaviors that support and contribute to a positive professional learning environment in the classroom, university and community, in congruence with the mission and philosophy of the university and graduate program. In accordance with the policies of Thomas University, a student’s scholarly (e.g. cheating, plagiarism) or personal misconduct may make it inadvisable to retain the student in the program or university.

Academic Appeals Processes

There are a variety of protections offered students at the university to assure a fair and consistent treatment in academic matters. Issues of alleged discrimination, harassment, sexual harassment, and penalties for student misconduct have their own grievance or appeals procedure, detailed on the TU [Campus Safety](#) website.

Student academic grievances may concern:

- Course content that veers significantly and substantively from the content and requirements as set forth in a course syllabus.
- Demonstrably arbitrary and unfair evaluation of student produced course work.

Deviations from the Course Syllabus

Deviation from the syllabus will be considered a grievable situation only if the student can show that significant material, vital to future courses for which this course is a prerequisite, has been eliminated or the expectation of student performance has significantly changed.

In general, any student who has any form of grievance with a faculty member or administrator follows this process:

1. Take that grievance to the person involved. Accordingly, students who have a grievance about major deviations, additions or changes to a course's syllabus are encouraged to first take up the issue with the course instructor. Significant reasons may have developed – such as a major discovery that necessitates changes in the course content or contextual developments which change the way the course may be delivered or evaluated – to warrant such changes in the curriculum.
2. If a faculty member is contacted and a resolution does not result, the grievance may then be taken to the division chair. (If the applicable division chair is the instructor in question, the concern should be directed to the Director of Academic Advising) The purpose of this meeting is primarily informational, although if there is evidence that the course did not generally match with the basic description provided in the University catalog, remedies may be offered to the student, including, but not limited to, re-offering the course to the student, providing an opportunity for mentored independent study, or extending the option of course withdrawal.
3. If the grievance is still not resolved, it may be taken to the Director of Academic Advising for review and final decision. Grievances should be expressed and dealt with at the earliest point in time. Ordinarily students should begin the grievance process no later than two weeks after the initial unresolved experience. Grievances initiated after the end of the semester will be treated as grade appeals.

Demonstrably Arbitrary and Unfair Evaluation of Student Work

Students have a right to expect fair and consistent issuance of course grades. The grading policy employed in each class, including the comparative weight of each component used to determine the final grade, is outlined in each course syllabus. It is the student's responsibility to read and comply with the grading policy outlined in that syllabus.

In general, any student who has any form of grievance with a faculty member or administrator follows this process:

1. Take the grievance to the person involved. Accordingly, students who have questions about grades on projects, tests or final grades for the semester are encouraged to meet with their instructor and review the grades.
2. In the case of a final grade only, if the student still does not understand the basis for the grade or believes that the composition of the semester grade conflicts with the grading policy stated in the syllabus, the student may request an additional meeting with the instructor and the applicable division chair (If the applicable division chair is the instructor in question, the concern should be directed to the Director of Academic Advising). This meeting must be requested within two weeks of receipt of the final grade, and must take place within 30 days of the beginning of the next semester.
3. At this meeting, the student will be asked to provide evidence to substantiate the claim that the grade was either arbitrary or unfair. The role of the applicable division chair is to facilitate communication and clarify understandings.
4. If the dispute is regarding the accuracy of a grade assignment, and in the opinion of the division chair, evidence substantiates the claim that the grade is either arbitrary or unfair; the division chair will determine a resolution.
5. A further appeal based on merit may be made to the Director of Academic Advising for final determination.

The grade appeal process is not designed to address accusations of discrimination or harassment. If such concerns are the premise upon which the appeal is made, the student is directed to use the processes established by the university to resolve discrimination or harassment charges.

Credit by Examination

To reduce the length of time and cost to complete a program of study, students may receive up to 30 combined hours of credit for approved courses towards a bachelor's degree or 15 hours towards an Associate of Arts degree through any of the following: CSC 120 Microcomputer Applications Examination, institutional-departmental examinations, the College Level Examination Program (CLEP) subject examinations, the Defense Activity for Non-Traditional Education Support (DSST/DANTES), or the Advanced Placement (AP) program.

Credit earned from the CSC 120 Microcomputer Applications examination, institutional-departmental examinations, CLEP, DSST/DANTES, AP, or any external credit source will not be used to compute the grade point average.

CSC 120 Microcomputer Applications Examination

This credit by exam is an option to obtain course credit for computer skills for students who bring work and learning experiences that enable them to demonstrate mastery of the course learning outcomes for CSC 120 Microcomputer Applications. Outcomes show proficiency in the following areas: Windows, Microsoft Office Suite (Excel, Word, PowerPoint, etc.), and the use of the internet. Students will pay \$350 to attempt the exam; if the student passes the exam they will receive three credit hours on their transcript for the CSC 120 course. If the student does not pass the exam, the \$350 is non-refundable. Credit earned from this examination will not be used to compute the GPA. The exam may be taken on campus or at selected proctoring sites off campus. Contact the registrar's office for more information.

Institutional-Departmental Examinations

Arrangements for these exams must be made through the Division Chair. The Associate Vice President of Academic Affairs will determine whether the student meets the requirements to proceed with a departmental exam.

- Students desiring credit by examination must present evidence of probable success in the examination subject area before permission will be granted.
- Departmental credit by exam is limited to nine credit hours (unless otherwise stipulated by an articulation agreement in which the student is a participant).
- A student may not attempt credit by exam for any 400 level courses.
- Credit by exam must be attempted during the first year a student is enrolled at TU.
- A \$350 fee per examination is required, and a copy of the examination and score must be signed by the examination administrator and submitted to the Registrar.
- Students achieving a satisfactory score will have the credit or exemption entered on their academic transcript.

CLEP or DSST/DANTES Subject Examinations

Courses for which CLEP or DSST/DANTES examinations are accepted are available from the registrar. For those exams accepted, a minimum score of 50 is required. Thomas University follows the credit recommendations of ACE for scores required for college credit. An official score report must be submitted to receive credit.

Advanced Placement and International Baccalaureate Programs

AP and/or IB courses are offered to high school students by some high schools. Enrollment in AP and/or IB courses is determined at the high school level. A student in such courses must take the concluding exam to be eligible for college credit. A score of three or above on the AP exam is required to earn college credit. An official, original score report must be submitted to receive credit.

Extra-Institutional Learning Credit

Thomas University gives credit for formal training according to the principles established in the ACE National Guide and/or Guide to Evaluation of Educational Experiences.

Experiential Learning Credit

Experiential learning course credit is an option for non-traditional college students who bring significant work experience, both in terms of years and responsibility, to obtain course credit if they can demonstrate achievement of course outcomes and competencies obtained through prior learning experiences.

The requirements for earning experiential learning credit follow the guidelines of the Council for Adult and Experiential Learning and can be found on the TU website at www.thomasu.edu/academics.

Experiential learning course credit is available for:

- SPE 105 Oral Communication for Professionals
- NSG 490 Special Topics in Nursing or Related Health Services
- CRJ 390 Criminal Justice Specialization

A student seeking experiential learning credit must complete a request form supplying and verifying the information required by the appropriate division (see below). The Associate Vice President of Academic Affairs will determine whether the student meets the requirements to proceed with the portfolio.

An assessment committee made up of faculty/administrators in the appropriate Division will determine whether the portfolio merits course credit.

For more information, students should contact the Associate Vice President of Academic Affairs.

Requirements for SPE 105 Experiential Learning Credits

To be eligible for Experiential Learning credit for this course, a student must meet the following criteria:

1. be enrolled in a TU degree completion program (BSN, BS in Medical Laboratory Science, BS in Criminal Justice) or transfer into a major program as a junior;
2. have a transfer GPA of 2.0 or better;
3. successfully complete or transfer ENG 101 and ENG 102;
4. document at least three full-time equivalent years of relevant employment;
5. pay \$350 fee if materials merit course credit; and
6. submit a portfolio with the understanding that plagiarism, falsification, or misrepresentation are unacceptable and will result in rejection of the portfolio and will be reported to the Honor Council as a violation of the Honor Code.

Requirements for CRJ 390 Experiential Credits

Students may obtain up to six major elective course credits for specialized skills or careers within the field of criminal justice by providing documentation of training, experience and proficiency within a specific specialization or field of criminal justice. The requirements for experiential learning credit for CRJ 390 Criminal Justice Specialization are:

1. be enrolled in the TU Bachelor of Science in Criminal Justice or transfer into the major as a junior;
2. have a transfer GPA of 2.0 or better;
3. successfully complete or transfer ENG 101 and ENG 102;
4. document at least three full-time equivalent years of relevant employment;
5. pay \$350 fee if materials merit course credit; and
6. submit a portfolio with the understanding that plagiarism, falsification, or misrepresentation are unacceptable and will result in rejection of the portfolio and will be reported to the Honor Council as a violation of the Honor Code.

Requirements for NSG 490 Experiential Learning Elective Credits

Upon acceptance to the Thomas University Nursing Program, students who hold an active professional nursing certification sponsored by a national organization may receive three credit hours for NSG 490 Special Topics in Nursing or Related Health Services as part of their required curricular plan. Additionally, students who receive an initial certification while enrolled in the nursing program can also receive three credit hours. Examples of approved organizations and certifications include American Nurses Credentialing Center, Emergency Nurses Association, Oncology Nursing Certification Organization, American Board of Perianesthesia, Nephrology Certification Commission, and others. Examples that would not meet this requirement include CPR, ACLS, TNCC, PALS, NALS and other similar certifications.

To receive credit, a student must:

1. have the certification approved by his/her nursing advisor and the division chair;
2. submit a copy of the certification to his/her advisor along with a letter requesting the credit;
3. attach a copy of the official certification requirements; and
4. pay \$350 fee if materials merit course credit.

All of these documents will be filed in the student's academic file. The certification must be current at the time credit is requested in order to receive experiential learning credit. Only one national certification is eligible for experiential learning credit.

Foreign Study Opportunities

Thomas University offers several study/travel abroad programs. These programs allow students the opportunity to earn academic credits while participating in an overseas experience. Travel takes place between semesters or during the summer term. For more information about Study Abroad courses, dates and requirements, students may contact their academic advisor.

Financial Assistance for Foreign Study Opportunities

Deadlines

- September 1st for fall semester trips
- February 1st for spring semester trips

Application Process and Policy:

- Apply for scholarship aid for travel expenses by filling out the Institutional Scholarship Application and submitting it to the Director of Financial Aid, by the deadline.
- Institutional Scholarship Aid will be awarded if funds are available.
- No funds will be provided to a student who is making a repeat trip to the same country, even if the trip is repeated for a different course.

Online Consortium of Independent Colleges and Universities

The Online Consortium of Independent Colleges and Universities (OCICU) provides students with the opportunity to complete courses with students from over 60 private, not-for-profit colleges in the United States.

Enrollment in OCICU courses will be limited to one per semester unless required courses are cancelled or for other reasons cannot be completed within the Thomas University curriculum. In such exceptional cases, students must have the approval of the Division Chair and Associate Vice President of Academic Affairs. Thomas University undergraduate students may complete a total of nine credits through OCICU and graduate students may complete a total of six credits through OCICU.

Students are eligible to register for courses through OCICU if they meet the following stipulations:

- the course(s) have been specifically designated as requirements or electives for a particular program of study and if the course is not being offered at Thomas University within a reasonable time for completion of the degree;
- the limit for OCICU Core Curriculum courses has not been exceeded;
- have completed at least 30 credit hours of college level coursework (not applicable for graduate students);
- have a minimum cumulative GPA of 2.5 for undergraduates or 3.0 for graduate students;
- have the approval of their advisor; and
- earned a "C" or better in ENG 101 Composition I (not applicable for graduate students).

Academic Honors

President's List

The President's List for each semester will include those full-time students who earn a GPA of 4.0. Students enrolled in courses which earn institutional credit only are not eligible for the President's List.

Dean's List

The Dean's List for each semester will include those full-time students who earn a grade point average of 3.50 to 3.99. Students enrolled in courses which earn institutional credit only are not eligible for the Dean's List.

Merit List

The Merit List for each semester will include those part-time students who are taking at least 9 semester hours of credit, but fewer than 12, and who earn a GPA of 3.5 or higher. Students enrolled in courses which earn institutional credit only are not eligible for the Merit List.

Achiever's List

The Achiever's List for each semester will include students who are taking at least 9 semester hours of credit and earn a grade point average of 3.5 or higher. This is an honor awarded to students enrolled in courses which earn institutional credit only.

Honor Societies

Alpha Chi

Alpha Chi, a national honor society, is open to students with junior or senior standing. Students must be in the top 10% of their class, have a minimum GPA of 3.5, participate in student activities, show evidence of community participation, and be of good character and reputation. Competitive scholarships are available and national and regional conventions are held annually at selected sites.

Alpha Phi Sigma

Alpha Phi Sigma is a national honor society for Criminal Justice undergraduate students with a grade point average (GPA) of 3.2 on a 4.0 scale, must have completed one-third of the total hours required for graduation, must rank in the top 35 percent of their class and have completed a minimum of four courses in the Criminal Justice curriculum. The TU chapter of Alpha Sigma Lambda is Phi Lambda.

Alpha Sigma Lambda

Alpha Sigma Lambda is an honor society for non-traditional students, age 26 or older, who have earned a minimum 3.2 GPA taking a minimum of 24 graded undergraduate semester hours at TU. The TU chapter of Alpha Sigma Lambda is Phi Lambda.

Chi Sigma Iota

Chi Sigma Iota is an international counseling, academic and professional honor society dedicated to promoting excellence in counseling. Students must have a minimum 3.5 GPA and have completed at least 12 hours in a graduate counseling program.

Kappa Delta Pi

Kappa Delta Pi is an international honor society in education open to second semester sophomores, juniors, and seniors who rank in the top 20% of their class or have a minimum 3.5 GPA.

Phi Alpha

Phi Alpha is a national honor society for Social Work students. Thomas University is part of the Phi Alpha National Social Work Honor Society as Omicron Tau chapter. Social Work seniors with at least a 3.0 overall college GPA and a 3.25 GPA in social work classes will be eligible for membership in the TU chapter. Members receive a lifetime membership certificate and wear a multi-colored honor cord at their graduation ceremony to reflect the diversity of their client populations.

Psi Chi

Psi Chi is a national honor society in psychology. Membership is an earned life honor. Undergraduates must have an overall CGPA of 3.0, rank in the upper thirty-five percent of their class, must demonstrate superior scholarship in psychology, and demonstrate high standards of personal behavior.

SALUTE

SALUTE is the national honor society for military and veteran students who have earned a minimum GPA of 3.0 for undergraduates or a GPA of 3.5 for graduate students, who have served or who are currently serving in the military, National Guard, or reserves, and who maintain the highest ethical standards. Inducted graduate students are classified as SALUTE Gold Members and must have completed 12 semester hours of graduate work or equivalent.

Sigma Beta Delta

Sigma Beta Delta is a national honor society in business. Its purpose is to encourage and recognize scholarship and accomplishment among students of business, management, and administration.

Sigma Theta Tau International

Sigma Theta Tau is an international honor society of nursing whose mission is to support the learning, knowledge, and professional development of nurses committed to making a difference in health worldwide. Membership is open to BSN and MSN students with a minimum GPA of 3.5, as well as nursing leaders with a minimum of a bachelor's degree and demonstrated achievement in the profession. The TU chapter of Sigma Theta Tau International is Phi Tau.

Graduation

Thomas University awards associates, bachelor's, and master's degrees. Degrees will be conferred summer, fall, and spring, upon the recommendation of the faculty, to students who have successfully completed all program requirements. The Commencement ceremony for all students graduating in summer, fall, and spring of an academic year is conducted following spring semester. All students completing graduation requirements during this period are required to participate in the ceremony.

Exemptions are permitted by the Provost only under exceptional circumstances. All students must have a minimum GPA of 2.0 in order to be eligible for recommendation for graduation. At least 25% of all hours earned toward any degree must have been earned at Thomas University, and 24 of the last 30 hours of upper-division coursework toward a bachelor's degree must have been earned at Thomas University.

Latin Honors

Students who are awarded a Bachelor's Degree may earn the distinction of graduating summa cum laude (3.9 CGPA), magna cum laude (3.7 CGPA), or cum laude (3.5 CGPA).

- The associates degree honor graduates are those students who graduate with a cumulative grade point average of 3.5 or higher.
- GPAs for graduation honors are calculated using all hours attempted in service to the degree at all institutions attended through the end of the fall semester preceding graduation.
- Honors will not be re-calculated after all grades are posted.
- Graduate students, already subject to maintaining a higher GPA as a student in the graduate program, are not issued Latin Honors
- If an Honor Code violation stamp is on a graduating student's transcript at the time of Honors Calculations, the student is excluded from receiving recognition for Honors (e.g.: transcript note, Honors Tea, Latin Honors, commencement program), regardless of GPA, until the requirements of the stamp are met.

Graduation Procedures

Students who expect to graduate must complete the Graduation Application before the deadline.

- The deadline for fall graduates is March 1st.
- The deadline for spring graduates is October 1st.
- The deadline for summer graduates is December 1st.

Graduation Applications received after the deadlines will not be guaranteed the opportunity to participate in the graduation ceremony.

In addition to the graduation application, students are required to pay graduation fees, and clear all accounts in the Business Office. Official transcripts and diplomas will not be provided until all requirements have been met.

NOTE: Students expecting to graduate in Summer term may have no more than three classes, for a total of 10 credit hours or less, remaining for Summer enrollment in order to participate in the preceding annual Commencement exercises. To receive permission to participate, students must be registered for the remaining courses and courses must be completed during the summer semester after Commencement.

Library Services

The Thomas University Library, conveniently located in the center of the Academic Complex, offers traditional library services coupled with the latest in educational technology. It is the expressed mission of the library “to support the academic needs of the students by providing a dynamic learning environment that engages students in their intellectual and personal development and to provide faculty and students training and resources to ensure the means by which they can achieve personal and professional transformation.”

The library supports individual, group, and distance use of its resources through its availability and arrangement of computer terminals, collections, study areas, seating, and web presence.

The library provides various print and electronic collections to support the academic programs of the university. This includes the general circulating collection, the reference collection, the audiovisual collection, and access to various collections of electronic books and periodicals; all searchable via the library web page. These holdings consist of over 20,000 print books, 1,000 audiovisual items (audio books, music CDs, and DVDs), and 90 print newspapers, magazines, and journals; as well as access to over 160,000 electronic books and access to hundreds of full-text articles available through the state-renowned GALILEO collection of academic databases and resources.

Patrons have access to 26 computers, several printers, and a photocopier. Articles and books not available in the library may be acquired through the Interlibrary Loan service. Librarians conduct classroom, online, and one-on-one library and information literacy instruction.

The Thomas University Library maintains cooperative agreements with GPALS (Georgia’s Private Academic Libraries) and Southern Regional Technical College Library.

Learning Support

Developmental Studies Courses

These reading, English, and math courses empower students with the knowledge, skills and dispositions to meet the reading, writing, and quantitative reasoning demands of the Core Curriculum.

Students are placed into Developmental Studies courses based on their scores on the Thomas University placement exam. Students place into Developmental Studies courses for many reasons: they may have never learned some required skills in high school, they may never have planned to go to college, or they may have been out of school for several years before returning to college.

Developmental Studies or college prep courses involve the same amount of time and effort for assignments as college level classes, yet they do not penalize a student if a course needs to be repeated. Grades are not averaged into the cumulative grade point average, but are counted towards financial aid and other eligibility requirements. Each Developmental Studies courses may be attempted a maximum of three times.

Students who take Developmental Studies courses must pass these courses with a “C” or higher to proceed to college-level classes. However, Developmental Studies students are not restricted to taking only developmental courses. Certain college-level courses may be taken while completing the developmental courses. Developmental Studies courses should ordinarily be completed within the first thirty hours that a freshman is enrolled.

Learning Support Courses

Thomas University offers support courses for enhancing English as a Second Language, college Math / Algebra learning, and Critical Writing, Reading, and Thinking skills. Students are advised to take these courses based on entrance exam scores and CWRTE results.

Academic Resource Center

The Academic Resource Center (ARC) empowers students to take personal responsibility for their college success by addressing their knowledge, skills, strategies, and dispositions on an individual basis and through individual course

assignments. To achieve this mission, ARC provides all Thomas University students with free assistance from their trained peer tutors and professors in all academic subjects. ARC delivers these services both face to face and online using a variety of technologies. ARC also equips students with wireless access, computers, and a quiet study space.

The Pre-College Program Educational Talent Search

The Pre-College Program (funded by the U.S. Department of Education, under the Educational Talent Search Program) prepares middle and high school students for post-secondary study. This is achieved via tutorials (at the middle school level), cultural enrichment activities, college visits and a variety of workshops on topics such as study and test-taking skills, financial aid preparation and college entry/admissions. The project serves students in four school systems across southern Georgia. They are: Thomas County Schools, Thomasville City Schools, Grady County Schools, and Decatur County Schools.

General Education and Core Curriculum

General Education

General Education learning at Thomas University is based on course requirements and outcomes tied to assignments in each course to ensure that all students are exposed to broad knowledge and perspectives and that they develop analytical and communication skills expected of an associate or baccalaureate degree-holding graduate with a liberal arts foundation. This liberal arts foundation is expressed in Thomas University's General Education Student Learning Outcomes which prepare graduates for a profession, lifelong learning, and global citizenship:

Think Critically

To engage in orderly, open-minded, informed inquiry that begins with a clear understanding of a problem or circumstance and yields a purposeful judgment or analysis.

Discover Information

To have a clear understanding of an information need and ability to collect information from multiple sources for analytical and creative purposes.

Foster Community

To take intentional action geared toward creating a sense of connection with and between faculty, students, and cultures, toward common values, activities, and/or goals.

Communicate Effectively

To transmit ideas clearly, concisely, and convincingly through speech and writing.

The university uses two curricular approaches to ensure every student's exposure to and development of college-level General Education learning:

1. 48-49 credits of required lower-division Core Curriculum courses; and
2. Embedded General Education Student Learning Outcomes in every course.

Core Curriculum

At Thomas University, the General Education coursework, or Core Curriculum, comprises a substantial component of all undergraduate degree programs. The General Education Student Learning Outcomes are introduced in the Core Curriculum and continue to be developed throughout all degree programs.

Undergraduate students, regardless of major, complete a common Core Curriculum, consisting of five main areas of study: University Studies, Communication, Math and Science, Social Sciences, and Humanities.

Degree programs may require specific courses to be taken in the Core Curriculum which meet Core and degree requirements. The student should consult the program of study information in the TU Catalog and his/her advisor for specific requirements of each major.

General Education Core Curriculum Requirements

48-49 Total Semester Credits

University Studies: 4 semester credit hours

These courses empower students to take personal responsibility for their college success. Each course focuses upon a particular subject, such as university resources and policies, study skills, research skills, ethical decision making, academic technology, career development and wellness. Students are taught to analyze their individual capabilities (i.e., knowledge, skills, strategies, and dispositions), adjust those capabilities for the college environment, and approach their program of study with improved competence.

All entering freshmen and transfer students with less than 24 credit hours are required to take UNV 101 Freshman Success Seminar.

- Students transferring in with 24 or more hours or a completed AS or AAS degree are exempt from UNV 101.
- Students transferring in with 40 or more hours are also exempt from all UNV requirements.

- Students transferring in between 25 and 39 hours must take UNV 202 and three additional hours of UNV courses from the approved list.

UNV 102 Student Success Seminar, a 2 credit hour course, is required for all students placing into two or more Developmental Studies courses.

Required courses:

Course	Credits
UNV 101 Freshman Success Seminar	1
UNV 202 Introduction to Ethics	1

A student chooses two of the following courses:

Course	Credits
UNV 103 Personal Wellness	1
UNV 111 Student Success with Technology-Enhanced Learning	1
UNV 201 Career Development	1
UNV 211 College Research Skills	1

COMMUNICATION: 12 semester credit hours

Course	Credits
*ENG 101 Composition I	3
*ENG 102 Composition II	3
SPE 105 Oral Communication for Professionals	3
CSC 120 Microcomputer Applications	3

*Student must meet minimum placement score to enroll (see Admissions section of Catalog). Student must pass the course with a grade of "C" or better

Math and Science: 14-15 semester credit hours

Course	Credits
*MTH 140 College Algebra or Lab-based Science	4
*MTH 120 Mathematical Modeling or	3
*MTH 150 Pre-Calculus Lab-based Science	4
Math or Science elective	3/4

*Student must meet minimum placement score to enroll (see Admissions section of Catalog). Student must pass the course with a grade of "C" or better

Lab-based Science Course Options

(Prerequisites must be met, if applicable.)

Lab Science Courses for Core Curriculum Requirements	Credits
BIO 101 Principles of Biology I	4
BIO 102 Principles of Biology II	4
BIO 105 A Survey of Biology for Non-Majors	4

BIO 110 Current Issues in Life Science	4
BIO 261 Human Anatomy and Physiology I	4
BIO 262 Human Anatomy and Physiology II	4
CHM 101 General Chemistry I	4
CHM 102 General Chemistry II	4
PHS 220 Principles of Physical Science I	4
PHS 221 Principles of Physical Science II	4
GLY 125 Physical Geology	4
GLY 226 Historical Geology	4
OCE 220 Oceanography	4
BIO 250 Human Osteology	4
BIO 252 Current Issues in Environmental Science	4
Upper Level Science Courses Approved to Fulfill the Core Requirement	
ANT 310 Physical Anthropology	4
PHY 301 General Physics I	4
PHY 302 General Physics II	4
BIO 315 Zoology	4
BIO 323 Botany	4
BIO 311 Conservation Science	4

Math/Science Elective:

One additional course in either Mathematics or Science is required. The student should consult the specific requirements of his/her major before choosing a Math or Science course. Mathematics and Science courses at the 300 and 400 level are elective options. ARC 303 Field Techniques in Archaeology may be an elective option.

Social Sciences: 12 hours

Course	Credits
HIS 201 United States History and Government I OR (three 1-credit courses listed below in lieu of HIS 201) OR	3
HIS 202 United States History and Government II OR	
HIS 203 United States History and Government III	
HIS 201 United States History and Government I OR (three 1-credit courses listed below in lieu of HIS 201) OR	3
HIS 202 United States History and Government II OR	
HIS 203 United States History and Government III	
Social Science elective (see options)	3
Social Science elective (see options)	3

3 of the following 1 credit hour courses may be taken in lieu of HIS 201:

Courses	Credits
HIS 210 Overview of American Politics	1
HIS 211 Congress	1
HIS 212 Presidency	1
HIS 213 The Federal Court System	1
HIS 214 Notable Documents and Amendments in American History	1
HIS 215 Who and What Impacts Political Decisions and Elections	1

Social Science Elective Course Options:

Courses	Credits
ANT 202 Introduction to Cultural Anthropology	3
BUS 210 Principles of Macroeconomics	3
BUS 211 Principles of Microeconomics	3
GEO 201 Introduction to Geography	3
HIS 101 Western Civilization I	3
HIS 102 Western Civilization II	3
PSY 125 Lifespan Development	3
PSY 201 General Psychology	3
SOC 201 Introduction to Sociology	3

HUMANITIES: 6 semester credit hours

The student chooses two courses, and at least one must be a HUM Survey course.

Course	Credits
HUM 200 Survey of Western and Non-Western Culture I OR	3
HUM 201 Survey of Western and Non-Western Culture II OR	
HUM 202 Survey of Western and Non-Western Culture III OR	
HUM 203 Survey of Western and Non-Western Culture IV	
HUM 200 Survey of Western and Non-Western Culture I OR	3
HUM 201 Survey of Western and Non-Western Culture II OR	
HUM 202 Survey of Western and Non-Western Culture III OR	
HUM 203 Survey of Western and Non-Western Culture IV	
ART 240 Art Appreciation	3
FLM 210 Introduction to Film	3
REL 210 Introduction to World Religions	3

Transfer students may substitute any survey course in literature, philosophy, fine arts, or religion for the above surveys.

Criteria for Undergraduate Programs

General Education Outcomes

Each academic program and course is guided by the four General Education Student Learning Outcomes of the university. Every course syllabus must indicate how the General Education Outcomes are developed through the course learning outcomes and course requirements. The knowledge, skills, and perspectives that students acquire through their general education embedded in every course develop the broad capabilities that prepare them as graduates for successful careers and responsible leadership in a rapidly changing and complex world.

The General Education Student Learning Outcomes distinguish graduates of Thomas University. They are able to:

- **Communicate Effectively**—To transmit ideas clearly, concisely, and convincingly through speech and writing.
- **Think Critically**—To engage in orderly, open-minded, informed inquiry that begins with a clear understanding of a problem or circumstance and yields a purposeful judgment or analysis.
- **Discover Information**—To have a clear understanding of an information need and to be able to collect information from multiple sources for analytical and creative purposes.
- **Foster Community**—To take intentional action geared toward creating a sense of connection with, and between, faculty, students and cultures toward common values, activities, and goals.

Computer Literacy

Students must demonstrate computer literacy. Credit by exam is an option to obtain course credit for CSC 120. See [Credit by Examination](#) for details.

Electives

Elective courses should be selected with the help of an advisor and must be appropriate to the program of study. Upper division electives must be 300 or 400 level. For transfer students only, no more than 3 courses (up to 12 transferred credit hours) at the 200-level may be used as upper division requirements and/or program electives. They must be appropriate to the program of study.

Foreign Languages

Students wishing to pursue a Bachelor of Arts which requires 12 credits of foreign language are required to fulfill the following:

- a. Students entering with no high school credits in a foreign language must take six hours of the same foreign language. In addition, students must take the two following language courses: ENG 330 Word Origins and SPN 202 Conversational Spanish.
- b. Students entering with two years of high school credits in the same foreign language may exempt six hours of foreign language. These six hours must be replaced with elective courses. For the remaining six hours of foreign language, students may choose to earn credit by examination to fulfill these hours; or choose two of the following foreign language or language courses: SPN 101 Elementary Spanish I, SPN 102 Elementary Spanish II, ENG 330 Word Origins or SPN 202 Conversational Spanish.
- c. Students entering with four years of high school credit in the same language are exempt from the requirements above. They may choose to earn credit by examination to fulfill these 12 hours or select other electives.
- d. Students who demonstrate proficiency, such as native speakers of a language other than English (not necessarily one offered by Thomas University), may be exempted or may earn credit by examination. Those who exempt must select other elective courses to fulfill these 12 hours.

Students wishing to pursue the Associate of Arts in Liberal Arts which requires three credits in foreign language are required to fulfill the following:

- a. Students entering with no high school credits in foreign language must take one of the following foreign language or language courses: SPN 101 Elementary Spanish I, SPN 102 Elementary Spanish II, ENG 330 Word Origins, or SPN 202 Conversational Spanish.
- b. Students entering with one year of high school credits in foreign language may exempt the language course or choose to earn credit by exam for a foreign language course. If exempted, they must fulfill these three hours with an elective course.

Math Courses

Only one of the following math courses may be used in fulfillment of Core Curriculum or degree requirements: MTH 120, MTH 140, or MTH 150.

Associate of Arts

Associate of Arts

Liberal Studies

LiSt

Associate of Arts in Liberal Studies

All students seeking an Associate of Arts in the Liberal Studies program are required to complete the following lower division core curriculum. Elective courses should be selected with the help of an advisor and must be appropriate to the major. Make selections based on area of concentration. Consult with an advisor regarding substitutions of electives.

Core Curriculum

University Studies: 4 hours

Four 1 hour classes required. UNV 101 & UNV 202 are required, plus two more of students' choice.

Courses	Credits
UNV 101 Freshman Success Seminar	1
UNV 103 Personal Wellness	1
UNV 111 Student Success with Technology Enhanced Learning	1
UNV 201 Career Development	1
UNV 202 Introduction to Ethics	1
UNV 211 College Research Skills	1

*UNV 102 Student Success Seminar, a 2 credit hour course, is required for all students placing into two or more Developmental Studies courses.

Communication: 12 hours

ENG 101 Composition I	3
ENG 102 Composition II	3

Mission

In support of the university's mission, the mission of the business division is to provide innovative instruction that educates and challenges students to develop into ethical and competent business leaders with a global focus and to cultivate good relationships with the business community regionally as well as other educational units within the institution.

Enrollment in upper division (300 or 400 level) business courses and the Bachelor of Science program is restricted to students who have been formally accepted into the baccalaureate program. To be accepted into the baccalaureate program the student must have a 2.0 CGPA or better and have completed a minimum of 60 hours to include BUS 200, BUS 201, BUS 210, BUS 211, ENG 101, ENG 102, MTH 250 and MTH 140.

Dual Degree

In addition to the Forbes campus in Thomasville, GA, the Bachelor of Science in Business Administration program is also offered with a partner university, Guangzhou College of Southern China University of Technology, in the People's Republic of China. The Thomas University China Program is approved by SACSCOC and the Ministry of Education of the People's Republic of China.

Bachelor of Science in Business Administration

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate an understanding of the functional areas of business including accounting, marketing, finance, management, and economics. Students will understand how the functional areas of business are integrated into the practical applications within business (knowledge and/or skills).
2. Demonstrate an understanding of the legal environment in business. Students will demonstrate an understanding of the legal environment through analyzing issues and risks in making business decisions (knowledge and/or skills, basic skills).
3. Demonstrate an understanding of the social environment of business. Students will demonstrate an understanding of social responsibility and social environment through analyzing ethical and diversity issues in business scenarios (knowledge and/or skills, basic skills).

4. Have an understanding of the global environment of business. Students will demonstrate an understanding of the cultural, political, and economic factors on global business strategy development (knowledge and/or skills, basic skills).
5. Apply business tools. Students will demonstrate use of the appropriate analytical financial business tools and applications to create appropriate and feasible business solutions (knowledge and/or skills, basic skills).
6. Demonstrate information literacy. Students will recognize the sources needed for business analysis (knowledge and/or skills, basic skills).
7. Demonstrate effective oral and written communication. Students will demonstrate through case analysis the ability to arrive at conclusions and recommendations, both orally and through written communication including background issues, and analysis (knowledge and/or skills, basic skills).
8. Demonstrate critical thinking skills. Students will develop effective critical thinking skills necessary to function in a professional context. Students will apply knowledge of business concepts and functions in an integrated manner. Students will demonstrate the ability to identify central problems, details, embedded business issues and clearly communicate the relationships between central problems and underlying assumptions (knowledge and/or skills, basic skills).
9. Be prepared for entry into business, management, or leadership positions in corporate, non-profit, or governmental organizations, or pursue a graduate degree in a related field. Students will upon graduation demonstrate a personal readiness for a professional career or graduate studies (personal/professional).

The course of study for students who are formally accepted into the baccalaureate program will be predicated on the program of study as outlined in the university bulletin and/or bulletin addendum that is in effect at the time of their acceptance.

Three concentrations are available in this degree program in business administration, accounting, management, or marketing. Students are required to complete the Upper Division Business Core in addition to the requirements for the concentration.

The Core Courses listed below are required for the Bachelor of Science Degree in Business Administration.

University Studies: 4 hours

Four 1 hour classes required. *UNV 101 & 202 are required, plus two more of students' choice.

Master of Business Administration

The Thomas University MBA is a professional and applied graduate degree, preparing the student for leadership in the business world of the twenty-first century through readings, research, and case study analysis.

This MBA Program builds from the strong undergraduate program in business administration. The program is open to students with undergraduate majors in any area (assuming passage of four appropriate prerequisites for non-business majors). Students should be able to complete the program in two years of evening and/or online classes, assuming good progress at the rate of two courses per semester over three semesters per year. MBA courses are offered in a variety of delivery models.

Program Student Learning Outcomes

1. Students will apply requisite knowledge and information for the development of framing and solving problems. Students will demonstrate a proficiency in the integration of the functional areas of business.
2. Students will demonstrate an understanding of the link between strategic analysis, integration of theory and practical implementation. Students will demonstrate a proficient or exemplary level of case analysis in a global business environment.
3. Students will apply quantitative techniques. Students will demonstrate the ability to apply appropriate analytical concepts from the common body of business knowledge to evaluate the business environment and choose appropriate action for the business problem.
4. Students will demonstrate an understanding of professional levels of oral and written business communications and presentation skills.
5. Students will demonstrate the ability to communicate through written and oral presentations. Students will demonstrate the ability to function as an effective and productive member of a project team and will demonstrate the ability to apply project management skills in a diverse world. Students will participate in group project management addressing practical business situations.
6. Students will develop an awareness of professional business ethics. Students will demonstrate an understanding of ethical issues and behaviors through an exit survey.
7. Student will develop an understanding of diversity including ethnicity, gender, age, physical differences, sexual orientation, race, and religion.

Students will demonstrate an understanding of diversity issues and its influence in the domestic and international business environments.

See [Satisfactory Academic Progress](#) on page 39 for the Graduate policy.

Entrance Prerequisites for Master of Business Administration and MBA/Human Resources Management Concentration

BUS 200 Principles of Financial Accounting or MBA 200 Principles of Financial Accounting non-credit workshop

BUS 210 Principles of Macroeconomics or MBA 210 Principles of Macroeconomics non-credit workshop

BUS 320 Principles of Finance or MBA 320 Principles of Finance non-credit workshop

MTH 250 Introduction to Statistics (no non-credit workshop available)

These courses may be taken at Thomas University for students without a prior undergraduate business degree or significant related work experience. Some students may qualify to substitute online prerequisite workshops in an 8-week self-paced time frame. Each workshop is offered at a significantly reduced tuition rate. Entrance requirements/workshops may be waived if applicant has relevant professional work experience or undergraduate coursework. Please speak with a MBA program advisor for details.

Please refer to the Master of Business Administration literature for a full description of this degree program.

Master of Business Administration

Accounting Concentration

The MBA with a concentration in Accounting is designed to offer Thomas University accounting graduates with the extra hours and education required to become a licensed CPA in most states of the USA. Studies have shown that students that enroll in a

master's program to satisfy the extra 30-hour requirement pass the exam at higher rates than those who merely study the missing material. The Thomas University MBA program with a concentration in Accounting is designed to offer a well-rounded postgraduate education to equip students with not only the knowledge required to pass the exam, but also other critical thinking and reasoning skills that have been shown to foster professional success.

Students seeking an Accounting concentration should have graduated with a Bachelor's degree in Accounting from a regionally accredited institution.

Human Resources Management Concentration

The MBA with a concentration in Human Resources Management is designed to offer Thomas University HRM graduates with the tools to become a highly qualified and knowledgeable Human Resource professional with great career growth potential. Strong written and oral communication skills and a desire to help people are essential to a successful Human Resources career. Education, however, is the first step in securing a future in the profession, and candidates with certification or a Master's degree – particularly those with a concentration in human resources management – will possess the credentials that are most sought by employers in this increasingly complex field.

Over the last decade, the labor market continues to recognize the need for Human Resource specialists in order to obtain effective management and facilitate company growth. As a result, employment of Human Resource professionals is expected to increase by 13%

from 2012 to 2022, a statistic which evidences the opportunities that will be available for students who are educated and experienced in this field.

Quality Human Resource training provides a wider variety of career paths that can lead to upper level management positions with high earning potential. Graduates with the requisite education and training can expect to climb to the level of Vice President or Director within both the private and public sectors, and the career opportunities are not exclusive to the business industry as Human Resource positions are also increasing in governmental and non-profit organizations.

Human Resource Management is defined as the process of hiring and developing employees so that they become more valuable to the organization. Employee focus is the main component of this division in a company. Recruitment, orientation, training, benefits, retention, and policies are within the scope of responsibilities assumed by the human resources professional. As the scope of responsibilities continues to expand related to ensuring employee satisfaction and retention, Human Resource professionals are becoming more recognized as absolutely vital to the prosperity of a company or organization. Specifically, the development of benefit packages, compensation packages, policies and procedures, training programs, and employee handbooks are a few of the specific responsibilities incumbent upon a Human Resource professional. Students pursuing this degree will complete the MBA Core, along with three Human Resources Courses, and two MBA electives.

Foreign Study Program

Thomas University graduate and undergraduate students may participate in a short study abroad trip during which they attend lectures in Europe and visit European business institutions. The trip lasts approximately 10 days. Undergraduate students earn 3 hours credit in BUS 330 International Business. Graduate students earn three hours credit in MBA 620 International Business.

Division of Counseling and Psychology

Bachelor of Science Degrees

Psychology

Rehabilitation Studies

Concentration in Addictions

Concentration in Criminal Justice

Concentration in Gerontology

Master of Science Degree (MS)

Clinical Rehabilitation and Mental Health Counseling

Specialization in Addictions and Alcoholism Counseling

Bachelor of Science Psychology

Psychology is the study of behavior, mental processes, emotions, and their biological bases. Understanding self and others is an extremely valuable tool that can help prepare psychology majors to work in a wide variety of settings. Psychology majors work in medicine, the legal system, law enforcement, education, healthcare, youth services, business, architecture, engineering, wellness, sports, science, and research.

Mission Statement

The purpose of the undergraduate Psychology program is to provide students with a comprehensive background in the basic concepts, theories, findings, and ethical issues in psychology. The Psychology program provides an integrative educational experience by fostering relations among faculty and students through advising, mentoring, and outreach in the local community. In order to help students achieve their individual goals, students are afforded great flexibility in choosing upper-division classes. The main endeavor of the program is to enable students to engage in lifelong education and contribute to their community.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Understand and apply basic research methods in psychology, including research design, data analysis, and interpretation.
2. Demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.
3. Apply psychological principles critically and creatively to personal, social, and organizational issues.
4. Demonstrate awareness and apply the APA code of ethics, as well as an understanding that psychological explanations vary across complex and diverse populations and contexts.
5. Demonstrate information competence and the ability to use software to exhibit quantitative and qualitative research literacy.
6. Demonstrate effective writing and oral communication skills and collaborate effectively with others.
7. Apply psychological knowledge, skills, and values to current issues and career interests within the discipline of psychology.

Psychology majors are required to complete the Thomas University Core Curriculum to include:

Course	Credit

Bachelor of Science Rehabilitation Studies

The Thomas University Rehabilitation Studies program will prepare students to provide rehabilitation services in public and private agencies to persons with various disabilities. This program will also prepare students to attain Advanced Standing status and complete a Master's degree in the Thomas University Clinical Rehabilitation and Mental Health Counseling graduate program.

Program Goals

1. Provide quality education in a fully online setting.
2. Train students to provide effective rehabilitation services to individuals with disabilities.
3. Deliver graduates who have the skills, knowledge, and mindsets to enter the workforce in the public or private sector.
4. Meet the employment needs of public and private rehabilitation and human service agencies throughout the United States.
5. Prepare undergraduate students to academically qualify for the Advanced Standing status in the Clinical Rehabilitation and Mental Health Counseling graduate program at Thomas University.
6. The undergraduate program will become accredited under Council on Rehabilitation Education (CORE) standards for undergraduate programs.

Program Student Learning Outcomes

1. Students will demonstrate acquisition of knowledge that attitudes and environments cause functional limitations more frequently than an individual's medical/physical condition.
2. Students will identify helping systems and professionals in local communities, in the U.S., and in the world. Additionally, students will have the skills to identify resources and opportunities in any given catchment area.
3. Students will apply Inclusion and Integration principles to maximize individual strengths in their work with people with disabilities, and emphasize individual choice in the planning process.
4. Students will demonstrate and analyze communication skills necessary to develop, maintain, and discontinue helping relationships in ways that empower people with disabilities. Students will build collaborative relationships and networks with significant others (including other professionals) as a key to effective rehabilitation.
5. Students will apply a working knowledge of history, pertinent legislation, current trends, and

ways to successfully advocate for change. Students will be able to help consumers self-advocate and advocate with and on behalf of persons with disabilities.

6. Students will apply the tenets of ethical professional practice.
7. Students will apply and evaluate theory to practice in the field of rehabilitation services.
8. Students will demonstrate the acquisition, utilization, and evaluation of knowledge, skills, and attitudes related to their area of concentration.

Rehabilitation Studies majors are required to complete the Thomas University Core Curriculum to include:

MTH 250 Introduction to Statistics	3
SOC 201 Introduction to Sociology	3

Master of Science Clinical Rehabilitation and Mental Health Counseling

The Thomas University **Master of Science in Clinical Rehabilitation and Mental Health Counseling (CRMHC)** is a professional and applied graduate degree, preparing students for dynamic positions as counselors in a wide range of human service settings. Accredited by the Counseling on Rehabilitation Education (CORE), this program prepares students to sit for their certification as a rehabilitation counselor (CRC) and for licensure as a professional counselor after completion of post-graduate supervision compliant with state requirements.

The program is open to students with undergraduate majors in any area. See [Graduate Admissions](#) on page 17 for requirements.

Admissions

The Clinical Rehabilitation and Mental Health Counseling graduate program at Thomas University engages in admission policies that demonstrate a respect for and understanding of cultural and individual diversity. It does not discriminate based on age, disability, ethnicity, gender, gender identity, language, national origin, race, religion, culture, sexual orientation and socioeconomic status. Thomas University makes every effort to recruit and retain individuals who are exemplary stewards of the counseling profession regardless of background.

Thomas University believes that an environment that fosters respect for the diversity among our faculty, students, and staff strengthens the institution, stimulates creativity, promotes open exchange of new ideas, and enriches campus and community life. Thomas University is committed to creating an educational environment that promotes academic excellence where diversity is valued and individuals are treated with respect, regardless of race, gender, age, sexual orientation, religion, ethnicity, or disability (Excerpted from Thomas University's Diversity Statement).

To qualify for the Master of Science degree, a student must complete 63 credit hours of course work (including practicum and internship) with at least a 3.0 grade point average (GPA). Students are evaluated throughout the program in three major areas:

1. Academic Performance: Each student is expected to maintain at least a 3.0 grade point average throughout the program.
2. Interpersonal Skills: Each student is expected to demonstrate effective interpersonal skills considered requisite to the counseling field, including:
 - Effectiveness in close personal relationships
 - Ability to establish facilitative relationships with a diverse variety of people.
 - Flexibility and openness to feedback and learning.

- Self-awareness, openness to self-examination, and a commitment to personal growth.
 - A willingness to collaborate in a respectful manner with peers and colleagues from diverse backgrounds and to advocate on behalf of those persons who are marginalized or discriminated against.
3. Ethical Behavior: Each student is expected to demonstrate a deep awareness and concern for the ethical standards of rehabilitation and mental health counseling, and all other disciplines in the counseling field.

The admissions process for entrance into the Clinical Rehabilitation and Mental Health Counseling Program includes:

- Submission of an online application found at www.thomasu.edu
- Submission of official transcripts
- Submission of an application fee
- Submission of a Statement of Intent

Mission

The mission of Thomas University's Council on Rehabilitation Education (CORE) accredited graduate program in Clinical Rehabilitation & Mental Health Counseling is to create a dynamic learning environment that advances the intellectual and personal development goals of our students to work as professionals in the field of rehabilitation and mental health counseling, and to train students to effectively advocate on behalf of the clients they serve. This includes preparing each student to pass the national Certified Rehabilitation Counselor (CRC) exam, as well as providing students with academic requirements necessary to sit for the professional counselor credential in the state in which they reside. The Clinical Rehabilitation & Mental Health Counseling program accomplishes this mission through the following objectives:

1. Faculty will provide rigorous and intellectually challenging studies that require creativity, discipline, and personal responsibility.
2. Students will become competent in a variety of counseling focus areas including but not limited to, theoretical foundations and techniques, community services and resources, ethical practice, case management, group work, crisis counseling and diagnostic procedures and cultural awareness through 63-credit hours of coursework.
3. Students will learn through classroom, practicum, internship, and community experiences how to address the needs of persons with physical and mental disabilities and chronic illnesses in a manner that is consistent with the program's mission of advocacy and awareness.
4. The Division will provide students with the curriculum content that abides by the CORE requirements for CRC certification, and students are eligible to sit for the CRC exam as early as after successfully completing 75% of the Master's program. This exam is administered by the Commission on Rehabilitation Counselor Certification.
5. Graduates of the Clinical Rehabilitation and Mental Health Counseling graduate program will also meet state licensure requirements upon graduation and may sit for the professional counselor credential in their state. Students need to make sure that state requirements for licensure in the state in which they reside are completed prior to graduation.
6. For students who previously graduated from a 48-credit hour program and are looking for additional coursework to apply for CRC certification, Thomas University offers a Bridge Program that can help non-degree seeking students complete the academic requirements for certification and licensure.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate awareness of the professional role of counseling and apply the code of ethics of rehabilitation counseling, including informed consent, in a legal and ethical manner, inclusive of international standards and cultural contexts.
2. Identify and articulate an understanding of learning styles, social, economic, and environmental aspects which may present barriers to persons' with disabilities and to consumers' rehabilitation.
3. Demonstrate a working knowledge of human development and the needs of individuals with disabilities across the lifespan, including the effect of crises, disasters, trauma, or other events on persons of all ages.

4. Assess and maximize the readiness of individuals with disabilities for gainful employment and independent living skills.
5. Demonstrate and apply a personal philosophy of rehabilitation counseling based on an established counseling theory.
6. Demonstrate a knowledge and use of clinical skills related to directing group processes toward a desired goal.
7. Apply basic measurement concepts and associated statistical terms and comprehend the validity, reliability, and appropriateness of assessments and diagnostic processes used by other health professionals.
8. Understand research methodology and apply evidence-based practice to counseling and rehabilitation services.
9. Apply a working knowledge of the impact of disability on the individual, the family, environment, and employment.
10. Identify and plan for the provision of rehabilitation services with individuals with a disability and be able to advocate for the rights of these individuals.
11. Consult with employers and be knowledgeable about disability prevention.

Students who have attended graduate courses prior to admission into the Master's program may have their course work evaluated for transfer credit up to 15 hours.

Division of Criminal Justice

Associate of Science Degree

Law Enforcement

Bachelor of Science Degree

Criminal Justice

Mission

The mission of the Division of Criminal Justice is to provide students with a working knowledge of criminology, law, legal procedures and the legal culture of the justice system of the United States while preparing them to become outstanding practitioners, leaders, and scholars in a diverse society.

Associate of Science Law Enforcement

The Associate of Science Degree in Law Enforcement prepares students who are working as law enforcement officers for career enhancement or to pursue professional development at the baccalaureate level.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate mastery of knowledge, skills and attitudes required by the Peace Officers Standards and Training Council for Basic Mandate for Law Enforcement, or Corrections.
2. Demonstrate ability to communicate effectively
3. Demonstrate mastery of knowledge in the areas of history and social science.
4. Demonstrate mastery of knowledge and skill in problem solving and reasoning.

For successful graduation from a police academy as a certified law enforcement officer with 600 or more training hours, credit will be given for 40 credit hours of previous course work in Criminal Justice. The following core courses must be taken at Thomas University to receive the associate degree.

Course	Credit
ENG 101 Composition I	3
ENG 102 Composition II	3
HIS 201 U S History & Gov't I	3
HIS 202 U S History & Gov't II	3

Teacher Leadership

All Division of Education programs are accredited by the Georgia Professional Standards Commission. The Division of Education is dedicated to producing the highest quality professional educators. Currently, the Division offers a Bachelor of Science degree program in early childhood education, middle grades education, secondary grades education, and a post-baccalaureate certification program in middle and secondary grades. Courses are offered at the Forbes campus in Thomasville, GA and on the campus of Bainbridge State College in Bainbridge, GA, on Saturdays. The Division also offers Master of Education and Education Specialist Degree programs for K-12 teachers. In addition to the main Thomasville campus, satellite campuses are located in school districts across the state. All courses are taught through a hybrid model which involves both online instruction and traditional face-to-face classroom meetings.

A Bachelor of Science in Education (non-certification) is offered to students who desire a degree in education without being certified. Students pursuing this degree option must meet all admission and satisfactory progress policies of the teacher certification programs. The degree requirements mirror that of the certification program with the exception of student teaching (ECE/MGE/SEC 429) and student teaching seminar (ECE/MGE/SEC 430). The student must have 120 credits to complete the degree.

Division of Education Conceptual Framework

As members of a global community, students today require flexible attitudes, dispositions, and skills to understand themselves and others. Teachers who are responsible for educating students must themselves be critical thinkers; respect and understand diversity; communicate effectively; possess pedagogical skills, content knowledge, and classroom management skills; demonstrate skills for life-long learning; and demonstrate professionalism and effectively use technology. The teacher education program at Thomas University is designed to provide teacher candidates with a wide range of learning opportunities in diverse settings to become highly qualified, effective classroom teachers.

Specific Admission and Retention Requirements

Lower Division Core Courses (first two years) Core Curriculum Requirements

Teacher candidates who enroll in Thomas University without a completed Associate of Arts (AA) degree are required to complete Thomas University's Core Curriculum for Education majors. Transfer students with an Associate of Science (AS) degree must complete TU's core requirements. If a student enters Thomas University with an Associates of Arts degree from an accredited college or university, (s)he may apply for admission to the Division of Education at the junior level.

Transfer Students-Specific Course Requirements

The courses below are required for admission to the specified education programs. An approved equivalent transfer course may be used as transfer credit.

MTH 120 Mathematical Modeling or higher

Admission to Teacher Education

To be admitted to the teacher education programs in the Division of Education, a prospective teacher candidate must:

1. Be admitted to Thomas University.
2. Pass all three tests within the GACE Program Admissions Assessment. Reading (200), Mathematics (201), and Writing (202) are required unless exempted by the following:
 - SAT® (1000 Verbal/Critical Reading, and Math)
 - ACT® (43 English and Math)
 - GRE® (1030 Verbal and Quantitative; after 8/1/11, 297 Verbal and Quantitative)
3. Complete the lower division coursework requirements (minimum of 60 semester hours) and program specific requirements (listed with each program).
4. Have a cumulative GPA of 2.5 on required lower division coursework.
5. Provide a record documenting at least 20 hours of work with appropriate aged children from experiences in which ongoing supervision has occurred, either volunteer or for compensation. Provide a description of the work (single or multiple locations) in which you were involved, the number of hours, and the name of your supervisor. Parental responsibilities may not be submitted as hours to meet this entrance requirement.
6. Submit three letters of recommendation which support the teacher candidate's desire and character to become a PK-12 teacher.
7. Submit a criminal background check.
8. Obtain professional liability insurance.
9. Paraprofessionals must submit the School Administrator Commitment Form. As a paraprofessional applying for admissions to the Thomas University Division of Education you must discuss your professional plans with your principal

and gain his or her support for working with you throughout the program to assist you in completing the required field-based learning experiences (multiple grade bands, diverse ethnic groups, and linguistic groups).

10. Complete the GAPSC Ethics Entry Exam.
11. Obtain an acceptable score on both the oral and written sections of the interview.
12. Submit to the GAPSC pre-service certification application and verification of lawful presence with picture ID.

Admission to Professional Core 4:

1. Completion of all required program coursework with a minimum GPA of 2.5.
2. An acceptable rating on the Core Professional Dispositions Student Assessment.
3. Current professional liability insurance.
4. Students must not have previously been denied admission to, had an unsatisfactory performance rating, or been removed from student teaching at another institution.

Graduation Requirements:

To successfully complete the teacher education program and be recommended for certification a teacher candidate must:

1. Complete all program requirements.
2. Have a cumulative minimum GPA of 2.5.
3. Pass the GACE content exam in his/her major/specialization(s).
4. Pass the EdTPA in his/her major/specialization.
5. Pass the GaPSC Ethics Exit Examination.
6. Have acceptable ratings on the Core Professional Dispositions Student Assessment.
7. Complete program surveys.
8. Submit to the GAPSC certification application and verification of lawful presence with picture ID.

In addition to the above requirements the following teacher education policies are required:

1. All teacher candidates and faculty will abide by the Georgia Professional Practices Code of Ethics.
2. All university coursework is considered to be part of the major requirements. No grade lower than a "C" may be applied toward a degree.
3. Professional dispositions will be assessed each semester. A teacher candidate must maintain an acceptable rating.
4. For any deficiencies that are identified, a Professional Development Plan will be implemented. Professional Development Plans may require more experience, coursework, counseling, or remediation and may be

implemented at any time during the student's career at Thomas University. Satisfactory progress on the Professional Development Plan must be achieved to continue in the program.

- If a student does not pass the GACE Content exam, edTPA Content Exam, and/or GaPSC Ethics Exit Exam by the end of student teaching, he/she will need to enroll in a 1-credit hour DIS course(s) each continuing semester after student teaching until the exam(s) can be passed (maximum 3 terms). A student not enrolling in the DIS course after student teaching or failure to continuously re-enroll in the program, will be dismissed from the program and will not be able to re-apply or be recommended for the Georgia Certificate of Eligibility.

Bachelor of Science Early Childhood Education

The Early Childhood Education Program is designed to prepare educators to teach in grades PK-5. Admission, retention, and graduation requirements are detailed in the section titled Specific Admission and Retention Requirements.

Program Student Learning Outcomes

A graduate of this program will be able to:

- Pass the GACE content test for state certification in the respective specialization area.
- Demonstrate effective teaching skills in the PK-12 classroom setting which will result in student learning.
- Demonstrate his/her impact on PK-12 student learning.
- Pass the EdTPA in his/her major/specialization.
- Pass the GaPSC Ethics Exit Examination.

Lower Division Core Curriculum 60-61 Hours

Post Baccalaureate Certification

The Post Baccalaureate Certification is for individuals who have a Baccalaureate degree from an accredited institution and want to become certified as teachers. Courses with a grade of “C” or better will be applied toward the Post Baccalaureate Certification.

Middle Grades Education

The Middle Grades Education program is designed to prepare professional educators to teach grades four through eight. Teacher candidates majoring in middle grades education select two areas of concentration (mathematics, language arts, science and social studies) and must complete a minimum of fifteen hours in each Content Concentration Area. Admission, retention, and graduation requirements are detailed in the section titled Specific Admission and Retention Requirements. Some lower division content course work may count toward the content concentration area. (See Content Concentration Requirements Section.)

A student who has earned a Bachelor’s degree from an accredited institution of higher education in one of the middle grade content areas, generally meets some of the content course requirements. A thorough transcript evaluation will be conducted and courses not taken will be required as part of the student’s Post Baccalaureate program. Students consult with their academic advisor for course selection. Certification is available in the following fields: Middle Grades Language Arts, Mathematics, Science, and Social Science.

Master of Education

Thomas University's graduate programs for certified teachers are designed to enhance the role of the teacher as a leader in the school community. The programs professional practices include candidate proficiencies related to expected knowledge, skill, and professional dispositions that are aligned with the expectations in professional and state standards. Coursework and experiences will be designed to address the following advanced outcomes:

- **Advanced Professional and Pedagogical Knowledge**—the candidate uses research-based, discipline-specific knowledge and pedagogy in coordinated and engaging ways to facilitate student learning.
- **Research and Inquiry Skills**—the candidate designs and implements research and assessment practices to improve teaching and learning for all learners.
- **Professional and Ethical Practice**—the candidate possesses and practices a core set of professional and ethical dispositions, serves as a teacher leader and mentor, and models practices that embrace the importance of life-long learning.

Admission to the Master of Education

Certified teachers should complete all sections of the Graduate Admissions Application and submit it to the Admissions Office at least 6 weeks prior to the beginning of the term you plan to enter. A copy of the application can be found online at

<http://www.thomasu.edu/Content/Default/2/4439/0/admissions/application-for-admission.html>.

Applicants interested in a graduate education program must meet the following criteria:

1. Hold a bachelor's degree in a relevant field from a regionally accredited college or university.
2. Hold a professional teaching certificate in at least one teaching field.
3. Candidates for graduate admission must report a minimum GPA of 3.0 on a 4.0 scale in the last 60 hours of their Bachelor's degree or undergraduate coursework considered in context of the GPA for that Bachelor's degree, work experience, relevant credentials, other graduate course work, the strength of the student's personal and professional goal statements, reference letters, and academic history. Applicants with a GPA lower than 3.0 may be considered for provisional admission by the prospective Graduate Division. Any student provisionally admitted must take the 1-credit Scholarly Writing course during the semester before taking any graduate level courses; other requirements may be required by the Division and/or Graduate Council.
4. International students seeking admission into a graduate program must submit:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61 (internet-based); OR
 - China English Test (CET) minimum of level 4; OR
 - International English Language Testing System (IELTS) minimum 5.
5. All applicants to the Teacher Leadership program must have 3 years of teaching experience.

Along with proof of the above criteria, teachers are required to submit the following along with their application for Graduate Admissions:

1. A personal statement of career and educational objectives, including why you want to pursue a graduate degree (minimum two pages). Please explain any extenuating circumstances which may have had an adverse impact on your previous academic performance. Additionally, please explain the circumstances surrounding any ethics reprimand on your certificate.
2. Official transcripts from all undergraduate and graduate schools attended, to be forwarded directly to the Office of Admissions from the schools attended.
3. Three professional or academic references.

4. A \$50 non-refundable application fee made payable to Thomas University.
5. Submit completed mentor form (Teacher Leadership applicants only).

Education Specialist Teacher Leadership

Thomas University's Education Specialist Teacher Leadership program for certified teachers is designed to enhance the role of the teacher as a leader in the school community. The programs professional practices include candidate proficiencies related to expected knowledge, skill, and professional dispositions that are aligned with the expectations in professional and state standards. Coursework and experiences will be designed to address the following advanced outcomes:

- **Advanced Professional and Pedagogical Knowledge**—the candidate uses research-based, discipline-specific knowledge and pedagogy in coordinated and engaging ways to facilitate student learning.
- **Research and Inquiry Skills**—the candidate designs and implements research and assessment practices to improve teaching and learning for all learners.
- **Professional and Ethical Practice**—the candidate possesses and practices a core set of professional and ethical dispositions, serves as a teacher leader

and mentor, and models practices that embrace the importance of life-long learning.

The purpose of this program is to develop teacher leaders who will facilitate the design and implementation of sustained, intensive, and job-embedded professional learning based in their schools and school systems. Completers also possess the knowledge and skills necessary to use fundamental research methods to address educational problems and to assume leadership roles beyond the classroom. The program results in a Service (S) certificate in Teacher Leadership. Since it is classified as a PK-12, Service (S) certificate, holders of this certificate will provide support and service to all levels of the PK-12 system. Recommendation for certification requires a passing score on the Teacher Leadership GACE.

Admission to the Education Specialist Program

Certified teachers should complete all sections of the [Graduate Admissions Application](#) and submit it to the Admissions Office at least 6 weeks prior to the beginning of the term you plan to enter.

Applicants must meet the following criteria:

1. Hold a bachelor's degree in a relevant field from a regionally accredited college or university.
2. Hold a professional teaching certificate in at least one teaching field.
3. Must have a master's degree in a relevant field from a regionally accredited college or university.
4. Candidates for graduate admission must report a minimum GPA of 3.0 on a 4.0 scale in the last 60 hours of their Bachelor's degree or undergraduate coursework considered in context of the GPA for that Bachelor's degree, work experience, relevant credentials, other graduate course work, the strength of the student's personal and professional goal statements, reference letters, and academic history. Other requirements may be required by the Division and/or Graduate Council.
5. International students seeking admission into a graduate program must submit:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61(internet-based); OR
 - China English Test (CET) minimum of level 4; OR
 - International English Language Testing System (IELTS) minimum 5.
6. All applicants must have 3 years of teaching experience.

Along with proof of the above criteria, teachers are required to submit the following along with their application for Graduate Admissions:

1. A personal statement of career and educational objectives (minimum two pages). Please explain any extenuating circumstances which may have had an adverse impact on your previous academic performance. Additionally, please explain the circumstances surrounding any ethics reprimand on your certificate.
2. Official transcripts from all undergraduate and graduate schools attended, to be forwarded directly to the Office of Admissions from the schools attended.
3. Three professional or academic references.
4. A \$50 non-refundable application fee made payable to Thomas University.
5. Submit completed mentor form.

Endorsement Teacher Leadership

Thomas University's Endorsement Teacher Leadership program for certified teachers is designed to enhance the role of the teacher as a leader in the school community. The programs professional practices include candidate proficiencies related to expected knowledge, skill, and professional dispositions that are aligned with the expectations in professional and state standards. Coursework and experiences will be designed to address the following advanced outcomes:

- **Advanced Professional and Pedagogical Knowledge**—the candidate uses research-based, discipline-specific knowledge and pedagogy in coordinated and engaging ways to facilitate student learning.
- **Professional and Ethical Practice**—the candidate possesses and practices a core set of professional and ethical dispositions, serves as a teacher leader and mentor, and models practices that embrace the importance of life-long learning.

Candidates admitted to the Teacher Leadership Endorsement in Teacher Leadership must possess a Georgia professional T-4 certificate. The purpose of this program is to prepare classroom teachers to develop as leaders in their schools and school systems who will facilitate the design and implementation of sustained, intensive, and job-embedded professional learning based on identified student and teacher needs. The program results in an Endorsement in Teacher Leadership.

Admission to the Endorsement Program

Certified teachers should complete all sections of the [Graduate Admissions Application](#) and submit it to the Admissions Office at least 6 weeks prior to the beginning of the term you plan to enter. A copy of the application can be found on the Thomas University website.

Applicants must meet the following criteria:

1. Hold a bachelor's degree in a relevant field from a regionally accredited college or university.
2. Hold a professional teaching certificate in at least one teaching field.
3. Must have a master's degree in a relevant field from a regionally accredited college or university.
4. Candidates for graduate admission must report a minimum GPA of 3.0 on a 4.0 scale in the last 60 hours of their Bachelor's degree or undergraduate coursework considered in context of the GPA for that Bachelor's degree, work experience, relevant credentials, other graduate course work, the strength of the student's personal and professional goal statements, reference letters, and academic history. Other requirements may be required by the Division and/or Graduate Council.
5. International students seeking admission into a graduate program must submit:
 - Test of English as a Foreign Language (TOEFL) minimum scores of 500 (paper-based) or 173 (computer-based), or 61 (internet-based); OR
 - China English Test (CET) minimum of level 4; OR

- International English Language Testing System (IELTS) minimum 5.
6. All applicants must have 3 years of teaching experience.

Along with proof of the above criteria, teachers are required to submit the following along with their application for Graduate Admissions:

1. A personal statement of career and educational objectives (minimum two pages). Division of Humanities and Interdisciplinary Studies

Bachelor of Arts Degree

Humanities

Concentration in Art

Concentration in English

Concentration in Film Studies

Concentration in Music

Interdisciplinary Studies

Social Sciences

Bachelor of Science Degree

Interdisciplinary Studies

Social Sciences

Bachelor of Arts Humanities

The interdisciplinary degree in Humanities provides students an opportunity to concentrate their studies in Art, English, Music, or Film while also gaining advanced study in each of the disciplines. This broad background in the liberal arts appeals to employers looking for candidates who demonstrate the ability to think critically, to make connections, and to create, express, and analyze ideas adeptly. The degree affords excellent preparation for careers in public relations, print and mass media, law, education, and museum work, to name a few.

Humanities majors choose a concentration in Art, English, Music, or Film consisting of 30 credit hours. In addition, they take nine hours in each of the other areas. The degree requires 12 hours of Foreign Language/Language Alternative courses. All majors must take three of four Humanities survey courses and Senior Thesis. Other electives can be selected to achieve a minor in various disciplines.

Mission

To provide students an opportunity to concentrate their studies in Art, English, Music or Film, while also gaining advanced study in each of the disciplines.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate acquisition, utilization, and evaluation of creative knowledge, skills, and perspectives related to their area of concentration (Art, Music, English, or Film).
2. Demonstrate critical skills in research, analysis, synthesis, creative problem solving and evaluation through written and oral presentation.
3. Analyze and articulate the relationship of ideas within and between different cultures, time periods, and modes of artistic expression.
4. Demonstrate an understanding of the essential principles and critical approaches of art, music, literature, and history.
5. Integrate experiential learning from an applied art into their understanding of artistic expression.

Interdisciplinary Core required for ALL Humanities concentrations (12 hours total)

Course	Credit
ART 304 Art History I or	3
ART 305 Art History II or	
ART 306 Art History III

Total Hours for Degree 120

Bachelor of Arts, Bachelor of Science Interdisciplinary Studies

The Interdisciplinary Studies program is a flexible course of study that explores the humanities, natural sciences, and social sciences. It teaches ways of thinking, exploring, understanding, and seeing the world from different perspectives. The Interdisciplinary Studies program allows students to pursue a range of intellectual interests and provides a foundation for careers in law, journalism, government, and various fields of public service, or for cultural employment in organizations such as historical societies or museums.

All Interdisciplinary Studies majors are required to complete the Thomas University Core Curriculum including the CWRTE.

Foreign Language is required for B.A. only. [See page 52](#) for details.

Mission

To provide students an opportunity to pursue a wide range of intellectual interests through largely self-determined areas of study.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate critical skills in research, analysis, synthesis, creative problem solving and evaluation through written and oral presentation.
2. Demonstrate acquisition, utilization, and evaluation of knowledge, skills, and perspectives related to at least one career field.
3. Demonstrate an understanding of the essential principles and critical approaches of art, music, literature, and history.
4. Be prepared for entry into the workforce or graduate school.

Upper Division Courses (300-400 level courses)

All majors must select a minimum of 21 hours in Humanities (including the 12 Interdisciplinary Core), 30 hours in a secondary area (social science, math/science or career specialty), take six hours of additional foreign language or alternatives, and complete IDS 417 Senior Thesis during the final fall semester. Included in the 30 hours in a secondary area must be 15 hours with the same prefix (career focus) or an approved minor (see page ?? for minor programs)

All applicable prerequisites must be met prior to selecting a course.

Humanities

Art, English, Foreign Language, History, Music.

Social Sciences

Anthropology, Economics, Criminal Justice, History, Political Science, Psychology.

Math/Science

Biology, Chemistry, Geology, Math, Statistics.

Career Specialty

Business, Education, Social Work.

Interdisciplinary Core required for ALL Interdisciplinary Studies (12 hours total)

ART 304 Art History I or	3
ART 305 Art History II or

Bachelor of Arts, Bachelor of Science Social Sciences

The Bachelor of Arts or Bachelor of Science in Social Science provides the student with a broad background in all of the social sciences. Students take a wide range of courses in many different fields. Required upper division courses include history, psychology, sociology, statistics, and anthropology.

The program is designed for those seeking a broad background in the social and behavioral sciences. The degree is suitable for traditional students planning to seek entry-level positions in government or private industry or planning to enter graduate school, and non-traditional students such as mid-career professionals seeking broader backgrounds in the study of the causes of human behavior.

Mission

To provide students an opportunity to study in many different fields of the social and behavioral sciences; including history, psychology, sociology, statistics and anthropology.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate critical skills in research, analysis, synthesis, creative problem solving and evaluation through written and oral presentation.
2. Demonstrate acquisition, utilization, and evaluation of knowledge, skills, and perspectives related to their area of concentration (Anthropology, History, or Psychology).
3. Demonstrate an understanding of the essential principles and critical approaches of art, music, literature, and history.
4. Demonstrate the ability to develop a project using quantitative and qualitative methods.

PROGRAM REQUIREMENTS

Required Lower Division Courses:

(taken in CORE as Math & Social Science electives)

PSY 201 General Psychology	3
SOC 201 Introduction to Sociology	3
MTH 250 Introduction to Statistics	3

AND

12 credit hours from the following:

ANT 202 Introduction to Cultural Anthropology	3
GEO 201 Introduction to Geography	3
HIS 101 Western Civilization I	3
HIS 102 Western Civilization II	3
HIS 2XX US History III (not taken in CORE)	3

Nursing Education

Bachelor of Science Nursing RN-BSN Program

The RN-BSN program is approved by the Georgia Board of Nursing and fully accredited by the Accreditation Commission for Education in Nursing. The RN-BSN program is designed for the registered nurse to complete a Bachelor of Science degree in Nursing while maintaining an active practice. Courses are offered at the Forbes campus in Thomasville, GA, and at our satellite programs in Moultrie, GA, and Tallahassee, FL, through a “hybrid” learning model, using a combination of a traditional classroom environment and online instruction. Additionally, two required practicum experiences are completed at times convenient to the student and clinical preceptor. Students may select from over 150 approved health care facilities located throughout Georgia and the north Florida area for their practicum experience.

Thomas University also has partnerships with three universities in the People’s Republic of China, located at Wenzhou Medical University, Inner Mongolia University of the Nationalities, and Jiangxi University of Traditional Chinese Medicine to offer the RN-BSN program. Students in these programs complete the same curriculum as our students in the U.S. in a traditional classroom environment in the People’s Republic of China.

Mission

The mission of the RN-BSN program is to educate registered nurses for enhanced professional nursing practice in a variety of health care settings and to challenge them to continued personal and professional growth.

Philosophy

We believe that nursing is a profession that utilizes a holistic, safe, effective, caring and culturally competent approach to promote optimal health potential of individuals, families, groups and communities. Utilizing the roles of health care provider, teacher, advocate, collaborator, leader and member of the profession the nurse applies evidence-based research to the care of individuals, families, groups and communities. We believe that the following are essential to the practice of baccalaureate level nursing:

- Liberal education including courses in the humanities
- Professional values of altruism, autonomy, human dignity, integrity, social justice, caring, culturally sensitive care, and respect for diversity

- Core competencies of critical thinking, communication, assessment and technical skills
- Core knowledge including health promotion, risk reduction, disease prevention, illness and disease management, technology in health care delivery and information, ethics, human diversity, globalization of health care, health care systems and policy, theory and research leading to evidence-based practice.
- Role development as provider / designer, teacher / advocate / collaborator, leader / manager / coordinator of care, and member of the profession of nursing.

We believe that nursing education is a transformational process that is collaborative, interdisciplinary and interactive in nature. Education includes prior learning and experiences that influence responses to new knowledge. Built on research and theory, education is not only formal instruction but self-teaching and incidental learning.

We believe that the faculty facilitates the learning process by creating a learning environment that fosters reflection, creative/critical thinking, open communication, caring and an active interchange of ideas and technological competence. Faculty assists students to attain goals by utilizing a variety of teaching strategies identified to meet the learning needs of students. We believe that the development of a caring, collaborative faculty-student relationship fosters success in students.

Program Student Learning Outcomes

Upon completion of the RN-BSN program graduates should be able to:

1. Apply critical thinking in a variety of health care settings/complex situations.
2. Integrate professional nursing principles and standards to guide practice.
3. Utilize information management and technology to support evidence-based practice.
4. Advocate for social justice in health care.
5. Engage in inter-professional collaborative practice as leaders in health care.
6. Evaluate the application of health promotion and quality improvement principles to optimize the health potential of populations.

Satellite Program

In addition to the Forbes campus in Thomasville, GA, the RN-BSN program is also offered to Registered Nurses in Moultrie, GA, Tallahassee, FL, and the People’s Republic of China. Thomas University is

licensed by the Florida Commission for Independent Education to offer this program in the state of Florida (#3447). The Thomas University China Program is approved by the Ministry of Education of the People's Republic of China.

Admission

Students must be admitted to Thomas University prior to admission to the RN-BSN program. Contact the Office of Admission or the Thomas University website for assistance with university admission procedures and requirements. Please contact the Division of Nursing for advisement related to admission to the RN-BSN program.

The following items are required for admission to the Thomas University RN-BSN program:

- Completion of the Thomas University Undergraduate Application.
- Submission of official transcripts from all universities / colleges attended.
- Current valid Registered Nurse License without limitations or sanctions. Students must hold a R.N. license from the state or country in which they plan to complete any practicum hours. Applicants who have recently (within six months) graduated from an Associate Degree in Nursing (ADN) or diploma program but are not licensed as a Registered Nurse may be admitted conditionally to the RN-BSN program. R.N. licensure must be obtained prior to enrollment in a course with practicum hours in order to remain in the program. Students may not progress in upper division nursing courses if a valid, unencumbered R.N. license has not been obtained. Conditional status will be removed only upon written verification of R.N. licensure.
- College grade point average of 2.5 or higher on a scale of 4.0 in the required core and nursing coursework completed to meet the requirements of an Associate Degree in Nursing from an accredited post-secondary institution at the time of admission to the RN-BSN program. Remaining core coursework required for graduation from Thomas University may be completed following admission to the RN-BSN program.

Technical Standards for Admission

Reasonable accommodations will be made for students with disabilities. However, a candidate is expected to perform the following in a reasonably independent manner.

1. Observation: A candidate must be able to observe a patient/client accurately.

2. Communication: A candidate must be able to communicate effectively, including verbal, nonverbal, and written communication, with patients/clients and other members of the health care team.
3. Motor: A candidate must have adequate motor function to effectively complete nursing care.
4. Behavioral: A candidate must possess the emotional health to function effectively during stressful situations, adapt to ever-changing environments, and interact professionally with others.

Articulation/Advanced Placement

Thomas University participates in the Georgia RN-BSN Articulation Plan. The purpose of this plan is to enable registered nurses to advance their education with minimal loss of credit and/or duplication of knowledge and skills while maintaining the integrity of the educational process and the autonomy of participating programs. The registered nurse articulating to the baccalaureate level will be awarded 36 course credit hours for nursing and 3 hours of University Studies. These credits will be held in escrow until the student has successfully completed nine semester hours of nursing (NSG 306 and NSG 311). Credits held in escrow will then be placed on the transcript. The applicant must provide the necessary materials to establish proof of compliance with the articulation criteria at the time of admission. These materials include the following:

1. Official transcript of all completed nursing courses from previous nursing school.
2. Documentation of accreditation status of previous nursing school.
3. Documentation from employer stating completion of at least 1000 clinical practice hours in the last three years, if the time since graduating from an associate degree or diploma nursing program is greater than four years. If the applicant has not completed at least 1000 hours of clinical practice within the past three years, he/she must either (a) complete 1000 clinical practice hours in nursing prior to enrollment, or (b) successfully complete one of the National League for Nursing (NLN) ACE II Examinations prior to enrollment.
4. Undergraduate application fee payment.

Upon completion of these requirements, the student will be awarded the 36 hours of credit for nursing and 3 hours of credit for University Studies held in escrow.

Transfer of Credit

Students who have been enrolled at another institution must submit official transcripts from each college or university previously attended to the registrar. The registrar will determine transfer of non-nursing credits. Transfer credit may be given for those courses taken at accredited institutions provided that the courses fall within the scope of Thomas University's curriculum. Acceptability of non-equivalent courses is subject to the approval of the Chair of the Division of Nursing, Academic Affairs, and the registrar. Students who fail a nursing course at Thomas University and successfully complete a similar course at another institution cannot transfer that course back to Thomas University.

LOWER DIVISION COURSES**University Studies – 3 hours**

UNV 103 Personal UNV 103 Wellness	1*
UNV 201 Career Development	1*

CWRTE: Critical Writing, Reading & Thinking

Exam is administered prior to or during the first semester of enrollment.

Experiential Learning Credit

The requirements for experiential Nursing elective credit are as follows:

Upon acceptance to the Thomas University nursing program, students who hold an active professional nursing certification sponsored by a National Organization may receive three (3) credit hours for NSG 490 Special Topics in Nursing or Related Health Services as part of their required RN-BSN curricular plan. Additionally, students who receive an initial certification while enrolled in the nursing program can also receive 3 credit hours. Examples of approved organizations/certifications include American Nurses Credentialing Center, Emergency Nurses Association, Oncology Nursing Certification Organization, American Board of Perianesthesia, Nephrology Certification Commission, and others. Examples that would not meet this requirement include CPR, ACLS, TNCC, PALS, NALS, and other similar certifications.

To receive credit, a student must:

1. Have the certification approved by his/her nursing advisor and the Division Chair
2. Submit a copy of the certification to his/her advisor along with a letter requesting the credit

3. Attach a copy of the official certification requirements.
4. All of these documents will be filed in the student's academic file.
5. The certification must be current at the time credit is requested in order to receive experiential learning credit.
6. Only one national certification is eligible for experiential learning credit.

Requirements for Progression and Re-Admission

- Students must hold a current R.N. license in the state or country in which they complete a practicum.
- Students who have graduated from an Associate Degree in Nursing (ADN) or diploma program but are not yet licensed as a Registered Nurse must obtain R.N. licensure prior to enrollment in a practicum course in order to remain in the program. Students may not progress in upper division nursing courses if a valid, unencumbered R.N. license has not been obtained.
- Prior to enrollment in a practicum course, the following are required: R.N. licensure without limitations or sanctions; Cardiopulmonary resuscitation certification (Health Care Provider Level); evidence of health insurance; a criminal background check and toxicology (drug) screen (if required by the agency), professional liability insurance with a minimum of \$1 million per occurrence/\$3 million aggregate coverage, and current health record with documentation of immunizations.
- Successful completion the Critical Writing, Reading, and Thinking Examination (CWRTE) prior to or during the first semester in the RN-BSN program. Students not passing the CWRTE will be required to successfully complete a college-level Reading course in order to continue in the nursing program.
- Students are required to obtain a grade of no less than a "C" in all required nursing courses. If a student obtains a grade of less than "C" in a required nursing course, the student may not continue in the program. A student must request re-admission by submitting a written action plan to the Division of Nursing Chair that includes a specific plan designed to promote the student's success if re-admitted. The division chair will review the student's file and written request to determine whether the student will be re-admitted. Readmission is not automatic. If the student is readmitted, he/she must repeat the course for an acceptable grade. A second grade of

less than "C" will result in exclusion from the program. The student will be eligible to take other courses not requiring the course in which the student received an unacceptable grade as a prerequisite.

- The student must maintain a cumulative grade point average of 2.0 in all core and upper division nursing courses required for the degree. Students not meeting this requirement will receive a letter from Thomas University indicating academic probationary status. A student may not continue for more than two semesters on academic probationary status in the Nursing Program.
- A student's continued enrollment in the Nursing Program is based on physical as well as emotional health. If the student demonstrates evidence of a physical or emotional illness, the student may be referred to an appropriate resource. If, in the opinion of the faculty, the student's illness impairs ability to implement nursing responsibilities safely, the student may be asked to withdraw from the program until the student can resolve the situation. Reinstatement will be considered on an individual basis by the division chair.
- Each student is expected to demonstrate behaviors that support and contribute to a positive professional learning environment in the classroom, university, and community in congruence with the mission and philosophy of the university and nursing program. In accordance with the policies of Thomas University, the division chair, upon recommendation of the nursing faculty, reserves the right to dismiss a student whose scholarly (e.g. cheating, plagiarism) or professional conduct, scholastic standing, or violation of laws governing professional licensure make it inadvisable to retain the student in the program.

Graduation

To graduate from the Thomas University RN-BSN Program the student must meet the following requirements:

- 120 total semester hours as required for the baccalaureate degree
- Successful completion of the CWRTE exam
- Completion of "Intent to Graduate" form by specified date and advisor approval received
- Payment of all outstanding fees due to the university.

Degrees will be conferred upon the recommendation of the faculty to students who have successfully completed all graduation requirements. The graduation ceremony is held once per year at the

completion of the spring semester and all candidates for graduation are expected to attend.

Health Policies

Required Immunizations/Documentation

1. Rubeola - Documentation of two (2) immunizations with live measles (Rubeola) virus vaccine, administered at least 30 days apart, dated after 1967, and on or after the first birthday; or positive Rubeola titer (blood test) proving immunity or, a written, dated statement by a physician on his/her stationary specifying a history of Rubeola. Measles requirement applies only to students born after 1957.
2. Rubella (German Measles) - Documentation of immunization with live Rubella virus vaccine, dated after 1967, and on or after the first birthday; or positive Rubella titer (blood test) proving immunity.
3. Mumps - Documentation of immunization with live mumps virus vaccine, on or after the first birthday; or positive mumps titer (blood test) proving immunity.
4. Polio - Documentation of immunization to oral polio vaccine, primary series of three doses, or inactivated polio vaccines, primary series of four doses.
5. Varicella (Chickenpox) - Verbal report by student. If the student has not had, or is unsure of having had, this disease, proof of history of illness or titer must be documented. After enrollment in a clinical nursing course, it is the responsibility of each student with a negative history of varicella (chicken pox) to report exposure to varicella or shingles, to the assigned faculty.
6. Hepatitis B - Series of three intramuscular injections or laboratory evidence of immunity. Students may sign a waiver if they do not wish to receive the series.
7. Hepatitis C - testing is recommended
8. PPD - If a history of a positive result occurs, the student must provide documentation of a chest x-ray.
9. Tetanus-booster recommended every 10 years.
10. Meningococcal polysaccharide vaccine documentation or signed waiver form.
11. Other immunizations/vaccinations as required by the clinical agency.

Master of Science Nursing Program

Graduate education is characterized by commitment to the advancement of nursing, theory, practice, and research. Mastery of this advanced knowledge is essential for the empowered decision making,

problem solving, and independent functioning of professional nurses.

The Master of Science in Nursing curriculum is based on the AACN Essentials of Master's Education for Advanced Practice Nursing and the Division of Nursing Philosophy and Conceptual Framework. The MSN curriculum presupposes a general, professional preparation in nursing then builds upon, as well as expands, that generalist preparation. The program also acknowledges that students bring their existing knowledge and experience as practicing registered nurses and have personal and professional goals which are complementary to those of the program.

The organizing framework for the graduate program incorporates theory development, scientific inquiry, leadership strategies, quality management, information technology, program planning, and the ethical-legal dimensions of practice. Emphasis is placed on the use of pertinent nursing and non-nursing theories to develop leadership behaviors that will improve the quality of patient care and environment in which nursing is practiced. This program is congruent with the mission of Thomas University to provide professional programs with a strong liberal arts foundation and the mission of the Division of Nursing to educate registered nurses for professional practice and personal and professional growth.

The MSN program is accredited by the Accreditation Commission for Education in Nursing. 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, P: (404) 975-5000.

Mission

The mission of the Master of Science in Nursing (MSN) program at Thomas University is to prepare nurses who are reflective and critical practitioners of the art and science of nursing; are caring, culturally competent, and politically aware; and who practice within a legal and ethical framework in the advanced roles of leader, advocate, educator, and researcher. The graduate will be an effective communicator, a competent scholar, and a professional role model. Graduates of the MSN program will be equipped with the knowledge, competencies, and values to assume roles as nursing leaders or educators in current and future health care or academic settings. The faculty believes that the following are essential to the practice of master's level nursing:

- Professional values of altruism, autonomy, caring, culturally sensitive care, human dignity, respect for diversity, integrity, and social justice.
- Core competencies of critical thinking and analysis; communication skills; assessment, planning, intervention, and evaluation of clients / patients (individuals, families, and communities); the ability to analyze, synthesize, and utilize knowledge from a variety of sources to inform decision-making and practice.
- Core knowledge including health care policy, organization, and financing of health care; theoretical frameworks relevant to nursing leadership, practice, and education; utilization of sound research methods to analyze the outcomes of nursing interventions, initiate change, and improve practice; health promotion, risk reduction, disease prevention practices in a global society; principles, values, and beliefs that provide a framework for ethical nursing practice; and the utilization of technology in health care delivery and information management.
- Role development as a change agent within the health care system; an advocate for patients, consumers, and the nursing profession; a leader within a collaborative, interdisciplinary health care team; a reflective and critical practitioner practicing within a legal and ethical framework in the advanced role of leader, advocate, educator, and researcher.

Program Student Learning Outcomes

Upon successful completion of the MSN program, the graduate should be able to:

1. Apply theories, concepts, strategies, and research findings in nursing and other disciplines to enhance the quality of health care and improve the environment in which health care is provided.
2. Analyze the impact of health care policies on health care delivery systems and the health care needs of specific populations.
3. Utilize information technology to assess, analyze, evaluate, and improve the quality of nursing care and patient care outcomes.
4. Articulate and analyze the ethical, legal, financial, social, and political issues impacting health care, nursing practice, and education and identify and implement strategies for resolution.
5. Collaborate with other health care professionals, consumers, and other key stakeholders to effect needed change in health care delivery systems.
6. Function effectively in the advanced professional nursing roles of leader, advocate, educator, and researcher.

This 36 credit program consists of core courses (24 credits) in nursing leadership, with additional concentration in the areas of nursing administration (12 credits) or nursing education (12 credits). The program is designed to allow students to maintain an active nursing practice while attending classes on campus one half-day per month. Courses are offered through a “hybrid” learning model, using a combination of a traditional classroom environment and online instruction. Internship hours are arranged at times and locations convenient to students and preceptors.

Core MSN Courses (24 credits)

These are foundational courses of the program and are required of all candidates. Courses focus on the policies which shape the organization and financing of health care and the influence of such policies on access, quality and affordability of health care services to specific populations at the local, state, national and international level; theories and concepts related to health, leadership, and education; research methodology and the utilization of research to inform practice and improve the quality of health care; issues and trends related to health care technology and informatics; community health service or education program planning and development to improve quality and access to health care; the legal, ethical, political, and social environments that influence health care policy and decision-making for health care professionals; and leadership/management strategies designed to improve the quality of care and professional practice environments.

Nursing Administration Concentration (12 semester hours to include one 3 hour elective)

An internship provides opportunities to apply management principles, theories, and strategies in a variety of health care settings. The capstone experience is the Capstone Project in nursing administration/leadership, which entails the development, implementation, and evaluation of one or more strategies to enhance the quality of care and patient outcomes; effectively manage human and/or financial resources associated with the provision of care; and/or improve the professional practice setting in which care is provided.

Elective coursework is tailored to the student’s interests and career goals. Elective courses expand and build on the core courses and may include such topics as financial management / analysis, marketing, strategic planning, human resource management, and

community health systems / policy development. Students are encouraged to pursue electives in the M.B.A. program at Thomas University.

Nursing Education Concentration (12 semester hours)

Courses focus on the process of curriculum planning, development, and program evaluation, as well as teaching, learning, and assessment strategies. An internship in nursing education provides an opportunity to implement teaching and learning strategies in an academic setting. The capstone experience is the Capstone Project in nursing education, which entails the development, implementation, and evaluation of one or more approaches to improve or enrich nursing education programs and/or academic settings.

Core MSN Courses

NSG 604 Information Technology in Nursing Administration and Education

NSG 606 Advanced Theoretical Foundations

NSG 608 Research Design and Methodologies

NSG 610 Policy, Law and Ethics in Nursing

NSG 612 Program Planning for Nursing

Leadership and Education

NSG 614 Global Perspectives on Population-Based Health

NSG 616 Leadership & Financial Management Strategies

NSG 690 Nursing Elective

Nursing Administration Track (12 credits)

NSG 632 Human Resources Management for the Nurse Administrator

NSG 644 Nurse Administration Internship

NSG 646 Capstone Project in Nursing

Administration

NSG 690 Special Topics in Nursing Administration

Nursing Education Track (12 credits)

NSG 620 Teaching Strategies in Nursing

NSG 622 Curriculum Development, Assessment, and Evaluation in Nursing Education

NSG 640 Nursing Educator Internship

NSG 642 Capstone Project in Nursing Education

Required Courses Total36 Hours

Admission Requirements

Thomas University offers two entry options for the Master of Science in Nursing Program:

1. Traditional track, following completion of a bachelor's degree in Nursing or a related field, or

2. RN-MSN track, for Registered Nurses who hold an Associate Degree or Diploma in Nursing. A Bachelor of Science in Nursing is not awarded as part of the RN-MSN program.

General Graduate Admission Requirements

Candidates for Graduate Admission to Thomas University MUST submit to the Office of Admissions each of the following:

- Application for Graduate Admission
- A non-refundable application fee
- A detailed resume
- A personal statement of career and educational objectives (not to exceed two pages)
- Transcripts from all undergraduate and graduate schools attended, to be forwarded directly to the Office of Admissions at Thomas University
- Three professional or academic references

Program Specific Admission Requirements for the Traditional MSN Program:

The candidate must be a graduate of an accredited Bachelors of Science in Nursing program OR hold a Bachelor's degree in a related field AND an Associate Degree or Diploma in Nursing.

If the candidate holds a BA or BS in a field other than nursing and is a graduate of an accredited diploma or Associate Degree Program in nursing, he or she MUST meet the admission requirements and complete an interview with the MSN Program Coordinator. Upon review and approval by the Nursing Division, the applicant may be admitted to the Master in Science nursing program. Additional courses in baccalaureate upper division nursing may be required as a "bridge" to the MSN degree.

Additional General MSN Admission Requirements:

- Candidates must have a minimum undergraduate cumulative GPA of 3.0 (on a 4.0 scale) for the most recent 60 hours of college-level coursework.
- Candidates must provide evidence of completion of an undergraduate statistics course completed within five years of date of enrollment in the MSN program.

In addition to the general admission requirements, students who are accepted for admission into Thomas University's MSN program must submit the following prior to beginning the internship course:

- One current Passport or driver's license type photo

- Current, valid Registered Nurse licensure (without limitations or sanctions) in the state or country in which they plan to complete internship hours.
- Current Cardiopulmonary Resuscitation certification from American Red Cross or American Heart Association (Health Care Provider Level).
- Evidence of health insurance.
- Current professional liability insurance with a minimum of \$1 million per occurrence/\$3 million aggregate coverage
- Criminal background check and toxicology (drug) screen (if required) by the internship facility
- Record of current immunizations and health record.

Program Specific Admission Requirements for the RN-MSN Program:

- The candidate must be a graduate of an accredited ADN or Diploma program in Nursing. In addition, candidates must meet the General Graduate Admission Requirements.
- Evidence of a current unencumbered (without limitations or sanctions) Registered Nurse License. Applicants who have recently (within six months) graduated from an Associate Degree in Nursing (ADN) or Diploma program but are not licensed as a Registered Nurse may be admitted conditionally to the RN-MSN program. R.N. licensure must be obtained prior to enrollment in a practicum or internship course in order to remain in the program. Students may not progress if a current, unencumbered R.N. license has not been obtained. Conditional status will be removed only upon written verification of R.N. licensure.
- Undergraduate grade point average (GPA) of 3.0 or higher on a scale of 4.0 in the required nursing coursework completed to meet the requirements of an Associate Degree or Diploma in Nursing from an accredited post- secondary institution.
- Completion of English 101 and 102 or equivalent prior to enrollment in the RN-MSN program. All remaining undergraduate core curriculum coursework required for graduation from Thomas University may be completed prior to or during enrollment in the RN-MSN program. Prerequisite course requirements must be met. CSC 120 and SPE 105 are not required as part of the Core Curriculum for the RN-MSN or RN to MSN-MBA degree.
- Competency in basic computer skills (Microsoft Word, PowerPoint, Email [including attachments]) is expected of all students. Students must verify

basic computer competency by the first day of class.

Transfer of Credit

Students who have been enrolled at another institution must submit official transcripts from each college or university previously attended to the registrar. Transfer credit may be given for those courses taken at accredited institutions provided that the courses fall within the scope of Thomas University's MSN curriculum. The division chair must approve any credit for transfer. Students who fail a Nursing course at Thomas University and successfully complete a similar course at another institution cannot transfer that course back to Thomas University.

Satisfactory Academic Progress - Graduate Council Policy

The Graduate Council sets minimum standards that all graduate students in the university must fulfill. See the Graduate Admission and Progression policies of this University Catalog for specific information.

In addition to these minimum academic requirements, students are expected to demonstrate behaviors that support and contribute to a positive professional learning environment in the classroom, university and community, in congruence with the mission and philosophy of the university and graduate program. In accordance with the policies of Thomas University, a student's scholarly (e.g. cheating, plagiarism) or personal misconduct may make it inadvisable to retain the student in the program or university.

Progression and Re-admission – Traditional MSN Program

In addition to the Graduate Council policies:

- Students applying for re-admission must meet all of the admission requirements of Thomas University and the MSN program.
- Students must hold a current R.N. license in the state or country in which they complete an internship (clinical practice). Internships sites must have prior written approval by the Division of Nursing.
- A student's continued enrollment in the Nursing Program is based on physical as well as emotional health. If the student demonstrates evidence of a physical or emotional illness, the student may be referred to an appropriate resource. If, in the opinion of the faculty, the student's illness impairs ability to implement nursing responsibilities safely, the student may be asked to withdraw from the program until the student can resolve

the situation. The division chair will consider reinstatement on an individual basis.

- In accordance with the policies of Thomas University, the faculty of the Division of Nursing reserves the right to dismiss a student whose scholarly (e.g. cheating, plagiarism) or professional conduct, scholastic standing, or violation of the laws governing professional licensure make it inadvisable to retain the student in the program.
- A full-time student is expected to complete the traditional MSN program within four calendar years from the first day of enrollment in MSN courses. In order to remain enrolled in the program beyond four calendar years, the student must submit a request for extension in writing to the division chair detailing a plan of action to complete the program of study within a specified time frame. This detailed plan of action must be submitted prior to registration for any courses beyond the expected semester of completion. The division chair will determine whether the student may continue in the program. If the student fails to complete the program within the specified time frame, the student will be academically excluded from further coursework in the program.

A student may enroll in NSG 699 Independent Study and Research a maximum of three consecutive semesters in order to complete the Capstone Project. The student must remain continuously enrolled in the fall and spring semesters. Failure to complete the Capstone Project after three consecutive (continuous) semesters of enrollment in NSG 699 Independent Study and Research will result in academic exclusion from the MSN program.

Progression and Re-admission- RN-MSN Program

In addition to the Graduate Council policies:

1. Students applying for re-admission must meet all of the admission requirements of Thomas University and the MSN program.
2. All policies regarding progression and readmission for the Traditional MSN program also apply to the RN-MSN program. In addition, prior to enrollment in a practicum/internship course:
 - Students must submit evidence of current, unencumbered (no limitations or sanctions) license to practice as a Registered Nurse. Students who have graduated from an Associate Degree in Nursing (ADN) or Diploma program but are not yet licensed as a Registered Nurse must obtain R.N. licensure prior to enrollment in a practicum or internship course in order to

remain in the program. Students must hold a current R.N. license in the state or country in which they complete a practicum or internship (clinical practice). Practica / Internships sites must have prior written approval by the Division of Nursing.

- Cardiopulmonary Resuscitation certification (Health Care Provider Level); evidence of health insurance; a criminal background check at the student's expense (some clinical sites require a criminal background check through another agency – see advisor for details); toxicology (drug screen) if required by the practicum facility, at the student's expense; professional liability insurance with a minimum of \$1 million per occurrence/\$3million aggregate coverage, and current health record with documentation of immunizations.
3. Successful completion of the Critical Writing, Reading, and Thinking Examination (CWRTE) is required by the end of the first semester of Nursing Bridge courses (NSG 306, 311). Students who do not pass the CWRTE will be required to complete a college-level Reading course (REA 111) in order to continue in the nursing program.
 4. All remaining undergraduate core curriculum coursework required for graduation from Thomas University may be completed prior to or during enrollment in the RN-MSN program. **CSC 120 and SPE 105 are not required as part of the Core Curriculum for the RN-MSN or RN to MSN-MBA degree.**
 5. Students are required to obtain a grade of no less than "C" in all undergraduate nursing "bridge" courses (NSG 306, NSG 311, NSG 456, NSG 452) and a grade of "B" in all required graduate level nursing courses (500 or 600 level). If a student obtains a grade of less than "C" in a required "bridge" course or a "B" in a required graduate nursing course, the student may not continue in the RN-MSN program. A student must request re-admission by submitting a written action plan to the Division of Nursing Chair that includes a plan of action designed to promote the student's success if re-admitted. The division chair will review the student's file and written plan of action to determine whether the student will be re-admitted. Re-admission is not automatic. If the student is re-admitted, he/she must repeat the course for an acceptable grade. A second grade of less than "C" in a required "bridge" course or "B" in a required graduate course will result in exclusion from the RN-MSN program. The student will be eligible to take other courses not requiring

the course in which the student received an unacceptable grade as a prerequisite. The student may also opt to apply to the RN-BSN degree program. Any previously completed coursework that meets the requirements of the RN-BSN degree will be applied toward the RN-BSN degree. All requirements for the RN-BSN degree must be met.

6. A student's continued enrollment in the Nursing Program is based on physical as well as emotional health. If the student demonstrates evidence of a physical or emotional illness, the student may be referred to an appropriate resource. If, in the opinion of the faculty, the student's illness impairs ability to implement nursing responsibilities safely, the student may be asked to withdraw from the program until the student can resolve the situation. Reinstatement will be considered on an individual basis by the division chair.
7. Each student is expected to demonstrate behaviors that support and contribute to a positive professional learning environment in the classroom, university, and community in congruence with the mission and philosophy of the university and nursing program. In accordance with the policies of Thomas University, the Nursing Division Chair, upon recommendation of the nursing faculty, reserves the right to dismiss a student whose scholarly (e.g. cheating, plagiarism) or professional conduct, scholastic standing, or violation of the laws governing professional nursing practice make it inadvisable to retain the student in the program.

Graduation

To graduate from the Thomas University MSN Program, the RN student will be required to meet the following requirements:

- Completion of 36 total semester hours as specified in the catalog for the Master of Science in Nursing degree
- Completion of the "Intent to Graduate" form by specified date and approval received
- Payment of all outstanding fees to the university.

Degrees will be conferred upon the recommendation of the faculty to students who have successfully completed all course requirements. All candidates for graduation are expected to attend the graduation ceremony, which is held once per year at the completion of the spring semester.

Health Policies

Required Immunizations/Documentation

1. **Rubeola**—Documentation of two (2) immunizations with live measles (Rubeola) virus vaccine, administered at least 30 days apart, dated after 1967, and on or after the first birthday; or positive Rubeola titer (blood test) proving immunity or, a written, dated statement by a physician on his/her stationary specifying a history of Rubeola. Measles requirement applies only to students born after 1957.
2. **Rubella (German Measles)**—Documentation of immunization with live Rubella virus vaccine, dated after 1967, and on or after the first birthday; or positive Rubella titer (blood test) proving immunity.
3. **Mumps**—Documentation of immunization with live mumps virus vaccine, on or after the first birthday; or positive mumps titer (blood test) proving immunity.
4. **Polio**—Documentation of immunization to oral polio vaccine, primary series of three doses, or inactivated polio vaccines, primary series of four doses.
5. **Varicella (Chickenpox)**—Verbal report by student. If the student has not had, or is unsure of having had, this disease, proof of history of illness or titer must be documented. After enrollment in a clinical nursing course, it is the responsibility of each student with a negative history of varicella (chickenpox) to report exposure to varicella or shingles, to the assigned faculty.
6. **Hepatitis B**—Series of three intramuscular injections or laboratory evidence of immunity. Students may sign a waiver if they do not wish to receive the series.
7. **Hepatitis C**—testing is recommended
8. **PPD**—If a history of a positive result occurs, the student must provide documentation of a chest x-ray.
9. **Tetanus-booster**—recommended every 10 years.
10. **Meningococcal polysaccharide vaccine**—documentation or signed waiver form.

MSN-MBA Dual Master's Degree

Thomas University's MSN-MBA program prepares Registered Nurses (R.N.s) for the complex demands of administrative leadership positions. Through this dual degree graduate program, Registered Nurses earn a Master of Science in Nursing and a Master of Business Administration (dual degree). All graduate admission policies apply to this program and all entry/progression options.

Three MSN-MBA Program Options are available:

1. R.N.s with an earned bachelor's degree in Nursing or a related field must complete the 54 credits of MSN-MBA coursework. All MSN and MBA admission and progression policies apply to this entry option.
2. R.N.s with an earned associate degree in Nursing must complete all of the coursework required in the RN-MSN program plus the required 24 credits in the MBA program to earn the MSN-MBA dual degree. All RN-MSN and MBA admission and progression policies apply to this program. A BSN degree is not awarded.
3. Registered Nurses with a prior MBA or MSN degree from Thomas University must complete the course requirements for the MSN-MBA dual degree. Prior MSN or MBA coursework is applied to the dual MSN-MBA degree under one of the three progression options listed below.

Option A: A student holding an MSN with a Nursing Administration concentration will be required to complete the required 24 credits of MBA courses. Applicable MBA course substitutions from the MSN degree may be applied toward the MSN-MBA dual degree.

Option B: A student holding an MSN with a Nursing Education concentration will be required to complete the required 24 credits of MBA courses and NSG 644 Nursing Administration Internship. Applicable MBA course substitutions from the MSN degree may be applied toward the MSN-MBA dual degree.

Option C: A student holding an MBA must take the following 24 credit hours of MSN courses: NSG 606, NSG 608, NSG 612, NSG 614, NSG 644, NSG 646, and two NSG electives. Applicable course substitutions may be made for the NSG electives. The student will not be required to take NSG 604, NSG 610, or NSG 616, but any of these courses may be taken to satisfy the NSG electives.

Prerequisite Undergraduate Requirements for the MSN-MBA program:

Recent (within the past five years) completion of an undergraduate statistics course is required.

In addition, students who do not hold a prior undergraduate business degree must complete content-specific workshops in order to be prepared for corresponding MBA level coursework (MBA 600, 614, and 645). These online workshops are offered in an 8-week self-paced time frame. Each workshop is offered

at a significantly reduced tuition rate and 50% of this tuition is applied to future corresponding MBA courses. Workshops may be waived if applicant can demonstrate relevant professional work experience or completion of corresponding undergraduate coursework. Please speak with a MSN or MBA program advisor for details.

Undergraduate Prerequisite Workshops in Business**Administration:**

MBA 200 Principles of Financial Accounting

MBA 210 Principles of Macroeconomics

MBA 320 Principles of Finance

MSN COURSES..... 30 Hours

NSG 604 Information Technology in Nursing Administration and Education

NSG 606 Advanced Theoretical Foundations

NSG 608 Research Design and Methodologies

NSG 610 Policy, Law and Ethics in Nursing

NSG 612 Program Planning for Nursing Leadership and Education

NSG 614 Global Perspectives on Population-based Health

NSG 616 Leadership and Financial Management Strategies

MBA 690 Business Strategy & Policy

MBA 663 Operations Management or MBA 669

Training and Development

Graduation

To graduate from the Thomas University MSN-MBA Dual Degree Program the RN student will be required to meet the following requirements:

- Completion of total semester hours as specified in the catalog for the MSN-MBA dual degree, including all required undergraduate coursework;
- Completion of the "Intent to Graduate" form by specified date and approval received;
- Payment of all outstanding fees to the university.

Degrees will be conferred upon the recommendation of the faculty to students who have successfully completed all course requirements. All candidates for graduation are expected to attend the graduation ceremony, which is held once per year at the completion of the spring semester.

Graduate Certificate in Nursing Administration or Nursing Education

Thomas University offers Nursing Education and Nursing Administration Graduate Certificate programs with graduate-level academic credit in either field of study. The purpose of the certificate program is to provide a graduate-level academic foundation for bachelor's or master's-prepared Registered Nurses interested in these fields.

Admission Requirements:

Minimum of a Bachelor's of Science in Nursing (BSN) degree from an accredited institution.

- Minimum grade point average of 3.0/4.0
- Active Registered Nurse (R.N.) licensure without restrictions.
- Students who are currently enrolled in the Nursing Administration Track at Thomas University are eligible to earn a graduate certificate in nursing education by completing 9 additional credit hours: NSG 620, NSG 622, and NSG 640.
- Students who are currently enrolled in the Nursing Education Track at Thomas University are eligible to earn a graduate certificate in nursing administration by completing 9 additional credit hours: NSG 632, NSG 644, and one graduate level approved administration course.
- Three years is the maximum time allowed for completion of the certificate program beginning at the first day of the first course in the graduate sequence.
- Three semester credit hours of graduate course work may be transferred from another university with the approval of the Division Chair of Nursing.
- No undergraduate credits may be applied toward the certificate.
- Prior to the internship, the student must provide evidence of current CPR certification (health-provider level); health record with immunizations; health insurance, criminal background check (if required by the agency); toxicology (drug) screen (if required by the agency); professional liability insurance (\$1million per occurrence/\$3 million aggregate in coverage).

Certificate in Nursing Education

Completion Requirements

The certificate will require 12 semester credit hours with a grade of "B" or better.

NSG 604 Information Technology in Nursing Administration and Education.....	3
NSG 620 Teaching Strategies in Nursing	3
NSG 622 Curriculum Development, Assessment, and Evaluation in Nursing Education.....	3
NSG 640 Nursing Education Internship	3

Certificate in Nursing Administration

Completion Requirements

The certificate will require 12 semester credit hours with a grade of "B" or better.

Biology

Concentration in General Biology

Concentration in Environmental Science

Concentration in Pre-Physician

Biomedical Science

Medical Laboratory Science

Bachelor of Science Biology

Mission

Biology majors at Thomas University design their curriculum to meet personal career and advanced study goals. Students interested in medicine, dentistry, pharmacy, veterinary medicine, teaching or biomedical research take process-oriented courses at the molecular and cellular level such as biochemistry, bacteriology, genetics, cellular biology, and physiology. These and related subjects will prepare students for advanced training in the medical profession and provide the background to qualify for examinations such as the MCAT and PCAT.

Students interested in natural resource protection, wildlife management, or environmental issues take courses that deal with resource issues such as conservation biology, ecology, field biology, and environmental science. These and related subjects will prepare students for advanced study at the graduate level or for a career in resource management, environmental planning, or environmental regulation with local, state, Federal governments, or an environmental consulting firm.

Regardless of emphasis, all biology majors are required to take basic coursework in botany, zoology, evolution, and principles of biology, as well as mathematics, chemistry, and physics. In addition, a wide range of independent study opportunities are available each semester including an internship program, advanced research, and directed readings. Biology students will be required to take ETS Biology Major Fields Test prior to graduation (Senior Year), although a specific score is not required for graduation.

Program Student Learning Outcomes

A graduate of this program will be able to:

1. Demonstrate fundamental content knowledge in broad areas of biology, including, zoology, botany, genetics, microbiology, chemistry and evolution.
2. Express clearly biological terminology and understanding of major biological concepts when writing or speaking about biology.
3. Perform laboratory and/or field experiments, utilizing scientific method and adequate controls to examine data.
4. Evaluate biological data, draw reasonable conclusions, and recognize the ethical implications of these conclusions.
5. Understand his/her part in the scholarly scientific community through interaction with scholarly

scientific literature and application of knowledge to personal, community, and scientific problems.

All Biology majors are required to complete 48 hours of Thomas University Core

Curriculum to include:

MTH 140 College Algebra OR

MTH 150 Pre-Calculus 3

MTH 250 Statistics.....3

CHM 101 General Chemistry I4

CHM 102 General Chemistry II4

Bachelor of Science in Biology with a Pre-Physician Assistant Concentration

The undergraduate portion consists of 127 semester hours and will include all the liberal education and major requirements of a B.S. in Biology.

- Students will complete courses of study in the major biologic, chemical, and mathematical areas and will complete four semester rotations of shadowing experience within the local area with certified PA's. Note: Students must have a cumulative G.P.A. of 3.0 prior to shadowing/final admittance to program.
- Consideration for shadowing experiences (BIO 140, 240, 340, 440) requires:
 - Completed Program admissions requirements may include: student demographic profile, a complete physical exam, criminal background check, drug screen documentation, immunization records with Hep B and PPD. Specific information regarding this documentation will be determined during the advisement process and will depend on the requirements of job shadowing placement.

All Biology majors are required to complete 48 hours of Thomas University Core

Curriculum to include:

Bachelor of Science Biomedical Science

A degree in Biomedical Science includes a course of scientific study related to biology as it affects healthcare. It is designed as a degree completion program for students who have earned an Associate Degree in Medical Laboratory Technology. The degree prepares students for a wide variety of career opportunities or for admission to advanced science or professional health care degrees.

**This degree path does not culminate in the student's ability to sit for the Medical Laboratory Science certification exam.

Admission Requirements

- Associate Degree in Medical Laboratory Technology
- Satisfactory completion of the CWRTE exam

All Biomedical Science majors are required to complete 48 hours of Thomas University Core Curriculum to include:

MTH 140 College Algebra OR	
MTH 150 Pre-Calculus	3
MTH 250 Statistics.....	3
CHM 101 General Chemistry I.....	4
CHM 102 General Chemistry II.....	4
SOC 201 Sociology	3

PSY 201 General Psychology.....	3
---------------------------------	---

Required Lower Division Courses (24 hours beyond Core):

BIO 101 Principles of Biology I.....	4

Bachelor of Science Medical Laboratory Science

The Thomas University MLS program is accredited by:

National Accrediting Agency for Clinical
Laboratory Sciences

5600 North River Road Suite 720

Rosemont, Illinois 60018-5119

773.714.8880

www.NAACLS.org

Program Goals and Philosophy

The purpose of the Thomas University Medical Laboratory Science program is to provide educational opportunities to individuals that will enable them to

obtain the knowledge, skills, abilities, and attitudes necessary to succeed as medical laboratory scientists. General goals of the program include the following:

1. To provide education, which acknowledges individual differences and respects the right of individuals to seek fulfillment of educational needs.
2. To provide an environment which encourages the individual to benefit and contribute as a partner in the economic progress, development, and stability of their communities.
3. To provide education which develops the potential of each student to become a productive, responsible, and upwardly mobile member of society.
4. To provide quality medical laboratory science education in an atmosphere that fosters interest in and enthusiasm for learning.
5. To prepare graduates to function as accountable and responsible members within their field of endeavor.
6. To prepare graduates to function as safe and competent practitioners in the medical laboratory science field.
7. To prepare graduates with the highest level of competence possible given the constraints of the interests and ability levels of the individual.
8. To provide educational and related services without regard to race, color, national origin, religion, sex, handicapping condition, academic disadvantage, or economic disadvantage.
9. To foster employer participation, understanding, and confidence in the instructional process and the competence of medical laboratory science graduates.
10. To provide guidance to medical laboratory science students to assist them in pursuing educational opportunities that maximize their professional potential.
11. To encourage graduates to recognize and to act upon individual needs for continuing education as a function of growth and maintenance of professional competence.

Program Student Learning Outcomes:

A graduate of the Medical Lab Science program will be able to:

1. Demonstrate professional conduct and interpersonal communication skills with patients, laboratory professionals, and other healthcare professionals and the public.
2. Provide quality medical laboratory science procedures in an atmosphere that fosters interest in and enthusiasm for the profession.

3. Relate laboratory findings to common disease processes through case presentation.
4. Attain MT/MLS certification by a national certification agency (ASCP or AMT).

Important attributes for success of program graduates are analytical thinking, problem solving, and the ability to apply technology to the work requirement. Medical Laboratory Science is a dynamic profession; therefore, careful attention to current curriculum and up-to-date instructional equipment is required. The program promotes the concept of change as the technology evolves and nurtures the spirit of involvement in lifelong professional learning.

Thomas University accepts the following concepts concerning education in medical laboratory science:

1. The scientist is a skilled person who performs laboratory tests on body fluids under the direction of a qualified physician, pathologist or laboratory director.
2. The scientist evaluates and correlates medical laboratory test results performed on a patient but does not make a diagnosis from these results.
3. The student scientist should be educated to assess the needs of the patient and provide laboratory data within the scope of his/her training.
4. The educational standards and administrative policies of the program in medical laboratory science should conform to those approved by the National Accrediting Agency for Clinical Laboratory Sciences.
5. All instruction should be geared to the educational level and experience of the individual.

An advisory committee, which is representative of the professionals concerned with the training and employment of medical laboratory scientists, should provide guidance in the planning, organizing, and operation of the program.

Option A: MLS 2+2 Program

The program is a bridge program designed for the clinical laboratory technician. A student must possess an Associate Degree from a NAACLS accredited CLT program and national CLT certification. To achieve junior status at Thomas University, a student must take approximately one semester of core courses and must pass the Critical Writing, Reading, and Thinking Exam (CWRTE). Students will be accepted each semester, to begin a structured curriculum that includes on line courses and supervised clinical experience. These courses will provide the skills needed by the coming generation of Medical

Laboratory Scientists. Students graduating with the B.S. degree from Thomas University in MLS will be eligible to sit for the national certification examination in Medical Laboratory Science. Successful completion of the exam will lead to certification as an MLS.

**Conditional admission status may be granted to students who do not have acceptable clinical sites or appropriate certification upon admission. Upon receipt of these items, students will be fully accepted; however, if not attained after two semesters of conditional acceptance, students will be diverted to the B.S. degree in Biomedical Science.

Articulation/Advanced Placement

The Medical Laboratory Science student articulating to the baccalaureate level will be awarded 24 course credit hours for Medical Laboratory Science. These credits are specific to the MLS Program and are awarded for technical/clinical courses successfully completed in a NAACLS accredited Associate Degree Clinical Laboratory Technology/Medical Laboratory Technology program. These 24 credits will be held in escrow until the student has successfully completed 6 semester hours of required course work in the MLS program. Credits held in escrow will then be placed on the transcript.

The applicant must provide the necessary materials to establish proof of compliance with the articulation criteria at the time of admission. These materials include the following:

- Certified transcript of all completed CLT/MLT courses from previous CLT/MLT program.
- Documentation of NAACLS accreditation status of previous CLT/MLT program.
- Documentation of CLT/MLT national registry licensure.

Option B: Traditional MLS Program

This program is designed to provide students with the general Core requirements, and a structured curriculum to include both lecture and laboratory components in the classroom setting. Upon successful completion of the coursework and professional training, students will enter clinical settings and perform internships during the last two semesters of program. These courses will provide the skills needed by the coming generation of Medical Laboratory Scientists. Students graduating with the B.S. degree from Thomas University will be eligible to sit for the

national certification examination in Medical Laboratory Science.

Admission

Students must be admitted to Thomas University prior to admission to the MLS program. Contact the office of Admissions or the Thomas University website for assistance with university admission procedures. Upon completion of core requirements, students interested in the MLS program, must apply to the program by visiting the MLS website. Traditional MLS students are accepted each fall. Acceptance decisions for each fall are made by June 1st. Once accepted, students are required to submit the following documents prior to the first day of class.

Complete physical exam, criminal background check, drug screen documentation, immunization records with Hepatitis B and PPD and essential functions declaration. Specific information regarding this documentation can be found in the MLS Handbook. Handbook and forms will be provided to the student upon acceptance to the MLS program.

Alternate Status

The maximum number of MLS students accepted each year is fifteen. Students will be admitted in order of admission requirements completion. If more than 15 students apply to the MLS program, an alternate list will be generated. Students may be admitted as alternates provided they have met basic MLS program admission requirements. Any student readmitted into the MLS program will be readmitted as an alternate.

Division of Social Work

Bachelor of Social Work Degree

Social Work

Bachelor of Social Work Degree Program

The Division of Social Work is committed to preparing skilled BSW graduates to serve the needs of southwest Georgia and north Florida. We are a growing program and have been fully accredited by the Council on Social Work Education.

Mission and Goals

The mission of the Division of Social Work is to develop competent, ethical, and productive professional social workers who are able to meet human needs, enhance human wellbeing, and promote social and economic justice through generalist social work practice and social action. To accomplish this, the Division has set the following goals:

- **Goal 1: Academic Excellence** - To maintain an accredited Bachelor of Social Work (BSW) program that will teach students the foundation curriculum content, including knowledge, critical thinking skills, practice skills, communication skills, and values necessary to become effective social workers and lifelong learners.
- **Goal 2: Professional Skills** - To prepare generalist social work practitioners to intervene effectively in a variety of human and social problem areas, and to evaluate the effectiveness of their interventions.
- **Goal 3: Advocacy** - To prepare generalist social work practitioners to understand current social policies impacting clients and to advocate for needed changes at all levels of society and government.
- **Goal 4: Ethics** - To prepare generalist social work practitioners to understand and utilize the ethical standards of the profession embodied in the Code of Ethics of the National Association of Social Workers (NASW) and to follow this code as a member of the social work profession.
- **Goal 5: Cultural Competence** - To instill in BSW students an awareness of, and sensitivity to, issues of race, ethnicity, gender, class, age, sexual orientation, ability, and religion, as well as other factors, in our pluralistic society.
- **Goal 6: Research and Technology** - To prepare generalist social work practitioners to utilize available technological resources in their practice, including internet resources, Excel, Galileo, PowerPoint, Collaborate, and Blackboard.
- **Goal 7: Community Engagement** - To encourage social work faculty and students to reach out to their communities, and to seek out ways they can

enrich and meet the needs of the communities in which they live and work.

The Division of Social Work is dedicated to preparing generalist social work practitioners as entry-level professionals. The generalist approach in social work emphasizes that problems are the result of many different challenges (psychological, social, economic, cultural, mental illness, medical, addictions, etc.) within a person's life. To assist clients, social work is practiced on many different levels: micro (individuals), mezzo (families and groups) and macro (organizations, communities, legislation, etc.). Our Thomas University Division of Social Work emphasizes outreach to special populations such as the poor in rural areas, children and families at risk, and other disadvantaged groups, along with providing support, advocacy, and service to our global community.

The Division of Social Work has utilized the Core Competencies for social work as suggested by the Council on Social Work Education for the major learning outcomes for their program. These competencies include the following learning outcomes:

Program Student Learning Outcomes:

A graduate of this program will be able to:

1. Identify as a professional social worker and conduct oneself accordingly.
2. Apply social work ethical principles to guide professional practice.
3. Apply critical thinking to inform and communicate professional judgments.
4. Engage diversity and difference in practice.
5. Advance human rights and social and economic justice.
6. Engage in research-informed practice and practice-informed research.
7. Apply knowledge of human behavior and the social environment.
8. Engage in policy practice to advance social and economic well-being and to deliver effective social work services.
9. Respond to contexts that shape practice.
10. Engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities.

Professional Performance

Social Work is both an academic major and a profession. Failure to demonstrate professional and/or ethical behavior is considered academic in the sense that it relates to the student's likely

performance as a social work practitioner, and is considered cause for denial of admission to, or termination from, the Division of Social Work. Social work students are expected at all times to demonstrate professional conduct, relationship skills, and behavior consistent with professional values and the NASW Code of Ethics, and the emotional stability requisite for professional practice.

Admission Requirements

Admission to the social work major is based on a comprehensive review process. During the sophomore year, students are encouraged to make an appointment with a social work faculty member to discuss their interest in the major and to receive an application packet. Transfer students should meet with a social work faculty member upon admission to Thomas University. All application materials must be submitted before an admissions decision is made.

All students must have a minimum overall grade point average of 2.5 in order to have their application considered for admission, unless they receive special permission from the division chair.

Acceptance into the Division of Social Work is based upon an assessment of the student’s capability for achieving academic success, the possession of a personal value base consistent with professional social work values and ethics, the student’s interest in and commitment to the profession of social work, and personal characteristics which would enable the student to render effective assistance to those they serve.

The social work faculty will review the application materials and conduct a short interview with the applicant. Following the review of materials, there are three possible outcomes to the review process:

- Students may be fully admitted and allowed to continue taking social work courses as outlined on the Progression Sheet.
- Students who lack certain courses or prerequisites, whose grade point average is not at the minimum 2.5 required, or who have non-academic factors which may impede their ability to practice professionally, may be given a conditional admission in which specific conditions are set forth with a specific timeline for completion in order to continue in the major.
- Students who lack certain courses or prerequisites, who have other non-academic factors which may impede their ability to practice professionally, or whose grade point average is

not at the minimum 2.5 required, may be denied admission at the time of application and asked to reapply or to select a different major.

Students may appeal the decision using the Thomas University Grievance Procedures, which are explained in the [Student Handbook](#).

Satellite Program

In addition to the Forbes campus in Thomasville, GA, the Bachelor of Social Work program is also offered in Tallahassee, FL. Thomas University is licensed by the Florida Commission for Independent Education to offer this program in the state of Florida (#4348).

The Social Work Experience: Classes and Practical Training

After successfully completing the required lower division classes necessary to enter the program, students begin a two year course of study of social work. The first year (junior) consists of classroom instruction in theory and practical skills, typically five classes each semester. In the student’s second year (senior), they are provided with an internship or Field Practicum at a social service organization to begin “practicing” these skills under the guidance of a field instructor. Students earn 6 credits each semester for this Field Practicum (I-fall, II-spring) and 3 credits each semester for their Senior Seminar class (I-fall, II-spring) which assists them in integrating their classroom instruction with their field placement experience. Students in their senior year in social work should plan on a time commitment of at least 200 hours each semester (400 total) for their Field Practicum. This is generally two full days a week for both semesters or the equivalent time (16 hours per week) spread over multiple days.

Seniors typically enroll for two other classes each semester to maintain a full course load.

MTH 250 Intro to Statistics (recommended)	3

Social Sciences: 12 hours

HIS 201, or 202, or 203 U.S. History & Gov't.....	6
PSY 201 General Psychology	3
SOC 201 Intro to Sociology OR	
PSY 125 Lifespan Development.....	3

Humanities: 6 hours total

Choose two. At least one must be a HUM.

HUM 200, 201, 202, or 203 Survey of Western & Non-	
Western Culture	
ART 240 Art Appreciation	
FLM 210 Introduction to Film	
REL 210 Introduction to World Religion	

Related to Program: 12 Hours

Open Electives.....	12
SOC 201 or PSY 125: recommended if not taken to	
fulfill Social Sciences requirement	

CWRTE (Critical Writing Reading Thinking Examination) must be successfully completed by the end of the second semester as a social work major.

Upper Division Courses

SWK 301 Introduction to Social Work.....	3
SWK 315 Cultural Diversity.....	3
SWK 350 Social Work Practice with Individuals:	
Generalist Practice I	3
SWK 375 Social Work Practice with Families:	
Generalist Practice II	3
SWK 450 Social Work Practice with Groups:	
Generalist Practice III	3
SWK 475 Social Work Practice with Communities &	
Organizations: Gen. Practice IV.....	3
SWK 344 Human Behavior in the Social Environment	3

SWK 348 Social Welfare Policy	3
SWK 370 Ethical Issues in Human Services.....	3
SWK 452 Research and Program Evaluation	3
SWK 420 Field Practicum I (fall)	6
SWK 451 Field Practicum II (spring).....	6
SWK 421 Senior Seminar I (fall).....	3
SWK 455 Senior Seminar II (spring).....	3

Recommended Electives:

SWK 320 Child Welfare.....	3
SWK 321 Gender Issues.....	3
SWK 330 Social Gerontology: Family and Caregiving	
Issues	3
SWK 331 End of Life Issues.....	3
SWK 332 Introduction to Substance Abuse.....	3
SWK 333 Understanding Family Violence	3
SWK 340 Mental Health & The DSM	3
SWK 369 Human Sexuality	3
SWK 490 Special Topics in Social Work	3
SWK 491 Directed Individualized Study in Social Work	
.....	1-3

Suggested Electives:

Students are requested to speak with their advisor regarding the selection of electives related to social work.

For Transfer Students with an Associate's Degree
The following courses are prerequisites for formal admission to the program:

BIO 101* Biology with lab
Any Second Science Course with a Lab
HIS 201 U.S. History & Gov't I
HIS 202 U.S. History & Gov't II
SOC 201 Introduction to Sociology OR
PSY 125 Lifespan Development
PSY 201 General Psychology
MTH 120 Mathematical Modeling
MTH 250* Statistics

**Course is suggested, not required*

Certificate, Minor, and Bridge Programs

ESL Bridge Program

International students may test into this bridge program based on TOFEL and ILTS scores.

Program Outcomes:

- Demonstrate sufficient confidence in speaking and listening abilities in order to participate effectively in aural exchanges with native English speakers in a variety of academic and/or professional contexts, as demonstrated by holistic assessment of performance in labs by two faculty graders.
- Read English texts with comprehension adequate for college-level assignments, as demonstrated by a norm-referenced test (e.g., Nelson-Denney Reading Test).
- Write short, English essays independently that communicate ideas clearly, coherently, and effectively in response to written or spoken prompts, as determined by two or more faculty graders. (e.g., minimum passing holistic score on exit essay)
- Develop learning strategies in order to achieve academic success in the technology rich, English speaking academic community, as determined by successful completion of UNV 101, 102, and 111 course activities as well as by UNV 103 course grade.

Required Courses:

Courses denoted with an asterisk (*) are developmental and for institutional credit only.

ENG 099	*3 hours
REA 099	*3 hours
UNV 111	1 hour
UNV 101	1 hour
UNV 102	2 hours
ESL 120	1-4 hours
UNV 103	1 hour

Graduate Certificate in Nursing

For information [see page 99](#).

Minor Programs

All students who wish to participate in a minor program must be approved and accepted into the program by the appropriate division chair.

When applicable, electives taken at Thomas University in the student's major program of study may be used to fulfill a portion of the requirements for a minor program. All electives that will apply toward a minor **must** be approved by an advisor and/or the division chair.

Required Courses for a Minor

(All prerequisites must be met prior to enrolling in any of the courses listed.)

Anthropology 15 hours

ANT 202 Introduction to Cultural Anthropology.....	3
ANT 240 Peoples of the World.....	3
ARC 301 Archaeology or	
ANT 401 World Prehistory.....	3
ANT 310 Physical Anthropology	3
ANT 440 Cultural Anthropology	3

Art 15 hours

The minor consists of fifteen semester hours taken in art courses numbered 300 or above.

All students seeking a minor in art will be required to meet with an art department instructor and submit a portfolio for approval before beginning a course of study for the minor.

Biology..... 20 hours

The minor consists of five courses in biology. All students are required to complete BIO 101 and four additional courses with BIO prefixes. Some courses may require prerequisites.

Business Administration 15 hours

Prerequisites: BUS 211 and a 2.0 CGPA.

BUS 200 Principles of Financial Accounting	3
BUS 290 Legal Environment of Business	3
BUS 320 Principles of Finance	3
BUS 340 Organizational Behavior.....	3
BUS 360 Principles of Marketing	3

Chemistry20 hours

CHM 101 General Chemistry I.....	4
CHM 102 General Chemistry II.....	4
CHM 250 Organic Chemistry I.....	4
CHM 251 Organic Chemistry II.....	4
CHM 301 Biochemistry.....	4

Communication15 hours

BUS 352 Web Design.....	3
ART 380 Digital Photography.....	3
FLM 400 Methods and Materials of Film Making.....	3
ENG 301 Professional Communication.....	3
PSY 300 Interpersonal Communication OR	
PSY 340 Social Psychology.....	3

Criminal Justice15 hours

Required Courses:

CRJ 370 Constitutional Law.....	3
CRJ 470 Criminal Law.....	3

Additional 9 hours Criminal Justice courses as approved by advisor.

Education15 hours

Prerequisite: EDU 200

Note: The student must abide by all of the rules and regulations governing education students at Thomas University. Completing a minor in education does not entitle the student to be recommended for teacher certification.

EDU 310 Educational Psychology.....	3
EDU 316 Teaching Methods & Strategies.....	3
EDU 320 Teaching Diverse Learners.....	3
EDU 468 Educating Exceptional Learners.....	3
EDU 350 Integrating Educational Technology Into Teaching.....	3

English.....15 hours

The minor consists of fifteen semester hours taken in English courses numbered 300 or above and must include one course from ENG 301-ENG 304.

Geographic Information Systems 15 hours

Recommended prerequisites: GEO 201

GEO 302 Geographic Information Systems Applications I - Methods.....	4
GEO 303 Geographic Information Systems Applications II - Analysis.....	4
GEO 410 Geographic Information Systems: Conservation.....	4
BIO 495/GEO 495 Geography Internship.....	3

Gerontology 15 hours

The minor consists of fifteen semester hours selected from the following courses:

NSG 332 Healthy Aging.....	3
NSG 441 Physiology of Aging.....	3
SWK 330 Social Gerontology: Family and Caregiving Issues.....	3
NSG/SWK 331 End of Life Issues.....	3
PSY 495 Advanced Practicum.....	3
PSY 490 Psychology of Aging.....	3
PSY 490 Grief and Bereavement.....	3

History 15 hours

The minor consists of fifteen semester hours selected from the following courses:

HIS 304 20th Century America.....	3
HIS 314 Contemporary Europe.....	3
HIS 321 Contemporary Latin America.....	3
HIS 361 Special Topics in History.....	3
HIS 404 A Critical Decade in U S History.....	3
HIS 434 History of African Nationalism.....	3
HIS 444 Contemporary Asia.....	3
HIS 451 History of Georgia.....	3
HIS 421 History of the Middle East.....	3

Math..... 15 hours

The minor consists of fifteen semester hours taken in mathematics (with a MTH prefix) above the 200 level.

Music 15-21 hours

MUS 201 Introduction to Music.....	3
MUS 291 or 390 Jazz Ensemble or Community Chorus (2 semesters).....	3-6
Applied Music (2 semesters).....	3-6

Music Electives (select two)

MUS 337 History of Jazz.....	3
MUS 340 World Music.....	3
MUS 344 Pop & Rock Music.....	3
MUS 350 Electronic Music.....	3

Psychology 15 hours

The minor consists of fifteen semester hours taken in psychology above the 200 level.

Social Work 15 hours

The minor consists of 15 semester hours taken in social work above the 200 level.

Sports Studies 19 hours

Students with a Sports Studies Minor will be able to

- Demonstrate breadth of preparation for coaching for a variety of sports at a variety of levels.

- Understand the developing physical and psycho-social aspects of sports participants.
- Understand the business practice of sports administration.
- Understand sport as an integral part of today's society.

Required Courses:

BIO 280 Introduction to Sport Science.....	4
SPS 300 Injury Prevention	3
PSY 351 Sport Psychology	3
SPS 350 Introduction to Sport Management	3
SPS 420 Coaching Theories and Methods	3
SOC 401 Sociology of Sport	3

Course Listings

ANT—Anthropology

- ANT 202** **3 hours**
Introduction to Cultural Anthropology
 Prerequisite: ENG 101. Study of the concept of culture and the study of the cultures of living peoples throughout the world, including our own; the role of the individual, cultural adaptation, diversity, the concept of “race,” and language and culture.
- ANT 240** **3 hours**
Peoples of the World
 Survey of different cultures as case studies in anthropology. Cultural adaptation, social organization and ideology.
- ANT 303** **4 hours**
Anthropology of the Yucatan
 Prerequisite: ANT 202 and ARC 301. An introduction to the history, culture, ecology and archaeology of the Yucatan peninsula.
- ANT 310** **4 hours**
Physical Anthropology
 Topics include: overview of evolutionary theory, basic genetics and inheritance, evolution in present populations, biocultural evolution in human populations, human variation, and living primates and their behavior, Mammalian/Primate evolutionary history, human evolution, human osteology and paleopathology. 3 hours lecture 1 hour lab
- ANT 401** **3 hours**
World Prehistory
 Study of major events in human prehistory from 2 million years ago until the dawn of written history, from the Pleistocene to the Holocene and Paleolithic to Neolithic. Local events in south Georgia are used as examples of cultural patterns and processes occurring globally.
- ANT 415** **3 hours**
Cultural Sustainability
 Prerequisite: ANT 202. This course focuses on issues such as sustainability, well-being, community building and civic engagement needs, as well as using a clear cultural perspective as a basis for successful implementation of a sustainable and healthy society.

- ANT 440** **3 hours**
Cultural Anthropology
 Prerequisite: ANT 202. Study of different theories and approaches to study of the cultures of living peoples in the world today. The social construction of identity, hierarchy and stratification in state-level societies.

- ANT 495** **3 hours**
Anthropology Internship
 Students majoring in the NCRM Program or Social Sciences and/or those with the approval of instructor, can participate in the intern program. The purpose is to obtain hands-on working experience at a field location, site, laboratory, museum, nature center, or resource management agency. Typically, students work 10 hours per week for one or two semesters although this is flexible. Up to four hours of credit are given for each semester. These are usually volunteer positions although some with financial remuneration are available. The student can seek out their own organization, but Thomas University has contacts for internships both in and outside the state and the nation. Interns will prepare a written paper and a PowerPoint presentation describing their work experience.

- ANT 499** **1-3 hours**
Senior Seminar
 Review of all previous coursework in anthropology in the student’s final semester.

ARC—Archaeology

- ARC 301** **3 hours**
Archaeology
 The study of past cultures. As one of the social sciences, archaeology adds great time depth to study of the causes of human behavior. Classroom and field trips.
- ARC 303** **3 hours**
Field Techniques in Archaeology
 Participation in excavations at an archaeological site. Excavation techniques, recording, mapping, profiling.

ARC 305 **4 hours**
Archaeology in Nicaragua
 Prerequisite: ARC 301. Intensive field experience investigating archaeological sites of different cultures. Emphasis on cultural adaptation to the ecosystem, regions and cultures, architecture, mythologies, ceramics and other artifacts. Typically conducted out-of-state and frequently out-of-country such as in Nicaragua, Central America. Strenuous physical activity.

ARC 306 **4 hours**
Archaeology in Mexico
 Intensive field experience investigating archaeological sites located in and around Thomas University's 620 acre preserve near Izamal, Yucatan. Our emphasis will be on training and application of new nondestructive archaeological techniques including GIS spatial analysis of site locations and land usage and Remote Sensing to provide baseline documentation and mapping in international settings.

ART—Art

Note: Studio courses often require the student to perform experimentation, study, and research beyond actual studio contact hours with the instructor. Students taking studio courses pay a \$15 lab fee and may be required to purchase their own studio materials and pay a model's fee, if applicable.

ART 210 **3 hours**
Introduction to Drawing
 An introduction to the art of drawing through a variety of media including charcoal, pencil, and pen and ink. (Model's Fee) Required for Majors. Studio

ART 212 **3 hours**
2-D Design
 An introduction to the fundamental elements of the visual arts and their application through the solving of two dimensional visual problems involving line, shape, texture, value and color.

ART 240 **3 hours**
Art Appreciation
 Prerequisite: ENG 102. A survey of the visual arts examining Greek art, the Renaissance, Neoclassicism, Romanticism, and Realism, to mid-nineteenth century art. This course can be used to fulfill a CORE curriculum Humanities requirement.

ART 250 **3 hours**
Introduction to Studio Art
 An introduction to a variety of studio art media, including drawing, painting, sculpture and ceramics, and a survey of the tools and techniques of visual art. Basic concepts for creating 2D and 3D visual art will be covered in a hands-on, studio environment.

ART 270 **3 hours**
Introduction to Painting
 An introduction to the art of painting through instruction in fundamental techniques of painting in oils and acrylics. Required for Majors. Studio

ART 304 **3 hours**
Art History I
 A survey of the visual arts examining European and Mediterranean Paleolithic and Neolithic cultures and the Egyptian, Greek, and Roman Eras.

ART 305 **3 hours**
Art History II
 An examination of early Christian art, the Romanesque and Gothic periods, the Renaissance and Baroque Eras, Neoclassicism, Romanticism, and Realism, to mid-nineteenth century art.

ART 306 **3 hours**
Art History III
 A survey of the history and influences of twentieth century art, including European, American, and International influences and movements, current trends and concerns, and the future of art.

ART 320 **3 hours**
Sculpture
 This is a studio art course designed to enable students to explore the sculptural media and to develop a coherent body of work.

ART 322 **3 hours**
Ceramics
 Introduction to hand building techniques including coiling, slab, and pinch methods, textures, glazing, kiln firing and pit firing.

ART 350 **3 hours**
Introduction to Printmaking
 An introduction to the basic types and techniques of printmaking. Discussions concerning editions, monoprints, and ethics relating to the printmaking arts and current technology.

ART 380 Digital Photography	3 hours
An introduction to software applications associated with computer generated images and their manipulation, including 2D animation.	
ART 381 Digital Photography II	3 hours
Prerequisite: ART 380. This course is designed to further develop student skills in pixel based photography and Adobe Photoshop with an emphasis on concept culminating in an exhibition of selected works. A studio fee will cover expenses for completing three contemporary artist presentations, one artist statement, creation of twenty unique images, and the printing and framing of selected images.	
ART 382 Digital Photography III	3 hours
Prerequisite: ART 381. This course is designed to further develop student skills in pixel based photography and Adobe Photoshop with an emphasis on concept culminating in an exhibition of selected works. Studio fee of \$150 will cover expenses for completing three contemporary artist presentations, one artist statement, creation of twenty unique images, and the printing and framing of selected images.	
ART 390 Principles of Graphic Art and Website Design	3 hours
Students will learn the principles of graphic art and website design. The elements of good graphic design, logo creation, and typography will be addressed. Utilizing artistic principles, students will progress to designing, building, and maintaining a functional website.	
ART 400 Figure Study	3 hours
Prerequisites: ART 210. Advanced study emphasizing special visual problems of the human figure rendered through a variety of media. (Model's Fee)	
ART 480 Senior Exhibition	3 hours
All students graduating with a concentration in art are required to assemble the work produced during their course of study and to organize an exhibition.	
ART 490 Special Topics	3 hours
Special topics courses offer the student opportunities to explore selected topics of interest in the discipline.	

BIO—Biology

BIO 101 Principles of Biology I	4 hours
Biology 101 is an introduction to the major principles, concepts, and connections in biology that includes a lab component. It is designed mainly for majors and includes modules on macromolecules, cells, processes such as photosynthesis, respiration, Mendelian and molecular genetics, and chemical and biological evolution.	
BIO 102 Principles of Biology II	4 hours
Biology 102 is an introduction to the major principles, concepts, and connections in biology that focuses mainly at the individual organism, population, community, and ecosystem levels. It is designed mainly for majors and includes modules on major organ systems, reproduction and embryonic development, as well as ecology and conservation biology. This course has a lab component.	
BIO 103 Medical Terminology	1 hour
This course introduces the elements of medical terminology. Emphasis is placed on building familiarity with medical words through knowledge of roots, prefixes, and suffices. Topics include: word origins (roots, prefixes, and suffixes), word building, abbreviations a symbols, terminology related to the human anatomy, disease states, and terminology specific to the student's field of study.	
BIO 105 A Survey of Biology for Non-Majors	4 hours
A Survey of Biology for Non-Majors introduces fundamental biological concepts and issues for students who are not majoring in the sciences. This course enables students to effectively interpret, understand and communicate scientific concepts in their daily lives. Major topics include structure and function of important macromolecules, cells, DNA, genetics, health, evolution, ecology, plants, animals, and conservation biology.	
BIO 110 Current Issues in Life Science	4 hours
This course introduces non-science majors to important biological principles and concepts, and the nature of the scientific process through an understanding of current issues and topics related to life sciences. This course includes a lab component.	

BIO 140 **1 hour**
Pre-PA Seminar I
Prerequisite: Admission to the PA program. This course introduces students to a variety of contemporary medically oriented environments. This course will require 50 semester hours of shadowing experience in a healthcare setting with trained PA's, MD's, and Nurse Practitioners.

BIO 240 **1 hour**
Pre-PA Seminar II
Prerequisite: BIO 140. This course introduces the student to clinical, political, social, and economic trends in the Physician Assistant profession. This course will require 50 semester hours of shadowing experience in a healthcare setting with trained PA's, MD's, and Nurse Practitioners.

BIO 250 **4 hours**
Human Osteology
This course surveys human osteology, or the study of the human skeleton. Topics include skeletal morphology, introduction to bone biology; how to identify whole and fragmentary skeletal elements; techniques used to identify age, sex, ancestry, and stature; types of laboratory analysis and imaging techniques used by professionals; real world applications in forensic science and archaeological context.

BIO 252 **4 hours**
Current Issues in Environmental Science
This course will investigate large-scale environmental problems such as global warming, toxic spills, soil erosion, and pollution and how they create unequal distribution of food, clean water, arable land, and energy. Such inequities often result in ethnic conflict, insurgency, terrorism, civil violence, and state collapse. Mainstream environmental movements, and related offshoots such as deep ecology, ecofeminism, bioregionalism, and eco-terrorism, will also be studied. This course is for non-biology majors with an interest in environmental issues, but not biological principles or applied aspects such as experimental design, field study techniques, or data interpretation.

BIO 261 **4 hours**
Human Anatomy and Physiology I
Anatomy, physiology and biochemistry are taught concurrently to enable the student to grasp the interrelated complexities of all three areas. This course emphasizes structure and functions of the human body and its parts. During the course, students will study the anatomy, histology and function of the integumentary skeletal, muscular, and nervous systems from the molecular level to the level of the whole body. This course includes a lab component.

BIO 262 **4 hours**
Human Anatomy and Physiology II
Prerequisite: Completion of BIO 261 with a "C" or better. This course emphasizes structure and functions of human body and its parts. Students will study anatomy, physiology, and terminology relating to the human body by covering the cardiovascular, lymphatic, immune, respiratory, endocrine, reproductive, urinary, and digestive systems. This course includes a lab component.

BIO 270 **4 hours**
Microbiology
This course focuses on the structure and function of microorganisms ranging from virus to fungi and their interactions with humans. It introduces and provides experience with some fundamental laboratory techniques necessary for the study of microbes. During the course, students will learn the major subdivisions of microbiology and the types of microorganisms involved in each division, methods for studying microorganisms, microbial nutrition, the major beneficial and destructive activities of microorganisms, physical and chemical control of microbes, the etiology, pathogenesis, and treatments of major microbial diseases. Aspects of human defense systems are also covered. This course includes a lab component.

BIO 280 **4 hours**
Introduction to Sport Science
This is an introductory course with concepts and topics in anatomy, physiology, motor learning, and biomechanics, focusing on the art of the human body in relation to fitness and exercise conditioning using a total body approach. This course includes a laboratory component.

BIO 301/CHM 301**4 hours****Biochemistry**

Prerequisite: A grade of "C" or better in CHM 251 or CHM 107. The course provides the student with a background in amino acids, proteins, enzyme catalysis, metabolism and molecular genetics. This course will emphasize nomenclature, structure and function of the principle molecular components of cellular biochemistry. Emphasis will be placed on the relevance of biochemistry to disciplines in chemistry, biology, medicine, pharmaceuticals and nutrition. The laboratory will coordinate with class lecture to illustrate concepts and their application to everyday experiences.

BIO 308**4 hours****Ecology**

Prerequisites: BIO 102 or permission of the instructor. Biology 308 is an introduction to the theory and practice of ecology based on terrestrial and aquatic systems. This course includes experimental design, animal behavior, biotic and abiotic factors that determine plant and animal distribution. The majority of the course will focus at the population level and the community / ecosystem level. This course includes a laboratory component with visits to local aquatic and terrestrial ecosystems.

BIO 309**4 hours****Wildlife Ecology**

Prerequisites: BIO 308 or permission of instructor. This course is the study of animal populations with a special emphasis on their interactions with people. In BIO 308, students will study the life history, ecology, habitat and niche requirements of wildlife pests, as well as endangered species, game and non-game animals to identify methods to maintain, conserve, and enhance recreationally or ecologically valuable species. This course emphasizes process and procedures that are in the overall best interests of society, regardless of whether they are aesthetic, ecological, economic, or recreational. Students will engage in a field project in concert with a local wildlife resource agency.

BIO 311**4 hours****Conservation Science**

Prerequisite: BIO 102. This course is a field based lecture-discussion course that focuses on the scientific study of biological diversity, its rapid loss in recent decades, and approaches for conservation. The course will emphasize conservation issues in a variety of habitats, as well as theoretical considerations relevant to a broad understanding of biodiversity conservation. Concepts will be illustrated with examples from local

and regional ecosystems where applicable. Field trips to natural, disturbed and threatened areas will show the role of humans in the degradation, conservation and restoration of ecosystem biodiversity.

BIO 315**4 hours****Zoology**

Prerequisites: BIO 102. This course examines the unifying principles of zoology from an evolutionary and ecological perspective focused on the animal kingdom taxonomy and phylogeny. This course includes a laboratory component.

BIO 323**4 hours****Botany**

Prerequisite: BIO 102. This class introduces the unifying principles of Botany from an evolutionary and ecological perspective. The course examines structure and function of plant cells, tissues, and organs, and processes such as water movement, growth, response to hormones and inhibitors, photosynthesis, and respiration. The course includes a survey of the plant kingdom, emphasizing structure and function of major systems, reproductive strategies, evolutionary relationships, ecology, economic value, and conservation needs. This course includes a laboratory component.

BIO 325**4 hours****Advanced Botany**

Prerequisite: BIO 323. A botany course that focuses on the development, growth and reproduction of the flowering plants. The taxonomy of flowering plants is also included. This course includes a lab component and may include field trips.

BIO 340**1 hour****Pre-PA Seminar III**

Prerequisite: BIO 240. This course will examine the types of medical employment opportunities of PA's, limitations to practice, and a comparative analysis of the medical responsibilities that a PA will be required to conform to under professional standards. This course will require 50 semester hours of shadowing experience in a healthcare setting with trained PA's, MD's, and Nurse Practitioners.

BIO 351**4 hours****Environmental Science**

Prerequisite: BIO 102 or permission of the instructor. This course examines the history, scientific basis, and legislative response to important scientific issues of the 20th and 21st century. Topics to be addressed include: biological diversity, sustainability of natural

resources, climatic variability, endangered and non-indigenous species, and air and water pollution. The intent will be to investigate the background, concern, controversy, and government responses associated with each problem. A project on an environmental issue or local natural resource problem will be a significant component of this course. This course includes a laboratory component.

BIO 385/MLS 385 **3 hours**
Parasitology, Mycology, and Virology

The disease mechanisms of blood, tissue and intestinal parasites will be studied with emphasis on general mechanisms of parasitic infections. The increasing importance of fungal infections will also be discussed, as well as infections contracted through viruses.

BIO 401 **4 hours**
Evolution

Prerequisite: Senior-standing Biology Major. A study of the historical development of the concept of natural selection and modern concepts of evolution. This course includes a laboratory component.

BIO 403 **4 hours**
Field Biology

Prerequisites: BIO 101 or permission of instructor. Field biologists apply principles of biology, ecology, physical sciences, and mathematics to study the diversity and interactions of plants, animals in their natural environment. Studies are conducted at the level of the organism, community, ecosystem, or landscape. This course emphasizes collection methods, safe handling, and identification procedures for major taxonomic groups that are likely to be assessed by natural resource biologists working for a state or federal agency or conservation group.

BIO 409 **3 hours**
Pathophysiology

Prerequisite: BIO 262. This course examines diseases and disorders through a systemic approach, including pertinent anatomy, physiology, etiology, and predisposing factors.

BIO 410 **4 hours**
Cell and Molecular Biology

Prerequisite: BIO 101; Recommend BIO 412 Genetics. This course examines the organization and function of cellular structures in animal, plant, and microbial systems. Emphasis is on the molecular basis of cellular energetics, transport, cell cycle, and mechanisms of the regulation of nucleic acid and protein synthesis. This course includes a laboratory component.

BIO 412 **4 hours**
Genetics

Prerequisites: BIO 101. Molecular and Mendelian genetics as it applies to prokaryotic and eukaryotic organisms. Major topics cover such topics as molecular, cellular, developmental, Mendelian genetics. A quantitative approach is emphasized, both in the presentation of concepts and genetic analysis. A lab component is required.

BIO 440 **2 hour**
Pre-PA Seminar IV

Prerequisite: BIO 340. This course will examine the attributes and challenges of the individual learner in the healthcare arena. Topics will include ethics, morals, strength, value, plan of actions, and challenges within our own individual perspectives of self. This course will require 50 semester hours of shadowing experience in a healthcare setting with trained PA's, MD's, and Nurse Practitioners.

BIO 465 **3 hours**
Senior Seminar

Prerequisites: Senior standing and completion of 80% of the requirements for a Biology degree, including MTH 250, or Professors permission. In this course, students will plan and perform an original research project. The data will be organized and analyzed using statistical methods, and presented through a Senior Thesis and a public presentation of their data.

This is a Capstone Biology course in which Biology majors will utilize their knowledge and skills developed through the Biology curriculum. This course should be taken during the final semester in which the degree requirements are met, with the exception of students planning to graduate in the fall semester. To fulfill this requirement when the final semester is in the fall, one should take this course in the Spring prior to the final Fall semester or take BIO 480 during the final Fall semester. Additionally, the Biology Major Fields test will be administered during this course

BIO 480 **1-4 hours**
Advanced Readings in Biology

Prerequisite: Biology Major. The purpose of this course is to broaden the student's knowledge base by reading current or seminal works. Readings will provide a core of knowledge in a focused field that has relevance to the area of study anticipated by the student.

BIO 495 / 496 **1-4 hours**
Internship I / II
 Prerequisite: Biology Major, Junior or Senior Year. This course provides students with hands-on working experience at a local laboratory, museum, nature center, or resource management agency. Students will complete a minimum 30 hours per credit hour throughout the semester in the internship environment. Up to four hours of credit are given for each semester.

BIO 498 **4 hours**
Advanced Biological Research
 Prerequisite: Biology Major. This course is designed to enable a student to pursue a field or laboratory project of their own choosing. In conjunction with their professor, the student will design a project, prepare a schedule and objectives, and establish the laboratory or field protocol. Major findings will be summarized and presented for an advanced biology class. This class will run using an independent study format.

BUS—Business

BUS 200 **3 hours**
Principles of Financial Accounting
 This course introduces the fundamental principles of financial accounting in the United States. Topics include analysis of the accounting cycle, financial statement components, and financial statement structure; application of United States Generally Accepted Accounting Principles; and an introduction to internal control. Special emphasis is placed on the importance of the accounting equation and the articulation of the income statement and balance sheet.

BUS 201 **3 hours**
Principles of Managerial Accounting
 This course focuses on the study of accounting as a tool in the decision-making process. Concepts and techniques include analyzing financial reports, planning, and controlling operations in merchandising and manufacturing businesses. Major topics include capital budgeting and product costing.

BUS 210 **3 hours**
Principles of Macroeconomics
 An overview of macroeconomic theory including the introduction to American capitalism, national income, employment, fiscal policy, monetary policy, and economic stability.

BUS 211 **3 hours**
Principles of Microeconomics
 An introduction to microeconomic theory including economic growth, the economics of the firm, resource allocation and economic problems.

BUS 290 **3 hours**
Legal Environment of Business
 This course provides an introduction to the legal environment in which business operates. Course includes an introduction to law, contracts, torts, crimes and ethics in the business context.

BUS 300 **3 hours**
Intermediate Accounting I
 Prerequisite: BUS 200 and BUS 201. A detailed study of financial accounting procedures and practices with emphasis on financial statements, current assets, current liabilities, short term investments, intangible assets, and property, plant, and equipment.

BUS 301 **3 hours**
Intermediate Accounting II
 Prerequisite: BUS 300. A continuation of Intermediate Accounting I. Topics include: accounting for long-term debt, equity transactions, leases, pensions, and income taxes.

BUS 302 **3 hours**
Cost Management I
 Prerequisites: BUS 200, BUS 201, and MTH 250. Part 1 of a two-course series. The course focuses on topics related to the identification, classification, and evaluation of cost information. Several alternative cost measurement and budgeting systems are considered. Particular emphasis is given to developing a fundamental understanding of cost terms and purposes, and cost behavior.

BUS 303 **3 hours**
Cost Management II
 Prerequisite: BUS 302 and MTH 250. Part 2 of a two-course series. This course builds on BUS 302 by introducing more sophisticated cost measurement and budgeting techniques. Special emphasis is given to the use of cost accounting information for management control.

BUS 304 **3 hours**
Accounting for Not-for-Profit Organizations
 Prerequisite: BUS 300. Fund accounting theory and practice for government units, schools and colleges.

BUS 305 **3 hours**
Income Tax Accounting - Individuals
 A study of the evolution and present status of US federal individual income tax laws and their impact on tax accounting. Topics include tax research, practice and procedure; the federal tax legislative process; and an overview of federal individual income tax laws.

BUS 309 **3 hours**
Financial Statement Analysis
 Prerequisite: BUS 200. A study of the various methods of financial statement analysis. It will focus on the tools used to evaluate and value publicly traded companies.

BUS 310 **3 hours**
Money and Banking
 Prerequisite: BUS 200 and BUS 320. A study of the basic principles and concepts of money and credit and their importance in the economy. Major topics emphasize the key role of the commercial banking system, central banking as a means of expanding and stabilizing the money supply and credit, monetary theory, monetary and fiscal policies, international banking and finance, and a review of other banking and credit institutions.

BUS 311 **3 hours**
Issues in Economics
 Prerequisite: BUS 210 or BUS 211. A study of selected areas and issues affecting the business community. The course will offer an accelerated review of economic principles before entering into discussion on such issues as labor economics, labor relations, health care, social issues, individual policy, etc.

BUS 320 **3 hours**
Principles of Finance
 Prerequisite: BUS 200. An introduction to the principles of financial management, including capital budgeting, the acquisition of funds, the cost of capital, and dividend policy.

BUS 330 **3 hours**
International Business
 This course is designed to educate the student about the international environment of business. The course highlights the importance of international business by providing an overview about country factors, global

trade and investment, global monetary systems and entry strategies and strategic alliances.

BUS 332 **3 hours**
International & Cross-Cultural Comparisons
 This class is designed to help students to understand the cultural effects of interpersonal communication through exchanges, gesture, dress, art/advertising, visual stimulation, and business relations in the diverse world from both theoretical and applied perspectives.

BUS 340 **3 hours**
Organizational Behavior
 A course designed to familiarize students with the functions of the management process. Major emphasis is devoted to the functions of planning, organizing, directing, and controlling. Includes a study of the behavioral aspects of the organization and the application of management principles to human resources.

BUS 341 **3 hours**
Operations Management
 Prerequisite: MTH 250. A study of the basic concepts, designs, techniques, and applications for managing physical resources.

BUS 342 **3 hours**
Human Resources Management
 Prerequisite: BUS 340. A study of the recruitment, selection, training, development, utilization, and maintenance of human resources in organizations. Topics also include labor-management relations and the legal environment.

BUS 344 **3 hours**
International Management
 This course focuses on the formation of the global economy, the differences that exist among world buyers and sellers, management on a global scale and the difficulties of entrepreneurial activity on an international basis.

BUS 350 **3 hours**
Management Information Systems
 Prerequisite: CSC 120. A presentation of the basic concepts for design, implementation, and application of management information systems.

BUS 352 **3 hours****Web Design**

This class is designed to give students the tools necessary to develop quality websites through the integration of specialized web-design software, current multimedia technology and web-design principles to create graphical user interfaces for e-commerce sites.

BUS 360 **3 hours****Principles of Marketing**

An introduction to basic practices and problems of marketing including consumers' buying behavior, products and markets, distribution techniques, and marketing programs.

BUS 361 **3 hours****E-Commerce Marketing**

Prerequisite: BUS 360. This course involves the analysis and design of electronic media advertising, marketing and selling. Topics include direct marketing, relationship marketing, e-marketing, social marketing, and small business applications.

BUS 362 **3 hours****Retailing Management**

Prerequisite: BUS 360. A study of the organization, planning, policies, procedures, problems, and controlling of various types of retailing institutions. The major topics emphasized include the selection of retailing locations, organization of retailing establishments, merchandising policies and procedures, retailing services, and the selection, training, compensation, and supervision of retailing personnel.

BUS 363 **3 hours****Sales Management**

Prerequisite: BUS 340 and BUS 360. Basic principles in recruiting, training, managing, motivating, evaluating and compensating salespeople and sales forces.

BUS 364 **3 hours****Consumer Behavior**

Prerequisite: BUS 360. This course will examine the Wheel of Consumer Behavior which includes: consumer behavior, consumer environment and consumer affect and cognition. The student will further examine how the actions of consumers influence business and marketing strategies.

BUS 390 **3 hours****Professional Communication**

Prerequisite: Grade of "C" or better in ENG 102 and CSC 120. Professional Communication is a survey course of communication skills needed in a professional environment. This course will introduce the student to writing memoranda, letters, reports, resumes and electronic messages. Interpersonal, critical thinking and problem solving skills are developed to enhance the student's ability to communicate in the business world as an articulate, conscientious professional.

BUS 391 **3 hours****Business and Social Responsibility**

The new millennium reflects the importance of a business manager adhering to ethical and moral obligations. The purpose of this course is to acquaint the student with a business's social and ethical responsibility to the internal and external stakeholders. This course will address organizational decision making processes and their relationship to the ethical and social implications of the political, legal, regulatory, technological, and global environments.

BUS 400 **3 hours****Accounting Information Systems**

Prerequisites: BUS 200 and BUS 201. An introduction to the design, implementation, and monitoring of accounting information systems. Special emphasis is put on the role of the AIS in providing good internal control that can minimize accounting misstatements due to error and fraud.

BUS 401 **3 hours****Auditing**

Prerequisite: BUS 301. Co-requisite BUS 400. A study of United States audit and attestation practices and procedures. Special emphasis is put on the financial statement audit. Topics include the study of United States auditing standards, professional ethics, legal liability, internal control, and evidence gathering.

BUS 402 **3 hours****Internal Auditing**

Prerequisites: BUS 301, BUS 303, and BUS 400. This course examines issues relating to the concepts and theory of internal auditing. Major topics of discussion will include the internal audit environment; the auditing profession; the duties, responsibilities, and procedures of internal auditors; and the relationship between the internal auditing function and the external auditing function.

BUS 405 **3 hours**
Income Tax Accounting - Partnerships & Corporations
 Prerequisite: BUS 305. This course examines issues relating to the taxation of partnerships, corporations, and other entities. Issues relating to both federal and state taxation are addressed.

BUS 406 **3 hours**
Advanced Accounting Law
 Prerequisites: BUS 290 and BUS 300. A study of specialized areas in partnerships and corporations.

BUS 407 **3 hours**
Advanced Accounting
 Prerequisite: BUS 301. An advanced study in financial accounting and reporting theory. Topics include the equity method of accounting for investments, consolidation of financial information, accounting for variable interest entities, foreign currency transactions and hedging foreign exchange risk, and international accounting standards.

BUS 408 **3 hours**
Advanced Business Law
 Prerequisite: BUS 290. This course is the second in a two-part series and covers advanced areas of law within the business context as well as a primer on the Uniform Commercial Code. Topics covered include sales, real and personal property, negotiable instruments, secured transactions, bankruptcy, and professional liability.

BUS 417 **1 hour**
Senior Business Seminar
 Prerequisite: permission of division chair. A synthesis course which overviews student development in management, marketing, accounting, finance, and economic, legal and ethical environments. As a co-requisite for the capstone BUS 495 Strategy class, students apply these principles to case studies.

BUS 440 **3 hours**
Labor Relations
 Prerequisite: BUS 340. A general survey of collective bargaining environment with major emphasis on the major provisions of labor law, bargaining issues of craft and industrial unions, and a review of labor relations in public organizations.

BUS 441 **3 hours**
Small Business Management
 Prerequisites: BUS 340, BUS 360, and BUS 320. This course involves the analysis of simulated and actual business opportunities. The relationship of the

entrepreneur to the formation and growth of the enterprise is studied in its economic and social environment.

BUS 442 **3 hours**
Entrepreneurship
 Prerequisites: BUS 320, BUS 340, and BUS 360. This course explores the nature of entrepreneurship, including the financing, examining risks associated with new ventures, new entry strategies, managing growth strategies, global expansion, and termination of the business venture.

BUS 443 **3 hours**
Leadership
 Prerequisite: BUS 340. This course is designed to provide a framework for studying and understanding the concept of leadership within organizational environments. Special emphasis will be placed on identifying cultural values and other situational variables that potentially affect leadership. Through the use of case studies different leadership styles will be analyzed and applied.

BUS 445 **3 hours**
Training and Development
 Prerequisite: BUS 340. This course presents an overview of training, its roles and goals, using an open systems perspective. The content focuses on how training fits into the structure of large and small companies. Most of the course will entail the presentation of an overarching training process model that can be applied in any organization

BUS 460 **3 hours**
Marketing Research
 Prerequisite: BUS 360 and MTH 250. Develops the scientific process of problem solving in a marketing context. Covers the concepts of problem definition, hypothesis testing, questionnaire development, research design, and interpretation of statistical findings.

BUS 461 **3 hours**
International Marketing
 Global business has had an impact on international marketing practices. This course uses an approach of examining cultural differences, assessing global market opportunities, and developing and implementing global marketing strategies.

BUS 490 **3 hours**
Special Topics in Business
 Special topics courses offer the student opportunities to explore current issues and selected topics of interest in the discipline.

BUS 493 **3 hours**
Independent Study in Business
 Approval by the instructor and division chair is required. Research is conducted on specific business issues.

BUS 494 **3 hours**
Internship
 A course designed to provide practical experience in a local business. Students will be expected to perform specific responsibilities in the business and prepare a detailed report about the experience.

BUS 495 **3 hours**
Strategy
 Prerequisites: BUS 320, BUS 330, BUS 340, BUS 341, BUS 350, and BUS 360. Course **must** be taken at Thomas University. A multi-level, integrative approach to the study of business strategy. The course provides conceptual frameworks to consider various issues related to the strategic process and uses cases for experience in adaptation and integration.

BUS 496 **3 hours**
Business Research Methods
 Prerequisite: MTH 250. The course introduces students to basic research methods in the field of business. Students will create research questions, create a research-based literature review, and plan a methodology appropriate to carry out the study. The purpose of this course is to produce more informed future business leaders and to improve their understanding of research methods in business.

CHM—Chemistry

CHM 101 **4 hours**
General Chemistry I
 Prerequisite: MTH 140 and satisfactory academic standing in college level courses. This is part one of a two-semester course in general chemistry designed primarily for science majors. This course is an introduction to the principles and practice of modern chemistry, with in-depth treatments of the fundamental concepts of atomic theory, periodic properties of the elements, chemical bonding, molecules and compounds, states of matter and intermolecular forces, thermodynamics, solution chemistry, and chemical equilibrium, including

equilibria of aqueous solubility and acid base reactions. The laboratory integrates qualitative and quantitative skills, chemical instrumentation and laboratory projects, with emphasis on collection and analysis of data and their limitations.

CHM 102 **4 hours**
General Chemistry II
 Prerequisite: CHM 101. This is part two of a two-semester course in general chemistry designed primarily for science majors. This course builds on concepts from General Chemistry I and covers topics such as thermochemistry, the behavior of gases, intermolecular forces in solids and liquids, kinetics, chemical equilibria, thermodynamics, and electrochemistry. The laboratory integrates qualitative and quantitative skills, chemical instrumentation and laboratory projects, with emphasis on collection and analysis of data and their limitations.

CHM 103 **4 hours**
Environmental Systems
 The course explores the key interactions between Earth's environmental systems and the interrelationship with human impacts in the context of the atmosphere (air), hydrosphere (water) and lithosphere (earth) geochemical cycles. Major global environmental issues will be discussed such as acid rain, sewage treatment, ozone destruction, anthropogenic climate change, air pollution, eutrophication and water contamination. Laboratories will involve sampling, quantitative detection and data analysis to reinforce the interrelationships among environmental systems, resources, and humans.

CHM 107 **4 hours**
Survey of Organic Chemistry
 Prerequisite: CHM 101. The course is an introduction to organic chemistry covering a wide range of topics on the chemistry of functional group classes such as alkanes, alkene, alkynes, alkyl halides, alcohol, aldehydes, ketones, carboxylic acids, heteroatom compounds, amines, aromatics, heterocyclics, organometallics, amino acids, proteins, lipids, and nucleotides. Emphasis will be placed on organic nomenclature, structure, bonding, stereochemistry, conformational analysis, organic reactions and structure. This course includes a laboratory component.

CHM 250**4 hours****Organic Chemistry I**

Prerequisites: Grade of "C" or better in CHM102. This is part one of a two-semester course in modern organic chemistry designed primarily for biology majors. The course is intended to provide the student with a general background in organic chemistry covering a wide range of topics on the chemistry of functional group classes, including alkanes, alkenes, alkynes, alkyl halides, alcohol, aldehydes, ketones, carboxylic acids and heteratom compounds.

Emphasis will be placed on organic nomenclature, structure, bonding, stereochemistry, conformational analysis, organic reactions and structure determination by organic spectroscopic methods. This course will also focus on an understanding of organic reactivity through a detailed description of reaction mechanisms. This course includes a laboratory component.

CHM 251**4 hours****Organic Chemistry II**

Prerequisites: Grade of "C" or better in CHM250. This is part two of a two-semester course in modern organic chemistry designed primarily for science majors. This course will emphasize additional organic groups not covered including amines, aromatics, heterocyclics, organometallics, amino acids, proteins, lipids, and nucleotides. This course will address additional aspects of nomenclature, structure, bonding, stereochemistry, organic reactions and identification/structure determination by organic spectroscopic methods. This course will also focus on understanding the reactivity of organic and biological molecules through a detailed description of reaction mechanism and intermolecular bonding forces. This course includes a laboratory component.

CHM 301/BIO 301**4 hours****Biochemistry**

Prerequisite: Grade of "C" or better in CHM 251 or CHM 107. The course provides the student with a background in amino acids, proteins, enzyme catalysis, metabolism and molecular genetics. This course will emphasize nomenclature, structure and function of the principle molecular components of cellular biochemistry. Emphasis will be placed on the relevance of biochemistry to disciplines in chemistry, biology, medicine, pharmaceuticals and nutrition. The laboratory will coordinate with class lecture to illustrate concepts and their application to everyday experiences.

CRJ—Criminal Justice**CRJ 105****3 hours****Introduction to Criminal Justice**

This course examines the U.S. criminal justice system from a sociological perspective. Sociological theories of social control and the origin of law are used to frame important issues of criminal justice and social policy. The most current studies are reviewed on the effectiveness of rehabilitation, decriminalization, deterrence, incapacitation, and various police initiatives.

CRJ 150**3 hours****Criminology**

This course will cover the study of criminal behaviors that violate social norms. Students will examine the scientific study of the making of laws, the breaking of laws and society's reaction. Major emphasis will be placed on the evolution of criminological theories. Students will examine the survey of the patterns and trends in adult criminal behavior and juvenile delinquency analyzed in terms of various theories of such behavior. Students will also examine types of crime and the administration of justice.

CRJ 210**3 hours****Policing in America**

Designed to be a comprehensive introduction to the foundations of policing in the United States, this course primarily examines the role of law enforcement in the American society. The history of policing, organizational structure, and police deviance are some of the many topics covered.

CRJ 230**3 hours****Corrections in America**

This course is a study of the role of corrections in the criminal justice system by examining the philosophies, practices, procedures, and problems in corrections throughout our nation's history.

CRJ 250**3 hours****Juvenile Justice**

Structured to examine classical and contemporary criminological theories, this course allows students to explore the origins of juvenile delinquency and to apply criminological knowledge to juvenile delinquency, as it exists today. Particular emphasis is placed on exploring those factors which might contribute to delinquent behavior, possible remedies, and gang violence.

CRJ 255 **3 hours****Criminal Procedure**

This course examines the court system and sources of rights, the criminal justice process, probable cause and responsible suspicion, search and seizure, the Exclusionary Rule, stop and frisk, motor vehicle stops, searches and inventories, self-incrimination, confessions and admissions, plea bargaining, rights of the accused before, during and after trial and punishment. Emphasis will be placed on court decisions involving the 4th, 5th, 6th, 8th and 14th amendments to the U.S. Constitution and the cases that have shaped history.

Note: It is recommended that only those students who have completed their lower division course work take the following upper division courses.

CRJ 300 **3 hours****Criminal Justice Research and Analysis**

This course provides is an in-depth study on conducting and applying statistical techniques to criminal justice research, including electronic searching, quasi-experimental methods as well as multiple baseline designs.

CRJ 310 **3 hours****History of Criminal Justice**

This course examines the history of criminal justice systems in Western Europe and the United States. These studies form the backdrop for the American legal system that is currently operating.

CRJ 320 **3 hours****Terrorism**

This course is an in-depth study of terrorism including its origins, types and styles and history. Efforts around the world to detect, discover and deter terrorist actions will be focused upon. Contemporary terrorism and its influences upon lifestyles, law enforcement, legal systems and public policy will receive special attention.

CRJ 330 **3 hours****Deviance, Crime and Criminal Justice**

Relationships among individual and group motivation and psychology that result in psychological and/or psychosocial deviance and their special relationships with crime, criminology and criminal justice are examined. Related issues in control, management and investigation of deviance and its criminal manifestations are also considered. Gang behavior, ritualistic crimes, deviant sexual crime and serial crimes receive specific treatment.

CRJ 340 **3 hours****Criminal Justice Standards and Practices**

Standards and Practices is a philosophic study of police ethics and is presented in order to address the principles of professional and ethical conduct in the law enforcement community. The course will provide the student with insights into The Law Enforcement Code of Ethics.

CRJ 350 **3 hours****Victimology**

Victimology is the scientific study of victimization, which is the physical, emotional, and financial harm people suffer because of illegal activities. This includes the relationships between victims and offenders; the interaction between victims and the criminal justice system; and the connections between victims and other societal groups and institutions such as the media, businesses, and social movements.

CRJ 360 **3 hours****Forensic Science**

Prerequisites: ENG 101 and ENG 102. This course will study the relevant scientific and technological principles and techniques that are used to solve crimes. The student will learn modern forensic methodologies and will invoke the application of scientific method to solve legal problems. The course is designed to provide an overview of the basic science concepts and techniques used in a forensic laboratory. The nature and significance of physical evidence and the underlying chemical and biological principles of the scientific techniques employed for analysis and interpretation will be emphasized.

CRJ 370 **3 hours****Constitutional Law**

This course examines the basic principles of the U. S. Constitution as the authoritative document for allocating governmental power, establishing individual rights and acting as a basis of law. Particular emphasis is placed on current rulings apply-ing the First, Second, Fourth, Fifth, Sixth, Eighth, and Fourteenth Amendments. Students will study the correlation of how laws are formulated and enforced to the basic fundamental privileges that the Constitution affords as the supreme law of the land.

CRJ 380 **3 hours****White Collar and Organized Crime**

Examines the nature, dynamics, and types of white collar crime along with the history, structure and

evolution of organized crime in the United States. May be taken by non-majors.

CRJ 390 **3 – 6 hours**

Criminal Justice Specialization

Prerequisite: ENG 101 and ENG 102. Experiential Learning course credit is an option for non-traditional college students who bring significant work experience, in both terms of years and responsibility. Students may obtain up to 6 major elective course credits for specialized skills or careers within the field of criminal justice by providing documentation of training experience and proficiency within a specific specialization or field of criminal justice.

CRJ 410 **3 hours**

Community Policing

This course examines community policing, an innovative and non-traditional policing philosophy that emphasizes community cooperation and proactive law enforcement. May be taken by non-majors.

CRJ 420 **3 hours**

Evidence

This course is a survey of the Federal Rules of Evidence and applies of the more complicated rules of evidence in courts of law. The evidence code of the State of Georgia will be stressed. The principles underlying the basic rules as well as burden of proof, probative value, presumptions, stipulations, competency, privilege, cross-examination, hearsay, and expert opinion testimony will be examined.

CRJ 430 **3 hours**

Management in Law Enforcement

This course provides students the necessary tools to develop the behavioral and social skills necessary to deal effectively with a rapidly changing law enforcement community. Through thought provoking reading, class interaction, completion of case studies, and detailed testing, this course will introduce the student to many management processes and the fundamental organizational behaviors. Additionally, this course will introduce the student to the importance of human behavior and its relationship to the overall organizational process.

CRJ 441 **3 hours**

Computer Forensics

This course is the study of computer forensic investigation procedures and response. Students will be introduced to computer crimes through an examination of the crimes and those individuals

committing the crimes. Students will examine the laws, investigative techniques, and criminological theories applicable to computer crime. Students will gain understanding of digital crime and digital terrorism, the types, nature, and extent of digital crime, legislation and enforcement of digital crime, and future trends of digital crime.

CRJ 460 **3 hours**

Criminal Investigation

This course examines the procedures, techniques and applications of public and private investigations. The course features enhanced coverage of such important topics as physical evidence, report writing, crimes against children, photography, sketching and court procedures.

CRJ 465 **3 hours**

Crime Prevention

This course examines methods of crime control and research concerning its effectiveness. The course also covers policing, prosecution and the courts, legislative methods, as well as the crime control at the individual, family, school community levels and best ways to prevent crime in the future.

CRJ 470 **3 hours**

Criminal Law

This course examines substantive criminal law. Particular emphasis is placed on recognizing and understanding the legal elements that constitute a crime, affirmative defenses, and constitutional limitations on criminal statutes. May be taken by non-majors.

CRJ 480 **3 hours**

Comparative Criminal Justice Systems

This course offers a cross-cultural perspective to the comparative study of different criminal justice systems operating worldwide. It analyses the societal responses to various conceptions of justice and, describes and contrasts the major aspects of the organization of criminal justice.

CRJ 485 **3 hours**

Criminal Justice Internship

This course places suitable students in various criminal justice agencies in order to prepare them for future employment in the criminal justice field. All internships must be pre-approved and it should be noted that some require lengthy processing which must be initiated months in advance. Only those who have successfully completed a minimum of 18 hours of upper division criminal justice course work may intern.

CRJ 490 **3 hours**

Special Topics

Special topics courses offer the student opportunities to explore selected topics of interest in the discipline.

CSC—Computer Science

CSC 120 **3 hours**

Microcomputer Applications

Pre/Co-requisite: ENG 100 or placement in higher level ENG. This course provides students with a diverse base of knowledge and experience in personal computer concepts and applications. Through hands-on experience, students will develop proficiency in Microsoft Word, Excel, and PowerPoint, Windows, and Internet, including search tools and techniques. Students also will develop an understanding of information literacy as it applies to use of the Internet.

ECE—Early Childhood Education

ECE 326 **3 hours**

Developmentally Appropriate Practices for Pre-K and Kindergarten

The purpose of this course is to examine the characteristics of the preschool and kindergarten learner as well as the developmentally appropriate teaching strategies and resources for preschool and kindergarten instruction. This course requires a field placement in a preschool and kindergarten setting.

ECE 327 **3 hours**

Methods and Strategies for Teaching Early Adolescent Learners

Prerequisite: EDU 316 and EDU 350. Co-requisite: EDU 340 and ECE 460. This course focuses on research-based effective teaching methods and strategies for teaching early adolescence learners, with attention provided to the characteristics of diverse and exceptional learners in the classroom and assessment of student learning. This course requires a field placement in a 4th-8th grade setting, depending on major.

ECE 428 **3 hours**

Developing Pedagogical Content Knowledge for Teaching Early Childhood Learners

Prerequisite: EDU 327, EDU 340, and EDU 460. Co-requisite: ECE 470, ECE 480, and EDU 468. The focus of this course is to examine research-based pedagogical content knowledge that engages early childhood education students in active learning that results in student's acquisition of essential knowledge and skills. This course requires a field placement in an

elementary school setting, beginning with the first day of the assigned school district calendar, for three days a week until the end of the semester.

ECE 429 **10 hours**

Student Teaching

Prerequisites: All program courses in Professional Core I, II, and III. Co-requisite: ECE 430. The purpose of this course is to provide full immersion in the school community in order to further develop and demonstrate competence in the professional role as an elementary teacher. This course requires full-time participation in a school for 15 weeks.

ECE 430 **2 hours**

Student Teaching Seminar

Prerequisite: All program courses in Professional Core I, II, and III. Co-requisite: ECE 429. The purpose of this seminar is to examine the knowledge, skills, and dispositions essential to the positive career path of the elementary teacher, from teacher candidate to early career professional.

ECE 440 **3 hours**

Interdisciplinary Teaching through Art, Music, and Physical Education/Health

The purpose of this class is to examine the strategies, resources, and materials for developing interdisciplinary art, music, physical education/health lessons in grades Pre-K through fifth grade.

ECE 460 **3 hours**

Social Studies Curriculum Development

Prerequisite: EDU 316. Co-requisite: ECE 327. The purpose of this course is to examine major social studies concepts and modes of inquiry derived from national and state standards to develop cohesive elementary social studies curricula that meets the changing needs of students and other stakeholders in a diverse community.

ECE 470 **3 hours**

Mathematics Curriculum Development

Prerequisite: EDU 327. Co-requisite: ECE 428. The purpose of this course is to examine major mathematics concepts and modes of inquiry derived from national and state standards to develop cohesive elementary mathematics curricula that meets the changing needs of students and other stakeholders in a diverse community.

ECE 480 **3 hours**

Science Curriculum Development

Prerequisite: EDU 327. Co-requisite: ECE 428. The purpose of this course is to examine major science concepts and modes of inquiry derived from national and state standards to develop cohesive elementary science curricula that meets the changing needs of students and other stakeholders in a diverse community.

EDU—Education

EDU 200 3 hours

Introduction to the Teaching Profession

This course provides an introduction to teaching as a profession in the American education system. It offers a variety of perspectives on education including historical, philosophical, social, legal, and ethical issues in a diverse society. A practicum component is required which includes 15 hours of classroom observation.

EDU 301 0 hours

Teacher Candidate Orientation

Prerequisite: Admission to the Division of Education. The purpose of this course is to orient the teacher candidate to program expectations and Georgia rules governing certification.

EDU 310 3 hours

Educational Psychology

Students examine psychological principles of learning, cognition, motivation, behavior, and the practical implications of these principles for teaching and learning. The development of skills to interpret behavior and classroom interactions within a framework of psychological theory will be a major feature.

EDU 316 3 hours

Teaching Methods and Strategies

Prerequisite: Admission to the Division of Education or permission of the Chair of the Division. Co-requisite: EDU 350. This course provides an introduction to the basic principles of instruction and learning in the context of research supported methods, strategies, and skills that meet the needs of all learners. A practicum component is required which includes 15 hours of classroom observation.

EDU 320 3 hours

Teaching Diverse Learners

This course will explore the factors that make students diverse and the instructional implications for teaching to diverse populations, including building students' resiliency, fostering a sense of community within the classroom, teaching to students' learning styles, and

minimizing the effects of poverty on student achievement.

EDU 340 3 hours

Assessment Strategies to Improve PK-12 Learning

Prerequisite: EDU 316 and EDU 350. Co-requisite: ECE/MGE/SEC 327. This course examines the development and use of multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making. This course requires a field placement in a school setting in conjunction with ECE/MGE/SEC 327.

EDU 350 3 hour

Instructional Technologies in the PK-12 Classroom

Prerequisite: CSC 120. Co-requisite: EDU 316. The purpose of this course is to develop the knowledge and skills needed to understand the role that various forms of electronic and digital technology can have in the teaching/learning process and how effective teachers engage these processes in the classroom.

EDU 360 3 hours

Models of Teaching

Prerequisite: ECE/MGE/SEC 327 and EDU 340. Co-requisite: ECE/MGE/SEC 428. This course investigates instructional models and their features, with a focus on how instructional models promote learning in K-12 settings. Special emphasis is placed on the use of instructional models to develop pedagogical content knowledge with the goal of providing the strongest positive effect on student achievement tied to discipline specific standards based instruction.

EDU 399 1 hour

Georgia Teacher Certification Exam Preparation

Prerequisite: Students must have an official score on the GACE and/or edTPA exam. The purpose of this course is to provide a comprehensive review of the Georgia Assessments for the Certification of Educators (GACE) program standards for the content area and/or edTPA exam in which the Teacher Candidate is being certified. The course will provide a review of study strategies and test-taking tips. A student's previous exam scores (GACE and/or edTPA) will be used to identify areas of weakness and to develop individual learning plans.

EDU 468 3 hours

Educating Exceptional Learners

Prerequisite: ECE/MGE/SEC 327 and EDU 340. Co-requisite: ECE/MGE/SEC 428. The purpose of this course is to provide an overview of the educational

needs of exceptional students, including children with learning and/or behavior problems, children with physical disabilities or sensory impairments, and children who are intellectually gifted or have a special talent. This course requires a field placement in collaboration with ECE/MGE/SEC 428.

EDU 601 **0 hours**
Orientation to Advanced Programs in Education

The purpose of this course is to introduce advanced candidates to key assessments and additional program requirements that are required for program completion and/or certification by the Georgia Professional Standards Commission.

EDU 602 **3 hours**
Teachers as Leader and Mentor

This course focuses on leadership and mentoring skills within the context of current best practices and research, to include the design, implementation, and evaluation of student instruction and professional development strategies that maximize the diverse learning strengths and needs of all learners. Teachers develop mentoring expertise including reflective teaching, peer coaching, induction processes, observation and feedback techniques, and evaluation techniques and instruments.

EDU 603 **3 hours**
Best Practices in Teaching and Learning

The purpose of this course is to provide a critical examination of research and theory relevant to the advanced study of teaching and learning. Emphasis is placed on the relationships that exist between student development, instructional practices/culturally responsive pedagogy, educational environments, continuous reflection and assessment, learning communities, and dispositions of the profession.

EDU 610 **3 hours**
Educational Research

The purpose of this course is to help students become more sophisticated consumers and beginning practitioners of educational research. The course will provide students with an inclusive and integrated overview of the field of educational research. The course is designed to be balanced in its presentation of quantitative and qualitative research by examining foundational issues of research.

EDU 611 **3 hours**
Leading the Professional Learning Community

This course will orient participants around the concepts of PLC, where PLC fits in the broader

perspective of school reform, and strategies for implementing PLC. This course is designed to assist those in leadership roles (curriculum specialist, teacher leader) in acquiring the knowledge, skills, and dispositions associated with leadership of a PLC. Some PLC traits to be a part of this course include collaboration (educators learning with and from each other), inquiry, reflection, shared responsibility for student learning, shared examination of instructional practice, and student learning. Candidates will promote professional learning communities and demonstrate the ability to effectively design, deliver, and evaluate professional learning in their schools.

EDU 612 **3 hours**
Teacher as Researcher

This course is designed to enable the K-12 teacher to conceptualize and implement meaningful action research to improve educational outcomes and to help address critical educational issues. The course will orient students to the use of methodologies in formulating hypotheses, and will develop strategies for conducting action research to include collecting, analyzing, and evaluating data.

EDU 613 **3 hours**
Curriculum Design and Development for Student Achievement

This course focuses on advanced knowledge related to the design, implementation, and evaluation of curricula that promotes student learning for all learners, including students with exceptionalities and those who are culturally and linguistically diverse. This course will examine and analyze the following core elements of curriculum design: conceptual purpose, content, coherence, articulation within a subject area across grade levels, and across subjects, alignment with both achievement standards and achievement assessments. Program assessment will be examined with particular attention to how it differs from but is relevant to student performance assessment.

EDU 614 **3 hours**
Program Planning

This course emphasizes the elements essential in designing, implementing, and evaluating effective school and community educational programs, and prepares students with the knowledge and skills required for writing a project or program grant proposal. This course provides students with an overview of program planning, including methods for assessment, planning models and theories, and intervention strategies. Course content will focus on program planning in school and community settings,

giving focus to both cultural and technological aspects of programming.

EDU 615 **3 hours**

Educational Law

This course examines the legal and ethical issues as related to practical problems in school. Topics to be studied include organizational structures of school, federal and state systems, church-state related issues, teacher rights, rights of students with disabilities, instructional issues, tort liability, and equal opportunities in education.

EDU 616 **3 hours**

Educational Reform

This course examines broad concepts of school reform utilizing the perspectives of policy, practice, and instructional leadership. The course also aims to develop in the career educator a broader and deeper understanding of the problems between ideas and practice in dynamic social settings.

EDU 617 **3 hours**

Using Data to Improve Schools

This course provides teacher leaders with the skill and knowledge to analyze state, district, and local data for use in planning systemic improvement of instructional delivery, program effectiveness, and administrative processes. Acquisition, analysis, and interpretation of data are applied in educational settings to facilitate research-based decisions in planning for instructional and organizational improvement.

EDU 618 **3 hours**

Building Collaborative Teams

The purpose of this course is to teach strategies for building and working effectively within collaborative teams in schools and with school partners.

EDU 620 **3 hours**

Applying Technologies for Effective Instruction

The purpose of this Course is to develop the knowledge and skills needed to understand the role various forms of electronic and digital technology can play in the teaching/learning process and how effective teachers engage these processes in the classroom.

EDU 622 **3 hours**

Current Issues and Trends in Education

This course is designed to examine current issues and trends in education that could affect teaching, curriculum, motivation, families, students, teachers,

administration, school reform, school policy, and school law.

EDU 623 **3 hours**

Educational Assessment and Decision Making

This course is designed to further develop the knowledge, attitudes, conceptual and technical skills needed by the PK-12 teacher to use assessment and assessment results in instructional planning, teaching, curriculum development, student learning, and school improvement.

EDU 624 **3 hours**

Collaborative Classrooms through Social Emotional Learning

The purpose of this course is to provide students with the concepts and skills related to social and emotional intelligence learning. The course examines effective ways of connecting and communicating even in the most challenging situations.

EDU 629 **0 hours**

Instruction and Curriculum Capstone Portfolio

The purpose of this 0 credit course is to serve as the mechanism for the submission of the Instruction and Curriculum Capstone Portfolio.

EDU 630 **1-3 hours**

Teacher Leadership Internship

This course may be repeated for credit. The Teacher Leadership Internship provides opportunities for candidates to apply the PSC Teacher Leadership knowledge, skills, and dispositions during a year-long job-embedded internship. Candidates will work closely with their Candidate Support Team, specifically their coach and mentor, to determine the scope of work for the internship. Professional learning proficiencies outlined in the Teacher Leadership Standards will guide the Candidate Support Team's development of an Individual Growth Plan.

EDU 688 **3 hours**

Human Growth and Development

This course provides and understanding of the nature and needs of individuals at all developmental levels, including learning styles and personality development, normal and abnormal behavior, and lifespan transitions.

ENG—English

ENG 099 **3 hours**

Writing Skills I

* A thorough review of essential grammar skills, use of standard written English, sentence and paragraph

development, and the basic expository essay. Average of 70% or better passing exit score required for exit into ENG 100. Institutional credit.

ENG 100 **3 hours**
Writing Skills II

*Prerequisite: "C" or better in ENG 099 or appropriate placement score. Further development of essential writing skills with focus on the use of standard written English, and detailed essay construction. Grade average of 70% or better passing exit score is required for exit into ENG 101. Institutional credit.

*Placement based on entrance exam score

ENG 101 **3 hours**
Composition I

Prerequisite: Grade of "C" or better in ENG 100 or appropriate placement test score. An introduction to writing that concentrates on developing expository techniques through summaries and essays incorporating analysis, synthesis, argument, and critical thinking skills. The course also teaches research skills, and a major documented paper is required. Mastery of standard English usage and principles of composition is determined through departmental examination and evaluation. Grade of "C" or better is required for credit.

ENG 102 **3 hours**
Composition II

Prerequisite: Grade of "C" or better in ENG 101. A continuation and expansion of the skills and principles introduced in ENG 101 through the study and analysis of literature. A major documented paper is required. Mastery of the principles of composition is determined through departmental examination and evaluation. Grade of "C" or better is required for credit.

ENG 301 **3 hours**
Professional Communication

Prerequisite: Grade of "C" or better in ENG 102 and CSC 120. Professional Communication is a survey course of communication skills needed in a professional environment. This course will introduce the student to writing memoranda, letters, reports, resumes and electronic messages. Interpersonal, critical thinking and problem solving skills are developed to enhance the student's ability to communicate in the business world as an articulate, conscientious professional.

ENG 302 **3 hours**
Creative Nonfiction Writing

Prerequisite: Grade of "C" or better in ENG 101 and ENG 102. This is a survey course designed for undergraduate students writing nonfiction prose. Students will read works of nonfiction across a broad spectrum of content and form. The course is designed to improve nonfiction writing through discussions of written work in a group workshop setting as well as discussions of published essays from the textbooks. The course will also emphasize defining and understanding the genre of nonfiction from various cultural and historical perspectives. Students will learn how to read these pieces of nonfiction both as a scholar and as writer. From a craft perspective, students will study figurative language, voice, character development, setting, and dramatic structure and practice close-reading techniques.

ENG 303 **3 hours**
Argumentative and Persuasive Writing

Prerequisite: Grade of "C" or better in ENG 101 and ENG 102. This course provides models and strategies of argumentative and persuasive writing that develop skills in critical thinking. Students are expected to analyze and critique arguments in order to develop their ability to use argumentative patterns to write persuasively.

ENG 304 **3 hours**
Introduction to Creative Writing

Prerequisite: Grade of "C" or better in ENG 101 and ENG 102. Students will write poetry, short fiction and a short screenplay. The course is designed to help undergraduates improve their reading and writing skills beyond the freshman level. This is achieved through studying contemporary pieces of creative writing, producing original pieces of creative work and engaging in peer critiques that work.

ENG 311 **3 hours**
American Literature Survey I

Prerequisite: Grade of "C" or better in ENG 101 and ENG 102. A survey of the major American writers and genres of the 17th, 18th, and 19th centuries.

ENG 313 **3 hours**
American Literature Survey II

Prerequisite: Grade of "C" or better in ENG 101 and ENG 102. This course exposes students to multiple readings of canonical and non-canonical texts as examples of literary periods in American literature. Students are expected to employ literary analysis, an understanding of historical and social context, and some literary criticism to discuss questions of

American identities and the definition of “American literature.”

ENG 330 **3 hours**
Word Origins

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. A study of the origins of key words and phrases from our classical heritage, focusing on their use in contemporary social and professional contexts. Research paper required.

ENG 339 **3 hours**
Film and Literature

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. A study of the relationship between original, classic works of fiction and the film adaptations of these works. The course examines aspects of the film-making process and requires several critical papers.

ENG 341 **3 hours**
Adolescent Literature

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. This course will introduce students to quality adolescent fiction, enhance skills in literary analysis, and address pedagogical issues relating to choosing and teaching these works.

ENG 355 **3 hours**
Literature of the South

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. A survey of 20th and 21st century writers of the United States South and Southern literature with emphasis on such writers as Faulkner, O’Connor, and Welty.

ENG 361 **3 hours**
Advanced Grammar and Syntax

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. This course provides an in-depth study of all aspects of traditional English grammar with the ultimate aim of developing a deeper understanding of English sentence structure. The course also offers a detailed examination of generative transformational grammar and phrase structure grammar, two of the most important modern approaches to grammatical analysis. The course provides a brief introduction to other grammar systems as well.

ENG 401 **3 hours**
Comparative Mythology

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. A study of the major mythological traditions of the East and West, with consideration given to origins and purposes of myths; their propagation and

dissemination; and recurring themes, motifs, and character types in a variety of cultural contexts.

ENG 412 **3 hours**
British Literature Survey I

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. A survey of major authors, works, themes, and movements from the Anglo-Saxon period through the mid-19th century. The course typically examines such authors as the Beowulf poet, Chaucer, Shakespeare, Milton, Dryden, Pope, and Johnson.

ENG 414 **3 hours**
British Literature Survey II

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. A survey of the literary forms, ideas, and themes revealed in British literature from the Romantic period through the early twentieth century.

ENG 425 **3 hours**
Shakespeare

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. This course exposes students to major works of Shakespeare and develops students’ ability to interpret the texts through literary analysis and through application of concepts of drama and film.

ENG 470 **3 hours**
African American Literature

This course will be a comprehensive study of the origins, development, major texts, and legacies of the African American literary tradition. Students will survey the various genres of the literature--slave narratives, folktales, poetry, drama, and the novel, while examining works in their historical, social, religious, and philosophical contexts. Students will also discuss American history, sociology, and politics to understand the forces that have influenced African American literature, and to discover the role that the African American writer serves in the African American community.

ENG 490 **3 hours**
Special Topics in English

Prerequisite: Grade of “C” or better in ENG 101 and ENG 102. Special topics courses offer the student opportunities to explore selected topics of interest in the discipline.

ENG 601 **3 hours**
Cultural Contexts of World Mythology

The course is a study of the intersection of mythology and culture. It considers the role of expression and imagination in a culture’s underlying myths as well as their impact, influence, and significance. The course

also examines the central place of archetypes in mythology and their continued importance and influence.

ENG 602 **3 hours**

Article and Personal Essay Writing

This course is designed for graduate students interested in writing nonfiction prose, specifically, the personal essay. The course is designed to help students improve writing through discussions of written work in a group workshop setting as well as discussions of published essays from the textbooks. The course will also emphasize understanding the genre of nonfiction from various perspectives of cultural, historical and critical theory.

ENG 603 **3 hours**

Rhetorical Theory and the Craft of Argument

Classical and contemporary concepts of rhetorical theory are examined. Students will employ theoretical perspectives and diverse rhetorical strategies to analyze diverse written arguments and to craft sophisticated arguments. Through the theoretical framework, students examine philosophical and cultural positions and the potential as well as the limits of persuasion itself.

ENG 604 **3 hours**

Poetry (Genre Study)

This course is designed to provide the fundamental concepts and techniques of literary interpretation, focusing on poetry as a genre: the nature of poetic language and the methods of analyzing figurative discourse, genre, and structure.

ENG 611 **3 hours**

American National Literature

The development of the American novel in the decades following the Civil War as the nation reconstructed and redefined itself as an American empire through western expansion, colonization in the Pacific, European immigration, and progressive era reforms.

ENG 612 **3 hours**

Tradition and Innovation in Early British Literature

This course investigates how prominent English writers from Anglo-Saxon times through the eighteenth century simultaneously adhered to the canonical traditions of their craft and employed innovative concepts to produce ground-breaking and ultimately enduring works of literature.

ENG 613 **3 hours**

Race, Gender, and Culture in Modern American Literature

Students are expected to engage deeply in literary critical theory that explores concepts of “national literature” and “American literature,” while appreciating and critiquing the major movements, authors inclusion in and exclusion from the canon, and the diversity of literary techniques and genres.

ENG 625 **3 hours**

Studies in Shakespeare

Students read drama contemporaneous with Shakespeare’s plays to broaden their understanding of the genre in historical context, to contrast Shakespeare’s poetic and dramatic techniques with his contemporaries, and to understand the dramatic capacity of his plays. A range of literary critical texts will be used for analysis.

ENG 655 **3 hours**

Literature of the Global South

This course places the modern literature of the South within the context of modern literature in Central and South America. The course emphasizes cross-cultural influences as the writers of Latin America were influenced by and influenced Southern writers. The emphasis in the course will be on critical literary theory and scholarly research. In addition to surveying the major genres of the modernist traditions in both the literature of the U.S. South and Latin America, students will gain familiarity with the most common theoretical approaches to the literature including theories of race and gender identity. The course will also introduce students to the historical and cultural events that shaped these cross-cultural literary traditions. Student will learn and practice methods of scholarly research in order to develop an awareness of the major trends in the field of literature of the Southern Americas.

ENG 670 **3 hours**

African American Literary Theory and Research

This course examines the African American literary tradition with an emphasis on critical literary theory and scholarly research. In addition to surveying the major genres of the tradition, students will gain familiarity with the most common theoretical approaches to the literature including theories of race and gender identity. The course will examine the historical and cultural events that shaped the tradition such as the Harlem Renaissance and the Black Diaspora. Students will learn and practice methods of scholarly research in order to develop an awareness of

the major trends in the field of African American literary studies.

ESL—English as a Second Language

ESL 120 **3 hours**

English as a Second Language Seminar

This learning lab course is designed to support non-native English speaking students. Students will practice intermediate to advanced listening, speaking, reading, and study skills in English, with an emphasis on vocabulary and grammar acquisition in context. A variety of personal, professional, academic and/or cultural topics provide the context for practice. This course is intended to reinforce skills learned in English language-specific courses.

FLM—Film

FLM 210 **3 hours**

Introduction to Film

Prerequisite: ENG 102. This course introduces film form and aesthetics, utilizes the basic technical and critical vocabulary of motion pictures, and explores the cultural history of American film through a variety of genres. This course can be used to fulfill a CORE curriculum Humanities requirement.

FLM 400 **3 hours**

Methods and Materials of Film Making I

ART 380 is strongly recommended as pre- or co-requisite. This course is an introduction to and exploration of the film editing process utilizing Final Cut Pro. This course is designed to develop skills in the acquisition and creation of digital media.

FLM 410 **3 hours**

Methods and Materials of Film Making II

Prerequisite: FLM 400. ART 380 is strongly recommended as a pre- or co-requisite. This course is an introduction to and exploration of 2D and 3D motion graphics and special effects utilizing Motion 4 and DVD design, authoring, and mastering using DVD Studio Pro. This course is designed to develop skills in the creation and generation of digital media.

FLM 450 **3 hours**

Film Making

This is a project-oriented class developing camera techniques and utilizing Final Cut Pro, Motion, and DVD Studio Pro applications to produce short film projects and TU Takes. This course may be repeated for credit.

FLM 490 **1-3 hours**

Special topics in Film

The exploration of a unique area or aspect of films and/or film making.

FRN—French

FRN 101, 102 **3 hours**

Elementary French I, II

Prerequisite for FRN 101: "C" or better in ENG 101 or consent of the instructor. Prerequisite for FRN 102: "C" or better in FRN 101 or consent of instructor. An introduction to, and the development of, the fundamentals of French grammar and composition, including reading, writing, speaking, and listening.

GEO—Geography

GEO 201 **3 hours**

Introduction to Geography

Geography is the study of spatial distributions of peoples, cultures, places and environments across the face of the Earth, with a focus on the similarities and differences between those distributions. It includes relationships between different peoples from the local to the global scale while examining both cultural and natural factors, and it explores features of the natural environment as a background to explain human-environmental interactions. To achieve this, we will investigate four geographic traditions: the Earth Science Tradition, the Culture-Environment Tradition, the Location Tradition, and the Area Analysis Tradition.

GEO 302 **4 hours**

Geographic Information Systems Applications I - Methods

This is an introductory course in the fundamental concepts and applications of Geographic Information Systems (GIS). The course introduces the core components and functionality of ArcGIS software, and explores the essential tools and techniques for creating, visualizing, working with and managing geographic spatial data. The course provides students with experience collecting real-world data in the field using Global Positioning System (GPS) technology, and to incorporate this data into a GIS mapping project.

GEO 303 **4 hours**

Geographic Information Systems Applications II - Analysis

Prerequisite: GEO 302 with a "C" or better. An in-depth intermediate course in geospatial analysis that builds on the concepts and techniques learned in GEO302. This course will cover more complex aspects of GIS including Geoprocessing, Georeferencing, Raster

Analysis, Spatial Analysis, Geodatabases, and Cross-platform GIS. The course will expose students to a variety of GIS tools, data formats and sources of data. Students will use knowledge gained to solve challenge problems, as well as to analyze, manage and present real world data collected in the field.

GEO 410 **4 hours**
Geographic Information Systems: Conservation
 Prerequisite: GEO 302 and GEO 303. This is an advanced course that applies geospatial problem solving techniques to natural and cultural resource management issues using GIS as a decision support tool to enhance conservation planning solutions. The course will address issues related to conservation GIS development (e.g., articulation of management objectives, user needs assessment, and GIS partnership development) as well as those related to GIS project design (project planning, data acquisition, development, and documentation, and project implementation). The course will focus on the development, execution and presentation of a final Conservation GIS project. A key goal of the final project is to provide the student with a portfolio piece.

GEO 495 **1-4 hours**
Geography Internship
 This course provides students with hands-on working experience using GIS technology. Students will complete a minimum 30 hours per credit hour throughout the semester in the internship environment. Up to four hours of credit are given for each semester.

GLY—Geology

GLY 125 **4 hours**
Physical Geology
 A survey of the fundamentals of physical geology; characteristics and origins of rocks and minerals; mechanisms and processes of volcanism, plutonism, metamorphism, weathering, erosion, sedimentation, and lithification; evolution of landforms, and plate tectonics. This course includes a laboratory component.

GLY 226 **4 hours**
Historical Geology
 A study of the methods and concepts by which earth history is interpreted, including the geologic time scale; interactions of physical, chemical, and biological processes through time, origin of life; evolution and distribution of plants and animals; the geologic time scale, and the geologic history of North America. This course includes a laboratory component.

HIS—History

HIS 101 **3 hours**
History of Western Civilization I
 A survey of Western civilization involving man's struggles and achievements from earliest times until the end of the seventeenth century.

HIS 102 **3 hours**
History of Western Civilization II
 A survey of Western civilization from the seventeenth century until the present day, including an overview of the growing interaction between the East and West.

HIS 201 **3 hours**
United States History and Government I
 ENG 101 preferred. A study of the important events, movements, and people of the United States covering the colonization of America through the election of Abraham Lincoln. Heavy emphasis is placed on the development of the political system in Georgia and the United States.

HIS 202 **3 hours**
United States History and Government II
 ENG 101 preferred. A study of the important events, movements, and people of the United States covering the period from Abraham Lincoln's election to the end of WWII. Heavy emphasis is placed on the development of the political system in Georgia and the United States.

HIS 203 **3 hours**
United States History and Government III
 ENG 101 preferred. A study of the important events, movements, and people of the United States covering the period from the end of WWII through present. Heavy emphasis is placed on the development of the political system in Georgia and the United States.

HIS 210 **1 hour**
Overview of American Politics
 ENG 101 preferred. A basic course in understanding American Politics. The course will cover the history of American Political parties, the origins of government, and the definitions of a federal form of government.

HIS 211 **1 hour**
Congress
 ENG 101 preferred. An introductory course in understanding the American Congress. The course will cover the major responsibilities of Congress, the leadership of Congress and how a bill becomes a law.

HIS 212 **1 hour**
Presidency
 ENG 101 preferred. An introductory course in understanding powers of the President, the Electoral College, and advisors to the President.

HIS 213 **1 hour**
The Federal Court System
 ENG 101 preferred. An introductory course in understanding the Federal Court system, the function of the Supreme Court, members of the Supreme Court, how the Supreme Court has become so powerful major court cases, and why appointing a Supreme Court justice is one of the most important roles a President has for the country.

HIS 214 **1 hour**
Notable Documents and Amendments in American History
 Prerequisite: ENG 101 preferred. This course analyzes important documents from American history that have had a deep impact on American history and American lives. These will include The Declaration of Independence, The Preamble to the Constitution, The Emancipation Proclamation, The Gettysburg Address, and the Amendments to the Constitution.

HIS 215 **1 hour**
Who and What Impacts Political Decisions and Elections
 ENG 101 preferred. This course analyzes the role of individuals and groups in the election process including: Political Action Groups, Organized Labor, Lobbyists, Political Parties, and the Media.

HIS 304 **3 hours**
20th Century America
 Prerequisites: HIS 201, and HIS 202. A study of the political, economic, and social growth of the United States and its changing role in world affairs from 1898 to the present.

HIS 314 **3 hours**
History of Contemporary Europe
 Prerequisite: HIS 102. An intense study of the political, economic, and social issues of the major European countries since World War I. Special emphasis will focus on: the decline of the preeminent position of Europe in world affairs, the challenge of European cooperation for survival, and the role of Europe during and after the Cold War.

HIS 321 **3 hours**

Contemporary Latin America
 Prerequisite: HIS 102. An intense study of the political, economic, and social issues of the major Latin American countries since World War I. Special emphasis will be on the Pan American system, Latin American revolutions, and the role of Latin America during and after the Cold War.

HIS 361 **3 hours**
Special Topics in History
 Prerequisite: Junior Standing. Special topics courses offer the student opportunities to explore selected topics of interest in the discipline. Variable credit. May be repeated for a maximum of six (6) hours.

HIS 404 **3 hours**
A Critical Decade in U.S. History: The 1960's
 Prerequisite: HIS 202, and HIS 102 or consent of the instructor. An intense study of the decade of the 1960's when Americans were forced to examine themselves, their traditions, and their institutions. Special emphasis will focus on the Civil Rights movement, the Vietnam conflict, and the counter culture revolution.

HIS 421 **3 hours**
History of the Middle East
 Prerequisite: HIS 102. A study of the importance of this region in the ancient world, the development of Islam, the importance of oil during the age of imperialism, the conflict of religions and the establishment of Israel, modern religious warfare, and the emergence of terror as a major force in the region.

HIS 434 **3 hours**
African Nationalism
 An intense study of the major developments in the African nations primarily since the 20th century. An introduction to the continent of Africa will include its importance in the ancient world and the impact of imperialism during the 1800's. The focus will then shift to the 1900's and the emergence of Africa in a modern world.

HIS 444 **3 hours**
Contemporary Asia
 Prerequisite: HIS 102. A study of the major developments in the Contemporary Asian History primarily since the 20th century. An introduction to the Asian Pacific region will include the importance of major historical events and human advances that have shaped modern Pacific Asia and its emergence from a fractured regional power to a global economic and military power.

HIS 451 **3 hours****History of Georgia**

Prerequisite: HIS 201 and HIS 202, or consent of the instructor. A survey of the political, economic, social, and cultural developments in Georgia from pre-colonization to the present. Special emphasis will focus on the founding of Georgia, Georgia's role in the American Revolution, Indian relocation, the Civil War, and post-World War II prosperity and problems.

HIS 499 **3 hours****Senior Practicum**

The student engages in a hands-on historical project for a museum, community group, or non-profit organization. Prerequisite: Junior/Senior standing.

HUM—Humanities**HUM 200** **3 hours****Survey of Western and Non-Western Culture I**

Prerequisite: ENG 102. This course introduces thoughts and values in art, literature, philosophy, and religion from the beginning of civilization through the time of the Roman Empire in the west and the civilizations of India and China in the east.

HUM 201 **3 hours****Survey of Western and Non-Western Culture II**

Prerequisite: ENG 102. This course introduces thoughts and values in art, literature, music, philosophy, and religion from the beginning of the Common Era through the Middle Ages.

HUM 202 **3 hours****Survey of Western and Non-Western Culture III**

Prerequisite: ENG 102. This course introduces thoughts and values in art, music, literature, philosophy, and religion from the Renaissance through the 1700s.

HUM 203 **3 hours****Survey of Western and Non-Western Culture IV**

Prerequisite: ENG 102. This course introduces thoughts and values in art, music, literature, philosophy, and film from the 1800s through the present.

HUM 204 **3 hours****A Survey of the Art, Literature, and Religion of China**

Prerequisite: ENG 102. This humanities course surveys the art, literature, and religion of China from pre-history to the twenty first century. Students enrolled in this course must complete all course work by the

due dates indicated on the syllabus and must travel to China in order to receive credit for this course.

HUM 417 **3 hours****Senior Thesis**

Prerequisites: 2 IDS Core Classes. The course develops advanced skills in research, organization, synthesis, evaluation, and presentation. Students create an annotated bibliography, develop an in-depth paper or project, and give a presentation on a topic selected in consultation with the thesis advisor.

HUM 450 **3 hours****Senior Humanities Seminar**

This course reviews the major disciplines, themes, events, periods, works, and artists in the humanities from the ancient to the modern world.

HUM 490 **3 hours****Special Topics in Humanities**

Special topics courses offer the student opportunities to explore selected topics of interest in the discipline

HUM 498 **1-6 hours****Liberal Studies Internship**

This course will enable students to earn between one and six hours of credit through internships which provide them with professional experience in fields related to possible or anticipated areas of employment. Twenty-four hours of work in the internship setting will equate to one hour of credit. The supervisor(s) of the internship position will provide the overseeing faculty member with a final assessment of performance. During the internship, the student will maintain a journal which will document tasks, skills, responsibilities, and insights on the job and the student will create and compile evidence of professional learning and accomplishments. The internship and its specific outcomes must be approved by the Division Chair. These internships may be paid or unpaid and may be completed in a number of areas, such as communications, technology, writing, management, research, or teaching. Internship experiences must be outside of the student's current place of employment or be constituted of work and assignments outside of his/her normal scope of work assignments.

IDS—Interdisciplinary Studies**IDS 200** **3 hours****Peace Leadership**

Through the study of the work of Nobel Peace Laureates, students explore the means to creating

positive change in the world. Students will learn to mentor middle school/high school students to create and implement projects that address the root causes of issues in their communities.

IDS 417 **3 hours**
Senior Thesis

Prerequisites: 2 IDS Core Classes. Students create an annotated bibliography, develop an in-depth paper or project, and give a presentation on a topic selected in consultation with the thesis advisor. The course develops advanced skills in research, organization, synthesis, evaluation, and presentation.

MBA—Master in Business Administration

Entrance prerequisites: BUS 200, BUS 210, BUS 320 and MTH 250. Some students may begin selected graduate courses while completing prerequisites.

MBA 507 **1 hour**
Scholarly Writing

This course expands the students' composition and investigative skills to prepare to write scholarly papers using reasoned claims, scholarly resources, correct APA documentation, and a professional writing style.

MBA 600 **3 hours**
Applied Economics

Prerequisite: BUS 210. A course on economics for managers. Covered will be both macro and micro perspectives on resources and labor costing, influence of governments and consumers on the performance of the firm, and the analysis of economic trends.

MBA 601 **3 hours**
Organizational Behavior

The purpose of this course is to provide a conceptual framework for studying and understanding behavioral management concepts. Theories and empirical research studies designed to aid in understanding human behavior as it relates to the field of business management will be examined.

MBA 611 **3 hours**
Tax II: Federal Income Tax

Prerequisite: Bachelor's degree in Accounting. A study of the US federal tax laws as they impact organizations. Topics include corporate, partnership, estate and gift taxation, and the taxation of trusts.

MBA 612 **3 hours**
Advanced Audit

Prerequisite: Bachelor's degree in Accounting. Special emphasis is put on audit sampling, reports on audited financial statements and other public accounting services, information systems, auditing, and fraud.

MBA 614 **3 hours**
Accounting and Decision Making

Prerequisites: BUS 200 A case-based analysis of financial and managerial accounting information and reports.

MBA 615 **3 hours**
Management Information Systems

This course examines how information technology enables organizations to conduct business in radically different and more effective ways. The course will address systems concepts, information management, and decision making, as well as the use of specific MIS programs and new applications of information technology in the modern corporation.

MBA 619 **3 hours**
Business Law

This course examines the laws and regulations governing the operation of businesses in the United States. Particular emphasis will be placed on current legal issues facing American corporations operating overseas and domestically, including contracts, liabilities, physical and intellectual properties, risk and insurance, and technology transfer. Special focus will be placed on business ethics.

MBA 620 **3 hours**
International Business

A study providing a comparative analysis of international business competitiveness and management. Special topics to be covered in the course will include joint ventures, mechanics of trade, and cultural influences on trade and negotiations.

MBA 632 **3 hours**
Human Resource Management

Prerequisite MBA 601. The purpose of this course is to provide a broad overview of the activities required for effective human resource management. In today's rapidly changing environment the organizations that can recruit, train, and retain the best people will be better able to compete and survive. Major topic areas will include: workforce planning, staffing, training, compensation, labor-management relations as well as health and safety issues.

MBA 645 **3 hours**
Financial Management

Prerequisite: BUS 320. A case study approach applying economic and financial theory to specific business problems. Advanced topics in capital budgeting, dividend policy, and capital costs will be covered.

MBA 646 **3 hours**
Finance and Accounting for Government and Non-Profit Organizations

Prerequisites BUS 200 and BUS 320. This course introduces the student to the theory of accounting, auditing and financial management for government and not-for-profit entities. Special emphasis will be given to public account groups, budgetary accounting, financing capital projects funds and debt service funds, and government and not-for-profit reporting.

MBA 650 **3 hours**
Research and Statistics

This course concentrates on statistical analysis for managers, covering both descriptive and inferential analysis of data, as well as statistical reference techniques. The course covers common research tools and techniques, including qualitative and quantitative methodologies for addressing research problems in business.

MBA 662 **3 hours**
Leadership

This course provides a framework for examining and understanding the concept of leadership within organizational environments. Emphasis will be placed on exploring the relationships among the following variables; leaders, followers, and the situation. Further emphasis will be placed on translating theory into practice.

MBA 663 **3 hours**
Operations Management and Technology

A study of design, analysis, and control of transformation processes in the allocation and use of physical resources to produce goods and services. Advanced techniques of inventory planning, logistics, queuing theory, and total quality management will be covered.

MBA 669 **3 hours**
Training and Development

Prerequisite: MBA 601. This course presents an overview of training techniques and delivery approaches using an open systems perspective. The content focuses on how training fits into the strategy and structure of both large and small companies.

MBA 673 **3 hours**
Current Issues in Human Resource Management

The purpose of this course is to research and discuss current concepts in the area of Human Resource Management. Due to the changing economic, political, and regulatory environment, Human Resource professionals are under continuing pressure to remain current in their field. Students will read, abstract, report and discuss current Human Resource articles.

MBA 675 **3 hours**
Marketing Management

A case study course which emphasizes development of the strategic positioning of the firm and its brands, product lines, products and services within its competitive and legal environment. Coverage includes advance concepts of marketing research, product development, placement and distribution, pricing and promotion.

MBA 690 **3 hours**
Business Strategy and Policy

Prerequisite: Completion of all previous MBA courses or permission of the instructor. This is a capstone course designed to teach a Strategic Management Process and its application within operating organizations. Through a case study format, students will analyze an organization's external and internal environment, recommend a strategy for the company's successful competition within their industry, and specific changes necessary to implement the new strategy. Emphasis will be placed on team work and the ability to share knowledge in order to recommend group solutions.

MGE—Middle Grades Education

MGE 326 **3 hours**
Field Experience I: Nature and Needs of Middle Grades Students

Interview and full admittance required during this Field. Co-requisite: Professional Preparation Core I. Teacher candidates participate in a weekly seminar. They will spend 50 hours observing, assisting and teaching in fourth or fifth grade classrooms examining the physical, emotional, social and intellectual development of middle grades students. Fee for background check is required

MGE 327 **3 hours**
Methods and Strategies for Teaching Early Adolescent Learners

Prerequisite: EDU 316 and EDU 350. Co-requisite: EDU 340 and ECE 460. This course focuses on research-based effective teaching methods and strategies for teaching early adolescence learners, with attention provided to the characteristics of diverse and

exceptional learners in the classroom and assessment of student learning. This course requires a field placement in a 4th-8th grade setting, depending on major.

MGE 428 **3 hours**
Developing Pedagogical Content Knowledge for Teaching Middle Grade Learners

Prerequisite: EDU 327, EDU 340, and EDU 460. Co-requisite: EDU 468. The focus of this course is to examine research-based pedagogical content knowledge that engages middle grades students in active learning that results in student's acquisition of essential knowledge and skills. This course requires a field placement in a middle school setting, beginning with the first day of the assigned school district calendar, for three days a week until the end of the semester.

MGE 429 **10 hours**
Student Teaching

Prerequisite: All program courses in Professional Core I, II, and III, and satisfactory score on Disposition Assessment. Co-requisite: MGE 430. The purpose of this course is to provide full immersion in the school community in order to further develop and demonstrate competence in the professional role as a middle grades teacher. This course requires full-time participation in a middle school for 15 weeks.

MGE 430 **2 hours**
Student Teaching Seminar

Prerequisite: All program courses in Professional Core I, II, and III, and satisfactory score on Disposition Assessment. Co-requisite: MGE 429. The purpose of this seminar is to examine the knowledge, skills, and dispositions essential to the positive career path of the middle grades teacher, from teacher candidate to early career professional.

MLS—Medical Laboratory Science

MLS 301 **3 hours**
Medical Laboratory Methods

Introduces students to the terms, concepts, procedures, and equipment used in a professional laboratory. Topics include: professional ethics and regulatory agencies; basic laboratory safety, equipment, and techniques; phlebotomy/specimen processing; quality control concepts; laboratory math; documentation; point of care testing, basic instrumentation, automation, and computerization in the laboratory. Practical experience in phlebotomy will be provided in the institution laboratory and/or the clinical setting.

MLS 321 **4 hours**
Clinical Microbiology I

Lectures and laboratory experiences emphasize current medical laboratory procedures for the safe collection, culture, staining, identification and control of microorganisms routinely encountered in a medical setting. This course includes a survey of organisms encountered in a medical laboratory setting and includes sterilization and disinfection techniques.

MLS 331 **4 hours**
Clinical Hematology & Coagulation I

Introduces the fundamental theory and techniques applicable to hematology and coagulation practice in the medical laboratory. Topics include: reticuloendothelial system and blood count formation, complete blood count and differential, related blood tests, correlation of test results to disease states, coagulation and fibrinolysis, instrumentation, critical values and blood cell dyscrasias, safety and quality control.

MLS 341 **4 hours**
Clinical Immunohematology I

Provides an in-depth study of immunohematology principles and practices as applicable to medical laboratory science. Topics include: genetic theory and clinical applications, immunology, donor unit collection, pre-transfusion testing, management of disease states and transfusion reactions, safety and quality control.

MLS 351 **4 hours**
Clinical Chemistry I

Prerequisites: Minimum of a "C" in the following courses: CHM 101, CHM 102, and CHM 107. Develops concepts and techniques of clinical chemistry applicable to medical laboratory science. Topics include: carbohydrates, electrolytes and acid-base balance, nitrogenous compounds, enzymes and endocrinology, liver functions, lipids, toxicology and therapeutic drug monitoring, safety and quality control.

MLS 385/BIO 385 **3 hours**
Parasitology, Mycology, and Virology

The disease mechanisms of blood, tissue and intestinal parasites will be studied with emphasis on general mechanisms of parasitic infections. The increasing importance of fungal infections will also be discussed, as well as infections contracted through viruses.

MLS 400 **3 hours**

Internship I

Structured clinical laboratory experience in urinalysis, serology, and phlebotomy.

MLS 401 **5 hours**

Internship II

Structured clinical laboratory experience in clinical, hematology and chemistry.

MLS 402 **5 hours**

Internship III

Structured clinical laboratory experience in microbiology and immunohematology.

MLS 411 **2 hours**

Urinalysis & Body Fluids

This course provides students with an opportunity for in-depth application and reinforcement of urinalysis and techniques. It allows the student to become involved in laboratory principles and procedures at a clinical laboratory scientist level. Topics include: basic and specialized urinalysis tests, techniques, blood and correlation of test results to disease states, safety and quality control, instrumentation methods and management issues.

MLS 412 **2 hours**

Urinalysis & Body Fluids with Lab

This course provides students with an opportunity for in-depth application and reinforcement of urinalysis principles and techniques. It allows the student to become involved in laboratory principles and procedures at a clinical laboratory scientists level. Topics include: basic and specialized urinalysis tests, body fluid analysis, techniques, blood, correlation of test results to disease states, safety and quality control, instrumentation methods and management issues.

MLS 414 **4 hour**

Immunology and Molecular Diagnostics

This course provides students with an opportunity for in-depth application and reinforcement of immunology and molecular biology principles and techniques. It allows the student to become involved in laboratory principles and procedures at a clinical laboratory scientist level. Topics include: basic and specialized serological tests and techniques, blood and specimen processing, correlation of test results to disease states, PCR and DNA molecular methodologies; safety and quality control, instrumentation methods and management issues.

MLS 421 **4 hours**

Clinical Microbiology II

Prerequisite: Associate Degree from a NAACLS accredited MLT/CLT program or MLS 321. The didactic portion of the course provides a review of basic microbiology principles. Microbial physiology and the interactions between the host and pathogenic microorganisms, clinical and epidemiological consequences of these interactions, and molecular diagnostic testing are also covered. Clinical rotations are scheduled following the didactic portion of the course allowing for in-depth understanding, application and reinforcement of clinical microbiology principles and techniques to include management of a microbiology lab.

MLS 431 **4 hours**

Clinical Hematology & Coagulation II

Prerequisite: Associate Degree from a NAACLS accredited MLT/CLT program or MLS 331. An opportunity for in-depth understanding, application and reinforcement of hematology/coagulation principles and techniques is provided. Supervised experience will allow the student to become involved in laboratory principles and procedures at a medical technologist level requiring critical thinking and troubleshooting methods. Topics include: complete blood counts and differentials, routine and special blood tests, evaluation of data for acceptability; calibration and instrument to instrument comparisons; coagulation to disease states and critical levels; recording and evaluating accuracy, safety, and quality control, and management issues.

MLS 441 **4 hour**

Clinical Immunohematology II

Prerequisite: Associate Degree from a NAACLS accredited MLT/CLT program or MLS 341. This course provides an opportunity for in-depth application and reinforcement of immunohematology principles and techniques in a medical laboratory job setting. Case study applications allow the student to become involved in laboratory principles and procedures at a medical technologist level requiring concentration, practice, and follow through. Topics include: specimen processing, tube/gel serological techniques, component therapy practices, transfusion complications, inventory control, management of disease states, inventory control, records and reagent quality control, equipment and safety, and regulatory accrediting agency standards.

MLS 450 **4 hours**

Clinical Chemistry II

Prerequisite: Associate Degree from a NAACLS accredited MLT/CLT program or MLS 351. This course provides students with an opportunity for in-depth application and reinforcement of chemistry principles and techniques in a medical laboratory job setting. Topics include carbohydrates, electrolytes and acid-base balance, nitrogenous compounds, enzymes and endocrinology, liver functions, lipids, therapeutic drugs and toxicology, automated chemistry - routine and stat, immunoassay, special chemistry tests, molecular diagnostics, recording accuracy, safety, and quality control.

MLS 452 **3 hours**

Research Methods & Project

Prerequisite: MTH 250. The purpose of this course is to introduce students to basic research methods in the Medical Laboratory Science field, including familiarization with both quantitative and qualitative methods. Students will be introduced to topics on how to write a research proposal, and how to analyze quantitative and qualitative results. Students will observe the ten principals of research and conduct a small scale research project as a thesis/culminating project within the disciplines of the medical laboratory science field.

MLS 460 **3 hours**

Senior Seminar

Prerequisite: Associate Degree from a NAACLS accredited MLT/CLT Program or a passing grade of "C" or better in the following courses: MLS 385, MLS 411, MLS 414, MLS 421, MLS 431, MLS 441, and MLS 450. This course provides an in-depth analysis of various case studies from the broad spectrum of disciplines within the Medical Laboratory Science field. Real life scenarios are presented that not only correlate with disease states, but also serve as problem-solving and critical thinking exercises. Emphasis is also placed on reviewing educational material appropriate to the field so as to better prepare for sitting for the national certification examinations required for licensure and clinical practice. A mock registry national examination will also be given.

MLS 470 **3 hour**

Laboratory Management and Supervision

Prerequisite: Associate Degree from a NAACLS accredited MLT/CLT Program. An overview of the management and supervision of the medical technology profession is provided including the accreditation, licensure and certifying procedures. Management styles, motivational techniques, communication skills, leadership, human resource

management, financial planning, laboratory information systems, educational methodologies, and professional responsibility are included in this course.

MLS 490 **1-4 hour**

Directed Readings

Prerequisite: MLS major or permission of the instructor. The course will enable the student to research and explore technical literature on a topic pertaining to Medical Laboratory Science, and trends within the disciplines that comprise the field. In conjunction with the professor, the student will develop a reading list to include current trends, issues, and historical literature on their chosen topic that will support future education or career objectives. The student will develop an action plan and communicate with their instructor based on the instructor's guidelines.

MLS 495 **4 hours**

Advanced Clinical Practicum

Supervised clinical rotations for urinalysis; immunology; immunohematology; hematology; chemistry; microbiology; body fluids, and coagulation.

MTH—Mathematics

*Only one of the following can be used to fulfill the Core Math requirement: MTH 120, MTH 140, MTH 150 or MTH 270.

MTH 090 **1 hour**

Student Success in Beginning Algebra Lab

Co-requisite: MTH 092 or MTH 094. This lab course is a supplement to developmental math courses, MTH 092 and MTH 094, designed to support students taking a developmental math course concurrently. The course content will focus on developing mathematical maturity through conceptual understanding and improving foundational skills. An emphasis is placed on problems-solving strategies and study habits that enhance concept development, self-reflection, and taking personal responsibility for success in MTH 092 or MTH 094.

MTH 092 **1 hour**

Applications in Beginning Algebra

Co-requisite: MTH 090. This course is required for students scoring 56 or below on the Accuplacer Algebra exam. This course emphasizes first degree linear equations and inequalities, operations on polynomials and radicals, factoring, and graphing. The goal of MTH 092 is the development of basic mathematics and algebra skills that will prepare students for Mathematical Modeling (MTH 120).

MTH 094 **1 hour**
Beginning Algebra
 Co-requisite: MTH 090. This course is for students scoring 75 or below on the Accuplacer Algebra exam. This course emphasizes operation on polynomials, radicals, and functions; first degree linear equations and inequalities, quadratic equations, and systems of equations. The goal of MTH 094 is the development of basic mathematics and algebra skills that will prepare students for College Algebra (MTH140).

MTH 102 **1 hour**
Student Success in Algebraic Modeling
 This course is a supplement to MTH 120, designed to support students taking MTH 120 concurrently. The course content will focus on developing mathematical maturity through conceptual understanding and improving foundational skills. An emphasis is placed on problem-solving strategies and study habits that enhance concept development, self-reflection, and taking personal responsibility for success in MTH 120.

MTH 104 **1 hour**
Student Success in College Algebra
 This course is a supplement to MTH 140, designed to support students taking MTH 140 concurrently. The course content will focus on developing mathematical maturity through conceptual understanding and improving foundational skills. An emphasis is placed on problem-solving strategies and study habits that enhance concept development, self-reflection, and taking personal responsibility for success in MTH 140.

MTH 120 **3 hours**
Mathematical Modeling
 Prerequisite: MTH 092 or MTH 094 with a "C" or better or appropriate placement score. A survey of algebra based mathematics including elementary algebra, basic probability, statistics, and financial mathematics with an emphasis on application. A final grade of "C" or better in this course is required to satisfy the Core requirement.

MTH 140 **3 hours**
College Algebra
 Prerequisite: MTH 094 with a "C" or better or appropriate placement score. This course focuses on the study of linear, quadratic, exponential, polynomials, and logarithmic functions, inequalities, and their applications. Also, a study of rational and piecewise defined functions, their graphs and applications. TI 83 graphing calculator required.

MTH 150 **3 hours**
Pre-Calculus
 Prerequisite: College Prep High School Algebra or appropriate placement score or consent of the instructor. A grade of "C" or better required to satisfy core requirement. This course is a study of applications of inverse, exponential, and logarithmic functions, and a study of the general concepts of trigonometry. TI 83 graphing calculator required.

MTH 170 **3 hours**
Concepts of Mathematics: Number Concepts
 Prerequisite: "C" or better in MTH 120 or MTH 140. This course emphasizes a study of problem solving, examination, application, and critical thinking involving selected topics in number theory: numbers & operation, real numbers, and geometry. This course is designed for prospective early childhood education majors or as general elective.

MTH 210 **3 hours**
Trigonometry
 Prerequisite: "C" or better in MTH 140. A study of circular and trigonometric functions, analytic trigonometry, vectors, complex numbers, binomial theorem, and a review of geometry. TI 82/83 graphics calculator required.

MTH 250 **3 hours**
Introduction to Statistics
 Formerly STA 250. Prerequisite: MTH 120 or MTH 140 or higher with a "C" or better. This course focuses on the study of descriptive and inferential statistics, statistical techniques including measures of central tendency, dispersion, probability, sampling, elementary significance tests, confidence intervals, correlation, regression, and ANOVA.

MTH 270 **3 hours**
Calculus I: Differentiation
 Prerequisite: "C" or better in MTH 150 or MTH 140 and MTH 210. This course focuses on the study of introductory calculus including limits, continuity, derivatives of polynomial, rational, trigonometric, exponential and logarithmic functions and their applications, maximum/minimum problems and curve sketching. TI 83 graphing calculator required.

MTH 280 **3 hours**
Calculus II: Integration
 Prerequisite: "C" or better in MTH 270. This course is a study of anti-differentiation, definite integrals of algebraic and trigonometric functions; also, a study of the fundamental theorems of calculus, integration by

substitution, integration by parts, and applications. TI 83 graphing calculator required.

MTH 320/671 **3 hours**

Introduction to Applied Linear Algebra

Prerequisite: "C" or better in MTH 150 or MTH 210. This course focuses on the study of linear systems, matrix algebra, determinants, stochastic matrices, vector spaces, and linear transformations. Proof will be utilized in the course, but the primary focus is applications. TI 83 graphing calculator required.

MTH 340/670 **3 hours**

Set Theory

Prerequisite: "C" or better in MTH 150 Pre-Calculus or MTH 210 Trigonometry. This course includes the study of axioms and theorems for set operations and properties, relations, functions, cardinal numbers, ordered sets, ordinal numbers, and axioms of choice.

MTH 350/672 **3 hours**

Introduction to Probability Theory

Prerequisite: "C" or better in MTH 150 or MTH 210. The course is an introductory study of probability and probability distributions.

Also, a study of counting techniques, random variables, and important probability distributions. TI 83 graphing calculator required.

MTH 360 **3 hours**

Geometry

Prerequisite: "C" or better in MTH 150 or MTH 210. This course offers an introductory study of in problem solving in geometry, Euclidean geometry, classic geometric constructions, proofs (and justifications), coordinate geometry, and Introductory non-Euclidean geometry. TI 83 graphing calculator required.

MTH 370/677 **3 hours**

Discrete Mathematics

Prerequisite: "C" or better in MTH 150 or MTH 210. This course focuses on the study of logic, introduction to mathematical proof, principle of mathematical induction, a survey of graph theory, and tree and directed graphs.

MTH 374/674 **3 hours**

Developing Algebraic Concepts

Prerequisites: "C" or better in MTH 150 or MTH 210. This course includes a study of algebraic properties, and pattern recognition of arithmetic and geometric sequences. Also a study of algebraic expressions, equations, variation, functions and relations, linear functions, systems of equations, and properties and

operations of quadratic equations. TI 83 graphing calculator required.

MTH 375/675 **3 hours**

Developing Geometric Concepts

Prerequisites: MTH 360 or MTH 270 or permission of instructor. This course includes a study of properties of plane and solid figures including constructions with compass, protractor, and polyhedra nets. Topics included will be symmetry, transformations, scale drawings, similarity, congruence, parallels, perpendiculars, the Pythagorean theorem, and coordinate geometry. Graduate students will be expected to complete projects or models that support concept development involved in selected topics.

MTH 410/673 **3 hours**

Number Theory

Prerequisite: "C" or better in MTH 150 or MTH 210. This course includes a study of divisibility, prime numbers, numerical functions, congruence classes, linear Diophantine equations, and other selected theorems. Graduate students will do selected study of higher degree congruence classes, other Diophantine equations, and additional theorems related to the real numbers.

MTH 475 **3 hours**

Mathematics Problem Solving and Error Analysis

Prerequisite: "C" or better MTH 150 Pre-Calculus or MTH 210 Trigonometry. This course provides a study of common difficulties in mathematics, and applications of strategies for corrective treatment. Also, included is a study of problem solving, analyzing, and predicting types of errors commonly made when solving problems. TI 83 graphing calculator required.

MTH 680 **3 hours**

Concepts & Applications of Number and Operations

Prerequisites: MTH 270 and MTH 280 or permission of instructor. This course includes an overview of the conceptual development of number systems and their associated operations including ways of representing numbers, relationships among numbers, number systems, and meanings of operations and relationships among them.

MTH 685 **3 hours**

Concepts & Applications of Probability and Statistics

Prerequisites: MTH 270 and MTH 280 or permission of instructor. This course includes an overview of the conceptual development of probability and statistics with emphasis on data analysis.

MTH 690 **3 hours**
Concepts and Applications in Calculus
 Prerequisites: MTH 270 and MTH 280 or permission of instructor. This course includes an overview of the conceptual development of differential and integral calculus with emphasis on limits, continuity, differentiation, and integration. Special emphasis will be placed on multiple representations of ideas, the use of technology, and problem solving in calculus.

MUS—Music

Note: All applied music courses require a music audition. See department chairperson.

MUS 201 **3 hours**
Introduction to Music
 Introduction to music through the study of musical elements, notation, basic keyboard skills, sight-singing and ear-training.

MUS 202 **3 hours**
Theory I
 Prerequisite: Music theory entrance exam with passing score or MUS 201. An introduction to the study of tonal music through analysis of harmonic, melodic, rhythmic, and structural elements.

MUS 203 **3 hours**
Theory II
 Prerequisite: MUS 202 with a grade of “C” or higher or permission of instructor. A continuation of MUS 202 with emphasis on part-writing.

MUS 231 and MUS 232 **3 hours**
Principal Applied Music
 Prerequisite: Audition by music faculty. Intensive, one-on-one instruction that develops beginning to intermediate skill in the applied music area. Meetings consist of weekly 50-minute lessons during the term, or an equivalent amount of time. A juried examination is required at the end of each semester during finals week to earn a passing grade, with the exception of students who present a recital during the semester. May be repeated for credit.

MUS 280 **1-3 hours**
Group Piano I for Non-Music Majors
 Introduction to the fundamentals of music and development of basic keyboard skills.

MUS 281 **1-3 hours**
Group Piano II for Non-Music Majors
 Prerequisite: MUS 280 or permission of instructor. Continuation of MUS 280.

MUS 282 and MUS 283 **1-3 hours**
Group Guitar
 An introduction to the fundamentals of music and development of basic guitar skills.

MUS 284 **1-3 hours**
Group Voice I for Non-Music Majors
 This course is designed to provide the non-voice major with a fundamental understanding of the principles and techniques involved in healthy vocal production, specifically as this relates to practice and performance.

MUS 285 **1-3 hours**
Group Voice II for Non-Music Majors
 This course is designed to provide the non-voice major with a fundamental understanding of the principles and techniques involved in healthy vocal production, specifically as this relates to practice and performance.

MUS 286 **1 hour**
Group Piano I
 Introduction to the fundamentals of music and development of basic keyboard skills. Emphasis on technical development, sight-reading, harmonization and transposition of melodies, improvisation, and ensemble playing.

MUS 287 **1-3 hours**
Group Piano II
 Prerequisite: MUS 286 with a grade of “C” or higher or permission of instructor. Continuation of MUS 286.

MUS 291 **1-3 hours**
Jazz Ensemble
 Rehearsal and performance of a wide variety of jazz styles and idioms. May be repeated for credit.

MUS 331 and MUS 332 **3 hours**
Principal Applied Music
 Prerequisite: MUS 231 and MUS 232, or placement by audition. Intensive, one-on-one instruction that develops intermediate to advanced skill in the primary instrument or applied area. Meetings consist of weekly 50-minute lessons during the term, or an equivalent amount of time. A juried examination is required at the end of each semester during finals week to earn a passing grade, with the exception of students who present a public recital during the semester.

MUS 337 **3 hours**
History of Jazz

An overview of jazz musical styles and significant jazz musicians from 1900 to the present.

MUS 340 **3 hours**

World Music

An introduction to the music and cultures of societies in Africa, the Near East, Asia, Indonesia, and other selected regions.

MUS 344 **3 hours**

Pop & Rock Music

An overview of popular music styles and significant musicians and musical groups in the United States from 1900 to the present.

MUS 350 **3 hours**

Music and Multimedia

A survey of computer music applications including recording and editing digital audio and MIDI, arranging and mixing, and scoring slideshows and movies.

MUS 390 **1-3 hours**

Community Chorus

Study and performance of standard choral literature for SATB voices. Open to all students and community members who are high school seniors or older. Prior singing experience and permission of the director required. May be repeated for credit.

MUS 431 and MUS 432 **3 hours**

Principal Applied Music

Prerequisite: MUS 331 and MUS 332, or placement by audition. Intensive, one-on-one instruction that develops intermediate to advanced skill in the primary instrument or applied area. Meetings consist of weekly 50-minute lessons during the term, or an equivalent amount of time. A juried examination is required at the end of each semester during finals week to earn a passing grade, with the exception of students who present a public recital during the semester. Students must present a public recital during the final semester at the senior level.

MUS 443 **0 hours**

Senior Recital

Public applied music performance or special project related to area of emphasis.

NSG—Nursing

NSG 306 **6 hours**

Professional Nursing Praxis: Context, Issues, and Trends

Prerequisite: Admission to the RN-BSN or RN-MSN program. This course examines the evolution of

professional nursing through an analysis of the social, cultural, political, economic, philosophical, historical, and theoretical influences on nursing practice and healthcare delivery systems. The fostering of community through a cross-cultural learning approach in nursing practice will be explored. Students will learn to use reasoned claims, scholarly resources, correct APA documentation, and the skill of professional writing styles.

NSG 307 **1 hour**

Scholarly Writing

This course expands the nursing students' composition and investigative skills to prepare to write scholarly papers using reasoned claims, scholarly resources, correct APA documentation, and a professional writing style. TU China Program.

NSG 311 **3 hours**

Advanced Health Assessment

Prerequisite: Admission to the RN-BSN or RN-MSN program. This course focuses on advanced health assessment of culturally diverse populations across the life span. A holistic approach to assessment emphasizes accurate, systematic history taking and physical examination skills. Critical thinking skills are practiced in determination of the significance of assessment findings, appropriate communication of data and in planning for health promotion.

NSG 331 **3 hours**

End of Life Issues

This elective course focuses on exploration of issues concerning the dying process, grief, loss and bereavement. Concepts related to psychosocial needs of clients and caregivers are addressed incorporating diversity of culture, ethnicity, gender, and age. Legal and ethical issues related to professional practice are emphasized.

NSG 332 **3 hours**

Healthy Aging

Prerequisites: ENG 101, ENG 102 and college level course in the human sciences. This course will provide a clinical and theoretical focus of the evolving field of gerontology. Topics will cover important social, psychological, and physical aspects of aging. Content will include demographic trends, functional performance, pharmacotherapy, nutrition, sexuality, living options, future concerns, health literacy and clear communication, and legal and ethical issues of the elderly.

NSG 370 **3 hours****Ethical Issues in Nursing Practice**

Prerequisite: Admission to the RN-BSN program or permission of the instructor. This course studies legal and ethical issues in nursing practice. It includes a study of frameworks and guidelines for using critical thinking in making ethical decisions and resolving ethical dilemmas. Relevant laws, codes of ethics, ethical theories, and ethical principles are examined.

NSG 410 **2-3 hours****Women's Health Issues**

Prerequisite: BIO 261 and BIO 262; admission to the RN-BSN program or permission of instructor. This course will take an interdisciplinary approach to both historical and contemporary women's health issues. Historical, biological, sociocultural, psychological, and political processes that shape and affect women's health and healthcare experiences will be examined. Selected theoretical frameworks will be used, including feminism, gender, and multiculturalism, to examine how perceptions of women and women's status have affected women's healthcare.

NSG 440 **3 hours****Emergency Preparedness**

This course prepares health care and public service workers as first responders in the events of disaster and terrorism. Topics covered include disasters (natural and man-made), planning for disasters managing casualties, organization and implementation of disaster response, and the first responder's role during disaster situations.

NSG 441/641 **3 hours****Physiology of Aging**

Prerequisite: BIO 261 and BIO 262 or permission of instructor. This course will examine aspects of the physiology of human aging and functional changes associated with the variances surrounding the aging process. Attention is given to the impact of aging on bodily systems, including cognitive processes and memory. The course examines the illnesses and disease processes with a focus on the relationship between changes in physical function, environment, and quality of life. In addition, appropriate nursing, health care provider, and lay care-giver interventions including primary place residence, medication management, safety, promotion of independence, teaching, infection control, and stress management will be incorporated.

NSG 450 **3 hours****Community Health Nursing**

Prerequisites: NSG 303, NSG 307, and NSG 311; may be taken concurrently with NSG 460. Selected concepts of community/public health nursing that form the theoretical foundation for population/community health practice are studied. Problem solving and creative/critical thinking activities are used to analyze issues, trends and practices of the public health/community health nurse, the community as partner, environmental issues, common community problems and vulnerable populations. TU China Program.

NSG 452 **3 hours****Evidence-based Practice in Nursing**

Prerequisite: MTH 250 (may be completed concurrently with permission of instructor). Students are introduced to basic research and evidence-based concepts in order to become informed consumers of research as a guide for quality nursing practice and improved patient outcomes. Approaches to evaluation, translation, and integration of the best evidence into current clinical practice settings are explored.

NSG 456 **6 hours****Community and Public Health Nursing**

Prerequisites: NSG 306 and NSG 311

This course uses principles of public health/community health nursing in the provision of health care to individuals, families, and aggregate populations. Selected concepts of community/public health nursing that form the theoretical foundation for population/community health practice are studied. Problem solving and creative/critical thinking activities are used to analyze issues, trends, and practices of the public health/community health nurse, the community as partner, environmental issues, common community problems, and vulnerable populations. Field study incorporates assessments of the community, resources, epidemiological and environmental needs, public health services, and strategies to address the health needs of selected aggregate populations.

NSG 465 **4 hours****Community Health Nursing**

Prerequisites: Licensure as a Registered Nurse; Admission to the MSN program. This course is designed for RNs who hold a baccalaureate degree in a field other than nursing and serves as a transition course for entry into the MSN program. Content includes both the theory and practice of Community Health Nursing. Problem solving and creative/critical thinking activities are used to analyze issues, trends,

and practices of the public/community health nurse, the community as a partner, environmental issues, common community problems, and vulnerable populations. Application of these principles are applied through a variety of community settings utilized for practicum experiences focusing on community assessment, public health department services/resources, epidemiological/environmental needs, and strategies to address prioritized health needs of selected aggregate populations.

NSG 470 **3 hours**

Leadership in Nursing

Prerequisites: NSG 452, NSG 450, and NSG 460 or permission of instructor. May be taken concurrently with NSG 480. This course is designed to challenge students in the development of leadership and management skills. Theories, principles, and practical applications to professional practice are emphasized. An evidenced-based research project is the culminating activity. TU China Program.

NSG 476 **6 hours**

Leadership in Nursing

Prerequisites: NSG 452, NSG 456, or permission of instructor. This course is designed to guide and challenge students in the development of leadership and management skills. Theories, principles, and practical applications to professional practice are emphasized. The political, legal, ethical, financial and accreditation/standards components of organizational success are explored. The course provides the student with the opportunity to apply managerial/leadership skills in a professional nursing practice setting. An evidenced-based project is the culminating activity.

NSG 480 **3 or 4 hours**

Leadership Practicum

Prerequisite: Licensure as a Registered Nurse; NSG 450, NSG 460, and NSG 452; may be taken concurrently with NSG 470. This course provides the student with opportunities to apply managerial/leadership skills in a healthcare setting under faculty and nurse leader supervision. TU China Program.

NSG 490 **3 hours**

Special Topics in Nursing or related Health Services

Prerequisite: Approval of Nursing Division Chair. Special topics courses offer the student opportunities to explore selected topics of interest in the discipline.

NSG 507 **1 hour**

Scholarly Writing

Prerequisite: Provisional admission to a graduate program. This course expands the nursing students' composition and investigative skills to prepare to write scholarly papers using reasoned claims, scholarly resources, correct APA documentation, and a professional writing style.

NSG 604 **3 hours**
Information Technology in Nursing Administration and Education

Prerequisite: Admission to the MSN program or permission of instructor. This course focuses on the application and utilization of information technology in clinical practice, nursing administration, and nursing education. Advances in technology which support administrative decision-making and educational teaching/learning strategies are emphasized.

NSG 606 **3 hours**

Advanced Theoretical Foundations

Prerequisite: Admission to the MSN program or permission of instructor. Theories from nursing and other sciences that facilitate a comprehensive and holistic approach to care will be analyzed and their application to clinical practice and administrative and educational settings will be evaluated. An overview of the components and characteristics of advanced nursing roles will be incorporated.

NSG 608 **3 hours**

Research Design and Methodologies

Prerequisite: Admission to the MSN program or permission of instructor, and a recent course in Statistics. Principles and strategies of quantitative and qualitative research methods will be examined. Utilization of research in a variety of health care settings to ensure quality care and to improve nursing practice will be emphasized. The topic for the culminating research project will be developed.

NSG 610 **3 hours**

Policy, Law and Ethics in Nursing

Prerequisite: Admission to the MSN program or permission of instructor. This course focuses on the legal, ethical, and socio-political environment that influences health care professionals and organizations in the delivery of patient care, the administration of nursing services, and nursing education. Ethical theories and principles, recent legal decision, professional standards of practice, and codes of ethics governing nursing administration and education are applied to contemporary ethical issues in health care.

NSG 612 **3 hours**

Program Planning for Nursing Leadership and Education

Prerequisite: Admission to the MSN program or permission of instructor. This course emphasizes the elements essential in designing, implementing, and evaluating effective community educational programs, and prepares students with the knowledge and skills required for writing a project or program grant proposal.

**NSG 614 3 hours
Global Perspectives on Population-Based Health**

Prerequisite: Admission to the MSN program or permission of instructor. This course focuses on the public health issues affecting vulnerable and high-risk populations at the local, state, national, and international levels. Topics include; epidemiology, levels of disease prevention, infectious and chronic disease management, environmental factors affecting health and wellness, and international healthcare agencies and partnerships.

**NSG 616 3 hours
Leadership & Financial Management Strategies**

Prerequisite: Admission to the MSN program or permission of instructor. This course focuses on various leadership and management strategies employed when interacting with diverse individuals and populations in the health care setting. Topics include leadership theories, standards of practice for nursing administration and education, organizational structure and behavior, change theory, human resource development, and financial management.

**NSG 620 3 hours
Teaching Strategies in Nursing**

Prerequisite: Admission to the MSN program and Core Courses, or permission of instructor. This course focuses on teaching/learning theories, the analysis of various teaching strategies to include current technology and distance education modalities, role development of the nurse educator, characteristics of the learner, and selected evaluation techniques. Students learn to apply basic components of instruction in both classroom and clinical settings to meet the learning needs of diverse populations in both formal education environments as well as staff development.

**NSG 622 3 hours
Curriculum Development, Assessment, and Evaluation in Nursing Education**

Prerequisite: Admission to the MSN program and Core Courses, or permission of instructor. This course

focuses on the curriculum development process, including analysis of the internal and external environment, professional standards and trends, current philosophical approaches, curriculum and course design methods, and curriculum implementation and evaluation. Assessment, implementation, and evaluation methodologies for both formal education and staff development will be covered.

**NSG 632 3 hours
Human Resource Management for the Nurse Administrator**

Prerequisite: Admission to the MSN program or permission of instructor. This course focuses on the principles of human resource management and their application in various healthcare settings. It prepares the student to function as a nurse administrator at different levels in health-related organizations.

**NSG 636 3 hours
Healthcare Study Abroad**

Prerequisite: Acceptance into MSN program or approval by Division Chair. This elective option allows students an opportunity to study nursing and healthcare issues during a travel abroad experience. This course focuses on the major health issues affecting the country's population and policies and ethical topics relating to healthcare. Topics include: acute and chronic disease management, environmental factors affecting health and wellness, partnership with international healthcare agencies as well as a look into the culture of the native citizens to include art, music, religion, and folk remedies.

**NSG 638 3 hours
Capstone Project Conceptualization**

Prerequisite: Core Courses and permission of Division Chair. This course allows students an opportunity to conceptualize and develop their Capstone Project. During this course, students will complete their proposals, gain IRB approval, and submit drafts for chapters one through three. Completion of this course prior to NSG 642 or 646 provides students with more time for data collection and analysis. The course requires critical analysis and development of a strategy to address a need or problem in healthcare. This course is not designed for students who have already developed a proposal in NSG 608 or NSG 612.

**NSG 640 3 hours
Nursing Educator Internship**

Prerequisite: Licensure as a Registered Nurse; Core MSN courses and NSG 620; NSG 622 or consent of advisor and instructor. This 90 hour internship course provides supervised experience for the student in the role of nurse educator, applying the theories and principles of leadership, teaching/learning, evaluation, and curriculum/program design. A variety of educational settings will be used.

NSG 642 **3 hours**
Capstone Project in Nursing Education

Prerequisite: Core MSN courses; NSG 620 and NSG 622; may take NSG 640 concurrently; may also take one core class concurrently with consent of advisor and instructor. This course for nursing educators involves identifying a health care educational need, critically analyzing the need, and formulating a strategy to address the need. Demonstration of an understanding of the research process and the devising of an innovative application of research concepts will be emphasized.

NSG 644 **3 hours**
Nursing Administration Internship

Prerequisite: Licensure as a Registered Nurse; Core MSN courses and NSG 632 or consent of advisor and instructor. This 90 hour internship course provides supervised experiences for the candidate in the role of nurse administrator applying the theories and strategies of leadership, financing, and resource management in various health care settings.

NSG 646 **3 hours**
Capstone Project in Nursing Administration

Prerequisite: Core MSN courses; NSG 644 may be taken concurrently; one core class or NSG 632 or NSG 690 may also be taken concurrently with consent of advisor and instructor. This course involves the critical analysis, development, implementation, and evaluation of a strategy to address a health care need or problem in the organization. Demonstration of an understanding of the research process and an innovative application of leadership concepts will be expected.

NSG 690 **3 hours**
Special Topics in Nursing Administration

Prerequisite: Consent of advisor. Special topics courses offer the student opportunities to explore selected topics of interest in the discipline.

NSG 699 **1-3 hours**
Independent Study and Research

Prerequisite: NSG 642 or NSG 646; or consent of advisor and instructor. Students who have completed the coursework for their Capstone Project NSG 642/646 and are still actively working on their capstone project, consulting with the major professor, and / or using other resources of the university may enroll in this course. Hours are pre-determined by Capstone Project committee chair and approved by the Division Chair. Credit for this course is not to be counted toward the degree.

OCE—Oceanography

OCE 220 **4 hours**
Oceanography

Prerequisite BIO 101, BIO 102, or BIO 105. This course explores the major processes and broad-scale features of the world's oceans. It will emphasize the geological, chemical, physical and biological processes that operate in the ocean setting and begin to explain how they influence marine ecosystems. Topics include the origin and history of the ocean basins, atmospheric circulation and weather, ocean circulation, and the dynamics of waves, tides, and coastlines. The course also examines marine life (including plankton, nekton, benthos, and marine mammals), explores the oceans as a resource for people, and considers human impacts on marine environments. Lab includes required field-trips to the Gulf Coastal or similar feature.

PHS—Physical Science

PHS 220 **4 hours**
Principles of Physical Science I

This course is designed to introduce students to theories, principles, and concepts in physics, chemistry, astronomy, and the earth sciences. It begins with an introduction to the scientific method, quantitative reasoning, and scientific measurement, followed by Newtonian mechanics, gravitation, thermodynamics, electromagnetism, waves, sound, and electromagnetic radiation. The course then covers atomic and nuclear theory, the Periodic Table of Elements, physical and chemical properties of materials, chemical compounds and bonding, chemical reactions, acids and bases, and an introduction to organic chemistry. It will identify connections to the life sciences and be relevant to important global issues and concerns such as resource sustainability, energy needs, and climate change.

PHS 221 **4 hours**
Principles of Physical Science II

PHS 220 is preferred before taking PHS 221. This course is designed to introduce students to theories,

principles, and concepts in physics, chemistry, astronomy, and the earth sciences. It includes an introduction to major concepts and connections in geology, meteorology, potamology (study of rivers) limnology (study of lakes), oceanography, and astronomy. The portion on meteorology includes modules on the atmosphere and weather, solar and terrestrial radiation, heat, temperature, and circulation; clouds, the wind, precipitation, thunderstorms, tornadoes, tropical storms and hurricanes. The section on astronomy introduces the following topics: origin of the universe and the vastness of time and space; formation of the elements; characteristics of meteorites, comets, and planets; and the search for extra-terrestrial life. It will also identify connections with the life sciences and to be relevant to important global issues and concerns such as resource sustainability, energy needs, and climate change.

PHY—Physics

PHY 301-302 **4 hours**

General Physics I, II

Prerequisite: MTH 140. Two non-calculus based physics courses which include the mechanics of solids, liquids, and gases, thermodynamics, sound, light, magnetism, optics, waves and modern physics. Laboratory exercises which illustrate these topics will be used to supplement lecture material.

PSY—Psychology

PSY 125 **3 hours**

Lifespan Development

A study of human development from birth to death utilizing a biobehavioral psychosocial perspective.

PSY 201 **3 hours**

General Psychology

An introduction to the science of human behavior and mental process. Motivation, emotions, personality, memory, learning and neuroscience are some of the areas that will be discussed.

PSY 300 **3 hours**

Interpersonal Communication

This course examines both verbal and nonverbal behavior. Students will develop and improve various active listening skills, discuss body language, paralanguage, and proxemics and apply this knowledge in various activities.

PSY 305 **3 hours**

Psychology of Personal Adjustment

A course that promotes the development of self-awareness, developing close relationships, resolving interpersonal conflict, promoting psychological health, and a personal examination of goals in one's life.

PSY 310 / EDU 310 **3 hours**

Educational Psychology

Prerequisite: PSY 125. Students examine psychological principles of learning, cognition, motivation, behavior, and the practical implications of these principles for teaching and learning. The development of skills to interpret behavior and classroom interactions within a framework of psychological theory will be a major feature.

PSY 320 **3 hours**

History of Psychology

This course surveys the origins and developments of psychology as a science, including its various systems of thought and the current status of each.

PSY 340 **3 hours**

Social Psychology

Study of group interactions and processes. Leadership, decision-making, conflict resolution, group processes, persuasion, and attitude formation and change are all investigated as they impact institutions from families to corporations.

PSY 345 **3 hours**

Psychology of Religion

This course is designed to provide an overview of the Psychology of Religion. Topics include history, methods, religious development, conversion, morality, helping behavior, prejudice, death, and health, as well as related topics such as the relationship between science and religion, the religion of psychologists, and forgiveness.

PSY 350 **3 hours**

Psychological Tests and Measurements

Prerequisites: MTH 250, and PSY 201. A critical review of the substantive and psychometric tests and procedures for the construction of psychological instruments.

PSY 351 **3 hours**

Sport Psychology

Prerequisites: PSY 125 or PSY 201. This course is designed to introduce students to the field of sport psychology by providing a broad overview of the major topics in the field. Various psychological theories and research related to sport psychology will be explored,

including growth and development, personality and social factors, practice, and training as they relate to the athlete and coach.

PSY 360 **3 hours**

Theories of Personality

Prerequisites: PSY 125 and PSY 201. A survey of theory and research on the development of personality characteristics.

PSY 365 **3 hours**

Stress Management

This course develops students' understanding of stress from physiological, cognitive, and behavioral perspectives. Students will practice a variety of strategies and techniques to reduce stress.

PSY 370 **3 hours**

Health Psychology

This is a survey course examining the contributions of psychological research to the understanding, prevention, and treatment of a variety of health concerns. The biopsychosocial model will be applied to better understand factors which influence health.

PSY 380 **3 hours**

Forensic Psychology

This course provides a broad overview of the field of forensic psychology and how psychology interacts with the law.

PSY 390 **3 hours**

Positive Psychology

Positive psychology is the scientific and applied approach to uncovering people's strengths and promoting their positive functioning. This course will focus on positive emotional states and processes, positive cognitive states and processes, and pro-social behavior.

PSY 400 **3 hours**

Cognitive Psychology

Prerequisites: PSY 125 and PSY 201. Research and theory relating to attention, memory, problem solving, information processing, decision making, reasoning, expert systems, biological and artificial neural networks, and serial and parallel processes.

PSY 401 **3 hours**

Counseling Techniques

Prerequisites: PSY 125 and PSY 201. Overview of approaches to psychopathology, methods of clinical assessment, and various approaches to individual and group counseling.

PSY 423 **3 hours**

Abnormal Psychology

Prerequisite: PSY 201. This course provides students with an introduction to abnormal psychology. Various psychological disorders will be discussed with an emphasis on diagnostic criteria, treatment, and long-term implications. Current and historical concepts will be analyzed related to contextual issues of mentally ill persons.

PSY 430 **3 hours**

Theories of Personal Relationships

Prerequisites: PSY 125 and/or PSY 201. This course surveys the major theories and research findings regarding personal relationships, and includes discussion of interpersonal attraction, liking, loving, romance, communication, and therapeutic interventions.

PSY 433 **3 hours**

Psychology of Grief Counseling

Prerequisites: PSY 125 and/or PSY 201. This course introduces students to the study of grief and loss, and examines empirical models of grief counseling. Theories and research related to the multiple dimensions of grief, including normal and atypical grief, are reviewed. Emphasis is placed on developing counseling skills necessary for facilitating healing.

PSY 440 **3 hours**

Industrial/Organizational Psychology

This course will introduce methods, practice, research, and theories of Industrial and Organizational (I/O) Psychology. I/O psychology is a subfield of psychology concerned with various aspects of people in the workplace, including employee productivity and well-being. Both real-world applications and research will be emphasized throughout the course.

PSY 445 **3 hours**

Professional Standards and Ethics

Prerequisites: PSY 125, and PSY 201. The purpose of this course is to provide an introduction to the role of ethics in psychological practice and psychological science. The goals are for the students to: (1) integrate the ethics materials presented with personal morals and values into a professional model, and (2) be able to develop logical and rational moral and ethical analyses of ethical problems that occur in psychology.

PSY 450 **3 hours**

Research in Psychology

Prerequisite: MTH 250. This course provides an introduction to psychological research technique with an emphasis on firsthand data collection. Project work introduces students to research design.

PSY 452 **3 hours**
Directed Research in Gerontology

Prerequisites: Psychology major or pursuing Minor in Gerontology. This course is designed for seniors majoring in psychology and/or those students pursuing a minor in gerontology. Students are provided a supervised experience in research related to gerontology. Analysis and observation techniques are used.

PSY 460 **3 hours**
Psychology of Aging

This course examines cognitive processes, and the psychological and social factors shaping behavior during the aging process, as well as the impact of the cultural context on aging, from a psychological perspective.

PSY 490 **3 hours**
Special Topics

Special topics courses offer the student opportunities to explore selected topics of interest in the discipline. See advisor for special topics and permission to enroll.

PSY 495 **3 hours**
Psychology Practicum

Prerequisite: Psychology Major. This course provides a supervised experience in the field of psychology or research and is designed for juniors or seniors majoring in psychology. The course requires a minimum of 100 clock hours within the work setting and weekly supervision meetings with the professor.

RCE—Clinical Rehabilitation and Mental Health Counseling

RCE 601 **3 hours**
Introduction to Counseling

This course introduces the student to the field of counseling. Topics will include: History and legislation affecting individuals with physical and psychiatric disabilities and persons from other at-risk groups; rehabilitation and mental health terminology and concepts; philosophical foundations of rehabilitation and mental health counseling; ethical standards for rehabilitation counselors and mental health counselors; expert testimony; attitudinal and environmental barriers faced by individuals with disabilities; support services and community

resources; and the various fields of counseling including the public and private sector.

RCE 603 **3 hours**
Substance Abuse Counseling Methods

Students will acquire the skills necessary to counsel and provide direct services to individuals who have, or have had, substance abuse (alcohol, drugs, inhalants, prescription medication, etc.) problems and/or their family members. Students will learn about addiction issues and will develop the skills necessary to work effectively with this population, including identifying co-occurring disorders and the treatment needs involved with dual diagnosis. Students will also be exposed to the legal and ethical issues related to this at-risk population.

RCE 604 **3 hours**
Ethics in Addiction & Alcoholism

This course will provide students with an overview of ethical principles that guide professional conduct in the substance abuse field. Other topics reviewed in the course will include ethical considerations unique to the field of substance abuse, ethical decision making models, ethics in substance abuse research, and legal implications.

RCE 605 **3 hours**
Medical Aspects of Disability

This course provides an overview of medical terminology, body systems and the disabilities that occur when one or more of the body systems are affected by illness, injury, or genetic predisposition. Students will be able to read and understand medical records; describe the medical and rehabilitation consequences of various disabling conditions including functional capacities and limitations; describe the vocational implications for these disabling conditions; and analyze existing community resources for these disabling conditions.

RCE 607 **3 hours**
Crisis Counseling

This course provides an examination of issues and skills involved in assisting clients dealing with crisis situations. The progression and symptomatology of crisis functioning are presented with models and techniques for appropriate psychological, educational, and specialized intervention techniques for use with clients.

RCE 611 **3 hours**
Psychosocial and Multicultural Aspects of Disability

This course provides students with a basic understanding of psychological and social terminology, the community integration and independent living movement, and intervention methods necessary to enable individuals with disabilities adjust to having a disability. Students will be able to describe the psychological, cultural, and social consequences of various disabling conditions including functional capacities and limitations, describe the vocational implications for these disabling conditions, the impact of culture on these concepts, and analyze existing community resources for these disabling conditions.

RCE 620 **3 hours**

Theories and Techniques of Counseling

This course will familiarize students with the terms, concepts, and principles of the major counseling theories, individual counseling practices and interventions, behavior and personality theories, and human growth and potential. Students will begin to develop their own individual philosophy of and approach to counseling and understand how their philosophy and approach impacts their work with their clients. Students will learn individual counseling skills and interventions through role playing, and hands-on experience.

RCE 621 **3 hours**

Case Management and Community Resources

This course provides an overview of the case management process, community resources and services available, and financial resources available for rehabilitation services. Students will develop the competencies necessary to provide timely, cost effective, and efficient services. They will examine the organizational structure of public rehabilitation programs and non-profit service delivery systems.

RCE 622 **3 hours**

Theories and Techniques of Group Counseling

Group counseling theories, practices and interventions will be examined. Students will understand the role of group work within various rehabilitation settings and how to apply group principles and techniques in their work with clients. Students will be required to participate in a lab experience where they will utilize principles of group dynamics, communication, processes, stages and goals, leadership, democratic group procedures, individual and group resistance and initiation and development of small groups.

RCE 630 **3 hours**

Assessment and Evaluation

Students will analyze and use the principles and theories of testing, assessment and evaluation. Specific topics will include types of tests, work samples, situational assessments to assess developmental variables, vocational skills, functional and physical capacities and personality characteristics. Interpretation of assessment results and report writing will be an integral part of the course.

RCE 640 **3 hours**

Psychopathology and Diagnosis

Prerequisite: RCE 611. This course examines policies, regulations, and services dealing with mental disorders, addiction, and co-occurring disorders. As a result of this class, students will be introduced and become familiar with the use of the Diagnostic and Statistical Manual of Mental Disorders (DSM-V). The major categories and diagnostic criteria of mental disorders and chemical abuse are explored. Issues related to the mental wellness of culturally diverse groups are studied.

RCE 645 **3 hours**

Legal, Ethical & Cultural Issues in Counseling

Prerequisite: RCE 611. Students will learn the guidelines to analyze ethical dilemmas and choose appropriate action under the protocols and regulations of the Code of Professional Ethics for Certified Rehabilitation Counselors (CRC) as adopted by the Commission of Rehabilitation Counselor Certification, as well as the American Counseling Association (ACA) Code of Ethics. This course will examine ethical issues, supervision, trends, developments, and multicultural issues related to competent professional practice. Components of self-awareness, culture-specific knowledge, and skills as they pertain to counseling members of diverse and under-represented populations will be examined and practiced.

RCE 655 **3 hours**

Foundations of Career Development and Job Placement Services

Students will examine current theory and practice in career development for individuals with physical and mental disabilities. Employment services such as work adjustment, job development, job modification, vocational planning, and job placement strategies will be explored. Students will learn how to educate employers regarding accommodations, job modification and restructuring, as well as, how to implement supported employment, job retention

skills, and post-employment services. Students will learn career and vocational placement skills through experiential exercises, assessment evaluation, and report writing.

RCE 660 **3 hours**
Occupational Information & Vocational Analysis

This course provides an overview of the theories of career development, work adjustment, and the planning of vocational rehabilitation services. The vocational implications of disability, employer practices regarding return to work issues, and job modification and structuring techniques will be explored.

RCE 662 **3 hours**
Job Development and Job Placement

Students will examine current theory and practice in career development for individuals with disabilities. Employment strategies including innovative job development, job modification and carving, job creation, labor market analysis and job placement strategies will be explored. Students will learn how to provide supported employment, follow-up, job retention, and post-employment services. Students will learn to teach job seeking and job retention skills to individuals from various at-risk groups through experiential exercises. Interpretation of assessment results and report writing will be an integral part of the course.

RCE 665 **3 hours**
Human Sexuality

This course will review issues regarding sexuality and gender that the counseling professional will encounter in working with varied populations including people with disabilities. Attention is given to the lifelong process of acquiring information and forming attitudes, beliefs, and values about others and ourselves. Relationships, sexual behavior, sexual health issues, sexual orientation and the development of sexual identity will be explored. The course is designed to increase the participants' knowledge about these topics and to facilitate their ability to communicate effectively about issues related to sexuality in their personal life and professional practice.

RCE 668 **3 hours**
Co-Occurring Disorders and Trauma

Prerequisites: RCE603 or prior work experience in the field of addictions and approval by the Advisor. This course covers crisis and trauma theory with an emphasis on its impact on the development and

exacerbation of substance abuse and addiction disorders. An emphasis on resiliency oriented approaches to recovery from trauma and drug abuse/alcoholism will be explored while stressing the importance of a multidisciplinary response to co-occurring disorders. Research supported assessment and intervention strategies for addressing the cognitive, affective, behavioral, and neurological symptoms associated with trauma and addictions will be explored in detail through evidence-based practices of treatment effectiveness.

RCE 672 **3 hours**
Behavioral Research Methods

This course will introduce students to rehabilitation and mental health research literature and research methodology so that they can become intelligent consumers of research. Students will learn the evaluation procedures necessary to effectively assess services, develop needs assessments, and design research projects. Frequently utilized qualitative and quantitative research approaches will be examined, and students will become knowledgeable about the scientific approach in counseling research, statistics and research design, hypothesis testing, research proposal development and research utilization.

RCE 678 **3 hours**
Psychopharmacology of Addictive Drugs

Prerequisite: RCE 603 or prior work experience in the field of addictions and approval by the Advisor. This course provides students with an advanced understanding of the physiological and behavioral processes involved in psychoactive substance use, misuse, and addiction. An emphasis will be placed on the major and minor classifications of drugs, the biology and pharmacology of commonly abused legal and illegal psychoactive substances, and the relationship between addictive behavior and common psychological disorders. The course will include the impact of drug metabolism on brain chemistry, its impact on dependence, tolerance and withdrawal, and the application of prevention, recovery and maintenance treatment planning.

RCE 680 **3 hours**
Counseling Practicum

Prerequisites: Acceptance in the Clinical Rehabilitation and Mental Health Counseling program, completion of a minimum of 12 hours of course work including RCE601, RCE605, RCE611 and RCE620, or approval of the Fieldwork Coordinator. The Practicum experience provides the opportunity for students to develop primary counseling skills and integrate their

knowledge in the field of rehabilitation and mental health counseling under clinical and faculty supervision through a minimum of 100 clock hours over the academic term. A 1-hour weekly individual supervision meeting with the site supervisor, and a 1.5-hour group supervision meeting with a faculty supervisor is a mandatory requirement of this course.

RCE 681 **3 hours**

Counseling Internship I

Prerequisite: Successful completion of clinical and academic requirements of RCE 650 Counseling Practicum. This course may be taken in conjunction with RCE652 Counseling Internship II upon approval of the Fieldwork Coordinator. The Internship I experience provides the opportunity for students to apply theory and develop counseling skills in the field of rehabilitation and mental health counseling under clinical and faculty supervision. A minimum of 450 clock hours in the student's designated program area is required with at least 40% of those hours constituting direct client contact. The internship experience will provide opportunities for the student to become familiar with a variety of professional activities in addition to direct services. A 1-hour weekly supervision meeting with the site supervisor and a 1.5-hour group supervision with a faculty supervisor is a mandatory requirement of this course.

RCE 682 **3 hours**

Counseling Internship II

Prerequisite: RCE681 Internship I or Advisor permission to take in conjunction with RCE681. The Internship II experience provides the opportunity for students to demonstrate advanced theory and counseling skills in the field of rehabilitation and mental health counseling under clinical and faculty supervision. A minimum of 450 clock hours in the student's designated program area is required with at least 40% of those hours constituting direct client contact. The internship experience will provide opportunities for the student to master a variety of professional activities in addition to direct services. A 1-hour weekly supervision meeting with the site supervisor and a 1.5-hour group supervision with a faculty supervisor is a mandatory requirement of this course.

RCE 683 **3 hours**
Counseling Internship III

Prerequisites: Successful completion of clinical and academic requirements of RCE 652 Counseling Internship II OR upon approval of the Fieldwork Coordinator. The Internship III experience provides the opportunity for students to apply theory and develop counseling skills in the field of substance abuse counseling. A minimum of 450 clock hours in the student's designated program area is required with at least 40% of those hours constituting direct client contact. This internship experience will provide opportunities for the student to become familiar with a variety of professional activities related to substance abuse counseling. A 1-hour weekly supervision meeting with the site supervisor and a 1.5-hour group supervision with a faculty supervisor is a mandatory requirement of this course.

RCE 685 **3 hours**

Marriage and Family Counseling

This course examines the concept of marriage and family dynamics as well as a review and critique of various theoretical approaches. Marital and family relationships are viewed in political and historical contexts. Students will gain knowledge of specific assessment and counseling interventions. Special emphasis is placed on marital counseling and family relationships in diverse and special populations.

RCE 688 **3 hours**

Human Growth and Development

This course provides an understanding of the nature and needs of individuals at all developmental levels and in multicultural contexts, including learning styles and personality development, normal and abnormal behavior, and lifespan transitions. Students will be able to demonstrate an understanding of individual and family development, the impact of crises or trauma-causing events that affect individual and family functioning, as well as theories for facilitating optimal development and wellness across the life span.

RCE 698 **3 hours**

Clinical Rehabilitation and Mental Health Counseling Capstone

Throughout this course, students will demonstrate mastery and growth in Clinical Rehabilitation and Mental Health Counseling program objectives and an understanding of the program's mission. Students will provide evidence of knowledge and skill acquisition, and commitment to the counseling profession that has occurred over their course of study in the masters program. A portfolio will be compiled composed of new and completed assignments that address core

counseling domains. Successful completion of this course is required for graduation.

RCE 699 **1 hour**

CRC Exam Preparation

Prerequisite: Application on file for next exam. The process of applying, preparing and taking the Certified Rehabilitation Counselor (CRC) exam will be addressed. It will cover a comprehensive review of all materials presented within the context of the Master's in Clinical Rehabilitation and Mental Health Counseling program as well as address test-taking tips, share study strategies, and conduct practice exams.

RDE—Reading Education

RDE 450 **3 hours**

Reading in Content Areas

This course is designed to introduce teacher candidates to the teaching of content reading to adolescents. The focus will be on the application of comprehension/study strategies to content texts. Diagnosis and remediation strategies will be discussed.

RDE 452 **3 hours**

Teaching Reading

This course is designed to provide teacher candidates with knowledge of current approaches and methods for teaching reading in elementary schools. Attention is directed towards emergent literacy, reading skills, reading as part of the language arts, and planning and organizing a reading program.

RDE 454 **3 hours**

Children's Literature

The purpose of this course is to introduce teacher candidates on how to build a literature curriculum and implement strategies for integrating literature and multicultural education into the classroom curriculum. Teacher candidates will have the opportunity to critically survey literature for children and to consider a variety of teaching techniques. Social issues and multicultural factors presented in literature for children will be explored.

RDE 455 **3 hours**

Diagnosis and Remediation of Reading Difficulties

This course is designed to provide teacher candidates with an understanding of difficulties in reading, assessment procedures for diagnosing reading difficulties, and strategies for corrective treatment through class discussion and through individual work completed with a struggling reader.

RDE 651 **3 hours**

Foundations of Literacy and Assessment

This course applies important historical, theoretical, and research foundations in literacy processes, components, and acquisition to elementary, middle, and high school students. Topics include developmental stages of reading and writing acquisition, major components of reading (e.g., phonological awareness, word identification, comprehension, vocabulary, fluency, motivation, and higher-order cognitive skills), social, linguistic, and diverse cultural influences on learning literacy. From these foundational concepts students will apply assessment practices, with an emphasis on identifying children who struggle with pre-literacy or literacy skills.

RDE 653 **3 hours**

Comprehension, Curricular, and Programmatic Strategies for Improving Literacy Across the Content Areas

This course examines major components of reading comprehension, text-based strategies, writing, study skills, curriculum choices, programmatic strategies, and diverse socio-cultural influences on improving literacy skills. Students in this course will increase their knowledge base for these components and apply that knowledge to assessment, instructional, and programmatic practices.

RDE 654 **3 hours**

Enhancing Literacy with Literature

This course focuses on teachers' integration of appropriate trade books across the curriculum. Its focus is to help teachers develop literacy and critical thinking in their learners, as well as to motivate their students to become life-long readers of quality literature. Teachers will identify and apply best pedagogical practices in planning thematic literature-based lessons and teaching units to enhance literacy. The course also provides opportunities for teachers to read and discuss age appropriate selections of award winners and other valuable literature.

RDE 656 **3 hours**

Patterns of Practice in the English Language Arts

This course focuses on strategies and methods classroom teachers use to enhance their students' communication abilities in the areas of listening, speaking, reading, writing, and viewing. Relationships among these communications skills will be examined to identify strategies for developing balanced language arts skills in all curricular areas. Standards of appropriate learned societies relating to

communication skills will be analyzed for applicability across curricular areas.

REA—Reading

REA 099 **3 hours**

* College Reading Skills

Focuses on improving college reading skills, with an emphasis on literal and critical comprehension and vocabulary development. Institutional credit.

* Placement by examination

REA 111 **1 hour**

Critical Writing, Reading, and Thinking Skills

This course fosters the development of critical reading and thinking skills needed for success in college courses; students will learn to read, discuss, interpret, document and summarize professional articles and materials. Can be taken concurrently with ENG 101 or other courses that require article summaries.

REA 311 **3 hours**

Advanced Critical Writing, Reading, and Thinking Skills

This course expands critical reading, thinking, and writing skills needed for success in college courses through in-depth attention to reading and writing strategies and extended practice. Can be taken as an upper division elective only with permission of major advisor.

REL—Religion Studies

REL 210 **3 hours**

Introduction to World Religion

Prerequisite: ENG 101 and ENG 102. A survey of the development of religious ideas in early human communities as well as the origins and central teachings of the major living religious traditions, including Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, Taoism and Shintoism. This course can be used to fulfill a core curriculum Humanities requirement.

RHS—Rehabilitation Studies

RHS 315 **3 hours**

Cultural Diversity

This course provides students with the knowledge and skills to work with physically, socio-economically, mentally, psychologically, and economically disadvantaged and oppressed people. Attention is given to ethnic minorities of color, women, people with disabilities, gay and lesbian people, the poor, and the oppressed. A multi-dimensional, cross-cultural framework is used for assessments and interventions

with consumers from diverse groups. Students learn to identify and emphasize the adaptive capabilities and strengths of disadvantaged and oppressed people.

RHS 320 **3 hours**

Introduction to Rehabilitation Studies

This course provides an introduction to the field of Rehabilitation Studies by presenting information related to the history and development of the field, legal and legislative aspects of rehabilitation, the role and function of the rehabilitation professional, current practices and trends in the field of rehabilitation, and general knowledge regarding conditions that are typically served by the discipline of rehabilitation.

RHS 325 **3 hours**

Crisis Intervention

This course is an introduction to the models and techniques of time-limited crisis intervention. Students learn the principals involved in helping clients toward resolution of their concerns, and practice the micro-skills involved in goal-oriented efficient brief crisis intervention. By using these skills, students then develop resolution-focused, immediate crisis intervention strategies. Specific crisis intervention practices include suicide prevention, outreach approaches, and disaster intervention.

RHS 332/SWK 332 **3 hours**

Introduction to Substance Abuse

This is an introductory course on substance abuse that will provide an overview including the history of substance abuse. The course will include the major drugs, including alcohol, opiates, stimulants, sedatives, hallucinogens, inhalants. The course will also examine the effects of substance abuse on the individual, family and society and according to the group(s) the individual is a member, i.e., racial, ethnic, gender. Students will also be introduced to treatment options for substance abusers, including evidence-based strategies.

RHS 335 **3 hours**

Case Management & Community Resources

This course provides an introduction to the field of Rehabilitation by presenting general information related to the history and development of the field, the models of case management, the phases of case management process, general knowledge about documentation procedures and organizational skills, an understanding about case load burn out, and other survival techniques useful for the case management profession.

RHS 340 **3 hours****Ethical Practices in Rehabilitation**

This beginner course in ethics will examine code of ethics in rehabilitation, ethical decision-making, ethical issues and the law, and legal and liability concerns facing practitioners working in the public and private rehabilitation field. It will expose students to the implications of unethical behavior and the challenges practitioners must address. Students will evaluate their cultural self-awareness and examine their personal views of ethics in their future careers.

RHS 345 **3 hours****Treatment Models for Addictions**

Prerequisite: RHS332 or prior work experience in the field of addictions approved by Advisor. The treatment of addictions from various theoretical perspectives and treatment models will be analyzed, including motivational interviewing, cognitive-behavioral theories, 12-step oriented treatment, family therapy techniques, and neurobiological bases of addiction treatment. Particular focus will be given to integrating theory, research, and analysis in the case management of substance abuse treatment.

RHS 355 **3 hours****Theoretical Counseling Approaches to Rehabilitation**

This course will offer a general overview of theories and approaches with additional information on basic techniques. Special consideration is given to working with various populations including persons with physical disabilities, mental and psychological disabilities, drug addictions, and other challenges. Professional issues such as ethics, supervision, and state and federal legislative restrictions are covered.

RHS 360 **3 hours****Counseling Practicum**

This course provides a supervised experience in a rehabilitation setting and an opportunity for the student to explore the rehabilitation field. The course requires a minimum of 100 clock hours within the work setting, 40% of practicum hours as client contact hours, and a weekly 1.5-hour group supervision meeting.

RHS 365 **3 hours****Evidence-based Rehabilitation**

This course will introduce students to the underpinnings of evidence-based rehabilitation. Students will be educated on the importance of using evidenced-based practices, finding evidenced-based information, evaluating research, and integrating evidenced-based rehabilitation into practice settings.

RHS 380 **3 hours****Professional Communication in Rehabilitation**

This course examines communication styles and techniques and how various medical, educational, and allied health care professionals collaborate to engage strategies for effective delivery of services to eligible clients with disabilities. Students will learn problem-management and opportunity-development framework skills, as described in Skilled Helper Techniques.

RHS 390 **3 hours****Vocational Development**

This introductory course will examine current theory and practice in career development for individuals with disabilities. Students will be given a basic overview of current vocational programs in operation, how they function, and key practical applications will be taught for counselors working with persons with disabilities. Students will learn about supportive employment programs, assessments, labor market surveys, and various tools Rehabilitation Counselors use to assist clients.

RHS 435 **3 hours****Pharmacology of Drug Abuse**

Prerequisite: RHS332 or prior work experience in the field of addictions approved by Advisor. Students are introduced to the pharmacological treatment of tolerance, dependence, withdrawal, and recovery faced by persons with drug abuse issues. A series of case studies will be presented to analyze the efficacy of current evidence-based practice guidelines associated with the treatment of addictions and alcoholism. Symptoms of drug abuse are further explored to help students gain familiarity with the experiences of persons with dependence.

RHS 445 **3 hours****Concurrent Disorders**

Prerequisite: RHS332 or prior work experience in the field of addictions approved by Advisor. This is an overview of the complex treatment challenges associated with concurrent disorders and the treatment modalities associated with facilitating the recovery process. Particular focus will be given to case management approaches associated with the treatment of individuals with dual disorders, group interventions, and working with families.

RHS 450 **3 hours****Vocational Assessment**

This course will teach students how to analyze and use the principles and theories of testing, assessment, and evaluation in relationship to Rehabilitation Counseling. General topics will include types of tests, work samples, situational assessments to assess developmental variables, vocational skills, functional and physical capacities, and personality characteristics. Students will learn to interpret assessment results and basic report writing skills will be taught. Students will learn to develop, write, and present a Vocational Assessment.

RHS 460 **3 hours**
Medical & Health Issues in Rehabilitation

This course will provide a survey of essential medication information, medical terminology, etiology, prognosis, and treatment procedures. Vocational and independent living implications will be covered for each major disability group. The adjustment process that consumers and their families experience is also addressed, along with a general health overview of how Rehabilitation Counselors can assist clients in medical and health care issues within the job environment context.

RHS 470 **3 hours**
Internship I

Prerequisite: RHS 380. This course provides a supervised experience in a rehabilitation setting and an opportunity for the student to gain experience in the rehabilitation field. The course requires a minimum of 150 clock hours within the work setting, 40% of the hours as client contact hours, and a weekly 1.5-hour group supervision meeting.

RHS 472 **3 hours**
Internship II

Prerequisite: RHS 470. Internship II provides the third component of the total internship hours required for this program. This course is a supervised experience in a rehabilitation setting and an opportunity for the student to gain additional experience in the rehabilitation field. The course requires a minimum of 150 clock hours within the work setting, 40% of the hours as client contact hours, and a weekly 1.5-hour group supervision meeting.

RHS 475 **3 hours**
Rehabilitation Research

Prerequisite: MTH 250. This course provides an introduction to behavioral and social research techniques with an emphasis on firsthand data

collection. Project work introduces students to research design.

RHS 485 **3 hours**
Assistive Technology

The primary goal of this course is to introduce students to the basics of assistive technology, technology advancements, and how assistive technologies aid persons with disabilities. Students will become familiar with the historical aspects of assistive technology, understand how assistive technology and resources can be located and applied with clients of various disabilities, and be able to implement assistive technology with persons with disabilities to achieve autonomy.

SEC—Secondary Education

SEC 327 **3 hours**
Methods and Strategies for Teaching Early Adolescent Learners

Prerequisite: EDU 316 and EDU 350. Co-requisite: EDU 340 and ECE 460. This course focuses on research-based effective teaching methods and strategies for teaching early adolescence learners, with attention provided to the characteristics of diverse and exceptional learners in the classroom and assessment of student learning. This course requires a field placement in a 4th-8th grade setting, depending on major.

SEC 428 **3 hours**
Developing Pedagogical Content Knowledge for Teaching High School Learners

Prerequisite: EDU 327, EDU 340, and EDU 460. Co-requisite: EDU 468. The focus of this course is to examine research-based pedagogical content knowledge that engages high school in active learning that results in student's acquisition of essential knowledge and skills. This course requires a field placement in a high school setting, beginning with the first day of the assigned school district calendar, for three days a week until the end of the semester.

SEC 429 **10 hours**
Student Teaching

Prerequisite: All program courses in Professional Core I, II, and III. Co-requisite: SEC 430. The purpose of this course is to provide full immersion in the school community in order to further develop and demonstrate competence in the professional role as a high school teacher. This course requires full-time participation in a school for 15 weeks.

SEC 430 **2 hours**

Student Teaching Seminar

Prerequisite: All program courses in Professional Core I, II, and III. Co-requisite: SEC 429. The purpose of this seminar is to examine the knowledge, skills, and dispositions essential to the positive career path of the high school teacher, from teacher candidate to early career professional.

SOC—Sociology

SOC 201 **3 hours**
Introduction to Sociology

Prerequisite: ENG 101. An introduction to the field of sociology involving how society and its component parts are structured, including an analysis of the development and function of social institutions: government, economy, education, family, and religion.

SOC 401 **3 hours**
Sociology of Sport

Prerequisite: SOC 201 or permission of instructor. This course focuses on the cultural and social aspects of sports. Students will use sociological concepts and theories to explore the relationship between sports and society. Topics will include socialization through sport, deviance in sport, violence in sport, gender issues in sport, race and ethnicity, sports and economy, sports and media, sports and politics, sports and religion, and sports and education.

SPE—Speech

SPE 105 **3 hours**
Oral Communication for Professionals

An introduction to speech, designed to develop responsible, capable spoken communication, by building skills in researching and thinking critically about topics, organizing thoughts and ideas, and making professional presentations.

SPE 311 **1-3 hours**
Community Dialects

This course will help students develop their ability to communicate effectively in a variety of contexts by enabling them to understand differences between individual dialects and General American Dialect and thus develop skills in switching between community and general dialects.

SPN—Spanish

SPN 101 **3 hours**
Beginning Elementary Spanish I

Prerequisite: "C" or better in ENG 101 or consent of the instructor. This course is designed for the beginning student with limited or no previous experience in Spanish. First semester, is an introductory sequential course that develops the four language skills of listening, speaking, reading and writing with emphasis on communicative competence. Basic concepts of Spanish and Hispanic culture are also introduced so the students may learn about the values and aspects of everyday life in Spanish speaking countries.

SPN 102 **3 hours**
Advanced Elementary Spanish II

Prerequisite: "C" or better in ENG 101 or consent of the instructor. This course is a direct continuation of SPN 101 with further development of the four language skills to a higher novice level and continued introduction to the Hispanic culture. Students will acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the high beginner level while taking more and more opportunities for conversation.

SPN 201 **3 hours**
Intermediate Spanish

Prerequisites: SPN 102 or equivalent. A review of the essentials of reading, writing, and speaking skills in order to develop the use of the language.

SPN 202 **3 hours**
Conversational Spanish

Prerequisite: SPN 102. This course is designed to provide students with a working knowledge of basic, practical vocabulary, idioms, and usage to develop fluency.

SPS—Sport Studies

SPS 300 **3 hours**
Injury Prevention

Prerequisites: BIO 261 or BIO 280. This course will discuss common athletic injuries and the prevention and treatment of these injuries. This course will also cover basic nutrition principles and the impact of proper nutrition on athletic injuries.

SPS 350 **3 hours**
Introduction to Sport Management

This purpose of this course is to provide students with a general understanding of the Sport Management field. Through the course, students will learn about the breadth of the sport industry, the different areas

which comprise the industry, and the prospective employment opportunities in Sport Management.

SPS 420 **3 hours**

Coaching Theories and Methods

Prerequisites: SPS 300 or SPS 350. Potential coaches must learn a variety of skills to deal with a diverse range of issues, concerns and problems which are faced daily. Coaching is a complex profession which incorporates aspects of many other professions, including strength coaching, academic advising, sport psychology, athletic training, and counseling. Students will learn the principles of coaching as well as begin to form their own basic coaching philosophy.

STA—Statistics

STA 450 **3 hours**

Quantitative Applications of Statistical Methods

Prerequisite: MTH 250. A study of advanced quantitative techniques for measurement, analysis, and inference of empirical data. Students will have direct experience with research design, data collection, analysis, and reporting. The course will make extensive use of the SPSS for Windows computer software. Emphasis will be placed on experimental research.

STA 471 **3 hours**

Qualitative Research Methods

Prerequisite: MTH 250. An introduction to methods of data collection, data reduction, data display, conclusion and verification in qualitative analysis. The course will expose the student to computer software available for use in qualitative analysis.

SSC—Social Sciences

SSC 417 **3 hours**

Senior Thesis

Prerequisites: 2 IDS Core Classes. Students create an annotated bibliography, develop an in-depth paper or project, and give a presentation on a topic selected in consultation with the thesis advisor. The course develops advanced skills in research, organization, synthesis, evaluation, and presentation.

SWK—Social Work

SWK 201 **1-3 hours**

Leadership and Community Service

This course is designed to prepare students for a lifetime of engaged, responsible and active community involvement and leadership. In class, students will learn about leadership skills and styles and how to most effectively assess and assist organizations in their

community. Outside of class, students will be required to provide volunteer service to an approved placement site in their local community for an approved number of hours.

SWK 301 **3 hours**

Introduction to Social Work

This course provides an introduction to the social welfare institution and the profession of social work. It focuses on the values, ethics, and methods of generalist social work practice with an emphasis on diversity. Students will be introduced to basic social welfare policies, community agencies, and at-risk populations. Students are also introduced to the Core Competencies and Behavioral Indicators necessary to become a social worker through the Thomas University's Division of Social Work "Passport to the Profession".

SWK 315 **3 hours**

Cultural Diversity

This course provides students with the knowledge and skills to work with physically, socio-economically, mentally, psychologically, and economically disadvantaged and oppressed people. Attention is given to ethnic minorities of color, women, people with disabilities, gay and lesbian people, the poor, and the oppressed. A multi-dimensional, cross-cultural framework is used for assessments and interventions with consumers from diverse groups. Students learn to identify and emphasize the adaptive capabilities and strengths of disadvantaged and oppressed people.

SWK 320 **3 hours**

Child Welfare

This elective course focuses on social work practice with children, youth and families involved in the child welfare system. It emphasizes the needs and problems of children and families and the policies and services which have developed to meet those needs.

SWK 321 **3 hours**

Gender Issues

This elective course is designed to acquaint students with the forces which affect genders differently, including sexuality, race, ethnicity, religion, socioeconomic class, physical ability, age, and national citizenship. Sex role socialization and its impact on opportunities and life choices will be examined.

SWK 330 **3 hours**

Social Gerontology: Family and Caregiving Issues

This course studies the social phenomenon of aging in our society, including the aging process, and the

impact not only on the elderly, but families and caregivers who support and sustain them. Areas of particular focus include the biopsychosocial assessment of the caregiving system, an understanding social support networks, and the ability to understand the financial resources of Medicare, Medicaid, Medicare Part D, Medigap, and other insurance programs.

SWK 331 **3 hours**
End of Life Issues

This elective course explores the student's professional and personal issues concerning death, grief, and bereavement. Emphasis is placed on the concepts and issues related to psychosocial aspects of grief and loss over the life continuum.

SWK 332/RHS 332 **3 hours**
Introduction to Substance Abuse

This is an introductory course on substance abuse that will provide an overview including the history of substance abuse. The course will include the major drugs, including alcohol, opiates, stimulants, sedatives, hallucinogens, inhalants. The course will also examine the effects of substance abuse on the individual, family and society and according to the group(s) the individual is a member, i.e., racial, ethnic, gender. Students will also be introduced to treatment options for substance abusers, including evidence-based strategies.

SWK 333 **3 hours**
Understanding Family Violence

This elective course studies various family issues with a particular emphasis on family violence from medical, social, and legal perspectives. Topics include: spousal abuse, sibling abuse, child abuse, sexual abuse, sexual harassment, and victim's rights.

SWK 340 **3 hours**
Behavioral Health and the DSM (Diagnostic and Statistical Manual)

This elective course identifies various diagnoses, treatment strategies, policies, regulations, and services dealing with the problems of mental illness, addictions, and developmental disorders. Issues of ethnic minority groups and women which relate to mental wellness are explored. Students will become familiar with the use of the Diagnostic and Statistical Manual of Mental Disorders (DSM).

SWK 344 **3 hours**
Human Behavior in the Social Environment

This course explores the knowledge base for generalist social work practice. It emphasizes the integration of knowledge of the liberal arts, social sciences, and empirical research needed to effectively assess the behavior of individuals and collective interactions with the environment. Students are introduced to two organizing theoretical perspectives, systems/ecological and values and oppression, and learn to address biopsychosocial influences on human functioning.

SWK 348 **3 hours**
Social Welfare Policy

This course is an introduction to social welfare policy, major perspectives on the function of social welfare in society, and the implications of these perspectives for the professional practice of social work. Selected methods of policy analysis are introduced. Students will examine the historical development of social welfare services in the United States and the political changes and processes necessary to achieve social work goals. Students will acquire an understanding and knowledge of the relationships between cultural, personal, and social values and beliefs in the formulation, implementation, delivery, and analysis of social services.

SWK 350 **3 hours**
Social Work Practice with Individuals: Generalist Practice I

Prerequisites: Social Work Major or consent of instructor. This course is offered as a beginning general foundation class and focuses on social work practice with individuals. It will emphasize interviewing skills and counseling techniques along with the assessment of a client's situation and determination of the appropriate level of intervention for the change effort. Ecosystems theory is utilized in providing students with beginning problem solving practice skills. The integration of values and ethics into a framework for social work practice will be emphasized throughout as students are challenged to demonstrate an awareness of potential conflicts in these areas. As a clinical practice course, students will be expected to participate in interpersonal sharing and activities.

SWK 369 **3 hours**
Human Sexuality

This elective course will review many of the important issues regarding sexuality that professionals will encounter in working with varied populations. Attention is given to the lifelong process of acquiring

information and forming attitudes, beliefs, and values about others and ourselves. Relationships, sexual behavior, sexual health issues, sexual orientation, and the development of sexual identity will be explored. The course is designed to increase the participants' comfort level with these topics and to facilitate their ability to communicate effectively about these issues in their personal life and professional practice. Class participation is required; however, students may opt out of any particular class topic for a written assignment, if necessary.

SWK 370 **3 hours**
Ethical Issues in Human Services

This course focuses on ethical decision-making in human services. Students will examine the basic theories and principles of ethics, the NASW Code of Ethics, and the application of these principles to practice dilemmas. Current practice issues, such as dual relationships, professional boundaries, and ethical issues in rural settings, will be discussed.

SWK 375 **3 hours**
Social Work Practice with Families: Generalist Practice II

Prerequisite: Social Work Major or consent of instructor. The course focuses on intervention methods with families within a generalist social work model. Students will examine family theory in a historical and political context to understand the development of contemporary family practice models and intervention strategies. Influences upon the family (economic, cultural, ethnic, etc.) along with changes to traditional family structures (single parent, gay/lesbian, divorce) will be explored. As a clinical practice course, students will be expected to participate in interpersonal sharing and activities.

SWK 420 **6 hours**
Field Practicum I (fall)

Co-requisite: SWK 421. The field practicum is an educationally focused, guided field experience in which students engage in community-based practice with individuals, families, and/or communities. From the context of a systems theoretical approach to problem-solving, students gain experience with various social work roles, such as advocate, broker, and case manager. Students learn to function as professional generalist social workers in an organizational setting, to demonstrate an understanding of and behavior consistent with the NASW Code of Ethics, and to increasingly assume professional responsibility. Special emphasis is placed on the identification of specific needs, the

empowerment of diverse populations at the micro and mezzo levels, and a keen awareness of social justice issues.

SWK 421 **3 hours**
Senior Seminar I (fall)

Co-requisite: SWK 420. This course affords the opportunity to integrate knowledge, values and skills derived in social work courses with real-life practice situations experienced in the practicum. Students review social work ethics, issues in the workplace, appropriate uses of supervision, empowerment with diverse and special populations, and social justice issues.

SWK 450 **3 hours**
Social Work Practice with Groups: Generalist Practice III

Prerequisite: Social Work Major or consent of instructor. This course focuses on how social work practice can be most effectively utilized through small group work. Students will understand the context and evolution of group theory and the contexts in which it is most effective. Students will be required to participate in an on-going group and will be responsible for leadership, facilitation, and activities during the semester. Students will also explore other group settings (12 step, skills based, educational, etc.) in the community. Special group characteristics (ethnic, gender, gay/lesbian, cultural, children, etc.) will also be explored. As a clinical practice course, students will be expected to participate in interpersonal sharing and activities.

SWK 451 **6 hours**
Field Practicum II (spring)

Prerequisites: SWK 420, SWK 421. Co-requisite: SWK 455. This field practicum is a continuation of the field experience begun in SWK 420. Students continue to use a problem-solving, systems approach as they become more experienced in an agency setting. Emphasis is placed on the specific needs and empowerment of special populations at the macro level, including a keen awareness of social justice issues as they relate to agency policy decisions and organizational structure.

SWK 452 **3 hours**
Research & Program Evaluation

This course introduces students to basic research and program evaluation methodology, utilizing research literature and program evaluation techniques, so that they can become informed consumers of research and proficient providers of program evaluation services in

community-based settings. One aspect of the course focuses on developing an understanding of the basic principles of designing and conducting research. The other aspect of this course prepares students to conduct a Program Evaluation, which critically evaluates services, programs, treatments, plans, outcomes, cost, and satisfaction of the individuals served.

SWK 455 **3 hours**

Senior Seminar II (spring)

Prerequisites: SWK 420, SWK 421. Co-requisite: SWK 451. The course affords the opportunity to continue the integration of knowledge, values, and skills derived in social work courses through real-life practice situations experienced in the practicum, and is the capstone for the student's educational experience. Students produce an original work integrating her/his knowledge, values and skills based on field experiences.

SWK 475 **3 hours**

Social Work Practice with Communities and Organizations: Generalist Practice IV

Prerequisites: Social Work Major or consent of instructor. This course will focus on how students can effectively join, participate, and influence communities and organizations regarding social work related issues. Students will be expected to demonstrate a grasp of ecosystems theory in their approach and will be challenged to show how they can think and act ethically when encountering conflicts in macro-level work. Special emphasis will be placed on understanding the specific needs of diverse and vulnerable populations, and actions for empowerment which can be utilized at the macro level. This is a clinical practice class which requires interpersonal interaction with other students and/or community organizations.

SWK 490 **3 hours**

Special Topics in Social Work

Special topics courses offer the student opportunities to explore selected topics of interest in the discipline.

SWK 491 **1-3 hours**

Directed Individualized Study in Social Work

This variable credit course (1, 2, or 3 credit hours) provides individual students with a unique opportunity to study a particular area of interest under the directed supervision of a faculty member. Faculty approval must be obtained before registering for this class.

THE—Theatre

THE 300 **1-3 hours**

Theater Practicum

This course is designed to cast, rehearse, and present a theatrical production. Students will develop experience in the dramatic arts, including acting and technical aspects of production.

UNV—University Studies

UNV 101 **1 hour**

Freshman Success Seminar

An introduction to university academics and university life including the knowledge and use of college facilities and services. Students will be introduced to administrators, faculty programs and services at Thomas University. This course introduces skills for understanding and succeeding in the culture of higher education. Mandatory for all freshmen.

UNV 102 **2 hours**

Student Success Seminar

An in-depth-presentation of specific success strategies for college students: goal-setting, memory, test-taking, note-taking, reading and writing tips, critical thinking and relationships. Mandatory for all students in developmental classes.

UNV 103 **1 hour**

Personal Wellness

Prerequisite or concurrent course: UNV 101. This course emphasizes six dimensions of personal wellness (physical, emotional, social, spiritual, environmental, and intellectual) through education about nutrition, exercise, stress management and healthy relational behavior. This course reinforces wellness skills for understanding and succeeding in the culture of higher education.

UNV 111 **1 hour**

Student Success with Technology Enhanced Learning

This course provides a foundation for students to succeed in a technology enhanced learning environment. Students will explore courses management platforms, online tutoring services, electronic research tools, electronic communication methods (including video, audio, text, and multi-media conferencing), smartphone/tablet applications, software and similar technologies in a hands-on environment. Students will develop and/or extend their proficiency with these technologies as well as assess how their individual level of proficiency can influence their learning. In particular, this course will reinforce skills for developing learning strategies in

order to reach personal goals, achieve academic success, and work efficiently in the technologically rich culture of the 21st century.

UNV 201 **1 hour**
Career Development

Prerequisite or concurrent course: UNV 101. This course exposes students to TU's major programs, facilitates students' self-assessment of aptitudes and interests through personality inventories and career profiles, and identifies and encourages a suitable choice of major and career opportunities matching students' strengths. This course reinforces skills for understanding and succeeding in the culture of higher education.

UNV 202 **1 hour**
Introduction to Ethics

Prerequisite or concurrent course: UNV 101. This course extends students' understanding of ethical behavior in the academic setting, introduces students to traditional frameworks for ethical decision-making, and promotes self-assessment of personal and professional values and their influence on ethical perspectives. This course will reinforce skills for understanding and succeeding in the culture of higher education.

UNV 211 **1 hour**
College Research Skills

This course is designed to increase students' information literacy skills. Students will learn how to define, understand, evaluate, organize, and communicate information effectively. Students will use critical thinking abilities to develop research skills, organize and present information, and comprehend the legal aspects of information use.

UNV 300 **2 hour**
Career Management

The course emphasizes holistic education, providing a learning experience that gives students a better appreciation of core values and the inter-relationship of individual and society as students prepare for meaningful careers. Thus, emphasis is placed on the principles of lifelong learning and experiential learning. As students plan and participate, UNV 300 provides students practical hands-on experiences. Course is taught in Thomas University's programs in China.

Delivery Mode for Course Offerings

Campus-based (CB): courses meet typically twice a week face-to-face for 1 hour and 20 minutes at a TU

campus (Forbes campus, satellite, or Dual Enrollment high school coded SA or TC). Some CB courses may meet once per week. CB courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Hybrid Weekly (HW): courses meet face-to-face at least once a WEEK; the rest of the course content, instruction, and interaction occurs online through Blackboard and/or a program-specific context. HW courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Hybrid Bi-Weekly (HB): courses meet face-to-face every other WEEK; the rest of the course content, instruction, and interaction occurs online through Blackboard and/or a program-specific context. HB courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Hybrid Monthly (HM): courses meet face-to-face once a MONTH; the rest of the course content, instruction, and interaction occurs online through Blackboard and/or a program-specific context. HM courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Online (OL): course content, instruction, and interaction occurs entirely online and asynchronously through Blackboard and/or a program-specific context. OL courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Online (OS): course content, instruction, and interaction occurs entirely online through Blackboard and/or a program-specific context and includes synchronous online class meetings. OS courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Online with Campus-based Exams (OE): course content, instruction, and interaction occurs online through Blackboard and/or a program-specific context; however, students are required to take exams in a face-to-face proctored setting. OE courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Off-site Field Practicum or Internship (OF): courses meet off-site at another location where students learn through hours in a supervised professional setting. OF courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Lab (LB): course content is delivered in a learning-lab format. LB courses meet approximately 1 hour per week for face-to-face instruction while the remaining 2 hours per week is spent engaged in the learning lab. LB courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Directed Independent Study (DI): courses are supervised by a professor but the student works independently to complete course outcomes. DI courses may run for 16, 10, 8, or 5 weeks – always refer to the respective Academic Calendar.

Faculty Roster

Dr. Christine Ambrose (2012)

Assistant Professor of Conservation Biology; and Director of the GAPP Center. Ph.D., Florida Institute of Technology; B.S., Western State College.

Dr. Claire Dede Avery (2013)

Chair, Division of Counseling and Psychology, Assistant Professor of Psychology. Ph.D., M.A., Fielding Graduate University; B.S., Psychology, Thomas University.

Deana Baker (2013)

Chair, Division of Science, Assistant Professor of Biology. M.S., California State University; M.S., University of Florida; B.S., Eastern Mennonite College.

David Barnett (2014)

Instructor of Rehabilitation Studies, and Coordinator of Career Services. M.S., Thomas University; B.A., Brewton-Parker College.

Dr. Karl S. Barton (1997)

Chair, Division of Humanities and Interdisciplinary Studies. Professor of Music. D.M., M.M., Florida State University; M.M. University of Akron; B.M., Duquesne University.

Crawford Battle (2006)

Chair, Division of Criminal Justice, Instructor of Criminal Justice. M.S., Troy State University; M.S., Albany State University; B.S., Georgia Southern University.

Lori Battle (2007)

Assistant Professor of Criminal Justice. M.S., Troy University; M.S., Thomas University; M.P.A., Columbus State University; B.S., Thomas University.

Dr. Nilakshee Bhattacharya (2015)

Assistant Professor of Chemistry. Ph.D., Florida State University; M.S. Colorado State University; B.S. University of Calcutta.

Deborah L. Burch (2012)

Assistant Professor of Nursing. M.S.N., B.S.N., Florida State University; B.S., West Chester State University.

Dr. Nadine Connor (2015)

Chair, Division of Nursing. D.N.P., University of South Florida College of Nursing; M.S.N., F.N.P., University of Texas Health Science Center; B.S.N., Columbia University School of Nursing.

Dr. Kim Cribb (2007)

Associate Professor of Nursing. Ed.D., Valdosta State University; M.S.N., Albany State University; B.S.N., Valdosta State University.

Richard Curtis (2011)

Assistant Professor of Art. M.F.A., School of the Art Institute of Chicago; B.F.A, University of North Alabama.

Dr. Jill Dennis (2002)

Associate Vice President of Enrollment Management & Marketing. Professor of Medical Laboratory Science. Ed.D., M.Ed., Valdosta State University; B.S., Georgia State University.

Dr. Lisa DeGiorgio (2011)

Assistant Professor of Clinical Rehabilitation and Mental Health Counseling. Ph.D., University of Arizona; M.S., B.S., Utah State University.

Robin DePaola (2007)

Assistant Professor of Learning and Literacy. Coordinator of Academic Resource Center. M.S., University of Alabama; B.S., Berry College.

Dr. Steve DePaola (2003)

Associate Professor of Psychology. Ph.D., M.S., University of Memphis; B.A., California State University, Fullerton.

Dr. Jason Dunn (2015)

Assistant Professor of English. Ph.D., University of California, Davis; M.A., San Diego State University, B.A., University of South Florida.

Dr. Tina Fleming (2016)

Assistant Professor of Clinical Rehabilitation and Mental Health Counseling. Ed.D., Argosy University; M.S., Thomas University; B.A., Albany State University.

Susan Ford (1989)

Director of Academic Advising and University Studies, Associate Professor of Learning and Literacy. M.S., B.S., Florida State University.

Dr. Susan Fowler (2001)

Associate Professor of Social Work. Ed.D., M.S.W., University of Georgia; M.Ed., University of South Carolina; B.A., Emory University.

Dr. Dale Graham (2003)

Associate Professor of Mathematics. Ph.D., Florida State University; M.S., B.S., Valdosta State University.

Dr. Debra Gresham (2010)

Assistant Professor of Social Work. Ph.D., Florida State University; M.S.W., B.A., University of Georgia.

Dr. Scott Grubbs (2016)

Instructor of Education. Ph.D., Florida State University; M.Ed., Valdosta State University; B.A., University of Georgia.

Dr. Susan Hagood (2013)

Associate Professor of Education, Coordinator of Assessment & Accreditation. Ph.D., M.S., B.S., Florida State University.

Dr. Eleanor Hall (2007)

Associate Professor of Nursing. Ph.D., Georgia State University; M.S.N., B.S., Vanderbilt University; Diploma, Baptist Memorial College.

Jennifer Hamilton (2013)

Instructor of Education. Coordinator of Field Placements and Partnerships. M.S., Thomas University; B.S., Newberry College.

Mina Haretos (2015)

Instructor of Business. M.B.A., Valdosta State University; B.A., Flagler College.

Elizabeth Harrell (2015)

Instructor of Biology. M.A.T., University of West Alabama; B.S.I.S., Mississippi State University.

Karen Harvey (1998)

Instructor of Computer Science. M.S., Valdosta State University; B.A., California University of Pennsylvania.

Dr. Diane Hopkins (2012)

Assistant Professor of Biology, Ph.D., Vanderbilt University; M.S., Tennessee Technology University; B.A., Carson-Newman College.

Jennifer Howell (2015)

Instructor of Rehabilitation Counseling. M.S., B.A., Georgia Regents University.

Scott Johnson (2008)

Instructor of Criminal Justice. M.P.A., Columbus State University; B.S., Thomas University.

Dr. Cristina Jones (2011)

Assistant Professor of Rehabilitation Studies. Ph.D., Florida State University; M.S., Florida State University; B.S., Florida State University.

Dr. Steve Kuniak (2016)

Assistant Professor of Counseling. Ph.D., M.S., Duquesne University; B.A., Saint Vincent College.

Dr. Ann Landis (1998)

Executive Vice President and Provost, Professor of English. Ph.D., Florida State University; M.A., James Madison University; B.A., Eastern Mennonite University.

Ingee Lee (2010)

Assistant Professor of Mathematics. M.Ed., B.S., University of North Carolina.

Dr. Susan Lynn (2010)

Chair, Division of Education, Professor of Education. Ph.D., University of South Carolina; M.S., University of Tennessee; B.S., Coker College.

Terry L. Maul (1994)

Assistant Professor of Sociology. M.S., B.S., Florida State University.

Dr. Carolyn S. McClenny (2004)

Associate Professor of Learning and Literacy. Ph.D., Florida State University; M.S., B.A., University of North Carolina, Chapel Hill.

Dr. John Meis (2016)

Associate Vice President of Academic Affairs, Associate Professor of Psychology. Ph.D., M.S., Florida State University; B.A., Rollins College.

Bill Milford (2003)

Chair, Division of Social Work, Assistant Professor of Social Work. M.S.W., Columbia University; B.A., University of Connecticut.

Randy Minton (2016)

Assistant Professor of Business. M.B.A., Nova Southeastern University; B.A., University of St. Francis.

Lisa Mitchell (2004)

Assistant Professor of Speech & Theater. M.S., B.A., Florida State University.

Dr. Laura Moak (2016)

Assistant Professor of Education. Ed.D, Argosy University; M.S., Georgia State University; M.A., Southwestern Baptist Theological Seminary; B.M.E., Southeastern Louisiana University.

Gale Neal (2015)

Assistant Professor of Education and Graduate Program Coordinator. M.S., B.A., Florida State University

Dr. Martha O'Neill (2008)

Associate Professor of Nursing. Ph.D., University of Florida; M.S., University of Arizona; B.S.N., University of Michigan.

Jaime Ortiz (2015)

Assistant Professor of Medical Laboratory Science. M.B.A., B.S., Thomas University, A.A.S., Valdosta Technical College.

Remigio Padilla-Hernandez (2013)

Instructor of Mathematics. Coordinator of Mathematics. International Student Advisor. M.Ed., B.S., Valdosta State University.

Dr. Pauline Patrick (2008)

Assistant Professor of Clinical Rehabilitation and Mental Health Counseling; Director of Disabilities Support Services; Graduate Program Director. D.S.W., University of Tennessee, M.S.W., Florida State University; B.S., Union College.

Dr. Jennifer Phillips (2015)

Assistant Professor of Education. Ed.D., B.S., Florida State University.

Dr. Pauline Ray (2005)

Associate Professor of Business. Ph.D., Touro University; M.S., B.S., Mississippi University for Women; B.S., Mississippi State University.

Dr. James A. Sheppard (2016)

President. Ph.D., The University of Sheffield; M.A., Iliff School of Theology; B.A., Bethany College.

Dr. Sandra Simonds (2010)

Assistant Professor of English. Ph.D., Florida State University; M.F.A., University of Montana; B.A., University of California.

Dr. Minjung Song (2016)

Assistant Professor of Psychology. Ph.D., M.A., University of Nebraska – Lincoln; B.B.A., Korea University; B.A., Duksung Women's University

Dr. Jenny Swearingen (2000)

Interim Chair, Division of Business, Assistant Professor of Business. D.B.A., M.B.A., Nova Southeastern University; B.A., University of South Florida.

R.C. Tucker, Jr. (2015)

Instructor of Education. M.Ed., B.S., Thomas University.

Dr. Todd Van Wieren (2015)

Assistant Professor of Clinical Rehabilitation & Mental Health Counseling. Ph.D., Virginia Commonwealth University; M.A., University of Iowa; B.A., Calvin College.

Katy Watson (2016)

Instructor of Medical Laboratory Science. B.S., Thomas University.

Gale N. Whitehurst (1975)

Professor of History. M.A.T., B.A., Rollins College.

Dr. Bonnie Woodbery (2003)

Associate Professor of English. Ph.D., M.A., B.A., Florida State University.

Dr. Shannon Woods (2008)

Assistant Professor of Nursing. D.N.P., University of Central Arkansas; M.S.N., Thomas University; B.S.N., University of Central Arkansas.

Dr. Jodi Yambor (1993)

Professor of Sport Psychology. Ph.D., M.S., Florida State University; B.A., University of Miami.

Professor Emeriti:**Howard J. Floyd (1986-2000)**

Associate Professor of Business M.B.A., University of Georgia.

James E. Hodges (1985)

Associate Professor of English, M.A., B.A., Florida State University.

Richard W. Search (1983-2007)

Professor of Natural Sciences. M.S., B.S., University of Miami.

Alma Mater

Alma Mater

(Words by Dr. Douglas Haydel
Music by Dr. Michael Webb)

*Under pine and dogwood flowering,
stately and serene,
stands our cherished alma mater,
honored white and green.*

*Through tradition, toward tomorrow,
beacon bright for all to see,
Alma mater, Thomas University.*

*Art and science, God and country,
show a better way.*

*We, whose challenge leads to triumph,
gather here today.*

*Building knowledge, seeking wisdom,
setting minds and spirits free.
Alma mater, Thomas University.*
